Honorary chapter farmer titles were given last Friday night to C. E. Birk, left, Mrs. D. O. James and Glenn Shelton. In the other picture are President Jim Barbour and Sweetheart Linda Geisert. The cuts are used through courtesy of the Wichita Daily Times.

Sixth annual FFA banquet was held last Friday evening in the school cafeteria. Jim Barbour, the president, was master of ceremonies. Printed programs were provided by his father Loys D. Barbour.

Underwood's catering service served barbecue, and everyone enjoyed the meal.

Louie Reed gave the record of accomplishments as follows: "The FFA chapter has participated in many events this year. Deryl James and myself went to the convention at Dallas. We heard Joe Moore, the Star Chapter Farmer of America, speak. Jane Russell, movie star, gave a talk also.

"The chapter was awarded \$150 from the Texas Electric Service company in farm electrification. This money was used to send Don Roy Klinkerman, Randy Trantham and Jerry Padgett to the national convention at Kansas City in October.

"We elected Linda Geisert as our FFA queen and entered her in the district sweetheart contest at Petrolia.

"The chapter donated \$10 to the Finis Welch fund. He is the state vice-president who was seriously injured in an automobile accident in December and is still in the hospital.

"My family and myself gave a barbecue for the Ag. II boys, and I think everyone enjoyed it.

"Don Roy Klinkerman was given a gilt. The main purpose of this was to start a pig chain.

"Our chapter was awarded a Silver Emblem rating at the state convention last summer. This is the second highest rating given by the state FFA association."

Lightning, Fire Destroy Home

Lightning struck the home of Mr. and Mrs. R. P. Dickerson in the southwest edge of town last Saturday night, and the resulting fire caused a total loss to the building and the family's furniture and clothing.

The Volunteer Firemen made a run to the Dickerson home but the fire was too widespread for the firemen to bring it under control. Clothing and bedding are being gathered for use of the family, and cash donations are also being made to assist in rehabilitation of the family.

Those wishing to help are asked to call Mrs. Pat Kingcade at 7142 to find out the needs of the family.

Mrs. Johnson, Resident 47 Yrs, Taken by Death

Funeral services were conducted for Mrs. Anchel Johnson, 75, Monday afternoon, April 22. The body lay in state from 2:00 p.m. until 3:00 in the Presbyterian church here.

Rev. Harold Dykstra, minister, officiated. Burial was in Highland cemetery under direction of Tanner Funeral Home of Iowa Park. Pallbearers were Locke Lowrance, C. E. Birk, Max Goetze, Gale Lowrance, King Abernathy and Thelbert Martin of Wichita Falls.

Born Jan. 29, 1882, in Mississippi, daughter of Mr. and Mrs. C. S. Harris, when she was four years of age she moved with her parents to Texas, settling in Ellis county. She taught schools in Ellis county before the Harris family moved to Iowa Park in 1910, where she taught the first grade about five years.

In 1916 at Petrolia, she was married to the late J. E. Johnson. They moved to the farm northwest of town where the family has resided all these years.

Survivors include a daughter Miss Mary Ellen Johnson of Iowa Park, a son Johnny Johnson of Alberta, Canada; a brother C. V. Harris of Dallas.

Methodists from throughout the state are expected to be in attendance at the annual Perkins Lectures to be given in First Methodist church of Wichita Falls, Sunday, April 28, through Thursday, May 2. Featured speaker will be Gerald Kennedy, resident bishop of the Los Angeles (Calif.) area. Theme of the series will be "Gospel Foundations" in the morning and "All Sorts and Conditions of Men" in the evening.

RECIPE OF THE WEEK

By Julia Hunter

Lone Star Gar Company
Strawberry Preserves: Combine in deep kettle 4 cups berries, not too ripe; 5 cups sugar. Cook over low flame until sugar dissolves. Turn flame on full. When mixture reaches full rolling boil, start timing. Boil 12 minutes. Turn off the flame. Skim off foam and let berries stand overnight or until cold. Pour into hot jars and seal. Yields two pints.

Wakefield-Hutchinson

Mrs. Edith Wakefield of Archer City and Clyde Hutchinson of Iowa Park were united in marriage Saturday evening, April 20, in Quannah with Rev. Brooks, Methodist minister, officiating.

Their attendants were Miss Nina Hutchinson and Frank Hutchinson of Eldorado, Okla., sister and brother of the groom.

The bride was attired in a tan street length dress. She wore an orchid corsage.

Mrs. Hutchinson was formerly employed as bookkeeper with the L. L. Drilling company. Mr. Hutchinson is owner of Clyde's Market here and in Archer City.

They plan to establish residence on East Magnolia street the first of May.

Parkey Coaches Young Wrestlers

Fred Parkey of Iowa Park, himself an Olympic wrestler, has taken on an interesting job which should prove of inestimable value in the development of youngsters of this area. He is coach and manager for the Wichita Falls YMCA wrestling team.

Boys from 9 to 16 years of age make up the squad which practices every Tuesday night at Wichita Falls.

So far this season the YMCA wrestlers have had dual meets with Dallas and Waco. The Wichita county boys have given good accounts of themselves and are a credit to their coach and their parents.

Iowa Park is represented on the squad by Sam Archer, James Todd, Gary Todd, Lee Holloway, Kenneth Holloway, David Parkey, Paul Parkey, Gordon Parkey, Michael Patterson, Jackie Brooks, Bob Gilbreath, Jimmie Grod.

Wichita Falls boys are Bob Walker, Clifton Robertson, Wilson Friberg, Jim Leach, Jerry Fults, Jim Fults.

The boys are always matched by ages and weights, so they are never thrown into the ring with a big advantage or disadvantage.

WATER LEVEL IS LOW AT LAKE IOWA PARK

Iowa Park area has had a lot of good soaking rains, but there has been little to run into the lakes.

Monday night's rain helped more than any other this spring.

The new lake has caught 10 inches and the old lake 6 to 8 inches.

Clifford Roberts, water superintendent reports the new lake is 6 feet lower than at this time last year. On April 1, 1956 the water stood at 1031 feet above sea level.

On April 1 this year the water was at 1027 feet.

Cancer Fund Passes \$1100

Iowa Park cancer drive chairman Dr. T. M. Clark reports over \$1100 has been collected in Iowa Park and Valley View and surrounding area. He expresses his thanks to ESA, 23 Study club, Modern Music Study club, Noon and Evening Lions and workers at Valley View; and to those who contributed.

If anyone was missed who cares to give they may leave money at the State National Bank with Miss Roberta Hill or at Hays Rexall Drug Store with Dr. Tommy.

Keystone Kops are coming to Iowa Park, so all you folks who scared of excitement and fun better make a bee-line for the 'Fraid Hole!

We can't give much details, but we can certify on oath that there will be fun and excitement for everybody. Even the Kulprits!

Jaycees under leadership of N. E. Guthrie Jr. will serve subpoenas and drag their accused fellow-townspoe before a Kangaroo Kourt, where justice will be administered with a firm hand.

Every Kulprit will receive a fair trial before he is convicted and sentenced.

Since it is unKonstitutional to mete out cruel and unusual punishments—and who Kares about the Konstitution?—you can be sure the punishment will be cruel and unusual.

There'll be witnesses, judges and juries, and lots of audience. We're not sure if a stranger would be able to pick out which was which when the Holy Works got started to popping, but you can be sure of this—dignity of position and sanctity of the individual will be on vacation Saturday afternoon between 1:30 and 2:30 when the Keystone Kops and the Kangaroo Kourts start operating on the Corner of Kash and Wall.

Y'all Kome!
This announcement is sponsored and okayed by the Chamber of Kommerce, the Society for Prevention of Krueity to Animules, and by the Garden Klubs of Wichita County, Texasa.

Reflections from the Bible

By Ray Marcum, Minister
Iowa Park Church of Christ

There is no such thing as an old fashioned gospel. There is no such thing as an old fashioned church, unless we speak of the churches of men, which of necessity, bear the marks of the age in which they were created. There is no such thing as "an old fashioned plan of salvation. An old fashioned thing is something that is outmoded. The church is not out of date. The plan of salvation does not bear the brand of an age long dead.

The Bible, the church, the plan of salvation—they do not need revision. They are as fresh and as sufficient as if they had been written today. They do not breathe the culture of an ancient past nor are they distinguished by the oriental mysticism in which they were born. There is nothing Jewish about them. They are as thoroughly acceptable by one race as another and by one age as another. They meet the needs of men the world round, until the end of time.

We plead with you to go back to the Bible and leave off those changed characteristics of modern religion which bear upon the very face of them the earmarks of the generation in which they were born, and the culture of the class for which they were designed.

What To Do In A Tornado

- People in open country can view the approach of a tornado and move at right angles to its path. If there is no time to escape, lie flat in the nearest depression, such as a ditch or ravine.
- In towns or cities, seek shelter inside, preferably in a substantial building. Stay away from windows.
- The southwest corner of the basement of a frame house is safer than in a brick or stone house. If there is no basement, lie down on the first floor under a table or bed (preferably in the southwest corner).
- Urban schools: Stay inside, away from windows; remain near an inside wall on a lower floor. Avoid auditoriums and gymnasiums.
- Rural schools of frame construction: Teachers should remove children to a ravine or ditch if storm shelter is not available.

Soil Conservation

Land leveling is done by co-operators with Wilbarger-Wichita Soil Conservation District to prevent erosion, make maximum use of rainfall, obtain efficient use of irrigation water, and facilitate soil and water management, according to Elvy Sargent, soil conservationist with the Iowa Park work unit.

Field leveling, field bench leveling and parallel bench borders are most common types of leveling recommended. Field leveling is the most desirable, if land and slopes are flat enough to permit this type of leveling. Either row or borders may be used to control flow of water with minimum loss of land.

It is sometimes practical to cut a large field into two or more field benches to reduce cost and excessive cuts into topsoil.

SCS has available the information on your soil properly to plan an irrigation system. This includes information on soil depth, water holding capacity, frequency of irrigation for various crops, amount of water needed for each irrigation and crop adaptations for each soil.

Elbert Lemons, district co-operator four miles west of Wichita Falls is leveling a small field, using parallel borders.

Have you taken time to drive out to Highland cemetery the past week to see the beautiful blue-bonnetts and other flowers in full bloom?

If you have or will, you saw or can see that Dallas Ralston has done a wonderful job in keeping the cemetery grounds and making it an attractive place.

If at all possible, go out and visit in the cemetery. It will make you feel so peaceful and thankful that our heavenly Father has given us such beauty.

Mr. and Mrs. Son Bell and Susan of Abilene visited during the Easter weekend with their parents Mr. and Mrs. John Bell and Mr. and Mrs. L. A. Teal and other relatives.

EXIT—NOISY, OUTBOARD BOATING

With sunny skies and warm weather just around the corner, boat fanciers everywhere are busy putting their equipment in shipshape for summer fun.

For those whose crafts are run by outboard motors there is no more excuse for noisy vibrations and rough riding. A transom pad is the answer. These vastly improved cushions will reduce outboard vibration and noise up to 80% by insulating the engine from both sides of the transom, with a pump, double shock absorber of durable neoprene.

Besides their regular line of transom pads for all engines a completely new type of transom pad especially designed to accommodate all large engines of 25 HP and over is being introduced this year. The only one of this kind on the market, it is called "Little Giant" by No-Vibe, and is longer and heavier than the conventional transom pad and has an extra deep tail flap to fit heavy outboard motors.

Still another important feature is that gasoline, oil, water or sun will not deteriorate or affect the resiliency of this improved rubber product. And thanks to a moulded cut-out, it fits all boats with or without a transom-knee. Nor do you have to be a master mechanic to attach these pads... a few turns of the screw driver does the trick!

Manufactured by the Marine Division of Worthington Products the pads range from three to five dollars and are available at sporting goods counters everywhere.

Keith Keeter, student of NTSC, Denton, visited his parents Mr. and Mrs. S. B. Keeter during the Easter holidays.

TELEPHONE TALK

MOTHER'S DAY CUSTOM

Telephones will be ringing all over the country Sunday, May 12, when the annual custom of Mother's Day Long Distance calling is observed once again.

Nowadays, it seems almost every family has at least one "branch" separated from the rest by hundreds or even thousands of miles. A call home on Mother's Day is always a special event—even though reunions by Long Distance may be pretty frequent throughout the rest of the year, too.

If you're planning a call on Mother's Day this year, don't forget the money-saving way to do it: call station-to-station. Rates are approximately 1/3 lower than on person-to-person calls.

And as usual—to save time, call by number. Your Long Distance calls will go through twice as fast if you can give the operator the out-of-town number you're calling.

GIVE HER A TELEPHONE

While I'm on the subject, I'd like to offer another suggestion for Mother's Day.

Additional telephones make useful gifts. They're decorative, too, when you select one of the eight available colors.

An additional phone for kitchen or bedroom, or next to the sewing table, is the kind of gift that will make sense to a mother or grandmother. She'll remember and appreciate it all year long, because it will always be as useful as the day it's installed.

It's easy to arrange gift service, even for someone who lives in another city.

Just call the telephone business office. We'll take it from there.

DON DAVIS CALLING

Don Davis, our telephone news reporter (he writes the leaflet that comes with your monthly telephone bill), has received a number of letters telling of exciting, touching, or humorous real-life experiences in which the telephone played a major part.

Don is hoping to collect more stories like these. Are there any telephone calls you'll never forget?

If such an experience especially stands out in your memory, and you'd care to tell him about it, he'd appreciate hearing from you.

Just write Don Davis, care of the telephone business office, Wichita Falls. We'll forward your letter to him.

More Religion Needed for Safe Driving

J. O. Musick, general manager of the Texas Safety association, said this week "In no place is religion more practical than behind the wheel of a car."

The problem of traffic accidents is not merely a technical problem, he explained. It is a human problem. Accidents are caused by drivers, not by automobiles.

"All the advances made in automotive design, better and safer streets and highways, and new devices and techniques for efficient traffic movement will not solve the accident problem until drivers become aware of their moral and social obligation behind the wheel of a car," Musick said.

"Deliberate or unintentional vio-

lation of a traffic law or sign, or of the dictates of common sense or courtesy, takes the 'accident' factor out of traffic accidents. Such actions placed the burden of guilt upon the negligent driver. And if death results, the guilty driver also has broken the commandment — 'Thou shalt not kill!'"

It is time for all persons who profess any religious faith, to accept their moral responsibilities in helping to prevent traffic accidents. Anger, impatience, selfishness—have no place on the roads. They lead to accidents and often to death. Love, courtesy and consideration, on the other hand, will reduce traffic accidents."

VV Girls Are 14-Year Champs

For almost a generation now, the Valley View school has dominated its district in Girls Volleyball play! For the 14th straight time the Warrior girls rose up and smote their adversaries last Wednesday at Harrold, and came out district 24-B champions.

In annexing the title they defeated Oklaunion, Lockett and Northside.

Co-captains Diana Hoskins and Ginger Simmons accepted the district trophy and presented it to the school at a special assembly last Thursday morning.

Ginger, Diana and Georgia Stewart are spikers of the team; set-ups were fashioned by Joyce Copeland, Judy Stewart, Lunetta Stoneking.

Report from the school didn't list any substitutes.

Sunday dinner guests of Mrs. Alie Girard were her daughters and families: Mr. and Mrs. Leslie Clapp and Leslie Boyd and Larry; Mr. and Mrs. R. D. Dunham and Richard and Robin of Pampa. Mrs. Dunham and boys will stay until May 1 while Mr. Dunham attends a golf tournament in Dallas.

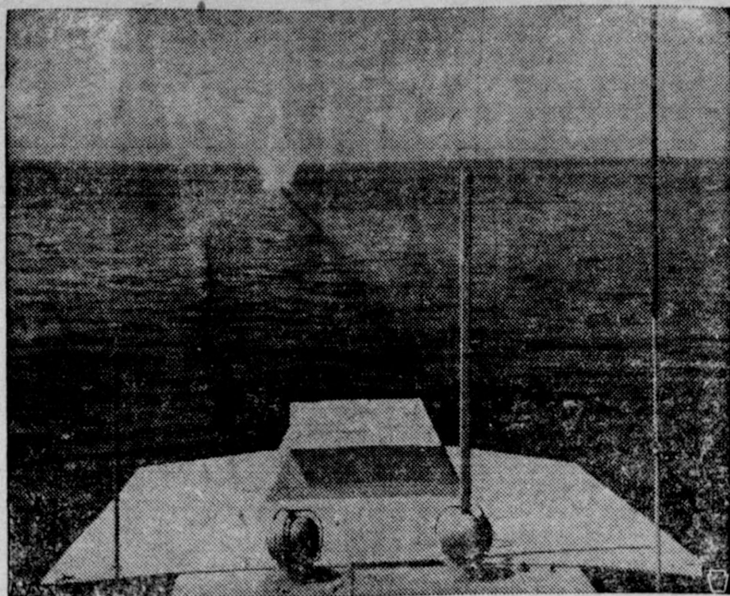

Mr. and Mrs. James Reese and son Jimmie visited relatives in Slaton during the Easter recess.

Mrs. J. E. Cross has moved to Foreman, Ark., after living here with her sister the late Mrs. Mary Bishop for many years. Mrs. Cross has made many friends in Iowa Park during her stay.

Sunday guests in the home of Mr. and Mrs. Henry Wolf were Mrs. Harold Swanson and children of Nocona, Dean and Charlie Meyers of Wichita Falls, Mr. and Mrs. Louis Hartmangruber and children, Mrs. Cecil Brown and Mrs. Gene Tatum.

Potential Oil Gusher

This seismicographic explosion in Lake Maracaibo, Venezuela, which is recorded and charted by experts on the boat in the foreground will enable them to determine prospects of finding oil there.

Lake Maracaibo, which is about the size of Lake Erie and dotted with 4,500 oil derricks, is one of the world's richest oil basins. More than 2,000 of these derricks belong to the Creole Petroleum Corporation, affiliate of Standard Oil Company (New Jersey), and produce over 900,000 barrels daily.

Club Women Close Season With Installation

Members of 23 Study club gathered Thursday in the home of Mrs. W. G. Steele for the final meeting of the season.

Preceding the business of the day, a luncheon was served, with each member contributing a covered dish, following a custom of this area. Places were set in the den and on the porch.

As leader for the day, Mrs. Earle Denny presented Mrs. Oscar Lochridge, who played the "Panis Angelicus" by Franck as a meditation. Mrs. Lochridge, organist, was joined by Mrs. Steele at the piano to present two American Negro numbers: "Nobody Knows the Trouble I've Seen" and "Where You There?" This fine arts group was closed by Mrs. Lochridge, who played "The Holy City."

During the business session directed by the retiring president Mrs. Dave Harbour, the club voted to place 29 links in the chain for the Dorothy Vehman oriental scholarship sponsored by the Texas Federation of Women's clubs.

It was learned that the club had furnished 12 helpers for the cancer drive just completed.

Mrs. Homer Blalock installed incoming officers with an original service, likening each to some great American of the past or the present. Officers and those with whom linked are:

President: Mrs. Gibbons Brubaker (Molly Pitcher)
 Vice-president: Mrs. T. M. Thaxton (Eleanor Roosevelt)
 Secretary-treasurer: Mrs. C. E. Birk (Ella Flagg Young)
 Corresponding secretary: Mrs. S. L. Denny (Mrs. Percy V. Penypacker)
 Parliamentarian: Mrs. C. J. Thurber (Susan B. Anthony)
 Board member: Mrs. Charles W. Coppock (Sen. Margaret Chase Smith)
 Board member: Mrs. Richey Abernathy (Ivy Baker Priest)

Miss Dorothy Abernathy, professor of Bible in Austin college at Sherman, spent the Easter holidays visiting her parents Mr. and Mrs. King Abernathy and other relatives.

Mr. and Mrs. Oral Williams and children, Mr. and Mrs. Joe Cotton and children visited in Jacksboro last Sunday with Mr. and Mrs. E. Robbins.

Mr. and Mrs. T. C. Scott had as guests their two daughters Mr. and Mrs. Charles Bolding and little son Tommy and Miss Joy Scott, student at Texas Tech, all of Lubbock.

Dr. Cook, Once Doubted, Is Cited As Pole Discoverer

Dr. Frederick A. Cook After almost half a century, an American explorer once looked upon as a great imposter, is being accorded recognition for a feat that created a storm of controversy. Dr. Frederick Albert Cook was the pioneer Arctic explorer who claimed that he was the first to reach the North Pole in 1908, but whose claim was doubted by many despite the fact that more than fifty leading explorers and scientists attested to the credibility of his reports and his book.

This Sunday, April 21, marks the forty-ninth anniversary of the Discovery. In a recent issue of the Journal of the Italian Geographical Society the well-known Italian geographer and Director of that country's Polar Institute, Dr. Silvio Zavatti, stated without reservations that Dr. Cook should be finally acknowledged as the Discoverer of the Pole.

Dr. Cook, one of the most controversial figures in the history of exploration, found more acceptance in scientific circles and among Arctic explorers in Europe than he did in his own country. American encyclopedias and geography books ignored the Brooklyn physician for years, and usually gave credit for the first attainment of the Pole to his former exploration companion and later arch-rival, Robert E. Peary.

Congress pensioned Peary, a naval engineer, as a Rear Admiral in 1911, but refused to honor him as the "Discoverer." Most European, and many American Arctic travelers, have always doubted Peary's claim. Dr. Cook died in 1940 and is buried in Buffalo, N. Y.

Ikard says

This week the committee on agriculture of the House released a report of one of its subcommittees on food costs trends.

The report concerns itself to a large degree with the price spread between raw farm products and processed foods we buy in the grocery and market.

It shows that in the past 10 years food prices have increased 16% while the price the farmer receives for the raw product has declined something like 14%.

During this 10-year period the average city family has increased its expenditure for food by \$500 a year, and of this additional outlay, 80% or \$400 went to processing, transportation and distribution, and only \$45 went to the farmer.

It is interesting to note that when the city family buys a loaf of bread or a cereal product, they pay mostly for processing, packaging and distributing the product and that little of the retail price goes to the farmer. For example, there is less than 3c worth of corn in a 22c package of corn flakes; only 4c worth of wheat in a 28c package of crackers. The pound loaf of bread that sold in 1936 at an average price of almost 18c contained wheat having a farm value of 2.6c.

In 1936 the average city family spent \$1500 for food. Of this, \$105 was paid to importers and fishermen for imported foods and fish, and \$465 went to farmers for farm-

produced unprocessed foods. The balance of \$930 went for processing, transporting and distributing to the retail purchasers.

Mrs. Virgil Woodfin had an appendectomy Tuesday evening at Wichita General hospital.

Garvin Shawver, who is in a Denver, Colo., hospital, is to have surgery soon.
