MENTAL MEDICINE -

Emotional Problems are Concern of Family Doctors, Meeting Told

Because sick people see their family doctor first, the general practitioner is "the first line of defense against mental ills," Baltimore psychiatrist Frank J. Ayd told a medical meeting in Washington recently.

The meeting—a discussion of everyday problems in psychiatry —was called by the Maryland and District of Columbia chapters of the American Aca-

demy of General Practice and J. B. Roorigand Company, New York pharmaceutical firm. Its purpose

was to in- Dr. Frank Ayd crease the family doctor's awareness of emotional prob-lems in his patients and to suggest ways of treating them

Mike Gorman, director of the National Committee Against Mental Illness, said there are not nearly enough psychiatrists to help the 12 million Americans "disabled by emotional and mental aberrations." However Dr. Ayd said later,

many can be helped by the general practitioner, if he knows of their difficulties and avails himself of suitable drugs to help

Milder Medicines

Most patients, according to Dr. Ayd, do not require the more powerful drugs. They can be helped with milder-acting medicines. Atarax, one of this latter group, is especially useful in treating upset school children and working adults, Dr. Ayd said, because the drug does not appear to cause drowsiness or mental fogginess.

Dr. Irwin M. Cohen, director of the neuropsychiatry clinic at John Sealy Hospital in Gal-

veston. Texas said patients who are anxious and agitated are likely to be helped most by the

tranquilizing drugs.
Dr. Samuel H. Kraines, head of a private psychiatric clinic in Chicago. told the meeting that mental depressions sometimes result from body disturbances, occuring twice as often in women as in men and often fol-lowing a predictable pattern. Nearly always, he said, patients who are downcast and blue find it hard to sleep. Yet they feel tired and listless and have poor appetites. Their interest wanes. and their ability to concentrate and make decisions is impaired.

Untreated, he said, a mild depression generally becomes worse The doctor can help a great deal by sympathetic understanding and reassurance of recovery. Dr Kraines declared. Medication, he said seeks to "elevate mood, help the patient sleep and reduce his tensions." Stress Personal Touch

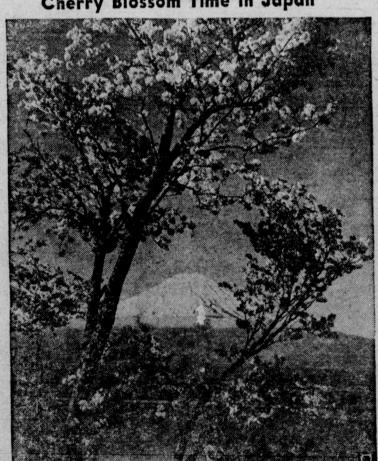

But the speakers at the symposium repeatedly stressed the point that drugs don't replace the close personal relationship between doctor and patient.

For example, Dr. Henry A. Davidson, superintendent of New Jersey's Essex County Overbrook Hospital, cautioned his doctor audience that an overly "scientific" approach to patients is "neither possible nor desirable."

Treatment works best when the doctor has a strong stake in his patients' recovery, Dr. Davidson declared.

Dr. Charles E. Goshen, member of the New York Society of Medical Psychoanalysts, predicted the family doctor's work within the next 10 years will be largely with the mental health of his patients. He will be most concerned with preventing mental disease.

Cherry Blossom Time in Japan

SPRING PREVIEW-Winter winds may still be blowing, but Cherry Blossom Time is just around the corner in Japan. Come March, and Japan's sacred mountain - Fujiyama -

will be framed in pale pink blossoms as in the above photo. While cherry trees grow all over Japan, there are particulary beautiful groves outside Kyoto, Tokyo and at Yoshino where the immense number of trees cover an entire valley and mountainside with clouds of blossoms. These trees are the "ancestors" of those presented to the United States in 1912 and which bloom along the Potomac River and the Tidal Basin in Washington, D.C. early each spring.

The proper switch must be thrown before one can be on the "right track." Zeal without knowledge is dangerous (Rom. 10:2).

Angel Falls typifies much of Venezuela's scarcely explored interior, which oc-cupies almost half the country. When people believed in Christ, he honored their faith and met their needs. Results of Peter's sermon on Pentecost were 3000 heeded the call. Our church needs today a great spiritual reviving which would result in a like measure of ingathering of souls! We must face the implication of such a truth to our own individual church, and then our personal responsibility for such an experience of an outpouring of his spirit.

Mrs. Birk gave the Circle program. Her two main thoughts were: Since the days of Commodore Perry and the opening of Japan, Americans have known something of the country and have admired the art of the Japanese But it was when Pearl Harbon came that our attention was really drawn to that country.

TO MARKET TO MARKET. Mother and daughter are dressed alike in linen blouses spiked with bright red and green applique,

At a recent showing of children's clothes at famous Henri Bendel in New York City there were several mother-daughter outfits. These simple, yet attractive, blouses were among them. Shown here with comfortably full, washable skirts, they're equally at home going to market or wearing at home. The blouse goes well with tights, shorts, slacks and long skirts, too.

The successful sales of these holiday blouses are proof that it doesn't take a complete outfit to please a little girl who longs to look and be like Mommy.

These blouses are made of sheer linen, a material that is once again coming into its own as a popular fabric. To play up the smooth, rich finish of linen and to keep it looking like new, fashion authorities suggest starching very lightly. If you have always thought of starched linen as being uncomfortably stiff use an instant cold water starch such as Niagara. It dissolves instantly in cold water, gives a smooth, pliable, comfortable finish. Package directions will tell you the quantity to make and the way to use it.
