"What shall we say then, that Abraham our father, as pertaining to the flesh, hath found? For if Abraham were justified by works, he has whereof to glory; but not before God. For what sayeth the Scriptures? Abraham believed God. and it was counted unto him for righteousness (Romans 4:1-3).

Paul states here that salvation by faith in God is not a new principle; Abraham was saved by his faith in God. (Genesis 15:6.) Abraham believed in the divine mercy of God. Abraham believed in the Grace of God. The dictionary says of grace, "10. eccl. a. Divine mercy or forgiveness. b. Divine assistance given man for his regeneration or sanctification." Porch columns and railings, salvation; the Grace of God. All the wonderful testimony of the mighty deeds of Abraham was no the deeds of a man of great determination, but one of simple trust in the Lord, his God.

> When you come in penitence to God for your sin, and place an active faith of believing and trusting the atoning blood of Jesus for your salvation, you, too, can live by this faith a life of great deeds of testimony of your faith in God. Surely, as James so pointedly states (James 2:1,14-26), if you are claiming a faith in the Son of God, and it is not producing a creative force within you, what right have you to say that you have faith? This faith of Paul and Abraham was a creative force within them; and it was this faith that made them righteous in God's sight.

You, too, can have this faith if you will plead to God for it through Jesus Christ. You will not have faith because you work. This is the warning of Paul in Romans 4. To: LEROY GARRISON, Defendant. Greeting: You are hereby commanded to District Court of Wichita

appear before the Honorable 78th at the Courthouse thereof, in Wichita Falls, Texas, by filing a written answer at or before 10 o'clock a.m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 7th day of April, A.D. 1958, to Plaintiff's Petition filed in said court, on the 14th day of February, A.D. 1958, in this cause, numbered 60,937-B on the docket of said court and styled JUANITA ANDERSON GARRISON, Plaintiff, vs. LEROY GARRISON, Defendant. A brief statement of the nature

of this suit is as follows, to-wit: after alleging jurisdiction plaintiff further alleges that she and defendant were married on June 24th, 1954 and continued to live together as husband and wife until December 26, 1957, when defendant left and abandoned this plaintiff without cause or provocation and plaintiff alleges that defendant's actions and conduct toward her generally have been of such a nature as to render their further living together as husband and wife insupportable; that there were no children born of this marriage and that there is no community property. Plaintiff would further show that her former name was Anderson. Plaintiff asks custody and control of two minor children, Gregg and Sally Garrison. Wherefore, plaintiff prays that defendant be cited to appear and answer herein, and that upon trial hereof, she have judgment for divorce, restoration of her former name, and for such other and further relief, in law or in equity, to which she may show herself justly entitled, as is more fully shown by Plaintiff's Petition on file in thi suit. THIS WEEK

Clinton Davidson Washington is able

break this week in the

lock that has blocked nearly all action by Congress for

more than three years. We find encouragement for general farm legislation this year in our talks recently with high USDA officials, congressmen and farm organization leaders. They all agree on one thing; something MUST be done soon.

Farm income took another drop last year, down from \$12.1 billion in 1956 to \$11.9 billion in 1957. More than 300,000 farmers, faced with rising costs and dwindling income, sold out and moved to cities last

"We cannot afford to stand idly by and permit the decline in our agricultural resources and the impoverishment of 20 million citizens who depend upon farming for a living," Rep. Harold Cooley, chairman of the House Agriculture Committee,

Secretary of Agriculture Ezra Taft Benson is equally emphatic that new farm legislation is urgently needed to "correct a situation that certainly is not improving." He is pressing Congress to make changes this year.

President Eisenhower has been promised that his 15-point revision of present farm laws will be given careof it will be adopted, although key points have aroused adamant oppo-

The glimmer of light in predictions of a dark future for farm legislation is agreement by both the House and Senate agriculture committees to hold extensive hearings in hopes of developing an omnibus farm bill in time for action at this session of

Neither side has offered to compromise, but both tell us they are prepared to

Here, as Congress wings into the third month of farm debate, is how we size up the probable outcome on farm legislation at this session: The billion and a balf dollar export

subsidy-sales (P. L. 480) program requested by President Eisenhower will be extended for another year. The seven hundred and fifty million dollar a year soil bank acreage

reserve program will be discontinued after this year. The Reciprocal Trade Agre Act will be extended for five years and the wool payment act for four

years. Congress will approve the request for funds to begin research on in dustrial uses for surplus farm products, and will continue the school

lunch program. There is a 50-50 chance Congress will agree to abandonment of corn acreage allotments, although it failed to act on a similar request last year.

Odds are strongly against any of the three key points in the Presidents farm message: Lower minimum price supports for milk, wheat, cotton, tobacco, peanuts, rice and corn to 60% of parity; authority to increase acreage allotments by 50%, and repeal of the law which forces higher supports when surpluses decrease

Breakfast Given for Bride-elect

A lovely breakfast Saturday at the home of Mrs. L. E. Brooks was the first in a series of prenuptial events that will be given to compliment Miss June James, bride-elect of Donnie McManus.

AT YOUR SERVICE

Some friends of mine are high in their praise of the telephone for its dependability in practically any kind of weather, day and night. They're happy with their telephone service and we're glad they are. But we're not content to rest on our laurels.

To improve their and your service, new ideas to improve telephone equipment are constantly tested by telephone scientists. New methods are continually put to work to help your calls go through easier and faster. Behind the scenes, experienced telephone employees work "around the clock" to give you the best in telephone service.

These three reasons, new ideas, new methods and experience, are the telephone service never stops improving yet remains easy on the family budget.

OUT OF THE PAST

I was thumbing through some old magazines the other day and found some household hints that had been published during the war years. One column suggested using an egg-timer to limit your Long Distance call to three minutes.

I started wondering if anyone is still using an egg-timer out of a force of habit. I hope not because you certainly don't need to.

Today, there are plenty of Long Distance lines. You can talk as long as you like and as often as you like. In fact, it wiser to take your time on Long Distance calls and say ever thing you want to say. One six-minute call always costs less than two three-minute calls. The longer you talk, the less it costs on a per-minute basis. And, you save an additional onethird when you call station-to-station.

Call by number. It's twice as fast. SOUTHWESTERN BELL TELEPHONE COMI
