Last summer Mrs. Pruett and Mrs. H. T. Tucker, who is also a collector of antiques, made a trip to Mobile, Ala., which netted interesting items.

work.

Mrs. Pruett acquired her first antique — an oak bookcase and desk combination—in 1929, trading 3 dozen eggs for it. That piece of furniture aroused in her an appreciation for those things that have gone out of vogue. The bookcase is in use in the Pruetts' living room, where the ingenuity of the family is evidenced in other articles.

Two old spool cabinets, one from a general store at Leo, have been converted into end table with marble tops. The coffee table is interesting because of the fact the legs were at one time part of the posts on the stairway of City National Bank of Wichita Falls.

ted plants in antique copper containers, pictures that fit into the decor heighten interest in the living-room.

Dining-room and kitchen of the Pruett home hold spellbound the visitors who love things that our forefathers used. Two kerosene wall lamps equipped with brackets and reflectors, approximately

In one corner of the room is an oak marbleltopped washstand on which is an antique china pitcher and bowl set sent to Mrs. Pruett from England by Lois Evans Purvis. The round maple dining table is covered with a woven bedspread Mrs. Pruett's parents started housekeeping with. On the table are a cobalt blue lamp, bowl and lady's cuspidor. Mrs. Pruett is particularly proud of the maple barlroom chairs and of the antique syrup pitchers she displays on shelves on one wall. Some of the pitchers are more than 100 years old. Perhaps the most expensive is the one with the clear and amber bars. Other rare ones are the blue marine, taffeta glass and thumb print paterned pitchers. A Nancy Glass water set adds interest to another piece of antique oak furniture in the diningroom. To suggest the relation between the old-fashioned and the Thanksgiving season, an old charcoal burner by the doorway has been filled with pumpkins, squash, gourds, etc. Memories of yesteryear best describes the Pruett kitchen. In one corner stands an old black wrought iron cook stove which is not extrinsic to the collection of iron utensils hanging on two walls

> ing. Among the utensils are 20 iron muffin pans, some dating to 1850, a kraut cutter, twine holder, shovels, spoons and pans. In the last group is an iron pan that was used to bake pound cakes during Plantation Days. Hanging above and around the modern gas cook range are pieces of Blue Agate ware. The top of the dinette table which originally was an ice cream table, was fitted into a buggy tire which serves for a rim. The chairs are of the bullseve and needle-eye variety. A nook in the dining area is marked with an old wrought-iron heater brought from North Carolina. It

See your dealer now about his special installation offer on a FLAMELESS electric clothes dryer

> SAVE MONEY. Low in initial cost and economical to install, an electric clothes dryer will cost you even less now because of your dealer's special installation offer.

> SAVE TIME. You'll save hours of time every week with fast, flameless electric drying. It takes only minutes to load and set your dryer. And you can dry clothes day or night in any kind of weather.

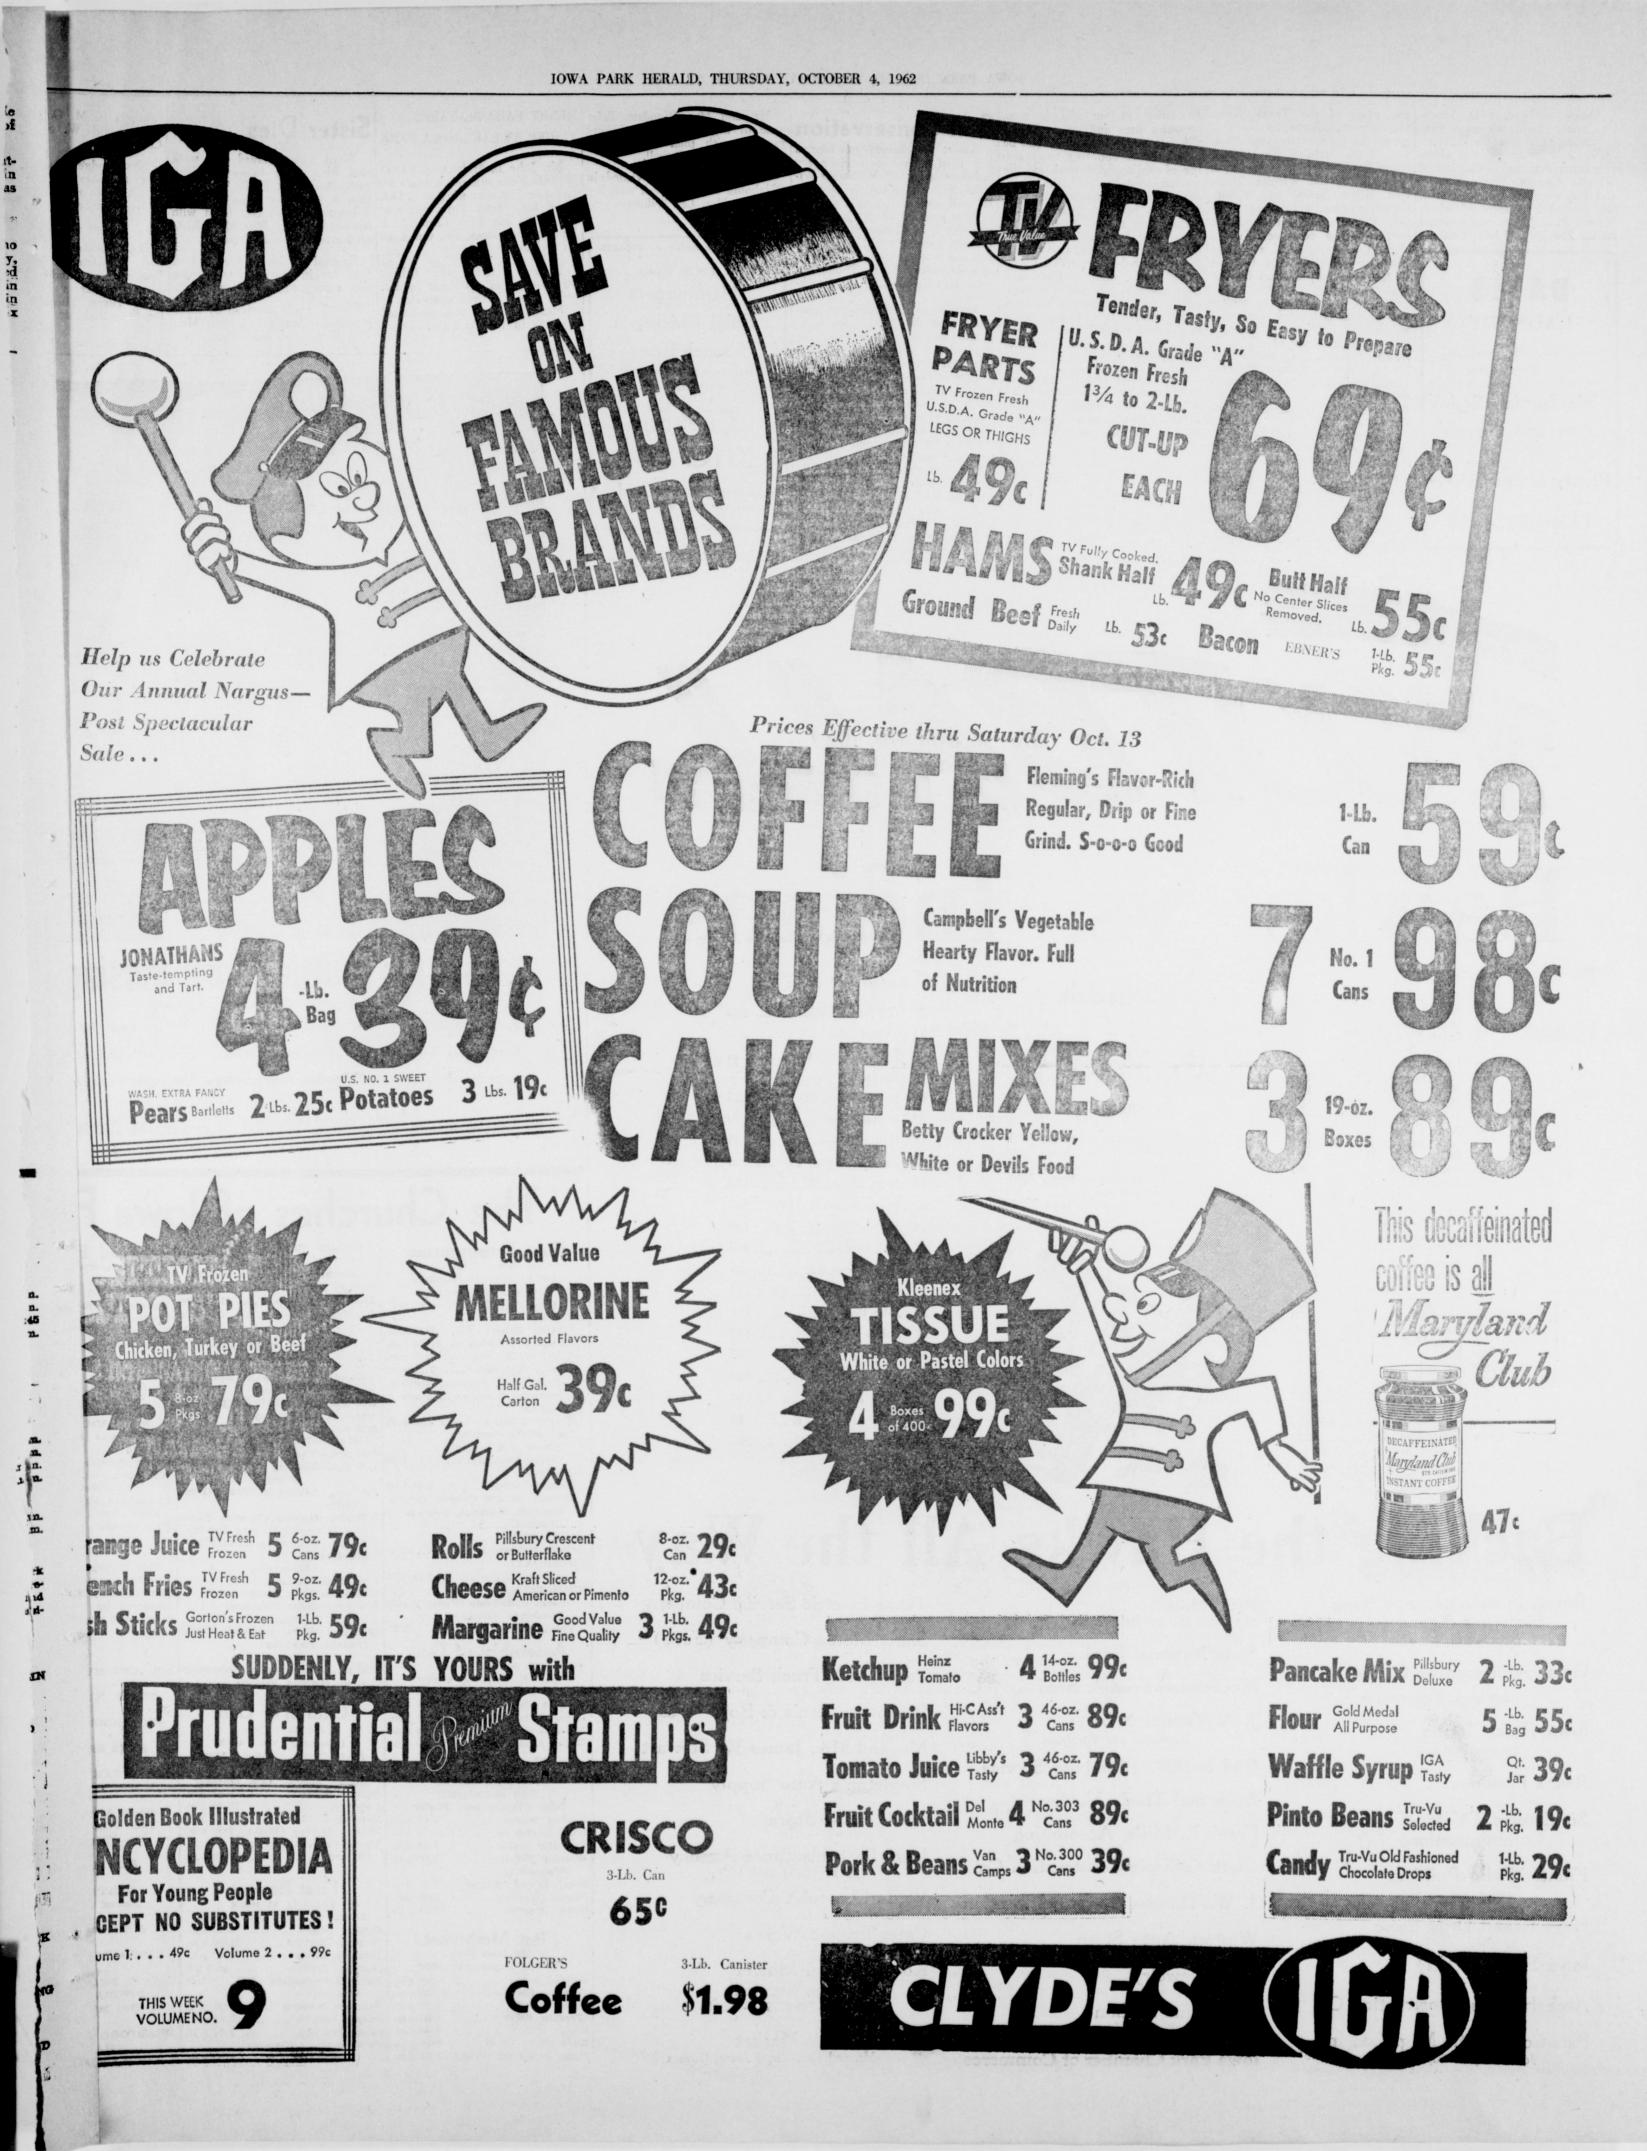

> SAVE WORK. You're spared all the backbreaking work of hanging heavy wet clothes on the line when you dry electrically. There's less sprinkling to be done and many pieces come out of your dryer so fluffy-soft, they need little or no ironing.

> SAVE CLOTHES. Your clothes will wear longer because the precision-controlled heat of an electric dryer is safe for even the daintiest fabrics. Clothes don't fade or deteriorate as when dried outdoors. And you actually need fewer clothes because they can be dried quickly and worn oftener.

> See the new flameless electric clothes dryers now on display at your dealer's. Ask about his special installation offer.

Working to make this a safer community ... **Our Junior Fire Marshals** need your help

If your youngster is in the Junior Fire Marshal program, he is learning fire safety principles that may save a life ... perhaps his own. You can help by inspecting your home with him when he brings his Fire Prevention Report home from school. We are behind this program 100% ..., we're sure you will be, too. It's a wonderful way to help make our community a safer place to live.

smooths bumps better than a bulldozer

If all roads were superhighways. Chevrolet's remarkably smooth and silent ride might be just another luxury. But as most town and country roads will demonstrate, this is one Chevrolet advantage that's mighty easy to get excited about. (The way those four deep-coil springs put the kibosh on bumps. you'd almost think Chevrolet was working for the highway commission.) The '63 Bel Airs, Biscaynes and Impalas are equally easy going on upkeep. Brakes are self-adjusting. New Delcotron generator s-t-r-e-t-c-h-e-s battery life. Even the rocket panels on the Body by Fisher are self-washing and ventilating to cut down on rust. Your dealer's waiting to tell you lots more.

the make more people depend on
