If you want a truck that does its work without yelling for attention all the time, buy a "new reliable"

You have to take care of it; it's a machine. But this isn't a full-time activity. The clear idea is that

A columnist in another paper has written at length recently about the sack lunch. Sack lunch was preceded by the lunch carried to work or school in a Cot tolene bucket. The shortening was bought in gallon buckets which were saved and put to various uses, first of which was the lunch

Makes me think of the time years ago when a large truck of sorghum syrup and sweet potatoes oureturned on the J. W. Thomas Corner and spilled all over the street, sidewalk and highway. Syrup was carried by every venicle and person that walked or drove along the street, and soon
