\$400 MS Drive Rocky Point

More than \$400 was raised in Iowa Park by the Wichita Falls chapter of National Multiple Sclerosis Society in the recent Hope Chest Campaign. People gave generously and will enable the chapter to increase services to patients, expand educational programs, and support national research programs.

Cause and cure of multiple sclerosis is still eluding medical science. It is known that n MS, the substance which protects the nerve fibers mysteriously disappears. Scar tissue forms and nerve impulses controlling sev eral or all such functions as seeing, speaking, walking and balance may be distorted, sometimes Burnett home. even blocked.

An estimated 500,000 Americans suffer from multiple sclerosis and related diseases.

Sincere thank are extended to marchers and to all who helped make this a successful campaign. Mrs. George Roy served as Iowa Park chairman, and Mrs. Doyce Walker is director of the Wichita Falls chapter.

Mrs. Roy listed the following as local helpers in the fund drive:

Devotion

by Lana Jean Lane

Have you ever watched the clouds grow dim, Over the sunny skies? Or thought how duil the world would look

If the sun forgot to rise? Have you ever watched a flower grow,

As it dances in the wind? And, as you watched the dainty

petals, You feel that you've found a friend? Have you ever watched a tree

grow.

As it stands up straight and tall?

Have you ever listened to the quietness, Of the winter and the fall?

Have you ever really thought about the way That you have grown? Do you need help in times of

Or can you stand alone? As you think of all the growing

Running in your mind -Do you wonder if you're like the clouds,

When the sun does not shine? Or are you like the flowers, That lift their hands to pray? Or maybe like the trees. Which stand so straight each

If you resemble any of these. You are growing too, For all of these all of these little

beauties Are Mother Nature's clue.

ORTHO NH3 is great for fall farming because it stays where you put it until your crops need it next spring. When soil temperatures are 50° or less, ORTHO NH3 stays firmly attached to soil particles. As the soil warms up in the spring, ammonia changes to available nitrogen for your crops. You don't have to wait until the busy spring months to make your big nitrogen application. Make ORTHO NH3, a part of your fall farming program. Next spring you'll be glad you did. SEE YOUR ORTHO DEALER.
