He has served effort to be conducted during as county agent in Castro and the two weekends after Christ-Agricultural Extension Agent.

Preston showed a video on recycling of Christmas trees for mulch as a civic group project. Preston said that eventually he expects "all landfills to be eliminated. Waste disposal will be an expensive problem that we will have to pay for."

He noted that the EPA will probably soon have towns take trash to a central location and that recycling is an opportunity for citizens to do much needed

The video tape mentioned that Christmas trees date back to the 8th century. Many of the trees that we use today are grown on plantations. It takes from 4 to 12 years to grow a Christmas tree. Each year Americans use over 30 million

The video noted that Austin won numerous awards. Projects in Chicago, San Francisco and Seattle have been based on the Austin model.

Planning for any Christmas tree recycling program should begin during the summer before Christmas. Organizers should involve as many groups in the community as possible. Project leaders should plan to use commercial tree companies for shipping of the trees and promote the project in as many ways as possible. Communication is the key with media coverage being crucial. Posters that call attention to the recycling effort should be used. Volunteers are stationed at strategic locations to receive the used trees from the public and get them ready for shipping.

Jack Wilson On Board USS Virginia Dec. 7, 1941

At 17 years of age, Jack was tied up behind the U.S.S. Wilson had never been far from his home town of Velma, Okla., until he enlisted in the Marines in September 1941.

After training, Wilson was stationed on the U.S.S. West Virginia Battleship and had only been at Pearl Harbor seven days when it was bombed on December 7, 1941.

"I only had five minutes until I was to go off duty on gang-way watch, when the Japanese strook. "I didn't see them coming in because I was on the opposite side," Wilson said.

When asked what his first reaction was, Wilson replied, "Scared to death, all of us were. I'll never forget it, we took seven torpedos and seven bombs. We didn't lose any Marines, but we lost a Navy Captain, a total of 18 Sailors,' he continued.

A total of 22 enlisted men and three Marine officers and approximately 23-2400 Navy personnel were stationed at Pearl

"When the Japanese attacked we didn't see them coming," Wilson said. "They came in from the east, over a range of before we knew it. It was a well planned attack.'

Congress Approves Disaster

Assistance Bill

BY Phil Gramm Congress has approved a \$1.75 billion disaster assistance bill that will provide payments for farmers from across Texas who suffered losses in 1990 or 1991.

More than 125,000 Texas agricultural producers suffered losses from flooding, freezes and drought. They will be able to file for claims under this legislation, which will be administered at the local level by the Texas ASCS.

Texas cotton farmers were among the hardest hit by the weather-borne agricultural disasters of 1990 and 1991.

Tennessee, which didn't get hit. Wilson stated that the a small town about 45 miles U.S.S. Oklahoma was in front from Ardmore, Okla. That is and he didn't know how many times it was hit but it capitized. After 22 days someone heard noises from inside and they cut a hole in the exposed side of the battleship and rescued some of the men.

Next in line was the U.S.S. Texas, followed by the U.S.S. California, which sank. The U.S.S. Nevada tried to make a break and was sank in the canal. "You go into the Harbor from the south and make a bend, the Harbor runs east and west," Wilson said.

"After hitting us broadside, taking all the battleships in the Harbor, they (Japanese) hit Hicham Field, an Army Air Base at that time, and took out their fighters.

They traveled on to the north and destroyed Fort Island Naval Station. The U.S.S. Utah was tied up on the north side of Fort Island, and was sunk.

Contributions

You still have time to get our donations in to the Muleshoe Area Healthcare Center for the Christmas Card Project.

The Volunteers of Muleshoe Healthcare Center is conducting this project. All proceeds will go toward the completion of the parking area and landscaping.

Joyeline Costen, this year's project chairman, would like to remind everyone that they have until 5 p.m. December 16 to get their donation in.

Your name (family, business, organization, etc) will be included on a full-page Christmas Card which will be in a later issue of the Journal.

It is suggested that you donate what you would spend for Christmas cards, postage and time to the project, and join many, many others on the Community Christmas Card.

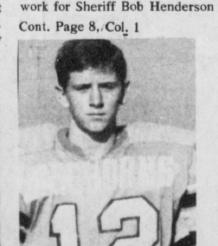

, Jerry Hicks Seeks **Re-Election To Office**

Jerry Hicks has authorized the announcement of his candidacy for re-election to the position of Sheriff of Bailey County, subject to the Democratic Primary in March, 1992.

Jerry stated that he would like to express his thanks to the citizens of Bailey County for their support during his time in office. This makes the job considerably easier, stated Hicks.

Jerry Hicks was born in Dickens County near the small town of Afton, Texas, where he attended school and graduated from Patton Springs High School. He moved to Muleshoe in early 1955 and, shortly thereafter, joined the Air Force where Hicks served primarily as navigator and jet fighter pilot. He navigated transport aircraft around the world and, after pilot training, flew jet fighters in many locations. These included Arizona, New

From: Amy Q. Fox Texas Society to Prevent Blindness Lubbock Branch 797-6701

The National Society to Prevent Blindness wants Americans to be on the alert for unsafe toys this holiday season. The attached materials point out the proliferation of fighting toys on the market and why parents should be concerned with the safety of their children's eyes.

In only one year there was a 180½ increase in injuries from toy guns. This statistic may continue to rise in light of the popularity of the military ad fighting heroes in entertainment and media. To avoid injuries this holiday season, the National Society to Prevent Blindness advises parents to be cautious when they shop this year. Enclosed are:

> -An itemized list of toy-related eye injuries during 1990;

> -A News release containing important information on methods of preventing toy-related eye injuries and possible vision loss.

Thank you for helping the National Society to Prevent Blindness save the sights of America this holiday season.

If you have a chance to publish any or all of this article would you please send us a copy. We would appreciate your help as we strive to prevent blindness in Texas.

Dear Sirs:

The South Plains Genealogical Society will host a workshop on Saturday, January 11, 1992. Dr. George K. Schweitzer, a well known genealogist, will be our speaker. I am enclosing a copy of our announcement schedule of the workshop.

We would appreciate it if you could mention our workshop in your newspaper. Our membership includes people from many areas of the South Plains. Many of our members have heard Dr. Schweitzer several time. He has numerous topics and his programs are not only informative but very enjoyable. We welcome anyone interested in genealogy or history.

Sincerely,

Steve B. Meinecke Vice President South Plains Genealogical Society P.o. Box 6607

Hosted by Floren, Lawrence Welk's "favorite accordionist," this old-fashioned variety show features favorite songs and dances of such stars as Bobby Burgess and Barbara Boylan, Jo Ann Castle, Henry Cuesta and

The program marks the first time these entertainers have performed together on television since "The Lawrence Welk Show" completed 27 years of national broadcasts in September 1982. Now in syndication, "The Lawrence Welk Show" appears on 157 public television stations nationwide.

KENW-TV is a Public Broadcasting Center on the campus of Eastern New Mexico University in Portales, New Mexico.

National Drunk & Drugged Driving **Awareness Week**

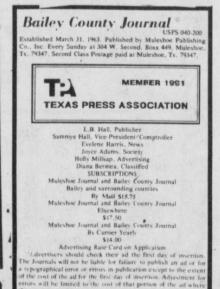

Mr. Al Poteet, Director, Department of Veterans Affairs (VA) Regional Office, Waco, Texas, his staff and all employees have declared their support for National Drunk and Drugged Driving Awareness Week, December 7-13, 1991. With the holiday season upon us, he asks that all veterans, beneficiaries and residents of Texas be aware of the dangers involved with attempting to drive while under the influence.

We have lost far more people to traffic accidents involving drunk or drugged driving than we have from wars over the past forty years. All of us need to be aware of this tragic problem and lend our support to this event by taking the simple pledge: "Take the keys, call a cab, take a stand, and remember that friends don't let friends drive drunk.'

> We'll Help You Guess Algernon--"Fancy this, Percy, a chap here thinks football coach has four wheels."

Percy--"Haw. And how many wheels has the jolly ole thing?"

TOM MCDERMOTT

Storyteller to Visit Dillman

Tom McDermott, a storytelling minstrel, will visit students at Dillman Elementary Tuesday, December 10. McDermott will share stories and songs with small groups of students during the day. Much of his material is adapted or originated from traditional, folk/fairy tale, personal and native American sources. He also uses stories from his travels to Belize and Ireland.

The program's upbeat format generally involves some musical instrumentation, singing, and various levels of participation emphasizing values of creativity, reading, community and self-esteem.

McDermott will be in Lubbock and Amarillo performing in children's wards at hospitals during his tour of our area. Dillman Elementary is fortunate to have this talented storyteller performing for students.

Moonlight Homemakers Arts & Crafts Bazaar

December 6 & 7, 1991

A total of 59 booths filled the Bailey County Civic Center and Coliseum Friday and Saturday for one of the biggest bazzars ever in Muleshoe.

Shoppers could find items for everyone on their Christmas shopping list, everything from wooden toys, dolls, jewelry, poinsettas, and etc. They could also find all kinds of goodies-as they viewed the different booths. Booths this year was operated by individuals, businesses as well as people from out of town.

While the shoppers were shopping they could smell the tempting aroma of barbecue and all the trimmings, being served by the Jennyslippers at noon Friday. The Jennyslippers also had a concession stand on Saturday.

Door prizes were given both days of the bazaar.

Band Festival To Be Held Dec. 13-14

The annual Southeastern New Mexico Music Educators All-District Band festival will be held Dec. 13-14 on the campus of Eastern New Mexico University in Portales.

The event will feature a Junior High Honor Band and Senior High Honor Band. Both bands will be comprised of students from southeastern New Mexico, who were selected by audition.

Approximately 120 students were selected for each band, including musicians from Clovis, Portales, Hobbs, Artesia, Roswell, Carlsbad, Tatum, Lovington and Texico. Each band will rehearse all day December 13 and the morning of December 14 to prepare for a final concert to be performed December 14 at 2 p.m. in the University Theatre.

Clinician for the Junior High Honor Band will be Phil Anthony of Lubbock, Texas. Dr. William Clark of New Mexico State University will serve as clinician for the Senior High Honor Band. Dr. Robert, assistant professor of

music at ENMU, will serve as host chairman for the festival. The purpose of the festival is

to bring the finest student musicians in the region together into two full honor bands, and provide an educational environment in which the students can develop skills at a higher level than may be possible in their own programs, Lindahl said. Students will have the opportunity to work with respected clinicians as well as interact with students from other school districts.

The concert is open to the public and free of charge. More information is available by contacting the College of Fine Arts

A gas light does more than provide warm glowing light for the exterior of your home. It makes your house less attractive to burglars.

Both of these lamps feature heavy gauge steel posts and cast aluminum lamp heads, heat-tempered glass lenses, easy-access lens frames and corrosionresistant acrylic enamel black finishes.

ADD AN AUTOMATIC DIMMER

Automatically dims your light during daytime and returns it to full brightness at night for convenient, economical operation.

Installation - If required, normal unobstructed installation of up to 65 feet of gas line is \$90 additional, and may be financed along with your lamp purchase.

THE TELCOTADVANTAGE To Cotton Marketing in 1991-92

Recently, the Adjusted World Price (AWP) for cotton fell below the base loan rate, throwing a new twist in cotton marketing. As provided in the 1990 Farm Bill, this development gives cotton growers two options in marketing their loan-eligible bales.

1. Placing the cotton into the government loan and marketing the equities. Cotton can be redeemed at the lower AWP, and all storage charges are waived.

2. Electing to forego the loan in exchange for a Producer Option Payment (POP), which is the difference between the base loan and the AWP.

TELECT is the BEST WAY for growers to market their cotton this season, offering these advantages:

SECURITY

Growers who sell equities on TELCOT know that they will not be responsible to CCC for storage and forfeiture charges if the cotton eventually forfeits to CCC.

SPEED AND CONVENIENCE

When growers forego the loan, TELCOT can apply for the POP on their behalf such that when they sell their cotton on TELCOT they receive their lint proceeds "PLUS" the POP, normally within 24 hours.

TELEDT gives growers access to more than 50 cotton buyers every day.

When asked if there was any sabotage in Pearl Harbor, Wilson said, "I do not believe there was any sabotage at Pearl. Battalion 442 was as good as they had."

"When you get excited or under stress, you do some funny things," Wilson said. "One Marine, Arval Glass, was on the bridge when the bombing started and he went two decks below, got his wallet, went back up and dove overboard. A Sailor removed his shoes, tied them, then set them side by side before jumping overboard." He also stated that both men survived.

Wilson also told about the U.S.S. West Virginia's bugler, Richard Fisk, who lost his bugle. Fisk is presently serving as guard on the U.S.S. Arizona Memorial at Pearl Harbor.

Wilson served in the Marines four years, three months and eight days.

When asked if he had been back to Pearl Harbor, Wilson said "I lived there three years from 1946 to 49 and worked as a policeman for the Pearl Harbor Police Department. I've been back there five or six times since then and always to the

A successful plan is to promote a tree exchange program whereby families that donate an old Christmas tree can receive a tree seedling. Only a small budget is necessarry for the Christmas tree recycling program and it reduces landfill use drastically.

Preston concluded his remarks by giving Rotary members a brief agricultural update. "The dry weather has speeded up harvesting of cotton. Some cotton is spotty," Preston said. "With the ag economy as it is, we may get a disaster bill and we may need it."

Overall, Preston views the harvest this year as about average.

Corn yields are good, but profit from them is not particularly high. Milo is proving to be a good crop this year. The diversified farmers are in better shape this season than those who didn't diversify," Preston

Nearly 40,000 cotton producers are estimated to have incurred damage valued at \$326 million in 1991 alone.

In addition, producers of wheat, grain sorghum, corn and hay had extensive losses.

Part of the funding, \$995 million, will be available for payments on either of the two years, at the producer's option. An additional \$755 million is also available, subject to a budget request by the President.

Some of the incidents which produced widespread agricultural losses were the 1990 flooding along the Red and Trinity rivers, scattered droughts afflicting the Panhandle and the Rio Grande Valley and freezes which caused widespread damage to winter wheat production in the Panhandle. Pumps & Power

" ell me a story . . " is frequently the last plaintive request before this little one closes her sleepy eyes for the night and drifts into that wonderful dream world of contentment and rest. How often have we wished for the same kind of story that would lift the cares and burdens from our everyday lives that we also might find similar peace and com-

fort as this small child.

Within the reach of all is just Goldilocks and the Three Bears or Sleeping Beauty; but a true narrative founded upon the exciting words of God. The living story of the Bible should be as much a part of our lives as our daily bread. Read your Bible, rejoice in its comforting words and inspiring thoughts. Billions Available For Home Repairs

Most homeowners are unaware that regardless of their income there are Federal, state and local programs that will help them repair and remodel their homes.

Government at all levels recognizes that neighborhoods are the basis of life in our country. When a neighborhood deteriorates, many things happen both physically and socially. Homes that are shabby seem to make a neighborhood more attractive to crime and criminals. An area in decline is like a spreading cancer. As homes become rundown and in need of maintenance. the residents lose their desire to keep up the neighborhood. Streets become receptacles for trash, schools lower their standards and very quickly the selling price of homes in the area drops sharply. This accelerates the cycle of degeneration.

In order to keep and maintain the nation's housing and neighborhoods, government at all levels have programs to give homeowners money (that does not have to be repaid) for repairs or to lend them money at below market levels or at no interest. In many areas utility companies will do energy conservation work free or at low

lend homeowners money at no interest to pay the contractor of their choice for the necessary work. In addition there are tax incentives to promote efficient energy use.

These programs are not restricted to low-income people, slum areas or urban neighborhoods. Owners of single or multi-family dwellings are eligible for some programs regardless of income. Most of the loans offer long terms and low payments.

Some of the other home improvements covered under these programs are: attic and wall insulation, new windows, outerwall siding, security doors and locks, window guards, sidewalks and masonry work, bathrooms and kitchens, electrical and plumbing work, new roofs, gutters or downspouts.

Consumer Education Research Center, a national nonprofit consumer group, has just published CONSUMERS GUIDE TO HOME REPAIR GRANTS AND SUBSIDIZED LOANS, a 208-page book which lists over 8,500 sources of loan and grant programs offered by all levels of government, utility companies and others, typical programs offered and eligibility requirements. Form letters for

cost and in other places will inquiries to these loan and grant sources are included as well as detailed instructions on determining your debt-to-income ratio for eligibility. The book can be obtained for \$10.95 plus \$3 shipping and handling from CERC GRANTS, 350 Scotland Road, Orange, NJ 07050 or by calling 1-800-USA-0121 for credit card order.

> Robert L. Berko of CERC, tells us, "Some of these programs have no income ceiling and other allow income of as much as \$100,000 per year. There are even programs for which tenants are eligible and many allow loans or give grants to poor credit risks. One of the authors of this book received a \$5,000 N.J. grant plus a \$4,000 interest free loan from his utility company. In many areas, people with disabilities can receive grants to pay for needed repairs such as access ramps and widening of doorways."

Since it is important that the work be done properly, the book describes in detail how to pick a reputable contractor, negotiate a contract and insure that work is done properly and for a fair price.

Delay is preferable to error. —Thomas Jefferson

Collegiate Athletic **Scholarships Available**

Over 100,000 collegiate athletic scholarships are available each year to male and female high school and junior college student athletes. Contrary to popular belief, students don't have to be all state to qualify. Much of this money goes unused. A new publication with forms, sample letters, and tables of factual information is available for student athletes. It takes them step by step thru the important process of getting an athletic scholarship and includes college and conference
