SHUCKS

Berry's Drug has always been one of the most comfortable retail stores in Our Town. Now it has more comfort to offer than would seem possible.

Drop in anytime and let Alan show off his two new 5-ton air-conditioners and he will point out their many advantages.

The whole store is cool at all times, the machinery draws out surplus humidity, and all dust and pollen are filtered out of the air.

Alan says he and his help have heretofore kept busy dusting the merchandise; with the new air-conditioning equipment that work has been reduced greatly, because any dust in the air is promptly removed by the conditioners.

Berry says either of the two machines can furnish all the cooling necessary for the size store he has, so two machines get the job done without strain or pain.

Drop in and see (or feel) for yourself.

Burlington Lines are going all out to furnish everything possible in the way of entertainment and prizes when Old No. 409 comes through Iowa Park, Saturday, Aug. 15 enroute to Childress and the Greenbelt football game.

Officials have decided to stop the special train in Iowa Park and pick up passengers.

Those in this area who want to board the train at Iowa Park are warned to make reservations early. Drop in at the depot and make your arrangements, and then—please notify the Herald, so we can give the trip more publicity and help Burlington plan the special trip. Thank you!

Burglary

Herman's Panhandle Station was broken into last Thursday night and was robbed of an undetermined amount of change, cigarets and cigars. The burglars gained entrance by breaking an east window. No clues have been found.

Mr. Kight is such a friendly person he always says "Come back," so we guess whoever broke in thought he meant it.

Herman still says he wants people to "come back" but he'd rather have them wait until the station is open for business.

Last meeting of the fiscal year was held by the Iowa Park community 4-H club Tuesday night at the Roy Childers home. After beginning with the pledge and prayer led by Eddie Tigrett, Pres. Charles Findley conducted the meeting.

Mrs. Rex Lehman reminded the group all records on this year's work must be complete. Record books to be entered for competition must be in the office of the county agent not later than Aug. 15. All personal records plus the club's projects of Farm Safety and Wildlife Conservation must be included.

Members decided to carry over Wildlife Conservation as a project and take up Leadership as a new one. Mrs. Lehman will meet with the county agent to complete the plans and will present them at the September meeting.

Election of new officers will be held at the September meeting.

The army offers young musicians a choice of assignment to a band in Texas or Oklahoma, with schooling in Washington, D.C., and an opportunity for career advancement. There are openings for all band instrumentalists except drummers.

TELEPHONE TALK

by Gene Brusenhan, Manager

(Our guest writer today is Ralph Templin, District Manager, Wichita Falls.)

Iowa Park citizens took an inside look at the telephone office recently when Open House was held. It was interesting to hear the comments about "all of those wires," "the complexity of the equipment," "how do they ever get it to work?" as people went about the building.

We always welcome visitors to the office because we want people to see what actually happens when they place a call. Should you wish to take a tour, feel free to let us know and we will be on hand to help you.

Following the open house, all of us enjoyed a program on "The Miracles of Sound" by Mr. Glenn Scott, Public Information Supervisor. Glenn described the developments of sound transmission from the first telephone on up to the Hi Fi recordings of modern times. We enjoyed pretty music as well as recordings of steam train engines coming into the depot. You could "smell the smoke" as Glenn played this particular recording. We think the show was fine and hope that you did too.

By the way, Gene Brusenhan is having a special telephone office tour for our Volunteer Firemen friends. These fellows do a good job in protecting us from fire and we are pleased to be host to them for the evening. The next time you see a member of the Volunteer Department say a word of appreciation to them for what they are doing for the community.

VACATIONS AND TELEPHONES

When you think of vacation, about this time of year, you probably think of fishing, swimming, visiting, or just plain relaxing at some nice vacation spot.

Well, I'm happy to say that more and more people are using the telephone to have more fun on their vacation trips.

Here's how it works (and you can do the same if you're one of the lucky people still looking forward to a vacation):

First, call ahead to reserve your accommodations, or to let the family know when you'll arrive.

Next, call ahead to make overnight reservations along the highway. This way, you can drive longer and still be sure of a place to stay. I think you'll find that this "calling-ahead habit" will help you and your family have an even better vacation.

Why not give it a try? And remember, call station-to-station—it's about one-third cheaper.

TEN RINGS

With backyard barbecues so popular nowadays, people are spending more and more time outdoors. So when you call your friends, remember it may be quite a run from the backyard to the telephone. Give them time to make the dash by letting the telephone ring ten times.

Who knows? They may ask you over, too, for some of those hamburgers on the grill!

Call by number. It's twice as fast.

Mrs. Cobb Tells of Early Days in Indian Territory

Mrs. Ida Cobb, who lives with her daughter Mrs. J. A. Pautsky, celebrated her 98th birthday Sunday, Aug. 2. Mrs. Cobb was born and reared near Sherman. She received her education at Kid Key in Sherman. She was married to Flem Cobb Dec. 24, 1878. They lived near Paris a few years, later moving to Oklahoma, which was Indian Territory at that time. Tishomingo was the capital of Indian Territory. Bill Murray was a close neighbor practicing law. He later became governor of the state.

Her son Hugh attended Indian Academy. Her daughter Gracie went to school to Jim Bridges, who later was sheriff of Tishomingo.

The Cobbs settled a 320-acre farm three miles north of Tishomingo, located on Pennington about one mile down from Devil's Den, which had not been excavated at that time.

Mr. Cobb died in February 1898 leaving six children. Mrs. Cobb had a hard struggle but she kept the children together and was a wonderful mother.

Mrs. Cobb was never too busy to visit and help the sick in the neighborhood. Everybody sent for her when there was a new baby to arrive. She sat up many, many nights with the sick. There were no hospital and few doctors; no cars and no electricity.

She regards the washing machine as our greatest invention. She tells of going to the creek to wash, rubbing on a board and boiling in a big pot. Home made lye soap was used for most every cleansing purpose.

Mrs. Cobb tells of hauling water more than a mile on a sled, with a little mule named Kit.

She also remembers her mother's telling her of the hardships during the Civil War, in which her father fought.

Sunday was a big day for Mrs. Cobb. The Church of Christ folk came and sang some hymns for her. She received many nice gifts and a big number of cards, for which she is grateful.

Someone said, "I'll see you on your 100th birthday."

"I'll be here," was her quick reply.

When folk comment on her age she beams back, "I've got a sister nearly 104. She lives in Ada, Okla."

Mrs. Cobb enjoyed a big dinner including apple cobbler and angel food cake prepared by her two daughters. Those attending were a daughter Mrs. R. L. Oden of Aubrey; granddaughter Beverly Tumi of Houston; grandson Noel Pautsky and family of Holliday; great-granddaughter Marilla Sue Brown of Cedar Falls, Iowa; and grandson Weldon Pautsky of the home.

Mrs. Cobb was able to talk and hear long distance to her son Townsend at Overton.

Evening Lions club will meet at Metz Coffee Shop next Tuesday at 6:30 with Mr. and Mrs. Tom Rogers of Wichita Falls as guest speakers.

Mr. and Mrs. Rogers and small daughter Rebecca Jean recently returned to the States after being in Baghdad for three years.

They will show slides of the Holy Land and lecture on Jordan and Iraq and several other Near East localities.

Tom was employed with the government of Iraq in an oil refinery.

They are making their home in Wichita Falls.

Rollins Woodall, long a student of every phase of railroading, was the program Tuesday at Lions club, using his hobby as topic.

Claude McDonald offered the invocation.

Pres. George R. Huckaby presented the 10-year Old Monarch certificate to Buck Voyles.

Guests were Donald Jones, member of Boy Scout Troop 37, which the club sponsors; Virgil Grice, scout executive from Wichita Falls; Ralph Slak and Ranny Voyles.

Woodall, who is also a scout leader, holding the Silver Beaver award, urged all Lions to buy tickets for the ice cream and cake supper to be served by Troop 37 Friday evening in the City Park.

Doc spoke on the history of railroading. He gave some general and interesting facts about that industry.

There are 222,508 miles of railroad tracks in the U.S.

The longest: Santa Fe, 13,072.

The shortest: Valley, 0.57.

The highest: Pikes Peak.

The lowest: Salton Sea.

He told of the evolution of the steam locomotive, the first caboose and the first headlight. Then he explained the relative merits and weaknesses of diesel locomotives.

He explained the varied duties of train crew members.

Woodall closed with a poem from "The Great Northern Goat," route of the Empire Builder.

Esther Thornberry and Elaine

Sawyer provided luncheon music for the club meeting.

Bill Ballard, assistant probation officer of Wichita county, will be guest speaker at next Tuesday's meeting.

THE HOME OF GREATER VALUES

WHY DO WITHOUT A LITTLE LUXURY LIKE THIS... LET ALONE

Chevy's the only car of the leading low-priced three that gives you the convenience of crank-operated vent windows. No awkward latches to fumble with... your knuckles and fingernails will appreciate it.

THESE BIG CHEVY VIRTUES!

bigger brakes

Bigger, yes, and built with bonded linings for as much as 66% longer life. And how's this for proof that Chevy's a real stopper: in a NAS-CAR*-conducted test of repeated stops from highway speeds, Chevrolet outstopped both of the "other two" time after time.

award-winning engines

The NASCAR Outstanding Achievement award goes to Chevrolet! Chevy wins for "the creation and continuing development of America's most efficient V-type engines... for the establishment of new levels of V8 compactness combined with outstanding smoothness." And you can choose among eight V8's and the Six that won the Mobilgas Economy Run for its class.

full coil ride

You're the expert on ride, so you'll want to try Chevy's easygoing smoothness for yourself. MOTOR TREND magazine can give you a hint of what you're in for: "... the smoothest, most quiet, softest riding car in its price class." And Full Coil springs, of course, never squeak, never need grease.

fresh styling

POPULAR SCIENCE magazine gave Chevy's styling a thoughtful look, then said it this way: "In its price class, Chevy establishes a new high in daring styling..." You'll find your own happy way of saying that Chevy's the only unmistakably modern car in its class.

greater roominess

Automobile Manufacturers Association records carry the facts on this. In a Chevy sedan, for example, you've got more front seat head room than all but one of the high-priced cars! And Chevy's front seat hip room spreads up to 5.9 inches wider than comparable cars.

bigger savings

Here's solid proof that Chevrolet squeezes more miles out of a gallon: In the famous Mobilgas Economy Run, two Chevrolet sixes with Powerglide took the first two places in their class. Winning mileage: 22.38 m.p.g. And that, friends, took top honors for Chevy from every full-sized car!

higher trade-in

N.A.D.A.* Guide Books prove that your Chevrolet will keep its value. Chevy used car prices last year, for example, averaged up to \$128 higher than comparable models of the other two cars in Chevrolet's field.
