BANNER DAY AT BAYTOWN - Employees at Humble Oil & Refining Company's Baytown Refinery raise a flag in formal opening of the company's Polyolefin Unit — newest addition to Texas' growing petrochemical industry. The plant has an annual production capacity of 40,000,000 pounds of polypropylene, a new petroleum-based plastic of unusual qualities. Polypropylene, to be marketed by Humble as Escon, is light and water-resistant enough to make ropes that float, tough enough for dinnerware and machine parts, so resilient products made of it can be bent double without breaking. and it is resistant to heat, chemicals, oils and greases.

Our County Reputation

A county builds a reputation among the lawless element.

SLACKNESS IN THE SHERIFF'S OFFICE is quickly noticed by the criminals in surrounding areas. They are quick to capitalize on any weak spot in that law enforcement agency.

I PROMISE ...

that if I am elected as your next SHERIFF to use every resource available to apprehend the Bad Check Artist, the same as if he had stolen money at gunpoint. But, let's keep the emphasis where it belongs . . . on total impartial law enforcement. Wichita County needs to build a better reputation for authority with respect for that authority.

I PROMISE . . .

You, the voters, that I will conduct myself and the Sheriff's Department in a manner that will command your respect and the deep respect of all law less elements.

I PROMISE . . .

A co-operative and harmonious relationship with the District Attorney's office as well as the County Commissioners and other law enforcement agencies. Top efficiency in all of these departments demands a complete accord with the Sheriff's office. I feel that harmony needs to be restored after a long period of discord dating back many years.

MAY I HAVE YOUR VOTE AND CONFIDENCE ON JUNE 4th?
