## First Baptist Church Honors Pastor at Beginning of Sixth Year Here

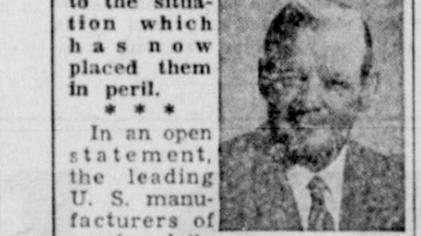

babies born to members of the Church or Sunday School over the five-year period.  
All of these are specially invited to be in the Morning Worship Service, when they are to be recognized as a part of the service.  
An attendance goal of 400 has been set for Sunday School and Worship Service as the pastor begins his sixth year in Iowa Park.  
During the past five years the church has built, equipped and paid for a modern children's building that is designed to take care of the children from birth through eight years of age. More recently the church has built and paid for a new home for the pastor.  
The church has contributed to missions outside the local community the sum of \$58,656 over the past five years as reported in official records. During the same period the church contributions to all phases of the work has been \$233,284 as reported in the minutes.  
Resident church membership now stands at 608 and a non-resident list of 42. The Sunday School has enrolled 547 and an annual average attendance of 300 each Sunday.

## WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

An entire American industry has found that their chickens have come home to roost.  
But what is not only unusual, but also refreshing, is the acknowledgment by the American men's apparel manufacturing industry that they have contributed to the situation which has now placed them in peril.  
In an open statement, the leading U. S. manufacturers of men's clothing, E. W. Harder, announced that the flood of imports from 10 and 12 cents per hour labor nations is not only threatening their business, but also the jobs of over a million American workers.

They also announce they are raising a million dollar fund to defend their industry from ruin.  
For quite some time, the nationwide membership of the National Federation of Independent Business, have requested a curtailment of low labor cost imports. A year ago a special Senate committee headed by the Sen. Pastore warned of the crippling impact of foreign imports on the American textile industry.  
The men's clothing manufacturers now publicly confess, "Let us admit when government permitted a flood of fabrics from low wage countries to engulf American mills, many apparel manufacturers rushed to buy the imports, to the detriment of our own textile industry, and ultimately ourselves."  
Included in this industry group is Heley-Freeman, one of the National Federation of Independent Business

Obviously, it should be the duty of government to help the men's clothing industry avert destruction.  
But by the same token, the industry should recognize that it also has a responsibility to other segments of the American economy. Some members of the industry who have been busily engaged buying up big retail outlets to operate captive stores should search their souls even more to see if they can justify operating their own retail outlets in competition with independent retailers they depend on for substantial share of their sales.  
In other words, they have already awakened to the dangers of carrying water on both shoulders. Perhaps now is the time for them to fully understand and recognize all the factors that must be healthy to maintain a prosperous independent American economy.

## You And Your Taxes

Uncle Sam is not the only one spending your tax dollars by the billions.  
A study of the Historical Summary of Governmental Finances in the U. S., published by the Bureau of the Census, shows that local government expenditures have been increasing at the average rate of 9.4 per cent each year—up, up, up until they have reached an estimated \$37.8 billion in 1960. And the upward trend is still with us.

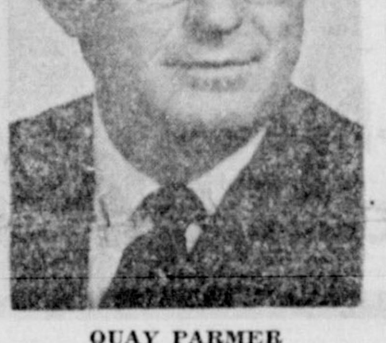

This focus on local spending is brought forth in view of a new program being sponsored in many cities throughout the nation. It is called Home Owner Tax and is designed to arouse the interest of citizens in local government affairs and communicate their views to local officials. It seems particularly timely and worthwhile in view of what's been going on across the country.  
That figure of \$37.8 billion for local government spending in 1960 was only \$16.1 billion in 1950, astounding as that may seem! If it continues its upward trend at the rate of nearly 10 per cent every year, where will the taxpayer be? What will he have left?  
Even more distressing, the local governments are spending the money faster than they're taking it in! While the average rate of increase in expenditures was 9.4 per cent, the average rate of increase in revenues was 8.4 per cent for every year since 1950. Estimated revenues for 1960 were \$37.8 billion, compared with \$17 billion in 1950.  
From another source, the National Research Bureau, Inc., comes word that the total state and local debt has been steadily rising, from \$22.7 billion in 1950 to \$54.6 billion in 1958, the last year for which figures are available.  
Here's what the National Research Bureau pamphlet adds: "Many state and local governments find themselves faced with tremendous pressures of extended spending. This spending may be in the form of a new school, new road, or relief program. The only way that these programs can be financed is through increased revenue. This revenue may come in the form of higher taxes, or in the form of a rise in tax assessments, which amounts to the same thing. The cost will still be borne by the people. This fact makes it absolutely essential that every citizen carefully examine each new spending measure that is introduced into state and local government."  
That is basically the same message Home Owner Tax is trying to get across. H.O.T. attempts to induce the taxpayer to make known to his local officials what he does, or does not, want to buy and pay for in local government. When taxpayers are heard, they generally ask for less government spending, reduced taxes and the honest attention of public officials to their problems. H.O.T. was founded on the theory that many local government functions and services can either be eliminated or performed just as well or better by private individuals.  
There is certainly a need for a voice on the side of individual initiative vs. expansion of government services.

## Revival Begins Sunday, Feb. 4

Committees of the Methodist church are completing preparations for a revival meeting to begin here Sunday, Feb. 5, and continue through Sunday, Feb. 12.  
Quay Parmer of Fort Worth will conduct the preaching services. He is remembered here as the speaker for a revival three years ago.  
Mr. Parmer is a native of Alabama who came to Texas in 1935 to attend the school of theology at Southern Methodist university in Dallas. He served for 7½ years as pastor in country and city congregations. In 1941 he entered the army as chaplain, serving five years.

Chuck Bowman gave an excellent report on securing a public library for Iowa Park.  
Chester Miller reported progress on the Little League baseball field located on the Old Electric Road. The fence is completed, backstop is 75 per cent finished, dugouts are started and dirt work will be started in the next week or two, weather permitting.  
Bill Sawyer reported on the mid-winter conference held in Graham and that the Evening club is leading in membership for clubs up to 40 members rank.  
The club voted to sponsor basketball games between Lions and the school faculty and between ESA and business women. The doubleheader will be played Feb. 13 in the school gym. Tickets are to be sold for 50c and 25c.

Rollin Roberts, representative of Iowa Park Camp Fire girls, presented the club a Community Day award. Evening Lions sponsor the Camp Fire and Blue Birds in Iowa Park. Those receiving the award on behalf of the club were R. E. Waters and Bill Sawyer, long-time workers with the organization.

years. Two years of that time were spent in European theater of operations with a combat division.  
Upon returning from the war, Parmer entered full time service as an evangelist. During the past 15 years he has conducted more than 300 meetings in 23 states from coast to coast.  
Mr. Parmer works in full cooperation with the program of evangelism as promoted by the General Board of Evangelism of the Methodist church.  
Bill Hall, principal of Iowa Park junior high school, will lead the singing services of the meeting. Besides his school work here, he is director of the choir of First Methodist church in Electra.

## Death Takes Last Charter Member

Funeral service was conducted for Mrs. Theresa May Peterson, 83, a pioneer of this area, Sunday afternoon, Jan. 2, in the Iowa Park Christian with the Rev. Mr. Claude McDonald, pastor, officiating. The body lay in view at the church an hour before the service.  
Burial was in Highland cemetery under direction of Tanner Funeral Home. Pallbearers were grandsons — Bill Rooger, Jimmy Shelley, Earl, Edgar, LeRoy and Lindy Peterson, all of Wichita Falls.

Mrs. Peterson died early Saturday in the home of her daughter Mr. and Mrs. Albert Littlefield in Vernon. She had been in failing health the past 3 or 4 months and became seriously ill a week before her death.  
She was born Nov. 21, 1875, near Rhome, daughter of Mr. and Mrs. David Fulton. She was married to Charles A. Peterson in Ft. Worth, Sept. 26, 1890, and they came directly to Iowa Park where they lived 10 years before moving to a farm four miles northeast of town.

After Mrs. Peterson's death in February 1948, Mrs. Peterson went to Vernon to make her home with the Littlefields.  
Mrs. Peterson was an early-day member of the local PTA organization and a charter member of the local Christian church, which was organized in 1891 with 22 members: Messrs. and Mrs. Z. P. Dale, Newt Herod, D. M. Smith, John Chenoweth, I. Flemmons, Ben Ferguson, Snow, and Mrs. Mmes. O. H. Crites, Fannie Yauger, J. L. Pratt, C. A. Peterson; Miss Sarah Pratt; Messrs. E. A. McClesky, Nicholson and Jimmy Akers.

Mrs. Peterson was the last surviving charter member of the church.  
Mr. McDonald in paying tribute to Mrs. Peterson said, "Surely Mrs. Peterson, devoted wife and mother, spent many hours reading the scriptures and listening to the words of her Heavenly Father for her life. And God led her.  
"He led her to join with a handful of others, all of whom preceded her in death, to establish this fellowship. And it was only because of such dedicated folk as these that we enjoy the spiritual blessings which flow from God to us, through the on-going of this church."  
"Too often we take these blessings for granted and forget that the hardships were many and the luxuries few 50 or 60 years ago in north central Texas. But Mrs. Peterson and others like her were not looking for luxuries, rather believing in Jesus Christ they had set out to establish a witness for Him here.  
"Yes, in a real sense, Mrs. Peterson and the other beloved charter members of this congregation knew what Jesus meant when he said, 'And whoever gives to one of these little ones even a cup of cold water because he is a disciple, truly I say to you he shall not lose his reward.'"  
Surviving are four sons — Roy and Leonard of Wichita Falls, J. A. of San Francisco, Calif., Dave of Dallas; two daughters — Mrs. Littlefield and Mrs. Johnny Beasley of Abilene; 21 grand- and 29 great-grandchildren; two sisters and one brother.

**For Good Sleep**  
Harrel Sullivan, owner of the White's Store in Iowa Park, is proud of the latest addition to his store. He is exclusive dealer for the Englander Airlon Mattress which is making history as a best seller and best sleeper!  
He is inviting all the folk in this area to come in at their convenience and inspect the Englander Mattress, which will make sleeping in comfort not only something to dream about—but something to realize for yourself.

### MR. FARMER:

The Food business is a good business to be in unless of course you're on the Production End.

Farmers are doing their share to allow this healthy growth. They produced more food last year than any year in our history. However they received less for it than they did in 1959.

A January article says that while steel, automobiles and other segments of the economy slump, the grocery business continues to boom along. And the farmer's portion of the consumer's dollar was 38 per cent — down 20 per cent from 1952.

So now is the time to join the Farmers Union and help change this situation while the Family Type Farmer has good friends in the White House.

John R. Woodall was in Corpus Christi last weekend, where he spoke at a district meeting of Christian Youth Fellowship. John is state president of CYF. His mother Mrs. Rollins Woodall went with him to San Antonio where she visited with relatives.

Present plans are to rent the house. At a later date the house will be sold to be moved off the lot.

The new \$96,327 wing of Ethyle Kidwell elementary school is under construction and is to be completed by July 20. Footing has been poured and the foundation beams and piers are being constructed.

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

When giants battle, the little fellow often gets trampled.

This situation happens all too often in the retail food field when in a given market several big chains start warring on each other. This usually happens in markets where more chains have moved in than there is room for.

But in trying to annihilate each other, the chains usually do great damage to the independent stores in the area. It is not possible to sell, for example, coffee that costs 72 cents per pound for 48 cents, week after week, without something compensating for this loss.

In the case of the big chains, when they are losing money on coffee and many other items week after week in one locality, they merely mark up prices in their stores in other localities.

This recourse, obviously, is denied the single store operator who has to cut his prices to stay with the warring chains in pricing in order to hold trade.

Generally speaking, this absurd price cutting to wage war is illegal. But usually, before the moribund Federal Trade Commission gets around to the problem in any particular market, it is much too late.

Yet, this season of the year, when the legislatures of most states are meeting, it is perhaps unnecessary to wait for remedial action from Washington on this problem of unrestrained selling below cost which has become a major retailing problem of the day.

In some areas, the cat has been skinned another way. Any state legislature can pass a law that prohibits any merchant from limiting the sale of an item at a special price. The usual method, for example, when coffee is being sold 20 cents, or more, below cost, is to limit sales to 1 or 2 pounds to a customer.

Yet, it only takes a simple law to make it illegal to restrict the offering of any item. While a chain may not particularly mind losing 20 cents on one or two items to lure a customer away from somebody else, they will not make such bankruptcy producing offers if they cannot limit quantities.

Here is how this works. If they cannot limit quantities, there is nothing to stop a competitor from backing up a truck and paying case after case of the merchandise for less than he can buy it for, and turn around and selling it at high prices, or even the same price.

In the parlance of the old western prairie days, this was called fighting fire with fire.

Thus, any state legislature in the nation can do a great deal.

And, in the strictest of ethics, of quantity is quite in order.

After all, why should any seller be permitted to specify just how much he will sell of an item to any one customer. In addition, widespread adoption of such a law would prohibit this growing practice of robbing Peter to pay Paul.

PRESS HONORED—The George Washington Medal for accomplishment in the field of advertising dedicated to preserving the American Way of Life, was presented the Texas Press Association at its January convention in San Antonio by Associate Justice Meade Griffin of the Texas Supreme Court. Judge Griffin presented the plaque, pictured above, on behalf of Freedoms Foundation of Valley Forge, Pa. Receiving the national award for TPA, on behalf of the daily and weekly newspapers of Texas, was L. B. Smith, publisher of the Brady Standard-Herald, president of the press group.

### Mind Your P's and Q's

By Martha Johnson  
Dodge Safety Consultant

Pay attention to what you're doing.

We all know how that applies to our work. But we shouldn't forget that it is most necessary when we are behind the wheel of a car.

Don't be a daydreamer. You might hit a youngster crossing the street from between parked cars.

Don't window shop while driving past your favorite shops and stores. You might crash into the car ahead of you.

Don't comb your hair on the way to your bridge club meeting. You might not be able to stop in time to avoid hitting a blind man crossing the street.

Don't wave to your friends walking on the sidewalk. You might not see the stop light in time to stop at the intersection.

Don't visit with your passengers. You might not see the car pulling out of a parking spot.

Don't turn around to discipline the youngsters in the back seat. You might not see the jay-walker crossing in front of your car.

"Ace of the Base" trophy was awarded recently to Capt. James Roby of Iowa Park at the RCAF Station Chatham.

Roby is a USAF exchange pilot who has been based at Chatham about two years as an F86 instructor.

When the annual gunnery competition was announced there was no one who greeted the news with more pleasure than James. This was his liking. As a Sabre pilot in Korea and as a gunnery instructor in the States, he was anxious to see if he had retained his old skill.

More than 30 pilots took to the air individually in their Sabres to

## TEXAN OF THE YEAR AWARD

Presented To Native Texan

### Paul Richards

OF WAXAHACHIE

THIS AWARD is presented to Paul Richards, Texas' Top Sportsman, by the Daily, Weekly and Semi-Weekly Newspapers of Texas, represented by the Texas Press Association. It is presented in appreciation of the great honor which he has brought to the Lone Star State. It is in further tribute to his selection as American League Baseball Manager of the Year, while directing the Baltimore Orioles throughout the 1960 Season; his selection as Southwesterner of the Year for 1960 by the Texas Sports Writers Association; and his recognition by us as one of the most astute and colorful managers in baseball today.

Presented by The Texas Press Association on Jan. 21, 1961 at TPA's Mid-Winter Convention in San Antonio, Texas.

# Electric broiling gives you that true broiled flavor

## ...because it's FLAMELESS

Like glowing embers, the radiant flameless heat of an electric range broils meats with tender, juicy, "melt-in-your-mouth" goodness. It's the modern, better way to broil—with penetrating radiant heat that instantly seals in the natural juices and protects the tenderness of the meat. And because you broil with the oven door open, you get that true broiled flavor, with never a trace of that dry, baked-out taste. Why not start now to enjoy modern electric broiling, as well as the many other advantages that only electric cooking can give you? See your electric range dealer soon for a flameless automatic electric range.

### ABUNDANT LIFE

by ORAL ROBERTS  
HOW TO ASK FOR A BLESSING

Two blind beggars were making the rounds in the city park. It was a lovely spring morning. Many people had come to the park to take in the beauty of spring.

Each blind man carried a tin cup. Each had a sign hung around his neck. One man's sign read: "Please Help the Blind." The other man's sign read: "It's Spring . . . and I Am Blind!"

At the end of the day one beggar had only a few coins in his tin cup—none was in his pockets. But the other's cup was overflowing. His pockets jingled with change.

Can you guess which one got more money? The one whose sign read: "It's Spring . . . and I Am Blind!"

Why? Wasn't the other beggar who got practically no money just as blind as the one whose tin cup was full? Didn't he need money as badly as the other? What made the difference in the results?

It was the way in which the beggars asked for their blessing. The successful beggar's sign opened the people's hearts and purses. His sign moved them to compassion, because they realized that here was one who could not enjoy what they en-

joyed—the beauty of a spring day. He was blind! His sign showed the people his need.

The other beggar could not see the beauties of God's wonderful world, true. But simply asking, "Please Help the Blind" was not sufficient to urge the people to help him. He did not know how to ask for a blessing!

If you want a blessing, you must first learn how to ask for it. If you are seeking a blessing from God, you must know how to seek God's help.

When you pray to God and ask for a blessing, ask for it in faith—believing that He will answer your prayer. And don't become impatient. God always answers prayer in His own due time. We cannot hope to know what may seem to detain God. We cannot hurry God.

When you ask a blessing from God, tell Him of your need, fully, openly and with faith. Don't hold anything back from God. Although God knows you and your need even before you ask it, it is you who must show God that you are willing to "level" with Him all the way.

When you ask of God in faith, believing that God wants to bless you, you will receive the desire of your heart.

Mr. and Mrs. Tom Pace were in Houston last weekend where he attended a meeting of state directors of the Federal Land Bank. They also visited in Thornton with his brother Rev. and Mrs. J. C. Pace, and returned by way of Dal-

las where they spent the day on business.

Mrs. Evah Price has returned home last weekend after visiting relatives in Nocona and Spanish Fort.
