Recently there was a garage fire n Iowa Park. Volunteer firemen immediately jumped in their cars and headed for the fire trucks to make the run.

Curious and unthinking citizens of Our Town who had no intention of helping fight the fire, also hurried to their cars and drove to the fire. The traffic jam severely hampered our Fire Boys in their work.

NEW SECRET WEAPON

Food always has been and still is the most important item in the world. It has caused wars, butchery, hatred and now wise men believe it may bring peace.

For the first time in history, the farmer of some nations has learned the secret of production of abundant food. Progress of farming in these "have" nations has meant a small percentage of the population can produce enough for the rest of the people and often have some

In the United States a mere 8.7 high school attended a reunion in Action exhibit from Oak Ridge, per cent of the population can produce enough to feed the entire nation better and for a lower price known. and training club. The dog care awards program is new in 4-H and was offered on a national scale for the first time this year, according to T. W. Thompson of the National 4-H Service Committee. Mr. Thompson was one of the early planners, and works closely with the Cooperative Extension Service in a consulting capacity.

Daily care-including proper feeding, grooming, exercising and health-is the foundation of the learn-by-doing program. Obedience training is also important to both the animal and the owner, Thompson says. The project is appropriate for both farm and city 4-H Clubs.

Backing the dog project with tangible rewards for girls and boys who make the most headway with their pets is the Ralston Purina Company of St. I tension office.

award winners in each county, and a handsomely engraved 19jewel wrist watch for the top-ranking member in the state.

Authoritative literature on breeds, handling and exhibiting is made available without charge to 4-H'ers, local leaders and Extension agents, Thompson advises. To be eligible for the state

award, the club member must have been in 4-H at least three years and be 14 years or older. Additional information regarding enrollment in the dog care and training program may be obtained from the county Ex-

FARM INTERPHONE — NEW TIME-SAVER FOR FARMERS

A practical new communications service will be introduced in Texas in July to help farmers get more things done without so much wear and tear on them or others in their families.

The farm interphone, a compact communications package which will be available in July, should prove to be a real timesaver for hard-working farm families. It is designed to do three big jobs for you who live and work on the farm.

The first thing it does is provide regular telephone service between the house, barn, other farm buildings and key outside work areas. Just imagine how many hours and steps this will save a busy farmer and his family in a month.

Second, the farm interphone is hooked up with special loudspeaker-microphones that make it possible to answer the phone -hands free-without interrupting your work. Outside calls may be answered without leaving the barn.

Finally, the farm interphone is installed so that the sounds of the farm buildings can be heard in the house at night. It's a kind of "nightwatchman" that tells you of any unusual activities, livestock in need of attention, a pump or other equipment that might act up, or even the start of a fire.

A good farmer is a mighty busy man these days. And the farm interphone is designed to help him make the most of his time and energy. If you'd like to learn more about how the farm interphone can help you, just call the telephone business office in Wichita Falls, or ask any telephone serviceman.

TOOL CHEST ON WHEELS

I'll bet there isn't a housewife anywhere who hasn't found she lacked an ingredient for a recipe she was preparing. Of, for that matter, I wonder how many husbands have the right size washer on hand when they want to fix a leaky faucet.

The men who install telephones avoid situations like these by carrying a full assortment of parts and tools right with them. Their trucks are really parts departments on wheels, stocked with over 400 different items. They're prepared for every job when they call to install or repair service for you.

Being ready for the unexpected is just part of our effort at the telephone company to make sure your service is as convenient and trouble-free as is humanly possible.

Call by number. It's twice as fast.

Two members of the Hardin-Simmons university botany faculty have accepted fellowships from the National Science Foundation for summer study.

One is William F. Mahler, son of Mr. and Mrs. Herman Mahler. He will go to Pullman, Wash., for a six weeks institute for botany teachers. Some of the nation's leading botanists will be consultants for the institute at Washington State university.

Bill received his master's degree in botany at Oklahoma State university, Stillwater, and has been at Abilene the past year.

Bill left Thursday for Washington. His wife Lorene and children Brenda and Shawn will visit here and in Addington, Okla.

tiff further alleges that she and defendant were married on or about June 13th, 1960, and continued to live together as husband and wife until or about December 7th, 1960, when by reason of excesses, outrages and cruel treatment on the part of said defendant toward this plaintiff without cause or provocation, was of such a nature as to render their further living together insupportable; that

there was no community property acquired during this marriage.

Wherefore, plaintiff prays that defendant be cited to appear and answer herein, and that on trial hereof, she have Judgment for Di-vorce and for such other and further relief as the Court may deem proper. As is more fully shown by
