WATER
J. C. Keiningham, water superintendent, reported Wednesday on use of water here—600,000 gallons went through the mains Tuesday, July 18. He figures that from now on through the hot weather Iowa Park patrons will use about 700,000 gallons daily.

In talking informally with Miss Doria Smith, city secretary, we learned that Iowa Park had only 385 water meters in service when she went on the job back in the 1930's. Now we have about three times that number.

Mrs. Della Guthrie is leaving for Arlington, Va., where she will visit a month with her daughter Mrs. M. D. Moore and family.

Mrs. Faulkner died May 6, 1959.

Morgan-Buckley Vows Made in Wichita Falls

Miss Mary Anthony Morgan, daughter of Mr. and Mrs. Guy Morgan of Iowa Park, became the bride of John Coleman Buckley of Abilene at 7:30 p.m. Friday, July 14. The ceremony was conducted in First Methodist chapel of Wichita Falls with Dr. Howard H. Hollowell, pastor, officiating.

John is son of Mrs. R. I. Buckley of Maysville, Ky.

The altar setting was the table centered with cross flanked by gold candelabra and tall cathedral tapers. Outer altar edge held sunburst arrangements of white gladiolus and stock with cascades of jade foliage.

Mrs. R. G. Warner and sisters Mrs. Loe Stephens and Mrs. Helen Whiteley, both of Chillicothe, visited last week in Ft. Worth and Mineral Wells.

Wright, vocalist, provided traditional selections.

Mr. Morgan presented his daughter in marriage. She was attired in a formal gown of rose patterned pearl white hand-clipped Chantilly lace and French tulle over silk satin. The figurine bodice of lace over taffeta had off-shoulder scalloped decolletage. Long lace sleeves tapered to points over the wrists. The skirt with layers of voluminous tulle was appliqued with jeweled lace medallions and an overskirt of scalloped lace cascaded down the back to a brush train.

A fingertip veil of illusion extended from a crown of lace and seed pearls. She carried a white cottleya orchid centered in white stephanotis and brocade ribbon.

Miss Charlene Smith of Wichita Falls, maid of honor, and Miss Doylene Morgan of Dickens, bridesmaid, wore identical sheath dresses of yellow polished cotton with high oval necklines and cap sleeves. An overskirt of matching tulle was gathered on a band of velvet. Their headpieces were circles of yellow tulle attached to

bands of velvet ribbon of the same color. They carried teardrop arrangements of white spider mums against greenery and white satin ribbon.

Kenneth McGregor of Abilene served as best man. Ushers were Jerry Morgan of Iowa Park, brother of the bride, and Gay Noble of Abilene.

A reception was given by the bride's parents in the church fellowship hall. Centering the bridal table was a large crystal candelabra holding five cathedral tapers. A white satin cloth and crystal appointments completed the arrangement.

The bride's bouquet was used to decorate the table at which Miss Vicki Barton of Wichita Falls attended the guest book.

In the houseparty were Miss Phyllis Gentry of Maysville; Miss Bonnie Callaway of Iowa Park; Mmes. Bob Harper and John Combs of Wichita Falls, Gerald Bentley and John Hurley of Fort Worth.

The bride is a graduate of Iowa Park High School and of Hardin-Simmons university, Abilene. She was a member of TEA, YWA and Life Service Bard. Last year she taught at Sheppard school in Wichita Falls.

The groom is a graduate of St. Patrick high school, where he was a member of the basketball team and was active in all sports. He is in his fifth year of service with the air force and is stationed at Dyess AFB in Abilene.

After a trip to Kentucky and points of interest in the East, the couple will establish residence in Abilene.

A rehearsal dinner was held at the Western Hills Motel with the groom's mother as hostess.

Out of town guests for the wedding were: Messrs. and Mesdames Bonnie Ikard and W. S. Ikard of Archer City; Troy Ikard, Gerald Bentley, John Hurley of Ft. Worth; Glen Ferguson of Ft. Worth; Page Morgan of College Station;

And Miss Vicki Barton of Houston; Miss Doylene Morgan of Dickens; Miss Phyllis Gentry and Mrs. Robert Buckley of Maysville, Ky.; and Messrs. Gay Noble, Kenneth McGregor, Rollin Roberts of Abilene; J. W. Combs of Fort Worth.

Pre-nuptial parties given in Miss Morgan's honor:

2. Personal shower hosted by Doylene Morgan and Mrs. Ann Harper at Miss Morgan's home.
3. Coffee given by Mrs. Chauncey Weiler and Mrs. China B. Smith in Mrs. Smith's home.

Eat in Cool Clean Circle L Cafe

Last weekend Jeff and Aggie Lindley gave the Circle L Cafe a general overhaul, and now their eating place is outstanding for efficiency and beauty.

Most noticeable is that the counter and stools have been removed, resulting in a more spacious effect and enabling more patrons to be served at the handsome tables.

Also startling is the turquoise room divider in front of the kitchen serving window and beverage dispensers.

New tile floor and paint job complete the renovation.

Customers are delighted with the new, spacious look, the efficient service and air-conditioned comfort of Circle L Cafe.

Little League All-Stars Ready for Tournament Trail

Iowa Park has a fine group of youngsters who can run, field, hit and throw. The team was chosen by managers of the four major league teams, the umpire-in-chief and the president of the league. They have been working out as a team in preparation for the tournament.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

Jury duty is an experience everybody ought to have.

In a criminal case 12 jurors have a duty to do justice as each one sees it, and yet be unanimous. In most trials both sides have much to say, and the evidence is conflicting. The jurors vary in ability, temperament, character, education, experience in the world, and in the question at stake.

Yet a jury made up of both sexes, with wide age and educational differences, jobs and origins must all come up with the same verdict. Upon their decision much depends—life or liberty of others, and the public good. So it may take them days of talking among themselves all to agree.

Jury duty calls for insight, common sense, courage, tact, fairness, patience (especially toward the jurors who disagree with you), good humor, tolerance, balance, willingness to hear others out and change one's mind, readiness to go over and over the facts to find something to bring agreement. In short, jury duty demands a decent respect to the opinions of others.

A jury finds facts. It hears and weighs evidence and then comes to a verdict. It does not make the law—the legislature does; and the judge instructs the jury concerning the law applicable to the particular case it is considering.

The judge will tell you not to find the accused guilty until he is proved so under strict rules of evidence. It you have any reasonable doubt—not imaginary or far-fetched—acquit the accused.

Civil cases do not demand a moral certainty, merely the preponderance of what you regard as reliable and believable evidence.

Moffett Says

Among reasons for new taxes in Texas are growth of state services and falling off in oil tax revenue. Wells are allowed to produce only 8 days per month now. Not many years ago they could produce 30 days a month.

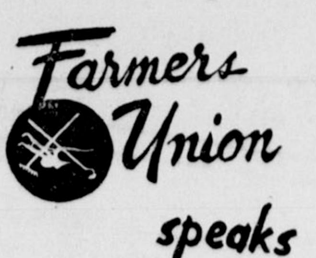

Increase in population is the principal reason more taxes are necessary. Each year there is an increase of nearly 100,000 students in the public schools and also a heavy increase in college enrollment. It costs about \$275 a year per pupil to operate the public schools. It costs about \$700 per student a year to operate the colleges.

Twenty-three state hospitals and eleemosynary institutions are becoming more crowded each year. New buildings, more employees, doctors and attendants must be provided. The penitentiary now has more inmates than ever before.

Price of all supplies bought by the state constantly creeps up. Old age assistance payments plus aid to the blind and totally disabled persons now take \$47 million a year from state funds.

Since revenue from oil and some other sources is falling off, it is obvious new sources must be found and the Legislature to trying to do just that.

Most members would prefer not to vote for new taxes. All of us welcome practical and workable suggestions as to what should be done.

One of the rawest publicity stunts ever pulled at the expense of genuine farmers who need help has been endorsed and ballyhooed by 20 Republican members of the US Senate.

Press, radio and television made a celebrity several weeks ago of William T. Smith of Big Flats, N.Y., by picturing him with a \$6,100 Cadillac which he is buying with proceeds from the feed grain program.

Sign on the rear of the car read: "Thank you JFK! Thank you Orville! Thank you, if you voted for them. We didn't! We bought this car with money we received for not growing corn."

A few days later Smith drove to Washington and was pictured with his Cadillac. This time he was given a luncheon ovation at the Capitol by 20 Republican senators. Smith is a Republican.

He was identified as owner of a dairy and poultry farm near Big Flats, but the facts give this the lie. A little research turned up the following information:

1. Smith inherited his 1200-acre farm, which is a consolidation of seven farms.

2. In addition to the farm Smith operates a restaurant and a dairy products business.

3. He is a part owner of a bowling alley and a housing corporation.

4. Until three years ago, when fire destroyed some of his farm buildings, Smith manufactured plastic canoes on his farm.

5. He was president last year of Chemung County Farm Bureau.

6. It would have cost the government more eventually if Smith had stayed out of the program. Based on Smith's high yield history, it is estimated the government would have paid about \$3300 more in support, storage and handling the extra crop.

Secretary Freeman referred to Smith at a press conference as a "gentleman farmer" and to his antics as a publicity stunt.

Mr. and Mrs. T. C. Scott and daughter Mrs. Shannon Denison of Rosebud, Ark., visited last weekend in Irving with the other daughter Mr. and Mrs. Charles Bolding and family.

Mrs. Herman Mahler returned Tuesday with her daughter-in-law Mrs. Bill Mahler and Brenda and Shawn of Abilene. Mrs. Bill Mahler and Brenda will go soon to the State of Washington and join Bill on his trip home after attending summer school at the state university there.

Dr. and Mrs. R. G. Warner had as guests last week Mr. and Mrs. Pete Leffers, Sandra and Don of Norfolk, Nebr.

Mr. and Mrs. J. B. Moore, who operate the Animal Shelter on Wichita Road, will move this week to Pecan Way of Wichita Falls. They will continue to care for animals from Iowa Park area.

Mr. and Mrs. Tom Dillard had as recent guests their two daughters and families: Mr. and Mrs. Jack Spruiell and daughters Jackie and Nancy, who were enroute to Tinker Field, Oklahoma City, from California; Mr. and Mrs. James Hair and son Kelly of Ft. Worth. The Hairs also visited his parents Mr. and Mrs. P. M. Hair.

We need an official "week" each year to remind us of things we should practice every week.

National Farm Safety Week to be celebrated July 23-29 is a perfect example of a "week" that should be considered a continual part of rural life. It is just plain good sense to avoid the suffering and economic losses resulting from farm accidents.

Accidents in American farm homes take about 2700 lives a year, according to the Texas Farm and Ranch Safety Council, and some 3400 persons are killed each year doing farm work. This is in addition to the 4700 farm residents who die on the highways in non-work accidents.

If we think of safe practices as a means of doing things, rather than as a set of Do's and Don'ts, accident prevention will become a way of life—a way that will preserve the lives of farm families.

Let's make every week Farm Safety Week.

When controversy leads to public enlightenment, we're all for it. But there are times when controversy results in public confusion, with disastrous results.

We hope the controversy over the relative merits of polio vaccines will not discourage parents from seeing that their families are given a full series of Salk shots immediately. This is the time of year when the unprotected are most exposed to polio. Salk vaccine is available and has proved 90 per cent effective in preventing paralytic polio.

Whether or not the Sabin live-virus vaccine is better than Salk's is a matter to be decided later. The new vaccine is not available, so parents must not for safety's sake wait until it is in good supply.

Get your family started on a full series of Salk shots today—let the children who come later have the Sabin or other vaccines.

Iowa Park is well represented in the 49th Armored Division which completed Saturday its two-week tour of active duty at Fort Hood. Ben Hildebrand is commanding officer of A Battery; Don James commands Hq Hq Btry—both outfits of Wichita Falls.

Serving with Capt. James are Larry Lee, Norman Lee, Ralph Brown, Fred Lewis, Don McManus, and Claburne Lindley.

During the year Mark Clark and Ray Don Klinkerman do their soldiering at Electra in Service battery.

Second Howitzer Battalion, including the Electra and Wichita Falls units, won the Division's baseball championship.

Mrs. James Sewell recently returned from a short visit in Berkeley, Calif., with the Pat Sewells. This was a get-acquainted visit with the first grandchild, Bretton Christopher, now five months of age.

Mr. and Mrs. Carlton Hicks and sons Mike and Richard had as guests last week her brother CWO and Mrs. Kenneth Donley and children Kenny and Barbara. The Donley family was enroute from Anchorage, Alaska to Alabama, where he will be in a special army training course. Later they will be at Fort Sill, Okla.

I'm pretty proud of that young son of mine. He's all boy, from his scuffed sneakers to his grimy ears, but he's thoughtful, too.
Last Spring I wrote about the winter drought in the Canadian nesting areas of our wild waterfowl and the efforts needed to help the ducks with their water and 'housing' problem. Mike took this very seriously.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

There are some who claim that if a law had not been passed providing for income tax deductions from pay checks, that the costs of government would have declined, instead of steadily increasing.

In addition, there is quite some concern in certain quarters in Washington over the trend of the past few years to increase deductions for social security.

Congressman Harold Ostertag of northern New York recently pointed out that without any further items tagged onto social security, social security taxes on already passed legislation will continue to increase each year up to 1969 when the employer and employee both will be paying 4 1/2% each on the first \$4800 of wages and salaries each year.

This means, then, if there is no further broadening of benefits, by 1969 8 1/2% of wages up to \$4800 per year will be going into this fund. On top of this, in some states, the employer pays as high as 3.1% on the first \$3000 paid per year in unemployment taxes.

This, then, means that on employees making \$125 per week or less, for the first six months of each year, the employer will be paying a tax on this payroll over more than 7%.

In a business such as retailing, or some other enterprise where labor is the biggest cost of doing business, these welfare taxes on the employer can well equal, if not exceed, the

average net profit by a given line of commerce or industry.

Without going into the merits or demerits of any proposals to extend welfare benefits, it is perhaps well to consider that from one standpoint alone the peril point may have been already reached.

That standpoint is the supply of jobs. Inasmuch as business, unlike government, cannot look to outside sources of income to make up increases in costs, every time either government or union actions makes the cost of labor higher, great thought and study is given to finding methods, means, or equipment to replace the need for a part of the workers.

Spurred by past actions, many industries have already replaced workers, many more developments are in the preparation stage and will become operative in the near future, to further aggravate the unemployment problem.

Of course, there is quite an emotional pull to provide the fuller, richer, more carefree life for older citizens. Yet it's kind of a futile activity if it results in less and less job opportunity for the younger citizens.

This concentration by politicians on greater and greater welfare benefits, especially around times of elections, could well result in killing the goose that lays the golden egg.

After all, a sound, logical argument can be made that the father of any young family should carry at least a quarter of million dollars in life insurance. However, if in order to pay the premiums, the family has to stop eating, the arguments that sound so logical become rather silly.

THE ALL ELECTRIC HEAT PUMP

DOES BOTH JOBS AUTOMATICALLY...
WITH ONE SETTING
OF THE THERMOSTATIC CONTROLS

Year-round indoor climate control is completely automatic with the All-Electric Heat Pump. The same central system unit that cools your home in summer also heats it in winter, using only air and electricity. In hot weather, the Heat Pump extracts heat from indoor air and pumps it outside. In cold weather, the Heat Pump automatically reverses itself. It extracts heat from outdoor air (even when it's below freezing) and pumps it into your home. And during changeable weather, the Heat Pump switches automatically from cooling to heating or back again, as needed, to maintain the temperature you like best. You just set the thermostatic controls once and enjoy perfect comfort the year round. See your air conditioning contractor soon . . . or call Texas Electric Service Company for complete information.

Three miles north of Vernon on US 283 the Montgomery car was involved in a two-car accident in which Mrs. Montgomery was killed and Mr. Montgomery was critically injured. Also injured were the couples son Rex, 13, and Allen Clark and John Christopher jr., both of Vernon.

All the injured were taken to a Vernon hospital. Mr. Montgomery was transferred to Wichita General hospital where he remains in critical condition.

Soil Testing

Wichita county ASC office is offering a soil sampling service to farmers, at no cost to the farmer. It consists of a visit to the farm and proper taking of sample from the area to be tested.

Farmer pays only the laboratory fee for analysis, \$2 per sample. Soil analysis may save you money on fertilizer. Farmers planting legumes and alfalfa this fall are urged to have their soil sampled. This should be done in July to give the laboratory sufficient time to make the analysis and report before planting time.

Contact the ASC office at Iowa Park if you want this service.

Phone Managers Hosts at Dinner

Joe Cochran, manager for Iowa Park, and John I. McDonald, division manager for Southwestern Bell telephone company, were hosts of a dinner given Wednesday in the Christian church for a small group of Iowa Park businessmen.

Purpose was to enable the telephone officials become better acquainted here and to give opportunity for discussion of telephone problems in Our Town.

Enjoying the fine food and fellowship were Morris Jacks, Donal Boley, Bud Mercer, F. M. Wilson, F. E. Hill, O. N. Newman, Luther Shaw, Keith Swim and George R. Huckaby.

Other like events will be set-up here at later times, Cochran said.

T-O Fair

Range judging has been added to T-O Fair's junior judging contests, according to Elvy G. Sargent and Ben Fulton, co-chairmen of the division.

National score cards 3 and 4 will be used, Sargent says. Fine native plants to be identified will be taken from the official grass judging list of T-O Fair.

Contestants will check the degree of range use, kind of range site, range condition, list predominant decreases, increasers and invaders. After scoring these, the contestant selects the management practices.

In identifying plants, contestants name the plant, determine if it is perennial or annual, cool or warm season, native or introduced, climax or invader.

CARD OF THANKS

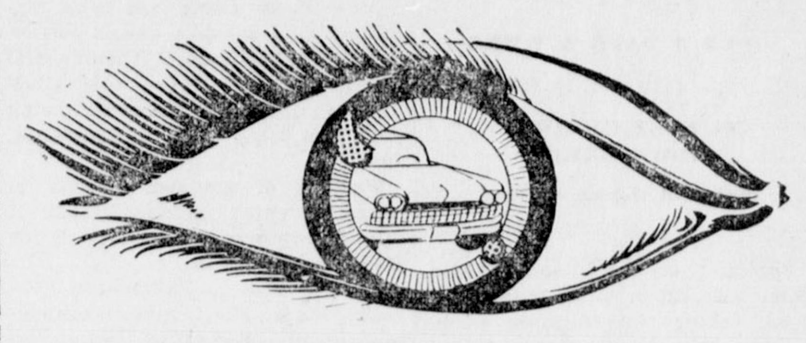

Words cannot express our appreciation for the many kind deeds that have been done for us recently. Your words of encouragement, visits, flowers and other expressions of love and friendship have meant much to us.
