Warriors Win at Lockett

Valley View and Lockett began District 9-B play at Lockett last Friday. The Warriors cashed a blocked punt to score a 12 to 3 victory.

Valley View drew first blood on a 70 yard pass play Lindsey Brown to Harvey Newman. By halftime the Warriors had posted another counter by Erwin Rogers. Lockett's lone tally came after a 75 yard drive with Don Paschal driving over from the 4. He added the two-point conversion.

CARD-OF THANKS
We are grateful for all the kind deeds, especially the food served to us on Sunday, the floral offerings, cards and other expressions of love in the hour of our sorrow.

Discussion will be had on the best means of creating interest in supporting the band in its many appearances during the year.

Mrs. Ruth Gard and daughters Dianna and Dorris spent the weekend in Norman and visited her son Jim, a student at OU. They attended the Colorado football game. Jim will be playing with the freshman team Nov. 10 in a game with the University of Tulsa and his family plan to attend.

Mr. and Mrs. Ralph Rumbaugh and daughter Brenda of Lawton, Okla., were guests Sunday in the S. B. Keeter home.

Barnes and Harris Coach Local Youngsters into State Playoff

The Little All-American Hawks have gone all the way in their conference this year under the coaching of Dan Barnes and L. E. Harris.

These 17 boys won their last game in the conference Thursday, Oct. 26, by beating the Wildcats of Wichita Falls 44 to 0. All the boys played in the game.

This Saturday at 3:00 the Little Hawks will play against Burk's Bulldogs at Midwestern university.

Climax of the Midget League program will be Saturday with the sixth annual Toy Bowl. During the day the city championships will be determined in the Pee Wee, All-America and Little All-America Leagues.

Admission is a new toy or a usable one. No money will be accepted. All toys will go to needy children.

Regardless of the outcome Saturday, the Little Hawks will go to Fort Worth, Saturday, Nov. 18 and play for the state championship.

Let's back our youngsters and their fine leaders—buy a button or just give a donation. The money is needed for the over-night trip to Fort Worth.

This is the first time Iowa Park has been represented in the championship match. Give, give, give. This Thursday night at 6:00 the Pee Wee Hawks will play the Burk Bull-Pups. Two teams from Wichita Falls will play at 7:00. All these games are free.

The Pee Wee team has lost a few games, but has made a good showing.

Don't forget the Saturday contests — take a toy for admission.

Wirt Blackerby Visits Parents; Tells of Foreign Service Highlights

William Wirt Blackerby, foreign service officer of the USA, stationed at the American embassy in Kuala Lumpur, Malaya, is visiting his parents Mr. and Mrs. Grover C. Blackerby of the Valley Farms, and other relatives.

Wirt, a graduate of IPHS, has been with the foreign service of the State Department the past 13 years. He has been assigned to Shanghai, Nanking and Tsingto (Mantland of China), Sapporo and Tokyo (Japan), Bucharest (Roumania) before going to Malaya.

After graduation from IPHS, Wirt attended college at San Marcos and then went into the air force, where he served in Hawaii. He took the foreign service examination in 1945 and served five years as clerk. He was in Washington, D.C. for 3 years before being sent to his present location where he is an administrative officer of the embassy.

Malaya gained its independence from Great Britain in 1957. Wirt says this country is quite stable and has the highest standard of living in any country of the Far East or South Asia.

Malaya has for her main industry, rubber. It produces half the world's rubber. Second is tin, and third, silver.

Blackerby says the University of Malaya is modern, and equipped with 30 modernistic buildings. A medical building is to be constructed in the near future.

Then the university will give a medical degree. Heretofore students have gone to other countries for medical training. He was personally acquainted with the late Dr. Tom Dooley, who did many wonderful things for the health of Asiatic peoples.

Clothing in Malaya is colorful, with people of China, India and many other countries wearing the dress of their native country.

SHUCKS

The 2500 fans who stayed for all the Jacksboro game Friday night saw a strange type of play. In the first half the Tigers could do nothing wrong and scored at will against the apparently helpless Hawks. Score at the rest period was 30-0.

The same teams came back for the second half but their strength and ability were exactly reversed. The Tigers could do nothing right and the Hawks were definitely superior in every way.

What hurts was that Jacksboro ran up a high score while they were going good, and the Hawks could not match that pointmaking performance.

Final score was 30-12, but the Hawks have nothing to be ashamed of in this thrilling game.

Host Seymour

This Thursday night the junior high and B teams will play Seymour here, starting at 6:30. Let's give them our full support.

This Friday night the Hawks will travel to Seymour for the fifth District D-AA game of the year. This should be another interesting game as Seymour has not lost a conference game.

Seymour is just as powerful as Jacksboro with plenty of speed, so let's all join the Hawks and travel with them. I think you will see the Hawks give them a good race for their money.

District standings:
Jacksboro (9-0) 5 0 0
Seymour (4-4) 4 0 0
Olney (5-4) 3 2 0
Iowa Park (3-5) 1 3 0
Burkburnett (2-6) 1 3 0
Electra (4-4) 1 3 0
Nocona (2-6) 0 4 0

Bart and Kay Grant Report on Trip through Potash Mine and Caverns as Guests of Carlsbad C of C

Lt. and Mrs. Bart Grant were guests of the Carlsbad (N.M.) chamber of commerce for a 3-day tour of scenic beauty and industrial development near that city, Oct. 6-8. Mrs. Grant (Kay) has written a running account of the visit, as follows:

Friday: 1:00 p.m.
We arrived at the Potash Co. of America for a tour of the mine. After donning hard hats and safety goggles, we were led into a cage type elevator and dropped almost 2000 feet in less than a minute. At the bottom we paused a moment to catch our breaths before being led through a maze of tunnels to an awaiting trolley car. (We were happy to see that our feet would not be our only means of transportation.)

The most impressive thing to me was how clean the mine is. Potash is found near salt and all the tunnels had been cut through these salt beds, which made everything look as though it had been whitewashed. In the mine itself there are repair shops and store rooms so the machinery can be kept running at all times and peak efficiency maintained.

Three hours later we emerged dusty but wise. It would take three days to tell all that we saw in those three hours.

We turned in our hats and goggles and waved good-bye with an invitation to return whenever we chose to take a more extensive tour of the mine.

Our guides drove us back to town where we picked up our cars, and we headed for the showers!

We feel we were quite fortunate to have quarters in the La Caverna Hotel, where we were treated like visiting dignitaries rather than small-town folk—with a small suite—bedroom, parlor, bath, TV, phones, hot and cold running—what more could one ask?

Wearing our Sunday best, we climbed back in the car to arrive 10 minutes later at the home of Skipper and Virginia Rigdon, publishers of the Carlsbad Current-Argus, for a cocktail party and fried chicken buffet dinner. Once you've met them, you'll not forget our gracious hosts nor their lovely home.

Late to bed, early to rise gives man a headache and bags under his eyes. Nevertheless we trudged forth to White's City for breakfast at 8:00 Saturday.

After a hearty meal we visited the Million Dollar Museum, took a ride on the Sky Ride and then at 10:30 a.m. we met Oscar Carlson, superintendent of Carlsbad Caverns National Park, in the new Visitors Center, where we were given a special tour of the caverns.

Three and a half hours and 3 miles later, filled with awe at this wonder of Mother Nature, we sat down to lunch in the new Dining Room on the surface to discuss with our many new friends what we had seen.

Again a quick shower and a change before going to the lovely Riverside home of State Senator C. Fincher Neal for swimming, boating, water skiing, cocktails and a real Western barbecue. Because the weather was too cool for water sports, the Neals arranged a show for us—the Thunderbird Dancers.

We were amazed to learn that these young men were a group of Eagle Scouts who not only danced authentic dances but made their own costumes, which were of

beautiful, vivid-colored feathers. A great deal of work, research and study is done to make the dances as authentic as possible. Local folk are quite proud of their achievements, as well they should be.

As La Caverna Hotel was host for Sunday morning breakfast of our party, we rolled out, packed our bags and took the elevator down to the dining room. It was hard to say good-bye to our new friends, promising to "get together sometime."

There is one thing we agreed upon—the Carlsbad Caverns should be a "must" on everyone's list of things to see!

(Note: The new friends mentioned were about 100 newspaper folk from Texas and New Mexico who were special guests of the Carlsbad C of C.)

I want to thank every one that was so thoughtful of me while I was in the hospital—for the prayers, flowers, cards and visits which meant so much to me. I love every one.

Mrs. J. M. Sunday
Edwin Todd, student at East Texas State college, Commerce, was a weekend visitor with his parents Mr. and Mrs. James Todd.

PUBLIC NOTICE!

RESIDENTS OF THE 13TH CONGRESSIONAL DISTRICT:

Some of my friends are circulating petitions urging me to run for Congress.

Already, I have seen hundreds of signatures by folks in all parts of this 13th District. Many of them are old friends, some are new friends, and some are total strangers.

They all have one thing in common.

They would like to be represented in Congress by a conservative-thinking businessman. They are fed up with wild-spending professional politicians who are leading us deeper into debt and deeper into the wilderness of the "New Frontier" of Kennedy and Johnson.

I have decided to run for Congress.

I am willing to go to Washington and do what I can to try to stop our break-neck rush to Socialism. I hope you will join me in this fight. It will not be easy to win this race. The pending vacancy is certain to set off a mad scramble among present office holders to further their political careers and to fill the seat with "one of their own" who will go meekly along with the New Frontier.

There will likely be the usual threats of political punishment and economic reprisals to the people of this District if they dare defy the powers in office. I do not believe that our people can be intimidated by public office holders nor bribed with their own money. I believe a majority of folks are ready to stand up and speak up for common sense in government, and that they will give their support to the conservative candidate in this race.

I am ready to serve you in that capacity.

Sincerely,

JOE MEISSNER, JR.

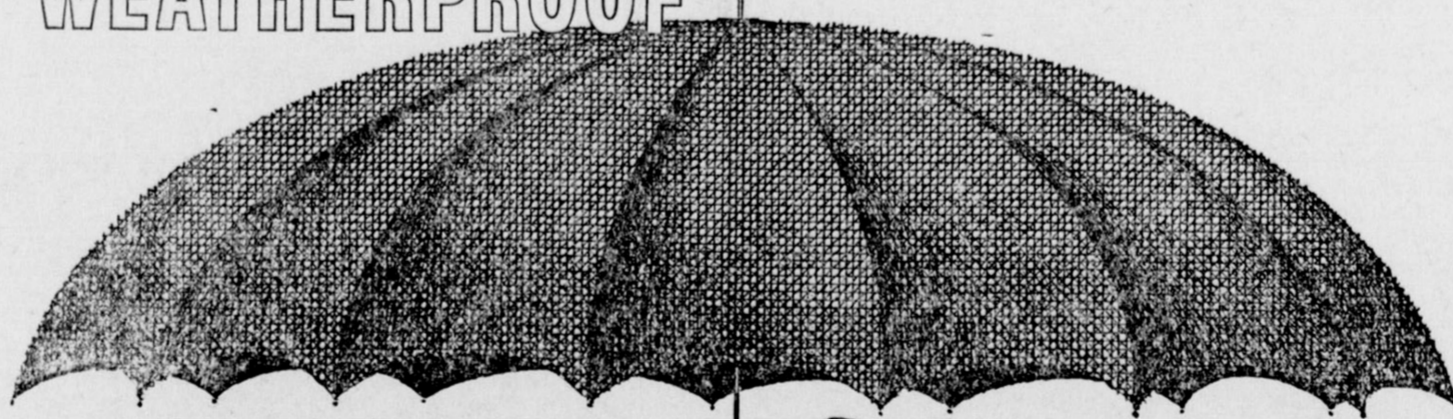

P.S. I do not think it is fair to run for one office while holding another. Therefore, I am resigning my position on the City Council of Wichita Falls, effective immediately. My sincere thanks to all for the understanding and support you have given me in that position.

ABSTRACTS

While driving around, John and Mary saw a For Sale sign on a piece of lake property which they decided to buy.

They contacted the owner and agreed on a price. They inquired about title and the owner assured them he would give them an abstract.

They took the abstract and the deed, filed the deed at the courthouse and thought no more about it, assuming that an abstract is an assurance of good title.

Years later they wanted to sell to a buyer who was better informed. He insisted that the abstract be examined and an opinion be given by an attorney that the title was good—or that the sellers must provide title insurance.

They were dismayed to find the title was not in good order and there would have to be a quiet-title suit to dispose of some flaws in the title before the buyer would buy. An insurance company would not write a title policy without legal action to clear up title.

An abstract is merely a record of every document which has ever been filed of record at the courthouse affecting a particular piece of property. It may show good title or bad title, or no title at all. It is only a bundle of papers which summarizes the state of the title. Its possession does not in any way assure good title.

One may get possession and occupy a property with an unsalable title, but difficulties will arise when the property is to be sold or mortgaged. It makes good sense to correct any title defects when you buy property.

BROKEN BOTTLES: "TRIPLE THREAT" ON OUR HIGHWAYS
 A triple threat on the football field is fine, but a triple threat on the highway spells trouble. Broken bottles are the "triple threat" of our highways. They are accident hazards to traffic; they injure people who stop on them; they start costly and dangerous roadside grass fires. The dangers of the triple threat increase during the football season. The Texas Highway Department asks Texas travelers to dispose of bottles in proper containers. Help keep the "triple threat" on the gridiron—not on the highway.

CYF

Last Sunday evening the Christian Youth Fellowship had their meeting in the Christian church under supervision of Jay and Donna Colburn. Refreshments were served by Karen Jolly.
Rev. Claude McDonald led the group in a discussion on Reformation Sunday.
Meetings are from 5:30 to 7:00 in the Fellowship Hall each Sunday with games and refreshments the first hour, program and devotional the last 30 minutes.

Disciples

Ruth Musgrave circle of Christian Women's Fellowship met Oct. 26 at the home of Mrs. Claude McDonald.
Business was conducted by Mrs. Frank Harlin, circle leader. Mrs. Watson gave a report about the Disciples' mission magazine The World Call, and it was urged that all subscribe.
Mrs. Charles Christoffers was program leader and her theme was Worship. She used posters to illustrate our learning about God. She pointed out that we must inform ourselves before we can tell others, this being done through books, sermons and the Bible.
We must reveal our concern for others and command our concern to work. The needy cannot eat our tears. Rather we must put our concern into action through missions and the like. Summary of this program was in one sentence: "Faith must be a force, not a farce."
Present were Mmes. Ed Hoggat, Robert Bryan, Fred Boswell, Darrel Richards, J. W. Barber and those mentioned.
The circle will meet Nov. 9 in the church to work on materials for the December bazaar.

Jerry D. Walker, son of Mr. and Mrs. William D. Walker of Holliday, recently was promoted to specialist four on Okinawa, where he is serving with the 809 Engineer Battalion. He is a 1953 graduate of Holliday high school and was employed with Gilbert L. Finnell trucking company before entering the army in July 1960.

ABUNDANT LIFE

by ORAL ROBERTS

WORK YOUR WAY TO ABUNDANT LIFE

"Just look at Smith over there. He's been at the same job for forty-three years, and here I am getting tired of mine in forty-three hours!" remarked a factory worker to another.
"He hasn't done the same job for forty-three years," was the reply. "He has done a new job every day. Oh, all that time he's been doing exactly what he's doing now. But every day he has come to work as if he had never done this kind of work before. As far as he's concerned, he has had a new job every day."
And that is the only way to true success and lasting happiness. Making your life acceptable to Christ is the first job before you. Doing the things constantly that you know are right is your life's work. Certainly, this job could become drudgery if you would let it. You could become tired and bored "living right." But don't become bored. Look at each day as a distinctive experience within itself, and you will see that it presents duties which will never come again. You will find that there is really too much to do for the job to become dull. And the most wonderful attribute of your job is that you will be happier than you have ever been. You will have the lasting peace of Christ, and every part of your life—your business, your home, your friendships—will reflect your happiness.
Psalms 118:24 says, "This is the day which the Lord hath made; we will rejoice and be glad in it." Every morning remember that this is your day; use it to accomplish some bright new job, and make it a good day. Perhaps your job seems small, unimportant and routine. Never mind! Approach your work each day as if you have never done it before. And always give your best.
Go to your new job every morning! This will make you grow. This will give you inspiration and keep your interest keen. Every time you tackle a new job, determine to do better than you did yesterday. Live for Christ more today than you have before. Every day will find you happy at its close. No matter how tired your body may be, you will have Christ's Spirit in your life.
Each day outgrow your shell—become bigger. Then Christ in you will grow until you will be bursting with His goodness. This is the way to success and happiness. This is the way to abundant life.

Morrison Heads Brotherhood

J. D. Morrison was elected president of the United Brotherhood of Iowa Park at their regular meeting at the Church of God, October 30. Herman Mahler was named vice-president, and Tom Covington, secretary.
John Lemley, city-county Civil Defense director from Wichita Falls, addressed the group. He stressed the fact that if Christian brotherhoods of the world were strong enough and active enough there would be no need for a Civil Defense program.
Use of the atomic bombs in 1945 changed the defense needs of every living person, he said.
First recorded civil defense director was Noah. He tried for 120 years to get his neighbors to prepare for a national emergency. When disaster struck he saved only eight lives from the known civilization.
One of the next civil defense directors was Nehemiah. He tried for years to get the people to rebuild their city walls for protection. He was finally able to make the statement "This city was saved because the people had the will to work together."
It was pointed out that Omaha, Neb., is the No. 1 target for any enemy attack. A study of meteorology will reveal that under normal wind conditions their weather will be in this vicinity within 3 to 5 days. This means we would have at most 5 days to prepare for severe fallout from an atomic bomb. "What would you be able to do to protect your family from atomic fallout with only 5 days notice?"
It was suggested by Lemley that men's organizations of the churches work together to start some form of organized civil defense for this city. Not necessarily for war, but to have something to fall back on in case of a local

emergency: fire, storm or other catastrophe.

Mr. and Mrs. J. E. Penn had as weekend guests her brother Pat Bailey of Decatur, and his brother George Penn of Dallas.
