## STAR MILL MAY OPEN

American Tin Plate Company Says Men Have Been Secured.

STRIKERS ON PICKET DUTY

Amalgamated Men Say to Start Star Mill Will Cripple Others---Mills All Quiet.

Pittsburg, Pa., August 25 .- Some re-vable us to move the plant on a better tance of 25 miles beyond Weston. markable changes in the condition of basis than before.' the strike-ridden mills of the United States Steel corporation are promised the aspect of affairs considerably if authority today that before the end of the week those of the plants that yould be run with full force and for of the claims of the strikers that the will be ready with all the skilled men required to start up the machinery

The situation in the Star mill of the American Tin Plate company here romises some developments. The lant was during the summer considered as dormant. The tin plate company had, it is said, decided to abandon the mills and move the machinery elsewhere. Since the strike has to start these plants for the present. come they demonstrated that operation of the mill with non-union help mer eight mills have been changed to when the attempt will be made. four double mills, where improvements have been added that will give

the company.

are of the best in the trade and will en- ated full or not.

Outside of the Star plant today large number of strikers was on picket duty. They were quiet and orfor the present week that will change derly, but had their eyes and ears open for any signs of new comers. carried out. It was stated on good peculiar feature of the strike about the Star plant is the good feeling disrlayed between the strikers and manof the week those of the plants that agers of the plant. When the strik-have been operating on single turn ers were told of the claims of the officials of the Star mill they denied there were as many skilled men at work Men enough have been secured for as was claimed, and said those who were in the plant were sent there from the Monessen plant, which was being crippled in order to accomplish this corporations could not get enough work. Strenuous denials were also men to operate their plants, and the made regarding allleged desertions managers of the various mills say they from the Amalgamated ranks to fill the positions offered by the corporation, and it was said it would be impossible to obtatin men enough operate the mill without settling the

> SOUTH CHICAGO STEEL WORKERS

> \*\*\*\*\*

Chicago, August 25.—The only visible result of the mass meeting of held in South Chicago today was the No clew has yet been found that would lead to a discovery of the assailant of the close of the last fiscal year, June 30,

loyal to their work and more conscientions in its discharge.

"The question of religious instruction in the schools has also been settled, and without friction or any loss in the attendance of pupils. Upon receipt of an official copy of the act No. 74 of the Philippine commission, which forbids any religious instruction by the teacher, a comprehensive order was issued forbidding the practice of religious devotion or their employment as means of punishment, the discontinuance of all teaching of the Amalgamated association was and denounced former members of the association in South Chicago for description devotions in the discharge.

"The question of religious instruction in South Chicago for description in South Chic ounishment, the discontinuance of all of the Amalgamated association was eaching of the catechism or religious at stake.

> FOURTEEN PERSONS INJURED IN COLLISION

ons were injured, three seriously, in a sons were injured, three seriously, in a collision between a Greenfield inter-urban car and a train on the Belt railroad today. The electric car was partly demolished. There were 12 pas-

sengers on the car, nearly all from Greenfield. The seriously hurt:
Emory Scott, motorman, hips and back; Oba Fox, Greenfield, hand and boot smashed; Charles Dalrymple, severely bruised and cut.
The injuries of the others were slight. The injuries of the others were slight.

DEATH OF PROMINENT MINNESOTA LAWYER Minneapolis, Aug. 25.—Robert G. Evans, U. S. district attorney for Minnesota, died suddenly today from heart disease

on the balcony of his home in Queen avenue, Kenwood. He had been apparently in the best of health. Mr. Evans was 47 years old. He was prominent candidate last winter to suc ceed Senator C. K. Davis in the United States senate and his physician believes that his death was due to overwork more than anything else, in that campaign. His wife died four months ago and it is believed by his closest friends that this of Minnesota the past week and in a runaway accident eight days ago Senator Fairbanks and Mr. Evans were badly bruised and shaken up.

SAY IT IS A PAPER VICTORY FOR FRANCE

London, August 26.-Although the French papers hail Turkey's yielding as a great triumph for France-more especially as it was largely believed that the sultan's obduracy was due to the supposed friendship between Germany and Turkey—it is felt in London, despite considerable satisfaction over the outcome that there is a grave doubt as to whether France has achieved more than a paper victory The British theory is that M. Constans really wished to force Turkey to purchase quays which are notoriously unremunerative. The sultan has avoided this, thus securing the practical results while leaving to M. Constans the empty congratulations.

Colored Thief.

Pueblo, Aug. 25.-No clew has as ye

een discovered by the police to the

ssailants of Judge L. B. Gibson. Every

ossible theory has been carefully fol-

owed out, but the best efforts of the olice and the sheriff's officers have

hus far been fruitless. The theory that the aged jurist was

ssaulted by sime one seeking ven-eance, has been abandoned, and it is

ow believed that robbery was the as-

sailant's motive. As far back as the record of Pueblo criminals extend, the

enitentiary officials have searched for man who tallies with the description

urnished by Judge Gibson, but non-

has been found. It is believed now that the would-be assassin was not

some man sentenced to the penitentiary

during Judge Gibson's time in office

as district attorney, as was at first

supposed. It has been nine years since the judge retired from office, and any

one sent to the penitentiary in his time

ever brought to their attention. They are particularly puzzled by Judge Gib-

son's statement that neither himself

nor the man uttered a single word or sound while the struggle was going on.

t is not thought that the assault was

out rather of some desperate person

who was there on some different pur-pose than robbery. It has been sug-gested that he might have been after

Judge Gibson's office mate, ex-Attorney General D. M. Campbell, but Mr. Camp

bell himself could suggest no motive for anyone assaulting him. It is no

ought that the assailant had any in

### NEWS NOTES FROM DENVER

Mrs. Lamb of Boulder Shot Perry Abels Her Slanderer.

ITALIAN FEAST CELEBRATED

Parade, High Mass, Sports and Fire works Were on the Program.

Denver Bureau

Colorado Springs Gazette. Denver, Aug. 25 .- A special from Boulder gives the following account o a seemingly justifiable shooting: Boulder, Aug. 24.-A sensation

shooting affair occurred in this city a 8 o'clock tonight, and as a result Perry Abels lies at his home with two ugly buliet wounds in his body, which may prove fatal. The person who did the shooting is Mrs. Lamb, wife of Peter Lamb, a well-known resident of Boulder. Mrs. Lamb disappeared imme-diately after the shooting, and up to late hour tonight had not been arrested. The police, however, express no fear that she will leave the city, and say that she will be apprehended when

It seems that Abels had boasted to a friend that he could call upon Mrs. Lamb at any time he wished and also intimated other things.

Intimated other things.

This friend repeated the story to his flesh and owing to lack of appetite wife, and the wife, who knew Mrs.

master. He has lost a great deal of flesh and owing to lack of appetite seems to be failing daily in this re-Lamb well and knew the story was false, told the injured woman, Mrs. Lamb became greatly angered when Lamb became greatly angered which told the story Abels was circulating about her, and said that she would either have a humble retraction or well as the entire population of the state, and the entire population of the state.

ock last night Mrs. Lamb called at Abels' house. She expressed Abels in a few choice story as charged. Abels admitted that he certain statements derogatory to her character, but he postively refused to apologize or make any retractions, whereupon Mrs. Lamb drew a .38-calther revolver from the folds of her dress The enraged woman fired two shots,

testines. The other passed through the right thigh. Abels fell to the ground with a groan and the wown fed with a groan and the woman fled.

The shooting attracted several pass

ers-by and Dr. Queal was hastily sum and said his patient had a fair chance Abels, who has the reputation of being a good citizen, retracted his statement after he had been shot, but could

dren and has always borne a high rep-utation. Her friends say that Abel's

brated by three priests at the church. over to sports and fire works.

Saint Rocco, or Saint Rock, whose feast is celebrated today, was born at lier, in France, about 1225. He s said to have sold all his possessions, istributed the money among the poor, and in Italy devoted himself to the care of those who had fallen victims to the plague. He worked among the plague-stricken until he himself was attacked by the scourge. Then the people of Placenze, where he was at that time, urned him out of the city to die in the fields. However, he recovered and re-turned to his native city, only to be cast into prison on the charge of being ince for five years, when death ended his suffering. His veneration, sanc-tioned by Pope Urban VIII., quickly spread throughout the world. After the plague had subsided at Constance the monument and relics of the saint vere carried through the town.

Building Boom on and Fine Class of Structures Going Up.

PLANS NEW MODERN HOTEL

Change of Venue in Damage Case Against a Railroad-Passed Fraudulent Checks.

> Victor Bureau Colorado Springs Gazette.

Victor, Aug. 25.-There is a building noom on in Victor and the buildings under buy. With one modern hotel in process f construction, an order has been placed for another. The new opera house, upon which work has been in progress for week, will add greatly to the already adsome architectural appearance of the usiness portion of the city.

Orders for sketches for a new hotel have been placed with A. G. Higgins, a local and Lieutenant Governor Francis Car-ney has been confined to his home architect. Mr. Higgins drew the plans for through sickness during the past two weeks and his condition is such to ex-cite the fears of his many friends in The order calls for plans for a four-story building of brick, to have a floor area of 50x100 feet and to be thoroughly modern the San Juan country and throughout the state. He experienced a stroke of equipment and imposing in appearance aralysis about six months ago which had a tendency to harden the arteries eading to the brain and baffled the the site, but states that the hotel is to skill of the best medical attendants to naster. He has lost a great deal of A change of venue has been taken i

e case of Geo. R. Endlich against the orence & Cripple Creek Railroad comany. The case will come up for trial The ex-lieutenant governor has been tomorrow afternoon at 2 o'clocg ln Justice Kavanaugh's court. Endlich seeks to reresident of Ouray for over 20 years over \$150 for the loss of stock killed near Cikton several months ago by one of the efendant company's engines. It is understate regret his serious illness and have ood that the company will take the case ittle hope for his ultimate recovery.

The Miners union will make Ouray going against it in the justice's court. Th he center of attraction on Labor day ompany wishes to test the validity of the aw of stock on unfenced railroads. and a large atendance is expected from Felluride and all neighborhood cities.

There has been a change in the bill at e Summer theater of the Portland band, n the stage tonight, and the bill this week is stronger than it has been during ny week past. F. S. Mulligan has been arrested,

other orators will deliver addresses and charged with passing a worthless check for \$20 at Ben Bunte's place on South Fourth street. The check was drawn or the Bank of Victor and bore Mulligan's signature. He had no funds in the bank and was arrested. He wil probably have his preliminary hearing tomorrow

> FUNERAL OF SAM STRONG

Services Conducted by Parson Tom Uzzell--Elaborate Floral Offerings.

special to the Gazette.

were extremely beautiful. One side of that road to the Erie owners as he room in which the casket rested was system is the Cincinnati Hamilton completely banked with potted plants and cut flowers, while the casket itself. was hidden beneath a large number of designs that bespoke the last act of faithful friends. One of the most at tractive pieces was a large maltese cross made of tuberoses. On it were inscribed the words, "From Dad and the plants today, despite the temporary Mamma." It was the gift of Mr. rary injunction issued by Judge Koh. Strong's father-in-law and mother-in- saat. It is reported that five import aw. It is said that it was Mr. Strong ed machinists employed at the Gates work who nicknamed Mr. Neville "Dad," works who ventured outside the plant the inscription. Other beautiful were waylaid and severely beaten by designs were contributed by C. H. Fitch Julius Aichle, Grover and Mabel Strong, Helen Welch, William and Lillian Strong, Mr. and Mrs. A. H. Martin, Mr. and Mrs. F. L. Segel and others.

The services at the house consisted of short scriptural reading followed by few remarks and ending with an apopriate prayer. In closing the praye arson Uzzell asked that a higher power night help all who were wont to criti cize, to look with charity on the past and remember that all have failings and netimes err in life's rough pathway. The services at the cemetery were very brief, consisting of a short prayer in he usual ritual readings as the casket vas being lowered in the vault. Both of Mr. Strong's brothers, his sister and is two children all came from distant states to be present at the funeral There were also quite a number of riends from Cripple Creek and Color

#### WESTINGHOUSE GIVES **OUT AN INTERVIEW** New York, August 25.-George West-

nghouse who on his return from Enaffairs of the District Underground railway of London, of which Chas. T. Yerkes is in control, changed his mind today. He said that in view of some statements which had appeared in print ne thought the public might as wel have the matetr straight, and then he went on to say that there were no differences between Mr. Yerkes and himself and that Mr. Yerkes has awarded to the British Westinghouse company the contract for 30 1,000-horse-power engines and generators for his Metropolitan District railway enterprise and will require much more apparatus.

On the question of a certain spirit of

hostility, which, according to some London dispatches is said to have developed in that city against the Amer-ican control of the Metropolitan Dis-trict road and against the improvenents on the same by American com panies, Mr. Westinghouse had this to say: "While it is true that some hostility has been displayed, this really does not amount to much. The public wants the improvements that are no ander way, and while they might pre fer to have them as a result of British enterprise, they are glad to have then regardless from what source."

GEN. ROBERT WILLIAMS. New York, August 25 .- Gen. Robert Williams died last night at the Hotel Netherwood, near Plainfield N ., from apoplexy. He was 75 years

General Williams was born in Virginia and was a gradudate of West Point. In 1892 he was appointed to the position of adjutant general of the army and retired a year later. He married the widow of the late Stephen A. Douglas. He leaves three sons and three daughters—First Lieut. Robert

## To Better Condition of Hotel Waiters

club held its regular weekly meeting Saturday night with President (pro tem.) George W. Kenny in the chair. The session was a particularly lively one. A very interesting program was rendered, the chief attraction of which was an able and comprehensive paper on "The Necessity for Betterment the Waiter's Condition," by the club's president, Mr. A. J. Shelton. The latter is one of the ablest and most progressive headwaiters, west of the Mississippi, and devotes much of his time to a careful study and solution of the various problems which confront the nembers of his profession. His paper

THE NECESSITY OF A BETTER-MENT OF THE WAITERS'

CONDITION. At this season, when the height the summer accentuates every existing iscomfort, I wish to make an earnes appeal to hotel men throughout the country to give their immediate and personal attention to the manner in which their help are housed and fed-to see that the rooms assigned them are capable of proper ventilation, and that the room or hall in which they take meals is clean and light and the food properly served. I base my request on two points, one, that of humanity to those dependent upon emloyers: the other, that of business and

In the interest of hotel business in general it is especially necessary that this reform be at once applied to the

walter's department.

The rapid development of the hotel business during the past decade has re sulted in a scarcity of competent and reliable employes to meet the constantly increasing number of positions There is, as in every other line, always superabundance of the incompetent idle class, but of men thoroughly trained and with the requisite experience and ability there are often not enough to supply the demand. This consequence of this has been a recruit ing and impressment from other pro

## Custom Made. Stiff Bosom. Fancy Shirts.

New shipment just received from our factory. We select our own materials for fancy shirts and have them made according to our own specifications.

They are made to fit the same size collars and they fit in every other respect as well as if made to measure, but cost a great deal less.

10 North Tejon St.

The Cliff House Waiters' Progressive | fessions and trades; but has this re cruiting always been conducted profit

erests of the business? In many cases, infortunately not. There are four departments from which hotel proprietors and managers nust draw men suitable for the reponsible positions. These four departments are of course the office, store-

does not of course offer the technical have seen them, too, served with mis it brings an employe into equally close out the slightest attempt to put ther touch with customers; it does not offer the culinary experience that would fit that sort of treatment does not have one to take a position in the kitchen, but it gives the man who devotes his mind to his business a very fair work-

equently, the raising of the standard of the waiter's department so as to increase the number of intelligent and ambitious men employed in it, would be to establish a training school for men competent to fill the many reponsible positions that the future will

We have seen several instances of business men of other lines given, with-out previous experience, the control and management of valuable hotel properties; and, at the other end, we have seen many cases in which quick promotion of staff after staff has meant the filling of the lower ranks with far oo many of the incompetent and fuddle-brains of other trades. And the reason for this? Why is it (the queson must be asked and answered )that ith such big prizes in sight, with the bsolute certainty of quick promotion or merit, it should be necessary to at rely to a great extent on men trained in this country, partly because of the instead of, as it should be, being able p pick and choose only those who are right, energetic and ambitious?

The answer to this vitally important uestion can be found principally in the act that in the large towns the ma-ority of hotel help are not treated

This is a subject that requires the most careful attention. To properly neet it means an improvement in tw irections—one in a public recognition acknowledgment of the fact that good waiter is a salesman instead of a valet, and the moral support of the pro-prietor against any unreasonable or obectionable treatment by a customer he second, in the "behind the scenes" onditions which surround a waiter. In this latter respect the question of meals and rooms is among the principal items and of these two the meals and the place of serving them stand out mos prominently. By a little co-operation two or three men occupying the same bed-room can always "fix it up" more or less pleasantly if they like to take pains to do so, but any honest improv ent of their meals is of course be and their control. It is certainly very pleasant for the assistant steward, the know that they can order from the egular bill, and eat in comfort and de-ency in an "officer's hall;" but the offiers do not come ready made, and ur less good conditions are offered the pr vates in the business, the majority of ne recruits are sure to be of poor cal

reation common to the average indi-

idual. This alone would be no objec-

A good many hotel men have already realized this, and have done much to wards improving conditions; but in every day. great many more cases a radical re form is needed. It does no good t dwell on the fact that the hotel em ploye is better paid than his fellow workers in other lines because he receives free board and lodging in addition to his salary, unless that board and lodging are such as to make life at-tractive. It must be remembered that the hotel business is a trying one in many respects; the hours are long, and usually so arranged by circumstance as to make it well nigh impossible for one to partake of many forms of rec

man, but it takes on a serious aspect when coupled with the other general want of attention to and regard to his

The business is growing so fast that re need more bright young men in it. ill receive more than they deserveand this is not fair to the worker. But how many of the right sort are likely to be attracted by the present conditions in a large number of establishments? The painstaking, thinking, studying waiter of today is in direct line for head-waiter, steward and managers, with pressure progressions of the present conditions in a large number of establishments? The painstaking, thinking, studying waiter of today is in direct line for head-waiter, steward and managers, with pressure progressions and the pressure of the present conditions in a large number of establishments? It is not possible that they are pressured in the present conditions in a large number of establishments? The painstaking, thinking, studying waiter of today is in direct line for head-waiter, steward and managers, with pressure of the painstaking and lodging subjects, I suggest that they are pressured in the pressure of the painstaking and lodging subjects, I suggest that they are pressured in the pressure of the painstaking and lodging subjects, I suggest that they are pressured in the pressure of the painstaking and lodging subjects, I suggest that they are pressured in the pressured in the pressure of the pressured in the pressure of the pressured in the pressure of the pressured in the pres ager; with proper energy and devotion daylight is not possible.

experience of rooming, etc., but cellaneous scraps from the tables with ing knowledge of the composition of a majority of dishes and a good idea of their cost and value.

is only hanging on for pay-day to go out on a drunk, nor on the man who has already filled his stomach with things stolen from the pantry or the kitchen; it does not hurt these at all; but what effect does it have on the man who is throwing his whole heart into his duties, who is working for your inhis duties, who is working for your interest first, last and all the time; who is ambitious to get on and earn promotion and your approval? Well, unless that man has uncommon grit, he either follows the example of the others and helps himself to whatever he fancies, or quietly gets out, and goes into some other business where he can live with some degree of complet. The

live with some degree of comfort. The hotel business offers big inducements to the ambitious young man, but it is not the only line that does so, and the best will go whore other business. will go where, other things being equal, they get the best treatment.

A few years ago it was comparative y easy to fill positions with men o European training, but today we must rely to a great extent on men trained

terests represented by hotels and simar establishments.

you are discouraged. You've tried medicines that promised much but didn't keep their promises. If you want to get well try the medicine that makes people well,

and organs of digestion and nutrition, this medicine offers a practically unfailing cure. who use it get well.

You

want to

doesn't? But

get well. Who

creasing demand and partly because andard, which differs in many repects from the European vogue. I have given the hotel business much areful thought for a number of years my occupation has enabled me to study it under many conditions—and I firmly believe that the one great defect the present system of hotel-keeping America is to be found in the manner

caring for the help; the present ethod frightens away many bright en who would otherwise add their inligence to the business; it demor-zes and discourages hundreds of se who follow it for their permanent elihood, and it is extremely expensive the hotel man-the last because it uggests, encourages and stimulates he stealing and waste of often the st expensive materials.

It may seem as though I am laying undue strength on the meal question, but that is the head that sticks out nost prominently, and is, therefore, th one to hit at first. It is not the only trouble, but it is one of the most important and certainly the most easily remedied, so, in earnestly advising hotel proprietors, managers and chief stewards to make the first step towards a general improvement by special at-tention to the meal and lodging sub-

sponsible positions. These four departments are of course the office, storeroom, kitchen and waiter's department.

Of these four, the waiters should logically provide the greatest percentage.

In the first place it offers by far the
largest number of employes to choose
from. In the second place, it possesses
so many special advantages that it
should prove the breeding ground of
ten times as many managing hotel men
as it develops today. It combines to a
great extent the experience of three out
of the four departments referred to;
it does not of course offer the technical he help's table, is it reasonable to exect that there will be no secret raids in the good things in the pantry?

3. Absolutely require that the food b astefully and properly cooked; that nothing, even slightly burned or spoiled, be allowed to come on the table.

4. Arrange either the hours or the rooms so that the waiter in his dress suit or tidy uniform is not obliged to rub shoulders with the yardman in his

oiled jumper.

5. See that the tables themselves are attractively laid: that clean table cloths are always on; that the food is served astefully on proper dishes, etc., and that the other crockery, cutlery, etc. are in good condition and properly laid 6 See that the food is either served o employes when seated or so arranged hat they can help themselves withou necessary trouble or delay.

Have both the meal time and the rving of the meals so arranged that

and at his leisure. With such arrangements for meals, with well furnished sleeping rooms and ne or two reading and writing rooms r their exclusive use, one would find tremendous improvement both in the dition and energy afterwards. There would then be a pleasure and interest in working in a hotel instead of only a

alculation of the number of dollars of

very employe may eat undisturbed

When I have spoken of this matter have occasionally been met with the statement that "such a reform would not be appreciated and would not do much good in any way; the cooks, lerks and officers have the same as the elves, no matter what you give them as for the outsider, he tried to go into the business by the office part, because of the prejudice against the waiter's profession, and that is something you an't get rid of." The first statement is too sweeping to afford any ground for argument. The second—well, I will wager you that, with proper acknowledgment of the importance of the wait-'s department, with good treatment and that within the first couple of years the waiter's profession or trade would win the standing that it deserves—the public would recognize as distinct a dif-erence between a hotel waiter and a hash-slinger" in a cheap joint, as be tween a salesman in a high-grade store and a "puller-in" of a Bowery old-

Every accusation made against waiters in general is a strong living argument for an amelioration of present conditions. If you say, "Waiters are dishonest," or "Waiters think more of playing the races than of their work," means that, if you are correct, there something radically wrong somewhere; there is always a reason for an eason must necessarily be looked for either in the waiters themselves or else in the conditions meted out to them The changing of waiters has been tried time and time again without any particular improvement, so the fault must est with the conditions, and we mus onsequently change those condition before we can expect any change in the waiters. You can always find somebody to fill a position, no matter how poor it may be, but if you expect to hold ar able, reliable man you must make the

position so that it will fit him.
"Commercial success" is the goal, the lodestone of the present time, and a full share of the most able of young Amer-

ake up, study and perservere at the vaiter's business if it were recognized as an important channel towards the higher positions in the ever-enlarging

The hotel business has a higher standing in the social scale in America than in Europe—i. e., the hotel proprie-tor has—yet the hotel employe, esperially the waiter, is shown less consideration than his contemporary on the ther side. In Europe it is a common hing for a proprietor's son to serve an apprenticeship as a waiter in a foreign stablishment; you can find no similar nstance in this country. The reason of the want of public consideration of the waiter's business is due principally to the little consideration given the waiter by his employer and this again—so do things even the scale of action—is the reason that the employing hotel man is so handicapped and often put to so uch loss by the scarcity of good waiters and the necessity of employing poor The hearty recognition of the mportance of the waiter's position, a ittle publicity as to the advantages it offers the ambitious young man and as

good treatment as that expected as a matter of course in other lines, would soon bring the standing of the waiter in America as much higher than that of the waiter in Europe as his employer is above the employer across the Atlantic. so would be speedily solved the need of more good waiters. Are more needed? Ask any headwaiter of a first-class ouse-outside of New York, more, of ourse, than in the city. Ask any stewrd or manager in close touch with the The only ones to suffer by this reform

oloyers, of customers and everyone else So much for the future results. But or the immediate present I most ur-cently request the attention of every otel man today to the treatment of his elp, both for his individual benefit and he profit of the profession in general.

#### A COMPLIMENT TO THE COLLEGE.

HE MEETINGS to be held in Denver next week by the American Association for the Advancement of Science will attract great attention. This is the most distinguished body of scientists that ever assembles in the United States. It is made up of the leading men from the various departments of the colleges and universities throughout the country. Great chemists, physicists, geologists, biologists, and, in fact, the leaders in every department of study and research will be present. The papers which are to be read will be notable for their ability and as the results of original research. In fact, the meeting will be a history of the best scientific work of the country throughout the past year, and it is a great thing for Colorado to have drawn hither such men as will be present at these sessions. Nothing could be more complimentary to the scientific faculty of Colorado college than the fact that not less than six papers will be read at these sessions by members of the corps of instruction of our own college. Before the chemical section Prof. William Strieby is to read a paper upon "The Origin and Use of the Natural Gas at Manitou, Colo.;" before the geological section Dr. F. W. Cragin is to present a paper upon "The Triassic Rocks of Western North America;" before the section of mathematics and astronomy Dr. Frank H. Loud has a paper, entitled "On an Extension of Miquel's Theorem;" and before the same section Dr. Florian Cajori has two papers entitled "Divergent and Conditionally Convergent Series Whose Product is Absolutely Convergent;" and before the section on physics Dr. John C. Shedd presents a paper on "Interferometer Curves."

It is certainly a very great compliment to the strength of the faculty of Colorado college that six papers, requiring such severe scientific work and research should be asked for by the committee arranging the program for these meetings. It is always regarded as a high compliment to anyone to receive an invitation to present a paper at the meeting of the association.

#### THE ASSAULT UPON JUDGE GIBSON.

N EXTRAORDINARY effort if necessary should be made to discover and to punish the assailant of Judge Gibson of Pueblo. If, as seems likely, the crime was committed by an ex-convict whom the judge had properly sentenced for his evil deeds, the matter is one that concerns the entire community, and no effort should be spared in hunting down the miscreant who has ventured to attack not so much the judge as the

It ought not to be difficult to find from the records of the penitentiary whether a man such as is described by Judge Gibson has recently left that prison, and if so he should be compelled to account for his time and move ments on that day.

Colorado cannot afford to let such crimes as this pass by without the most earnest attention. If necessary a heavy reward should be offered by the governor for Judge Gibson's assailant.

#### A GOOD SIGN.

T IS A good sign that the Cubans want to know what sort of a policy Tomas Estrada Palma will follow if he is elected as president of the Cuban republic. According to the opinions of some of those who have declared that the Cubans were not fit for self-government, they would have no concern about measures, but would follow blindly whatever leader happened to be the popular hero of the hour.

It speaks well for the Cubans and the success of their new government that this is not the case. If they will continue to make their candidates declare their policies in advance and stick to them after election they will have solved one of the problems of self-government and incidentally will accomplish more than we Americans have ever been able to do.

#### THE CZAR AND THE REPUBLIC.

OLLOWING the announcement that the czar would shortly visit the kaiser comes the further news that his trip will be extended to the Are you going to do your part?—(Craig of the republic and will be welcomed by the people of that city as the friend and ally of the French nation.

It is certainly strange that the one great nation of Europe that has established a republican form of government and seems firmly determined to maintain it should have as its ally that one which is most autocratic and even despotic of all the Christian nations of Europe. And on the other side it is equally strange that the autocrat of Russia should be most closely allied with the republic whose political principles are utterly subversive of and contrary to the system prevalent in the realms of the czar. Certainly nothing could be more detestable in the eyes of the French than the government of the czar, while the entire military force of Russia would be called into the field if necessary to prevent the entrance into that empire of the ideas which the French count as the chief glory of their race.

It is pointed out that the visit of the czar comes at an opportune time to strengthen the French administration in the eyes of the people of that country, who will be considerably impressed by the visit of their imperial ally. But it may be doubted whether this president and cabinet need any such outside help. There has been some idle talk of a revolution to overthrow the republic and restore the monarchy, but few persons outside of the circle of conspirators place any importance upon such rumors. The republic seems to hold its own pretty well against royalists on one side and socialists on the other, and now that a generation has passed since the republic was established it seems hardly possible that any other form of government could be set up in its place. Besides that, the government just at present has the prestige of the successful outcome of the Turkish difficulty, an affair which has added materially to the reputation of France and given an opportunity for unlimited self-congratulation.

Then there is the submarine boat, by means of which many Frenchmen believe they can blow England's navies out of the water, and the Santos Dumont balloon, by which they expect to be able to annihilate the German

Taking it altogether, the czar will find himself the guest of a very complacent and self-satisfied nation and one that, while well disposed to honor its guest, will lose no opportunity to impress upon him that he has done very well to choose for his ally so strong, so wealthy and so glorious a nation as La Belle France.

As predicted in the Gazette, the sultan has preferred to back down in face of the resolute attitude of France rather than to take the consequences. This is a matter of regret for the liberty-loving people of the world who would be delighted to see the atrocious Turkish empire driven out of Europe and would heartily applaud any nation that would undertake to do it. But the sultan had sense enough to know when he had gone far enough, and there appears to be no way to help it.

The Columbia cannot beat the Constitution every trip, but she can do it often enough to make it extremely uncertain as to which boat is the better qualified as this year's cup defender. And according to all appearances and the opinions of the experts, whichever one sails against Shamrock II we will wish it had been the other.

Emperor William is studying theosophy.

This is good news. If the kaiser would get tangled up in theosophy some way so he couldn't get out, and would let politics alone, there would be a vast relief to the

As the summer season draws to a close Colorado Springs should set Itself seriously to the consideration of the question, what may be done to attract and entertain our winter visitors.

The Denver baseball club is giving a good illustration of the proper way to play baseball, while Colorado Springs seems to have forgotten most of what it once knew about the subject.

The formation of two large trust companies in this city the past wee speaks well for the progress of this city as a financial center.

The long-expected improvement in the mining stock market seems to have arrived at last,

## WHAT THE STATE PAPERS ARE SAYING

#### ABOUT ROOSEVELT

What Mr. Roosevelt Thinks of Us. "The people about here all appear osperous, and they certainly ought to e happy," said Vice President Roose relt to a Fountain friend last week. "I know of no place better adapted for deal homes than right here. In the future development, however, these very arge farms will have to break up and give way for more people. This will be better. Experience has taught that small farms closely cultivated yield the greatest good to the greatest number. Of course there is much land here, as all over the west, that cannot be cultivated; but that is a greater reason why this fertile little valley should be made up of small farms. Your little town should be the center of a thriving and well-to-do farming comunity. You have everything to make it so. Only a few which, by the way, is an elegant city and destined to become one of the greatest in the west, you have here all the advantages of a metropolis com-bined with the comforts of rural life. Yes, you are fortunately located, and very acre of tillable ground will in rease in value immensely in the near I shall watch with interest our town and valley, and hope and expect to see the one grow, and the other to fill up with a thrifty class of farmers who will develop it into the Nile valley of Colorado.—(Fountain

What's the matter with "Teddy?" He's all right. Vice President Roose velt looms up today as a choice piece o presidential timber, and is backed by ntellect, principle, American physique and endurance. We should feel proud to print his cognomen at the head of the ticket three years hence .- (Fort Mor-

It is quite noticeable that the laugh that was once fashionable in some sec tions when the name of Roosevelt was and respect. The vice president is undoubtedly gaining strength all over the west, and some of the funny people once imagined they had a rich fund of material in Mr. Roosevelt, are now utterly failing to get hold of the man. The fact is, Theodore Roosevelt is a man under all conditions and circum-stances, and when we have said that, we have given a reason why his deamers are so rapidly decreasing in umbers. The west has learned to adnire Theodore Rosevelt, and he is gain-ng strength rapidly. His recent visit to Colorado Springs greatly increased his popularity in this state, and the ression is rapidly gaining ground that Theodore Roosevelt is all right.-(Del Norte Prospector.

#### ABOUT POLITICS

Senator George G. Vest of Missouri, man who stands close to the top in Democratic councils, is credited in an interview with waying: "To again advocate silver would be suicidal for the Democratic party." So at last we are to be thrown down by the party which got everything it asked for in Colorado, and some things it took without selling. Mr. ome things it took without asking. Mr. have to Bryan has our sympathy, for he is both Herald. a good and a great man, and it is cer-tainly to be deplored that so brainy a man as he did not get into a party that knew its own mind for ten con-secutive seconds at least.—(Denver Searchlight.

Boys, Colorado is going to be deemed. She's going back into the Re-

Take away protection and Colorade as enabled hundreds of mines to work hat would otherwise be idle on account the lead proposition. Mine owners ealize this, and it accounts for nine-enths of them being with the Repub-ican party. To advocate Democracy and free trade means ruin to them and the crippling of a great industry. Again, give this country free trade, and the Cleveland panic would be a pigmy to the stagnation tha would come upon us, and Colorado would be affected the same proportionate degree as the east. And still we have a few papers advising the people how to vote and at he same time advocating free trade .-

(Durango Herald. The consensus of opinion in this state and county is that the Republi-cans have the Fusionists on the run nd that there has been such a revu ion of feeling in the state as a connce of misrule and incompete that an overturning political wave may expected from now on. This change

In '96 it was confidently believed in Colorado that if the Republicans got nto power the state would be ruined. Bryan was the Moses who could only lead the people into the promised land of peace and plenty. McKinley and gold-buggery would mean disaster in his silver producing state. But Mc-Cinley was elected, and those who hat already the Republicans are with cause claiming everything in sight for his fall's election, and those on the nside know that there is a good-natsee who will get a whack at the of-fices this fall.—(Idaho Springs Gazette.

The People Are Disgusted. With state institutions without funds, ankruptcy and communities roes of sensations and scandals of a

ople are becoming disgusted with the ifusion of fusion Corporations escape taxation at the ands of the very men who were electons escape taxation at the ed on promises that they would be made to pay their just proportion of the ex-penses of the state, and the hangers-on of all the fusion party seek office and support at the hands of the public, where they may draw wages for little work, until the people have become sick, tired and disgusted with the whole

Is it any wonder, then, that a cry or reform goes up on all sides? In nearly every county and city in which the fusionists have obtained conol there is a carnival of crime. Bums nd hoboes, thieves and footpads, mur-erers and highwaymen from all over ne country have gravitated to the

Because he made love to a newlymade widow a New Hampshire blacksmith was tarred and feathered by White Caps. This doubtless amused the White Caps and therefore must be coma casual way, at what age of widow hood a woman in New Hampshire may safely receive attentions from men of brawn. It seems to be a case of White Caps versus Black Caps.—(Leadville News-Reporter.

#### ABOUT COLORADO SPRINGS AND THE GAZETTE

Colorado Springs has good newspaper etropolitan in appearance and abound mentioned, has subsided, and in its stead we find evidences of admiration in the stead we find evidences of admiration in the stead we find evidences of admiration in the stead we find evidence for the stead of th lish a paper in a city like Colorado Springs where the business men scatter their favors so richly. The right kind of support has much to do in the matter of publishing a newspaper, and it depends almost entirely upon the patronage.—
(Pueblo Arkansas Valley Review.

> Pike's Peak has been ascended by a omobile. This is somewhat different rom the way Lieutenant Pike made the irst ascent of that famous mountain eak .- (Monte Vista Graphic.

Zeb Pike would have been more sur-rised than ever if he could have seen wagon minus horses climbing the big nountain. That would be nothing in mparison to his surprise could he see that alleged statue of him which has been raised in front of the Antlers.—(Golden Franscript.

The Colorado Springs Gazette is one of he state papers that is certainly not on the decline. Every day it seems to add to its worth as a news chronicler. Its editorial is the most complete and exhibits more thought than any other paper in the state. There is no longer any doubt about the Gazette being in the front rank and the Denver dailies will have to hustle to keep up with it.—(Ouray

The Colorado Springs Gazette is advocating a short campaign of four weeks, thinking that is long enough time to get the people stirred up on county affairs We agree with it, especially in mercy to the candidates. It is a shame that each candidate for public office should be obliged to spend as much money and time as they do to go through a campaign for local county offices. The ones who get left are always sore because they have left are always sore because they have spent several hundred dollars and have othing to show for it, and the successful nan considers these hundreds as so much ut of his salary. Possibly he can afford but the first named fellow canno here is no special principle involved this ear in Boulder county except to get the unty back into Republican hands, and lough to do that .- (Longmont Ledger.

And now Colorado Springs is again t he front with a horse show and it is said ere is a larger number of handsome ducated, blue-blooded equines in that en-erprising city of millionaires and creased antaloons than were ever congregated any city in Colorado at one time up to Well, Colorado Springs supports a few large and progressive newspapersand the story is told .- (Fort Morgan

A few days ago a corner stone was laid in Colorado Springs containing a chest to be opened 100 years from that date. And now the Gazette offers a prize for the best imaginative article describing the ceremonies attending the opening of sentiment is also due to sober second the chest a hundred years hence. articles ought to be pretty good reading .-

#### The Century Chest.

(Salt Lake Tribune.) Springs, a ceremony took place which must have been most interesting, and his state in particular, to go to the pow-wows, are still awaiting the imwhich it would be good for other towns possible and improbable. The result has been so happy that a kindlier feeling for the grand old party of prosperity and good times was to be expected, and it has come. The change in Clear Creek country in control of the Perkins library. A stately sonnet on "Colorado, 1901," by Mrs. Gilunty in particular has been so marked bert McClurg, was read, and then Mr. Louis R. Ehrich delivered the address. The address is a masterpiece; some of The object of the Century Chest is o gather matters of greatest present oment, record them and seal them in the chest, the chest to remained sealed commonwealth on the verge of for a century and then opened by the people who will then live, the idea beharacter that threatens the reputation the state, it is little wonder that the best and most interesting in their ancestry and the age in which they lived. cluster around a chest that was sealed up by our fathers a hundred years ago, the time now being ripe for its opening. At that time Hamilton and Jefferson and Adams and Madison and the other inverted in the country of the cluster around a chest that was sealed up by our fathers a hundred years ago, the time now being ripe for its opening. At that time Hamilton and Jefferson and Adams and Madison and seemed to have passed away and its properties. the other immortals occupied the stage. Could they and the lesser ones have

signed messages to the men who were to live in our day, how eagerly those messages would be read now!

It would be a good custom to seal one of these chests annually and put it away for those who are to live a hundred years later to open and investigate. It would be good for each town of importance to employ a competent person to provide the historical magnet was inspired through the open months, however, the child be gan to suffer with labored breathing. A radiographic examination was made and it was found that the nail had lodged in the right bronchial tube. petent person to provide the historical magnet was inserted through the openitems for the box. It would draw the tate, and when complaint is made of he lawlessness, one is blandly informed important truths of history which oththe lawlessness, one is blandly informed that the authorities have not yet heard of the offenses, or are exercising every endeavor to bring the guilty parties to justice—but justice is not meted out to them.

The grossest mismanagement of public funds, the gravest offenses against the public welfare, and the worst of incompetence is shown on all sides, Pick up a newspaper from any part of the state, read it and be convinced of the truth of these statements.—(Cripple Creek Times-Citizer.

Important tradits of miscon withing the world to the age owes this to posterity, and by it posterity would to posterity would the more clearly estimate the men and women to whom in 1901 was entrusted the task of carrying the world along for a little season. It is a short march at best; we should bravely carry it along, and should leave a record by which those who are to succeed us will judge rightly, giving us credit for what in us is good, and being able to avoid what in us is weak or wicked.

The grossest mismanagement of public funds, the gravest offenses against the more clearly estimate the men and women to whom in 1901 was entrusted the task of carrying the world along for a little season. It is a short march at best; we should bravely carry it along, and should leave a record by which those who are to succeed us will judge rightly, giving us credit for what in us is good, and being able to avoid what in us is weak or wicked.

#### STATE TOPICS

We believe in the patronage of home dustries, and wherever it is possible to do so we always buy home manufac-tured goods. The patronage of Colorado industries benefits our producers of raw material, gives employment to our sion with literal truthfulness, for great laborers and builds up our state. If flakes of the beautiful fell here that the people of Colorado—which is an day thick and fast for a few minutes undeveloped empire in itself—would and but for the driving wind at the patronize and help each other, this state time would have made a very respectable would in a short time be the wealth-less showing on the ground; as it was, t drifted, banking up in places to three colorado are greater than those of any or four inches in death. four inches in depth. Probably the pest drift was on the north side of of wealth are undeveloped because of the D. & R. G. depot, where it was this lack of patronage of home industrour inches deep. An hour and a half tries. But this home industry business after the storm and when the sun was should not be all on one side. shining bright and warm, the boys on the platform pelted the passengers on manufacturer who is anxious to have No. 9 with regulation snowballs.— all the people of this state buy his (Fountain Herald. should himself patronize home indus-When all other means fail to restore and maintain harmonious relations between capital and organized labor, compulsory arbitration by national and told occasionally, because the retailer pulsory arbitration by national and state authority should be sought and usually makes a larger profit on goods works well in Australia, and there seems to be no good reason why the scheme should not be equally effective in this country.—(Teller County Union.

Because he made to be readed to be rea enforced as the most practical means, perhaps, of restoring equilibrium bebeer, shoes, clothing and many other articles would be greatly increased if the manufacturers would let the people now what they have to sell and why it would be to the advantage of the con sumer to buy it.—(Leadville Miner.

If William Radcliffe has no rights at Mesa Lakes, but is a trespasser upon the rights and liberties of the people, as some have suggested, then he should have been ousted long ago, before the murder of Womack had taken place. If Mr. Radcliffe had legal and moral rights, then he should be protected in these rights, even though the strong arm of the state be essential to that protection and all this talk about 'the man without a country" is disgusting waddle, and the supreme nonchalance of Colorado's spineless governor is absolutely inexcusable. No state, no county, no community and no mob has a right to confiscate or destroy the property of any peaceable citizen, and those who adopt such tactics should respective of sentiment.—(Glenwood Post.

Denver lawyers are entertaining delegates of the American Bar association. The meeting will discuss the uniformity of laws, but more especially divorce proceedings. It is the intention to recommend the same conditions for securing divorce in each state—a proper provision. This being able to slip out of the state and secure a divorce in an underhanded manner should not be per-mitted. If there is ground for divorce the home courts should be resorted to. Many a poor wife has found herself deserted and her unworthy spouse di orced and married to another woman nder the present lax system. By providing a penalty for securing divorces long such lines much good will result –(Durango Herald.

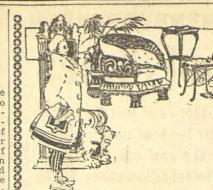

In a generous and economical turn of St. Louis Fair commission—all except the chief commissioner, who is forced to give his whole time to the work—voted to serve without pay and will devote their salaries to the fund providing for a state exhibit at that exposition.— (Marble Times.

The Denver papers are bewailing the fact that their city has acquired such a bad name throughout the state, and they express the fear that the Festival of Mountain and Plain will be affected measure. For partisan and sensational purposes they have purposely exagger-ated the condition of affairs in the city and it is no wonder now if many people are loath to risk their persons and their ocketbooks among such perils as have peen so luridly portrayed. They are a queer lot, are these same papers. Nooody can tell to save his life which one is telling the truth, or whether any them are.—(Fort Collins Express.

General W. J. Palmer has again given Grande Western, he received \$6,000,000 or his interest in the road. One million of this he at once set about distribut ing among the employes of the road who had remained with it from the ime when it was constructed Manager Dodge received \$100,000 and every man down to section foremen who received \$2,000, was remembered. It was General Palmer's policy to be personally acquainted with the men employed on his line, and this is one rea on that so many remained with the coad for the many years during which he was in control.—(Glenwood Ava-

September 26, 1881, the date of the burial of the late lamented President James A. Garfield, the general passenger agents, then on an excursion over the "scenic" line, held memorial services On Sunday, August 8, at Colorado springs, a ceremony took place which must have been most interesting, and which it would be good for other towns and peoples to conv. The description effects upon the mountain and upon the earth at its base. The sandstone base has become undermined and is crumbling away, not to any dangerous extent to the monument, but the ap-pearance is becoming very neglected looking and shabby. The monument will probably withstand the elements as long as the stony eminences which surround it, but the base is not of such durable material. It would be a most its sentences read like trumpet calls, fitting trbute to the memory of the imared strife between several parties to some have the rhythm of a great poem. mortal Garfield if the passenger agents see who will get a whack at the ofa twentieth anniversary memorial service around this monument and repair the decayed base .- (Antonito Ledger

## Conference of the M. E. Church, South

the Methodist Episcopal church (South) time he has completed the four-year nce will continue until Monday morn-

Rev. E. Evans Carrington, pastor of the M. E. church (South), in this city, closed his conference year yesterday and preached to two large congregations. Mr. Carrington leaves for conference on Wednesday morning. It is not known whether or not he will be returned to this charge. Mr. Carring-ton has now concluded his third sucssive year at this place and under the

limit in this city, as he held this pastorate from 1889 to 1893. Mr. Carrington has been prominently

associated with the public interests of this city, and has a large personal acquaintanceship who hope for his return here. His work, as the supervising head of the Associated Charities, has been one of the greatest benefits the city has ever known and those who have been associated with him in this work are hoping that his service will not be taken away from the city this

Bishop E. R. Hendrix of Kansas City Mo., is to preside over the conference. He is one of the most scholarly men of stay here one more year, if the presiding bishop sees fit to return him. If Mr. Carrington is returned to this city short time after the conference closes.

## Davis Scraped and Got Into a Scrape

hotel barber shop, evidently thought he would get ahead of his competitors yesterday, even if he had to adopt questive of the officer caught Davis in the act of terday, even if he had to adopt questionable means to do it. He was arrested at about noon for violating the ordinance in regard to Sunday

Davis' barber shop opens into the main office of the Elk hotel and it was through this "back door" or family entrance as a saloonkeeper in some other place might call it, that he was ad-mitting his customers. The front blinds were down and to all appear-ances the shop was closed. Officer ances the shop was closed. Officer Knapp, however, got a hint that things were not quite as they should be behind those closed curtains and he entered the hotel to investigate. When he went to the door of the morning.

shaving a man and he immediately read the law to him and closed the shop up. Davis was told to appear in police court his morning at 9 o'clock to answer for

This is the first case of the kind in this city since the Sunday closing ordinance went into effect. The other barbers of the city are very indignant at what they term Davis' underhanded method of getting ahead of them in bus-iness. It was one of them who first got onto the fact that Davis was running his shop yesterday and put the police onto it. There will probably be a large attendance of barbers at the trial this

## The Correct Report of the Race Matinee

paper published yesterday morning, takes race track on Saturday afternoon and the cake, plate and all. was won by George Bernard's mare Belle Burton, with Martha B. second. As a matter of fact the race was won by E. A. Beecher's Marhta B., who took the third and fourth heats. Belle Burton won Class A., pace— West 1 2 2 4

he first heat and the second heat was the first heat and the second heat was given to Miss Williams on a foul.

Again, according to the report referred to, the second race was won by Susie R., owned by E. P. Stevens. Susie R. is owned by K. Macdermid. The event was owned by K. Macdermid. The event was by Mr. Davidson, who took second and third heats. According to the paper referred to, Burt took third place. As an Aralee (Stevens) actual fact, Burt was tied to the fence all | Time 1:15, 1:16, 1:161/2.

For inaccuracy in every detail, the report of the Saturday matinee of the Colorado Springs Gentlemen's Driving club at Roswell park, as printed in a local at Roswell park, as Heats-1

#### HEAVY TRAFFIC OVER SHORT LINE

It required two sections of the 8:00 a. m. train yesterday over the Short Line to handle the large excursion crowd, bound for Crippie Creek. Captain Ryan and the entire St. Paul baseball team, and several members of the Colorado Springs club made the trip over the Short Line and were so delighted with the scenery that each man will be a walking advertisement for the new

The 10:30 a. m. train took a large crowd to Rosemont for a day's outing, Altogether it was the heaviest Sunday excursion business of the season.

## Statement on Brightside School

was interviewed by a Gazette reporter.

Mr. Field said:
"Our school has been severely, but unjustly criticised of late by those who have been trying to kill it, but we are eady for an impartial investigation at any time. The doctors of Denver re-

of the school for boys at that place, and investigating the recently published statements of unsanitary condi-

commodations; they all speak of both Mr. and Mrs. Field with the greatest espect and our question as to why they not run away was taken as a joke. "Third, all of the pupils are taught t work about the house and farm. There are no servants employed in the house and all the cooking, scrubbing, washing nd other housework is done by Mrs Field. The house is neither dirty nor unsanitary, and its general condition is

work of Biglitside are commendated better than the average among the working people. The older boys also work on the farm at plowing, mowing, irrigating and other work about the place.

the Brightside school for boys near Denver, was in the city yesterday and free from all physical ailments. Their faces bear no evidences of anything except boyish life and happiness. Many of the boys have been in the school for from three to five years and often visit their friends in Denver and other cities of the state.

day they published in one of the Denver papers their views on it. If you will reprint that statement for me I shall feel very much obliged."

The statement referred to is as folusual condition and the boys place to indicate any effort to prepare usual condition and the boys talked freely and with no evidence whatever of having been prompted. We believe "To the Public:
"At the invitation of Dr. Walter Joel it absurd to think that intelligent boys King, we accompanied him yesterday to Brightside for the purpose of careful place where they were starved or mistrated. Some of those boys come to n of the buildings and grounds treated. Some of those boys come to

tions, insufficient food, cruelty and immorality. We spent three hours at the school, visited and carefully inspected every room in the house, the outbuilder of the boys privately in regard to the moral instruction they have received, questioning them particularly about the immoral than the control of the ings and the whole premises. Mr. Field moralities and vices common among boalled the entire school into the large boys. It was the testimony of every boy that he had grown in manliness investigations after our own manner, and purity of character as taught and without the presence of any person connected with the school. We took the explicit teaching of purity and true boys in groups and singly into an ad-joining room, where we had ample op-all the boys. We feel that we cannot portunity to question them privately.
"We found, first, that the school is not a charitable institution. There is

but one orphan, a poy the but one of a local state of building a school where the sons of a local secure some education of the local state of building a school where the sons of a local secure some education of the local state of building a school where the sons of the local state of building a school where the sons of the local state of building a school where the sons of the local state of building a school where the sons of the local state of building a school where the sons of the local state of building a school where the sons of the local state of building a school where the sons of the local state of building a school where the sons of the local state of building a school where the sons of the local state of the local sta cation and be taught to work, and we advise all thoughtful people to visit the place before criticising it upon hearsay. Mr. Field certainly has, as charged, a strong influence over boys. We think his influence could be still further strengthened and extended to a much larger number of boys if people of neans would enable him to more fully carry out his plans. The objects and work of Brightside are commendable

will be worthy of the occasion.

At the conclusion of next Sunday evening's program Signor Cavallo wil leave for Denver to assume the duties of musical director of the Broadway and Tabor Grand theaters. Some of the members of the orchestra will acompany him, while others will leave or New York to go on the road with operatic companies

The large attendance at the concert esterday afternoon and evening were full of encouragement, notwithstanding the threatening aspect of the weather, and indicates that the concerts to con inue during the month will be successful and popular. George Crampton, who appeared as the soloist, impressed and charmed the audience. He presented a splendid program and brought to his work great beauty of oice, an intense earnestness and true artistic rendition. He held the au-dience throughout, and his popularity in Colorado Springs increases with every appearance. The musical program was composed of "requests" and Signor Cavallo had to respond to encores again and again. He is a capital director, and the men seemed t feel his decided musical skill.

om 302 to 310. The mine is a big on

with years of work blocked out and offers a 7 per cent investment which

which has been given the stock will now be withdrawn. Pharmacist has ad-vanced to 10 and will probably go higher

as there is improved showing in the mine and in addition to this there is likely to be a lively fight for the control. The combination ought to advance the price materially.

be little apprehension of such gigantic labor troubles as have been predicted;

passed, and this belief is born of a very careful investigation of existing con-

ditions at Cripple Creek. If the issue between union and non-union labor should ever arise in Cripple Creek, the

fight would doubtless be a short one and it is not difficult to see where vic-tory would rest. Such a fight would set-

cle the matter for all time, and this very fact seems to afford warrant for

certain party are very materially strengthened.

The week just rounded out has been

ne of excitement and renewed activ

ity in the Cripple Creek gold fields and

in the mining stock market; in fact,

such activity has not been apparent

or many months and the general out-

look has greatly improved. Elkton's production for the month of August will be the greatest in its history. When the end of the month is reached it will be shown that the mine has outputted 2,500 tons of high grade ore, or about one-twentieth of the entire

r about one-twentieth of the entire

roduction of the camp. Developments in the 700-foot level have been highly

encouraging, the drift on the ore body naving been carried 150 feet, proving up

continuous shoot seven feet across

that will average \$75 to \$100 in gold to the ton. Picked specimens from the re-markably rich ore body have given as-

eays of \$40,000 to \$50,000 in gold per ton While the Elkton ore has probably av-

eraged higher than that of any other nine in the district for some time past,

yet this average is constantly increas-

narket developed such strength and ac civity as it did during the past week. Crading was spirited throughout the

entire six days and large blocks of high priced securities changed hands

apidly, and instead of depressing prices

splendid advances were scored all along the line, and in some instances jumps of

to 12 cents in a single day were re

ng and even better things for the

uture are anticipated.

Not since early last spring has the

MARKET LETTER

BONBRIGHT & CC.'S

ne prediction that there will be no trouble of this kind, at least not for many years and until the lines of one

SPECIAL MARKET REPORT BY J. McK. FERRIDAY & CO.

The week past has been characterzed by a marked increase in trading and several sensational advances, notably in Isabella, Doctor-Jack Pot and El Paso. Several of the other stocks ave scored sharp advances, the leaders peing Portland, Jack Pot, Nugget, Celipse, Gold Dollar, German-American, Rose Maud, Helen B. and Elkton.

Isabella has adanced on its merits. he mine is making a better shipment ecord than it has made for some conths past. The fourteenth and fit-eenth levels are in granite and the alues have been found again. There is no mon of the sensational yellow talc of 1,000-ounce value which two years ago made Isabella the center of interest, ut there is a good body of solid granite from which the mine is shipping about ten cars a day of stuff that will average from two to four ounces. In its lowest levels the Isabella exhibits all the characteristics of the famous Battle ountain bonanzas, the Stratton's In-bendence and Portland. Present inditions in Isabella point to the perma-ncy of the ore body from which the esent production is being made, and it is not unlikely that this famous Bull hill mine will again take its place mong the regular dividend payers of he district. Higher prices are freely predicted for the stock and the predic-

ion is not unwarranted.

Doctor-Jack Pot has been an enigma or the past six months and has been strictly in the hands of the profession-als, who have made such quotations on e stock as best suited them. It will remembered that large blocks of the ock were unloaded at about 86, after which the price dropped rapidly to 56 and reacted to 60, in spite of the fact hat the mine was producing nearly 100,000 a month. Now, with a \$10,000 roduction and a \$50,000 expense, the tock has advanced from 60 to 82 and losed strong around 75. Through the ix days of week before last the stock was offered and sold in 10,000 blocks at to seller 30, and at the same time large nantities of it were purchased, regu-r, at a premium of 1½ to 2 cents over e seller 30 price. Thus the greater

art of the large short interest that ex-sted was covered, and it was generally upposed that the big seller 30 sales incated the placing of another and more stensive line of shorts. But, as a matof fact, the seller 30 sales comprised id about 121,000 shares were disposed of between 60 and 62. The last of this block was absorbed on last Wednesday, when nearly 40,000 shares changed nands at 62 seller 30, most of it being purchased by the same party who has een a steady and persistent buyer of the stock the week before at 60 seller. With the disappearance of this block of stock from the market, a sensational advance was inaugurated. The bears awoke to a realization of the fact that stock was scarce and contracts matur-ing, and as a result the price jumped by bounds from 62 to 82, for a fright-ened bear is the most effective bull. In addition to the seller 30 sales, which presented actual marketing of stock, are were many such sales which rep-

sented a line of shorts. It is estinated that the present short interest in the neighborhood of 175,000 shares, it this is probably considerably exagrated. But it is also true that the allable atock is by no means sufficient o supply actual needs. Another block of stock of less than 25,000 shares ap-peared on the market Saturday, but nparatively little of it was absorbed e remainder will probably be availble this week, but with the disappear ce of this stock higher prices will no obt prevail. It may be said also that his stock will not be used to break the parket, but must be marketed at the dvanced price, and it is doubtful if ven the passing of the next dividend vould produce a break to below 70. The natter of the passing of the dividend hile it may be interesting as indicating ertain internal workings, is not vital, or the problem of supply and demand emains to be solved. Unless there is ome decided change in the situation om that which exists at this writing. here will not be sufficient stock to sat-sfy the needs of the shorts, except, of ourse, at figures higher than prevail-ag quotations. Until within the past wo weeks the public has wisely re-

ained from taking a hand in the game, at recently nearly every 100,000 shares ere picked up between 60 and 62 on instment buying by parties who were rely waiting for the bottom to be ached. There will doubtless be some ofit taking this week and some mar-ing of stock, but all this will hardly ugh to satisfy the demand, Doctor fack Pot is all right as an investment. The mine is a big one and a rich one and the water problem is inconsequen-tial, reports to the contrary notwith-standing. Rapid and large fluctuations may be expected for some time, but hey will be merely a solving of the problem of stock supply and demand. El Paso is producing heavily and the nine has an abundance of rich ore. The price of the stock has fluctuated between 50 and 55 and persistent bear raids (apparently) have succeeded in

corded. While fights for control in some instances and short squeezing in teeping the price down. It is known thers were responsible in a measur that a certain large operator is quietly buying a large block of the stock, and for the rapid advances, yet the improving conditions of the various propertie is understood that the price will be and the desire of the investing public eld steady around 50 to 55 until he shall ave procured what he wants. It is very most potent factors. ikely that El Paso will go upon a per-

DELANY & DELANY'S

We have endeavored not infrequently aps somebody might sneeringly retort and to filch it from same also. It is not unreasonable to say, that unless u chance a few coins, you surely can-t expect to increase them. Now there such a thing as being able to make n investment by which you take but title chance in losing it. We have in-alged the public so oft in an advisory nner on the merits of El Paso Con-idated, that we fear the mere menon of the same again will but result an immediate consignment of this tter to the waste paper basket. We cut off any further digressions dations when the stock could be ad for 38 cents. It is now selling above 0, and will, in less than a year, go to e dollar. The production for August stimated, will exceed \$20,000. We inclined to say more about El Paso, "we must be off with the old love re we are on with the new." We note with pleasure, the resumpon of operations on the properties of nat old-time favorite, the Moon-Anhor, and while it is under a system of easing, yet withal, it moves, and the moke from its chimney, is but the wreath from the furnace of life below.

As we pen this letter, both the Docor-Jack Pot and Isabella stocks show wateried aboves for the better. aterial changes for the better. We ust and hope the Isabella will continu advance, and if perchance it does, we would be inclined to climb out of it, as rats desert a sinking ship, and re-

manent dividend paying basis before a again, we might advise disposing of reat while.

Investment buying advanced Portland again at a lower figure.

MARKET LETTER

will doubtless continue for many years It is a business proposition, with the peculative element largely eliminated The events of the past week have bee although the possibility of a sale at a higher figure than present market quoof a very satisfactory nature. Develop-ment in Cripple Creek seems to have taken on a new impulse. The papers tations introduces the speculative feathave all reported great enthusiasm is The advance in Eclipse is due to a consolidation with the Sunset Consolidated, it being understood that the Eclipse goes in an a basis of about 17 cents. The new company f lessees than at any time this year Although the local market is a con-trary thing, not at all likely to reflect the conditions of the gold camp, it has this week manifested more strength will own about forty acres on a very rich section of Battle Mountain. Gold than at any time in the past few month Dollar has advanced to 20 on its merits and the high tide which reached some of the stocks yesterday let loose a great as the mine is making an exceptionally good showing. Jack Pot and Nugget leal of bullish sentiment which quite lominated the market for a while, aladvanced rapidly in sympathy with Doctor-Jack Pot and declined with its decline. German-American advanced to though it does not appear to us of a very wholesome character and may no 5 on an improved showing in the com-pany's Puzzle claim on Gold Hill. This last. The sensation of the trading has been an advance of Doctor Jack Pot 15 cents in two or three days, and it apstock offers one of the best purchases on the market among the stocks of its pears as if this were due entirely to manipulation on the part of certain brokers to force those who have shorted class. Elkton sold up to 181 on investnent buying and dropped back to 176, t offers an excellent investment. Rose the stock to cover at a high price, for we have heard no news from the mine Maud has been strong and sold up to 6, largely because of brisk demand for the stock and a limited supply. The stock which would warrant an increase in the alue of the property of \$150,000, which s conceded to be worth its present price nowever. Helen B. has been a heavy s what a stock increase of 15 cents per share would indicate. A market activity based on any such stock deals as trader and sold up to 4% on rather wild buying. The company's Tenderfoot Hill property has a very encouraging this is not an altogether favorable in-dication. It may cause a substantial howing and in addition to this there are developments in other ground in advance in some shares, but it will be nevitably followed by a reaction. The ound advance must come from real which the company is interested which account for the sharp advance in the price of the stock. These developments mprovement in Cripple Creek, not from ictitious improvement on the Colorado Springs market. The condition of the are as yet untested, but should they prove permanent and should the present amp at the same time is entirely prable to a reasonable advance in splendid promise be fulfilled. Helen B stock would be a purchase at prevailing quotations. Under existing conditions better class of shares, and now that the summer is drawing to a close and business will pick up in every line, we t offers an attractive speculative puranticipate an improvement in the market which will be sufficient to give The fight for the control of Molly Dwyre being over, the stock has declined naterially and will probably go lower. good interest on money invested no n shares selected with discretion and It is believed that the control has been wrested from those who held it at the last meeting and the strong support

#### THE LONDON STOCK MARKET LISTLESS

London, Aug. 25.—The end of the holiday season finds the London Stock exchange listless and waiting for something to turn up. On the whole conditions are more healthy than at any time for some months. Money has not been more plentiful since 1897. Accordingly, in the open market rates are gradually decreasing, touching 2½ per cent. for short bills and 1 per cent. for call loans. On the whole the market is strong and promises to remain so during the coming fall months at least. There need in fact it is extremely doubtful if there will be anything of the kind. The crisis which came and went a few weeks ago without attracting any attention except from a very few who were strictly on the "inside," is believed to have been

call loans.

The Bank of England has wisely made no further reduction in the official rate, although there was some expectation of such a movement last Thursday. The two strongest arguments against a reduction are, first the expectation of a speedy demand for gold from New York, and second, the general feeling that the visit of Emperor Nicholas to France portends another Russian loan.

other Russian loan.
At the same time Russia has taxed French generosity heavily of late, both in the matter of government loans and also private industrial investments. The latter have shown lamentably small dividends, but it is thought the enthusiasm induced by the czar's visit will give a very opportune stimulus to French cordiality. In case a loan is floated it will mean the withdrawal so private industrial investment French cordiality. In case a loan is floated it will mean the withdrawal from London of considerable French cash and this is likely to come just at

time when London is most in need of stocks has developed nothing. The abundance of money leads to consider able investment in high-class securities but the present activity, if the term may be applied, centers in Americans. This leads to some rather sour comments in the financial press regarding "the philanthropy of American magnates who engineer deals and commissions for the purpose of letting the published." ic in on the ground floor."

In spite of this adverse comment there have been generous purchases of American railway stocks for conti-nental account, while British railway stocks, excepting common shares, are still on the down-grade to the tune of over 21/2 points.

Foreign government securities have been stationary, even more than depressed on the Franco-Turkish squab-ble so that the little reaction was an icipated on the close of the incident Mining shares, after the recent slight improvement, have gone flat on the prospect of an indefinite prolongation of the war in South Africa.

> > LEADVILLE.

N. Y .- (San Miguel Examiner,

The progress at the Ohio shaft of the Ohio Mining company is very satisfacpleted to the objective point of 300 feet.
A drift will be started from this point, and after running out for a short distance it ought to strike the vein. The first drift at 60 feet from the surface struck this vein, but the average value was only a dollar a ton. A second drift at 100 feet showed the vein wider, and In Poughkeepsie gulch continued activity prevails and greater material results are becoming apparent. The Mickey Breen will, under the greater account of the series of th ran as high as \$5 a ton, and a smaller streak some six inches wide showed an average of \$40. Now at 300 feet the main vein ought to be much wider and should be pay material, while the second vein is likely to widen out. Some smaller veins have also been cut in the shaft. The company is largely controlled by local people, under the management of Mr. Frank Williams, and most of the money has been supplied here. The prospect work is carried on in the porphyry, as this portion of Breece hill shows no lime contact, the ore being in veins and masses in the metamorphic rocks.

Bismuth ore still finds its way to the outside markets, some of it going to

## BLACK HILLS MINING NEWS

(Special Correspondence.) tailings in the free-milling belt. For 20 Lead, S. D., Aug. 24.—There seems to years there has been a constant loss of be a craze among mining men over the from \$1 to \$2 per ton. Millions of dolbe a craze among mining men over the cyaniding of ores in the Black hills. In nearly every camp and district, some company or private mine owner, is putting in tanks and the necessary machinery, with which the pres in their mines may be treated. In no other country in the world is the process so well adapted to gold and silver ore. The process is being used in all of its many modifications, wet crushing, dry crushing, crushing in the solution and roasting. The extraction for the gold values in the solution and roasting. The straction for the gold values in the solution and roasting. The straction for the gold values in the solution and roasting. The straction for the gold values in the solution and roasting. ing, crushing in the solution and roasting. The extraction for the gold values averages about 90 per cent. and silver 70 per cent. It is estimated that 80 per cent. of the ores in the Black hills can thus be treated by the process. Old ore dumps are being leased all over the hills by men who are putting in a few tanks and are making money. Old nines that have been in operation for years, using the amalgamation and concentration processes are now putting in some from the mills as waste. The great Homestake company of this city has demonstrated most conclusively what can be done upon the sulphide.

Pennington county, has a proposition similar to that of the Homestake company. Experiments are now being conducted upon the tailings with the cyanide process. There is a very large ledge of free-milling ore exposed, which runs about \$5 per ton gold. The mine \$5 owned by New York capitalists, The cyanide process, as used in the Black hills, is extremely cheap. It is a poor man's proposition. For a few hundred dollars a man can get wooden tanks

and as this one promises to echipse an others in point of lavish hospitality, it is well worth a visit.

> Dr. E. H. Lyle on "Abraham's Belief"

Text, Romans 4: 3: "For what saith in cheerful obedience to the divine will. In the New Testament on what Luther regarded as the gospel of straw, steadily widening, while at 150 feet it ran as high as \$5 a ton, and a smaller streak some six inches wide showed an

bis face in obedience to the divine call toward an unknown land and we recognize the same spirit in St. Paul, when the miner usually figures on about \$15 a unit. The Big Six can be added to the list of producers of this material, evil work and shall preserve me unto of heaven for multitude and the sands in the partial that the partial that the first and the first

his heavenly kingdom."

of the sea for number. But for faith in God how discouraged would the cepts vary in the Bible characters as apostle Paul have felt as he viewed pain the present experience of men. The ganism and attacked it almost single religious trend of a person depends on handed with gospel which was foolisheducation, environment, temperament ness to some, but the power of God and chosen mission. This fact accounts to those who believed. and chosen mission. This fact accounts for the multiform view we have of 'faith' in the different writings of scripture. Generally speaking faith acts in realms of the unseen and is indispensable in the various disciplines of thought and experience, whether we consider physical science, business life or religious truth. It was faith that led Leverrier, the astronomer, some 50 years ago, to direct Dr. Galle to scan the heavens with the great equatorial telescope and the blazing Neptune was the reward for his pains—Faith vindi-

telescope and the blazing Neptune was the reward for his pains—Faith vindicated.

For years the Atlantic cable was an unrealized fact in the mind of Cyrus Field, but he trusted, labored and suctivated and such as the message of the proud, nard, senish and self-righteous spirit of human nature. The faith of the child is to be emulated in our attitude toward our maker. Such simplicity of faith has characterized the great in the spiritual king-Field, but he trusted, labored and succeeded, and when at last the message from Queen Victoria to the president was received, his faith in his own judgment and the forces of nature was exultantly rewarded in the praise of two continents.

Letized the second the gray of dom.

Dr. Theodore Cuyler says that he often wondered what constituted the power of Spurgeon until he visited him in England. Two powerful discourses did not reveal the sourse of spiritual power. But at the close of the day

And likewise faith in God's promises revealed in Christ recognizing moral responsibility in every sphere of action has been conspicuously vindicated and rewarded.

The life of Abraham which is now occupying the thought of all our Sunday school workers and scholars, suggests valuable truth concerning faith as an element in life which was exighted. as an element in life which was exemplified in the career of the patriarch, elaborated by the writers of the New Testament and has been verified in the individual experience of the present.

First—Faith is a matter of communion. The personal relationship between man and his maker is record. tween man and his maker is recog-nized in Abraham's life. The same idea is echoed in James' epistle, "He escape lay in her strength and elasticwas called the friend of God" and the ity. In the storms of life, baffling hugospel of John seems imbued with the personality of Christ as we hear the we need individual faith and trust in

admonitions and invitations, "receive him," "hear him," "come unto him." Christ today calls u Love for and faith in a personal sa-Christ today calls us to faith, prayer

## The Ladies' Favorite.

There are three things about the Burlington's Chicago Special which commend it to the favorable attention of woman travelers.

One is the size of the toilet-rooms in the sleep-

ing-cars—they are nearly twice as large as the generality of such apartments.

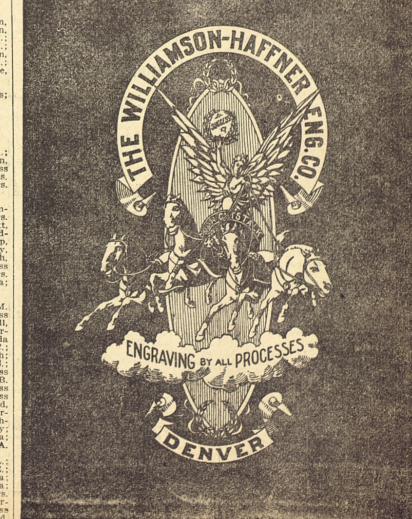

Another is the practice in vogue on Burlington dining-cars of presenting lady patrons with flowers.

The third feature is that sleeping-car porters are under instructions to ask lady passengers—within ten minutes of the train's departure from Denver— whether or not they want pillows. The Chicago Special leaves Denver at 4 p. m. for

Omaha and Chicago. St. Louis Special leaves at Tickets at Offices of Connecting Lines.

Ticket Office, - - 1039 Seventeenth Street G. W. VALLERY, General Agent, Denver.

P. S.-Lowest of low rates now in effect-ask about them.

**NEWS AND NOTES** 

#### ST. PAUL BEAT MILLIONAIRES

Ream and McNeely.

Donahue Played Indifferently and His Bunched Hits in First and Wild Pitch-Spirit Was Catching-Spectators Disgusted.

Special to the Gazette. Cripple Creek, Aug. 25.-St. Paul easily defeated the Millionaires of Colorado Springs by a score of 25 to 9 before 1,000 people at Union park this afternoon. The St. Paul players had no difficulty in finding McNeeley and Ream and these pitchers were hit at will. Cunningham and Cook, the St.

Paul twirlers were not wizards, the Colorado Springs players finding them Paul twirlers were not wizards, the Colorado Springs players finding them for 15 hits. Hulen was not in the game except in the first inning, when he batted for Hernon. At the end of the Colorado Springs half of the first, Donahue and Hulen had some words and Hernon was sent to left field. Tim Donahue played indifferently, both behind the bat and on the bases. The spirit manifested by the catcher was contagious with other members of the tam, and this partly accounts for the high score of the St. Pauls. After the second inning when St. Paul made nine

Special to the Gazette.

Denver, Aug. 25.—Denver kept up her winning streak by taking both games from Minneapolis today. The first game was a pitchers' battle, with honors even, but the locals bunched their hits and won out in the seventh and eighth innings. In the second game the Millers started out in the lead, but Wiggs was so wild that he was taken out of the box in the third inning, after the locals had made four runs, and Wadsworth was put in to substitute. He was little better and benver won easily. Schmidt has pitched second inning when St. Paul made nine runs, the usual energy of the Colorado Springs players disappeared. McNeeley all. The score follows: started in to pitch, but was taken out at the third inning after he had been pounded all over the lot, and Ream was substituted. Ream was little better, 16 runs being made off him in six innings. The St. Paul players took this occasion to fatten their batting averages, 22 hits being made by them. The seven errors made by the Colorado Springs players, no doubt, had a discouraging effect upon the pitchers, Hol-lingsworth was in the game, playing short stop for the Millionaires. He

played a good game, his errors being made on difficult chances.

In the first inning Hulen hit safe and was scored by Hernon, who lost the ball in deep, center, he also reaching home. Holland got to first on an error and O'Connell singled. Hollingsworth hit a nice one down the third base line for two bases, scoring Holland and O'Connell, The St. Paul players were retired in the first inning without a score by a pretty double play from O'Connell to Holland, catching Dillard and Brain. Colorado Springs did not score in the second in-ning. In St. Paul's half, Kelly hit for two bases, Schaefer got a three-base hit, Hug-gins singled to right field, Shannon singled, Ryan hit for a home run over left field fence, Kelly singled over first base and then Schaefer, to make his record complete for this inning, lift for a home run over the center field fence, the long-est in. yet made at the park. When Wil-son flew out and retired the side, nine men had crossed the plate.
In the third inning, Ream got two bases

on a hit over the right field fence. Bande-lin hit a long one into the hole in deep center, scoring Ream and himself. In this inning St. Paul made four runs, two errors and three hits doing the work. Colorado Springs made two more in the fifth. Tannehill hit safe between first and second. Hollingsworth walked, and both men scored on Cunningham's wild throw to first to catch Hollingsworth off the bag. Captain Ryan sent Cunningham to the bench and Cook was substituted. From the fifth inning on, the game was uninteresting and many of the spectators were disgusted. However, some fast fielding was done, and the St. Paul sluggers continued to keep up their reputation for lining out everything that came their way. The game as a whole was a very poor exhibition of league ball. This is the last of the Western league games to be played in Cripple Creek this season. Fol lowing is the score: COLORADO SPRINGS.

RIFLE SHOOTING AT SEA GIRT, N. J.

New York, Aug. 25 .- At Sea Girt, N. on September 6, the revival of Creedmore-Gollymount shooting matches will take place between teams representing the New Jersey State Rifle association and the Uster Rifle association of Belfast, Ireland. Brig. Gen Spencer has deferred the selection of the American team for this match until after the arrival of the Irish visitors who are expected here on the steam ship Servia next Wednesday. Si Thomas Lipton is a member of the Ulster Rifle association and a great deal of interest is taken on both sides of the Atlantic in the outcome of this match as several members of the Ulster Rifle association belong to the Royal Ulster Yacht club from which

Col. Robert Thompson has loaned his committee for the purpose of meeting the Ulster riflemen on the arrival of the Servia. By special permit, the Irish passengers and their baggage will be transferred to the yacht off quarantine when the Servia reaches

the challenge for the America's cur

tomorrow. The tournament will b opened on Thursday morning.

#### NEW WORLD'S RECORD MADE AT VAILSBURG

New York, Aug. 25.—At Vailsburg,
N. J. today, W. S. Fenn, of Waterbury,
added fresh laurels to his list. After
a hard struggle in the mile open for
professionals, he started out with 33
other riders in five-mile handicap of
professionals. He started off at a clipping pace and mowed down his rivals
one at a time. Entering the home
stretch Fenn had the speed and fairly
ran away from the others, winning
by about five lengths. His time was
10:15. The other world's record for
the distance was 10:33 2-5. There was
a wrangle in the two-mile handicap, a wrangle in the two-mile handicap when another world's record was bro ken, but it may not be allowed. Lake and McConnell came down the stretch close together, but to the majority of the onlookers it appeared as if Mc-Connell, the scratch man, had won by a few inches. Alexander Mohor gave the race to Lake and the onlookers fairly screamed their disapproval. The time was 4:00 flat, which beats the old world's record by 14-5 seconds. The half mile, open, was run with many heats. The final was between Lawson and Kramer and Lawson won by about a length. Kramer's friends immediately challenged Lawson for a match race against Kramer and offered odds of \$500 on Kramer to \$450 on Lawson. Lawson may accept the challenge

#### NATIONAL LEAGUE.

CHICAGO WON. Chicago, Aug. 25.—Chicago made one run in the second inning by bunching two doubles. They secured four more in the fifth, on four singles and two errors. A double, a sacrifice and a single gave the visitors their first run, a gift, a fielder's choice, and McGann's four-bagger scoring the other two. Waddell clearly outpitched his opponent and received a shade the better support. Attendance 6,500.

to Wallace to McGann; struck out, by Waddell 3, by Murphy 2; base on balls, off Waddell 2, off Murphy 1. Umpire—O'Day.

DOHENY A PUZZLE. Cincinnati, Aug. 25 .- Doheny proved too Ritchey presented Harley and Crawford with runs by a wild throw into the bleachers, endeavoring to make a doubl - play. Gus Weyhing was served with

first base on balls, off Doheny 3, off Phillips 1, off Stimmel 2; struck out, by 15 North Tejon street. Doheny 3, by Stimmel 3, by Phillips 1;

game two hours and five minutes.

St. Paul again today at 4 o'clock.

Des Moines, Aug. 25.—The locals found McDonald without trouble today. St. Toseph also gave him poor support. The leatures were Werden's home run hit over center field fence in the fifth, with war men on bases Attendance 1600. Denver took two more. Go it, Griz-

There is scarcely any condition of ill-health that is not benefited by the occasional use of a R.I.P.A.N.S Tabule, and the price, ten for 5 cents, does not bar them from any home or justify anyone in enduring ills that are easily cured. A family bottle containing 150 tabules is sold for 60 cents. For children the chocolate coated sort, 72 for 25 cents are recommended. For sale by drugglists.

Mrs. Warner is a long-time resident of the city and is well

and favorably known in the community. Her testimony is direct and strong, and can be easily verified. She says: "I will be

sixty-one years old next April, and all my life had been a great

sufferer with dyspepsia and indigestion. Up to three years ago

I was sure that nothing would help me, as I had tried almost

every known remedy-none giving me much relief. One day my family physician, Dr. Lund, told me to try RIPANS

TABULES, as he had found them of great benefit in several

obstinate cases of indigestion and dyspepsia. I will say can-

didly that I had little faith in them or in any other medicine

when I began taking the TABULES. Much to my surprise, I

felt better within a day, and was soon greatly relieved. I kept

taking them and continued to improve. I felt like a new

and other relatives have suffered tortures with it. I can't say

too much in favor of RIPANS TABULES. Before I began

taking them I could eat nothing but the very plainest fooda little bread and butter and tea being my principal diet for a

long time. Especially was this true at night, and when I ate of

something at all rich I quickly suffered in consequence. Now

this is all changed. If I desire to eat anything extra for supper

"I have recommended RIPANS TABULES to my patients on many

occasions as an excellent remedy for stomach troubles. I am a busy man,

and am frequently stopped on the street by patients who suffer from dys-

pepsia and indigestion and desire me to treat them. Instead of stopping to

the better in my health.

woman, and my neighbors and friends saw a great change for

"Dyspepsia runs in the family; my mother had it for years,

-cake, pie or other delicacies-I simply take a TABULE at had five children. They have all been helped by taking RIPATIS

meal time and before I retire. I feel perfectly safe in taking TABULES, and I can't say too much in praise of the remedy.

Corroborated by Her Physician.

Dr. W. E. Lund, a leading physician of Burlington, Vt., in an interview write a prescription I simply say: 'Take RIPANS TABULES.' They do so

and are relieved."

One of the most convincing testimonials to the efficiency of RIPANS TABULES as a positive cure for all stemach troubles is given by Mrs. S. C. Warner, whose home is situated about 43/4 miles north of the city of Burlington, Vermont.

HAVE YOU BEDS ENOUGH!

"Did you recommend the TABULES to Mrs. S. C. Warner?"

a simple and effective medicine for all stomach troubles."

"I believe I did, although I have recommended them so often that I

don't remember. Mrs. Warner is my patient. I consider the TABULES

them and have never been troubled in the least

Last summer I wanted a strawberry shortcake. For years I could not eat a piece of shortcake. You know, to be good it

should be rich, and I am exceedingly fond of it made so. How-

ever, I always suffered much if I dared touch any. Well, as I was saying, last Summer I wanted some and thought I would

chance it, knowing of what benefit the TABULES had been to

directed on the box, at every meal and before going to bed. I

don't know how many boxes I have taken-several hundred at

least, and I would not be without them for anything. A year or

so ago I did stop taking them for a time, but concluded to begin

again, they were of so much benefit. I like the popular five-

much faith in the TABULES, saying that I had more faith in

them than I had in God; but of course this is not so. I have always been subject to bad sick headaches until I began taking

the TABULES, and you don't know what a relief it is to be

entirely free from these. It is truly wonderful the change it has

made in me. My friends tell me I look and act twenty-five

years younger. I have been a widow nineteen years and have

"MRS. S. C. WARNER."

cent boxes, with ten in a box, the best.

"Of course I take the TABULES regularly and just as

"Some of the neighbors have laughed at me for having so

me. I ate some, and found that it agreed with me perfectly.

"Then at dinner I can eat almost anything with impunity.

ABSTRACT COMPAN'

Among the Western People it is Understood That what they want is something good
And in order to get it of course you all know
THE PEARL OYSTER AND FISH MARKET is the only place to go For the good things we have are always the best That is handled by the markets anywhere in the west. Now, what we are telling you is positively true-

Just give us your orders and we will prove to you,
That we have good things all the time, not only one day, For that is our business and we are out west to stay, The Pearl Oyster & Fish Market Phone 437-A.

Not Cheap.

We don't handle "cheap" Meats and you don't want to buy "cheap" Meats-you want GOOD Meats, they're the cheapest-very much so-and they're all the kind you get here. Talk to us over the 'phone about your next dinner-party.
