mous camp of the striking miners a quarter of a mile south of Nortonville, in the southern part of this county, is a thing of the past.

Tonight there is nothing left to mark the rendezvous of those who defied the officers and even the courts, and gave the state and county authorities so much trouble during the past two months, save ash heaps and the usual months, save as heaps and the usual marks of debris incident to camp life. All of the campers on whom the sun rose this morning, with the exception of a few who escaped the officers, are prisoners behind the bars of the county jail, charged by County Judge Hall, with a "breach of peace, unlawfully as-sembling and banding together, there-by making the camp a menace and terby making the camp a menace and ter-ror to the public peace." The four large tents with all the camp paraphernalia were captured today and brought in with the prisoners.

Last Wednesday, County Judge Hall issued an order commanding that the union camp at Nortonville be disbanded

before Saturday morning at daybreak and that the campers not assemble again in the county. Judge Hall issued the order after receiving sworn state-ments from more than 100 reliable men who declared that armed men going forth from these camps were responsi-

ble for the nightly attacks on the mines and upon the homes of peacable, law-abiding citizens. He stated that the and upon the homes of peacable, law-abiding citizens. He stated that the union camp was an unlawful assembly of men banded together for the pur-pose of destroying property and intimpose of destroying property and intim-idating men who persisted in working independently of the United Mine Workers of America, "who have had representatives in Hopkins county for ported to have been killed in last Sun-day's battle at Providence. He was very polite and offered no resistance to the officers. He and 22 other members of the camp were taken into custody. Oates and Jim Platt, one of the campmore than a year trying to persuade and force the miners employed in the mines to join their organization." ers, escaped later at Nortonville and neither had been recaptured.

mines to join their organization." Judge Hall made a careful investiga-tion before acting and was then sup-ported by the governor of the state and the entire military force. After Presi-dent Wood of the United Mine Work-ers and Judge Yosi, chief counsel for the union demonstrated their intention not to heed the orders of the court and hurled defiance in the face of the of-ficers, Judge Hall called on Adjutant Generai David R. Murray and the two companies of state guards from Madi-sonville and Hopkinsville. The plans for carrying out the order were completed lest night end. groes in camp. The men who are held as prisoners will be tried on the charge of unlawfully assembling, causing a breach of the peace and banding and

IRRIGATION OF ARID LANDS

Annual Report of Secretary of Interior Deals With the Subject.

REFORM IN INDIAN SERVICE

Urges Necessity of a Comprehensive Plan to Conserve the Waters of the West.

By Associated Press.

Washington, Nov. 24 .- The annual reort of Secretary Hitchcock of the inerior department made public today ndorses the conclusions submitted by ommissioner of Indian Affairs Jones egarding the present Indian education ystem. The secretary says: "The management of the Indian serv-

of profit. The works of reclamation lready constructed have, as a rule, already constructed have, as a rule, been unprofitable, and capitalists are no onger seeking opportunities for re-claiming desert land when the proba-polities are against their receiving an ce in the field and schools while satis-actory under existing conditions, is not deemed to be the best for the welfare of the Indians and different methods will hereafter be adopted. This policy con-

adequate compensation for the risk and labor involved. The argument has been presented that if the government will not make it possible to bring water to these lands templates requiring the working by Indian allottees able to do so of a fair portion of lands allotted them and the they should be turned over to the states, but the majority of citizens who have studied the subject are opposed to such contributing by their industry to their own support of all not entirely disqualified by actual disability, physical or otherwise, the discontinuance of the issue of rations to those able to supaction, on the ground that the vacant public lands are the heritage of the people of the United States and should be held for the creation of homes, and pot mode a subject of meculation port themselves, and the extension to the latter of every possible aid for their well being and encouragement; the innot made a subject of speculation, as has almost invariably been the case with lands donated to the states. The auguration of industrial training in all schools where not now established, so whole trend of enlightened public sentithat such Indians of both sexes may nent is in favor of an expansion of inbe taught the trades or industries adapted to their circums ances." dustries and commerce internally through wise action by the national government rather than attempting to The income of the various Indian tribes from all sources during the year aggregated \$5,328,880, a falling off of

get rid of the duties and opportunities of ownership by giving away this valu-able property.

"Enough work has been done by pri-

vate capital to demonstrate the fact that water conservation and the diver-sion of large rivers is practicable, but,

like many other works of great public importance, it can not be made a source

"Two distinct conditions are to be clearly distinguished in the problem of water conservation for the develop-ment of the west. On the one hand, e permitted. In the future full leasing privileges will be confined to those whose disability or inability actually there are localities where the agricul-tural lands along the rivers have been brought under irrigation and there is a demand for water to an extent far ex-ceeding the supply, and where all of the disqualifies them from working any part of their allotments, all other alfood water, though stored, would not suffice to satisfy the demands of the lands now partly tilled. The other con-trasting condition is where there still remain vast bodies of public land for which before the set of the set of the ottees to be required to work at least acres of their allotment. The Dawes commission to the five civilized tribes in Indian territory re-ports that the rolls of membership of only one nation, the Seminoles, so far have been approved and their lands have not yet been entirely allotted. The time cannot be fixed with cer-

remain vast bodies of public land for which water can be provided by means of reservoirs or by diversion from large rivers whose flow can not be used. Here the construction of works of re-clamation in no way affects lands now in private ownership. Between these two extremes are all variables of inter-mediate conditions, but these may be arbitrarily classed with one or the other. other

"In the first case reservoirs, if con-structed, must be treated in the same Report says that the act of June 3. 1887, known as the timber and stone act, if not repealed or radically amend-ed, will result ultimately in the comway in which other public works hav-ing to do with rivers and harbors are managed. The water conserved should

PANAMERICAN **RAILWAY SCHEME**

Report of Ex-Senator Davis to Be Submitted to the Conference at Mexico City, Wednesday.

By Associated Press.

Mexico City, Nov. 24 .- The report of ex-Senator Henry C. Davis to the Panameri

can railway commission of the inter national American conferences will be submitted to the session of the conference next Wednesday, Mr. Davis sug gested that a sub-committee be appoint ed to study his report but his colleagues would not hear of anything of the sort and adopted his report unanimously. Mr. Davis says in his report that there is othing impracticable nor visionary i

nothing impracticable for visionary in the construction of the read nor in the flotation of the necessary stock. He re-marks that each of such systems as the Pennsylvania, the New York Central, the Atchison, the Northern Pacific, the Union Pacific, the Southern Pacific, the Southern ailway and others has a greater mileas than is now necessary to assure the re alization of the inter-continental railroads the bonds and shares outstanding while the bonds and shares outstanding of each of such systems are in excess of the sum estimated as recessary for the construction of th road in question. The Russian gov-ernment has just completed, says the senator, a railroad through Siberia at a cost considerably in excess of the amount estimated as necessary for the comple-tion of the American-inter-continental road, and in doing so has overcome greater natural difficulties than are to be looked for in the construction of the lat-

Mr. Davis estimates the mileage of the inter-continental railroad to be constructed at 5,000 miles in order to link existing sys-tems and calculates the cost at \$200,000,000, or at the rate of \$40,000 per mile.

The report terminates with the following adations:

First-That a railroad connecting all or the greater part of the nations repre-sented in the conference will contribute powerfully to the development of the material relations and interests of the said nations

Second-That the said railroad ought, common interest permit, connect the principal cities situated along

Third-That if the direction of the rail road cannot be changed for the object stated in the foregoing article without great inconvenience, branches should be built to connect the chief cities with the ad cannot be changed for the object phoners. Subsequency, control Remning Rear Admiral W. S. Schley in the recent the foregoing article without after heavy fighting, compelled the Boers in line. NEW YORK RAILROAD STRIKE IS ENDED

By Associated Press.

New York, Nov. 24.—There was a rush of business at the Harlem river yards f the New York, New Haven & Hartford today for at 10 o'clock in the morning all the men who went on trike last Tuesday went back to work. The work was somewhat interrupted y the high tide in the Harlem river, this being caused by the high easterly storm which was raging. The tide cov-ered the approaches to the car floats so that the work of shipping cars down the river could not be done. The average rise of the Harlem from low to high water is about five feet, but today the tide rose about three feet above the verage.

At noon the tide receded somewhat and four floats containing 16 men each were landed at the yards. These floats came from the depots in Jersey City and were loaded with perishable freight. The first train to leave the yards un-er the direction of the old men left at o'clock and the men lined up along its roof and the rain soaked down into

the track cheering. The headquarters of the strikers wer deserted all day, giving evidence that the strike is over for good.

was run over at the D. & R. G. crossing near the Colorado smelter some time early this morning. He was found at 7 o'clock, still conscious, and was taken to a hospital. It was necessary to amputate his right arm, but he will recover. Lindsey was intoxicated when the accident occurred.

GUNBOAT GENERAL PINZON AT COLON

By Associated Press. Colon, Colombia, Nov. 24 .- The Coombian gunboat General Pinzon arrived in this harbor at 9:30 this morn-

ing. The excitement in Colon at once became intense. The Pinzon will not be permitted to land the troops she is carrying at this point. If such an attempt is made the Liberals assert they will fire on them. It is thought the landing of the government troops from the gunboat should be effected up the

Chagres river, in the direction of Gatun station and at a point about five miles from Colon, or on the beach south of Colon, where fighting will be permissi-ble. Senor de la Rosa, secretary to General Diaz, arrived here yesterday. Generals Diaz and Lugo are expected

at Colon shortly. The capture of Colon by the Liberal forces is already known at Savinilla and doubtless at Bogota. The situation here remains unchanged. Traffic across the isthmus is not impeded.

By Associated Press. As a result of an exchange of notes between the United States gunboat Machias and the General Pinzon, Ignacio Foliaco, commanding the Pinzon, which has 600 men on board, has officially notified the American, British and French warships now in the harbor that he intends to bombard Colon at noon tomorrow (Monday), thus giving 24 hours' notice. The various consuls are notifying their respective fellow citizens that refuge may be had on board the war-

To bombard the town of Colon it is absolutely necessary to fire across the railroad tracks and the railroad employes will probably refuse to work. Lieut. Commander McCrea of the Machias is the senior naval officer and he awaits instructions from Washington regarding the threat to bombard. There is much excitement in Colon. The afternoon passenger train which should have arrived here at 6 o'clock

NO NEWS AT WASHINGTON.

By Associated Press. Washington, Nov. 24.—If any dis-patches from the naval or consul of-ficials in Central America regarding the intention to bombard Colon have been sent to the government here the re-sponsible officials deem it not best to discuss them for publication Inquiries sociated Press. discuss them for publication. Inquiries tonight elicited replies to the effect that there had been no advices received today in regard to the scene of the trou-ble either by the state or navy depart-ments or the Colombian legation. It is probable that early tomorrow Secretary Long and Secretary Hay will have a conference with the president on the situation as developed by the latest will decide upon the course to be pursued by the administration.

Rome, Nov. 24.—Right Rev. Nicholas Thrysostom Matz., bishop of Denver, eft Rome today. It appears that al-hough he has often spoken of the disadvantage of his German nationality n a diocese largely Irish and has ex-pressed a desire to resign, the vatican has never entertained the idea of asking him to retire. At the same time if he should persist in such a wish, the atican is willing to transfer him to anther diocese or to nominate him as a

efinite policy leading to the best use of the vacant public lands. It is recommend-ed that construction be at once begun pon certain property where the condi-

ions are known to be such that bene-cial results will follow. Out of the large umber of localities examined, it is sur ested that the following be considered urveys, plans and estimates having been

"The San Carlos storage reservoir in rizona, reclaiming 100,000 acres or more of land at an estimated cost of

construction of reservoirs in the lierra Nevada in California for reclaim-

ing desert lands in Nevada. "The diversion of St. Mary river into the headwaters of Milk river in Montana

'It is further urged that the appropria mensurate with its importance, the sum of \$250,000 being needed to carry on the work in hand."

The secretary says the net earnings of the bond aided and land grant railroads amounts to over \$13,000,000 and the in-crease in gross earnings to \$37,000,000. The ncrease in expenses for the year was over \$24,000,000. The debt of the Central Pacific road to the United States now mounts to \$58,821,121.

The secretary submits the annual re-port received from the Maritime Canal company of Nicaragua which shows that since its organization 10,145 shares of its capital stock have been subscribed for at par, aggregating \$1,145,000, and that the total amount of cash received in the treasury as reported by the company is \$1,174,603. The expenses of the company nave been \$1,172,771 in cash, 31,990 shares of full paid capital stock, \$5,000,000 of irst mortgage bonds and its obligation or \$1.885,000 of these first mortgage bonds. t also has issued 180,000 shares of its apital stock at par value in payment of concessaries rights, etc. The liabilities of the company consist of the amount still due under its concession of the 1,885,000 of bonds mentioned, and of cash labilities outstanding aggregating \$200,-000. Its assets comprise its unused capi-tal stock, the \$518,500 first mortgage bonds and the 2,420 shares of capital stock re-ceived in liquidation of the claim against the Nicaragua Canal Construction comany, the concessions, etc., and the plant, ailways, supplies and other property in entral America.

LONDON STOCK EXCHANGE.

By Associated Press. London, Nov. 24.—Business on the tock exchange has been so nearly dead during the last week that the doings are hardly worth recording. Money has been alternately scarce and plentiful, owing to the fitful government dis-bursements and to large payments on account of various calegial loops. The ccount of various colonial loans. The Bank of England has agreed to im-pound most of the available gold. The pen market rate of discount closed rmer, but still below the bank rate. American securities alone displayed ven a suggestion of activity. A general feeling of apprehension for ne future prevented real business and juotations were largely nominal. Home rails declined a shade in spite of the mproved traffic reports. Mines were stagnant.

COLORADO SPRINGS GAZETTE FROM THE PUBLISHED EVERY DAY IN THE YEAR

Sixty Cents a Month

Seven Dollars a Year

THE COLORADO SPRINGS SPIRIT.

ESTERDAY morning's Gazette was certainly a magnificent showing of the business enterprise and push of the merchants of Colorado Springs. It was not only an unusually good newspaper but it was a showing of business resources such as any city of many times the size of Colo-

rado Springs might well be proud.

Leaving to others to express their appreciation of the Thanksgiving Gazette as a newspaper, we desire to call attention to some of the things that such a newspaper indicates and their bearing upon the general interests of the city.

In the first place, we think that it gives a pretty conclusive proof of the truth of something the Gazette is continually claiming, and that is that the stores of Colorado Springs are as well stocked as those of any city in the land with nearly everything that is required for ordinary household or personal needs, and that they are far better supplied than those of the ordinary American city of from five to ten times the population of this one. Certainly no other newspaper published in a city of anywhere near the population of Colorado Springs made such a showing yesterday morning as was made in the Gazette, and it is quite certain that the materials for such a showing do not exist.

That such a condition is due in large measure to the home-trading policy adopted and pursued through a number of years does not admit of a reasonable doubt. Colorado Springs merchants know that their efforts to suit the tastes of their customers will be appreciated and that after they have gone to the trouble of getting the goods here the merchandise will not be left to spoil on the shelves. They know that they are safe in putting the prices down to the lowest possible notch because people in this city are quick to notice and to take advantage of such opportunities, and the merchants have found

that the policy of quick sales and small profits is the one that wins.

But the general principle that shows most conspicuously in the columns of the Thanksgiving Gazette is the one that properly deserves mention as charactoristic in a peculiar way of this community, to such an extent indeed that it may well be called the Colorado Springs spirit.

It is to discover what we have that is worth having, and then to push it for all that there is in it.

No one in Colorado Springs is accustomed to go off in a corner to enjoy a good thing by himself. We are not afraid to advertise our advantages, and we are enthusiastic in calling the attention of friends and even of strangers to those things that make this city the best place to live in in the United States.

And that is the reason, perhaps more than anything else, why Colorado Springs, possessing the genuine natural resources that it does as a foundation upon which to build, has been so constantly and so notably successful in their development, and that is the reason, too, why the Gazette has made a success of its policy of doing all that it can, whenever it can, and in all possible ways, to promote the interests of the city, to advertise its advantages and opportunities and to build up not only the larger interests of the community but also those of each individual member of it.

THE DEPARTMENT OF THE INTERIOR.

THE DEPARTMENT OF THE INTERIOR is one of the most important divisions of the federal government and in its operations it probably comes into close touch with more citizens of the great republic than

any other. Its work is varied and comprehensive and includes such diverse and important matters as the Indian tribes, the public lands, pensions, patents, census, the geological survey, bureau of education, office of railroad affairs, the territories, national parks and reservations, and many others.

It will be noticed that the majority of these subjects concern the western states much more than they do those of the east.

The report of the sercetary of the interior for 1901 forms a bulky yolume of 267 pages and presents a detailed account of the work of the various bureaus.

The statistics of the public lands are interesting both as showing the rapid progress made in placing the national domain under private ownership, and the large area yet remaining unappropriated. In the fiscal year ending sorbing topic. Silver-tongued orators denounced the "crime of '73." The hard bine hard of Every Nature. June 30, 1901, nearly 15,563,000 acres were disposed of, an increase of more than 2,000,000 acres as compared with the 12 months next preceding. In 39,115,814 acres remain unappropriated and unreserved in addition to times intensified the public feeling against the government. 5,694,161 acres that have been reserved and 21,538,185 acres that have been as a bright star in the west to whom appropriated. Alaska contains nearly one-third of total public lands at the the people looked with awe almost akin to superstition. The impetuosity with present time and there are eight other states and territories that contain a which he was nominated at Chicago larger total of lands unreserved and unappropriated than does Colorado. It is was indicative of the state of feeling interesting however to note that while Colorado stands ninth in total of ver the country, particularly in the lands unreserved and unappropriated, she stands third in surveyed lands of father of his country and Bryan was to this character, being exceeded only by Wyoming and New Mexico. e its savior. Bryan and silver be came the war cry and people honestly believed that in free silver depended the A large part of the report of Secretary Hitchcock is devoted to the subject of irrigation, and the subject comes up repeatedly. Beginning on page 86 salvation and future prosperity of our beloved country. Is it any wonder then that people were swept from their of the report there will be found a very thorough discussion of the subject reduced to as brief limits as possible and concluding with this most significant political moorings? People of all shades of political opinion deserted "former political affiliations and joined in the declaration: "The investigations that have been carried on demonstrate that looking ee silver demonstration. The state of Colorado went 135,000 Democratic. In the meantime Bloody Bridles Waite at the matter from all sides, THERE IS NOW NO ONE QUESTION BEFORE THE PEOPLE OF THE UNITED STATES OF GREATER IMPORTANCE had been elected governor and fanata-THAN THE CONSERVATION OF THE WATER SUPPLY AND THE ism ran riot. cism ran riot. Now all this is changed. The people discovered that they were being led astray. They began working their minds again instead of their jaws' and learned that there were other ques-tions of state and national importance needs from the memory question. RECLAMATION OF THE ARID LANDS OF THE WEST, AND THEIR SETTLEMENT BY MEN WHO WILL ACTUALLY BUILD HOMES AND CREATE COMMUNITIES."

(Pueblo Star-Journal.) At the meeting of the Southern Coloado Medical society at Colorado Springs a physician of Pueblo read a paper complaining bitterly of what he terms the "rampant rise of quackery." He says: "Quackery has not only continued to grow but it has become more and more powerful both as regards numbers and every other way that would render it more formidable as a ocial factor.'

The Pueblo physician goes on to adise "a campaign of education among the! masses" in order to arrest the larming spread of quackery. The suggestion of a campaign of edu-

ation among the people by the ortholox M. D.'s appears to be well taken, and it is to be hoped that the suggestion will early take the form of removing the boycott which regular practicing physicians of Colorado, through their societies, have instituted upon newspaper patronage.

Though in most states of the union t is perfectly ethical for a physician o publish a card in a newspaper, givng his line of practice (if his practice be limited) and stating his office hours, telephone number, and office location, in Colorado it is different, quite different. Here the doctor is declared unethical and is refused consultation courtesies by his brothers if he so much as puts his name in the advertising

columns of the press, save that if he should change the location of his office from one building to another he may announce the fact in the reading col-umns without becoming heretical in he eves of his fellow medics.

Now who says that this ultra con-ervatism is not responsible for the apid growth of what is called "quack-Is it not true that the people who are ailing physically look to the press for information and enlighten-ment upon the location and the office hours, as well as other features of the physicians' practice, just as naturally as they look to the press for facts about dry goods, houses to rent and a multitude of other things?

physician struggling for a foothold in the community finds it difficult to live up to the rigid ethical limitations regarding newspaper advertising laid down by the old established practitionr, who may have got his advertising by other and more subtle methods. These ethical "don'ts" are usually con-cocted for the government of the profession by M. D.'s who are all the time appearing in print in some way or othnot open to the young physician. or instance, the professors in Eastern olleges are most industrious in ostering this anti-newspaper boycott, and yet they never miss an opportunity to scrape up an interview with the misionaries of the press wherein their names are bandied to the four winds through the local or general press. The worst sticklers for "rigid ethics" on the advertising question in Pueblo are not known to be averse to seeing their names appear as frequently as conven-tors in the news columns of the daily ient in the news columns of the daily newspapers. Some are even noted for their ingenuity in this respect, while saying "nay" to their ambitious brothjust seeking his first professional Il It is hardly to be wondered that all there is a growing sentiment here and elsewhere for greater liberty in the matter of press announcements, In the recent election Democrats all over Colorado see their finish. The re-

sult is no surprise to thinking political students. Fifteen years ago Colorado was a reliably Republican state. Dur-ing those years Boulder county, though much smaller in population could al-ways be depended upon to return Re-publican majorities of from 400 to 600. The state then was naturally Repub-lican. Along came the Populist craze.

millions of women and children. In-stead of this condition exactly the op-

This is a distinct advance upon any previous position assumed by the aside from the money question. Bryan had told them that if free silver didn't department in relation to irrigation and it will be welcomed by the people of the west as an evidence that the subject is going to receive from the national arry the great factories would all close, throwing out of employment mil-lions of laborers and thus starve other government the attention it deserves.

GREAT BRITAIN AND THE MONROE DOCTRINE.

posite was true. Other factories were established and every branch of in-dustry received new life. Factories all THE FACT that the Monroe doctrine was enforced against England over the country today are behind with their orders and labor everywhere is employed at fair wages. in the Venezuela case and is frequently referred to as a menace to British ambitions in North and South America has misled a great Realizing the conditions as they ex-ist, the people are now returning to former political affiliations. Nebraska, Mr. Bryan's home state, last week went Republican. A majority of Colorado counties elected Republican officials. It is a parfectly logical condition. These many Americans as to the real attitude of Great Britain toward the

Monroe doctrine.

England was directly interested and distinctly in favor of the first enunciation of that doctrine, and it is asserted by some good historians that the first suggestion of it came from the British prime minister, Canning. But is a perfectly logical condition. These states were formerly Republican and however that may be, Great Britain has at no time shown a serious disposithey are now Republican again. In the tion to consider American territory as a field for colonization, and has tion to consider American territory as a field for colonization, and has repeatedly indicated a willingness to support the claim of the United States go Democratic again.—(Longmont Call. that European monarchs should not undertake to extend their political system to this continent.

The recent meeting of the Denver Inion Republican club indicated that the party in Arapahoe county is far from harmonious, and furnished evi-dence to the outsiders that something What has been true in the past is even more true at the present time. It is no longer France or Spain that threatens the political supremacy of is rotten in Denver. In view of the expression of the people all over the state on election day, the statement of Great Britain. New conditions have arisen as well as a new power, and at the present time it is Germany that strikes at the commercial supremacy of England. It is very much more to England's advantage that the republics of some of the Denver Republicans that the defeat of the party in Arapahoe was entirely due to the fraud perpe-trated by the Democrats will be re-ceived with several grains of sult. It is show to conclusion that the America should pursue their course unhindered under the protection of the strongest and greatest among them, rather than that Germany or any other nation should secure a predominating influence in their affairs or a slice of their territory.

is plain to onlookers that there was lacking that unanimity of opinion and action which are ever necessary to party success. The Post would not un-It has been proposed from time to time that Great Britain should formally and openly announce her approval of the Monroe doctrine, and it has dertake to locate the blame, but sug-gests that matters might be somewhat been urged that this might be done without any impropriety because of her large possessions on the American continent. Such a proposal has been reimproved down there, and we hope the fellows will "get together" and over-come the apathy and opposition now existing in the party, for this must be cently revived, and an effort is being made to secure such a declaration from the British government. It is very doubtful whether such a statement would lone before success can be attained .-add anything to the strength of the Monroe doctrine. It might rather add to (Glenwood Post

the distrust felt regarding it in some of the South American republics and give cause for the criticisms of European nations. The United States is Editor Stevens of the Colorado Springs Gazette is throwing the upper cuts thick and fast into the Arapahoe pic contingent. He is delivering what is termed a series of solar plexus lec-tures to those who view federal ofperfectly well able to maintain the doctrine in theory or in practice, and does not need the assistance or formal alliance of any European power in doing so.

Editor Stevens of the Colorado rings Gazette is throwing the upper ts thick and fast into the Arapahoe e contingent. He is delivering what termed a series of solar plexus lec-res to those who view federal of-e as a license to dictate and pre-ribe for party and voter.--(Durango It is reported that a part of President Roosevelt's message will be fice as a license to dictate and pre-scribe for party and voter.-(Durango directed against the anarchists. LEADVILLE.

LEADVILLE. There was a time in the history of mining operations in this district when the fissure vein sections of the camp were much neglected. The immense and rich mineralized blanket veins of headville naturally attracted mining men of all classes. The fissure veins looked small and insignificant compared with the wonderful deposits of Fryer, Carbonate and Iron hills. The tide flowed toward the most easily worked and the fabulously rich sections, and the fabulously rich sections, and the secone a regular business and distribution of the big bonanza excitement has died down, sections heretofore neglected have shown signs of revival. The miner has learned that he must depend on

have shown signs of revival. The miner has learned that he must depend on working bodies of medium or low grade material rather than depend for suc-cess on striking rich ore. Smelting charges, as compared with what they were in early days, are very low, and enable moderately valuable material to be mined at a fair profit.

be mined at a fair profit. The history of Sugar Loaf mountain, one of the foothills of the-main range opposite Leadville, is an interesting ex-ample in point. The veins were numer-ous and rich. Such properties as the Dinero, the Tiger and the Shields made wonderful records of production, and scores of little shafts scattered over the face of the hill testify to the industry of the miners, who exposed and traced of the miners, who exposed and traced the veins with great accuracy. But with the exception of one or two propwith the exception of one or two prop-erties, large mines were not opened up. In the first place the expense of min-ing and treatment was very heavy. It was a 44 haul to the smelter, and 52.50to \$25 was the average cost of treat-ment. The result was that a miner could not afford to ship anything below 550 ore, and in the best of districts this is not found in good counties. The is not found in good quantities. The Sugar Loaf miners devoted their atten-Sugar Loaf miners devoted their atten-tion to following the rich streaks and pockets in the veins, and if they could get out a few lots in a year were able to make more than expenses. But in the main this work was rather des-ultory, and not conducive to the prop-er development of a district. In the past few years, however, con-ditions have changed gradually. The

In the past few years, however, con-ditions have changed gradually. The jost of mining, the treating, hauling, etc., have all decreased, and lower grade ores can now be mined to a profit. It has required time and money to open various propositions on this hill, but those who have been engaged in oper-tions there have been in the main successful and many mining more profinuccessful, and many mining men seek-ng good propositions which can be placed on a paying basis at a modplaced on a paying basis at a mod-rate cost are gradually developing the resources of this section of the Lead-ville district. Thirty or forty ounces silver ore that was rejected as worth-less years ago can now be mined to a profit, and with increased development and depth there is always a chance of finding the richer pockets.—(Herald-Democrat. Democrat.

OURAY COUNTY.

A mining district that antedates any a the vicinity of Ouray or in fact any f those of the San Juan camps is Mineral Point. Discoveries were made in the Mineral Point section before Ouray was even explored as a possible mining center. Many prominent mining men date their beginnings from this district and look back upon the time spent in this little camp as among the most profitable lessons offered to them in the stern realities of life.

Altices of life. Among these residents of the San Juan who have graduated in this school of ex-perience is Ed. Brown, who boasts of 25 years' residence at "Mineral." Mr. Brown has stald by the camp and through all the discouragements offered he has held that there would come a time come day

of persistent development

the property is worthy of a place among the safe ventures in Ouray county. There has been no flurry to mark its progress; no flamboyant circulars descriptive of its fabulous returns, but a steady and sys-tematic process of scientific development tematic process of scientific development has brought about a condition of things which justifies us in the assertion that it has a future among the big shippers. A tunnel 800 feet long reaches out on the vein from which has been shipped such ore as accumulated in the prosecu-tion of the work of development. Much of the ore shipped this season

Much of the ore shipped this season has netted \$700 to \$900 per car, and much high-grade ore is now on the dump await-ing shipment. Assays of the mine run product return from 60 to 80 ounces silver, from one to four ounces of gold and 40 per cent. lead.

The trend of the vein is favorable, gives every assurance of continuity and reaches out toward the great mineral zone having its axis at Mt. Sneffels. If locality is any index of character, the associations of the Teller are eminently satisfactory. The lo-cation, easily accessible by a good trail, on the south side of the mountain where Old Sol frowns upon snowslides, is all that could be desired. Abundant timber and good water are easily accessible. The tunnel is perfectly dry and the formation especially favorable to economical min-

The property was incorporated some months ago by the present operators, Messrs. Brewer, Jordan, Arps and others. Messrs. Brewer, Jordan, Arps and others. The capitalization, effected under the laws of Wyoming, fixed the limit at 1,000,-000 s.arcs, with a par value of 10 cents per share. Some stock has been disposed of at that figure but no stockholder in the proposition feels disposed to release any more of his interest than may be necessary to purchase the machinery for operating the mine on a large scale. The company aims to erect new build-

The company aims to erect new build-ings and purchase such equipment as may be required to push the work of develop-ment to the limit. The great vein is now within 70 feet of the breast of the tunne and to cut this vein is the plan of the operators. From surface indications the ross vein will prove a bonanza. A descriptive prospectus will be issued

setting forth such facts as may be of interest to possible investors, but no spe-cial effort will be made to boom the property. It can take care of itself. Such an Plaindealer will have more to say of this matter in the future.-(Plaindealer.

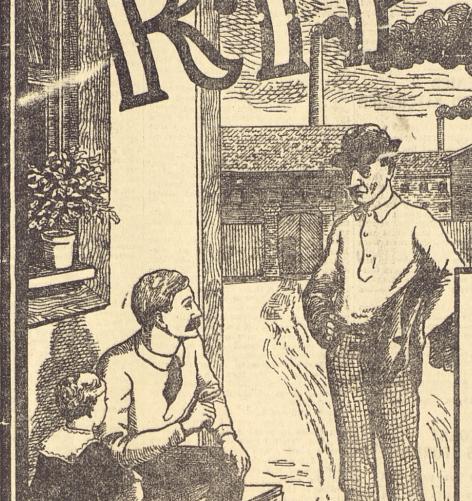

ELDORA DISTRICT.

Eight miles northwest of Eldora and 11,000 feet above the sea a great enterprise appears to be nearing the goal of success. The Consolidated Copper com-pany now have the main shaft on the pany now have the main shaft on the Fourth of July lode down about 350 feet and are pushing the crosscut at the second level to the foot-wall 150 feet distant. It will be reached prob-ably within a couple of weeks. The crosscut grows steadily befter and it will be no surprise if a big body of rich mineral is encountered any day. In the shaft there had been no min-In the shaft there had been to min-eral for more than 100 feet and none was expected there, but for the last 60 feet mineral has been coming in more and better until it is evident that if the improvement continues a little longer the shaft will be in a huge bo-nanza. As a rule copper mines do not amount to much until a depth of 500 feet is reached, and in the Fourth of July things look better steadily as the shaft approaches that depth. The shaft will be sunk to the 500-foot

point as quickly as drilling day and night can accomplish it. Then drifting and crosscutting will begin at that depth. Ore could be taken out from some of

the workings and shipped, but it is the policy of the management to market no ore until a railroad reaches Eldora or

the discouragements offered he has held that there would come a time some day when he would be repaid for his labor, patience and hardship. The Sewell and Malone properties are among the old claims of this section, are patented properties and have lately been sold to St. Louis parties by Mr. Brown and his partner, Mr. Beatty of Ouray. The latter secures a contract for a 300-foot crosscut which will intersect the vein at a depth of 300 feet or more.

From the People:

I have been taking Ripans Tabules for about one year and cannot find words to express the good they have done me. I am forty-five years old, a painter by occupation. I have been troubled with indigestion so bad that I could not eat a good meal without vomiting, and did not know what it was to have a good night's sleep. I had tried everything I could get hold of, but of no avail. Many a day I had to leave off work, I felt so bad. I could never eat anything hearty, and I always had the dread of night coming, as I knew I could not sleep. One day a friend told me of Ripans Tabules and the good they had done him. He coaxed me to buy a package. I took two tabules after my meal and two more on going to bed, and I a had good night's sleep. I

can now eat anything and am not afraid but that I will sleep at night. I always have a package of them in my pocket to use myself and to give to my friends, and I also give them to the children when they are troubled with their bowels, as I find them a good medicine for children. I would not do without them for a good deal. They are worth their weight in gold. Charles Henry, Flatlands and Railroad Aves., Canarsie, L. I., March 8th, 1901.

I have been manager of one of the, if not the oldest wholesale shoe houses in Philadelphia for several years past. After suffering much from stomach troubles, I obtained Ripans Tabules upon the recommendation of a friend, and was so much benefited that I desire to express my thanks. Ripans Tabules are a compound which can always be taken with sureness of relief. I consider them the best remedy for constipation ever put on the market and would not be without having them in the house. W. H. Bellows, with A. J. Bellows & Co., wholesale dealers in Boots, Shoes and Rubbers, No. 247 Market Street, Philadelphia, March 11, 1901.

I have been using Ripans Tabules for about six months, and I found them to do me a great deal of good. I had been complaining for months with headaches, irregularities of the bowels and loss of appetite, bad taste in the mouth and bad breath, disordered stomach and restless in my sleep. I met a friend one day who recommended Ripans Tabules to me. I spoke to my doctor about it and he advised me to try them. I am pleased to-day that I did so, for I saved myself a large doctor bill and I am getting rid of all my trouble, for which I thank Ripans Tabules. A. Kaufman, manager 5th floor, N. Snellenburg & Co., 12th and Market Streets, Philadelphia, March 11, 1901.

foot crosscut which will intersect the vein at a depth of 300 feet or more. Samples from this vein give return aver-ages of 35 ounces in silver and \$2 to \$6 in gold. The vein is four feet in width. Surface improvements are now completed for extensive development work the com-ing winter.

The Malone, which is near the Old Lout in the Upper Poughkeepsie district, has a 30-foot shaft and drained by the Old Lout tunnel so that it is accessible for fu-ture work. As is well known, the Old Lout produces or rather has produced high values, \$300,000 worth of bizmuth silver ore having been taken out of one shoot. As is well known by all old timers familiar with this district, the Poughkeepsie and Mineral Point sections, all titles to mining claims are clear, all patented properties are in good shape and annual sessments on prospects are worked in full

The outlook for the district is exceptionally bright. It is Mr. Brown's intention to continue work on other properties in that district.-(Ouray Herald.

Four years ago the Teller mine, located three and one-half miles from Ouray, was but a prospect. Today, as a natural

And bring children into the world to suf-fer from an inherited blood taint? People do not realize that foul blood may lurk under a fair skin, and that the fire smoldering in the blood of the parent may break into flame in the flesh of the child. Dr. Pierce's Golden Medical Discovery puts out the smoldering fires of scrofula. It cleanses the blood from disease taints, strengthens the weak lungs, heals the diseased stomach.

diseased stomach. "Dr. Pierce's medicine has done wonders for my two sons." writes Mrs. M. Hartrick, of Demster, Oswego Co., N. Y. "Both had scroula. I have lost two daughters in less than five years with consumption and scrothla. My eldest som was taken two or three years ago with hemor-rhage from the inngs. It troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery, and has not had one in over a year. My younger son had sarofulous sores on his neck; but has not had any since he commenced to take your medicine." Use Dr. Pierce's Piezsant Pellets for

Use Dr. Pierce's Pleasant Pellets for. the bowels and liver,

impracticable to continue this working on account of water. Manager John-son expects to cut over to this vein from the 500-foot level, which will give a large amount of stoping ground and the water will flow into the shaft and be numped thence to the surface.

In this connection we would remark that the mine is splendidly equipped. Mining men when they visit the prop-erty express surprise at the excellence of the machinery and the perfection of the arrangements. There are two steam pumps—one throwing the water from the extensive driftings at the second level and the other a sinking pump in the bottom of the shaft.

The company owns 100 acres of min eral land, 60 acres of which is heavily wooded. We have every reason to believe that much of the ore will be high grade. An average of eight tests of the

dent is regarded as already passed. didature of Senor Palma, as did Senor Whether the agitation will be renewed upon the attitude Count von Buelow, said General Maso's manifesto was a the German imperial chancellor, assumes in the reichstag.

It has been reported that Count von Buelow will take a firm stand against Mr. Chamberlain's Edinburg remarks, nothing to fear. being nothing loth to use the agitation in Germany as a lever to assist the naval program of Emperor William.

The discussion still simmers in the British press. The Daily Chronicle says today:

"It should be plain to thoughtful Americans that this agitation in Germany is an expression of an animus not aimed exclusively at one branch of the Anglo-Saxon race. It is probable

that, if South Africa were peaceful, the Philippines would be the subject of German pen and pencil fantasies.

CHICAGO WELCOMED THE IRISH ENVOYS

TWO NEGROES LYNCHED.

By Associated Press. Columbia, S. C., Nov. 24.—An un-known negro was lynched in Anderson county today. Yesterday afternoon the man went to the house of Mrs. Perry Craft and asked for something to eat. When she turned the negro shot her through the back, inflicting a fatal wound. The man fled but was pur-sued by hundreds of men. There are no details of the manner of his death.

VAN SANT WILL FIGHT

By Associated Press.

WAS BALD SIX YEARS.

"STRINGING UP"

Three Months of the New Scientific Treatment Restored His Hair.

Baldness is caused by dandruff, hich is caused by a germ. Kill the germ and there is almost certainty that hair will grow again, if the follicle has not been totally destroyed. Nels Peter-son, of Lime Spur, Mont., says: "I had been bald six years, and had tried all kinds of 'cures,' but without any bene-fit whatever, until I tried Hornizia. Irish patriot, who was rescued from Van fit whatever, until I tried Herpicide. November 16, 1899, I began using Her-picide, and in three months a fine growth of hair covered my head com-pletely." Ask your druggist for Her-picide. Everybody can have luxuriant,

glossy hair, if Herpicide is used thoroughly. Take no substitute.

A Physician Testifies.

"I have taken Kodol Dyspepsia Cure and never used anything that did me and never used anything that did me the good that did," says County Physi-cian Geo. W. Scroggs. Hall County, Ga. "As a physician I have prescribed it with the best results." If food re-mains undigested in your stomach it decays. To prevent this by dieting means starvation. Kodol Dyspepsia Cure digests what you eat. You need suffer neither dyspepsia nor starva-tion. Hefley-Arcularius Drug Co., C. E. Smith, 117 S. Tejon St.
