An Agreement Reached to End Cuba's War.

REBELS WILL SURRENDER

Reported Arrangements Between Spain and the United States.

LIBERAL TERMS ARE OFFERED

Rebels Profised Immunity from Arrest and Punishment--The Reforms of the Edict of 1895 Will Be Established Together with Additional Ones -- United States Will Act as Guaranteer of the Terms of the Treaty--Maximo Gomez Will Sign for the Insurgents.

New York, Jan. 13.-The World publishes a dispatch from Washington say-ing the agreement between the United States and Spain regarding the terms to be granted to the Cuban insurgents was

Practically concluded today.

It is neither a treaty nor a diplomatic memorandum. It is a compact, or agreement, between the United States and upon the terms that Spain is will-

ing to grant the insurgents.

It provides for capitulation and pardon of the insurgents, for whom General Gomez is expected to sign the treaty. There are to be three parties to the agreement The United States represents the insur-

There are still some minor details to be arranged, and these may occupy ten days more. By the end of January the terms will be complete. They will then be laid before congress in a special message from President Cleveland. Simultaneously they will be promulgated in Madrid and in Havana.

The provisional draft of the new terms ras embodied in a lengthy communica-tion to Senor de Lome from Premier anovas. This was brought by Senor Gardista who arrived here from Madrid on Monday. It included not only the reform edict of 1895, which it was pro-visionally stated that Spain is now willing to grant, but also a draft of a treaty be-tween Spain and the insurgents, in which the reforms are to go into effect.

The First Draft.

The first Draft.

The first draft of the proposed treaty of capitulation reads as follows:

Article 1. The political organization and administrative reforms contained in the reform law of March 23, 1895, with all the appropriate agreed to between the the amendments agreed to between the United States and the legal representa-tives of the Cuban revolutionists and the

government of Spain shall be immediately established in Cuba.

Article 2. Free pardon for all the political offenses committed from 1893 to date and freedom for those who are under indictment from the Spanish authorities, regardless of nationality, this clause being strongled to include the being extended to include all those who have taken part directly or indirectly in the revolutionary movement.

Article 3. No individual who, by vir-

tue of this capitulation shall submit to and remain under the authority of the Spanish government, shall be compelled to render any military service before peace is established over the whole ter-

munitions of war shall be deposited. Spanish army shall furnish them free the American newspapers. transportation by land or sea over all the lines within his control to the central co-

representatives of the Cuban insurgents received in an engagement with the Span shall be deemed to have been made with all in rebellion against the authority of the Spanish crown who may accept its

Gomez Will Sign. It is the expectation that General Gomez with a committee of other Cuban leaders will meet the representatives of Spain at a time and place yet to be named and sign this treaty. Its terms are similar to those of the capitulation treaty of Zangon at the close of the ten

the details of the amendments offered to the referm edict of 1895 cannot now be definitely stated, inasmuch and they are still open to change and modification, it can be safely asserted that the concessions which General Gemez demanded through Sener Sagasta have received marked consideration Unsettled Points.

The points which remain unsettled re-er to the insurgents and their immediate acceptance of the peace treaty. While it is hinted at the Spanish legation and promised to lay down his arms in the event of the United States becoming in a moral sense guaranteer of these conditions, a preliminary understanding be tween the insurgents and the United States is not definitely settled Spain clings to her position of cletat-ing her own terms and absolutely form-

ng her own policy. Nevertheless she has been forced by the complicated circumstances of the case to acknowledge the United States as a party to the Cuban war, and in submitting to the treaty she proposes to make with her rebellious the position of the United States

TIRED OF WEYLER.

The Captain General Eas Very Few Friends in Cuba, and is as a Bear.

Havana, Jan. 12.-Via Key West, Jan. 13.—Captain General Weyler is in a very bad humor, and seemingly with good rea-son. He was with difficulty dissuaded a correspondent of the Madrid Heraldo to Moro castle, and the newspaper man in question is not safe from the Spanish ommander, who was aroused by the critgeneral felt his ill temper that nobody outside his military and civil advisors has been able to see him since his la est reoutside his military and civil advisors has been able to see him since his la est return from the field. That he is in danger tugs. Her crank-shaft is broken.

ubts, in spite of the many official and semi-official cenials from Madrid, for its reinembered that the same course was ollowed by the government in the case of the re-call of Marshal Martinez Cam-

An All Around Failure.
Weyler cannot truthfully be said to have achieved a single success, diplomatic, administrative, military or otherwise. There are probably more insurgents, better armed and supplied in Pinar del Rio at the present moment than at any time since the insurrection broke out. General Weyler once openly remarked that the western part of that province alone contained 7,000 armed men, and that large additional "bands" of in-An All Around Failure.

and that large additional "bands" of in-Surgents were hovering about his trocha. The Spanish commander sent 50,000 men against the little insurgent army, and the latter seems to disappear, and the best efforts of the Spanish generals have failed to discover their whereabouts. Spaniards are Powerless.

Gomez is pushing onward from the east with all the men he can muster, at the same time protecting his retreat. The insurgent bands are, in the meanwhile, carrying the torch to the very gates of Havana. The flames of the burning proprty can be seen from the roofs of the captain general's palace, the sound fire arms has frequently been heard of late in the suburbs and the cities, the Spanish are absolutely powerless, though they have burned every roof capable of sheltering a wound-cd insurgent, destroyed everything likely o give them food, and in every way tryng to crush the struggle for freedom, not in an open conflict, but by adopting the very anarchistic tactics they taunt the Cubans with employing, including the burning of the insurgent hospitals and slaughtering the helpless sufferers, ac-

cording to all reports. Working Against Weyler. The civil governor is known to be using his influence with the commercial bodies here to bring about Weyler's re-call and protest against his conduct have been sent to Madrid recently in great num bers and couched in the most emphatic terms of disgust and disapproval. All efforts to cable such matter to Madrid from here have been frustrated by the captain general. But this has not pre-

vented several urgent messages being sent from Key West to Madrid and it is believed the action taken will not fail to have the desired effect in the near furoot in the most influential circles here, the very quarter where Spain counts her staunchest supporters, and therefore, it is not believed possible that the government can much longer ignore the fact that little or nothing can be done toward the real solution of the Cuban question

so long as Captain General Weyler is in command. His military incapacity is not the only feature complained of. Even the army contractors have turned against the captain general and that, as military men are aware, means a great

A Bar to Settlement.

The rumor that Maximo Gomcz was contemplating surrendering to the Spanish authorities have been traced to Span-ish official sources, as usual, and it is pronounced by friends of the Cubans who are always well informed, to be utterly false. They add that as long as General Weyler is in Cuba no proposition looking to a peaceful settement of the Cuban question will be noted to by the insure Cent leaders, although it is known that a strong party of the insurgents now un-der arms is in favor of accepting a fair home rule proposition as soon as the de-tails can be determined upon.

The war party, however, prevails over the "peace party," the former being strengthened, it is said, by assurances received from the New Rork junta that if the Spaniards do not succeed in crushing the rebellion or bringing about a settlement of the questions at issue before next autumn, the United States will interfere and bring about the establishment

Article 4. Every individual who, by virtue of this capitulation may wish to depart from the island shall be permitting the stand of the Spanish governbe an honest man and a general who can be counted upon to terminate the war in short order. The advent of Goment shall provide him with the means therefor without passing through any town or settlement if he desires.

Article 5. The capitulation of each force shall take place in an uninhabited spot where before hand the arms and the arms and the arms and the spot where before hand the arms and the force shall take place in an uninhabited spot where before hand the arms and the force shall take place in an uninhabited spot where before hand the arms and the countries of the force of the straw which will turn the spot where before hand the arms and the countries of the countries of the force unitions of war shall be deposited.

Article 6. In order to further the acposition of giving way in this matter to the condemnation which the captain gen-eral and his methods have met with in

The statement was given out at the ardo Garcia, well known insurgent Article 7. This compact with the legal commanders, died recently from wounds

A MONSTER PETITION.

Cix Bundred Thousand Signed in Favo of the Recognition of Cuba's Independence.

New York, Jan. 13.-When the resolution calling for the recognition of the inde-pendence of Cuba is before the house and Mayor, president of the American Friends of Cuba, will present a monster petition in favor of the resolution. Sixty thous-and petitions were sent out, nearly all of which have been returned with more than 600,000 signatures. Among the signatures may be mentioned those of nearly all the members of the legislatures of nearly every state in the union.

It has also been signed by the board of

aldermep of this city. The petitions will be wound on a roller or wheel which has been made for the purpose so it may be readily drawn out and the names counted. It is designed like the pilot wheel of

Short Spasm of Reform Jefferson City, Mo., Jan. 13.—The state senate today reconsidered a resolution adopted yesterday providing for a com mittee to investigate alleged political corruption in Kansas City and the matter was referred to the committee on cor-porations. ABOUT ALL SORTS OF THINGS

Another Cripple Creek County Bill Introduced by Senator Wheeler -- More of El Paso Taken and Less of the Other Counties -- Committee Appointments Announced in the House.

Special to The Gazette.

Denver, Jan. 13.-Seventy-two bills were atroduced in the legislature today. Their hes. It was the first time that any oils had been introduced into the house and the members made up for lost time by the great number of measures brought The announcement of commit tee appointments occupied the morning session in the lower branch. The members of the McKinley-Populist-National Silver combine getting all the chair-

The Cuban war came up for more discussion in the house, and the Leadville strike was discussed to some extent in both branches. Among the new measures introduced was one by Senator Wheeler of Pitkin county, providing for the creation of the county of Sylvanite, constituting the Cripple Creek district with a somewhat more restricted territory than that provided in Senator Kennedy's Golden county bill.

Senate Afternoon Session

Senate Afternoon Session. Senate Afternoon Session.

In the senate this afternoon only a chort session was held, lesting about an hour. Much of that time was occupied in the discussion of minor resolutions. The most important one introduced was by Senator Bromley of Arapahoe, providing for an investigation into the causes of the labor disturbances at Leadville, and the abor disturbances at Leadville, and the deans by which peace and quiet can best e brought about. This resolution is in-ended as a substitute for the one which was tabled yesterday, and is far broader and more sweeping in its nature, inas-much as it seeks to go into the causes of the strike and the feelings which pre-vent its settlement. The resolution makes

no mention specifically of the presence of the militia at Leadville. When the senate adjourned it was to meet at 10 o'clock tomorrow. House Afternoon Session. In the house this afternoon 63 bills were atroduced, the roll being called and each nember responded with the different measures he wished to present. The bills brought forward cover every possible shase of legislation, many of them proiding for important appropriations.

Among the most important bills were

Mr. Allen-To repeal the office of state ame warden.
Mr. Cresswell—To amend the act exempting wages from levy. This measure provides that 60 per cent, of the acone of wage earners with families attrobable.

Cook—To submit to the voters of Colorado a call for a constitutional conven-

Crowley-For the construction of the Crowley-For a state railroad commis-Engley—To create free public employment offices in cities of 5000 inhabitants

Engley-To provide free insurance for Engley—10 provide free insurance to all railroad employes whose occupation compels them to travel constantly, and in the case of death to pay their estate \$5000, in total disability \$2000, the fund to maintained by taxation of railrods.

Engley-To regulate pay-days of cor-Engley-To protect employes and guarthe right to belong to labor organi-

Hume Lewis-To establish and maintain

paying of employes with orders on the company's store.

O'Neill—To provide for the election of verseers in counties of the first, second

Philp-Concerning trusts; defining and king penalties. Rowe-Prohibiting the selling or giving f cigarettes.

Stewart-Appropriating \$80,000 for the tate reform school.

Stewart-Providing that convicts chall be employed, and that the money earned by them in excess of the cost of their maintenance shall be given to their fam-lies; in cases where they have no famiies to be given to the prisoner when re-Sechrist-Prohibiting judges from prac-

ising law. Whitney (Leadville)—For the constitu-ion of boards of arbitration to facilitate settlement of industrial disputes. veral bills were introduced relative to he Denver charter, and one appropriat ng a part of the money necessary for the

For Sylvanite County. Senator Wheeler's bill for the creation of Sylvanite county provides for a much smaller area than the bill presented by Senator Kennedy under the title of Gol den county. The boundaries as fixed by today's bill begin at the northeast corne of Fremont county, run north sever miles, west seven miles, north twentythree miles to Douglas county, thence west on the southern line of Douglas county fourteen miles to the northwest corner of the present El Paso county thence south thirty miles along the east ern bounday of Park county to the south-east corner of Park county, thence east four miles, thence south four miles thence east sixteen miles, thence north four miles to the place of beginning. This takes nothing from Park county and only a comparatively short strip, four miles vide, from Fremont county. It takes wide, from Fremont county. It takes a trifle more from El Paso county than the Kennedy bill. The latter bill also tool two townships from Jefferson county The Wheeler bill is no doubt the result of the opposition of Park and Fremont counties to give up any of their territory to Cripple Creek. In the main, the provisions for the creation of the new county are the same as provided in the Kenned, bill. There are to be, however, only fou idicial district, and to be a part of th Third senatorial district with El P

COUNTY DIVISION.

Senator Kennedy Interviewed in Regard to the Proposition.

Special to The Gazette: Denver, Colo., Jan. 13.-In the senate it is very generally accepted that there will be a very hot fight over the county divi-sion bills. Senator Kennedy seemed Pawnees Wanted Cash.

Guernal Surprised today over the introduction of a second bill for the organization of the new county in opposition to the measure which he introduced on Monday. He had not been consulted regarding it, and he first learned of it. ing it, and he first learned of it when low them \$50,000 immediately.

he heard the title of the bill read. In nversation this evening Senator Ken-dy said that he was not determined at the boundaries of the proposed new county should be exactly as he had made in his bill, but he did think that the lines of the new county should be approxi-mately as he had named them. His bill mately as he had named them. His bill makes the county \$40 square miles, and Senator Wheeler's bill \$25 square miles.

Senator Kennedy thought that the county should be of respectable proportions, and he did not think that El Paso county would be seriously injured by the passage of the bill; that it would still have \$11,000,000 of taxable property instead of \$15,000,000, as now; that the strongest opposition would probably come from Park and Fremont counties, which he thought could be easily arranged; that in framing his bill he had used his judgment as to the including of the towns in framing his bill he had used his judgment as to the including of the towns that usually came to Cripple Creek for their commercial dealings. As to the name Golden, he had been desirous of selecting a name that would have a distinct meaning to the people of the East, and that so many Eastern people inferred that the word Sylvanite, the other name proposed, meant silver, and not gold. The advocates of the Wheeler bill claim that their bill will give rise to no claim that their bill will give rise to no opposition whatever on the part of Park and Fremont counties. It takes less from Fremont than the Kennedy bill, and real-ly only includes that part of Fremont

which is directly contiguous to the city of Victor.

Your correspondent also saw Senator
McNeeley, but he declined to state what his stand would be with reference to the two bills until after due consideration. Senator Kennedy also said that as regards the opposition from Park county on account of the lessening of their income from railroad mileage that he was willing to so amend his bill that this object tion would be done away with.

Special to The Gazette.
Victor, Colo., Jan. 13.—A statement published in a local paper this morning to the effect that W. S. Stratton had made a proposal to the Miners' union to recognize the Federation, in exchange for the union using its influence against county division, has called forth a vigorous denial, which is signed by the offi-cers of the Victor union.

A SHORT CROP.

Australian Wheat Exports Will be Re duced More Than One-Half and Americans Will Benefit.

Washington, Jan. 13 .- The wheat crop of Australia for the coming harvest is short. So says United States Consul Bell at Sydney, in a report to the state partment, and then he supplies details

as follows:
The crop year will end in April next
for wheat. The crop falls so short of
the usual crop as to reduce Australia
from her position as the sixth wheat exporting country on the globe to about the eleventh place. From being an exporter of about 12,000,000 bushels per year, Australia will have to import not less than 5,000,000 bushels to supply the deficiency from short crops. This misfortune to Australia will be of considerable benefit to our people, not only because the United States will supply the chief part of the 5,000,000 deficiency, but because she will 5,000,000 deficiency, but because she will also supply a large part of the world's

OLNEY TURNED DOWN.

His Request Refused by the Senate in Executive Session.

Washington, Jan. 13 .- Secretary Olney was turned down by the senate in execu-tive session today in his effort to have the vote on the extradition treaties between this country and the Orange Free State and the Argentine republic reconsidered, for the purpose of withdrawing ments. He was beaten at every point. At the conclusion of two hours' session the senate resolved to stand by its original decision not to accept the treaties without amendment protecting American citizens. retary had requested in a long letter that the senate amendments making these treaties conform to custom in these matters by making it optional with this gov-ernment whether its own citizens should be extradited from this country should

withdrawn Almost the entire discussion today was given to speeches by members of the committee on foreign relations, showing why there should be no change in the custom which had, the speaker said, worked well for over a hundred years. Speeches were made by Senators Morgan, Davis and others, and it was stated that the mmittee stood as a unit in opposition innovation proposed by the secretary of state. At the conclusion of these speeches the

senate decided without division to allow its previous decision not to ratify the treaties without amend, to stand, thus

Assembles at Indianapolis and Gets Down to Work.

A PLAN FOR A COMMISSION

Maintenance of the Gold Startlard and the Withdrawal of the Greenbacks Declared to Be Essential -- Action Will be Asked from the Next Congress. Congressman Fowler's Speech.

Indianapolis, Jan. 13.-At 10:30 o'clock oday the first morning session of the nonetary conference was called to order. The convention has been conspicuous for

gations of the government, a policy that is clarly demanded by our own experience and approved by that of all the rest of the world. This is the only practical solution, and it is our onl remedy." Mr. Fowler's Speech.

Mr. Fowler's speech.

Mr. Fowler said that the late campaign involved the personal integrity of every man living under the American flag. Whether he desired to do so or not, a different termination of that issue would have compelled him to defraud his creditors.

Continuing, Mr. Fowler said: "Fortunately for the honor of the nation, fortunately for the prosperity of the people, the Republican party at St. Louis declared for the gold standard, fortunately for the Republican party there proved to be in the Democratic party's grand army of patriots who loved the honor of their ountry better than party and supported

McKinley.

"If the United States is to continue the paying functions of a bank it must with-out delay open its doors for deposits and discount the paper of our merchants, thereby acquiring the power of protecting serves, and establishing such rates the principles adopted.

Mr. Fowler urged the substitution of his resolution. He said the complicated its reserves, and establishing such rates of interest as will prevent the export of

It was after 4 o'clock when the monetary conference reassembled this afternoon. After the convention had been called to order, brief speeches were made by Mr. Adams of Massachusetts, Mr. Wilson of Kentucky, and Chairman Hanna. In the conclusion of his talk Mr. Harna called upon lar. Ingalls of Cinicipality to read the vest of the conviction of the conviction of the convention of the conv climati to read the report of the commit-tee on resolutions. The report follows: Gentlemen of the monetary convention: Your committee make the following re-

This convention declares that it has become absolutely necessary that a consis-tent, straightforward and deliberately-planned monetary system shall be inau-gurated, the fundamental basis of which

surated, the fundamental basis of which shold be:

First, that the present gold standard should be maintained.

Second, that steps should be taken to insure the ultimate retirement of all classes of United States notes by a gradular standard stan classes of United States notes by a gradual and steady process so as to avoid in-jurious contraction of the currency or disturbances of the business in this, our country, and until such retirement pro-vision has been made for a separation of the revenue and note-issue departments of the treasury.

Third, that a banking system be provid-

ed which should furnish credit facilities to every portion of the country and elastic circulation, especially with a view of turing such a distribution of the loanable capital of the country as will tend to equalize the rates of interest in all parts thereof.

For the purpose of effectively promoting the above object, be it Resolved, that fifteen members of this onvention be appointed by the chairman act as an executive committee while with the The execitive committee shall have power to inof said committee.

Executive Powers. The executive committee shall have spetarily made for all purposes; shall have

future meeting of the convention. this executive committee to endeavor to procure at the special session of conress which it is understood will be called appointment of a monetary committee by the president to consider the entire question and to report to congress at the carliest day possible. Or, failing to se-cure the above legislation, they are hereby authorized and empowered to select a committee of eleven members, according to the rules and plans set forth in suggestions submitted to the convention by Mr. Hanna of Indianapolis, as follows:

Mr. Hanna's Plan. Article 1—The committee shall consist of eleven members, to be named by the legislative committee appointed by this convention. The legislative committee shall have power to fill vacancies in the committee as they may occur.

Article 2—The first meeting of the com-

mission shall be held at a time and place to be designated by the executive com-mittee of this convention on a call to be issued therefor; and at such meeting the convention shall organize by the elec-tion of such officers and the adoption f such rules and by-laws for its own shall be governed by such rules and

make a thorough investigation monetary affairs and needs of this country, in all relations and aspects, and to make appropriate suggestions as to any

Resolved, That all resolutions and com-

munications as to methods of currency reform which have been presented to this convention be referred to such commit-

Mr. Walker Disapproves. After the reading, Mr. Walker, of Massachusetts, chairman of the house

The convention has been conspicuous for the absence of unnecessary frills. Business has been transacted. Prosy speeches have not been tolerated. The delegates this mornig were seated by states, a much better arrangement than that of the day before. The chief event of the morning session was the speech of Congressman Fowler of the banking and currency committee, in which he said:

"There are three ways of escaping national bankruptcy at some time, if the present plan is to be continued. First, we could assume full functions of banking a step which is altogether out of the question; second, we can tax the people whenever the emergency arises, which must prove, as it always has, a most expensive, burdensome policy, and one to which the people will not long submit, third, the retirement of the demand obligations of the government, a policy that is clarify demanded by our own expensive. been provided. This convention was called. What have you done? I don't believe there is a member of congress here nor in Washington who believes that by the machinery you have designed here anything can be accomplished until the Fifty-sixth congress. I ask then if you wish to face the people again in the financial condition that has been revealed to them.

In closing, Mr. Walker said:
"I did propose that you say something about the methods of securing legislation if there had been the slightest hope or encouragement from this convention, but I want to say that you have damned the whole reform, damned here to-day in the weakness of human nature, and there is no salvation."

A Substitute Proposed. Congressman Fowler offered the folowing as an amendment to the commit-

Resolved, That the permanent executive committee of this body shall be constituted by the selection of one mem-ber from each of the states represented and that the selection of such member shall be by the delegates of the respect-ive states; and that said committee shall confer and co-operate with the banking and currency committee of the house and financial committee of the senate to se-cure the passage of a bill carrying out

machinery proposed by the committee on resolutions would cause the noble pur-pose of the convention to perish through dry rot. He urged the immediate appointment of a committee to wait upon congress. A spirited debate followed.

Mr. Hanna, of Indianapolis, said there

was no question that if the committee performed its work well it could have a measure ready to Levent to concress next winter. Congressman Fowler rupfed to state that as the unanimous feeling seemed to be against his substi-tute, he would withdraw it. A burst of applause greeted his an-

councement. Chairman Patterson then read the original resolutions and the convention, with a hurrah, adopted them as a whole.
Mr. Woodward, of Washington, tendered the Board of Trade rooms in the

Gibson, and is a niece of the late Henry Gibson. She possesses a large fortune, variously estimated at from \$250,000 to \$500,000. Mr. Smith is also very wealthy. The Chemical Schedule. Washington, Jan. 13.—The republican members of the ways and means com-mittee devoted three hours to-night to adjusting the chemical schedule of the

tariff bill. This is one of the most com

plicated schedules of the tariff bill, and the only result of the session was to fix the rates on some of the unimportant Fire at King Fisher.

St. Louis, Jan. 13.—A special from Wichita, Kans., says a destructive fire is raging in the city of Kingfisher, O. T., tonight, and already the loss of over nine buildings valued at between \$30,000 and \$40,000 is reported. The fire is believed to be of incendiary origin.

At midnight the fire was practically under control. The loss was then estimated at over \$50,000, but daylight may show it to be in excess of this amount.

show it to be in excess of this amount London, Jan. 14.—A Chronicle dispatch from Rome says that Greece has ordered 100,000 rifles from an Austrian firm.

The Leader of McKinley's Cabinet Has Been Chosen.

POSITIVE NEWS FROM CANTON

The Veteran Statesman Has Accepted the Position Which Has Been Offered to Him by President-elect McKinley. John Sherman May Free Cuba and Annex the Hawaiian Islands.

Washington, Jan. 13.—The Associated Press is able to announce tonight posi-tively that Mr. McKinley has tendered the state portfolio to Senator John Sher man, of Ohio, and that the distinguisher Buckeye statesman has accepted and will be the premier of the incoming adminis-

Speculation as to who would be the Onlo member in the cabinet of the president-elect has persistently hovered about the names of Senator Sherman and Hon. Mark Hanna, the chairman of the national committee, the former being mentioned in connection with the state and treasury portfolio, and the latter in con-nection with the head of the treasury and postoffice departments.

Hanna for Senator.

It has been known for some time, however, that Mr. Hanna's ambition was a seat in the senate. The retirement of Ohio's veteran senator to accept the po-sition of premier in McKinley's cabinet will probably open the way to a gratifi-cation of this ambition. Mr. Sherman's term as senator would expire two years hence, March 4, 1899. The vacancy creat-ed by Mr. Sherman's retirement would be filled by appointment by Governor Bushnell, pending the assembling of the Ohio legislature in January 1898. It is Ohio legislature in January, 1898. It is understood that the old war in Ohio be-tween the Sherman and Foraker factions has ceased and that complete harmony

has been restored among the leaders.
This carries with it the strong impression that Governor Bushnell will appoint Mr. Hanna to the vacancy in the senate when Mr. Sherman steps out to assume the responsibilities connected with the head of the department of state. Senator Sherman declines to make any statement relative to the important announcement which is made to-night, but this in nowise militates against its au-

thenticity.

The definite announcement that Mr. McKinley had selected a keystone for the arch upon which his administration will rest recalls the fact that Mr. Cleveland's selection of Judge Walter Q. Gresham for secretary of state of the present administration was the first given to the public.

A Brilliant Public Career. As secretary of state Mr. Sherman will round out a brilliant public career which began 42 years ago in the house of representatives, and he will bring to that exalted post a ripe experience which covered four terms in the lower branch of congress and six terms in the upper nouse, besides four years at the head of treasury department under Mr.

Hayes' administration.
It is significant in connection (%2 th' knowledge that Mr. Sherman will be secretary of state, that Gen. Russel Alger, of Michigan, while here a few days ago had a conference with the Ohio senator, at which it is understood all their past differences were adjusted and reconciled This strengthens the belief that General Alger is able to be a member of Mr. Mc-Kinley's cabinet, the post he is to fill be-

The President Awaits Action by the Reorganization Committees.

THEY WILL BUY THE ROADS IN

Government Claim Will be Fully Met Union Pacific Indebtedness on Account of Branch Lines--The Reorganization Plan Outlined -- A Syndicate Will Fur nish the Money.

Chicago, Jan. 13.—The Post's Washing-

It is understood that the president i waiting definite and specific overtures from the Union Pacific re-organization committee before issuing a proclamation to initiate foreclosure proceedings against the road. The committee gave informal notice some time ago that it was preopared to guarantee that a price would be paid for the Union Pacific system equal into several million dollars more than the principal of the subsidy bonds.

No such assurances were received from Huntington, however, as to the Central Pacific, but it is now said he is anxious to come in on about the same terms as the Union Pacific. Whether he does or not is said to be a matter of indifferas the Vanderbilts and others as sociated with the Union Pacific bond-holders will at the proper time be prepared to step-into his shoes and bid for

Union Pacific Reorganization. New York, Jan. 13 .- The Mail and Ex

ress says:
"Now that the fate of the Pacific funding bill is settled, Wall street is waiting to see what action the president will take to preserve the equity of the government in the Union Pacific system. No new move was made to-day by the interests which propose to re-organize the ests which propose to re-organize th

was taken for granted that Presicarry out his intention expressed in his government's mortgage. If he does, i will not result in any decisive change in the plan of re-organization as erroneously supposed in many quarters to-day. The assessment of \$15 per share was contemplated in the plan, whatever the ac-tion of congress. This is the sum still fixed and the committee has only to wait for the president's proclamation turning the matter of foreclosure over to the at-

An up-set price will be fixed, abou 35,000,000, the debt due to the government, and the system will be bought in by the committee, as it is entirely improbable that any other bids will be made. The underwriters of the company have a fund of \$40,000,000, the intention being to bid face value for the debt. In bonds is set apart for settlement with the government. Interests identified with the Central Pacific had little to say about their intentions. It is said a plan base

It would require the formation of syndicate to provide the money for set-tling with the government with or with-out foreclosure. The full amount of the out foreclosure. The full amount of the debt to the government is to be provided in the case of the Central Pacific is about \$57,000,000, but a large part of this is interest over-due and the first requiredebt to the government is to be provided in the case of the Central Pacific is about \$57,000,000, but a large part of this is interest over-due and the first requirement would be much less as in the case of the principles already annunciated by the principles

of the Union Pacific, where the debt with interest amounts to about \$53,000,000. THE DEBT IT OWES.

Union Pacific Obligations Undertaken to Construct Branch Lines.

Washington, Jan. 13.-Senator Gear has son, acting for the receivers of the Unior Pacific Railroad company, giving detailed information in regard to the in-debtedness of the Union Pacific company hich, at Senator Gear's request, was or dered printed by the senate today.

Mr. Anderson says that the obligations of the company were incurred prior to 891, principally in the construction of branch lines, the Union Pacific receiving stocks and bonds in return for the aid furnished by the parent company. He vs the stocks of these companies thus eld amount to \$62,646,393, but that of ese the only ones which have any substantial value are the Montana Railway company, the Occidental and Oriental S. company, the Oregon Short Line Rail ay company, and Pacific Express com-

their value depends largely upon the Julesburg cut-off in Colorado, and that the hostile action by the Union Pacific against the Denver & Gulf road might very largely reduce this asset.

A. & P. Foreclosure Sale.

Los Angeles, Cal., Jan. 13.—Referring to the sale of the Atlantic & Pacific railroad inder for closure of mortgage which has een frequently reported to be set for anuary 17, C. N. Sterry, the solicitor of the road, today said:

the road, today said:

"The sale of the road has not yet even been ordered. The date, January 17, is one after which notice may be given of the sale under the order of the court. This will be done at the request of the solicitors of the United States Trust company, who hold the morrage. The nearly oany, who hold the mortgage. The noice, when issued, must be published for our weeks in Albuquerque, San Fransco and Los Angeles.'

The result of the sale under foreclosure s not a matter of much speculation in ailroad circles, where it is generally be-ieved the road will be bid in by the stock and bondholders of the Atchison.

COXEY'S PARTY.

A Declaration of Principles Formulated by the St. Louis Convention.

St. Louis, Jan. 13.—After a two-day's session, the conference called by "General" Jacob S. Coxey to launch a new arty adjourned to-night. As a result of heir deliberations a long address or eclaration of principles by the middlef-the-road People's Party men was is sued and an organizing committee so-alled selected, composed of J. S. Coxey, chairman; Carl Brown, secretary; John J. Streeter, treasurer, and J. B. Osborne,

A motion was adopted instructing that ommittee to call on the employed of very city in the Uninon to hold a moss neeting on Washington's birthday and ask for work, and parade each week thereafter until work is obtained. The declaration of principles which is a lengthy paper, is addressed "To the people of the United States;" deplores

the action of the leaders of the Populist party "in annexing it to the Democratic organizing" and declares the prosperity promised by the Republican party cannot be realized. It then says: "Considering these lamentable facts, we deem it our duty to appeal to all friends of reform and lovers of justice to choose del

the conference. The conference adjourn-ed to meet in Memphis, Tenn., February 22, at the same time as the Reform Press

COMMENTS ON THE TREATY.

The Anglo-American treaty seems likely to revive the old popular movement against militarism. Never were the news apers more unanimous in judging great international event. The opinions they express are an echo of a widespread feeling against the bloated armaments f Europe and of a hope of a dawn of better era.

The correspondent of the Times at Ber The correspondent of the Times at Berini remarks upon the treaty of the satisfaction displayed by the papers in Berlin, which seize upon the signing of the treaty to point out that it serves the interest of the Anglo-Saxon, claiming a redominance and spreading itself to uarters of the globe. According to thame correspondent the Clerical Kolan sche Volks Zeitung rejoices in the even

and says of it:
"This success is calculated to lead to thers. If the aims of the Pan-American congress in 1889 should be authorized guarantees will be assured for the per manent peace of 120,000,000 inhabitants of North and South America and of numer ous other English-speaking people.

The Volks Zeitung mentions the efforts f three Catholic cardinals, namely, the of Westminster in favor of Anglo-Amer an arbitration

The Daily News says:
"Mr. Arthur Balfour, first lord of the treasury; Mr. Herbert Asquith, Lord Rothchild and Lord Lonsdale were among the guests at Mr. Henry White's dinner Monday in honor of Senator Wolcott and

MAJOR M'KINLEY,

Sat for His Picture and Received Callers Yesterday.

Canton, O., Jan. 13.—Major McKinley delded a portion of this morning to artist ylelded a portion of this morning to artist Chartran, who is making a portrait of the president- elect for the Carnegle library of Pittsburg. Major McKinley received a visit from Col. John Howard Biddle Porter of Philadelphia. Colonel Porter is not here on any political mission but to extend an invitation from the state of Pennsylvania and the city of Philadelphia to attend the unveiling of Washington monument which stands at Washington monument which stands a

the entrance of Fairmount park.

There were many callers at the McKinley home today, including several congressmen and other prominent party men but so far as can be learned the visits were of a social nature and have no polit-

Evidence of Progress.

Vienna, Jan. 13.—The Australian news-papers to-day pay tribute to the "pro-gress of civilization attested by the ar-bitration treaty" arranged between the United States and England. The Fremenblatt says on the subject:
"It is to be noted as most gratifying and important that the year after a

sharp manifestation of Anglo-American differences a treaty of such a peaceful tendency has been framed."

The Neu Freie Presse says that the treaty will find a joyful echo throughout

A New Campaign to Be Started Against Train Robbers.

NO MORE FOOLING ALLOWED

Cars to be Strongly Fortified, Messengers to be Armed in Latest Style Heavy Rewards Offered for Dead and Wounded Robbers, and Railway and Express Employes Will Shoot to Kill.

Chicago, Jan. 13 .- Express and railroad nanagers have sent to messengers and rain guards orders to shoot to kill in ach and every case where robbery is early the intent of any one who intereres with the running of a train and ash reward of \$500 is held out for eac obber shot, but not killed, and \$1,000 for each who is made to bite the dust. A general changing of shooting irons ias been in consideration for some time

The most improved patterns of repeating rifles and revolvers have taken the place of arms of older styles. Cars are also poing built with an eye to resistance against the onslaught of train robbers. Floors and sides are reinforced with iron lates and doors made heavy with fasten

UTITED STATES SENATE.

Mr. Bacon's Speech on Cuban Recogni tion was the Chief Event.

Washington, Jan. 13.—The open session of the senate was much curtailed by an executive session lasting two hours. Be-ore this the balance of the day was iven to Mr. Bacon of Georgia in a speech lding the power of congress to recgnize new governments. The senator in-isted that arrogant assertion of one man ower threatened to make the president's ower greater than that exerted by any nonarch. An agreement was reached for vote on the free homestead bill at 4 m. tomorrow.

A resolution of Mr. Stewart of Nevada was agreed to, instructing the committee n mines to report on the best means of securing complete statistics of the output of American mines. The house bill was passed enabling the town of Flagstaff, Ariz, to issue bonds to the amount of \$65,000 for a water system.

Mr. Allen of Nebraska asked permission to have the Compressional Precedure.

have the Congressional Record cor-ected in the sub-heads to one of his reent speeches by striking out the sub-neads "Success of Mark Hanna" and

"Is there any objection to striking out the success and failure of Mark Hanna?" asked Mr. Hill of New York, who was n the chair. There being no objection, he correction was made.

Mr. Bacon (Dem.) Georgia in his speech n support of the Mills resolution for the ecognition of Cuban independence, diected his argument to the question of veen congress and the executive branch, exercise the prerogative of recognition.

Mr. Bacon heid that the law making power was the most complete representative of a country's sovereignty, and that as recognition was a sovereign active properly belonged to the law-making branch. The views of Secretary Seward upholding this principle were cited. The

resident was in granting pardons. The ecognition of foreign governments here-ofore given by the president had be-ome effective, Mr. Bacon said, through he silent acquiescence of the law-mak

sult of this claim of exclusive power in the president was to make him greater in arbitrary power than any monarch on orth. It would permit him in case o a trifling uprising in Manitoba, to recognize a handful of people as constituting an actual government; while on the othe and he could withhold recognition from Cuba, although Cuban independence had ecome an accomplished fact. But the enator maintained that no such power was given by the constitution to the president. In the most public manner, Mr. Bacon said, the secretary of state had denied the power of congress and had announced to the world that if congress adopted the Cuban resolution it would be vetoed by the president. It was practically an announcement to congres that its resolution if acted upon, would be thrown back in its face. Never be-fore was such a defiance of congress preented, and if it was to stand withou protest, there would be at least one con-picuous precedent for the assertion of exclusive executive power.

At the conclusion of Mr. .Bacon's speech, the senate at 5:10 p. m. ad-

THE NATIONAL HOUSE.

Discussion of Original Package Oleo Bill

Occupied the Time. Washington, Jan 13 .- After a very dull day devoted to passing bills of minor im-portance, the house plunged into a warm controversy over a bill to make oleomar-garine and otehr imitations of dairy products subject to the laws of the states into which they are transported. The author of the bill, Mr. Grant, of Ver mont, led the fight for it, and it was op-posed by the Democrats and several Re publicans, chiefly on the ground that i would give the states power to prohibi the use of such products. The house got into a parliamentary struggle over the measure on account o the determination of Mr. Cameron (Rep linois to secure some time for it deration, and adjourned leaving One of the senate bills passed was to

withdraw from the supreme court crimi-nal cases other than capital, and leave jurisdiction over them to the courts of

ARMY REORGANIZATION.

A Bill Reported in Accordance With Secretary Lamont's Report.

Washington, Jan. 13.-Representativ Hill's bill for the re-organization for the line of the army which is partially based on Secretary Lamont's recommendations, has been under discussion by the house military committee for several days, and today the committee decided to report is to the house without change. The scheme to organize the army into ten reg dian scouts and the hospital corps, to 30 first lieutenants, twelve second lieutenants, one sergeant-major, one quartermaster sergeant, one chief musician, two he said, had been sharply drawn by the principal musicians and twelve batteries public utterances of the secretary of Two batteries of each regiment may be state, denying the right of congress to organized as field artillery with additional

Sensational Trial at Madrid. Madrid, Jan. 13 .- The Marquis of Cabriana, who became a popular hero in pringing charges of corruption against aunicipal officers, and who was at one ne attacked by roughs in Madrid, as a hould be sentenced to two years

Sensational evidence was developed at the trial. The Conde San Bernardino testified that he had refused the mayorc-alty at Madrid owing to the fact that an examination of the facts showed that there had been gross dishonesty in con-acction with the Columbus feter.

London, Jan. 13.—A dispatch to the Post from Calcutta says: It is said that the food stocks are adequate at Madras, and Amorlein that present stocks will suffice for a year in Bombay, and that there is sufficient for immediate needs in

the Punjab and Northwest and Central Railway rates on grain, it is further stated, have been reduced and adequate arrangements are now completed for supplying the relief camps.

Chickasaw Settlers Object.

Ardmore, Okla., Jan. 13.—Six hundred settlers, representing every section of the Chickasaw nation, assembled in convention here and adopted resolutions protesting against the Choctaw treaty negotiated by the Dawes commission. The terms of the treaty, it is claimed, make the settlers intruders and confiscate the improvements made by them on Indian lands. S. M. Talbert, a farmer, was delegated to go to Washington and present the claims of the settlers before Secretary Francis.

Saran Bernhardt's efforts to obtain a Legion of Honor decoration seem to have fired Adelina Patti with a similar ambition. Whether either of these distinguished women will ever get it seems to be much in doubt.

ARTISTIC FURNISHINGS. Lints for Brides and for Wives Who

HINA globes, spherical in shape, and in plain colors, Delft, Dresden or Japanese decoration, are very much never than the unbyelle than the umbrella shades of silk, and all the latest ones of the silk ones was probably be-cause they were so

ed so quickly. The elaborate brass trimmings used for handles of drawers are quite passe, and severe simplicity is the word now. Old-time knobs of cut glass have been re

A new idea, producing a very hand-some effect in mantel decoration, is to have it of peacock feathers. One feather after another is sewed alternately high and low upon a piece of silk, close enough together to hide the foundation, and the upper edge is finished by a lapped border of single feathers run ground it.

There is a great fad at the present time for having a border of plates in the dining-room, and a plate rack is a necessity of the modern dining hall. Old blue and white ones are considered especially desirable.

Stamped leather squares for dining chairs can be purchased for a comparatively small sum, and can be used by a home upholsterer with good effect in combination with the fancy nails used for putting them on. They will modernize an old set of chairs nicely.

The Delft craze has been largely overdone, and is slowly but surely going out, so if you have not clready any furnishings in this style don't purchase them now.

Empress of Germany.

The above is reproduced from a photograph taken only a few weeks ago.

CHAT OF THE STREET.

Already the prospective summer girl of '97 is prowling about the cho's seeking what she may devour in the way of diaphanous, filmy materials, by means of which she will speedily reduce her prey to the last degree of subjection!

And lovely, indeed, are the spring and summer goods now on exhibition, and the varieties are legion. First, there are the organdles, masses of riotous bloom and coloring, in which, however, the stately orchids, in their wonderful mauve shades, are the newest and, perhaps, the most stylish

Next in beauty come the dimitics, which are even prettier than usual; Stripes, in clear blue and white, and green and white, seem to prevail, but many of the solid colors are broken only by a group of the fine white cords which ere the distinctive feature of dimities. are the distinctive feature of dimities.

Chambrey chiffon is something decidedly new. As its name indicates, it is ompromise between the unserviceable chiffon and the too-heavy chambrey, and is an ideal material for summer gowns for evening wear.

A charming as well as helpful feature of the summer goods is the lace-edged bands which match in color or design all the new materials. Thus a pink beflowered chambrey chiffon is matched by a three-inch band of the same, edged with white lace which is fulled around. a three-inch band of the same, edged with white lace, which is fulled around an embroidered scallop. These will be used for the skirt trimming, which, the authorities say, is inevitable for summer gowns, and for the trimming of the bodice, as well.

The useful cheviots and zephyr cloths fairly rival the finer materials in beauty of coloring. Check and pin-stripes are the newest, and, as these serviceable fabrics have sufficient body not to require a silk foundation, they will commend themselves to the woman who has not the purse of Fortunatus.

As for the foulard silks, they are simply unspeakably lovely! Blues, greens and lavenders form the background for an infinite variety of designs, such as the ever-popular polka-dot, ranging in all sizes; the stylish zig-gag patterns, the fine stripes and the pretty concention rings.

AMUSING COMMENTS.

Some of the comment of the foreign papers upon the new arbitration treaty between the United States and Great Britain is very amusing and some of it is also interesting. Very many of the papers seem thoroughly at a loss to understand the nature or the purpose of the treaty, and it is one of this class which refers to it as the latest attempt to curb the natural savagery of the American fresh, pure air. Other existing causes, barbarians. Others naturally suspect a sinister meaning and look beneath the surface to see more in the way of alliance and secret understanding against other European powers than was ever dreamed of by the parties to the treaty.

There appear to be two very distinct opinions in regard to the influence which will be exerted by the new treaty upon other powers. Some papers, like the Norddeutsche Allgemeine Zeitung, insist that the conditions of the relations of the continental European powers are such that there is not the slightest likelihood of their ever being drawn into such an agreement. Other well informed persons. such for instance as the Paris correspondent of the London News, believes that the European nations will be strongly influenced, and the gentleman just mentioned glects, and intending visitors are informed is strongly of the opinion that France in particular is ripe for a similar arrangement with both England and the United

As a matter of fact it would probably be best to take neither too optimistic nor too pessimistic a view upon this subject. The permanent arbitration arrangement between Great Britain and the United States is confessedly temporary and experimental. The adoption of such a compact must naturally awaken a lively interest throughout the civilized world, and the operation of the plan will be watched with gravest interest. But we fancy that most of the other nations will be disposed to watch the success of the experiment already inaugurated before committing themselves to the adoption of a similar

THE GOVERNOR'S INAUGURAL.

Governor Adams' inaugural address was an unusually able and sensible state paper. There were a large number of recommendations that the legislature would do well to heed, and the address is well ters now stand, the L. A. W. is not an worth reading. One of the points which amateur organization, and the representais deserving of special attention is that in which he refers to the ill effects of the "log rolling" plan in legislation. This plan came into celebrity in connection w.th the river and harbor bill in congress, and consists in one member securing votes for a particular section in which he is interested by promising his the worst steals and jobs have been perpetrated. Similarly in the state legislature it frequently happens that the fate of a measure depends not at all on its merit-whether it will be a good law or not-but upon the number of votes which its author can buy to its support by the promise of his own vote for other personal schemes. As Governor Adams points out, such a plan of securing votes is bribery and nothing else, and it is worth remembering that this particular form of bribery is exactly described and prohibited by the laws of the state. The indictment and conviction of a member of the legislature for this sort of an offence would be a rough experience, to be sure, but the lesson is one that should be taught and that effectively. We trust that the timely warning of the governor will be sufficient to secure the needed reform in this particular, but if not, then more stringent measures should surely be

CHANCE FOR AN INVENTOR.

It would seem that the express car robber is far in advance of the preventive equipment used by modern railways. The highwayman can wih ease secure entrance into the express cars now running on any of the local or transcontinental lines in this country.

Recent daring robberies have been the means of creating considerable agitation as to an invention which would protect money and valuables, transferred from one section of the country to another. but though numerous plans have been submitted to the railroad and express companies, not one of them has been found feasible.

It seems strange that the czar of all Russia can ride in a bomb-proof train. and that Yankee ingenuity has not, as yet, solved the problem of the highwayman-proof express car.

DEBATES WITH SPICE.

Such debates as that between Mr. Johnson of California and Mr. Maguire of California serve at least to add spice to congressional proceedings, but we fail to see that they accomplish any other good.

It is no doubt extremely important to character and motives should be placed in a proper light before his constituents and the public in general, but the spectacle of their bickerings is not an edifying

Governor Adams' chief claim to public onfidence lies in his record. The fact that he made a good governor once before is a very good reason why he will do so again. The rule does not always hold good. Grant, for instance, got along fairly well in his first term as president, while his second was burdened with failure and trouble. Cleveland is another very conspicuous example of a fairly successful first term and a very unsuccessful second one. However, we hope that Governor Adams may be more fortunate, and we extend very hearty wishes for the welfare of his administration.

A Few Questions Asked.

To the Editor of The Gazette:
"Where every prospect pleases,
And only man is vile."

What could nature do more than she as done for this mountain plateau? As we stand upon it and look around to coorth, south, east and west, every pros-pect is a scene of unrivalled beauty. What of the town which man has built nere? Largely and glowingly advertised as a health resort, what has been done with aim toward that object? We have very advantage for instruction, recrea-on, and amusement—spacious and shadd avenues, beautiful houses, costly imrevements, for which suffering taxpay-ts are assessed at the rate of \$56 on the housand. But what are underlying con-litions which aggravate and rouse the in-lignation of every citizen who has the ealth and welfare of the whole community at heart? I answer, filthy streets, covered with rubbish and offal, dust and dirt at the mercy of the wind, undisturbed by watering carts, sidewalks—notably at postoffice corner-reeking with the oathsome expectoration of tobacco chewers, and the more harmful expectoration which has no restrictions; the smoke nuisance, making breathing laborious and in some portions of the town fouling the houses in emulation of London: a much vaunted sewer system, and no compul-sory connection; an electric car system, which holds a valuable franchise, while riding in their cars is made intolerable to any one who appreciates the necessity for not so apparent on the surface, which during the summer and fall created widespread and numerous cases of typhoid fever, the investigation of which ended with proclaiming the water supply not responsible. In the interest of those who believe they have cause and right to de-mand that the air they breathe should not be polluted, in the interest of the nunerous invalids and strangers who come nere, justly expecting some regard to the sanitary conditions of their surroundings. I would ask: Have we a board of health? Have we a street cleaning department? If we have, why are they not in evidence? And who is responsible? If we have neither of these important departments there is certainly no duty more imperaupon the citizens of this place than righteous demand for effort toward tne reform of all these deleterious condins. Already has the fair fame of this y suffered from report of these neand warned of these dangers. It seems to be the policy of this place to keep silent about these conditions. But facts cannot be concealed, and the inevitable result for this town must be in time avoidance of a place, created by nature to be a been add benefactor to be to be a boon and a benefaction to hu-

Objects to the Match.

To the Editor of The Gazette:

I do not think prize fights or sparring exhibitions, which are about the same thing, should be allowed in this city. I hope the police will be at the Collseum to-morrow evening. W. F. McKeehan.

SPIRIT OF THE TIMES.

Noteworthy Opinions of Journals of the World.

The L. A. W. The action of the Amateur Athletic Union, the Intercollegiate association, the Interscholastic association and the Young Men's Christian association representatives of New York this week, in severing their alliance with the League of American Wheelmen, is merely an inevitable outcome of existing conditions. As mattive bodies of amateur athletics in this country cannot afford to be allied with

the league.

It is safe to assume that the great majority of the members of the league will admit that these amateur organizations were perfectly right in taking such action W. is a very strong and powerful organivote to other members who are interested in other sections. In this way many of professional methods on the part of any of its members, it cannot be accepted as amateur organization, even though it true that the great majority of members are purely amateur riders. There can be but one outcome of this condition, if the league should adhere to its present policy of permitting professionals to re tain membership, even though they be kept in a class by themselves. The experiment has been tried before,

and has always proved a failure. The leaven of professionalism always contam-inates every quasi-amateur organization in which that leaven has been allowed to work. Any man who knows the history of athletics in this country can point to a score of professedly amateur organiza-tions which have been wrecked by coun-tenancing, indirectly or tacitly, professionalism among the members of such or-ganizations. Unless the L. A. W. dis-countenances and forbids professionalism on the part of any of its members, in five years it will be unable to obtain recogni-tion in any amateur race in this country. Fortunately the members of the league e beginning to appreciate this fact emselves. The sentiment among the themselves. The sentiment among the members in favor of parting company with professionalism is growing stronger every year. Already something has been done of importance in the direction of eparating the amateurs from the pro-essionals, and it is quite likely that with-n the next few years the league will decide to become an absolutely amateur organization. When that happens, its membership will increase even more largely than it has increased in the recent past. Boston Daily Advertiser.

McKinley's Hard Work. The American.

Mr. McKinley is going to find it very hard to give satisfaction to all those who worked to bring about his election. We refer not to questions of political preferment, which ever confront a new administration at its inception, and which are calculated to occasion much ill-feeling and dissatisfaction, but to questions of policy. The task of meting out satisfaction to all his erstwhile supporters must prove a most difficult one for Mr. Mc-Kirley for the notion of Kinley, for the notions of those who oined hands to elect him as to the poli-ies best suited to promote the interests of the country, or, perhaps, it would be more correct to say, the policies best suit-ed to promote their private interests, are at great variance. Indeed, the policies urged upon Mr. McKinley by those who voted for him are not only at variance, but absolutely antagonistic. Therefore, it is quite impossible for Mr. McKinley to strike a course that will meet with gen-eral approval among his supporters. nisms among those who supported him.

It, some of the minor defects will correct themselves, the minor defects will correct themselves. The road that lies before him is not an

easy one.

The Republican managers are busily en- litical ambition, stringent times and colcle of their bickerings is not an edifying one, and the delay to public business is not compensated for. In such case perhaps the French system is preferable.

Coffee and pistols appear to be no more daugerous and the public expense is less. are much angered and chagri feel that their votes made Mr. McKinley's election possible, and it seems to then like base ingratitude for the Republicans just as soon as put in power with their assistance, to use that power to carry out a policy of higher tariff duties, than which no policy, save it be a policy to cheapen the dollar, could be more dis-tasteful to them. It grates on the gold Democrats to see the votes they gave t Mr. McKinley used, not as they ha hoped, in support of currency contraction but in support of currency contraction, but in support of high tariff legislation, to which they are vehemently opposed. But such is the chance of war. One can never be sure of the fruits of victory won by an allied army held together only by hate and fear of a common enemy. Such allies are sure to fall to fighting among the stronger will carry off the spoils.

Bounties on Sugar.

The Manufacturer.

No testimony which has yet been given in the course of the present hearings be-fore the Ways and Means committee is so interesting as that offered by the sugar men. Especially inspiring was the word which the beet sugar representatives brought from the west, notably from Nebraska, through Mr. Oxnard and Mr. Ames. They made the most hopeful reports of the beet sugar outlook in the Trans-Missouri country, if the government will only give this industry the en-couragement it needs. The east is not unmindful, we hope, of the true interests of the west. The government must have regard for the interests of every section. Although we, in ..e east, ask for that sometimes which will benefit us here more directly than it can the western people, we should not, and we will not, forget the demands of those who live in other parts of the Union. This is a proper feeling, a truly national feeling which we have got to cultivate. We are not willing to make some debased metal into money and wreck our entire currency system. will we turn our civilization upside down and put every Populist farmer on a pen-sion; but we should do everything we can to bring prosperity of the real kind to the sovereign with the nation.

It is certain that we should raise all Lis sugar ourselves which we are import-ing every week and every month from Hawaii, the East Indies, Germany, France and Cuba. These imports are tremendous. It is not likely that the cane sugar industry has a future of any great importance in this country. This crop can only be raised in a few southern states, chiefly in Louisiana, and even there within a relatively small area. The beet, however, as Mr. Oxnard so clearly explained to Mr. Dingley's committee, can be produced in at least twenty states of the Union. As is well known this industry is the chief source of wealth to entire agricultural communities in Germany, France, Austria and some other European countries Every farm for miles around plants land each year with beets, and when the harvest season comes in the autumn, the highways, the railroads and the canals are crowded night and day with the vege-tables which are in course of shipment to the sugar factories, sometimes many

Mr. Oxnard simply asks that from the duty which the government receives on imported sugar, a bounty of three-fourths of a cent per pound shall be paid on the domestic product of all grades, testing not less than 90 degrees. He suggests that the government, if it prefers, may reduce the bounty one-fourth of a cent every four years, abandoning the policy alto-gether at the end of 12 years. If the peoole could understand the possibilities of his important industry as it has been de-veloped abroad, it is certain no one would onsider this demand unfair or exorbiant. This profitable pursuit must have encouragement by bounty if it is ever to encouragement by bounty if it is ever to There are some infant industries which will always be infant industries. For various reasons it is not worth the while of the American people to bother with them, but beet sugar is not one of these. Lit is treated kindly this business cannot fall to thrive in the course of a few years in to thrive in the course of a few years in the most satisfactory way. No Republi-can tariff bill will be complete which does not take into account the need of developing the capabilities of the American people for raising their own sugar.

Philadelphia Press.

School lunches at from two to ten cents, price, have been provided by the school authorities in Boston at several schools, and the same plan has been introduced in several small towns. The lunches which pupils buy of pie and cake men at most schools in this city are shocking masses of indigestion. At one of the largest and most important of our city schools a sound lunch was provided for a time, but the pupils preferred pickles, candy and cream puffs. A warm lunch is provided at a boy's school, but it is expensive. As a general thing teachers have very small regard to the digestion of their charges. In the case of boys the spectacharges. In the case of boys the specta-cle of what a boy can digest, and in the case of girls what a girl insists on eating robably breeds callous indifference to the unching of pupils for which both teachers and pupils are to blame. The former might at least make certain that the dealers on the school grounds sell nothing injurious, and few teachers take this trouble.

Another Cure for Drink.

The claims of a certain Mr. Alaverdoff tre-at present occupying a large amount the attention of the Russian public, ne gentleman started the ball rolling a speech before the St. Petersburg Temperance society, when he announced hat he had discovered a positive cure for alcoholism. He had experimented on a number of subjects—among others on his laundress—and was prepared to state un-der oath that a cure was accomplished in every case in from three to eight days. For the present Mr. Alaverdoff declines to divulge the formula of his nostrum. He as, however, consented to be interviewed n the circumstances which led to its in-ention. He was, he said, uncongenially ccupied in trade in Tiflis, when one night te had a dream, in which he fancied that his old father, long since dead, revisited he house, in the guise of a confirmed frunkard. While he was there an old drunkard. While he was there an old man bleared by drink knocked at the door asking alms. The young man was about to turn him angrily away, when the old man said, "Your father is an inebriate. I will give you a remedy." Toward the middle of the right Mr. Alaverdoff awoke, and arrive from the companying from head where down the company is the companying from head where down the company is the company that the company that the company is the company that the company that the company is the company that the comp pringing from bed wrote down the rem-dy given him by the old man. He was o take a glass of vodka, crush into the the patient, the while saying a prayer e words of which the old man confided him.. In his dream he saw his father the morning he remembered nothing. The paper was misiaid, and was found only a short time before he came to St. Peters burg. It is rumored that the temperance society is conducting a series of experi-ments with the new remedy, and that the

Shut the gates tight, keep them out, for every foreigner that comes to this country means less work for our American laborers. Try it for five years, and if we find it does not work, why then open the gates just a little. Those are Brother John Wanamaker's sentiments.—

Ibsen's statue which is to stand in front of the Christiana national theatre represents him in a long, closely buttoned coat with his hands behind him and standing in a slightly bent attitude. The sculptor has shown him without the spectacles he always wears and it is, therefore, hard to recognize him.

When Dr. Kennion, the bishop of Bath and Wells, England, recently stopped at a hotel in the Pyrenees, he was surprised to receive a number of plumbers' cards. His name had been inserted in the visitors book as "Mr.Bishop, England. Profession, baths and wells."

English workmen regarded Morris as a man and a brother and their leaders publicly acknoledged their indebtedness to his aid. On one occasion when funds were badly needed Morris wrote a play, "a politico-social extravaganza," and "a politico-social extravaganza," and himself took the part of the imaginary archbishop of Canterbury. The play and actor were loudly applauded and the socialistic audience roared with laughter

All the Paris papers are commenting All the Paris papers are commenting on the success of the bicycle exhibition now being held in the Palais de l'Industrie. A few Sundays ago 41,000 persons visited the exhibition. Among the novel and interesting machines exhibited is an ice sextuplet, built to go on ice or crusted snow at the rate of one mile a minute. The wheels, which are spiked, revolve through the center of a pair of thin sleds, the spikes just pressing beneath the surthe spikes just passing beneath the sur-

Apropos of the sentencing of Stambuloff's murderers in Sofia the other day, it is announced by a Bulgarian journal husband's hands, which were amputated by the surgeon after the murderous attack, embalmed and placed under a glass case in the dead man's chamber. The hands are crossed like two fencing gloves, and behind is a hideous photograph of Stambuloff, showing him in all the horror of his terrible wounds just after his death. In speaking of these grewsome relies Mme. Stambuloff said: "I have preserved these mutilated tokens of my dear husband in order to keep constantly before the eyes of my children the great crime of his death." the great crime of his death."

Jules Massenet's opera of "Werther," which is to be revived at the Metropoli-tan opera house, New York, closely fol-lows the plot of Goethe's famous novel. Massenet sought to express in his score the idyllic charm of the said tale; but he has thus forfeited a great deal of ophe has thus forfeited a great deal of opportunity for variety and color. The opera was first performed at the Imperial opera house in Vienna in 1892, six years after the music had been written. Massenet conducted "in tears and trembling with emotion," to quote his own words. Before the French composer Goethe's theme had been treated by Signor Pugnani, musical director to the King of Sardinia, as long ago as 1796 Pugnani conducted the opera, it is reported, in his shirt sleeves, and fired off a pistol from the orchestra chair at the moment of Werther's suicide.—(Philadelphia Recrod.

Hotel Thacher of Biddeford did not Hotel Thacher of Biddeford did not come into existence under a peaceful and humdrum star, nor is it destined to lack for free advertising. There was a time when the temperance agitation in that city kept before the public the fact that Biddeford needed a hotel, had got a hotel, that the hotel had got a new proprietor and this, that and the other. Now the heading of the hotel stationery has got into print. It is a curiosity. has got into print. It is a curiosity:

POSTOFFICE ROBBERS

Men Who Burglarized the Manitou Office Plead Guilty.

FEDERAL OFFICERS TOOK THEM

Will Wait for Trial in the Arapahoe Jail. kind. Other Local News-The Bondsmen of Peter Hoop Surrendered Him--Yesterday was a Day for Divorces in the Will Exchange Courtesys at the Coliseum

The county will be relieved from the expense of prosecuting all of the men who held up and robbed the agent of the Colorado Midland road at Colorado City. The men have plead guilty to burglarizing the Manitou postoffice last November. Yesterday two of them, Frank Hurley and George Brittenham, alias Smith, were taken before Judge Severy, the United States commissioner, and entered pleas of guilty on this charge. A detailed statement of the crimes of these men in this locality was printed in the Gazette on New Year's morning.

The leader of the gang was Wm. Worth, alias C. H. White. He was a refuge from justice for the robbery of the postoffice at Florence, having escaped from the Pueblo jail. He organized this gang, and they came here and cracked the safe at Minitou. They only secured about \$150 in this robbery, mostly in stamps. Later they cracked a safe at Elkton, and then started in on a number of crimes. It culminated in holding up the night agent of the Midland at Colorado City about the middle of December. The men escaped to Pueblo, but thereof the professional content of the professionals several bouts have been arranged in which local ring aspirants will take part. A regulation size in which all of the bouts will take place. There will also be an exhibition of punching the bag by Mike Queenan. Doors will open at 7:30; first contest at eight o'clock; 50 and 75 cents will be the professionals.

COOKE, THE OCULIST.

A Scheme that Worked and Then Suddenly Didn't.

Prof. A. Jackson Cooke arrived in the city some days ago and began plying his Colorado City about the middle of December. The men escaped to Pueblo, but through the shrewdness of the officials in this vicinity and at Pueblo, three of the men were captured. One of them is

Postoffice Inspector George H. Waterbury took up the case to see what he could make of it. Two or three days ago Worth was induced to tell the whole story of the Manitou robbery. Yesterday Waterbury came here and went to see the two men confined in the jail, and who were being held for the Colorado City robbery. They also consented after a time to tell the truth. They were then taken before the commissioner and plead guilty. He committed them to the Arapahoe jail. United States Deputy Marshal Lovell took both men to Denver last evening. District Attorney Blackmer conening. District Attorney Blackmer con-sented to give the men up to the federal authorities, and Mr. Waterbury expressed great satisfaction last evening that the case was being cleared up so satis-factorily and so speedily. The men are good for about ten years in the United States prison, and a bad gang is broken

THE POSTOFFICE SENSATION.

Hoop Was Surrendered by His Bondsmen Last Evening.

There is very little that is new to tell regarding the defalcation at the postoffice in this city. After securing bondsmen on Tuesday night, P. P. Hoop, the money order clerk, was surrendered by them last

There were the most general expressions of regret yesterday in this city, not only because the two young men had been led into wrong-doing but because there had been a miscreant with heart so black that he could precipitate a calamity after they had arranged to right themselves in the world. That part of it was done maliciously, because one of the inspectors stated that the affair had been brought to the attention of his office the day before in person. He stated also that the inspectors were only a day behind the department in ordering the arrests, showing that someone had been writing let-There were the most general expressing that someone had been writing let-

Mr. Hoop on Tuesday night secured E. J. Smith and Dr. Rice as bondsmen, who agreed to carry him through the night until ne could secure permanent bondsuntil ne could secure permanent bondsmen. Yesterday he spent in that pursuit, and it was thought to be settled. At a o'clock yesterday afternoon for some reason his bondsmen surrendered him up to the officers. The exact reason for this was not very clear, as it was impossible to get hold of any of them afterwards. Deputy Marshal Lovell was in the city for the purpose of taking the Manitou postoffice robbers to Denver and had orders to give even the outline of the action. The chain of crime is carried on in

postoffice robbers to Denver and had orders to take Hoop in charge and relieve
the authorities here.
Inspectors McMechen, Waterbury and
Fredericks were busy all day yesterday
going through the accounts of the postoffice. They did not get through last
evening, and Mr. Waterbury stated that
they were having more trouble than they
expected. According to him the books of
the clerk were falsified, and this has
caused them trouble. Whether this had
anything to do with the surrender by his
bondsmen could not be learned. His bond
was only put at \$1500, and it seemed pretty
nard not to be able to secure that
amount. His examination was set for
the 23d of January. the 23d of January.

CUT THE BONDS.

Three Unhappy Wives were Separated by Court Decrees.

Court Decrees.

Yesterday was a day for airing domestic troubles in the county court. Three divorces were granted by juries, and to-day is likely to be even livelier, as there are a number of cases set for trial.

Jennie Richl, of Cripple Creek, was given a divorce from George F. Richl. They ran away and were married in 1894 at Oakland, Cali. He came home drunk at the end of a week, and Jennie left him. He has never provided for her and her father, who was on the stand, testified that George offered to give up all claim on her for \$100. The jury gave her a divorce, and she convulsed those present by turning around and remarking to a friend: "Well, now, I ain't got no more husband than a rabbit."

Maude Pitcher Kane of Cripple Creek, who in her youth was a resident of the city and was Miss Sallie Halthusen, got a divorce from Fred Kane. They were married in Cripple Creek in October. 1895, and only lived together one day. Five days after he beat her, and since has been cruel and failed to support.

has been cruel and failed to support.

Maude E. Jones got a divorce from
Herbert E. Jones on the grounds of Herbert E. Jones on the grounds of cruelty and failure to support. They live

Dis'rict Court.

In the first division of the district court yesterday the day was occupied in hearing the trial of Charles Harris and hearing the trial of Charles Harris and Bud Hayden, negroes, who were charged with burglarizing a saloon at Colorado City. The jury was out a short time and brought in a verdict of not guilty.

In the second division the case of Mrs. McKehan vs. Joseph Fredericks took most of the day. This is the case in which a wife seeks to recover from a gambling house keeper money spent by her husband. It went to the jury at 3:30 and at a late hour a verdict had not been returned. The jury was instructed to bring a sealed verdict if it agrees.

A Fine Showing.

At the regular January meeting of the board of directors of the Y. M. C. A., some interesting facts were brought out in connection with work being done day by day. The general secretary's report showed an average daily attendance during December of 200 men in the reading ing December of 200 men in the reading from. One hundred and seven letters room. One hundred and seven letters were written by young men, stationery were written by young men, stationery furnished free of charge. An average of furnished free of charge. An average of ten strangers had visited the rooms daily and had been welcomed and made to feel and the examined the books of the says, that Mr. Harper refused at first to become a candidate, but consented after a long conference with his friends today. He came to the city last first to become a candidate, but consented after a long conference with his friends today. He came to the city last first to become a candidate, but consented after a long conference with his friends today. He came to the city last first to become a candidate, but consented after a long conference with his friends today. He came to the city last first to become a candidate, but consented after a long conference with his friends today. He came to the city last first to become a candidate, but consented after a long conference with his friends today. He came to the city last first to become a candidate, but consented after a long conference with his friends today. He came to the city last first to become a candidate, but consented after a long conference with his friends today. He came to the city last first to become a candidate, but consented after a long conference with his first to become a candidate, and first to be

at home. Twenty new members were elected. The enrollment in the educational classes was steadily increasing, a large number of new students entering at the hospital process. at the beginning of the second term. During the month four young men had stated their determination to lead Christlan lives, and in various other ways the report showed that the work of the association was exceedingly prosperous.

The report of the treasurer, however, showed that the people of Colorado

Showed that the people of Colorado Springs had not fully appreciated the magnificent work that is being done by this organization, and thus far has not given it the support it should have. Arrangements are being made whereby every one will have a chance to say what they will do to support or week of this hey will do to support a work of this

FIGHTERS BOLD.

Hall This Evening.

Those who take any interest whatever

Prof. A. Jackson Cooke arrived in the city some days ago and began plying his trade of peddling eye glasses and spec-tacles. To avoid paying the usual fee till at large.

Worth was recognized by Mr. Dana after being put in jail here, and the Unitied various houses exhibiting articles ter being put in jail here, and the United States officials notified. He was taken to Denver the last day of the year. Postoffice Inspector George H. Waterbury took up the case to see what he of the house came home seding double, she immediately recommended Prof. A. Jackson Cooke. Later he arrived and Jackson Cooke. Later he arrived and sold goggles at \$1 a pair, better than the best occulist could supply at many times the price. The marshal got onto him and notified the police. Now the distinguished doctor was unfortunate enough to be plying his trade at the house of one of the policemen when that worthy went home to dinner, so instead of selling glasses he found himself waiting until the steak fried and the coffee warmed that he might be transported to the city cooler. The doctor and his fair confederate were allowed to go on their own recognizance after depositing their satchel. They were to have been in police court yesterday morning, but not, as they had taken the opportunity to depart between two days.

"THE CHIMES OF NORMANDY."

Held a Successful Dress Rehearsal Last Evening at the Opera House.

There was a dress rehearsal by those who are to take part in the "Chimes of Normandy" last evening at the opera house. Mrs. Moore, of Denver, takes the leading part and proved last evening to have a very sweet and attractive voice. The chorus is a large one, and their singing is very commendable. Especial stress has been laid upon the costumes and some of the best costumers in Denver have been at work for a number of days getting the dresses and gowns

The piece will be presented at the opera house on Friday evening, and popular prices will prevail.

"Shadows of a Great City." Tonight. Jefferson's great melodrama, "Shadows of a Great City," will be presented at the Opera house this evening. The play is ingeniously constructed with a complicated plot. The story is compactly and gracefully told in a dialogue; the action is brisk, and the situations give scope for elaborate scenic and mechanical effects, which constitute a prominent feature of the performance. The incidents follow

ment of coiling itself about the evil doer and setting the victim free after sufficient suffering to harvest the sympathies of the audience. All this is done in "Shadows of a Great City," and the final defeat of vice and long delayed reinstatement of virtue are satisfactory. There are lights as well as shadows in the play, and comedy ele-ments are skillfully managed. The huments are skillfully managed. The humorous charcters are not lugged in for fun, but have their due place in the dramatic balance and in the action itself. They are necessary for the development of the play, and this feature is a shining merit in the work of L. R. Shewell, the author. Although the play is not of a high order of literary merit, the dialogue is crisp and sharp, and the construction, both for scenic and dramatic effect, is admirable. It is a good play, splendidly set and acted by a good company, and the result is thorough entertainment. There is a child—2 girl—who is saved by a convict while thorough entertainment. There is a child—a girl—who is saved by a convict while escaping from prison, and therefore the chief interest of the play revolves around this girl and the convict, who rears her and becomes her accepted lover. His enemies follow him, and the girl turns out to be an heiress. This is a sufficient hint of the story to reveal the situation.

An exchange in speaking of the stereoptican dance as given by Miss Grace
Hunter during the performance of "Fabio
Romani" to be given in the Opera house
Saturday, says: "You go to see a balletdancer, and instead you behold a wonder,
a marvel, a miracle! A thousand effects
of light and shadow; of interchanging
and intermingling colors, glittering and
flashing in innumerable suggestions of The Stereopticon Dance.

are associated with the artist. They are beautiful pictures—not copies, but origi-nals. They reproduce themselves on the brain, and we hang them in the halls of

Craig-Hosmer Dramatic Co. The Craig-Hosmer Dramatic company, in a repertoire of popular plays will be-gin a five nights engagement at the Coliseum, beginning Monday evening, January 18th. The company is a large one and is headed by Albert Hosmer and Hattie Ross. They come highly recommended and are now closing their fourth week's engagement in Denver. The opening play "Down the Slope" is claimed to ing play "Down the Slope," is claimed to be one of the most successful comedy dramas of the day, and is livened up by bright and catchy specialties. On Tuesday night "Faust" will be produced with complete spectacular and electrical effects. Mr. Hosmer, who takes the part of Mephistopheles, was for years with Morrison and when that actor was indisposed took his part. Popular prices will prevail and seats will be placed on will prevail and seats will be placed on sale Friday.

"A Mystic World."

Rice's "A Mystic World," which appears at the Coliseum Friday, January 5th, is the only organization of its kind in America; in fact, in the world. There are but three standard combinations playing trick panomime and introducing mechanical novelties and high class specialties. The play is a superb production of comedy, pantomime, music, songs, dances and specialties. The Hoevets in their electrical act lead the world in this style of entertainment. In one of their acts carbons are placed between the teeth and then the two Hoevets place the then the two Hoevets place and then the two Hoevets place the points together forming an arc light, the current passing through their bodies. The advance sale presages a large house. Popular prices prevail and reserved seats are upon sale at Wilson's, 106 Pike's Peak

A HANDSOME UNDERDRESS.

Underwaist and Petticoat of Thin Ma-terial to be Worn Under Balls

and Evening Gowns. The lingerie worn with evening gowns must be beautiful when thin dresses are chosen. It is considered the proper thing to have lingerie match or harmonize with

the gown worn over it.

A very handsome set of lingerie is of fine thread cambric. The corset cover is of the cambric, with strips of Valencienes

lace insertion. It is made a regular baby waist, with a ruffle of lace around the neck.

The skirt is made with a yoke three inches deep, and is tucked at the top.
This gives the rest of the skirt the appearance of a deep ruffle. Eight inches apart are bands of the insertion between the tucks, and running the entire length of of the skirt. The bottom is finished a frill of the lace. The whole was worn over pale blue taffeta silk.

The dress it was to be worn with was pale blue satin covered with white tulle.
This elaborate underwear was intended for dancing. As the dancer whirls around n the dance one catches a glimpse of a white and blue cloud of lace and silk. HELEN GREY-PAGE.

SENATOR HILL'S BILL.

Washington, Jan. 13 .- Following are the

It Relates to Tenure of Office for Postmasters.

orincipal provisions of the bill relating to the terms of postmasters introduced in the senate today by Senator Hill: "That the term of office of all postmas-ters hereafter appointed shall be four years; that in case of vacancy it shall be filled by appointment for the remaining unexpired term; that the term of post-master shall be deemed to commence from the date of his assumption of the office of postmasters now in office shall be four years, and such terms shall be deemed to have commenced from the date of the assumption of the duties of

date of the assumption of the duties of the office by the occupant.

"Provided, however, That where the present occupant shall have been appointed to fill a vacancy, he shall hold office only for the remainder of the unexpired term of four years, provided he was appointed from the same political party to which such a predecessor belonged, or is a member of the family of such predecessor." such predecessor."

Armor Plate Contracts.

Washington, Jan. 13.—Secretary Herbert's report to congress on the price of armor plate was today referred to the house committee on naval affairs, to the sub-committee which is preparing the naval apropriation bill. Chairman Bounavar appropriation bill. Chairman solutions telle said tonight that the committee had not yet discussed the armor plate question this session, and he could not predict what would be the result of the secretary's report. The usual method of procuring government stores was by contract after competitive hidding, but as tract after competitive bidding, but as there was practically no competition in the armor plate business, the government had a more delicate problem in making its contracts. The committee migh fix a price in its bill for the armor plate or it might leave the making of contracts to the secretary of the navy, which course

A Candidate for Senator. A Candidate for Senator.

Springfield, Ill., Jan. 13.—Ex-Representative W. A. Harper of Chicago is a candidate for United States senator to succeed John M. Palmer. The announcement caused a good deal of surprise. Mr. Harper is known to be a close personal friend of Governor Tanner. James T. Hill, who made the announcement of Mr. Harper's candidacy, said that after Mr. Harper's candidacy, said that after looking the ground over it appeared im-possible to elect any other candidate.

SECRETARY FRANCIS

His Nomination Arouses Some Opposi

Washington, Jan. 13 .- The senate in excutive session today took up the nomina-ion of David R. Francis to be secretary of the interior, but no action was taken enator Vest of Missouri was the prinsenator Vest of Missouri was the prin-cipal opponent of confirmation, but it was also seconded by Senator Pugh of Ala-bama. Both senators made speeches against confirmation and alleged various reasons against it, among others the con-duct of Secretary Francis during the campaign. Senator Vest referred to the letter which

secretary Francis wrote, supporting the ndianapolis ticket and opposing the reg-lar Democratic ticket nominated at Chicago. Several senators announced their intention of voting for the confirmation of Secretary Francis and the prospects of his confirmation are good, in fact, it stated that only a few votes will be car

in opposition.

Senator White of California said that while he did not approve of the course of Secretary Francis during the campaign, he would vote for his confirmation. Both Democratic and Republican senators who are silver may stated that the confirmation. are silver men stated that they would vote for confirmation, and that it was a foregone conclusion that when the vote was taken the secretary will be confirmed.

ARBITRATION TREATY.

It Was Discussed by the Senate Committee on Foreign Relations.

Washington, Jan. 13.—The senate committee on foreign relations today had under consideration the general arbitration treaty recently negotiated, but did not reach any conclusion as to the proper disposition to be made of it. The committee found the subject involved in the treaty one of such visits and the subject involved in the treaty of the subject involved in the mittee found the subject involved in the treaty one of such vast proportions as to render any speedy disposition of it out of the question, and it was the opinion that the treaty would probably remain in committee for some time, owing to a disposition of members not to pass hastily upon it, and they feel the necessity of making a careful inquiry into all of its details.

The meeting served to develop that the feeling is a unit in favor of the principle of arbitration between nations, but it was made evident that each individual was alkely to have his own ideas as to how the desired result should be attained. No effort was made today to suggest amendments, nor indeed was there any positive indication that any would be suggested. The only question discussed was the gentral scope of the treaty, the effort being to determine its exact provisions. This question was undetermined in the minds of the members when the committee adf the members when the committee ad-ourned. The committee decided to rec-immend to the senate to make the treaty public, but did not take up the question of having it discussed in open session.

Four Miners Killed.

Pottsville, Pa., Jan. 13.—A terrible accident by which four persons were killed and one fatally injured, occurred at the New Wadesville shaft of the Philadelphia Reading Coal and Iron company today.

The dead are:

PETER TINCO, aged 30.

JOHN TAYLOR, aged 24.

HENRY FLINN, aged 35.

WILLIAM TAYLOR, aged 49. Theodore Frownkenstein, a boy aged 16.

Theodore Frownkenstein, a boy aged 16, was so badly crushed that he wil die.

The four men and the boy formed a part of the day shift. This morning they stepped on the rim of the large iron bucket to be lowered into the shaft. A big cross-head, weighing several hundred pounds, became frozen to the guides and did not move when the bucket started. When the men got half way down the cross-head struck the bucket and the men were hurled to the bottom, 300 feet. The boy was terribly bruised and the four men were all instantly killed. All of the workmen were experienced hands, and are survived by families.

Failure at Leadville.

Leadville, Jan. 13.—Great surprise was occasioned this morning when it was announced that the J. W. Hall Grocery company, the largest firm of its kind in this part of the state, had been taken in charge by the mortgagees. The company had evidently been doing a good business, but for some reason became embarrassed, with the result that the creditors took with the result that the creditors took possession. These are: Carbonate National bank, \$1499.47; Pearce, Reef & Co., \$2149.70; Leadville Live Stock company, \$2657; Struby-Estabrook Mercantile company, \$1844; N. B. McCreery, \$711.24; McCord-Bragden, \$631.53; Miller-Osborne Co., \$621.57; L. W. Sweitzer & Co., \$618.68; Hugh Kelly, \$118.33.

This makes a total, among Denver, Pueblo and Leadville creditors, of about \$11,-600. It is said that the stock on hand is worth fully \$15,000, and an inventory is in progress. There are some other smaller claimants. Charles Cavender is in charge representing the mortgagees.

representing the mortgagees.

Declared to be Elected. Sacramento, Cal., Jan. 13.—The two branches of the legislature met in joint session today, canvassed the vote of the assembly and senate, which showed that

George C. Perkins had received a majority in each house for United States senator and formally declared him elected.

The Soleil expresses the opinion that the treaty is purely of Anglo-Saxon in-terest and is not inspired by the idea of

Del Norte Bank Cases. Denver, Jan. 13.—The trial of W. H. Cochran and R. H. Sayre, the officials of the wrecked First National bank of Del Norte, has been concluded before Judge Hallett, and the jury is locked up deliber-

ating.
This morning both Cochran and Sayre This morning both Cochran and Sayre were on the witness stand, and they both alleged that hard times, not mismanagement, led to the failure of the bank.

J. B. Lazear, the bank examiner, said on the stand that he examined the books of the bank and could find no entry made of the \$5000 note which was left out of the report to the comptroller of the currency.

Colorado Springs Mining Stock Colorado Springs Board of Trade and Mining Exchange. Association. Colorado Srings, Jan. 13 .- The trading

on the association today was larger in volume than for many days. As for the past week, Isabella was the feature of the day, the shares bought and sold aggregating about 50,000.

In spit of the rumors that the company

was discovering more and richer ore, it was generally thought that the concentrated buying for several days was owing to the fact that the management of the property was buying the stock for the purpose of acquiring voting power at the coming angula mening. The transat the coming annual meeting. The transfer books preparatory to the annual meeting of the company closed today, and it was supposed by the bears that the stock would be without the recent support. Acting upon this interpretation of the situation they started in to hammer the price. The opening sale was at 52%, and the price was forced down to 51 cents. t this point the bears seem to have exhausted their ammunition as the price commenced to climb and steadily advanced to 54%, where it closed. Judging from today's market it would appear that the supposition that the recent advance in this stock was owing to purchases made to acquire voting power was not a correct one, but rather has been due to the improved condition of the property and to some recent shipments of very high grade ore. It is probable that there will be no definite information given out by the company now until the annual meeting, which takes place next week. It

is expected that the report then made will be a highly favorable one. Twenty-five thousand shares of Union were also traded in around 30½, and 27,-000 shares of Fanny Rawlings at from 75% to 7%. The market was firm almost o buoyancy, and closed at about the top Shipping Mines.

D. G. C. MacNeill, Mining Stock Broker, Room 5, Gazette.

The annual meeting of this company was held last evening in this city. The board of directors elected was W. H. Faviall, S. Houlihan, J. K. Goudy, H. J. Newman, F. O. Price, M. J. Stanton and J. W. D. Stovell. The officers elected were president, J. K. Goudy; vice president and treasurer, T. M. J. Stanton, and secretary, J. W. D. Stovell.

Cleveland G. M. & M. Co. The annual meeting of the stockholders of the Cleveland Gold Mining and Milling company should have been held yester-day, but adjourned subject to the call of the president, owing to lack of a majority

The company owns four lode claims, Gray Eagle, Gray Eagle No. 2, Sunshine and Mountain Queen, and the Black Bess placer of ten acres, all lying one mile south of the town of Cripple Creek and one-half mile west of Mound City. The sum of \$2,600 has been paid out for work on the claim and the company does not

The company has 105,000 shares of stock its treasury and some money, and is Part of the property is leased and the prospects are said to be very good.

The N. Y. Mining Exchange.

The following very pointed remarks are rom the Wall Street Reporter: "Why an not the Mining exchange of New York give the public a list of the stocks listed or the list of its alleged members? Is the Exchange ashamed of showing its hands? Its alleged connection with the New York Stock exchange should make it powerful, and is duty is to come out open-handed and not back out with the altry answer that the lists will be ready

"The public cares nothing for the fine speeches of ci-devant members of the New York Stock exchange, and before it can support such an institution it must know the truth. We always stick to the old maxim, 'tell the truth and shame the devil,' and we would advise the Mining exchange to do the same. Do not hide anything, but have the courage to tell the whole truth and nothing but the truth. If you are weak let us know your weak point, and the public and the press will help you. We are just as anxious for the success of the institution as its president and officers, but we do not want any more fooling. Who are the 37 members?

"We do not care to endorse the movement until we know the truth."

Colorado Springs, Jan. 13.—The trading on the board of trade was confined to the better class of prospects, although the volume of sales in these were not up to the usual amount. Republic, Virginia and Fanny B. were the stocks principally

MINES, STOCKS AND INVESTMENTS.

The reports concerning some of these properties continue very favorable and it would not be at all surprising if the next few weeks would witness a material alvance in some of them. The workings of the Fanny B. are closed down temporar-ily, during the installation of a steam hoist, when it confidently believed that the output will be largely increased, and a correspondingly large increase in revenues in royalties to the company.

RANDOM NOTES.

Delany & Delany bought Jack Pot at

Pharmacist was slightly lower on light

The only "Jimmy" is president again, quite a magnate—Rock. . Arkell & Co. put through a 20,000 share block of Mount Beauty at 23/4.

Magna Charta went at 3. W. P. Bon-oright & Co. continued to sell.

C. C. Consolidated was stronger at 12% the trading in the stock was light. Matoa advanced from 81/4 to 9 during the call; F. M. Stark was the leading buyer,

G. A. C. Duer bought Princess on the board of trade. Bassett and Hendrickson

On the board of trade Magna Charta and Republic monopolized most of the attention.

In the silver stocks Argentum stronger at 43 to 44, while Mollie Gibson declined a little to 54½.

Virginia M. was bought by H. H. Dor-

Quite a calm after the Mount Rosa storm. Who are the directors that will be finally washed ashore?

C. F. Kjellander & Co. sold Isabella on the board of trade. E. F. Welles and Thompson and Peyser bought. Mr. V. Z. Reed was up at camp yesterday. Moon-Anchor, Dante, Princess, Maria A., and Arcadia are among his

most important interests there. Gardner & Co. continued to sell Fanny Rawlings in big bocks. Francis S. Hobbs & Co. and Rope, Key & Co. also sold. Tucker, Ballard & Co. were the principal

· Reno was strong at 4% and 4½. Mitchell and McCall, H. H. Dorsey and Tucker, Ballard & Co. bought. Arthur Baker, N. Leipheimer, Dickens, and Arkell & Co.

There was a good demand for Garfield-Grouse. Bartlett & Co. and J. K. Miller & Co. were among the buyers. Harris & Howbert, W. P. Bonbright & Co., H. H. Dorsey and H. V. Wandell sold.

The Hassell Iron Works company is nothing, if not progressive. Its facilities have been advancing steadily with the growth of the city and Cripple Creek. The latest is a new hand drill machine which will be a great labor saver.

The Specimen, Magnet Rock, Oriole and Sliver companies' annual meetings were held yesterday. They start out the new year with prospects bright and well officered. W. H. Coffin is prominent in them all and he is a host in himself.

Hayden showed more life than of late and sold as high as 2½; the closing price was 2. F. A. Morath, Rope, Key & Co. and D. G. C. McNeil bought. N. Leipheimer, Weyand Bros., Young and Mitchell & McColl Bold. Mitchell & McCall sold.

Elkton opened weak at \$1.261/4, and im mediately dropped to \$1.26, and from this point it gradually advanced to \$1.27 on purchases by the Crosby-Ehrich syndicate and D. G. C. McNeil. Shove, Aldrich & Co., Tucker, Ballard & Co., J. Mc. K. Ferriday & Co., Price & Roby and Leipheimer sold.

There was plenty, of Union for sale at the opening and it declined rapidly from 31% to 30¼, and only rallied ¼ at the close. The trading was fairly heavy, about 25,000 shares changing hands. Shove, Aldrich & Co., H. S. Hawks and M. F. Stark were the heaviest sellers, while T. J. Kearney, Arkell & Co. and Carnduff & Rusch were among the buy ers.

There was a lively scramble for Isabella at the opening yesterday and the first sale was made at 52%, $1\frac{1}{2}$ cents pace was a little too rapid, however, and a reaction took place to 51, at which price nearly 20,000 shares changed hands. soon as these heavy offerings were absorbed the stock started upward again, and on heavy trading advanced steadily to 54%, at which it closed. Several attempts were made to break the market during the advance, but the only result was the loss of stock by the bears and they were obliged to cover their shorts at higher figures. There was, of course, considerable realizing during the day and large blocks of stock were thrown upon the market which showed handsome profthe market which showed handsome profits, but the ease with which this long stock was taken would indicate that the rise is not over yet. Among the heaviest buyers were Tucker, Ballard & Co., Price & Roby, N. Leipheimer, F. M. Keeth, Heron Bros., H. L. Fagin & Co., D. G. C. McNeil, and H. H. Dorsey. The selling was more scattering, among the heaviest sellers being J. H. Gardner, Shove, Aldrich & Co., Clarence Edsall & Co. and H. rich & Co., Clarence Edsall & Co. and H. V. Wandell. There was considerable scalping of traders. The stamped stock was dull compared to the plain; about and W. A. Otis & Co. were the principal

Bartlett & Co Brokers. Room K. Exchange Bld. Tel, 267. A VERY GOOD SHOWING.

Officers' Reports at the Specimen Annual Meeting are Pleasing. the anual meeting of the Sliver

Gold Mining and Milling company took place yesterday afternoon at the office of the company in the Hagerman block, this city. The manager, president and treasurer, all made reports to the meeting, a full account of which will be mailed to all the stockholders in a few

the middle of June, the work was chiefly development in the north end of the claim which resulted in showing up some

About the middle of June a surface discovery was made at a point further down the claim, which is now the main working shaft of the company, and has at-tained a depth of 142 feet. From this shaft there has been 37 lots of ore shipped aggregating about \$50 tons, of the gross value of about \$15,000. The greater portion of this ore was extracted while sinking the shaft, but the higher values all came from the stopes in the first and sec ond levels. An interesting feature to not is that three-fourths of the entire rocl

is that three-fourths of the entire rock hoisted from this new shaft has been ore. It ran from \$15 to \$110 per ton.

The new shaft on the Specimen claim is 4x8 in the clear, and timbered with 4x8 pieces from top to bottom. There are levels at 35, 85 and 135 feet.

The new shaft has paid the entire working expenses of the mine from the middle of June to date, including the purchase of a steam hoist, and the erection of an engine house, ore bins, etc., be-

officers and directors for the ensuing year: T. H. Edsall, president: Ward Hunt, vice president; C. H. Mallon, second vice president; Clarence Edsall, secretary and treasurer; W. H. Coffin, Jr., assistant secretary and treasurer; directors, O. C. Townsend and J. B. G'asser. The shaft above referred to has been sunk practically on the vein, and the ore chute has been encountered at the first, second and third levels. The first and second levels have been partially stoped, but the third level has not been touched. There is about 120 feet more of the vein to the north, and some 500 or 600 feet to the south, that has not yet been explored. south, that has not yet been explored.

From Prospects its Claims are Developing Into Mines. One of the most important annual meet

MAGNET ROCK ANNUAL.

ings held yesterday was that of the Mag-net Rock company. The stock has been quite active of late and the result was ooked forward to with a good deal of At the meeting 570,000 shares were rep-

resented. The report showed that there were still 135,000 shares, and a small amount of cash in the treasury.

At the time of the incorporation of the company the properties were nothing but prospects, but ore has now been found in two of the claims and it is thought that some day in the future they may

rank as mines.

The lessees on the Lucky Corner struck some promising looking rock some weeks ago. Assays on the ore ran from one to eleven ounces in gold to the ton. A ship-ment of 15 tons of the stuff to the Brodie

mill was disappointing, as the lot only just paid expenses. On the Sherman lode, on Gold hill, near the Oriole properties, a lease is being operated and a vein of ore being pros-pected. The assays on the ore were only a trace at the start, but have since im-proved to nearly an ounce. The shaft is now 40 feet deep and a mill run will soon be made to thoroughly test the cre for

All of the company's properties are b ing worked under lease with the exception of the Magnet Rock and all leases call for 20 per cent. royalties. The Bull Dozer, south of the Sherman, and the Monte Christo, near the Orazaba and Monte Christo, near the Orazaba and Fanny B., on Beacon hill, are both being worked by good parties, who perform 4 shifts of work every month on each o

the claims.

The following officers and directors were elected: J. Mc. K. Ferriday, president; Clarence Edsall, vice president; George R. Buckman, second vice president; W. H. Coffin, Jr., secretary and treasurer; C. H. Mallon.

MT. ROSA MATTERS.

Notning Has Been Definitely Settled Ye but a Compromise is Hinted at. There was a good deal of discussion yesterday among the brokers concerning the Mount Rosa meeting held on the

balloted for after the meeting had been adjourned, but because neither Messrs Bernard or Bruner have any stock in their names on the books of the company

above the close of the previous day. The and because Mr. Shelladay refused to take any part in the proceedings.

It seemed to be generally believed that some kind of a compromise will be made between the parties claiming election and that a board will be chosen including Mr. Sherman. It is hoped that the matter will be brought to a head today and that nothing will occur to mar the even tenor of the company's war, which bids fair

At the anual meeting of the Silver Mining company, held yesterday, an attempt was made to increase the capitai ization of the company from 1,000,000 to 1,250,000 shares. This was voted down unanimously and so for the time being, at least, the capitalization will remain the

Subsequently the following officers and J. Mc. K. Ferriday, second vice president, J. Mc. K. Ferriday, second vice president; W. H. Coffin, Jr., secretary and treasurer; Clarence Edsall.

The president reported that patents had been received on the Gold Mine and Sliver lodes during the past year and that a patent had been applied for on the Gold Field.

It is thought that the recent strikes made on the ground of the Criple Creek

deal of value to the Sliver company's ground and the prospects are looked to improve during the present year.

I will advise you what Cripple Creek stocks to buy or sell if you address me.

New York Stock Market.

New York, Jan. 13.—The total sales of stocks today were 117,400 shares, including Burlington 7700. American Sugar 24,800, Chicago Gas 7600, Manhattan 3000, Teading 3900, St. Paul 8800, Tennessee Coal and Iron 6900, Union Pacific 5700, Wheeling and Lake Eric 7700; silver certificates 8000.

Today's extremely limited speculation was fairly well distributed aside from Sugar, which figured for nearly one-quarter of the aggregate dealings, and the tone was in the main strong. The movement was irregular, periods of semistagnation alternating with spurts of comparative activity. In the carly session the market was spirited and higher prices were recorded on London purchases and moderate local commission house buying, eked out by covering of house buying, eked out by covering of shorts. The improvement was considered due to the pressure of idle money, which, in the absence of the recent prevailing disturbing rumors and reports, is induc-ing investments in bonds and stocks of intrinsic merit. The traders generally appeared disposed to play the bull side, owing to the failure of the long stock to come out in recent raids. In addition to

stocks, the trade and the contingent bought railway bonds. The specialties were again conspicuous. Very little interest attached to the an-Very little interest attached to the annual meeting of the stockholders of the American Sugar Refining company, as nothing but routine business was expected to be transacted. The stock sold up a fraction early, but in the late hours declined ½ on the report of the application of the Arbuckle interest at Toledo for a receiver for the Woolson Sales company. of that city, control of which was re-cently acquired by the American Sugar Refining company. The general list sub-sided into general dullness after midday, and, asile from the decline in Sugar, the late movements in prices were relatively unimportant. Realizations caused slight fractional recessions, but in the final dealings the selling pressure was more pronounced and the market closed heavy

at unimportant net changes.

The demand for prime bonds was in excess of the amount offered, and the issues which have been long inactive are now. prominent in dealings at substantially advanced prices. The sales were \$1,556,000. Government bonds improved slightly on

ket steady. Lambs \$3@4.85; nuttons \$2.25

Wool and Cotton Reports.

Boston, Jan. 13.—The American Wool and Cotton Reporter will say tomorrow:

As a rule dealers in wool report the volume of business as about the same as in the previous week, but in a few quarters in business some large sales are reported. Among the sales in Boston is a lot of one million pounds of Australia, and a rumor is that the mill making the above purchase has also picked up at least 500,000 pounds of fleeces and one million Montana, and that another well-known mill is rumored to have picked up 3,000 pounds of wool. Fleeces have been in good report and there has been a very fair movement of Australian.

veek ago. The sales for the week in the hree principal markets aggregate 6,625,000 ounds, 3,494,100 being domestic and 2,730,-900 foreign. Sales since January 1 have been 10,110,300 pounds, as compared with 13,628,100 in the same period of 1896.

Grain Supplies.

New York, Jan. 13.—Special cable and elegraphic dispatches to Bradstreet's, covering the principal points of accumulation, indicate the following changes in available supplies of grain last Saturday as compared with the preceding Satur-

LATEST NEWS FROM THE CAMPS.

Liberally Distributed in the Golden Cripple Creek District.,

Gulch-Good Prospects in the Pet Shaft. Gold Specimens from the Lilian Leland -- The Strike on the Trail -- Moon-

OFFICE OF THE GAZETTE, NATIONAL HOTEL, Cripple Creek, Jan. 13, 1897.

Cripple Creek, Jan. 18, 1897.

Messrs. Cox and Heidt, on their lease on the Pet, belonging to the Reno company, up Poverty gulch, are breaking into some excellent looking rock at the bottom of their shaft, which is now down about 25 feet. This claim was secured under an 18 months lease by Messrs. Cox and Heidt on the first of the year, and the snaft was only started at that time. The vein they have encountered is, they think, an extension of the Granite Hill vein as it turns around Womack hill. The lessees also think it may be an extension of the Gold King vein, which has The lessees also think it may be an extension of the Gold King vein, which has yielded so tremendously farther up Poverty guich. The character of the rock encountered is a honeycombed quartz and the vein is a well-defined one. They are surely working on a strong fissure, as from wall to wall it measures some six feet. Assays across the vein show values better that \$500 per ten and with a little. better than \$20 per ton, and with a little more prospecting the vein is expected to improve considerably. So far none of the ore has been saved for shipment. A few ore has been saved for snipment. A few hundred feet further up the gulch, A. H. Martin is working on a six and a half foot yein, the first development on which was done four and a half years ago. He is mining in an open cut to get at the mouth of an old tunnel, where he expects to start sinking a shaft. His best assays so far run less than an ounce. so far run less than an ounce.

Partial to Beacon. Willard C. Parker, who, together with W. J. Mayhew, sold a lease and bond on Beacon hill, is one of the oldest prospectors in the camp. He has traveled over most of the country from Cripple Creek to Alaska, but for all that is partial to Beacon hill. It is claimed for him that Beacon hill. It is claimed for him that he put the owners onto the first ore in the Prince Albert, and the surface matter that he shipped from the Bonanza Queen kept his larder filled for many months. He made \$5000 out of his lease on the Black Belle, got the bonanza rock on the Dashwood lots, and still has a block on the Argone townsite that he says will the Arequa townsite that he says will make him enough money to stock his ranch. Mr. Parker halls from the Nutmeg state, but has been in the Rocky mountains and further west since 1869.

A Handsome Specimen. The Jennings brothers' lease on the Lilian Leland, which made such a remarkable showing of sensational ore at grass roots a few days ago, is still occupying quite an amount of the public's attention. Billy Kerr, who is interested in the lease, exhibited a specimen today bearing free been sent down into the city and stored while four or five tons of the second grade ore are ready for shipment and will go out in a few days. A shaft was started today in the trench which has yielded so well, and it will be steadily sunk on the rich vein. This shaft is several hundred feet from the old working shaft which was formerly operated. ing shaft which was formerly operated by the lessees on the Lilian Leland prop-

manager of the Granite Hill company, has been in the city a day or two, but left for Colorado Springs this afternoon. The Granite Hill, he said, was all right in every particular, and the lessees, Willard J. Cox & Co., are sacking ore for another shipment to go out about Saturday. This shipment will be 20 tons, and will be mostly high grade.

Rich Strike on the Trail. The lessees on the Trail, Cranmer brothers and Dr. Lanterman, have been prominently before the public for some ime, notably for the improvements they time, notably for the improvements they have been making on this property lately. But now the news comes that a strike has been made which may prove to be by far the richest strike made in the camp for some time. Drifting was started yesterday from the bottom of the shaft, and when about two feet of rock had been taken out a streek of subunite was broken.

when about two feet of rock had been taken out a streak of sylvanite was broken into this morning which will assay away up into the thousands. The streak is about 16 inches wide and the vein is about three feet wide. No assays have been taken as it is entirely unnecessary to take assays on such ore as this.

The Amanda, on Raven hill adjoining the Bogart on the east, made an initial shipment of about 60 tons of ore today, and all of the rock will average, at least \$50 per ton, so the lessees think. The Amada is being worked under the supervision of James Casey, that gentleman holding an option on the property as well as a lease. It may be too early to predict a bonanza in the Amanda, but at the surface it is making one of the greatest showings ever seen in the camp.

A Badger Boy Rumor.

A Badger Boy Rumor. It is rumored that the Badger Boy, on Globe hill, is into a streak of ore that runs better than 80 ounces, but so far no uthentic information can be obtained

authentic information can be obtained concerning the strike.

Mr. Verner Z. Reed, one of the largest shareholders in the Moon-Anchor, and the prime moving spirit in that excellent mine on Gold hill, was at the National hotel today. Mr. Reed says that the property is in excellent condition and that all the levels are in ore and shipments are going out regularly. After looking over the property this afternoon, Mr. Reed expressed himself as well pleased with the condition of the mine and with the way in which Manager Cobb is conducting

vigorous prospecting to the northeast of Gillett these days than in any other sec-tion of the Cripple Creek district outside of the big producing hills of the inner golden circle. Since the carliest discov-ery of gold in the district the region around Gillett has been a favorite one

width.

On the opposite slope of Mount Elizabeth is a group of five claims owned by the Golden Group Gold Mining company, the stock of which is held almost exclusively by Philadelphians. All of these claims are located on veins of even greater dimensions than those held by the Denver syndicate. The properties constituting this group were worked to some extent last year, but dissensions among extent last year, but dissensions among the officers of the company led to the suspension of operations. A change of offiers has taken place with the new year, lowever, and it is now proposed to reme work at an early date. Even with the small amount of work done on two or three veins of this group ore was knocked down that ran almost pay and it is the opinion of the manager that with vigorous work he can show a shipper within

A tunnel site on the same slope of Mt. Elizabeth owned by a Colorado Springs operator, which showed \$6 ore at the first shot, will be developed by private capital. Experts who have examined the veins of this vicinity are of the opinion that the ore is almost free milling, in which event \$10 rock, which could be mined economically in immense quantities from these big leads, would net a handsome profit.

British Columbia.

(Special Correspondence of The Gazette.)
The mines of West Kootenay, British
Columbia, are likely to attract a great
deal of attention next summer, as several dividend payers, a goodly number of producers and a host of promisers are among them. The principal camps are Rossland, a gold camp eight miles west of the Columbia river and 10 miles over the line; and Slocan, a silver and lead camp lying east of the Columbia river and dividing its waters from those of the Kootenay lake; both are within 100 miles of the boundary line between the United States and Canada. Most of the gold ores are smelted at Trail, B. C., and most of the silver ores are shipped to colorado. There are two large smeiters, besides the one at Trail, in that section; the smelter at Nelson, for the Hall mines, reducing silver ores to a copper matte, and a large lead smelter at Pilot Bay, both on Kootenay lake. The production of bullion for 1896 is claimed to be over \$5,000,000 in gold, silver, copper and lead. As the country is being opened up by railroads and a great deal of English capital is going into these mines, the production will be rapidly increased. the production will be rapidly increased.

The mining laws are liberal. Foreigners as well as British subjects have the right to locate and buy mining claims, consisting of 1500 feet square, limited by vertical end and side lines, on payment of an annual "free miner's license" of \$5, and doing \$100 worth of work on each claim annually, until a "crown grant" (patent) shall have been obtained by doing \$500 worth of work on each claim, or paying that amount to the "gold commissioner" for a crown grant at any time after the location of the claim. Were the mining sections limited to those

In the older camps the desperate mid-dle-man is resorting to the stocked wild-cats and the fixed-up group of mines. and the fixed-up group of inflies.

And the reckless promoter has his tunnel scheme to beguite the unwary, but here, as elsewhere, these propositions carry their own cure with them, and even the excitable sanguines learn after awhile to beware of the group and the type of the g tunnel site. One good mine, or a quarter of a good mine is enough, and often too much, for individual (or even syndicate)

Spokane, Wash., at present the metropolis of the British Columbia country, is likely to continue so, while Americans are the principal mine-owners of the re-gion. The English capitalists who have been following the flag from Australia and South Africa to British Columbia, and South Africa to British Columbia, are more like absentee landlords than settlers in the country; and their agents, acting on the old eGrman adage that "a good mine wears an iron hat," which doesn't seem reliable in Murphy, China, Sullivan, Waterloo, Cristina or Weir Park camps, carrying from a light to a heavy trace of gold per ton, will probably discourage further investments of pounds sterling on unproved theories in ounds sterling on unproved theories in

There is plenty of cash for mining speculation to spare from accumulations in eastern Canada. Canadians are a frugal people, and their country has been producing wealth for half a century of peaceful commerce and agriculture, but the previous experiences of speculation in mines in Nova Scotia, Ontario, and along the line of the Canadian Pacific railroad, has not tended to make mining for the precious metals a desirable venture for them; and they are not living up to their present opportunities in British Columbia. Americans are in the lead. Possessing the land, they keep the best mines and offer the poorer ones at an advanced rate to the speculative stay-athomes on both sides of the line and be-There is plenty of cash for mining specomes on both sides of the line and be-

With all its disadvantages, of mosqui-With all its disadvantages, or mosquitoes and pestiferous gnats in summer, deep snows and short days in winter, and ninety and nine prospects that wont pay to one that does, it is the great coming mining region of the next two years.

Richard Irwin.

BROKERS' MARKET LETTERS.

Messrs. Gardner & Co. in their last weekly letter say: "This has been a week of disappointments for cheerful traders, who hoped for a small boom for the beginning of the new year. With the exception of Elkton, wheh shows an 8-cent rise, changes generally have been declines. There seems a pause in trading and operators appear to be waiting for symptoms of an upturn before taking noid. Great things are expected for 1897, but it is unreasonable to expect them all to focus the very first week in January. We have had some business improvement, the tendency is upward, but it's slow. Prosperity has not made a big advance so far in 1897, but the fog is clearing away and the road at least is in sight. The east continues very shy of even our best stocks and shows little disposition to improve the shining hour or low prices and take on a line of excellent bargains. A few orders are coming, but our mail consists mostly of inquiries. Trading is largely local and of a professional nature. Leaving such outside matters as congress, the Cuban question, failing banks and the general hardup conditions alone, we hold aloft the banner of merit as applied to Cripple Creek, believing that merit will win in the long run. To those holding good legitimate stocks at higher figure we say, average down your holdings. We regard active listed mining stocks that can be of Liverpool and light northewest receipts. The first cablegram quoted '4d. advance in futures, and a later one gave prices as %d, higher, or nearly double yesterday's advance here. Northwest and posterday's advance here. Northwest and posterday's advance here. Northwest and posterday's advance here. Northwest and so will be sufficiently as the posterday's advance here. Northwest and posterday's advance here. Northwest and posterday's advance here. Northwest and so will be sufficiently as the posterday's advance here. Northwest and so will be sufficiently as the posterday's advance here. Northwest and so will be sufficiently as the sufficient of the posterday's advance here. Northwest and so will be sufficiently as the posterday and will missed be sufficiently as the sufficient of the sufficie

benefit. We are going to have better times and locally they will start directly from Cripple Creek. The camp will produce at least 25 per cent more in 1897 than in 1896. Dividends this year will far exceed those paid in 1896. By next spring we expect to see a lively upward movement along our whole line. At present we can only urge taking advantage of low prices and buy and lock up as many shares as you can afford to carry. Our Cripple Creek expert advises buying Union, Pharmacist, and Consolicarry. Our Cripple Creek expert advise buying Union, Pharmacist, and Consoli dated. He also says strong bull point ers are out on Jack Pot, Virginia M. Work and Gold Standard. Royalties amounting to \$4,000 have been turned into the Garfield-Grouse treasury so fat this year. Insiders express the greates confidence in the company winning the present suits and everyone who has seen confidence in the company winning the present suits, and everyone who has seen the property are united in testifying to the great wealth in sight. Cripple Creek writes: 'In this kind of a market quick turns are problematical. Right here on the ground I should select Arcadia Consolidated (they are getting some nice ore now). Fanny B., Granite Hill. Ben Hur, Creede and Cripple Creek, Reno, Rattler and Sacramento. If you don't make a quick turn you are bound to make money later on.' Gibson has declined 5c and Argentum 2c during the week. Aspen writes: 'It is generally expected that good news will soon be forthcoming regarding Gibson, at present forthcoming regarding Gibson, at present indications of ore are excellent. I hop she may go away up again soon."

The following is from the Crosby-Eft rich syndicate's market letter: The de pressing influence just now is the com parative stagnation in the sale of our gold mining stocks as represented by the dealings on our mining exchanges. It is a noteworthy fact that there is not a speculative exchange in the whole world just now which is not suffering from a similar depression. The terrible losses which have been suffered in England and in France, by reason of the shameful over-valuation of the South African stocks, has temporarily, and most naturation. ally, disgusted the European buying put lic with mining shares. In their present feelings of rage, they condemn all gold stocks, good and bad. As a Paris correspondent writes us, they are like people who have been so flagrantly deceived with counterfeit money that they are nov even afraid to accept genuine gold coin.
The continuance of such a disposition in Europe naturally affects us disadvan-tageously because there had just been an appreciation in European markets as to the safety and attractiveness of our Colorado gold stock. In time, of course, this present European indisposition to purchase will wear away, and those gold stocks which possess genuine merit will regain their hold on public estimate and

In his weekly letter Mr. G. W. Proudfit says: Trading during the week was de-cidedly better than anticipated. The rule time after the location of the claim. Were the mining sections limited to those districts now opened up, the size of mining claims (about 52 acres) would be objectionable, but as there is a vast region, extending to the Yukon on the north and to Fort McLeod on the east and to the Gold range on the west, there is plenty of room and much tempting territory to invade with pick and shovel, by boat and by pack-horse, for several years to come. This coming summer will see Cariboo creek, between Slocan lake and the Columbia river; Arrow Arm, and Lardo, to the north of Kootenay lake the Boundary creek section, to the west of Rossiand 50 miles, and the East Kootenay district, over the Selkirk range and to the east of Kootenay lake 50 miles, added to the producing and shipping sections. And there is the great Alberta district, east still of East Kootenay, about to be opened by a branch of the Canadian Pacific railroad from the coal mines of Lethbridge, via Crow's Nest pass, to Nelson at the outlet of Kootenay lake. This last is the prospector's promised land for next summer, enough copper and gold ores having been found to warrant a rush there.

In the older camps the desperate midis for investors and speculators to become

In his last weekly letter Mr. N heimer very wisely says: "Serious jury to legitimate enterprises is done unscrupulous promoters. They acquire property in the district, or outside, for little money, organize a stock corpora-tion, and sell the stock for a price which represents from 25 to 100 times the original cost of the property. These promotes stocks have only a ficticious value; they have no market value. This class of stock cannot be sold by the innocent victim, who was unfortunate enough to buy it. These stocks have no bid price if they are quoted on a price list. Beware of these stocks, as well as of tunnel and leasing stocks. Many people who have once bought the latter stocks will never the stocks. invest again in any class of stocks. They do not go to the trouble to distinguish be-tween active and legitimate, and the above class of stocks. I impress upon readers of this letter to buy only stocks which can be bought and sold in the open market, and not to invest a cent in pro flattering reports of mining experts must not tempt anyone to invest in these en

Fuddy: "Poor Roglesworth is released from all his troubles at last." Duddy: "You don't mean to say he is dead?" Fuddy: "Ch, no; he's all right; he has got so deaf that he can't hear Twigg's dog stories any more."—Boston Trans-cript.

Mme. Paul Blouet translates her husband's (Max O'Rell) books into English from the original French. She is an English woman by birth, but learned French as a child, and speaks it with

The Elizabethan Stage society will give "Twelfth Night" in the Middle Temple hall, London, on February 12 next. They propose also to repeat "Two Gentlemen of 'erona," if necessary arrangements car

DAILY WEATHER RECORD.

The following meteorological report is furnished by the Colorado College furnished by the Colorado College Weather Bureau, Observations recorded

Precipitation in inches

Weather Indications. Washington, Jan. 13.—For Colorado: Increasing cloudiness; probably local snows; north to east winds.

Buy coal of Crowley & Richardson.

The Ladies Spiritualistic club will mee at 2:30 this afternoon at No. 215 East Ki-

S. I. Womack, son of Robert Womack, the discoverer of Cripple Creek, is re-ported dangerously ill.

Mr. Alonzo Alford, a prominent business man of Brooklyn, N. Y., and his wife are visiting Prof. E. S. Parsons.

Mr. E. Barnett, proprietor of The Ant-lers hotel, after an extended trip east, will return to the city this morning.

Dietrich of The Antlers orchestra will take a few pupils on violin and man-dolin. Address Antlers hotel, city. Mr. and Mrs. W. D. Wright, of this city, left last evening over the gulf for a three months trip to California points.

The county commissioners visited the poor house yesteday and are taking in the public buildings generally this week.

The young woman's club which was organized last week at the W. C. T. U. home will meet again this evening at 8

The Elks meet this evening in regular session. There will be important business and members are requested to be

A marriage license was issued yester-day to Edward M. Sehornherst of Crip-ple Creek, and Hattie O. Honey of De-

Miss Clara Chandler of this city, is now in Philadelphia, and is taking a course of drawing and painting at the Academy

Dr. Power of Washington City, appears in the Lyceum Saturday evening. The Coliseum will be well filled to hear this gifted orator.

The regular monthly meeting of the Zebulon Pike Chapter, D. A. R., will be held this morning at 10:30 in the chapel at Coburn Library.

The adjusters have settled with Mr. M. Silverman on account of the fire at the Bee Hive during Christmas week. They fixed the damage at \$3,200.

Mrs. A. D. Craigue and her father, Mr. A. Trollope, leave this evening for a trip to Los Angeles, Cal., where they will spend the remainder of the winter.

One man was fined \$10 and costs in the police court yesterday morning for driv-ing his wagon over the hose at a fire on the west side a couple of days ago. The ladies of the First Methodist Epis-

eopal church will give a chicken pie sup-per at the parsonage this evening at 5:30 sharp. A cordial invitation is extended to all. Supper is 25 cents.

The first lecture by Dr. Pershing of Denver, before the class in psychology, at the college, will be given this afternoon at 4:30 p. m., in the observatory. The public is invited to attend.

Mr. C. W. McReynolds, the new justice of the peace, who assumes the office held by Captain Saxton, is for the present located in Saxton's old quarters. He will move into new quarters shortly.

The old buildings that have stood on the lots at the corner of Tejon and Kiowa, where Miss Everhart is to build, are being torn out. The architect has not yet presented his plans for the new building for approval.

Fred B. Hart yesterday filed his suit against the marshal in the district court. He seeks to restrain the marshal from interfering with his express wagons from standing in front of his place of business. The county judge decided that he did not have jurisdiction.

The tickets are out for the annual ball of the Letter Carriers association, which, will be given at Durkee hall on January 29. These are among the most popular dances given every winter in the city, and there will no doubt be a rush to get the tickets.

At the W. C. T. U. meeting this evening there will be reports on the mother's meetings and scientific temperance instruction. There is also to be a report on the Keeley work. The meeting will be held in the dining room of the W. C. T. U. home, Tejon and Kiowa.

The evangelistic services at the First Presbyterian church last evening were largely attended. The Rev. Mr. Brewster of Grace church and the Rev. Mr. Barrett were the speakers, and their messages were earnest and powerful. Tonight the Rev. Mr. McKay and others will speak. Song service at 7:15.

The funeral of the late Mrs. J. F. Seldomridge was held yesterday afternoon from the First Presbyterian church. There was a large attendance of friends, who gathered to show a last tribute of respect to this most estimable lady. Mrs. Seldomridge had long been a member of respect to this most estimable lady. Airs. Seldomridge had long been a member of the church, and was a prominent worker in its societies. She was also prominent in the work of the Aid society and other charitable institutions of the city, and will be greatly missed by a large circle of friends.

Mrs. Mountford's Lecture.

Mrs. Mountford's Lecture.

It is very evident that the general run of the public in this city do not appreciate a good thing when they see it. For three nights Mrs. Mountford, who has been giving lectures at the Coliseum the like of which Colorado Springs people will probably never have the chance of hearing again, and yet her audiences have been growing smaller and smaller until last evening there were scarcely 40 people in the house.

Last evening she lectured upon the life of the Bedouins of the Desert. As usual she illustrated her talk with figures clothed to represent this class of humanity. It was of great interest from start to finish, and the few present heartily applauded the speaker.

applauded the speaker.

Dr. F. D. Power.

Dr. F. D. Power.

Dr. Power of Washington City, will appear on the Lyceum programme at the Collseum next Saturday night. Says the St. Louis Post-Dispatch concerning this gifted orator: "The eloquent speaker riveted the attention of his audience from the opening sentence, and held their interest unabated to the close. A resolution expressive of the gratification of the auditors was adopted with enthusiasm. Dr. Power is a young man, but has taken high rank among the pulpit orators of, the nation—a position to which he is evidently entitled on the ground of positive merit, as the excellence of the address last night demonstrated."

GOLDEN WEDDING.

emi-Centennial for Mr. and Mrs. O. H. P. Sheffer.

Mr. and Mrs. O. H. P. Sheffer, cele orated their golden wedding at the hous brated their golden wedding at the house of their son-in-law, Mr. Joseph Strong, at 101 Wahsatch avenue, on Saturday evening, January 9th. A goodly number of friends were present and the evening was pleasantly and sociably spent with games and friendly intercourse. A bountiful supper was served at a late hour. There were many handsome presents, and after supper an interesting presentation speech was made by Rev. J. Cooper an old-time friend of the family. Mr. O. H. P. Sheffer and Miss Sarah E. Crider were married in Williamsport, Ind., January 10th, 1847. There are living one son and five daughters, with eighteen grand-children. Mr. Sheffer removed his family to Colorado Springs in 1879. He is book-keeper in the blacksmith establishment eeper in the blacksmith establishment f S. M. Diltz. This favored pair have host of friends and acquaintances who wish them many happy returns of this anniversary. This is the first golden wedding which

has occurred on either side of the family for many generations, if ever. It is also an interesting fact that Mr. Sheffer was the first child born in what is now the city of Indianapolis.

WHITE has a new line of MIXED CHOCOLATES at 35c a lb. Try them.

A hacking cough is not only annoying to others, but it is dangerous to the per-son who has it. One Minute Cough Cure will quickly put an end to it. Colorado Springs Drug Co.
