

PUBLISHED BY Jones & Hartman. RICO, Dolores County, Colorado.

To the Press of Colorado.

The DOLORES NEWS respectfully asks that a correction be made as regards the press dispatches from Durango, wherein it is stated that there are fears of having trouble at Rico, with the Indians. No more fears are entertained by the people of Rico or Dolores county than if they were in the East or thousands of miles away from a country where there are Indians. This false alarm has grown out of the simple fact of some of our citizens having sent to Durango for ammunition for the militia guns here, the supply having been exhausted in arming and equipping those of our citizens who went to the Grand River country, in Utah, to rescue a party who were reported as being surrounded by a band of outlaw Indians that infest that portion of Utah.

We do not request this that Rico or the News may be advertised, but ask that it may be done in justice to Rico and the state at large.

New San Juan Papers.

Volume 1, number 1, of the Durango Herald, dated June 23d, has made its appearance. It is an eight page and creditable paper.

The San Juan Herald, at Silverton, has made its debut; Raymond & Everingham, publishers, have made it a neat and first-class San Juan Herald.

LAST VERSION OF THE GRAND VALLEY INDIAN BATTLE.

The reports of the Indian troubles as published by the NEWS are acknowledged as reliable by the survivors who have returned and furnish the facts for the following:

The first day's fight began on a small creek, near Mill creek, the Indians firing and retreating for a distance of seven miles, to Little Castle valley, which is about eight hundred yards wide, walled in with steep bluffs on both sides. The Indians took shelter or protection in the rocks at noon, from where they kept up a continual firing for about an hour and a half, when they divided their forces, sending mounted, to the valley, sixteen Indians, armed with Winchester rifles. Capt. W. H. Dawson had with him in this engagement, eighteen men, whom he says were brave without an exception. The party of eight who were killed, together with the Wilson brothers, were in the rear, and were first seen and met by the Indians who were mounted and sent into the valley. Dawson, with the remainder of the party, was further up the valley and nearer to the Indians who were firing from the rocks. The killed, it is supposed fought for about seven hours where they were killed. They had been engaged in the running fight from 10 a. m. and fought till sunset; several had been wounded before being killed; Jack Galloway had one hand nearly bound and tied with a white handkerchief, when found. On the next day a detachment was sent out in search of the killed and wounded, coming in conflict with the Indians again. Here the Indians would have prevented their finding the lost, and the party wisely retreated a distance of four miles, hotly pursued by the Indians, where the white party having a little advantage, killed several Indians. At this time, none of the white party received a wound. It is estimated from all seen and known that eighteen Indians were killed. The white party fought in every conceivable manner, the Indians having a great advantage the first day. The mounted warriors would charge and a number of the footmen would sneak up nearer the Whites and fire. The dead bodies were found on the fourth day, (Sunday) and were so decomposed that it was almost impossible to bury them at all, but were buried about where they fell. Five were buried in one grave and three in another. H. H. Melvin, Jack Galloway, Tom Click and the two Wilson brothers, side by side were buried in one grave and the Tartar brothers and James A. Heaton were buried in the other grave.

Dave Willis was buried where he fell, about one hundred yards from the remainder of the party. To say that our friends were faultless, who have gone from us, would be untrue, for they were men. Who has not a fault? They were our friends and comrades. Mothers, sisters, fathers and brothers, and bereaved wives and children, will weep for those who are no more. They are gone, and who will measure the time of their leave? They loved and were loved. These tender chords have been severed but cannot be forgotten, and when the news breaks the silence of their absence at home, reader, do you think tenderly, or do you realize that they are gone? The dear ones at home hoped that they might sometime return, but, alas! they are now gone forever.

We are unable to learn anything definite in relation to the homes and relatives of these boys who are buried in the secluded little spot near Grand Valley, but give such information as we have been able to obtain.

WILEY AND H. S. TARTAR, two brothers, born in Missouri, but emigrated to Texas when quite young, living the adventurous life of frontiersmen and had been engaged in many dangerous encounters but bravely fought their last in the Grand Valley.

DAVE WILLIS was born in Arkansas, has a family living on the Mancos river, near the southern line of Colorado. Mr. Willis had resided in the West the greater portion of his life, and on the frontier for several years.

TOM CLICK, was a Southerner by birth, had been in Colorado for many years and was well-known throughout the southern portion of the state where he leaves many friends to mourn his untimely and sad fate.

JAMES A. HEATON was born in Missouri, was 20 years old, an upright, bright and brave young man, cut down in the prime of his manhood. He leaves a father and brother in Rico to mourn his loss, who have the sympathy of the entire community in this their sad bereavement.

THE WILSON BROTHERS resided in Utah, and leave an aged mother to mourn the manner of their untimely end. She resides in the Grand Valley.

T. C. TAYLOR, though not found, has beyond a doubt met the sad fate of his brave comrades. He leaves a brother (D. C. Taylor), who resides at Rico, and who has the sympathy of the community.

Good bye, brave boys, may your sleep be sweet. Though the siek of fate seems cruel, 'Tis truly the brave whose names are most, For gems in memories jewels.

Though the hearts of your friends are rent and riven, Their grief is not mingled with shame— In the rightful cause each life was given, In the line of the fearless each fled his name.

With the lives of such the way is paved, For progression's ponderous wheel, For eyes unborn shall be engravened The gratitude we feel.

Each name shall be enwreathed with flowers, Such as may chance to grow, Within the field in wakeful hours, Where thoughts in leisure flow.

A Committee from Rico. Messrs. E. L. Davis and Joe Lamb and Judge Julius Thompson, were appointed by the citizens of Rico, a committee to come over and interview J. P. Lamb, Esq., as to his intentions in regard to the completion of the Animas City Toll Road. Mr. Lamb informed them that negotiations were pending between himself and the Railroad Company, with a view to the purchase by the latter of his interest in the road in question. In case the company makes the purchase, it will be pushed to immediate completion. If they fail to make terms with Mr. Lamb, they will build another road via Hermosa creek and park, so that in either event, Rico gets her toll road.—Durango Record, June 28.

The gentlemen of the committee above mentioned have returned to Rico.

Scotch Creek Toll Road. The Rico committee sent to confer with J. P. Lamb, state, that in case Mr. Lamb does not sell the toll road to the D. & R. G., he will negotiate with those of our citizens who wish to put money into the toll road stock, for the completion of the road.

If the D. & R. G. should purchase the road, as Mr. Lamb says himself, it would be the better, as that company would build a much better road, (perhaps a railroad grade).

In case the D. & R. G. does not buy the road, then the citizens of Rico have an opportunity to accept a fair proposition.

It is hoped that the railroad company will buy and build the road, as it is for the best interests of Rico, Durango and all San Juan to have a good wagon road connecting Rico and Durango.

Two men, believed to be counterfeiters, were found in a lonely cabin in the Sangre de Christo range last week. The suspicious of their visitors were aroused by their peculiar actions in attempting to conceal certain implements and they returned the next day to find them gone. On examination of a neighboring shaft, a large chamber was found at the bottom containing a peculiar furnace.—Record.

Five convicts were received at the penitentiary on Sunday from Lake county, viz: George Lynch, for murder; life; Edward Fitzpatrick, assault with intent to kill three years; Thos. Francey, larceny two years; George Merchel, assault with intent to kill and assault with intent to rob, two years. This brings the number of prisoners confined in the penitentiary up to 238.—Canon City Record.

The Kansas City Times is mean enough to say: "Omaha may yawn and yawn, and then yawn again, but 'twill profit it nothing. Omaha is simply a skeleton of former promise. It will never be what it once promised to be, and it will never be what it was when it promised to be something. It now exists by the sufferance of Jay Gould, and is liable to be butchered at any moment."

"Bosting" is to try the World's fair.

Love At First Sight. An almost incredible romance has happened in Wisconsin, and if it had not been vouched for by so valuable authority as the Racine Journal, it would be rejected altogether.

If it was not for the Durango Record Colorado would not have any blood and thunder Indian stories at all. Every week, the Record sees strange lights on the mountains, and sees the bushes shake now and then and next day it appears in flaming headlines.

THE FOLLOWING WILL ANSWER Many Letters of Inquiry Concerning Rico and Its Resources, Etc.

Rico is situated in the heart of the Dolores mining camp, in the new county of Dolores. This mining town and camp is a part of what is known as the Great San Juan Mining Region.

From Durango, 45 miles. Silverton, 35 " Ouray, 75 " Lake City, 75 " Ophir, 22 " San Miguel, 30 "

From Durango to Rico, via stage and horse-back transportation, ten dollars. Fine American horses and ponies are kept on the line, to connect with the stage line.

Express and pack trains run regular to Rico. Express trains make round trips between Durango and Rico in five days. Freight pack trains make round trips in six and seven days.

We cannot give with accuracy, the population, as it varies with the changes of the seasons of the year. It is now estimated at 1,500. During the present summer and coming fall, the population will doubtless increase to 3,000. Of this number, there will be fully 1,000, or perhaps 1,200, who will locate as permanent citizens of Rico and Pioneer Mining District.

Rico is a rich camp, with a good reputation, of which it is deserving. We have at hand a great abundance of water, wood and coal.

Water is being taken through the principal streets of the city, and much improvement is being made generally. A large number of new buildings are in course of erection, and many more to be commenced soon.

The number of mines and prospects located in the camp, counted over 2,200 last fall, and we are safe to assert that there are over 3,500 mines and prospects, each and all of which have been developed more or less, with shafts, tunnels, adits, etc., varying in depth from 10 to 200 and 300 feet. There are twenty-three paying mines, and a large number of unproductive mines, which development will make paying mines.

There are four large general merchandise stores, one good exclusive hardware house, two banks, and two large hotels. There are three saw-mills, one smelter, two brick yards. There are three livery stables, three blacksmith shops, seven carpentering and contracting firms, and numerous mining contractors.

There are two bakeries, three restaurants, two meat markets, one lodging house, two confectionary stores, three tobacco and cigar stands, three billiard halls, and fifteen saloons.

There are two drug stores, one insurance agent, one tailor, one boot and shoe maker, two barbers, one jeweler, one gun-smith, one dress-maker, two news depots, and several laundries.

There is one water wagon, one express wagon; there are three painters, three assay offices, and one mattress and furniture factory.

There are four lawyers, four physicians, and numerous conveyancers and notaries public.

There are two ice houses and a large number of wood yards.

One wagon shop, one stage and express office, five ore cabinets, one photographic gallery, one hook and ladder company, one military company, armed.

Roads to the saw-mills are splendid, and lumber can be procured on short notice. Rico has a money-order postoffice, and was compelled to be made such within a shorter time after the establishment of the office than any other postoffice in the United States, on account of the great demand and increased call for money or der business.

There are no Indians at or near Rico, and we are in no more danger from Indians than are the people of Massachusetts or Vermont.

In the Dolores valley, along the river, above and below Rico, a water power may be had, which will supply the requisite for any kind of machinery in the known world.

There is enough saw-timber around Rico to build a city of several square miles. Board in first class hotel \$10 per week and lodging, \$10 do.

A GOOD MINER WANTS a First-Class Pick AND AN EQUALLY GOOD SHOVEL.

His experience is that it is next to impossible to get them in a new camp. We have handled such goods for thirteen years, and through the acquaintance we have had with the best miners in the United States we have been able to obtain the best patterns and induce manufacturers to make the goods as we want them.

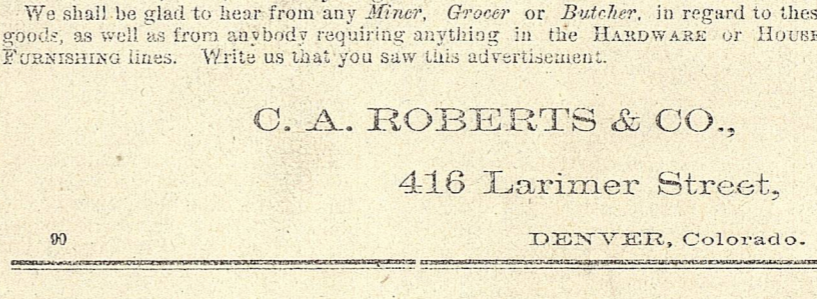

The "COLLINS" PICK and "MOORE" SHOVEL are made after these patterns, and are perfect in shape and quality. The Pick has four inches of best steel on each point, not a small bit as most picks have, and the SHOVEL is made stiff, half spring and full spring, and with a "hang" that will deliver its load in the easiest manner for the miner.

We are the only house in the state that carries a full stock of GROCERIES and BUTCHER'S HARDWARE for fitting up stores: Scales, Trucks, Oil Tanks, Coffee Mills, Meat Cutters, Stuffers, Saws, and everything else needed. We shall be glad to hear from any Miner, Grocer or Butcher, in regard to these goods, as well as from anybody requiring anything in the HARDWARE or HOUSE-FURNISHING lines. Write us that you saw this advertisement.
