Chocolate Mint Sherbet

Cater to the golden moments of the summer social season with simple sherbet and cookie refreshments. Here's a menu formula which will refresh the hostess as well as her guest. For shower or club entertainings, make and bake a simple cookie a day or two in advance of the party. Make the frosting on party day, so cookies have the freshly baked look. Plan to serve chocolate mint sherbet, made the simple nonfat dry milk way. Make the sherbet a day in advance of party time. This recipe makes a pint and a half . . . twice the recipe will reward you with a quart and a half of easily made refreshing Chocolate Mint Sherbet—economical and good tasting when made with nonfat dry milk.

Chocolate Mint Sherbet
(Makes 1 1/2 pints)
1 (10-oz.) package chocolate covered mints
1 teaspoon vanilla
2 egg whites
1 quart liquefied Super Starlac nonfat dry milk

Set refrigerator control at coldest point. Place mints in top of double boiler. Cook over hot water until mints are melted. Gradually stir in liquid Super Starlac; blend well. Remove from heat. Cool. Stir in vanilla. Pour mixture into 2 refrigerator trays. Freeze until firm. Remove from trays to a chilled bowl. Break up with a fork or spoon. Beat with electric mixer or rotary beater until double in bulk but not melted. Beat egg whites until stiff, but not dry. Fold egg whites into the milk mixture. Return to trays. Freeze until firm, about 2 to 3 hours.

Tecumseh Topics
By Lillian Crawford

Whether wise we often have ages, such as Monday, it was enough that sleeves were appropriate during the early hours but by early afternoon we didn't mind to sit the air cooler.

Mr. and Mrs. Lucien Pierce stopped by and visited with them also.

There will be a cemetery working at Tecumseh on Thursday, June 30, and everyone is urged to come and bring their lunch for it will take all hands, all day to get the job done. Everyone interested will want to have a part in getting a cemetery fund started for the upkeep of the cemetery.

New donations to the Oplin Cemetery fund are:

J. E. Gwin - \$2.50
Mrs. Marie Windham - \$5.00
Mrs. Lawton Pentecost - \$5.00
Mr. Lee Straley and Freida spent the week end in Lampasas in order to attend the Straley reunion on Sunday.

Grandma Breeding is now back home with her son and family. Mr. and Mrs. Clarence Breeding and Patricia.

Mr. and Mrs. Buddy Wilkerson and daughter, Dianna of Coleman visited last Sunday with her sister and husband, Mr. and Mrs. Roy Campbell. Being former residents of Oplin they were soon spied by old friends and neighbors and Mr. and Mrs. Ray Floyd and Mrs. Lucien Pierce

Mr. and Mrs. Elbert Crawford of Abilene attended church services at Dudley Sunday and visited the L. V. Harries and Ira families.

Mr. and Mrs. Dale Crawford family, Mr. and Mrs. Hulon and baby visited in home of Ira Crawford Sunday.

Mr. and Mrs. Ray Floyd had a very busy week end. On Sunday they had a church service at home for the family, Mr. and Mrs. Johnnie Giesinger and daughters, Sandra, Sherri, and Tina of Dobbins. He was really in order to take a father, W. S. Barrett of home with them for a visit. Dobbins is about 4 miles north east of Houston and for once the visitors seemed that things looked better these parts than they did in Texas. Too, they appreciated the cool breeze as it is already and sultry down here. The dren had to stop and see the jumbo grasshoppers on the n to market road from high 38 to Oplin. All of things children saw their first line too.

I Give You Texas...

By BOYCE HOUSE
(Conclusion of story of Old Rip)

What was the scene which the waiting audience beheld? The three stories of the courthouse had been leveled. All that remained besides the basement was the floor of the first story -- and a jagged section of wall, some eight feet high, immediately above the cornerstone. By this time many persons were standing on the floor of the old structure; others were perched on a mound of debris in the yard but most were on the ground. Heads were thrust from the upper windows of the buildings overlooking the square. Fully 1,500 were present and eyes were directed from all sides, from above and below at the cornerstone as the drama began.

A cable was looped about the wall and the end was attached to a truck which began to tug. But there were warning shouts; the well and the cornerstone were so firmly attached that both threatened to topple. So a worker perforated just above the cornerstone, then the truck began to pull again but, once more, both wall and cornerstone were in danger of falling. A second time, the worker piled the pick and when the line again tightened, the wall fell, leaving the cornerstone in place.

All of this I saw as I stood nervously in the fringe of the crowd. Not wishing to be the target of the jibes and perhaps anger when nothing was found, I walked across the street and, entering the bank building, climbed the steps to the second floor. Just as I entered the office of a friend, there was a roar from outside and a man in the window shouted, "They've found the frog!" I rushed across the room and just then there came a louder roar and the watcher exclaimed, "and the d--- things alive!"

When the wall had been torn down, a worker, with a pick, broke a layer of cement -- an important bit of circumstantial evidence. With the layer of cement removed, a metal covering was revealed. The lid was lifted. Rev. F. E. Singleton, pastor of the Methodist Church, who had been standing beside the cornerstone peered in, then pointed and said, "There's the frog!" Gene Day, an oil man, took out the creature, flat and dust-covered, and handed the apparently lifeless frog to the minister who in turn gave it to Judge Pritchard. Grasping the animal by a hind leg, the official held it high so that all could see and there was a cheer.

Then Pritchard saw the other hind leg twitch and the creature's body began to swell as he obtained his first breath of air in thirty-one years! That was when the greater roar arose. Excitement gripped the crowd and those in the back pressed forward so there was danger that the frog would be knocked to the ground and trampled. County Motorcycle Officer Bob Hammett took the creature, forced his way through the crowd, got on his motorcycle and rode to the edge of town to allow the excitement to subside.

The news flashed around the world. Some scientists scoffed but Dr. William T. Hornaday, former director of the New York Zoological Gardens, who had explored many parts of the world, including the Southwest, declared the feat was quite possible. Many West Texans came forward with incidents in their own knowledge of horned frogs surviving long periods without food or water. Arthur Brisbane commented in his front page column, "Today," with an audience of 15,000,000 or more Preachers told about the frog from the pulpit. He inspired poems and editorials.

On page one of a metropolitan journal appeared the following without date line or word of explanation: "First Straphanger -- They say he was flat as a dollar. Second Straphanger -- Well, you would be, too, if you'd had a whole courhouse resting on your chest for 31 years." It was said that no achievement by an individual, except Lindbergh's lone flight across the Atlantic, had ever received as much newspaper space. Old Rip, as the frog was christened was declared to be the most famous animal since the serpent of the Garden of Eden.

Some weeks after the cornerstone opening, spring began and, the hibernation season ended, vast numbers of horned frogs made their appearance. Thousands were shipped North and East, and even to foreign lands, as souvenirs. A representative of the United States Department of Agriculture warned that, because the creatures kept in check insects which were injurious, nature's balance was in danger of being upset; and there was a proposal that the Texas Legislature bar the shipments.

Meanwhile, Old Rip had gone to Dallas to be exhibited in a theater but Judge Pritchard, claiming the frog as county property, ordered his return to Eastland; so he was brought back. After some weeks, Old Rip set out on a tour of the nation. In Dallas, he was "arrested" as the theatrical promoter had sued, alleging breach of contract. Will Wood -- (remember the lad who had originally owned the creature?) -- arranged for the frog's freedom on bond and the trip continued. In St. Louis, 40,000 persons filed by in a single day, a record for that city's zoo for an individual attraction. In New York City a news reel with sound (this was in the early days of "talkies") was made, with Will Wood doing the talking; a crew of eighteen men was required and the cost was approximately \$5,000.

It was in Washington that the frog achieved his greatest triumph: a call on Calvin Coolidge in the White House. Incidentally through a misunderstanding, the Eastland frog kept the president of the United States waiting fifteen minutes. Old Rip looked at Coolidge and Coolidge looked at Old Rip. Neither spoke. At last the president broke the stillness. "Silent Cal" had met his match.

The frog returned to Eastland and Wood kept him at home in a bowl. One day a "norther" struck and the layer of sand and rocks in the bowl was inadequate to shield him from the sudden and intense cold. When Wood went to feed Old Rip he found the frog lifeless. The date was January 19, 1929. He lived eleven months and one day after emerging from the cornerstone.

Is the story true? M. W. McMinn, a merchant in nearby Olden, said he saw a live frog placed in the cornerstone in 1897; and Ernest Wood said he saw it placed there. And thirty-one years later, hundreds saw the cornerstone opened and a live frog removed.

A bit of corroboration was the finding in the stone of a faded piece of paper on which Wood had written the names of his sons, Harry and Will -- (the paper called the latter Willie, which had been his nickname in 1897). Here is another perhaps significant circumstance. When a horned frog hibernates, he sheds his horns but they grow back. When Old Rip came out, (it was still hibernation season) his horns were gone and they never grew back. Could this have indicated an unusual ordeal, such as being sealed up for three decades? There are many men in prisons all over the nation sent there on circumstantial evidence no stronger than that in the case of Old Rip.

In the lobby of the present courthouse stands a glass tomb and several thousand persons each year view the frog's mummy which, it has been said, will last as long as the mummies of the Pharaohs. Above each entrance of the temple of justice there is a star and between each point there is the sculptured likeness of the frog and so it is truly stated that the beautiful five-story courthouse of brick and stone is a memorial to Old Rip, the horned frog that is a legend.

The wave of infectious hepatitis now sweeping the nation is being felt strongly in Texas. State Health Department officials are rushing quantities of gamma globulin to local health authorities who request it for use in forestalling further increases in cases of the liver ailment.

An aggregate of 1,061 cases of the disease -- sometimes called "yellow jaundice" -- has been reported as of May 28, compared with 553 cases for a similar period last year.

Infectious hepatitis, caused by a virus, is usually transmitted through close contact with infected persons and through contaminated milk, food and water. A closely related disease called serum hepatitis is spread by accidental inoculation of infected blood or blood products, or by use of needles contaminated with traces of blood from infected persons.

The ten leading causes of death in Texas during 1959 caused 60,721 out of a total of 73,753 deaths. Heart diseases and cancer were the number-one and number-two killers respectively.

Heart disease accounted for one out of every three deaths -- 24,629 -- and coupled with cancer -- 11,088 deaths -- claimed half of the total for last year.

Appoplexy was the third ranking cause of death followed in order by accidents (including automobile), diseases of early infancy, pneumonia, birth defects, general arteriosclerosis, diabetes and suicides round out the top ten killers.

Two-thirds of all deaths in Texas are attributed to the four leading causes which includes accidents.

Improvement in the control of communicable diseases -- malaria, tuberculosis, yellow fever and typhoid -- have made all of these diseases, except tuberculosis, curiosities in Texas.

The chronic diseases -- heart and vascular disorders, cancer, and diabetes -- are now leading

causes of death along with accidents and infant deaths.

Percentage-wise, the ten leading causes of death accounted for almost 82 per cent of the total deaths last year.

T. Sgt. and Mrs. D. O. West and daughters, Leslie and Laura are visiting Mrs. West's parents Mr. and Mrs. D. J. Anderson. Also Sgt. West's mother, Mrs. G. H. West of Webster City, Iowa. The Wests have recently returned from a two year stay in the Philippines. They will reside in Inglewood, Calif., when leaving here. Expected Monday for a visit is the Anderson's son Capt. D. J. Anderson and family of Mt. Clemens, Mich.

Mr. and Mrs. Vernon King of Mineral Wells, visited their sister-in-law Mrs. G. M. King in Baird over the week end.

Put A Pink Cap On A Creamince Pie

Like your pies light and palatable? You should, for they rate high on the dessert list and are particularly favored by men. A new pie with a flavor very similar to popular Nesselrode is recommended by the Borden Kitchen. It is a Pink Capped Creamince Pie. It consists of three layers. The bottom layer is a luscious cream made with a "magic" ingredient - sweetened condensed milk. This layer is covered with rum-flavored mince meat. Then, top all with a cherry-flavored whipped cream. Pink Capped Creamince Pie is the dessert to serve the VIP of the house - or when he plans to bring home important business guests.

Pink Capped Creamince Pie (Makes 9-inch pie)

- 1 baked 9-inch pastry shell
1 envelope (1 tablespoon) unflavored gelatine
1/2 cup cold water
1 (15-oz.) can Eagle Brand Sweetened Condensed Milk
1 egg, separated
1 (9-oz.) package None Such Mince Meat
1/2 cup light rum
1/2 pint (1 cup) heavy cream
1 tablespoon confectioners' sugar
1/4 cup chopped maraschino cherries, well drained
Whole maraschino cherries, optional
Shaved chocolate, optional

Highlights of the State Capitol

In looking forward to the 57th Legislature, speculation now centers on (1) who will be election Speaker of the House and (2) who will get important Legislative committee assignments. Speaker's race is following the pattern of two years ago. Both Rep. Wade Spilman of McAllen and Rep. James Turman of Gober claim sure victory. Each accuses the other of claiming votes from members that aren't actually pledged to him.

tion by the Lieutenant Governor for the Senate and by the newly elected Speaker of the House.

Make-up of committees is of crucial importance since an unfavorable committee can, by delay or disapproval, bring almost sure death to a piece of legislation. Lawmakers themselves attach much personal significance to their committee assignments, usually regarding chairmanship of key committees as rungs up the political ladder.

But this year some members are saying, either jokingly or seriously, that they'd just as soon pass up top committee honors. They note a high casualty rate in the campaigns among last year's key committee members.

Among those who lost out were Sen. William Fly of Victoria, chairman of the powerful Senate finance committee; Sen. Floyd Bradshaw, member of finance and other important committees; Rep. Max Smith, vice chairman of the House state affairs committee; Rep. Frates Seeligson, vice chairman of House revenue and taxation committee.

Leadership can have a high price tag, one member observed. "Some of those committees like state affairs or taxation, get nothing but hot potatoes. You make a batch of enemies every oil."

BEACH SUIT FILED - Attorney General Will Wilson has joined Nueces County officials in getting a court order to stop barricading of beaches on Padre Island by private landowners.

Action stems from the open beach bill passed by the Legislature last summer. This law, hotly debated, affirmed public ownership of beaches and guaranteed public access to them. Padre Island Land and Development Co., which put up the barricades, claims property rights up to the water's edge as a result of a Spanish land grant. Another suit has been filed at Galveston where a similar situation developed.

ture should take to insure legal and orderly development of Texas tidelands.

Sadler suggested the state should chart its course carefully to avoid the possibility of any more difficulties in the management of its submerged lands. Recent U. S. Supreme Court ruling that state ownership extends 10 and one half miles from the shoreline ended a 15 year tidelands battle.

First thing, said Sadler, will be to settle by law where the shoreline is so the tidelands boundary can be established in relation to it. Also, the boundary between Texas and Louisiana coastlines will have to be definitely determined. Court decreed Louisiana owned tidelands for only three miles out.

DON'T FENCE US OUT - You can ride horseback to your heart's content in the Davis Mountains State Park, but be sure to close the gate as you come and go.

This is the gist of a State Supreme Court ruling in a case which pitted the State Parks Board against the owners of grazing rights in the Davis Park. State has a long-term lease on the land for park use with grazing rights reserved by the landowners. Owners declared public horseback riding in the 1,340 acre area interfered with grazing and padlocked the gates. Parks Board contended the riding was a legitimate park use to which the public was entitled.

Supreme Court agreed, but added that some safeguards should be set up so the grazing cattle wouldn't be let loose. High court sent the case back to the local district court for the writing of specific directives.

EMPLOYMENT HITS PEAK - Employment in Texas hit an all-time high this spring with 3,454,000 jobholders, Texas Employment Commission announced.

High point was hit in April. Part of it was attributed to the usual good-weather pickup in farm and construction activity, part of it to industrial expansion.

A further increase in farm employment is forecast as planting, irrigating and cultivating work gets into full swing. Non-farm employment rose by 32,000 between March and April, hitting a total of 3,053,100.

YEAR TO REMEMBER - An historic Texas date, 1836, will be used on the road signs in San Jacinto State Park, the State Highway Commission announced.

Approximately 6.5 miles of roadway will be marked Park Road 1836. It will run from a junction with State Highway 134

and will include all state-maintained road sections within the limits of San Jacinto State Park near Houston.

SHORT SNORTS - Joe G. Moore Jr. of Austin has been appointed secretary and research director for the State Finance Advisory Commission. Moore was at one time a research assistant for the Texas Legislative Council, helping in a study of state tax laws. Next meeting of the Commission, appointed by the governor to study state finances and make tax recommendations, is set for Friday, June 17. Texas draft quota for July will be 290 men, State Selective Service Headquarters has announced. In addition, local boards have been asked to send up approximately 1,000 men for pre-induction exams.

Mrs. James R. Gibson of Temple will be in Baird this week end to see after rent property.
