THANKSGIVING — PAST AND PRESENT

Most of us will celebrate Thanksgiving Day as the traditional American family holiday, giving thanks for the blessings that have come to us and our loved ones. President Johnson, in his Thanksgiving Proclamation, asked that all Americans gather in homes and places of worship to "give thanks to God for His graciousness and His generosity to us, and to pray to Him that the forces of evil, indifference, intolerance and inhumanity may vanish from the face of the earth and that peace, reason, understanding and goodwill may reign supreme throughout the world."

Thanksgiving is a day of peace, of rest. Because of that, it is interesting to note that Thanksgiving Day 100 years ago marked the eve of the most ferocious military engagements ever fought in the Texas Panhandle — the so-called "First Battle of Adobe Walls."

It was on November 24, 1864, that scouts ranging ahead of Colonel Kit Carson's force of 400 U. S. soldiers and friendly Indians discovered 4,000 to 5,000 hostile Kiowas and Comanches camped along the Canadian River in what is now Hutchinson County. This day was the second of the nationally established Thanksgiving Days as designated by President Lincoln's proclamation, but accounts of the battle indicate that no one in Carson's command was giving a thought to the occasion.

The purpose of Carson's campaign was to punish the Kiowas and Comanches for a series of summer and fall attacks along the lightly guarded Santa Fe trail. Colonel Carson had led his force from Fort Union, N. M., whose remains are today preserved as a National Monument north of Las Vegas, into the Texas Panhandle to attack the Indians in their winter encampment. After scouts found the hostile villages late on November 24th, the soldiers attacked at dawn the next day, driving the enemy from one village of some 170 tipis and moving swiftly eastward toward the north bank of the river toward other villages sighted by the soldiers.

At the remains of an abandoned trading post—the old adobe fort which gave the location its name—Kit Carson ordered a halt and corralled the horses inside the crumbling walls. It was well that he exercised such prudence for soon his command was surrounded by more than 3,000 Indian warriors who repeatedly charged the ring of troopers. The battle raged through the day and finally Carson was forced to order a withdrawal back through the destroyed Kiowa village and to the safety of the hills beyond.

Military men who studied the battle believe the U. S. soldiers might have been annihilated, as Custer's command was to be wiped out 12 years later and 1,000 miles to the north, had not Col. Carson bolstered his cavalry and infantry with two mountain howitzers. The cannon kept the attacking Indians from concentrating their attacks and then provided the necessary support for the retreat. Carson ordered late in the day.

It is believed that the battle

in the Panhandle that November day 100 years ago was the largest pitched battle, from the standpoint of the number of men engaged, ever fought between soldiers and Indians west of the Mississippi. Now, visitors occasionally drive to the Turkey Track Ranch to visit the monuments commemorating the Adobe Walls battle fought in 1874, when Billy Dixon and a band of Buffalo hunters had to fight off another force of hostile Indians, not realizing that another stirring chapter of our Panhandle story was written ten years earlier, about a mile and a half away, at Thanksgiving time.

Enumerators Named For 1964 Ag Census

Enumerators have been named in Briscoe County for the 1964 Census of Agriculture. Crew Leader W. V. Swinburn said today. Enumerators in Briscoe County belong to a force of 23,000 throughout the nation employed temporarily by the U. S. Bureau of the Census for this year's Census of Agriculture.

Enumerators are key workers in an agriculture census. It is the enumerator's responsibility to locate every farm within an enumeration district assigned to him (or her), determine if the operator of the farm has answered all questions on a questionnaire that will be mailed to the farmer by the Census Bureau, help the farmer complete any unanswered questions on

the form, check answers for accuracy, and deliver the form to the Census Bureau.

A Census of Agriculture is taken every five years in the years ending in "4" and "9" to gather needed, up-to-date information on the nation's agricultural resources and production. Such information is vital in making decisions affecting many segments of the U. S. economy. Data gathered include the number and size of farms, acreage and harvest of crops, livestock inventory, information on farm equipment and improvements, farm products sold, and on some production expenditures. Information also will be collected on use of fertilizers, insecticides, and herbicides.

The enumerators will be trained in a special 4-day home study course designed to prepare them for the farm census, their crew leader said.

The following persons have been appointed:

Garrett W. Morrison, Arnold M. Turner and Laverne Stevens.

Mr. and Mrs. James Brunson were host and hostess for a fish fry at their home Saturday evening. Those attending were Mr. and Mrs. H. E. Brunson, Florence, Kansas; Mr. and Mrs. B. K. Hamilton, Mr. and Mrs. R. L. Brunson, Mr. and Mrs. D. E. Brunson and family and Jess Brunson.

Edna Hawkins was here Monday to attend the funeral services of Mrs. Clarence Barrett and J. W. Ewing. She moved part of her household things to Lockney Monday afternoon. She has an apartment there and plans to move the rest of her things this week.

Joe Beth Merrell made 11 points.

The boys won 56-13, each boy playing good. Roland Hamilton and Lynn Payne each had 15 points to lead in scoring with David Brunson next with 9. Oliver Clark 6, Barry Johnson 4, Johnnie Pointer made 3 points and Bruce McWilliams and Jerry Merrell each contributed 2 points to round out the scoring.

Junior Hi Teams Are Undefeated

By Sherry Stark

The Quitaque Junior High Panthers and Pantherettes each won a pair of ball games, one played Thursday night, November 19 and the other November 23.

Thursday's games were played at Quitaque with Silverton for the rivals. The girls beat Silverton 37-10. Sherry Stark led in scoring with 19 points, Barbara Chandler and Joe Beth Merrell each had 8 and Kay Cochran tossed in 2. The guards had only 2 fouls between them and did an extra good job.

The boys took a 53-13 victory over Silverton with Roland Hamilton leading the scoring with 15 points. Lynn Payne followed close with 12, Barry Johnson 8, David Brunson 6, Jerry Merrell and Johnnie Pointer each had 4 points and Oliver Clark and Bruce McWilliams completed the scoring with 2 points each.

Both teams played very fine. The Jr. Hi teams journeyed over to Matador Monday night and won both games. The girls had a victory of 38-27, this being the closest game so far.

Barbara Chandler had scoring honors for the night with 15 points. Sherry Stark was next in scoring with 12 points and

Panthers Win Number 4

Quitaque's High School basketball teams split a pair of games here Tuesday night with the Panthers taking their first easy win of the season, 72-48, while the Pantherettes lost 34-47. For the season now the Panthers are nearing the .500 mark, having won 4 and lost 5. The Pantherettes are still looking for their first victory and are 0-9.

The Pantherettes made a close game of it for the first half Tuesday night, leading the entire first period and staying within striking distance until midway of the third quarter, when the Dragonettes began to pull away.

Jill Johnson, who started at guard but was switched to forward by Coach King, won scoring honors for the Pantherettes with 15 points. Patricia Brunson tossed in 14 points and Deborah McKay 5. Barbara Reagan and Lynette Taylor also saw action at forwards. Donna Bedwell, Shirley Dowd,

Charlene Bailey and Gwen McKay manned the guard posts.

The Panthers were a little slow finding the range against the Dragons and trailed most of the first quarter but did rally to go ahead 14-12 at the end of the first period. The Quitaque boys began to pour on the coal in the second quarter and at halftime had doubled the visitors in scoring, leading 38-19. The third quarter was more of the same and during that period Coach King began to run in the reserves, giving them some experience with the first team, and most of the fourth quarter was played by the reserves.

Quitaque led at the end of the third quarter by 61-32.

Ten of the eleven members of the Panther squad got into the scoring parade with Jamie Johnson leading the way with 21 points. Jamie also played a fine defensive game. In fact, the entire Panther team played well on defense. Only one Dragon was able to score in double fig-

ures—Nance getting 11 points to lead the point making for Paducah. The Dragons have just finished playing football and their team is still rough. Their team will be harder to beat, no doubt, when Quitaque returns the games December 8.

Friday night the Panthers and Pantherettes take on another flock of birds, the Silverton Owls and Owlettes, the games to be at Silverton. The Silverton teams have played three games and have won them all to date. The Owlettes are always tough to beat and will be favored to beat the Pantherettes.

Over on the other side of the ledger, however, is a different situation. The Owls haven't won over the Panthers in several years and there is probably no one in the world they would rather beat than Quitaque. This might be the year they will do it for they are reported to have most of last year's team back. There is a psychological advantage to any team that has been

Census of Agriculture Questionnaires Sent To Farmers of Briscoe County

Questionnaires for the 1964 Census of Agriculture are now being mailed out to farmers and ranchers of Briscoe County, according to W. V. Swinburn, crew leader in charge of the census in the county.

The questionnaires are expected to reach the farmers within a few days. This will allow the farmers a period of time in which to consult their 1964 farm business records in order to answer questions on the form accurately before enumerators begin calling on individual farmers to collect the questionnaires. These visits are scheduled to start on November 27th in this county.

An enumerator will call on every farmer in the district under his supervision, the crew leader said. At the time of the call, the enumerator will help the farmer complete answers to any questions that prove difficult to understand and check the form for accuracy.

The do-it-yourself aspect of the farm census is aimed at saving time and effort.

able to win over another for a long stretch of time and the Panthers may need that edge. It will probably will be a good ball game between two old rivals. The Silverton teams come to Quitaque Tuesday night for return games.

Next week, Thursday, Friday and Saturday, Dec. 3, 4 and 5 the Pantherettes and Panthers will play in the Kress Tournament. The Pantherettes will play Hale Center at 2:30 p. m. Thursday. Built and financed by the Triborough Bridge and Tunnel Authority under the chairmanship of Robert Moses, the \$325,000,000 bridge links Brooklyn and Staten Island across the famed Narrows, entrance to New York harbor. Shown in photo is the famed New York skyline (top left), Brooklyn (right) and Staten Island (lower left). The bridge with its immediate approaches is nearly three

miles long. Its center span of 4,260 feet is 60 feet longer than the former world's record-holder, the Golden Gate Bridge. The new bridge is a twelve-lane, double-decked artery with a capacity of 48 million vehicles annually. The upper level is to be opened initially; the lower will be opened when traffic volume requires the additional capacity. Connecting with new expressways, the bridge is a major link in the Interstate Highway System of the Eastern seaboard, and will carry millions of visitors to the New York World's Fair in 1965.

HISTORIC MOVE

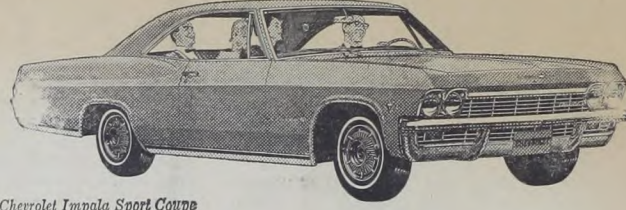

Ben Franklin wouldn't believe his eyes, but this handsome new skyscraper on New York's East Side is the new home of The Saturday Evening Post and its sister publications. Franklin brought out the first issue of his weekly in a little Philadelphia print shop 236 years ago. Now The Post, descended from his publication, is housed in a 32-story building on the corner of Lexington Avenue and East 54th Street, in Manhattan.

The Saturday Evening Post building is the new home of the Post's editorial and advertising offices, and of the Ladies' Home Journal, Holiday, The American Home, and Jack & Jill, as well as the corporate offices of their publishers, The Curtis Publishing Company. The Post and other Curtis publications have changed frequently over the years to keep up with new developments. Nowhere is this progress shown more dramatically than the transition from the little shop of "Ben Franklin, Printer," to New York's newest office tower.

Household Hints

BY JOAN MARCH WORDEN

Director, Pine Cleaner Information Center.

Working wife? There are more than 15 million of us. "Going to work" plus keeping house really equals two full-time jobs—but if you apply business practices to your household operation, you can short-cut your at-home worktime without short-changing your family. Here are five thought-starters for becoming an "organization woman" in your own home:

1. Memo—rise. Write memos, keep continuing lists for the grocery store, drug, department stores and milkman, then when you're ready to order you'll have the week's needs all in one place. If you can never find a pencil and pad try one of the magnetic combinations which includes a pencil on a chain and tack it up near the telephone.
2. Put your telephone to work for you. First, tape a small file card with most-called numbers near each phone. You'll save time and energy if you buy your groceries, household supplies and whatever else you can sit down with telephone in hand. When shopping for groceries stock up on staples and you won't have to shop as often.
3. Install a bulletin board in your kitchen area. If you don't have a special place for a board, use the side of the refrigerator. You can attach notes and lists to it with miniature clothespin magnets. Good place for appointments, family job assignments and shopping lists, too!
4. Keep all appliance instructions

and information in one place even if it's a brown envelope in the kitchen drawer. That way you'll be able to spot minor repair needs as they occur, and also refresh yourself from time to time on caring for your equipment. This cuts down on service calls and on the frustration of inactive household machinery.

Another tip: Make a list of repairmen and services and write it on the outside of the envelope.

5. Organize your cleaning products to save steps. Put small items in a portable tote of some kind and include versatile products—one product that will do the work of two or three means less work for you. For example, a high-concentration pine oil cleaner will clean, disinfect and deodorize all in one operation. You can use this triple-duty product in every room of your house—even in the laundry room as well—as an addition to the wash water to cut down germs present in every family's wash.

All these tips will help short-cut the working gal's homemaking time and at the same time streamline housekeeping for the at-home homemakers.

THE SCYTHE

We "old-timers" are passing on.
 One by one we'll soon be gone.
 Soon out where the shadows creep,
 There in silence we shall sleep.
 Sleep until the morning breaks—
 'Til Christ the dead to life awakes.
 We "old-timers" are passing fast.
 Hopes of childhood hang half-mast.
 Soon they'll take us out there,
 Place some flowers on our bier.
 Then 'ere the flowers fade,
 They'll forget the new mound they made.

AFTER ALL I'VE DONE FOR YOU!

Let us do one thing for you—supply you with Christmas Cards from our fine selection of beautifully illustrated cards.

We "old-timers" are headed west.
 Where moonbeams flicker over the crest:
 Out where all trouble ends.
 Out where enemies become good friends.
 Out where the sun will forever set.
 Where we'll all forgive and forget.
 We "old-timers" with weary feet,
 Soon will pass from off the street.
 We lived, loved—made many mistakes.
 Had some joys mingled with the heartaches.
 Soon we'll embark for some unknown shores—
 Where death will even up all scores.

Remember not the sins of my youth, nor my transgressions; according to Thy mercy, remember Thou me for Thy goodness' sake, O Lord. —(Psalm 25:7)

Some of us find it difficult to forgive ourselves for the thoughtless or willful sins of our younger days, and a feeling of guilt lies like a stone on our hearts through the long years. But Our Father, through Christ Jesus, forgives us when we are truly repentant; we should then forgive ourselves.

"SEASONAL SHORT CUTS"
In most parts of the country, winter isn't the longest season of the year—it just seems that way. But unless you live on an iceberg there are a good many things you can do to streamline your housekeeping for an easier (if not shorter) winter:

(1) Recolor and repair at the same time: You can make a fading color on slipcover or upholstery go another season with the aid of one of the new aerosol fabric sprays. Color is sprayed onto the fabric much the same way as is paint. Result: fabric color is brightened, almost like new, saving both time and money.

(2) Winter coat for carpets? Yes, your carpets can wear a winter coat—or at least a coating. Once your carpets are clean, spray them with an aerosol fabric coater and water-proofer. Keeps dirt out—or at least on the surface where it can be more easily wiped off. Winter won't leave quite as much of a mark on your carpet with this kind of "topcoat."

(3) Waterproof winter clothes: You can now do your waterproofing at home, push-button style. This year, when snowsuits, coats and other outer gear are washed or dry cleaned, find one of the new waterprooferers in aerosol form. A few pushes of the spray and the outergarment will be ready to keep you (or yours) dry until the next washing or cleaning. You might take a time saving tip from dry cleaners and line up all garments to be treated on a line or hung on a pipe in the basement. That way they'll be at the right height for you to work and already hanging on hangers for the waterproofing to dry before storing the garments back in the closet.
