FROM MRS. JAGO
A note from Mrs. Jago who has been living for a year or so in Amarillo, brings a word of appreciation to her many friends here.

About a month ago Mrs. Jago slipped and fell and suffered a broken leg. She is in the Northwest Texas Hospital at Amarillo. She says she has developed pleuritis and does not know how long she will have to remain in the hospital. Mrs. Jago says "It's six weeks tomorrow since I came here. It has not been too bad. I have had good treatment. Have had so many visitors and the most wonderful people on earth live right there at Quitaque. They have not forgotten me for one single day. I get cards, letters, gifts, constantly." She sends thanks to her friends and says she wishes she could see all.

PARTY FOR YOUNG PEOPLE

MARCH OF DIMES TREASURER
The appointment of Bill Middleton of Quitaque as treasurer of the Briscoe county committee for the March of Dimes and celebration of the President's birthday is announced by George Waverly Briggs, vice chairman of the Texas State Committee. The appointment of Mrs. O. T. Bundy of Silverton as director was previously announced. Frank Gillespie is local chairman.

This year will mark the twelfth annual campaign to raise funds to fight infantile paralysis. Of the funds raised here, fifty percent will remain in the county for direct assistance to local victims of infantile paralysis, and for preparedness against a possible epidemic here, while the other half will go to the National Foundation of Infantile Paralysis for national research toward eventual eradication of the dread disease.

MONTY BOB MOORE IS ANNAPOLIS APPOINTEE
A clipping from a Torrance, Cal., newspaper tells of the selection of

Monty Bob Moore, son of Mr. and Mrs. Tim Moore, for appointment to the Naval Academy at Annapolis. The Moores moved to California from Quitaque about five years ago. While here he was owner of Farmers Food Store. The clipping:

One of five of the whole crew on the USS Essex, aircraft carrier, Monty Bob Moore, 19, water tender, third class, of Torrance, has been selected for appointment to the U. S. Naval Academy at Annapolis, Md., according to word received by his parents Mr. and Mrs. Ralph E. Moore, 1908 Martina Ave. Young Moore was one of five out of a field that narrowed down to 40. Then it was reduced to 10, and Moore still was in the running. A rigid physical examination then was given, it was said, and Moore came out as one of the five top men.

He was with the Torrance high school class of 1942, and worked at Doak Aircraft prior to going into the Navy about one year ago.

Letters From the Boys

(Continued From Page 1)

Well, anyway I am. I can hardly believe it myself. It took 36 hours to come from Guadalcanal and that is a pretty good jump.

I have been on Bougainville for the past year. I don't know whether you know where it is or not but I do know it is a hell hole. I don't guess there is any use telling what is down there. The reason I got sent back is that I have a spot on my lungs and it is possible I have TB. But there is no use to worry about it. The doctors are pretty sure they can cure it by getting an early start.

I will be sent to New Mexico in a few days. Don't write until you hear from me again.

Jan. 13—Dear Sis: I will drop you a few lines to let you know I am ok and hope you are well. I arrived here (Santa Fe, N. M.) yesterday evening. I came from San Francisco on a plane. I have ridden about eight thousand miles on a plane. I think that is just about far enough by air.

Has Gray ever gotten back to the U. S.? I hope that he has. I thought for awhile that he was going to beat me back. I sure would like to see him. I don't know how long I will be here at this place. I guess until I get well.

I am right on the edge of a desert. I can see snow all over the mountains but it is pretty down here. I don't want you all to think I'm about to kick the bucket. I feel just about as good as I ever did. I just have a spot on my lungs and they said it would take a long rest to clear it up. I don't know what they call a long rest but I hope it isn't too long. Some of the boys have had furloughs from here. I hope I can get one in a few weeks. I sure would like to see you all. It has been a long time since I had any mail from any of the folks because I have been moving around so much

lately. Well, sis, I'm not much hand at writing so I'll quit for this time and be seeing you soon.
Love, from your brother Euel

PANTHER SCREAM

HIGH SCHOOL DAYS

By Lela Fab Morrison
When you enter high school, make the best of it.

Stand up and take it and don't try to sit.
When the teacher yells "Get to work Steve"

Don't get your books ready, as you think you will leave.
Don't talk so much to the teacher

Peewee
Aid you'll get along better with the teachers, you see.

As for Shug, she's quite a pest
But she gets her work and don't let it rest.

Her friend Hope is pretty good, too
On her lessons, but for sense is who

Janie Hamilton is the one I mean,
With that sense of humor and eyes so keen.

R. D. Williamson and his manly figure
He can whip a white man, or even a negro.

As for the beauty of the class, it's Coleen.
I won't describe her as you've already seen.

Evelyn's sense gets us all down.
Why don't we all study and all go to town?

The cutie, cutie of the class
Who's so struck on Jackle Bass.

I won't tell her name, cause she'd beat me up.
But comparing our size, she's a mere pup.

And all the sweetness of Jimmie Wise
To old and young of any size.

Costo Anderson is our handsome man
And even more handsome whenever he stands.

M is for Myrtle who is so shrewd
Who's always friendly and never rude.

Betty Foster who is our basketball fan,
She really works when she can.

P is for Patsy a bonnie lassie,
Sometimes sweet and sometimes sassy.

Elizabeth is quiet and very nice
But gets into meanness once or twice

Allan Brummitt, our great football hero
Who studies kinda hard, but some times makes zero.

L is for Lela, oh my gosh
I wish you would hush, it's too much bosh!

SILVERTON TO HAVE FARM MACHINE REPAIR COURSE

Silverton high school opened the farm machine repair course, sponsored by the Quitaque vocational agriculture department, stated E. C. Whipple, aggie teacher. Thirty-eight farmers signed the roll and a large number of high school boys were present but could not sign the roll under the new setup.

Several jobs were started and plans made for a heavy load in the course. All farmers are encouraged to make appointments and asked to keep the appointments rain or shine on all week days Monday through Friday, at appointed time.

RED CROSS MEETING AT SILVERTON MONDAY NIGHT

The annual meeting of the Briscoe County Chapter of the American Red Cross will be held Monday night, Jan. 22 at 8 o'clock at the Red Cross room in the court house at Silverton.

Every member of the chapter, and that includes everyone who has contributed a dollar or more to the Red Cross the past year—is invited to attend.

Judge C. D. Wright is chapter chairman. Officers will be elected for the coming year.

Judge Wright urges every chapter member to attend. "This is your Red Cross. You should learn how your chapter is being administered and what it is accomplishing. Practically everybody in the county is a member and we hope to have a good attendance of the men and women who contributed to the cause last year."

How Yanks Routed Nazis In Chambois Trap

Washington, Oct. 8.—One of the major feats of the American infantry was the drive of the American Third Army from the incredible Chambois ambush in France

letz and beyond, in the opinion of Lt. Col. Donald L. Durfee, of New Haven, Conn., infantry observer with the 90th infantry division.

Durfee has just returned to the United States to make his report to Army Ground Force headquarters. He stated today that, contrary to widespread belief, it was the foot-slogging Doughboy who spearheaded the rapid push to Metz.

He believes that because Lt. Gen. George C. Patton commands the Third Army, many people here in the United States think that armored units led the advance.

"It was the Standard Triangular Infantry division that led the push all the way," he said. "In support was one battalion of tanks, but otherwise it was all foot soldiers."

"Naturally, some of the troops were motorized. But a good part of the men went by foot. In one day a unit of the 90th division marched 27 miles, and still was ready to fight."

"The 90th infantry composed largely of Texans and Oklahomans, is doing a beautiful job. It is highly respected by the Germans. We found that out from prisoners of war who said they knew it was the 90th chasing them and that the 90th was one of the toughest they had met."

"He saw the Chambois ambush from start to finish, often from observation posts watching the destruction of remnants of the German seventh army, which was virtually wiped out in France."

"It was really incredible," Durfee said. "The campaign began with the advance north from Le Mans and culminated with the capture of American and British forces north of Chambois will forever be regarded as one of the most brilliant episodes in the battle of France."

"The 90th infantry division, initiating the campaign in a support role, subsequently became the motivating factor in the success of the scheme."

"He said "The Nazi defeat there is plainly a rout. It was every man for himself. The roads were littered with all kinds of equipment, horses, tanks, artillery, foot soldiers and supplies. All mixed together and all being shot to pieces by the remarkable marksmanship of our artillery."

"The greatest number of shots saw fired at any one vehicle was 17 rounds by a 57 MM gun. Machine were made with just a single round."

"There were a number of sunken roads running between hedgerows. The Germans were trying to escape."

cape along these roads. Our technique was simple—we'd smash the leading vehicle and then the last vehicle, and there they were, trapped and ready for our guns to cut the column to bits.

"There was general looting going on among the Germans too. We found many wagon loads of French clothing and shoes. We found horses tangled in their harness, just abandoned because the driver couldn't take time to untangle them."

"We got vast quantities of technical equipment and radio sets. We captured mobile ordnance shops and medical laboratories and also two complete field hospitals with all their personnel and equipment. The field hospital continued to operate under their own doctors, German wounded being treated as they had been prior to capture. In two days the 90th Infantry division took 10,000 prisoners. In a period of four days the division took over 13,000 prisoners, killed or wounded 8,000 Germans and 1,800 horses, freeing 1,000 more horses which were turned over to the French."

"All this the Division accomplished at the cost of only 600 casualties and a loss of five tanks, two anti-tank guns and six vehicles for the entire campaign."

"It was the greatest ambush of the war."

Durfee is a regular army officer, a West Point graduate of 1934. His home is at New Haven, Conn., where his wife and two sons live. He continued with the 90th infantry division to a point north of Metz, leaving it on Sept. 29 to return to Washington.

"I Give You Texas"

(By Boyce House)

A friend of mine—let's call him Jim—used to like to tell about the time when, a green boy from the ranch country, he took a carload of steers to market in Kansas City. He was walking down the street after deal, with the most money he'd ever had, when he saw a sign, "Oysters."

Entering, he seated himself at the counter and said, "Bring me some fried oysters." The waiter said, "Yes, sir; they're forty cents a dozen; how many will you have?"

Now the only kind of oyster that Jim had ever seen were in a can—cove oysters, with a "nigger

head" on the label, (you old-timers can remember). Those oysters were about the size of your thumb nail, so Jim did some rapid calculating and then said "Bring me three dozen."

It seemed to him that the waiter sorta blinked but pretty soon he returned with a big platter full of oysters—fresh ones of course and much larger than Jim's canned variety.

"That was the most oysters I'd ever seen," he related, afterward. "But I pitched in and ate 'em. Just as I finished, the waiter came back and said:

"That was the first dozen; I'll have the second dozen ready in a minute."

"Well, out he came with another big platter and I ate them, much slower than the first ones because I now realized that the cook and his assistant had been working in relays on my order and out would soon come the third dozen—which it did.

"I hated to admit I was just a bumpkin so I started in on it. It so happened that I had on my overcoat and, when I'd catch nobody looking, I'd drop a couple of those pesky oysters into the pockets. In this way I finally got rid of that third platterful and staggered up to the cash register, and asked how much I owed.

"The waiter replied, "I don't own the place but I been talkin' it over with the chef an' we decided that anybody that could eat three dozen oysters—why, the show was worth the money; you don't owe a cent!"

"But," Jim concluded, "it was eight years before I could stand to gaze into the frank and open countenance of an oyster."

Hope is the dream of a man awake.

Turkey To Have Flying Field

Turkey is going to have a flying field. This information was given out Wednesday by Lewis Eudy and his brother Gus who are due the credit for this new acquisition.

The field will be located on Jim Eudy's land just west of town and the landing strips will be built by Commissioner Irl Twilla and his men and equipment just as soon as the weather permits.

Lewis and Gus Eudy, together with Ed Meacham and Walter Geisler, have been taking civilian pilot training at Childress for some time the Eudy brothers being ready to solo this week but were grounded by the weather. The other two local flyers have a few more hours training before they are ready to solo.

Due to the proximity of the bombing ranges, the Turkey field had to be approved by the Colonel at the Childress field, which was done Wednesday. Also because of the bombing ranges the air boundaries for flight are very limited except to the west.

With completion of the landing field, the civilian instructor from Childress will come out each Friday to give instruction to any civilians who wish to learn to fly, and Lewis Eudy stated that it is planned to organize a flying club, enlisting members from Turkey, Quitaque, Flomot, Matador and all over this area.

GENE REINHARDT DIES AT LUBBOCK DEC. 31

The following clipping from the Matador Tribune tells of the death of a young man well known here where he was driver for some months of the Leon Ice Company truck:

Friends learned here last week of the death of Herman G. (Gene) Reinhardt, 18-year old son of Mr. and Mrs. M. T. Reinhardt, former Matador residents, now of Denver City, Texas. The youth died Sunday afternoon, Dec. 31, at West Texas Hospital in Lubbock, and was buried at Crowell, Tuesday afternoon, Jan. 2.

He had been in the hospital 5 weeks where he had undergone treatment for a heart ailment. He was first conveyed to the hospital on the 22nd of September, remaining until the 11th of October, when he returned to his home. On November 10, he had to re-enter the hospital and never recovered.

He is survived by his parents and two brothers Sgt. Malcolm T. Reinhardt, a Japanese prisoner of war, and Pvt. Robert L. Reinhardt of the Amarillo Army Air Field.

THE BOYS SAY THANK YOU

A letter of thanks for gifts received at Christmas which were sent to boys from Gasoline who are in service, by women of the community. This letter is from Cpl. Aubrey Matthews, in Italy, and was received by Mrs. Lawrence Bedwell:

Hello Lois and Lawrence: Received the candy from the club and to say it was appreciated is putting it mildly because I appreciated it very much. It was very, very good. It's nice to be remembered by friends at home. Lois, as you know, I was always a poor hand at writing letters so I wish you would take the opportunity at your next meeting to thank your club members for me. I hope to be coming back to old Gasoline one of these days and boy what a day that will be! In the meantime I'll continue on this little educational cruise in the "Oh, so beautiful, sunny Italy."

A friend, Aubrey

Both batter and frosting are made with coffee in new cake recipe.

Coffee, which continues to become more popular as America's favorite hot or iced drink at a hours of the day, is one of the finest flavorings for desserts.

Here is a new, tested layer cake recipe in which coffee is the only liquid used. To make the right amount of proper strength brew for Coffee Layer Cake, use 6 tablespoons of coffee and 1½ cups of water. Brew in a small-size coffee maker, if you have one.

Or, boil the water and pour over the coffee which has been placed in a warmed saucepan. Stir, let stand for three minutes and strain. This method will give the required amount of strong coffee for both cake and frosting. In either case, use vacuum-packed coffee from a glass jar in which freshness is held intact under the resealable lid.

Coffee Layer Cake: (Makes 12 8-inch layers) 2 c. cake flour, 2½

baking powder, ½ t. salt, ¾ c. shortening, 1 c. sugar, 3 eggs, ½ t. vanilla, ½ c. cold strong coffee.

Sift flour. Measure and sift together with baking powder and salt. Cream shortening. Add sugar gradually, creaming after each addition. Add well-beaten eggs. Add vanilla and beat thoroughly. Add dry ingredients alternately with the coffee to the creamed mixture, stirring just enough to blend thoroughly.

Pour into well-greased pans and bake in moderate oven (375°F.) 20 to 25 minutes.

Boiled Coffee Frosting: Combine ½ c. sugar, ½ c. strong coffee and ¼ c. bottled light syrup in saucepan. Bring slowly to boil, stirring until sugar is dissolved. Continue boiling without stirring to firm ball stage (250°F.). Remove from heat. Pour over 2 stiffly beaten egg whites, beating constantly until frosting stands in peaks. Add ¼ t. salt and frost cake.

The following letters were responses received from letters to local boys in service, from Baptist church. Rev. J. E. Le... the pastor of the church:

Dear Pastor: I want to thank you for the letter and Christmas I received from your church. It was forwarded on to me by dear aunt Mrs. H. S. Gibbs. I would like to thank you for the fine work you are doing on the home front, and we boys and girls out here will never forget it. With a little courage and faith we will be back with you soon. Hope you have a Happy New Year. Sincerely yours, Claude Curry

Marianas Islands—Dear Father: I wish to express my appreciation and thanks for the Christmas card and letter which I received recently. It is a genuine pleasure to know and feel that you are behind and with us.

am quite sure that none of us in the forward areas have forgotten the good people of our community and were it not for your tireless efforts and daily prayers we would not be able to gain as we do. It is certainly pleasing to know of the work on our church building. Remember us all in your prayers. Sincerely, Howard Amick

Dear Mr. Lee and Church Members: I find it very hard to express my gratitude for the touching holiday blessing card and lovely letter which I received from the church today. It's a great feeling to know one is being remembered by so many friends. Your letter helps me to realize just what a wonderful community I have to come home to after this war is won, and I feel sure it helped do the same for so many of the other boys in service. My vocabulary just isn't large enough to express what I felt when I received this letter from the church. All I can find words for is Thanks, and may God be with you all. Sincerely yours, Othel Dowd.

Wrong Pants
Teacher—If you have \$10 in one pocket and \$15 in the other, what have you?
Steve—I have on the wrong pants.

Registrar—Age, please.
She—I'm around 30.

Registrar—I can see that, ma'am; but how many years is it since you got around it?

Notice to Owners of John Deere Tractors And Farm Equipment

Please check your machines and equipment and if you are needing now, or will need new parts, plows, etc., before you start farming again, bring us your list of needed repairs as early as possible. Parts are scarce, hard to get, and freight is slow. Let's get what you need now.

We have a very good stock of parts, but we may not have some of the parts that you will need, so it is better to be safe than sorry—and delayed.

FROZEN FOOD STORAGE	✓
ELECTRIC COOKING	✓
ELECTRIC WATER HEATING	✓
AUTOMATIC LAUNDRY	✓

When you check over the things you want to buy with those War Bonds you're tucking away, you'll probably find that many of them are Electric.

Electricity will run the machines that make 'em—and run 'em after they're made.

We had plenty of electric power for every war plant and we'll have plenty for expanding post-war production.

We kept the price of electricity low, in spite of war, and you can be sure it'll stay low in peace. The sooner we win the war the sooner we can all enjoy the comforts of electric living.

Let's win the war first.
