**HIGH WATER**, which is seldom a problem in Callahan County, was the villain in the pre-dawn hours last Thursday as members of the Baird High School senior class were preparing to leave on their class trip.

Mrs. Archie Nichols, a class sponsor, found her usual route into town blocked by a rampaging creek in the wee hours Thursday. So she tried another, longer, route. Same problem. So she turned to the third route. Same story. She just couldn't make connections with the class.

But as a class sponsor, Mrs. Nichols kept trying to join the group. She made plans to fly to Galveston Thursday afternoon for the last three days of the trip.

When Thursday afternoon came, however, there were storms a-plenty dancing around. And Mrs. Nichols decided it might not be too wise to take to the air.

So one senior class sponsor missed the traditional trip this year. Four ways, you might say.

**LOOK FOR SOME** fine Appaloosa horses to be on display in the rodeo arena here Saturday. Since this is the first such show here, the entry list may not be as long as it might be, but there should be plenty of quality.

Although many may not know it, there are several prize Appaloosa herds in this immediate area.

## Brush Control Tour Delayed

Selection of a new date for a brush control tour in Callahan County is still hinging on weather conditions in the area. The tour, originally slated for Monday, was postponed because of muddy roads and pastures.

The tour is to be jointly sponsored by the Extension County Program Building Committee and the County Agricultural Stabilization and Conservation Committee.

A pre-tour meeting, which featured a talk by B. J. Ragsdale of College Station, was held Monday morning before it was decided to call off the tour. Some 45 persons were present for the meeting.

Ragsdale, extension range specialist, discussed benefits from various brush control practices. The tour had been scheduled to visit brush control work at ranches of Mrs. Vida Hill, Henry and Douglas Fry, Lewis and R. D. Williams.

## Rainfall Heavy For Callahan

Lakes and stock tanks throughout the county are completely filled, and pastures and fields were soaked. Some road construction in the county was damaged by the downpours.

**AND Sidelights**

**TEXAS PRESS ASSOCIATION**

(Editor's Note: This article was written before the compromise was reached smoothing the way for a teacher pay raise.)

**AUSTIN** — Uppermost question in the minds of taxpayers and legislators is -- will there be a new tax bill?

Answer rests with the lawmakers. And their decision depends on whether or not a teacher pay raise bill is passed.

About \$73,500,000 in new state revenue would be needed to cover the cost of Texas State Teachers Association's \$45-in-'65 program.

Alternate proposal offered by Gov. John Connally to reward experienced teachers at an accelerated rate would cost the state an estimated \$64,700,000.

Both plans are based on cost estimates for the next two years and would, of course, call for additional local money.

Hundreds of teachers jammed into the legislative chambers for hearings on the teacher-pay-raise bills, putting all the pressure possible on the legislators.

TSTA stresses that many local districts cannot afford to pay a higher share of the salaries called for in the governor's plan and that this is a state responsibility anyway.

Governor Connally says "Texas will continue to lag far behind the national average in school teachers salaries until local support shows the same increase expected of the state government." He contends TSTA is not telling the whole story "They never admit that state support of our public schools is \$56 a pupil above the national average, while local support is \$93 below the national average."

While compromise efforts floundered, a sub-committee of the House Revenue and Taxation Committee methodically and

quietly reviewed some ideas for producing more income.

Considered was an additional tax of three cents a pack on cigarettes. This would raise about \$69,600,000.

Other suggestions reviewed by the five-member group include: A two per cent sales tax on beer and liquor, \$22,000,000; Restoral of the 50c per \$1,000 corporation franchise surtax, \$24,000,000;

A one-shot inheritance tax payment date adjustment, \$6,000,000.

Senators want the House to pass a tax bill before any agreement is reached on a teacher pay raise.

A House tax committee member, active in the sub-panel deliberations, says pay raises should be determined before tax drafters decide how big a bill to write.

With the legislative session rapidly drawing to a close, and many differences still unresolved, a teacher pay raise is by no means a certainty. A breakdown in negotiations could mean no tax bill at all during the regular session.

**RECORD BUDGET** — Both houses passed the \$3,700,000,000 conference committee appropriations bill, which calls for expenditures of \$154,000,000 over the current level.

Education got the biggest share of increases in the biennial budget. These increases included \$80,500,000 for the 22 state colleges and universities; \$10,400,000 for public junior colleges; \$89,700,000 for public schools; and \$11,600,000 for vocational and technical education.

Salaries of state employees, in the classified service, will be increased 3.4 per cent each year and welfare spending will go up \$16,000,000. Judges from the district court to the Supreme Court level will get substantial raises in their annual salaries.

Soil Conservation Board was given an \$89,155 increase for its operations, including \$28,000 more for watershed planning. An additional \$3,800,000 was set aside for the Water Development Board which is being reorganized. Department of Agriculture will get \$1,400,000 increase. Animal Health Commission get \$1,800,000 less than the current spending level since the federal government is taking over responsibility for screwworm control.

**COUNTY STUDY PROPOSED** — Rep. Alonzo Jamison of Denton has introduced legislation which would authorize a thorough study of county government, with a special eye to eliminate county offices which may have outlived their usefulness. Jamison told the House State Affairs Committee, which took his bill under study, that he thinks offices such as county treasurer, justice of the peace and constable should be studied as to their necessity and effectiveness. Study also would seek ways of freeing county officials from what Jamison believes are overly restrictive statutes.

**NO MORE ROAD GANGS** — Rep. Vernon Beckham of Denison got easy approval in the House of a bill to repeal a ser-

ies of 1876 laws, including one which still requires all men 21 to 45 to spend five days a year on a road gang.

Laws are not enforced, but still are on the books, and Beckham thought it was a good idea to eliminate them.

**REDISTRICTING WOES** — As if the legislators did not have enough problems with teacher pay raises, the even thornier problem of redistricting is upon them.

Senate is in-fighting over proposed plans for Senate redistricting, which necessarily will remove some of the present members.

On the other hand, the Senators are not likely to agree with the House version of congressional redistricting.

Governor Connally, meanwhile, hinted he may not call a special session if there is no agreement on redistricting, leaving the matter up to the federal courts.

**AG OPINIONS** — Atty. Gen. Waggoner Carr holds that:

A county depository-bank cannot be selected which has among its directors or stockholders the county judge, county attorney, county clerk or county treasurer;

Law officers may use force in handling mentally ill persons to protect themselves, the persons and public;

Attoyac Bayou Watershed Authority has legal authority to develop a multi-purpose reservoir, including recreational use, and may use tax funds to finance and maintain it;

Highway Commission can sell surplus land and improvements directly to the City of Lamesa for established value without advertising and taking sealed bids;

U-Haul trailers are taxable in individual counties which are their business sites;

Hillsboro Junior College District can levy 30 cents tax for maintenance and 50 cents tax for servicing bonds.

**SINGLE HOUSE PROPOSED** — House Constitutional Amendments Committee approved for floor debate a proposed amendment to create a 100-member unicameral (one house) legislature for Texas. Proponents said measure strikes at inherent evils of the conference committee where so much major legislation is written behind closed doors and hastily voted on in closing hours of a session.

**What to do until**  
**an emergency happens**

Emergencies have practically no sense of fair play. And almost always pick the worst possible time to happen.

People seem to prefer the day your insurance lapses to trip on your sidewalk, for example.

And the car usually waits until your bank account registers empty before demanding expensive repairs.

There's no fighting it. But you can be ready. By tucking away some reserve funds in U.S. Savings Bonds.

Bonds, themselves, are emergency proof. You can't lose the money you invest in them, even if fire, flood,

robbers or plain carelessness causes you to lose the Bonds.

And when something expensive happens, you can just take them in to any bank and get yourself solvent again.

In the meantime, Uncle Sam uses your Bond dollars to handle other urgent matters, like taking care of your freedom.

Buy Bonds where you bank or on the Payroll Savings Plan where you work. Get yourself really prepared and you might even discourage a few emergencies from ever happening.

**OPLIN OBSERVATIONS**  
By DAPHNE FLOYD

Water, water everywhere - yes, that just about describes Oplin after receiving from 6 to 8 in. of rain last week. The rain came down fairly slow throughout last week, therefore there was little complaint of erosion, but in places the county roads did wash considerably.

Mr. and Mrs. A. D. McWhorter had their son and family, Mr. and Mrs. Loyd McWhorter and son Hal of Fort Worth and their daughter and family, Mr. and Mrs. Herbert Mason and son Sonny, of Lovington, visiting them over the weekend.

Congratulations to Patricia Breeding and Lynda Crawford who will be graduating with the seniors from Clyde High School Monday night, May 24. Patricia is the daughter of Mr. and Mrs. Clarence Breeding and Lynda is the daughter of Mr. and Mrs. Ira Crawford.

Kathi Scott spent Monday of this week visiting with Mrs. Ray Floyd.

Oplin Baptist Church is happy to announce that starting with the first Sunday in June, it will go full time. Their pastor is Bro. Leonard Griffiths of Abilene.

Donations to the Oplin Cemetery Fund - Eucl Tyson \$5, Sebe Monroe \$5.

More soaking rains and more general than any we've had in a mighty long time. In most every community you hear from people are talking of getting from 5 to 7 inches of rain in the past few days. Water has run under the Bayou bridge south of Denton Valley for the first time in about 3 years, so this old earth was ready to soak up a lot of water.

Graduation days are near for a large class of Clyde High students. Pat Breeding and Lynda Crawford are in the graduating class.

Mr. and Mrs. Charlie Stevenson and Uncle Charlie Yost and Mr. and Mrs. Joe Crawford visited in the L. V. Harris home during the weekend.

Melba Crawford visited Lynda Crawford from Friday till school time Monday.

Saturday, Lillian Crawford, Mrs. M. C. Miller, Melba and Lynda Crawford visited Howard Payne College in Brownwood. On our way home, we met a big rain and small hail. We visited Dale Crawford on the way home.

Mrs. Kate Crawford visited son, Carlton and family in Midland last week. Carlton has been in and out of the hospital for the past few days, having tests and x-rays made.

## UNION USUALS AND UNUSUALS

BY VEDA YARBROUGH

Hi neighbor! Rain, rain, yes that is what we got the past week. We had from 10 to 12 inches out this way. Had some wind in a few places. John McIntyre had quite a bit of wind, blew his cowshed down, lightning hit and burned out their refrigerator. Burned out nearly all telephones out our way. All tanks are full and ran around which made everyone happy. We have been very lucky so far. Have had only a splatter of hail but in some places they have had more than their share of hail.

Bro. John May and family had Sunday dinner with Burette and Johnny Mae Ramsey.

We were glad to have Mr. and Mrs. John Shrader, Mrs. Mary Anderson and Mrs. Emma Roberts of Scranton worship with us Sunday evening at the Baptist church. We welcome you people any time.

We are very sorry Uncle Allen Ellis is still real sick. We hope he gets to feeling better real soon.

The grain is really getting brown. Looks like some fields are ripening a lot faster than others. Will be cotton planting time soon as the ground get dry enough.

I visited in Cisco Friday night and Saturday with Fay and Emmett Wood.

Ollie Burnam visited one day last week with her mother, Mrs. Mary Ramsey. She and Mark also visited Sunday.

Roma McIntyre and I attended the recital of Mrs. Garland Shelton's students in Moran Monday evening. Really enjoyed it very much.

We also attended the recital of Mrs. Waddell's student in Putnam Thursday evening and enjoyed it very much also.

Putnam school will be out Wednesday May 19. Guess all of you students will be happy as you can go fishing, sleep late and maybe work a little.

We had a shower of rain Monday night and looks like we might get more any time.

Guess I better get busy, so be good and I hope to see you next week.

## Frank Freeland On Minesweeper

Franklin D. Freeland, YN2, U. S. Navy, son of Mr. and Mrs. B. H. Freeland of Baird, is stationed on a wooden ocean-going minesweeper currently deployed to the Sixth Fleet in the Mediterranean.

Freeland is assigned as leading yeoman on the ship and is in charge of the ship's office. He reported on board in early 1964 from U. S. Naval Auxiliary Air Station, Kingsville, where he was stationed for four years.

The Mediterranean in its entirety is not new to Freeland since he was previously assigned to Headquarters, U. S. European Command, Paris, France during the years 1956-1959 and visited several European countries during that time.

Twice during the cruise Freeland has been to London, England to see his wife Patricia Brown of Kent, England and children Angelique, age 2 and James, age 1. Mrs. Freeland is visiting her parents, Mr. J. H. Brown while her husband is on sea duty in the Mediterranean.
