P-TA Changes Meeting Night

The Quitaque P.T.A. met in regular session Monday evening, October 14, at 7:30. Mr. Johnny Mason, Supt. of the local schools, presided in the absence of president Glen Sanders.

The usual order of business was followed, and several projects were discussed for the P.T.A. to sponsor this year with most of those present apparently favoring the purchase of some sort of playground equipment. A committee is working on that project to see what can be purchased to benefit a majority of the students during the play-periods.

It was voted during the business session to move the time of the P.T.A. meetings to Thursday nights instead of the usual Monday nights. In the future, meetings will be on the second Thursday night of each month. The next meeting will be on Thursday night, November 14 at 7:30 P. M.

After the business session the Chapel Choir, under the direction of Mrs. Mary Stark and accompanied by Mrs. Peggy Stevens, presented three very good numbers. In addition, to the choir numbers solos were presented by Jamie Johnson and Charlene Bailey. Both are members of the choir. The numbers were well presented.

Mr. Mason asked Coach King for comments on the upcoming basketball season, which begins here Friday night. Coach King responded with some well-chosen remarks, after which Mr. Mason (with tongue in cheek, Coach King hopes) put the coach and basketball teams on the spot by saying that fans were looking forward to the basketball season and expects the teams to have undefeated seasons.

After the meeting was adjourned, refreshments of cookies, Cool-Aid and coffee, were served those attending.

Those who did not attend the meeting missed a good program, and you are urged to be present at the next meeting.

Ginning Report —

Mrs. Seburn Neatherlin Suffers Severe Burns In Home Accident Last Friday

Mrs. Seburn Neatherlin suffered serious burns at her home last Friday morning when a doughnut machine she was operating turned over, spilling the grease, hot enough to fry doughnuts, over her waist and lower body. She was moving the machine when the accident happened.

Mrs. Neatherlin was alone when the accident occurred, her husband Seburn being in Turkey to pick up some automotive parts. Mrs. Neatherlin walked to neighbor Mrs. Pete Stockton for help. She drove Mrs. Neatherlin to Turkey where she was given first aid by Dr. Hall, who advised that she be taken to the hospital for further treatment. Bill Griffin of Roberts Funeral Home was on another call at the time, and husband Seburn came for the ambulance and drove her to Matador. In addition to the burns, Mrs. Neatherlin also suffered three cracked ribs in the accident.

Mrs. Neatherlin is still at Stanley Hospital where she is reported to be doing as well as could be expected.

She plans to visit her daughter, Mrs. Barney Joe Martin and family at Plainview for a few days after she leaves the hospital at Matador.

The Panthers elected a couple of Seniors, Bobo Morrison and Jim Saul as their co-captains for the upcoming season.

USDA REPORTS ON '64 WHEAT OUTLOOK

For most of the current 1963-64 year, the wheat outlook is characterized by a good demand and a fairly tight supply, conditions that indicate strong prices, the U. S. Department of Agriculture reports in its latest "Wheat situation."

"However," the report declares, "toward the end of the 1963-64 marketing year the approaching 1964 crop and its much lower support rate will have a pronounced effect on the wheat economy. Uncertainty in the long-run outlook stems from the fact wheat farmers for a number of years have not faced the same conditions and alternatives they now have open to them."

"For the last 10 years, they have operated under a mandatory control program (as approved by growers' referendums) with individual farm acreage allotments and a support price for all production on their allotment."

"Under the 1964 program, effectuated by last May's wheat referendum, price support will be lower than for many years. Farmer may ignore their allotments and forego price support without the direct financial penalties that were in effect under a marketing quota program. However, they will lose part of their acreage history and any payments they may be receiving under Soil Bank Contracts. Any loss of acreage history will be reflected in 1966 acreage allotments.

extent of noncompliance with acreage allotments will come when seeding takes place this fall. However, a sharp drop in prices in 1964 is likely since price support for the 1964 crop under present legislation is to be 50 percent of the July 1964 parity. Based on present parity, this would be about \$1.25 per bushel. Price support will be available only for those farmers complying with allotments."

The Howard Shaw Contracting Company of Levelland submitted the low bid Monday for three dams to be built on the Kent Creek Watershed northwest of Quitaque.

The bid was \$153,787.50. Eleven other firms submitted bids on the project.

The contract will be formally awarded to the Shaw firm within a few days, according to James Brunson, Kent Creek Watershed District purchasing officer. A group of the Kent Creek W.C.I.D. drove down to Cross Plains, Texas early this week to talk with Shaw after the bids were opened. The firm currently is working on a watershed project near Cross Plains.

Brunson stated that the Shaw firm will probably start moving some of their equipment here within the next ten days and

construction may begin within the next thirty days. This first contract calls for three dams to be built, and will be located on places owned by Jim Mayfield, Lem Weaver and Freeman Tate.

Two other contracts will be let on the project, one for the construction of four more dams and the other will be for eight miles of improvement on Kent Creek, which will include sloping and shaping of the channel and constructing concrete drop structures.

It is expected now that the entire job will take much less time than it was thought and probably will be completed in one year.

The next contract is expected to be let within the next few weeks, according to Mr. Brunson.

Baptists Plan To Build Spanish Mission

Upon recommendation of the deacons and after searching prayer, the First Baptist Church voted to put off their building program for the present. Energies are to be turned to some remodeling of present property and securing property and plans for erecting a Spanish Mission Church. It was impressive to note the unity with which the church acted in this matter. The building committee continues to function, but with new direction from the church. Those comprising this committee are: O. V. Johnson, Chairman; L. B. Monk, Bill Griffin, J. T. Rogers, Jr., S. T. Bogan, Orlin Stark, Leon McCracken, Mrs. Ina Mae Baird, Mrs. Lila Ramsey, Ray Persons and Joe Bedwell.

A missions committee was elected to bring recommendation of such a person and oversee the operation of the mission. Those elected on this committee are: J. T. Rogers, Chairman; O. V. State Champion McAdoo Will Play Here Tuesday Night

Basketball Season Starts Friday Night

Basketball comes to Quitaque Friday night as the local teams open the season against always-powerful Samnorwood. Game time is 7 o'clock, as will be all season here at home.

Things will happen real fast in the early part of the season for the McAdoo teams invade Pantherland next Tuesday night, and as everyone knows, the Eagles are merely defending state champions and like the Panthers lost only one member of last year's team and have an adequate replacement for him. The Eagles treated the Panthers rather rough in two early season games last year and did not meet again after the Panthers got rolling. The Eaglettes won both

games over the Pantherettes but it is not known here how many returns there are on the McAdoo squad.

Friday night of next week the same teams go at it again, this time at McAdoo. These are games fans shouldn't miss.

This is a season eagerly awaited by local fans for it promises to be a very exciting one. Probably the finest schedule, and certainly one of the toughest ever lined up for Quitaque teams is on tap for local fans.

In addition to Samnorwood, the pre-district schedule includes Hedley, Paducah, Floydada, a one game chance at Aspermont, the team that knocked the Panthers out of the running at the state tournament at Austin year

before last and out of the regional meet at Canyon this last spring. And of course, next week's tussle with McAdoo.

To go along with these games the local teams are entered in three fine tournaments: the annual Silverton Tournament, the Claude Tournay and as frosting on the cake, the local teams have been invited to the Plainview Tournament, always one of the finest in the Panhandle. To mention a few of the teams entered at Plainview are Borgtr, Pampa, Phillips, Big Spring, Abilene Cooper, McAdoo and host Plainview who probably will be the team to beat. It will take a very fine effort from any team to win that one. Quitaque and McAdoo are in opposite

brackets in that one and if they are both good enough they could meet in the finals of that one.

That is several weeks away, however and there are a lot of games to be played first. Both Quitaque teams will be thoroughly tested Friday night as they meet the challenge of the teams from Norwood.

Coach King stated that he will probably start Jennifer Whittington, Janice Dudley and Deborah McKay at forwards; Donna Bedwell, Charlene Bailey and Brenda Whittington at the guard posts. The Pantherette lineup consists of Seniors Jennifer Whittington and Janice Dudley; Juniors Charlene Bai-

ley, Donna Bedwell, Jerry Beth Grundy, Deborah McKay, Brenda Whittington; Sophomores Marilyn Hutcheson and Barbara Reagan; and Freshmen Patricia Brunson, Jill Johnson and Renee McKay (and Coach King beams when his Freshmen cagers are mentioned. There is great potential there). The Coach says the Pantherettes should be stronger offensively and weaker defensively than last year. "You don't lose one like 'Nez Woods without being weakened," the Coach stated.

For the Panther starting lineup the coach will have seven Seniors to go along with and he said that all seven will be used and the team will not be weakened when he substitutes

any one of them. He will probably start Jack Johnson (who may be the tallest high school basketball player in the state this year). Co-Capt. Jim Saul and Bobo Morrison, Terry Woods and Robin Brown, Phil Barefield, a very fine defensive man with real quick hands and Joe Hamilton, who is developing into a good all-around threat, are the other two seniors that will divide time with the starters.

Juniors Jamie Johnson, Warren L. Merrell and Eddie Monk, Sophomore Larry Tipton and Freshman Monte Stephens, a real fine prospect, rounds out the roster of the Panthers. The coach said that he would use all of these boys during the season.

HIGHWAY PATROL REPORT FOR SEPTEMBER
 The Texas Highway Patrol investigated 2 accidents on rural highways in Briscoe County during the month of September, according to Sergeant W. E. Wells, Highway Patrol supervisor of this area.

These wrecks accounted for 1 person injured and an estimated property damage of \$9.50. The rural traffic accident summary for this county from January through September of 1963 shows a total of 20 accidents resulting in 1 person killed, 15 persons injured and an

estimated property damage \$29,285.00.

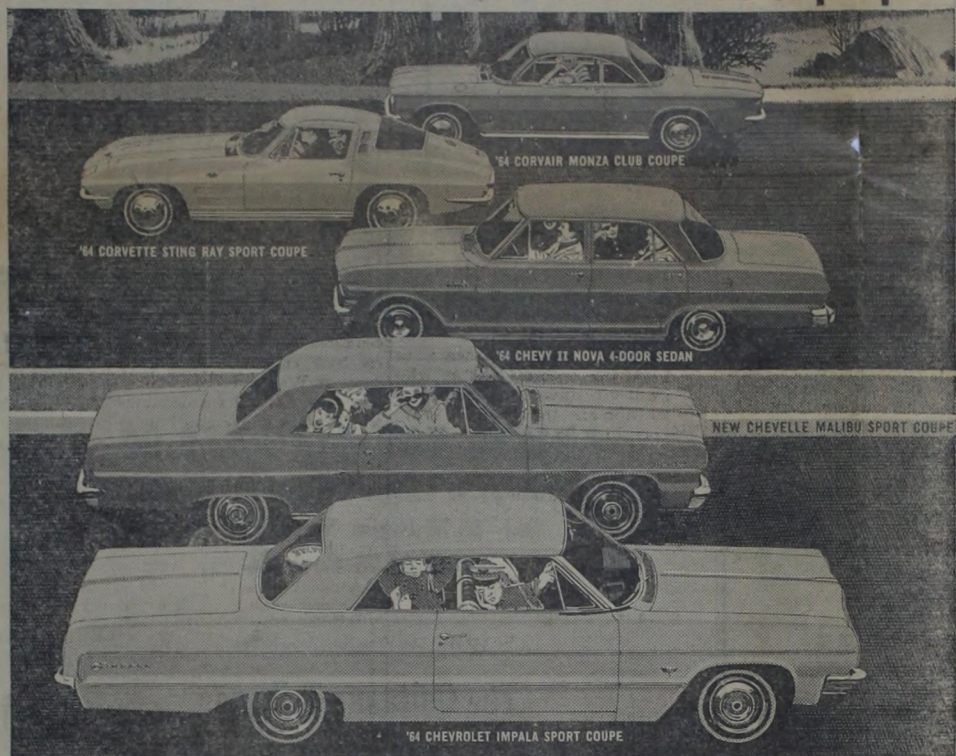

"Mr. Motorist," have you noticed in the last few weeks that the shadows of darkness are creeping upon you much earlier than they did during the summer months? The sergeant stated that October is the first three months in which hours of darkness are much longer than those of other months of the year. If these three months follow true to form as they have over the past years, it will mean more traffic accidents.

A survey was made concerning the number of accidents occurring during the months of October, November and December of the past three years. The three months in which occurred the greatest number of accidents out of the other nine months during this three year period. The results were 20 more accidents occurred in October, November and December.

The veteran patrol supervisor listed some laws and procedures for night driving: (1) Turn on your low beam headlights before dusk. The law requires headlights burning from one-half hour after sunset to one-half hour before sunrise, and during daytime when a person or vehicle cannot be seen 500 feet away. (2) The law requires you to keep your headlights on low beam when you approach an oncoming vehicle within 500 feet and when you are following a vehicle within 200 feet. (3) Do not overdrive your headlights. Good visibility on highways may vary from 250 to 300 feet. (4) If blinded by oncoming lights, ease off the accelerator and glance along the right edge of the pavement across the hood to be sure you keep in your lane. (5) Watch shoulder of highway for cyclists, pedestrians or animals. (6) Do not wear sunglasses at night, at dusk or in daytime when visibility is low.

WEST TEXAS STATE LOAN PROGRAM

West Texas State University has a unique student loan program, recognized by the school but not widely publicized. The Opportunity Plan, Inc., has since its founding in 1958 helped 1300 students complete their educations. Financed (entirely) by donations from leading Panhandle citizens, this non-profit loan plan offers to the student who can qualify an interest-free loan for the duration of his college career.

Under the Opportunity Plan, a student prepares a budget listing his proposed expenses for the semester, including items of clothing and recreation as well as tuition, books, room and board. Once approved, the student may draw checks from the Opportunity Plan on his budget as he needs the money. If he works, as most Plan students do, he is encouraged to turn in his salary thus keeping his total debt to a minimum.

The founder of the Opportunity Plan, Mr. Milton (Buff) Morris, is still the director. An interview with him may qualify a student for enrollment in the Plan if funds are available. Sometimes students leaves

debts that will never be paid, but most of those who borrow from this Plan repay the loan. Many even donate money later for the benefit of other students.
