You may have to do a little figur-"ELECTRICITY IS A BAR-GAIN"-but it doesn't take much figuring to realize what a great bargain your electric service

Your pocketbook tells you that living costs have sky-rocketedthat nearly everything costs more nowadays. But not your electric service! The average family served by the West Texas Utilities Company still gets twice as much electric service for its money as it did 20 years ago!

Check your budget and ask yourself what other item does so much to make life easy and comfortable -at such little cost!
