

# Engineers Unravel the Mysteries Of Wind

LUBBOCK—Hurricanes, tornadoes, waterspouts and dust devils have, for engineers, lost a lot of their mystery. And as the mysteries unravel, the engineers are learning to build for protection against the worst the winds can do.

Texas Tech University's Institute for Disaster Research, a pioneer in the field of wind engineering, recently conducted two workshops for specialists, the first on Designing for Wind and the second on Designing for Tornadoes.

Discussions dealt with building codes, what they are and what they ought to be.

A meteorologist, Dr. Richard E. Peterson of the Texas Tech geosciences faculty, defined and described meteorological terms describing severe weather: hurricanes, tornadoes, waterspouts, dust devils, downslope winds, thunderstorm outflows.

Sessions also included a slide presentation of examples of wind-caused building failures documented in the institute's file of 31 field investigations. Texas Tech civil engineering Prof. James R. McDonald made the presentation.

Examples came from the Joplin, Mo., May 11, 1973, windstorm; Cyclone Tracy, Darwin, Australia, Dec. 25, 1974; the Hereford, Tex., tornado, April 19, 1971; Hurricane Celia, Corpus Christi, Tex., Aug. 3, 1970; the Lubbock tornado, May 11, 1970; the Omaha tornado, May 6, 1975; the tornado at Monroe Central

School, Indiana, April 3, 1974; the Xenia, Ohio, tornado, April 3, 1974; and the Atlanta, Ga., tornado, March 24, 1975.

A cyclone, Peterson said, is an atmospheric circulation with horizontal winds flowing counterclockwise in the northern hemisphere and clockwise in the southern hemisphere around an area of low pressure. An anticyclone is an atmospheric circulation with horizontal winds flowing clockwise in the northern hemisphere around an area of high pressure.

Hurricanes are the most intense of tropical cyclones. In the Indian Ocean they are called "cyclones" instead of hurricanes. Other common names are "typhoon" and "baguio."

By whatever name, the storms are damaging. An average hurricane has winds of 73 m.p.h. or faster over an area of 100 miles in diameter, and gales above 40 m.p.h. may cover an area 350 to 400 miles across. The "Great Atlantic Hurricane" of 1944 had hurricane winds over an estimated diameter of 200 miles and gales covered a distance of 600 miles.

In addition to the hurricane itself, tides and storm surges, floods and accompanying tornadoes cause major damage, Peterson said.

Long after the winds of Hurricane Diane in 1955 died, floods in Pennsylvania, New York and New England killed 200 people and did an estimated \$700

million damage. In 1972, remnants of Hurricane Agnes dumped record-breaking rains on the east coast, and flooding caused billions of dollars of damage to areas which had never before experienced high water.

Tornadoes appear occasionally in hurricanes, Peterson said, but usually are spawned by thunderstorms. They are related to vorticity, the local rotation of the air due to curving motion and wind shears.

Tornadoes form when vorticity is concentrated into a limited column beneath a thunderstorm. On the plains three meteorological conditions are common in tornadoes: a low level layer of moist air surmounted by an upper level layer of dry air, narrow bands of strong winds in both the upper and lower air layers, and a triggering mechanism. A cold front, movement of the dry line or unequal heating at the ground surface can serve as the trigger which produces mixing from unstable situations.

"In the last 50 years," Peterson said, "there has been a great increase in the number of reported tornado occurrences, largely because of a better system of reporting rather than a change in climate."

Almost all tornado activity in the United States occurs east of the Rocky Mountains. Although tornadoes have been recorded in every month, the peak season varies with location. Generally April through July represents the peak season.

SEQUINED HARLEQUIN—Happiness is the 106th Edition of Ringling Bros. and Barnum & Bailey Circus, celebrating "200 Years of Circus in America."

## Circus Opens Friday for South Plains Residents

Celebrating 200 years of Circus in America, Ringling Bros. and Barnum & Bailey will open Friday 8:00 p.m. at Lubbock Municipal Coliseum with what has been dubbed the biggest and most spectacular show in Circus history. The 106th Edition of The Greatest Show on Earth is expected to play to packed houses for all six Lubbock performances. Producers Irvin and Kenneth Feld have assembled attractions from more than 15 countries. Acts which are thought to surpass the thrills and excitement of previous Circus editions.

With more than 300 performers and 200 animals, the Greatest Show on Earth will recreate in spectacular costuming and special effects the familiar aspects of the sawdust that generations of Americans have come to love as the past blends with the present in stunning pageantry.

Feats of fearlessness will be displayed by the performance of the largest of trained polar bears in the world (and the first such act to be put together in over 30 years) as they are led by diminutive animal trainer, Ursula Bottcher, the second Circus artist ever to appear from the German Democratic Republic; by veteran tiger trainer from Germany, Charly Baumann as he commands 15 Royal Bengal tigers in a dramatic display of courage topped off by a five tiger roll-over. Equine artistry comes in several forms including high stepping Lippizzan stallions and heroic horsemanship displayed by

6 troupes of Russian Cossacks and bareback riders.

Aerial Astonishments will be highlighted by Elvin Bale, virtuoso of the single trapeze, as he dives forward into space to catch himself by his heels; by the Flying Gaonas when Tito Gaona performs the dangerous triple somersault blindfolded; by the Flying Farias; by the orbiting Olympians performing on strato-cycles on the treacherously inclined highwire; by the Tzekovi Troupe as they traverse parallel wires in double human pyramids and the only wire walking bear in the World.

Teeterboard artists, tumbling Titans, perch perfectionists, zany clowns and the King Charles Troupe, the world's first black circus act which brings to the sawdust hi-jinks on unicycles blended with basketball bravado for "a first time ever" ball game on wheels help evoke a long and colorful tradition of Circus in America.

Ticket prices are \$4, \$5, and \$6. Opening night is Friday, August 5, 8:00 p.m. (KMCC-TV night—\$1.50 off on tickets); Saturday, August 6, at 11:00 a.m., 3:00 p.m. and 8:00 p.m. (Saturday 11:00 a.m. a \$1 discount on children under twelve). Sunday shows are 1:30 p.m. and 5:30 p.m. Tickets are available at the Municipal Coliseum Box Office, Box 5486, Lubbock, Texas 79417 and at Furr's Family Center. Call 762-4616 for reservations and further information.

## First Baptist Calls Robert Cooper

Robert Cooper

Robert Thomas Cooper was called by the First Baptist Church of Shallowater to be Minister of Music, Youth and Education. The call came during morning services on July 24. Mr. Cooper will assume his new responsibilities on August 10.

Mr. Cooper is a native Texan from Dallas. His father is an officer in the United States Air Force. The family has lived in such places as England, Hawaii and Germany. They now make their home in San Antonio.

In 1969, Mr. Cooper graduated from high school in Dallas. He attended Texas A&M University, receiving a bachelor of Arts in

Mathematics in 1972. The next year the same school granted him Secondary Certification in Mathematics and German.

In July, 1977, Mr. Cooper graduated from Southwestern Baptist Theological Seminary, receiving both the Master of Church Music and the Master of Religious Education degrees.

Former church staff positions held by Mr. Cooper include Minister of Music and Youth at the First Baptist Church of Celina, Texas, and Minister of Music at the Harmony Baptist Church of Weatherford, Texas.

He will arrive for his first time as singer on August 10 and the church is looking forward to his arrival. The First Baptist Church of Shallowater anticipates a more effective ministry to the local community with the arrival of Mr. Cooper. Rev. Boyd Pearce is pastor of the church.

## Notice

Dardie Williamson, editor of Suburban Today, is now out of the hospital and recovering at home. She will be resuming her Party Line Column, and asks that any news for the paper either be brought to her home and left in the mailbox, or call her at 832-4373. We are all happy she is doing well and hope for a full recovery soon.

## Lt. Col. Hickox to Speak at County Line

Please don't forget to come out Tuesday afternoon to open meeting for all citizens of the surrounding communities who are interested in your great country of America. Faye Pope and Faye Ann Nelson are hostess for the club who is sponsoring Lt. Colonel Joseph Hickox of Reese Air Force Base of Lubbock. He is going to show films and tell of his experiences in Russia. Bring your husbands, wives and children to see and hear some things that are going on that you should know about.

In his speaking engagements, Lt. Col. Hickox draws upon his experience as an Assistant Air Attache at the U.S. Embassy in Moscow to contrast the freedoms enjoyed in the USA. He also describes the Soviet military buildup with particular emphasis on the threat that it poses to American freedom and security, and emphasizes the need to maintain American military superiority in order to preserve them.

## Labor Day Play Day Set in Shallowater

The Shallowater Jaycees announced plans for a Labor Day Play Day including a tennis tournament, a fish fry and other games and events. President Lee Grissom said more events would be announced later.

# Party Line

Mrs. Annie Johnson entered Methodist Hospital Monday for tests and treatment.

Mrs. Roxanne Jones of La Grange is here visiting her parents, Mr. and Mrs. A.R. Shipp, who both had the misfortune recently of falling in the backyard and receiving broken limbs. They both are at home and reported doing very well.

Mrs. Mae Pair of Lubbock is visiting a few days with her son, the C.E. Pairs.

Mr. and Mrs. Bob Blackburn and children and Mrs. Lorene Blackburn visited with relatives in Sherman and went to Six Flags recently.

Judy Waller of Seminole has been visiting with Beverly Pair.

Mrs. Ann Clark of Dumas is here visiting her mother, Mrs. Cleo Vaughn.

Mr. and Mrs. A.J. Evans spent Monday in Hereford visiting with the H.M. Boozers, who is ill.

Mr. and Mrs. Robert Mauldin and daughter, Robin, and Janis Horton returned home recently after spending several days sightseeing in California. They visited relatives in Modesta and Los Angeles, and visited several points of interest along the way, including Tijuana, Mexico.

Mr. and Mrs. R.C. Smith of Yuma, Arizona were here several days recently visiting with his sister, Mrs. W.F. Williamson who was a patient in Methodist Hospital.

Mr. and Mrs. C.E. Pair and Mendi, and Robin McMenamy were recent visitors of Six Flags Over Texas.

Among those attending the funeral of Cleo Vaughn were Mrs. Judy Aims and Sonny Lynn of Goldwithe, Mrs. Barbara Bell of Houston, Nelson Vaughan of Mena, Ark., Virgil Vaughan of Inglewood, Calif., Mr. and Mrs. Buddy Vaughan of Dallas, Mr. and Mrs. Monty Boozer of Dimmitt and relatives from Sherman.

Garland Boozer, Sr., Mrs. W.C. Vaughan and Beverly Pair were in Hereford Monday visiting with the H.M. Boozer family. Mrs. Boozer has been quite ill for some time.

# County Line Chit Chats

by Faye Ann Nelson

Boy, what a let down one has after traveling for two weeks and riding 12 planes, riding the scenic train from Whitehorse, Alaska to Skagway, Alaska and renting 2 cars in order to see all of British Columbia. We aren't really tired since we did not have any driving much to do ... but it is a feeling that you cannot describe. In other words you just can't get back in "the groove" until you rest up for about a week. It is good to go on vacation and it is good to get home and see all of your friends after being in a strange place and seeing all new people. We met lots of people from every place and none of them had been to Texas so we invited them to come to Shallowater (County Line Community). They thought it such a funny name of a town. They would say Shallow - Water??? Where is that? They were mostly Germans, French, Ukrainians and Polish. I want them to come to Texas but I just hope they don't all come at the same time...Ha. I plan to write in detail the trip to Canada, Alaska and the Yukon but since we had the great pleasure of taking our 10 1/2 year old great niece (Holly Shafer) with us she informed me that she would write the story of Alaska, Canada and the Yukon territory for this weekly column so I will patiently wait til she comes over and gives me the right version of her first trip to Alaska.

Mr. and Mrs. Les Cox of Albuquerque, N.M. are visiting his sister, Mr. and Mrs. Noble Rice. They plan to attend Cohine Reunion.

Simple things and simple people are often the great among us.

Mrs. Doris Worsham gleefully shows the fruits of labor of her husband Fred's garden. She is shown holding a 14 1/2 inch squash, okra nine inches long, an 18 inch squash and two lemon cucumbers.

# Services Held For Willard C. Vaughan

Services for Willard Cleo Vaughan, 71, of Shallowater, were held at 2 p.m. Friday in First United Methodist Church here with the Rev. David Hamblin, pastor of the First United Methodist Church in Muleshoe, officiating.

Burial was in Resthaven Memorial Park under direction of Franklin-Bartley Funeral Home of Lubbock.

Vaughan died at 10:22 a.m. Wednesday in Bender Terrace Nursing Home in Lubbock.

A Collin County native, Vaughan had been a Shallowater resident 38 years. He was a member of the First United Methodist Church here, and was a retired farmer.

Survivors include his wife, Julia; a son, Scott of Shallowater; a daughter, Mrs. Ann Clark of Dumas; three brothers, Nelson of Mena, Ark., Virgil of Inglewood, Calif. and Luther of Shallowater; six grandchildren and five great-grandchildren.

His nephews served as pallbearers.

A jewelry store uses a tarantula as a guard, along with a sign in the display window noting "This area is patrolled by a tarantula." Break-ins have declined dramatically.

The slowest typewriter in the world may be a Chinese typewriter that has 5,850 Chinese characters. The maximum speed on this machine is 11 words per minute.

## County Line Community Reunion To be Held August 14

The County Line Community Club committee for the County Line Reunion will hold its last meeting August 5th at 2 p.m. to make the final plans for the reunion.

Serving on the committee are the following: Frances Hudson, Chairman, Bobbie Embry, Faye Ann Nelson, Lavail B. Lacy, Minnie V. Pressley, Sharon Coffee, Audry McQuire, Oleta Winters, Leota Clark, and Gladys Allen. Anyone else in the community who wants to help is invited to this last and final meeting.

Leota Clark has rented a tent but will need men to volunteer to put it up about Saturday, August 13, the day before the reunion. Frances Hudson said she had purchased the paper plates, cups, spoons, forks and knives. Tea, coffee and soda pop for the children will be furnished by the committee. A prize will be given for the oldest pioneer coming to the reunion and also a prize to the pioneer coming the greatest distance.

Bring your basket lunch for you and your family.

## Shallowater News

The monthly of the Shallowater AARP will be Friday August 5th, at 11:30 a.m. in the community club house. Mr. Harold Harriger, Lubbock attorney, will be the guest speaker. Anyone 55 years or older is invited to attend and bring a covered dish for the luncheon.

President of Shallowater AARP this year is Doc Medley.

## Methodist Pastor To be Gone Sunday

The Rev. Tommy Ewing of the Shallowater Methodist Church announced that Rev. Cecil Tune, former pastor of his congregation, will be performing the services this Sunday while Ewing is at a revival meeting at Pleasant Valley Methodist Church. The services are at 10:45 a.m. and 6 p.m. Rev. Ewing urges everyone to come and hear Rev. Tune.

Everyone has his good points, if you're interested in finding them.

### HOGMAN REALIZES 3.03 FEED CONVERSION WITH WAYNE GRO-PORK 280

A group of hogs was recently finished by Daniel Fischer, Fulda, Minn., on a Wayne Gro-Pork feeding program. The hogs showed an average daily gain of 1.83 lbs. and a feed conversion of 3.03.

"Wayne Feeds have always done an excellent job for me, and Gro-Pork 280 proved to be another excellent product," said Fischer.

Fischer's results follow:

Number of head started	15	Feed conversion	3.03
Number of head finished	15	Average daily gain	1.83 lbs.
Average starting weight	55 lbs.	Cost per lb. of gain	.226¢
Average market weight	212 lbs.	Feed cost per hog	\$35.48
Total feed consumed	7,150 lbs.	Total feed cost	\$532.20

AVAILABLE AT

## PERSONALS

### THANK YOU

I am at a loss for words to express my sincere appreciation for the many kindnesses bestowed upon me during my recent illness. For the many cards, the lovely flowers that were sent, and the many lovely gifts I received, I say thank you. To have friends like you, in time of need, is a blessing. For the many, many prayers that were said, I say thank you, for without your prayers, I couldn't have made it. They helped to ease the pain and make it more bearable. May God's richest blessings be with you always is my prayer.  
Dardie Williamson

# be your own Meter Maid

You can add up your groceries while you're buying . . .

You can add up your gasoline while you're buying . . .

**But**  
can you add up your electricity while you're buying?

## Yes you can... Here's How!

Learn to read your electric meter. It will let you determine how many kilowatt hours you use in a given period of time . . . an hour, a day, a month or a year. That's how electricity is measured — by kilowatt hours used.

Your residential electric meter will have either 5 or 4 dials

Electric meters are easily read from right to left as you look at the meter. If the pointer on a dial is between two numbers, write down the smaller number. When the pointer is directly on a number such as one (1) (see center dial above) then read it as 1 if the pointer on the next dial immediately to the right has passed zero (0). However, read it as zero (0) if the pointer on that dial to the right has not reached zero.

The dials above read (from left to right): 9-3-1-1-5. If, however, the pointer on the second dial from the right above was between 9 and zero then the center dial would read as a zero.

Now let's read the same meter 24 hours later

This later reading is 9-3-1-3-8. Subtracting the first reading, 93115, from the new reading of 93138 — the answer is 23. Thus you would have used 23 kilowatt hours in the 24 hour period.

Now you can become a METER MAID and watch your meter like a miser if you choose. WE HAVE A BOOKLET CALLED "MANAGING YOUR ELECTRIC BILL" plus other WISE USE TIPS booklets that help keep you from wasting electricity and so help lower your cost. Any of these booklets are free for the asking at your Public Service office . . . come by and see us.

Clip this message — Save for reference.
