LCC Concert Set

The public is invited to a free concert at the Shallowater Community Club House Friday night, February 25, at 8 p.m.

Sponsored by the Lubbock Christian College, the concert is to acquaint citizens of the Shallowater area in Christian education.

The concert will be presented by the Hard Travelers at Lubbock Christian College and both young and old are urged and invited to attend. There will be no admission charge.

The annual Western Cotton officials got underway at 8:30 a.m. Tuesday at the Hilton Inn with several interested persons from Shallowater attending.

> The three day meeting included two days of discussion, ranging from cotton production and harvesting to marketing and legislation. The groups also toured the denim manufacturing plant in Littlefield and the cotton classing office in Lubbock.

> Featured speaker of the annual meet on Wednesday was P.R. "Bobby" Smith of Winder, Georgia, a cotton grower and special consultant to President Carter.

> Reports were made on the national farm legislation, new industry regulations, cotton classing and specific production problems.

> Four western cotton producing states, Texas, New Mexico, Arizona and California, sponsored the conference in cooperation with the U.S. Department of Agriculture and several cotton industry organizations.

Don Enger of Shallowater, president of Lubbock County Farm Bureau, was among over 380 Farm Bureau Presidents and legislative chairmen attending the Texas Farm Bureau Legislative Conference in Austin Feb. 15 and 16.

The conference was highlighted by speeches from Gov. Dolph Briscoe, House Speaker Bill Clayton, Attorney-General John Hill, Lieutenant-Gov. Bill Hobby and Comptroller Bob Bullock.

Texas Farm Bureau President Carol Chaloupka of Dalhart presented the state's legislative program at a dinner attended by the state officials and most legislators. Main items in the Farm Bureau program included recommendations on taxing agricultural land, local school financing, state inheritance taxes, underground water taxes and regulations, farm to market roads, and funding agricultural research and education.

The conference became a practical exercise in legislative action when the second day's agenda was cut short in order that the group could contact their representatives to encourage the passage of House Bill 22. The Bill, which will cause taxation of agricultural lands to be based on productive capacity instead of market value, had earlier been defeated. In the afternoon session the bill passed by a 112-34 margin.

COME NOW, LET US REASON TOGETHER

How People Become Members of the New Testament Church

To speak of the church is to speak of a group of people. When one person is saved, he is added to the church. When a group of people are saved they are also, as individuals, added to the church. To become a church of Christ, a local church of Christ, a group of people must be saved and then work and worship together. But the emphasis in this lesson shall be placed on how one is saved. The reasoning is as follows:

1. Men are saved from sin. 2. But saved men are added to the

church (Universal).

3. Therefore whatever is required to save is just what is required to make the church.

The Law of Pardon and Induction Ito The Church. The New Testament teaches that when one obeys a particular form of doctrine he is saved, and that he is immediately added to the Church. Thus that particular form of doctrine becomes a law of pardon and induction into the church.

This is seen in the following. 1. Salvation is from sin (Matt. 1:21; Luke 19:10; I Tim. 1:15).

2. The church is all the saved (Acts 2:47; Eph. 2:16; 5:23). It is the same to be made free from sin. See John 8:32, 36.

3. But one is saved or made free! from sin when he obeys "THAT FORM OF TEACHING" (Rom. 6:17, 18). Read this passage carefully. It will become clear that a sinner is made free from sin WHEN he obeys from the heart that particular form of doctrine.

QUESTIONS INVITED 832-4776 or 832-4850 Box 186, Shallowater

tion concerning the procedure in the animal's release from the dog pound can be obtained at city hall, during these hours.

"Versatile" is the word for milk. This is a good time to check the family's milk drinking habits. Does each member of your family get the amount of milk necessary for good nutrition?

Adults and children under 9 years of age need two eight-ounce servings each day. Children aged 9-12 and pregnant mothers over 19 need three or more servings a day, while teenagers and nursing mothers require four or more servings daily.

Milk is an excellent source of calcium to help form bones and teeth and keep them strong. It's hard to get enough calcium in the diet without consuming milk in some form daily.

The protein in milk builds and repairs body tissues, helps the body fight infection and supplies energy. Milk is also rich in riboflavin, a B-vitamin that helps keep skin healthy and vision

To give family members their recommended amount of milk each day, serve it as a beverage, in products made with milk such as ice cream and cheese or use milk in preparing main dishes, soups, sauces and pudding.

Quick ham-vegetable chowder, sunshine fruit-cream mold and homemade vanilla ice cream all contain the nutrition and flavor of

Stir a small amount of the hot cornstarch mixture into the beaten eggs; then stir the eggs into the remaining cornstarch mixture.

Cook over low heat, stirring constantly four or five minutes longer, or until the mixture is about the consistency of pudding.

Chill thoroughly. This step is essential for a smooth ice cream. Stir in vanilla and cream.

Pour into a one-gallon ice cream freezer canister; fill not more than two-thirds full. Freeze in a handcranked or electric ice cream freezer packed wiih a mixture of one part ice cream salt and six parts crushed ice.

In handcranking, the ice cram is frozen when the crank is difficult to turn. An electric freezer shuts off automatically when ice cream is frozen. Remove dasher. Perk Up Meals With Onion Cheese Muffins

Bake Onion Cheese Muffins to brighten up an ordinary meal or add a special touch to company fare. These little breads have all the makings of a family favorite—good taste and a mouthwatering appearance that will appeal to hungry appetites. Serve them piping hot with casseroles, luncheon salads or hearty soups and watch how fast they disappear.

Onion Cheese Muffins are similar to cornbread and yet a little different. Bite-size toasted corn squares replace part of the flour and provide a very subtle corn flavor that goes well with the bits of sautéed onion in the batter and the perky sour cream and cheese topping. You'll find the cereal easy to use, too. Just crush to the correct measure with rolling pin or in your blender and stir into the liquid ingredients.

ONION CHEESE MUFFINS

3/4 cup finely chopped onion

- 1 tablespoon butter or margarine
- 1 cup sifted all-purpose flour
- 1 tablespoon sugar
- 2 1/2 teaspoons baking powder
 - 1/2 teaspoon salt
 - 1/8 teaspoon onion powder
 - 1 egg, slightly beaten
 - 3/4 cup milk
 - 2 tablespoons vegetable oil
- 2 1/2 cups Corn Chex cereal crushed to 3/4 cup
- 1/4 cup dairy sour cream
- 1/4 cup shredded process American cheese

Preheat oven to 400°. Grease 12 medium muffin cups. Saute onion in butter until tender and golden, about 5 minutes. Set aside. Sift together flour, sugar, baking powder, salt and onion powder. In mixing bowl combine egg, milk, vegetable oil and 2 tablespoons sautéed onion. Stir in crushed cereal. Add dry ingredients. Stir only until moistened. Fill muffin cups one-half full. Combine remaining onion with sour cream and shredded cheese. Top each muffin with a rounded teaspoon of cheese mixture. Bake 20-25 minutes or until cheese is browned and crusty. Makes 12 muffins.

by Suzie De Anda

Different events such as number sense and slide rule will be scheduled. The contest is being directed by Mr. Larry Grissom chairman of the math department at Shallowater Schools.

A Brainwave Of Math

by Gloria Lara

Well, Mr. Larry Grisom has started his work for the UIL entries. He is the head of the math department. This past Friday there was a small math meet at Smyer. There were three categories: slide rule, high school number sense, and mathematics.

The winners from Shallowater from these categories are: from Slide rule, we had veteran Cheri Massey won 2nd place, and novice Roy Cason won 1st place. In the high school number sense we had only one winner which was Roddy Thomas who won 3rd place. In mathematics we had 5 winners from the sophomore division, junior division, senior division. In the sophomore division they are Roddy Thomas won 1st place, and Cheri Massey and Larry Bartlett tied for 3rd place. In the junior division Dana Vickery was the only winner and she won 3rd place. The senior division George Parseley won 1st place and Guy Lesly won 2nd place.

There was also two other events we were entered in. They were Science, in which in the upper division Melissa Epperson placed 3rd; and, the other was concerned with Jr. high. In the Jr. High number sense, the only winner was Mark Jungman; he won 2nd place. All of the 1, 2, or 3rd place winners won medals at the meet. We wish to congratulate you all on the good job.

Talent Search

by Suzie De Anda

The Student Council is presenting a talent show on Thursday, February 24th. Brent Ratliff, president of the Student Council, will be the master of ceremonies.

There will be several skits and some musical groups will be performing. The performers will be judged by three people: Mr. Charles Hohertz, Mrs. Peggy Cowart, and Mrs. Keitha Hopson. Judging will be based on talent, how entertaining it is, and originality.

Senior Spotlight

by Gloria Lara

This week's senior is Carmen Ramirez. Her parents are Mr. Raymundo and Mrs. Amelia Alvarado. They reside at Rt. 1 Box 207-C. Carmen was born on March 5, 1958.

In school, Carmen has a favorite subject. It happens to be Math. She likes this subject because she likes numbers. Her favorite things in life are that she likes talking to kids, she likes surprises, and she likes to find out what kids are thinking.

Carmen doesn't have many hobbies. The only hobby she has is reading, and that is only interesting books.

As a senior, Carmen is in the organization of DECA. Carmen has one comment about being a senior. She says that she is glad that she is about to get out and that she won't ever have to come back. After graduation she plans to work. The type of career she would like is one that will involve her with helping people. The last comment Carmen has is just "Bye! Bye!"
