

City and School Elections Set for Saturday

Mayoral Candidates Tell Stands

David Monteith

by Cliff Avery
(Editor's Note - Although Candidate Monteith granted the interview for this story, he later called the Suburban Today office and withdrew his "authorization." Monteith asked that the interview not be run, saying he feared his statements might be misconstrued so close to the election.)

What qualifications do you have for the post?

"Basically, I think it's important for the mayor to understand the needs of the people. He should know what government can do and should do.

"The mayor is more the servant than anybody else. He's the one who has to answer to everybody else. He takes complaints and he keeps the town moving forward. I'm more in touch with many of the people. I think I understand what they need. A lot of people think that because I'm 18 years old that my decisions will be swayed by pressures. That's not true. I'm pretty stubborn. I feel I know a little more about government. I have studied government in small towns in the area of utilities, and I'm studying the budget."

Monteith said that he has studied an experiment conducted by Lakewood, Calif. The city contracted with the County of Los Angeles for handling of sewage, and Monteith would like to see a similar approach used by Shallowater with the City of Lubbock.

"That'll take a big burden off us, and it means we can eliminate some jobs, which will cut the cost for sewage treatment."

What are the issues in your race?

"Mostly what everybody's focusing on is the police department. In a small town it's hard to get adequate police protection."

"They're talking about equality for everybody, and that's a small issue. This is a small town and they're talking about everything from street cleaners to numbers on the gutters."

How should the mayor promote community growth?

"I really don't want to have the town grow that much. But we should be encouraging business we don't have to come to town. Maybe we could sell a city owned lot at a reasonable price and exempt (the new business) from property tax for a few months. We need to make sure we're self sufficient."

How much should the mayor cooperate with local officials in the area?

"I have a Texas Municipal League booklet that seems to really cover it. Small towns ought to stick together, become united. There's not that much power in small towns when you compare to a city the size of Lubbock."

Continued On Page Four

Joe Cox

What qualifications do you have to be mayor?

"My business experience has been in management and basically the job of mayor in a small town is managerial. Currently I work in the management of water in seven South Plains cities."

What are the issues in your race?

"I haven't run a campaign in Shallowater because it is a small town and most people understand its needs. At the present time we have a water improvement program underway, and a bond issue was voted on three years ago for sewage improvements and I hope to continue work for additional grants to pursue that."

What do you plan to do to promote community growth?

"The only thing we need to do is keep growth patterns to fit our present utility system. Our growth depends on our ability to provide services. People who live in Shallowater have limited water and I hope to pursue a long range water plan."

How much should a mayor cooperate with local officials in the area?

"A person would have to cooperate with area officials in order to stay abreast with what's taking place with other governments."

What do you think Shallowater needs?

"The main thing that Shallowater needs is an adequate supply of water. Future water sources also need to be developed. We need to keep our volunteer fire department and to maintain sinking funds in case materials need to be replaced."

Shallowater Man in Washington

Shallowater can boast of having a man in Washington now with the appointment of Larry Myers as Chief of Senate Liaison for the Department of Agriculture. Myers is the son of Mrs. Gertrude Myers of Shallowater, nephew of Mrs. Bill Burgett, cousin of Bryan and Glen Burgett and great-nephew of Woodrow Sooter, all of Shallowater.

Myers has been in Washington the past five years with Senator Loyd Bentsen. He served as legislative aide to the Senator, as a principle responsible for legislation dealing with agriculture from Oct. 1, 1971 until July 1, 1976. Since that time, he has been the senator's legislative assistant with the responsibility of supervision of the legislative section in the senator's office.

A South Plains native, Myers, age 28, was born in Slaton and graduated from Muleshoe High School where he served as president of the student body and District president of the Texas Youth Conference and high school debater. He received his BBA

William Boone

What qualifications do you have to be mayor?

"I think I can do the job as well as anybody. I have lived in Shallowater for ten years and own property."

What are the issues in your race?

"I want to do what I can for the betterment of the city. I want to see to the needs of the city rather than making a name for myself. I want to listen to the people and do what they want rather than doing just what special interest groups want."

How do you plan to promote community growth?

"If I am elected I want to do what I can along the lines of community growth, but the real decision needs to be left up to the people. Anything that I would do as mayor would be what the majority of the people want."

How much should a mayor cooperate with local officials in the area?

"I wouldn't know until I see what kind of cooperation is needed. One city may want to do something that would be intolerable for people in Shallowater."

What do you think Shallowater needs?

"There are many things Shallowater needs that it can't afford. Before I would start trying to get things for Shallowater I'd talk to the people and find what they want first. We need a strong, well-paid police department, but everything costs money and I won't spend money until I find out what the people want."

Larry Myers

degree from Texas Tech University in 1971. While in college he was very active in student affairs, was freshman council president, sponsor of freshmen council 68-70, president Cabinet (Blakney) student senate, two years,

Don't forget to go to the polls Saturday, April 2, and cast your ballot in both the city and school election for the candidate of your choice. Polls open at 7 a.m. and close at 7 p.m. at city hall, with Mrs. Vera Meeks as election judge.

In the city election, the terms of mayor Jack DuLaney, Councilmen Joe Cox and Doyle Mosbey, expire with DuLaney choosing not to run on the mayor's position this year. Cox, who has been on the council for the past two years, is running for the mayor's seat, along with opponents, David Monteith and W.C. Bill Boone, both vying for the mayor's post on the council for the first time.

Monteith is a senior at Shallowater High School and Boone is a self-employed sign painter. Cox is Chief of Operations for the Southern Division of the Canadian River Municipal Authority in Lubbock and holds a Class B Certificate of Competence with the Texas State Health Dept.

Ricky White is running unopposed on the council for Cox's present position while incumbent Doyle Mosbey is unopposed for the place he is holding.

It is the duty of every qualified voter to cast their ballots in Saturday's elections, voicing their choice in choosing the candidate they choose, to join those remaining on the city council and school board as the leaders of our fine city and school. *Go to the polls and vote!*

The qualifications for voting in city elections, as prescribed in the Texas Constitution, are to be a citizen of the United States, be 18 years of age or older on the day of election, a resident of the city on the day of election and be a registered voter in the city for at least 30 days on the day of the election.

School Election

The Shallowater Independent School Trustee election will be held this Saturday, April 2, at the Shallowater Community Building with Mrs. George Blackmon serving as election judge. Polls will be open from 7 a.m. to 7 p.m.

Incumbents Butch Pair and Jay Stanton are running unopposed for the two positions on the board.

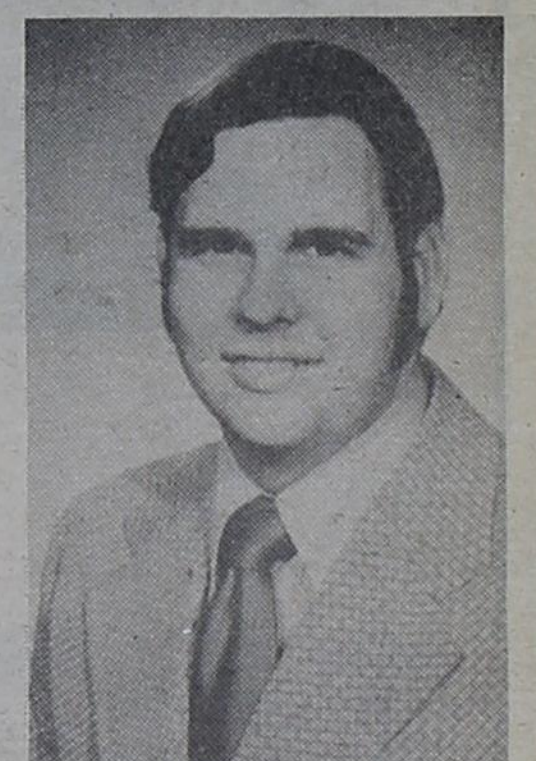

For qualifying to vote in the school election, voters must be a U.S. citizen, be 18 years of age or older on election day, a resident of the school district and be a registered voter of the school district for at least 30 days prior to election day.

Missionary Conference to Be Held at Local Church

Mr. Ray Hundley, missionary with OMS International to Colombia, will speak at First United Methodist Church, 9th and Texas, Shallowater, Texas, on April 22-23.

Little did Ray Hundley realize when he was learning Spanish as a child from Cuban-American friends, that his "language study" would enable him to become an effective youth worker from the beginning of his missionary career. His fluency in the language, plus five years as a youth worker in the United States, prepared him well for his present role as coordinator of youth ministries for the OMS in Colombia.

Through classes, camps, and special evangelistic rallies, Mr.

Ray Hundley

and Mrs. Hundley work with youth across Colombia on the high school, Bible institute, and seminary levels. Mr. Hundley has seized a new opportunity to visit parochial schools where he and two Colombian co-workers have been invited to show Billy Graham films, distribute gospel literature, and share their personal testimonies.

While he describes Colombians as hungry for the gospel, he is aware of the threat of Communism to that country. "The Communists in Colombia are well prepared and very intellectual. They are making tremendous advances among the university population," says Mr. Hundley. "If the gospel does not win Colombia, Communism will."

Easter Cantata To be Presented

The twenty-five voice choir at the First Baptist Church in Shallowater will present the choral and narrative story of Christ's life, death, and resurrection in song, Sunday night at 7 o'clock with the presentation of their Easter Cantata, "No Greater Love" written by John W. Peterson and directed by the church music director, Aaron Crawford.

The cantata is unlike other musical presentations, in that it dramatizes the greatest story of all time. The very conflict of Jesus and Satan in song gives the

Party Line

John Meeks underwent treatment recently at Methodist Hospital and is back home, doing fine.

Mr. and Mrs. Louis Jackson and son, Junior, of Odessa spent Thursday night with Mr. and Mrs. John Meeks. Mrs. Jackson is Mrs. Meeks' sister.

Mr. and Mrs. Jack DuLaney and girls visited Monday until Wednesday in Dallas with Mrs. DuLaney's brother, Mr. and Mrs. Joe Dennis and new son, Eric.

Mrs. Carl Schumann, Becky and Sherry spent last week in Brownwood visiting relatives and friends.

The Bennie Moore's and Wayne Moore's, all of Olton, were Saturday night dinner guests of Mr. and Mrs. W.F. Williamson.

Everyone is urged to attend the April Fool's Day Basketball game Friday night when the United Methodist men versus the First Baptist Church men in the local high school gym.

There should be a very enjoyable evening of free entertainment for those who attend and watch these men in their challenge to win the game.

The game will begin at 8 p.m. Admission is free, but donations will be accepted.

Proceeds will go to the youth organizations of the two churches.

Mr. and Mrs. Jerry Deavours and children returned home Friday from spending last week vacationing at Port Isabel.

Horton Stamper of Artesia, New Mexico, father of Mrs. C.E. Pair, suffered a heart attack about a month ago and has been in a San Antonio Hospital. He was brought to the Pair home Thursday and admitted to intensive care at St. Mary's Hospital on Friday.

Mr. and Mrs. Gerald Clifton returned home Friday from Fort Myers, Florida where they flew on the previous Monday to visit Mrs. Clifton's brother, Mr. and Mrs. John Hard.

Mr. and Mrs. Louis McMenamy and Mr. and Mrs. M.J. Williams returned home Sunday from a week's tour to Amsterdam, Holland and London. They

reported a very enjoyable trip.

Mr. and Mrs. Ralph Downey and granddaughter Shawn Downey of Denver, Colorado, accompanied the Larry Downey family of Lubbock to East Texas last week to visit relatives.

Mr. and Mrs. Jimmy Qualia have returned home following a month's stay at their ranch at Lockhart.

Mr. and Mrs. Garland Stokes and grandchildren Troy and Shawn of Lubbock, spent last week camping and fishing at Granite Shoals.

Mrs. LaVon McAuley and Tommy visited Thursday through Saturday with the Gus Fesmire's in Odessa and Tonya McAuley in Midland.

Mrs. Alma Fowler and Nona Cumbie of Snyder, Mr. and Mrs. Burl Ford of Post, Mrs. Stoney Stalcup, Jeff and Rachael of Lubbock, were recent visitors in the home of Mr. and Mrs. Homer Randolph.

Mrs. Mollie Winfield and Christy of Lubbock and Mr. and Mrs. Homer Randolph visited Mr. and Mrs. Jimmy Dale Seaton in Lazbuddie last Monday.

Mr. and Mrs. Homer Randolph visited relatives in Snyder last

From the Chief's Desk

Are You Next

These facts have been compiled from FBI, Presidents Commission on Law Enforcement, and Police Department Crime Reports:

1. A burglary is committed every 10 seconds.
2. 3,020,000 burglaries were reported in 1974.
3. Over half of all crimes against property reported are burglaries.
4. Burglaries have increased 182.6% in the past 14 years.
5. Daytime burglaries have increased 64% since 1969.
6. 80% of all burglaries are narcotics oriented, committed by drug addicts whose actions are unpredictable. Many rapes, beatings and murders very likely started as burglaries.
7. In 1974 \$2,616,000,000 were lost as the result of burglary and theft; an average of \$317.23 per reported incident.
8. 1 out of every 12 homes had a reported burglary.
9. Only one out of three burglaries is ever reported.
10. The odds are 1 in 5 that your home will be burglarized in the next 12 months.

Don't let it happen to you. Ask a security specialist today what you can do to safeguard your home against burglary attack.

week and attended the funeral of a nephew, Dick Lauderdale, on Wednesday. They also visited relatives in Polar and Post, Texas, and friends in Wolforth.

Mr. and Mrs. Clayton Saunders of Brownfield visited Friday in the Homer Randolph home and the Shelby Saunders home.

Michael and Matthew Randolph of Lubbock spent Thursday night and Friday with their grandparents, Mr. and Mrs. Homer Randolph.

Contact your local Police Department today.

Crime Prevention Unit—David S. Turner, Shallowater Police Department, phone: 832-4719 or 832-4521.

Easter is Just Around the Corner

Easter is just around the corner, and Billye McElroy and Dorothy Vaught at Billye's Flower and Gift Shop are just the ones to see for a gift of flowers or a corsage to wear on Easter Sunday, for that special someone.

They have plenty of Easter Lillies, beautiful blooming pot and hanging plants, cut floral arrangements and corsages in stock, and would love to have you come in and browse.

Help the local merchants by trading at home and help Shallowater to grow, by patronizing the local business people.

May the Best Team Win

Friday, April 1, the Baptist meet the Methodist in a basketball game. These men, ages 23 and over, will compete at 8:00 p.m. There will be no admission fee although donations will be appreciated. All proceeds will be split between the youth groups of the two churches. The game will be at the Shallowater High School gym.

That is April 1st, no fooling.

VOTE FOR JOE COX

As Mayor of Shallowater

Saturday, April 2nd

I have the following to offer as mayor:

- Experience in City Government — presently serving as a City Alderman.
- Experience in Safe handling of drinking water, licensed by the state of Texas.
- Experience in Management — present position, Chief of Operations for the Southern Division of the Canadian River Municipal Water Authority.
- Experience in working with area city officials.
- Experience in working with consulting engineers.
- Experience in working with contracting firms.
- Experience in good construction practices as it relates to city services.
- I also can provide continuity in government.

Your Vote Will Be Appreciated

Paid Pol. Adv. Paid for by Joe Cox

Hybrid Cotton Seen in the Future

Hybrid cotton is definitely in the crystal ball for cotton growers, and is listed as only one of the exciting prospects ahead for the cotton industry.

This futuristic view was outlined last week (Feb. 22) by a leading cotton geneticist before several hundred educators, producers and industry officials at the Western Cotton production Conference in Lubbock.

Dr. Levon Ray, a Lubbock-based agricultural scientist for the Texas Agricultural Experiment Station, said the cytoplasmic-genetic system for hybrid cotton already has been developed, and that "surprising good seed set on male steriles has been accomplished in spite of very low insect activity." Insects are needed in production of hybrid cross pollination.

Hybrids would give some yield boost, but, more importantly, provide shortcuts in breeding programs. There are still a number of questions as to the economical production of hybrid cotton seed, but it stands as a definite possibility, he said.

Ray listed a number of variety characteristics breeders are working on today, excluding new developments in insect and disease resistance which were to be outlined by another conference speaker.

Besides hybrid cotton, also in store for the future are improved cotton varieties adapted to particular environments, Ray told the gathering. Among these are cottons which will be more efficient in their water use, will tolerate low temperatures during their maturing period when bolls are opening, and adapted to areas where heat and soil salinity are problems. Also to be expected are further advances in adapting varieties to short season production and in breeding of varieties which are tolerant to herbicide.

Ray said that serious problems existing in herbicide and crop rotation management might be overcome with varieties tolerant or insensitive to triazine herbicides.

"Differences among varieties to these herbicides already have been demonstrated," he said. "This is good cause to believe even high levels of tolerance could be obtained through breeding efforts. This would correct the dilemma farmers find themselves in when they want to rotate from, say corn production (where a triazine herbicide is used) to cotton the next year."

Plant breeders are pursuing a number of angles to resolve cleanliness of cotton in harvesting and ginning, Ray reported, not only to reduce dollar losses from reduced grades but also to alleviate environmental and health concerns.

"Because of air pollution and health problems potential or real, foreign matter in cotton is causing grave concern throughout the industry," Ray warned. "Vari-

ties can be modified to help with this problem."

He said elimination of the hairs on the plant parts will greatly reduce the leaf and bract trash content of the lint. The bract, because of its close proximity to the seed cotton and its shape, contributes heavily to the fine trash content. Bract characteristics exist in cotton which should reduce trash from this source, he said.

"There is a character called 'frego' bract, a very long, narrow, strap-like bract which curls away from the boll. Thus, it should be less likely to be entangled in the seed cotton during harvest," Ray concluded. "Two other characteristics have the potential of completely solving this problem: one is a bract which sheds before the boll opens and the other is one which dies and shrinks into an insignificant mass. However, breeders have not been successful in transferring either of these characteristics into a productive cotton."

Varieties of the future could look quite different in plant and boll conformation, he continued. "A modification of the plant size and conformation could reduce trash content and increase harvesting efficiency, and may be the most important factor in solving the trash problem where the stripper harvester is used.

"Another possible solution to the trash problem, far-out perhaps, but not entirely unfeasible, is the 'closed-capsule' characteristic," he said. "This type, which has bolls that do not open, does exist in some cottons which have been grown for centuries in central Asia. The use of this characteristic was suggested as early as 1935 by Russian workers, and its transfer into productive cottons would be a formidable breeding task. But it would be a way to produce (even using the stripper harvester) unweathered and essentially uncontaminated fiber," Ray emphasized.

"Technological changes in textile manufacturing are causing a reexamination of fiber properties," he reported. "Increased fiber strength and smaller perimeter (diameter) fiber would probably be desirable for the open-end spinning process," he indicated. "Fiber strengths 30 to 40 percent greater than those of our current Upland varieties have been developed in breeding stocks. Fiber perimeter is relatively uniform among cotton varieties, but there are sources of smaller perimeter fibers. Whether or not the small perimeter and the high strength fiber characteristics can be transferred into highly productive cottons is still an unanswered question."

Much interest in seed quality factors has been generated by the cottonseed's potential in the human food market, he added. The glandless character, which reduces the gossypol in the seed to a very low level, is well known and several varieties having this characteristic are being grown, he reported. If the use of cottonseed flour in human foods becomes widespread, the production of glandless varieties will be greatly expanded.

Ray said that other possibilities include increasing the percent of oil, protein, or both. Also, the quantity of seed produced might

be increased without decreasing lint yield. Small gains in the quantity of protein or oil, he said, would produce large gains on an area or beltwide basis at no extra cost, assuming that lint yield would not be affected. Increasing oil content of the Texas High Plains cottonseed crop from 19 to 21 percent would add about one million dollars to the total value of the crop at current cottonseed oil prices.

Another seed characteristic which is being studied has some interesting ramifications, although its potential is debated among cotton breeders, the scientist reported. This is the naked seed.

"The primary interest is that these seeds could bypass the delinting process in the oil mill. The pollution problem in this process is of major concern, and it consumes a large amount of energy, a critical factor in face of rising fuel costs. Separation of the seed and lint is more easily done (requires less energy) with naked seed, but current gin equipment and harvesting equipment would have to be redesigned to efficiently handle this type of cotton."

"This is a farming community and we can control the cotton going out. Small towns should negotiate together."

What do you think Shallowater needs?

"One, a new sewer system. It's been inadequate for years and it was built for a maximum load of 900 and now we're close to 1600."

Monteith said that when a new sewer system was proposed some years ago, the estimate for a top-of-the-line system was \$450,000. "It'd cost twice that now," he said.

"We need a street cleaner. That would cut down on maintenance, because the cars push the gravel along to the end of the street. A street cleaner would spread the pebbles and gravel back up and down the street.

"And we need to bring more activities into Shallowater for young people. We need to bring into Lubbock. We need to bring pride back in Shallowater. A small town is a hard place to live in, because it does get boring. I

think we can solve this with pride."

Seniors Honored at Hawaiian Luau

The annual Hawaiian Luau, honoring the Shallowater seniors of 1977, their sponsors, and guests and hosted by the 12th Street Church of Christ, was held Tuesday night at the Community Club House.

The invocation was given by Benny Judah and the response by Guy Lesly. Darrell Boswell, minister of the church, welcomed the group.

Following the delicious meal of Fruit Tropicale, slice Lehune ham, potato salad, green beans, hot rolls, butter, nau wale no, Hawaiian punch, Ken Young furnished entertainment with the benediction by Bobby Judah.

Steve Wilson is class president, Alison Terry, vice-president and Robbi Mauldin, secretary-treasurer. Sponsors of the class are Beryl Harris and Kenneth Grissom.

The building was appropriately decorated for the evening of fun, with the Hawaiian setting even to sitting on the floor to eat the delicious meal, so graciously prepared by the ladies of the church.

Notice

All girls who registered with Shallowater Dribblers or who wish to register.

Teams will be formed and coaches assigned this Saturday morning at 10 a.m. at Junior High gymnasium.

All girls must be present.

If you want to be highly recommended let someone else say the word.

Measles Vaccine Booster Given

A memorandum has been sent home with each student in the Shallowater Schools regarding measles cases in Texas schools, in order to notify parents that some children may need a measles vaccine booster.

Among the reported cases the general age group is between 13 and 17 years of age.

We suggest you contact your pediatrician, family physician or

clinic to determine if a measles booster is needed for your child.

If you have further questions, call Joan Grimes, school nurse at 832-4531, Ext. 42.

Betty Ford & TV

Shallowater EMT Group Meets

The local Emergency Medical Technician group met on Tuesday, March 22, at 7 p.m. at the ambulance station for their monthly meeting with seven of the eight members present.

An inventory of the ambulance was made and the group discussed the urgent need for more volunteers in the community to assist in providing Emergency Medical Service to the Shallowater community.

The next school begins on May 9th at Lubbock Christian College and everyone is urged to think deeply on their possibility of registering for this course.

The course lasts for ten weeks and involves 80 hours of classroom work, 40 hours of in-hospital training and five ambulance runs to get their certification.

By taking the course, persons will benefit greatly not only in helping out voluntarily in the community when the need arises, but also be prepared to aid in assisting their family or friends in case of an emergency.

Residents are urged to get involved in the local Emergency Medical Service by contacting any of the local volunteer group, or by calling the city hall, 832-4521, for information.

Registered nurses and LVN's

are invited to volunteer their services in helping the local EMT's on ambulance calls by offering to hold a beeper at night from 6 p.m. until 7 a.m. and on weekends from Friday at 6 p.m. through Monday morning at 7 a.m.

More persons need to get involved in order for the ambulance to be in service 24 hours around the clock. Sooner or later, there will be a big need for an ambulance in the daytime and by the time one arrives from Lubbock, which takes about 45 minutes, it may be too late.

The Emergency Medical Service in Shallowater needs you. How about it, will you do your part in helping provide this service in case of an emergency to the community? *Get involved, call today.*

Living Proof

The Shallowater First Baptist Church is participating in the Good News Texas Campaign. The church invites everyone to watch the Living Proof testimonies on television.

The local church will begin a week-long revival starting on April 24th. More information concerning the evangelist and singer will be published later in Suburban Today.

Services will be held daily at 10:00 a.m. and 7:30 p.m.

OSHA Schedules Public Hearing On Cotton Dust Standards

DALLAS—A public hearing on a proposed health standard that would reduce worker exposure to cotton dust will be held by the U.S. Department of Labor's Occupational Safety and Health Administration (OSHA) in Lubbock, Tex. on May 10.

Sessions will convene at 9:30 a.m. at the South Park Inn, 3201 S. Loop 289.

The key provision of the proposed OSHA standard would reduce the present permissible exposure limit from 1,000 micrograms of total dust per cubic meter of air to 200 micrograms, based on an eight-hour time-weighted average.

Respirable dust is proposed as the measure because larger cotton dust particles are not believed to be harmful.

In order to hear as many persons as possible, presentations will generally be limited to 15 minutes. However, OSHA will attempt to accommodate requests for additional time required by special circumstances.

All persons giving advance notice of appearance will have time reserved for oral presentations. Other wishing to testify will be allowed to give oral presentations if time permits.

Persons wishing to reserve time should file a notice of intention to appear, postmarked

on or before April 1, with Tom Hall, OSHA Office of Committee Management, Docket No. H-052, Room N3633, U.S. Department of Labor, 3rd and Constitution Ave. N.W., Washington D.C. 20210.

Because similar hearings are scheduled in Greenville, Miss. on April 12, notices should indicate the hearing location at which the applicant wishes to testify.

Notices should also contain the name, address, and telephone number of each person wishing to appear; the organization, if any, they represent; the issues they will address and a brief statement of each person's views; and complete copies of any studies, data, or other documentary material which will be submitted for the record at the hearing.

"Extension Update"

by Georgia Doherty

We've all been wondering what fashions will do this summer and we're finally getting some information—and it all sounds comfortable.

T-shirts will be among top fashion styles this summer.

Shaped into a tunic, extended into a long beach dress or jumpsuit, T-shirts are cool and comfortable.

They can be made from a cotton or cotton-blend knit in pale pastel or printed with vibrant engineered prints. Also, stripes give a fresh new look, or homesevers can decorate their own with liquid embroidery paint.

T-shirts can be fun to sew, too. Ribbing trim for the neck, sleeve band and hem are available in colors to match or coordinate with T-shirting pieces or yardage.

To prevent stretching when sewing the hem in by machine, use a short zigzag stitch over a stand of cotton embroidery thread. Hold the embroidery thread in front of the presser foot letting it run under the foot, encasing it in the zigzag stitch.

When finished, pull out the embroidery thread and press the garment.

I realize that liver isn't always your family's favorite dish, but, if prepared properly, it can be appetizing.

Beef liver is a real homemaker's helper—it cooks fast to save time and fuel and doesn't break the food budget.

Liver is nutritiously rich in protein, vitamins and minerals, and provides four to five servings to the pound with no waste. Also, it is a versatile meat since it can be prepared in many different ways.

You might like to try Beef Liver Stroganoff.

Cut a pound of liver into one-inch strips. Dip the strips into flour seasoned with salt and pepper. Melt a half stick of butter or margarine in a skillet and lightly saute a half cup each of sliced onion and mushrooms. Add the liver strips and brown on all sides until traces of pink have just disappeared, about three minutes total cooking time. Blend in a cup of sour cream, heat and serve over cooked rice.

Science Fair Scheduled at South Plains College

LEVELLAND — Some 15 science projects are expected to be entered in the annual South Plains Regional Science Fair scheduled Friday and Saturday at South Plains College.

Students in fourth through twelfth grades in the 20-county fair region will be setting up exhibits Friday afternoon in the Physical and Biological Sciences buildings at SPC. Judging will be from 6 to 10 p.m. Friday. All exhibits will be open to the public from 10 a.m. to 2 p.m. Saturday. The fair concludes with an awards ceremony starting at 2 p.m. in the Student Union Building at SPC.

The fair is being sponsored jointly by the South Plains Science Council and SPC. Fair director is Bobby Birdsong, science teacher at Levelland High School.

Students will be competing in three divisions—elementary (4th-6th grades), junior (7th-9th grades) and senior (10th-12th grades). Projects entered in each division will be divided into two categories — biological sciences and physical sciences. Biological sciences include behaviorist and social science, biochemistry, botany, medicine and health, microbiology and zoology. Physical science areas are chemistry, earth and space sciences,

engineering, mathematics and computers, and physics:

Exhibits will be judged on creative ability (30 points), scientific thought or engineering goals (30 points), thoroughness (15 points), skill (15 points) and clarity (10 points).

Counties included in the fair region are Bailey, Borden, Cochran, Cottle, Crosby, Dawson, Dickens, Floyd, Gaines, Garza, Hale, Hockley, Kent, King, Lamb, Lubbock, Lynn, Motley, Terry, and Yoakum.

Highlight of the fair will be selection of the top senior division exhibitor. The student chosen for the honor, along with his or her sponsor, will receive an expense-paid trip to the 28th Annual International Science and Engineering Fair in Cleveland, Ohio, in May.

Other special awards expected to be presented are an expense-paid trip to the Texas Medical Association state convention by the Lubbock-Crosby-Garza County Medical Society, two scholarships by SPC, two Post Versalog slide rules by Varsity Book Store, two chemistry/biology sets by Sears, Roebuck & Co., and a \$25 merchandise certificate from Eastman Kodak.

Awards also will be given by the National Aeronautics and

Space Administration, Texas Society of American Medical Technologists, U.S. Army, U.S. Air Force, American Society for Microbiology, and American Speech and Hearing Association.

Cotton Pageant Held at A&M

COLLEGE STATION — John Henry Faulk, well-known folk humorist, storyteller and political commentator, will be master of ceremonies at the 43rd Annual Cotton Pageant April 2 at Texas A&M University.

The pageant is set for 7 p.m. in Rudder Auditorium, followed by a ball in the Memorial Student Center Ballroom, Room 201, at 9 p.m.

John Henry Faulk's folksy humor and earthy philosophy brought him to the brink of fame as a national broadcaster for CBS, but in the mid-50's his career was cut short when he was black-listed for alleged Communist leanings during the McCarthy era.

His well-publicized libel suit against the "witch-hunters," in which Faulk won the largest libel judgment ever awarded by a jury, is documented in his book "Fear on Trial." The book was later dramatized in a CBS movie for television.

Faulk, who now lives in Madisonville, is a regular personality on the Hee Haw television show. He has made guest appearances on local and network television and radio programs. Among these have been the Today Show, Johnny Carson's Tonight Show and the Mike Douglas Show.

Faulk is also a motion picture actor, with performances in "The Best Man," "Lovin' Molly," and "Leadbelly."

The Cotton Pageant is sponsored by the Student Agronomy Society at Texas A&M in honor of cotton, the state's number one cash crop.

King Cotton this year is Tom Owen, a senior agronomy major.

Pageant activities include the selection of Queen Cotton and her court from young women representing colleges, universities, clubs and other organizations from throughout the state.

Tickets for the pageant and ball are available at the J. Earl Rudder Center ticket office, in Room 102 of the Agronomy Building, or from Student Agronomy Society members.

Many a man who makes a little money through luck imagines himself to be a master of destiny.

"YOU ALL COME"

Sheridan's Ride

Oh, how I hated to miss the annual concert by the Federation of Choirs at the Greater St. Luke's Baptist Church this past Sunday. I've been going every year for some time now and no more musically enriching, spiritually rewarding time can be spent anywhere. But the day of the concert, wham, I battled a sore throat and aching bones—culminative result of the winds, sands, rain (what there was of it!) and general "going-around" sniffles.

So, now I have to wait a whole year until next March to hear that glorious music. Even though I missed the gathering (this is being written while it is taking place), I congratulate all those involved who give so freely of their time and their talents to make this one of the most glowing events on the Lubbock musical scene.

There are a spate of new films in town all of a sudden. It happens that way. One week you have nothing but the prolonged holdovers that you have seen lo! weeks ago, and then suddenly wow! Everybody decided to change bills.

That happened this week with such trivia as "Dogs" coming into the Showplace 4 and the Sir Lew Grade "The Domino Principle" into the Fox complex, along with the third in the "Airport" disaster films, this one, of course, "Airport 77." The Cinema West just next door took the wraps off "Voyage of the Damned" with an all-star cast, too. This one has been in trouble at the national box office and so they have upped and cut some 24 minutes from the film from its original 155-minute running time. That's one big cut, but if you haven't seen the original, then I don't suppose you'll notice the cuts. You see, the film didn't draw well on its first engagements and the owners decided that, in order that the film could receive maximum re-run showings in one day, aside from the original three-times daily, a cut was in order. So, a cut was made. I haven't seen the film yet; I did read the book about the hapless Jewish refugees, granted an exit visa by the Nazis to go to Cuba, only to find that Cuba slammed the door on them. They tried to get into the United States for asylum; they were turned away off New Jersey. They were headed back to the horrors of Germany, a ship without a port, when some countries proportioned the lot and allowed them sanctuary. Those who went to The Netherlands of course, only postponed their horror to that day when the Nazi hoardes overran the Low Countries and gathered them right back into the murderous fold.

The only film I saw this weekend was the Stanley Kramer production, "The Domino Principle." Now, Stanley Kramer is one of the most inventive and the most honored producer-directors in the business and, usually, his films are to be anticipated. He gets big casts and he produced them with flair in a costly sense.

He got a good cast here, Gene Hackman, Candice Bergan, Eli Wallach, Mickey Rooney, Richard Widmark and the very effective Edward Albert. Only thing is his script went haywire this time. It is a film of action and provocative situations but somewhere, somehow the motivations were lost in the shuffle. After an hour-and-a-half one comes out of the auditorium blinking and wondering what the fuss has been all about.

Considering its pedigree and antecedents, this film should have been a winner. As it is, it is only an exercise in waste of film and talents. Somewhere in the film one of the characters points out that "when the top man panics, all the dominoes fall down." I'm afraid that about sums up the film in toto.

The telephone has its many uses. One feels he cannot be without one, yet there are many times that it would be well to do without. It can be an instrument of thrills and happiness, joy and companionship, but that little black instrument is also an inroad to one's personal life that brings some of the bleakest moments of all.

It was the telephone in this apartment that rang last week to tell me that a longtime and beloved friend, Mrs. Bess Hubbard, has passed away during that same afternoon. Plagued by illness, pain and months, Bess Hubbard was made of stern stuff and she bucked and fought until there was no more ammunition left.

I came to Lubbock some 22 going on 23 years ago and one of the first people I met as a total stranger were Mr. and Mrs. Chester Hubbard. It was only to be a year or two before Mr. Hubbard died. Mrs. Hubbard had her son, Burl, who teaches at Texas Tech University, her grandson, daughter-in-law and, most of all her abiding commitment to art. She has taken up art as a pure hobby many years before that, but now she threw herself into etchings, prints, paintings and the crowning achievement of all, sculpture.

She worked tirelessly, fearlessly and achieved international and national recognition for her work. It is incredible when you see what this small but determined woman did accomplish. So, she gave to the world and she left her mark to remember by so doing.

On my walls are two of her black-and-white prints, and on my finger is a ring that she designed and executed just for me. I shall wear it until the end, always proud, always aware that in my daily notice of that ring is my contact with this dear, lovely and forthright person.

I look back over a long life and I can say, "Thank You God," for those He has brought into my scope and living time. Bess Hubbard was such a one and I shall miss her as will myriads of her admirers, here and abroad.

SPD Meeting to be Held in Lubbock

The annual meeting of the South Plains Development (SPD) program will be held in Lubbock on April 7. The theme of this year's program is "Cotton: The Basis and Future of South Plains Agriculture."

The program will begin about 1:00 p.m. at the Koko Convention Center, 5201 Avenue Q. Highlights of the afternoon will include a discussion of the agricultural credit situation by Dr. John Hopkins, chairman of the Agricultural Economics Department at Texas A&M University and a nationally recognized expert in the field of finance. The 1977 cotton outlook will be presented by Charles Baker, Extension cotton marketing specialist.

The progress of Plains cotton production over the past 25 years will be outlined by Dr. Levon Ray, and Dr. James Supak will present the PROFIT Cotton Program.

HORSE TALES

Senior Spotlight

This week's senior is Chuck Luck; he is the son of Mr. and Mrs. Charles Luck. They reside at Rt. 2, Box 190, Shallowater.

Chuck is 18 years old, having had a birthday in November. When asked what his favorite subject in school is he said that it was athletics. His one and only favorite thing is girls. He also has only one favorite hobby and that is collecting records and playing records on the radio.

Chuck says that the thing he enjoyed most about his senior year was knowing that he doesn't have to come back next year. After graduation, Chuck plans to work and go to college. The type of career that he is looking for is broadcasting.

Chuck is currently employed by KLLL FM radio in Lubbock. Listen to his program from nine to midnight Monday through Friday. Don't you think that Chuck Luck is kind of a "catchy" name for a DJ?

Track Meet

by Claudett Lamb
Last Friday the Jr. High girls traveled to Frenship for their first track meet. The results are as follows for the 7th grade:

- 100 yard dash — Shelbi McKinney, 4th
- 220 yard dash — 1st Stephani Martin, Bertha Menton, 3rd
- 880 yard dash — 2nd Shelbi McKinney
- 440 relay — Ruth Gomez, Stephani Martin, Bertha Menton, Shelbi McKinney, 5th
- 880 relay — Ruth Gomez, Stephani Martin, Bertha Menton, Shelbi McKinney, 2nd.

The results for the 8th grade are as follows:

- 100 yard dash — Thelma Menton 1st, Yolanda Anaya 4th, Sandra Stewart 6th
- 220 yard dash — Cathy Boone 3rd, Darla Denington 4th
- 440 yard dash — Pabla Ortiz 2nd, Yolanda Anaya 3rd, Sylvia Perez 5th
- 440 relay — Sandra Stewart, Cathy Boone, Thelma Menton, Mary Sporaes 4th
- 880 relay — Pabla Ortiz, Cathy Boone, Thelma Menton, Mary Sporaes 2nd
- Mile relay — Yolanda Anaya, Pabla Ortiz, Vickie Pettit, Sylvia Perez 5th
- Discuss — Mickey Bohner 5th.

Notice

by Suzie De Anda
The NJHS will present their play "Easy as Pie" on April 19 in the high school auditorium. Admission will be at \$1.50. The proceeds will be used to finance the NJHS Banquet in May.

It's Track Time

by Steven Wilson
Track season has started and both the boys' and girls' varsity teams have competed in a few meets. The Fillies have had two meets of late at Frenship and Farwell. The Frenship meet proved to be the best of the two. The Fillies' 440 yard relay comprised of: Cindy Jackson, Donna Evans, Lindy Blummer, and Robin Truelock finished second over all with a time of 51 and 8 tenths seconds. In the 100 yard dash Donna Evans finished second in 12.3 seconds followed by Cindy Jackson who finished fourth. Janis Horton finished first in the 220 with a time of 27.8. Jamie Hart finished seventh in the same race in 29.1 seconds. Beverly Pair placed second in the 440 in a time of 61 seconds. In the 80 yard hurdles Donna Evans finished third in 12.4 seconds. Mile Relay finished 2nd in a time of 4:27.4. Horton, Blumer, Pair, and Truelock make up the mile relay. The 880 relay team took first in 1:51.3. Jackson, Truelock, Blumer, and Horton make up the team. Lori Semsack placed fourth in long jump. In the triple jump, Truelock placed second with a 32'8" jump. The 440 relay team placed sixth at Farwell. Truelock finished third in the triple jump. Injuries hampered the girls at Farwell.

The boys competed at Farwell and Idalou. Rod Warren launched the discus 119'7" to place second at Farwell. In the same meet, Tim Sinclair ran the 880 in 2:09 to finish first. At the Idalou meet, Rod Warren finished fifth in the discus with a throw of 125'. Clay Dixon tied for third in the pole vault but after a coin toss he was placed fifth. Van Simkins finished fifth in the high hurdles.

Interscholastic Literary Events

This Wednesday and Friday, the selected students of Shallowater Elementary, Jr. High, and High School will be competing in the Spring Literary Events. The students will go to Seagraves and the competition will be against the other district schools. The division for elementary and junior high has been consistently won by our students.

Some of the events to be held this week are: Story telling, oral reading, informative speaking, poetry reading, spelling, number sense, picture money, slide rule, prose reading, persuasive speaking, oral reading, shorthand,

All-District Named

by Laura Walker
The coaches of the Mustangs and Fillies basketball teams are proud to announce the players selected for the 1976-77 All-District Basketball teams.

These young athletes have actively participated in the Shallowater Athletics and have portrayed an ever-increasing enthusiasm for the team. They have willfully performed to the best of their abilities for the school.

Forward Beverly Pair was placed on the All-District 2nd team. Beverly is a senior and will be missed as a captain and athlete on next year's Fillie team.

Three juniors were chosen for these awards. Robin Truelock, guard, 2nd team; Cindy Jackson,

guard, 1st team; and Lindy Blumer, guard, 2nd team. Lindy made All-District last year.

Sophomore and veteran Terri Stanton was honored by receiving All-District 1st team. She is a forward for the Fillies.

Junior guard Clay Dixon was placed on the 2nd team. He sparked the 1976-77 Mustang season with his athletic ability.

An all-around athlete, Benny Judah received Honorable Mention. He was captain for the Mustangs this year. Benny is a senior and deserves this honor.

All of these basketball players are congratulated on their achievements of this year. The Mighty Mustangs and the Fantastic Fillies should all be proud of their coaches and their teams.

Rogers to Complete Year Here

by Suzie DeAnda
Miss Janice Rogers has taken the position of teaching history typing, science, ready writing, debate, feature writing, editorial writing, newswriting, and headline writing.

Winners will receive medals and ribbons. High School winners will advance to Regional. This year, the regional contest will be at Odessa.

and health at Shallowater Schools. She will be completing the year for Coach Casey who left the school system March 18.

Miss Rogers is a 1976 graduate from Texas Tech University. She has a major in History. In college, she was a member of Delta Sigma Theta Public Service sorority and held the position of treasurer. She was also the treasurer of the Texas Tech Black Voices and a member of SABU, a black student organization.

Miss Rogers was very active in her high school years at Lubbock Estacado. She sang in the choir and was a student council representative. She was in publications and was elected Senior Class Favorite.

A couple of interests of Miss Rogers is baseball and modern dance.

Welcome, Miss Rogers, to Shallowater.

\$15.99 ea. Needlepoint canvases at wholesale prices.

This is a special offer, limited editions are available. Mail check or money order. Bank-American and American Express accepted; send card no. and exp. date. Delivery is 3-4 weeks.
