

W. L. ARMSTRONG

2nd Annual Missionary Conference Scheduled For Quitaque Methodists

The Second Missionary Conference is scheduled for March 2627-28 at the First United Methodist Church in Quitaque. The services will begin Friday and Saturday nights at 7:30 and at 6:00 o'clock Sunday evening with the Rev. William Mayo, former missionary to Burundi, Africa, and W. L. and Faye Armstrong, former missionaries to Indonesia, speaking.

The control of the Morthwest Texas Annual Conference and will be on leave from Indonesia the next two years and serve as associate pastor in the First Methodist Church in Lamesa.

Rev. and Mrs. Mayo serve with World Gospel Misison, an inter-denominational missionary organi-zation with approximately 240 missionaries and associate mis-sionaries ministering in 15 areas of the world with headquarters of the world, with headquarters

in Marion, Indiana. Natives of Texas, Rev. and Mrs. Mayo are graduates of Asbury College, Wilmore, Kentucky. Rev. Mayo is also a graduate of Asbury Theological Seminary. Before going to the mission field, they pas tored for a number of years in Indiana and Texas and engaged in

During their first term in Bur-ndi, beginning in January 1964, the Mayos were situated at Kayero mission station. Along with gen-eral mission work, Rev. Mayo did evangelistic work among the various churches and youth. Mrs. Mayo directed the women's work at

When the Mayos returned to When the Mayos returned to Burundi in mid-1968, after a period on the Murche station they ministered most of the term at the new Buhonga station in the Kumoso Valley, a long-neglected area of spiritual darkness. Rev. Mayo served as superintendent of the field for two years eiging the field for two years, giving much time to administrative du-ties. He also engaged in a heavy

Mayo served as superintendent of the field for two years, giving much time to administrative duties. He also engaged in a heavy schedule of evangelistic services in the churches and in a big tent, and held numerous pastors' seminars. He found that evangelism in Burundi had many facets other than preaching, including building a bridge in one area and driving over hills and valleys on uncharted paths.

In addition to being an evangelist's wife, a homemaker and teacher for one of their four children, Mrs. Mayo worked with the women and girls, teaching classing the discussion for a Gospel Meeting to be held in Turkey beginning Sunday, March 28 at 10:30 a.m. and continuing through Wednesday evening services will be held at 7:00 a.m. Monday through Wednesday and the evening services will be held at 8:00 p.m. Sunday evening services will be held at 8:00 p.m. Sunday evening services in the fellowment of the fillowment of the

ses at Buhonga and supervising Lyndon Latham of Amarillo, as the West area.

The Mayos share from their experiences in Burundi, where they witnessed converts burning their didols, and also experienced the tensions of a nation wracked by able, dedicated and devoutly restricted to the converted to the comes high-leader the converted to the converte Louisiana.

Federal Grants Awarded To 54 **Projects In Texas**

The Texas Historical Commis sion awarded federal matching grants totalling \$777,533 to 54 historic preservation propects in the state during the THC quarter-ly meeting March 2, announced Mrs. Wesley B. Blankenship, Commission chairman.

This year Texas received the third largest allocation in the na-tion—just behind California and Massachusetts-out of a \$22.3 million appropriation earmarked for the acquisition and restoration of

properties listed on the National Register of Historic Places. The federal funds, which are made available under the Histor-ic Preservation Act of 1966, are channeled to the states through the National Park Service, a divi-sion of the Department of the In-terior. The Texas Historical Com-mission administers these funds for the State.

Who'd want to invest in a bunch of revolutionaries?

They didn't exactly look like winners.

But then our revolutionary army beat the British at Saratoga in 1777.

And people recognized Washington's men as an army, rather than a band of renegades.

So faith was won as well as a battle. And investments in our government's securities started picking up.

It took courage to take stock in America back

then. But it paid off.
And it can do the same for you now.
Just join the Payroll Savings Plan, or buy U.S. Savings Bonds at your bank. There's no safer, easier way to build your savings.
So, buy the specially designed Bicentennial Series E Bonds.
Those brave revolutionaries would be proud.

family, the George Kaether family, and a granddaughter and husband, Mr. and Mrs. Rusty Eason, all at Alvarado, then drove to Richardson and visited the Tad Persons family. They report a very good time.

WHY GRAIN?

Beef can be produced without the use of any grain and without lessening the nutritional value of the product. Then why use grain at all?

Beef's Role In Feeding A Hungry World

However, faulty information, mis-leading statices and simplistic slo-gans have convinced some people that eating and producing less beef in this country will somehow mean more food for the rest of the world. At the center of this con-troversy is grain — principally corn and sorghum — which is used to feed cattle.

OVERLOOKED FACTS Critics of beef production over-look the fact that 75% of all feed

ceived the most delegate votes for Lieutenant Governor after an impressive and articulate presentation during the campaign, according to Gene Brock, Key Clubadvisor.

The new officer's duties will include overseeing the clubs in division 33, including the Key Clubchapters at Canyon, Dimmitt, South Amarillo, Tulia and Friona. He also will attend district board meetings in Dallas three or four times a year, plus National Convention in San Francisco, California.

The Sophomore student has served as local board member of the Key Club and held the sophomore flagehairmanship during the current school year. Also, he obtained the district convention in April by actively participating in Key Club events.

Brock said it was rather unusual for a sophomore student to get the high Key Club post, as a junior student ordinarily receives the honor.

Mr. and Mrs. J. T. Persons spent last week visiting their children. They visited the Rayford Hewett family, the George Kaether family, and a granddaughter and husband, Mr. and Mrs. Rusty Eason, WHY GRAIN?

Beef can be production overlook the fact that 75% of all feed foot and feed that 75% of all feed for look the fact that 75% of all feed foot and feed that 75% of all feed that 75% of all feed foot and feed from the such that for an impressive and articulate presentation during the carping as the found in sources such as grass, straw, busks, and other fibrous and purply materials. In fact, the ruminant is a walking protein for human consumption from otherwise unusable resources such as grass, straw, busks, and other fibrous and purply materials. In fact, the ruminant is avalking protein for human consumption from otherwise unusable resources such as grass, straw, busks, and other fibrous and proventials. In fact, the ruminant is avalking protein for human consumption from otherwise unusable resources such as grass, straw, busks, and other fibrous and they can produce high quali

why GRAIN?

ficult to break even let alone make a profit.
Therefore, like the automobile industry, the cattle industry is being forced by economic conditions to reappraise its production methods. Cattle are being kept on grass longer, coming to feedlots at heavier weights and staying for shorter periods. As this trend continues, total grain usage by the cattle industry could be reduced by one-third or more.

NOTHING BEATS BEEF

just consumed. Actually, cattle improve the protein content by converting lower quality grain protein to high quality animal protein. About eight percent of grain is protein, but it is incomplete and only 50% of the protein content is usable by the human body. However, 17% of the retail weight of beef is protein, of which 80% is usuable. Even if wheat were grown in place of the feedgrain, protein comparisons put beef on top. Wheat is 10-12% protein, about 52% of which is usable. Pound-for-pound, in amount and quality, beef protein cannot be matched by any single vegetable, fruit or grain.

The United Nations Food and Agriculture Organization recognizes this and is on record as saying that cattle, a source of high-quality, assured-quanity protein, are needed by the world's peoples for adequate nutrition as well as maximum land usage. This is true for both industrialized and developing nations.

The world needs more food. That is the goal. That means more beef and other animal proteins as well as grain, vegetables and other foods. Cutting back in any of these areas is counter-productive

areas is counter-productive.

Product research and improved meat handling techniques will increase the efficiency of the distribution system. Shorter feeding periods for cattle will free more grain for human use. Genetic research will result in improved cattle breeds and better feed con-

version.

The beef industry is working hard to fulfill its responsibility to help achieve the goal of more food for a planet growing hungrier by the day. It has to. It's a matter of life and death.

This information is presented to you by the Terra Cotta Cowbells thru the courtesy of the Beef Industry Council; reminding you of American Agriculture Day, March 22, 1976.

DELENE TYLER NAMED

CHAIRPERSON FOR CAMPAIGN Mrs. Delene Tyler of Quitaque was named Mental Health Chair person for the May '76 campaign announced Carroll B. Bryant, President of the Texas Association for Mental Health.

As chairperson, Mrs. Tyler will recruit volunteers to go house-tohouse during May, Mental Health

The Texas Association for Men tal Health is strictly a volunteer association, with members dedicated to informing the public a-bout mental illness and mental health, while helping the mentally

ill and their families.
As citizen advocates, the asso ciation works to see that govern-ment funds are spent effectively. Members would like to see a greater emphasis in state mental health dollars go to children and community mental health servic-

The Mental Health Association believes that education is a key factor in preventing mental health

As part of its educational program, the association cooperates with the Texas Department of with the Texas Department of Community Affairs, Early Child-hood Development Division, in de-livering the "Pierre the Pelican" newsletter series to all first-time parents in Texas. "Pierre" deals with the mental and emotional development of children from high to six years

birth to six years.

With one in ten persons needing some kind of mental health care, the association offers free literature to the public on alcoh-olism, children's mental health, sexuality, depression and other mental health topics. ROYE PIGG, MGR.

No segment of the economy has ever changed so fast and so completely as has agriculture during the past 60 years. When these changes have required capital, your Federal Land Bank has been a primary source of funds. There will be more changes. But we believe that a free agriculture—based on the family-operated farm or ranch—will continue to flourish
