### JOHNNY POWELL HAS EXCITING 'SHEEP HUNT'

Johnny Powell is a hunter. He hunts Aoudad Sheep, deer and other kind of game. He hunts in and out of season.

Johnny, however, does his hunting with a camera and nobody gets hurt—well, sometimes it is kinda close.

A couple of weeks ago Johnny was out in the brakes northwest of Quitaque stalking a group of aoudad sheep and finally spotted them several hundred yards down slope from him with a couple of gulleys between Johnny and the sheep.

There were two adults and four little ones in the group.

Johnny was hunting with a movie camera equipped with a telephoto lens. He started setting his camera up on its tripod and getting it focused on target. He noticed that one of the adult sheep had spotted him and sort of moved in his direction and Johnny lost sight of the sheep. He continued to take shots of the group and suddenly he glanced off to the side and there was the adult sheep not too many yards away standing looking at him.

Johnny immediately shifted his camera around and zeroed in on it. He realized suddenly that the sheep was moving toward him; and fast it was charging him! Johnny said he grasped his camera and moved aside by a small tree and the animal went on by, so close he could have reached out and touched it. He thought it was a ram but in talking to a game warden later, it was decided it was probably a ewe, attracted by the sound made by the camera.

The animal, Johnny said, just went going, much to his relief. Johnny is hoping to get a good documentary on the sheep that will interest one of the Amarillo TV stations.

Wilburn attended TSTA Convention in Dallas last week as a representative from the Sherman-Moore county area, and he is also the president for next year. He spent one night with the Murry Wise family, and he reports Murry is improving from recent back surgery.

(The Leepers had several months coming on a renewal subscription but they had failed to send us their address. Their sister-in-law was one of my nurses when I was in the hospital in November and I told her to tell them to send us their address. Thanks friends for writing.)

Mr. and Mrs. Bobby Lucero and son, Lesley Batterman, and her mother, Mrs. Bailey, visited the Buddy Morris' at the home of their son, Corky Morris, in Hereford last weekend.

Mr. and Mrs. Leroy Hamilton drove to Grapevine Thursday morning of last week and joined their son, Verlon, his wife and children, Vickie and Sammy Joe, for a flight to Washington, D. C. and points East. Your editor asked Mrs. Hamilton before they left to make notes and give a report when they returned. Following is an account.

We left Love Field in Dallas at 6:00 p.m. and arrived in Dullas Airport, Washington, D. C. at 8:15 p.m., traveling 1183 miles in two hours and fifteen minutes. The flight was non-stop and very smooth.

Friday we took a tour of Washington. The guide pointed out the famous buildings as we drove a long Pennsylvania Avenue: the U. S. Post Office, the Internal Revenue, the FBI building, the Senate building and many others. We drove around the Capitol, then to the Printing and Engraving, where we saw the one, five, ten and twenty dollar bills being printed. They use tons of ink every 24 hours, printing \$50 million.

We took a tour of the White House, the Jefferson Memorial and the Lincoln Memorial.

We crossed the Potomac River and walked through the Arlington National Cemetery to the grave of President Kennedy, then to the Tomb of the Unknown Soldier where we saw the changing of the guards. We saw the Iwojima Monument.

We went to the Air and Space Building of the Smithsonian Institute. There we saw the first plane the Wright Brothers flew; the Spirit of St. Louis that Charles Lindbergh flew across the Atlantic; the command module used in the first manned space flight; the lunar sample brought back from the moon, to name a few. We visited the Museum of Natural History and the Museum of Man, where we saw every kind of animal, bird and fish mounted in natural size.

On Saturday, Criss Reagan joined us and gave us an interesting tour. We went up to the top of the Washington Monument, which is 550' high. You are able to see

ven miles in any direction. We visited the Ford Theatre where Lincoln was killed; the Archives Building where the historical documents are kept, including the original Declaration of Independence.

We spent Saturday night and Sunday with the Lynn and Glynn Hamiltons at Richmond, Virginia.

On Monday we visited the Stone-wall Jackson Shrine and the home of George Washington at Mount Vernon, enroute back to Washington.

We left Washington National Airport at 2:40 Monday afternoon, stopping at Chicago, Illinois for a 30 minute delay, then arriving at Dallas at 6:00 p.m. We spent the night with Verlon and family then drove home Tuesday. It was the most interesting and pleasant trip we feel we have ever taken. There were so many, many more things of interest we felt space in the newspaper would not permit us to include.

**GA'S HONORED AT BANQUET**  
The GA's and their mothers were honored with a banquet by the WMS of the Quitaque First Baptist Church recently. The program consisted of the welcoming of the guests by Mrs. R. J. Harmon, WMS Director, and two songs "Pass It On" and "He's Everything To Me" by Kim Ham, Eva Cheat-

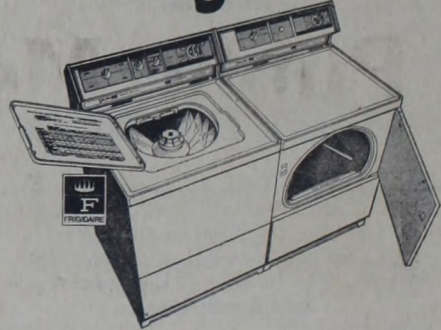

ham and Tammy Connor. The delicious meal that was served consisted of ham with cherry sauce, green beans, potato salad, congealed salad, homemade rolls, iced tea and cake.

After the meal, an informative talk was given by the pastor, Rev. Freddie Martin. Mrs. Phyllis Cheatham presented a box of candy to Mrs. Freddie Martin for

showing our appreciation to our pastor and his wife; also to Mrs. Wanda Payne, Mrs. Jo Patrick and Mrs. Janelle Smith for being GA leaders.

Mrs. Cheatham reviewed the events of the coming year. The banquet ended with a prayer. All those who attended reported a very enjoyable evening.

# Frigidaire re-invents the washer and the dryer.

Never before so many improvements at one time! That's why we say "re-invented". Washers and dryers that do it all... up to 18 pounds. This new Frigidaire can wash 1 piece to 18 pounds, or any size load in between. No attachments to add or store. It has a huge lid and door openings to put all that capacity within easy reach. A fill and rinse system that sprays down from 12 pressurized water jets around the tub. Permanent Press Care. Simplicity to keep service to an all-time low... like the lift-off console that makes servicing quick and easy... if it's needed at all. For full details visit West Texas Utilities.

Also, remember, West Texas Utilities offers you free normal 220 volt wiring if you are a WTU residential customer and if you purchase an electric dryer from a local dealer or WTU.

**Completion Dates Important Under REAP Cost - Sharing**

Farmers who are doing conservation cost-sharing work under the Rural Environmental Assistance Program (REAP) have been reminded that it is important to observe the completion date set when the practice was approved.

"When a farmer receives approval from the County ASC Committee for conservation or pollution-abatement work on his farm, we set aside part of our fund allocation to share the cost of the work," said Louie Kitchens, chairman of the Briscoe County ASC Committee.

At the same time we set a reporting date for completion of his practice, after a realistic appraisal of the time likely to be needed to get the work done.

It is most important for a farmer to observe this reporting date. Many agricultural conservation and pollution-abatement practices are needed and requested by farmers in Briscoe County. We do not have enough funds to share costs with all who apply.

When a farmer fails to report he has completed his REAP practice, the Committee is left up in the air—not knowing whether to re-allocate the funds for another needed practice by another farmer, Kitchens said.

The farmer who makes a timely report of completion has assurance of cost-sharing on his practice. Also, the Committee can re-use program funds if a cost-sharing practice costs less than originally approved for or if a farmer is unable to or decides not to carry out his REAP practice.

The ASC Committee chairman said a farmer who is unable to complete his conservation cost-

sharing work before the completion reporting date should request a time extension from the County ASC Committee, stating the reasons he has not been able to complete the work. Requests for time extensions for REAP practices should be made as soon as the farmer knows he will not be able to complete the work in time, and, in any case, before the date has arrived for reporting completion.
