Refreshments were served by Charmaine Fuston and Mrs. Donnie Brunson from a table laid with a white cutwork cloth underlaid with blue. The cake squares were topped with blue rosebuds. The centerpiece was a crystal vase of blue and white carnations flanked by blue candles and two doves carrying the double wedding rings. Appointments were crystal and silver.

Hostesses were Jeanette Case, Dona Browning, Ruth Adams, Lillian Mullin, Melba House, Charmaine Fuston, Rita Mullin, Mary Hogue, Betty Green, Tootsie Mullin, Wilma Eudy, Lilly Lane, Delores Price, Sandy Fuston, Leota Ferguson Velma Lacy, Ora Lee King, Margaret Lane, Wilda Fuston, Viola Brunson, Elaine King, Phyllis Cheatham, Mary Stark, Ruth Brunson, Faye Pointer and Roberta Farley.

BOY---then MAN

That's my son, Jerry, literally two feet off the ground last Saturday in the top half of the ninth. His team was ahead by one run and the bases loaded when he caught the fly that ended the game.

Whatever else good happens to Jerry, I know he'll never forget that sweet thrill of victory.

Years from now, when faced with a tough situation, that memory could be the inspiration for another triumph. The things that happen to a boy do shape the man.

That's why I've always taken Jerry to our church. I want the smell of candles on the altar, the blend of voice and heart in hymn and litany, to be a part of his life. I want for him the joy that comes from understanding God.

My father did the same for me.

How about you?

Kitchen Carpets

Kitchen carpets promise convenience in return for careful selection and a little extra daily care, according to Patricia A. Bradshaw.

"Daily care means removing spots and spills quickly, then sponging carpet—along with frequent vacuuming," the housing and home furnishings specialist, Texas Agricultural Extension Service, Texas A&M University, said.

She brought up several points for selecting kitchen carpeting. "For practical use, multicolors or tweeds show soil less than solid colors.

"Medium to fairly dark colors tend to stay 'fresh' longer—deep dark shades show lint and surface dust more readily, and light areas show spots.

"Good quality kitchen carpeting should consist entirely of man-made fibers because they aren't subject to mildew or rot. The face should be a non-absorbent, easy-to-clean fiber such as nylon, acrylic or olefin. Olefins are the most stain-resistant.

"The carpet should have a water-resistant barrier to help prevent liquids from soaking through and causing mildew or rot.

"It should have a short, dense, loop pile that will suspend crumbs and spilled substances on top of the surface for easy cleaning.

"Test samples for absorbency by pouring a little water on each one.

"Water should bead on the surface and be easy to wipe up. Although olefins may permit moisture to flow through the pile more quickly than other synthetics, they can be blotted easily."

The specialist cautioned against using carpet with woven jute backings in the kitchen, because liquids can mildew and rot it—or even cause shrinkage. Most kitchen carpets have sponge or high-density foam backing—some have a layer of woven or solid plastic between carpeting and backing as an extra barrier.

Turning to advantages of a carpeted kitchen, she cited the comfort and warmth it provides, along with a more luxurious appearance. Also, installation may be made over a floor in rather poor condition.

"Kitchen carpet requires less scrubbing and no waxing, absorbs much kitchen noise, and lessens the danger of breakage," she added.

Mr. and Mrs. Richard Irby and son of Azle visited here this week with his parents, Mr. and Mrs. Reddell Irby.
