days' exhibit of the Callahan Coun- County: ty Agricultural, Stock and Poultry Show at Baird last October, several representative farmers got together and were discussing the county's agricultural possibilities, when one of them who has made a most satisfactory success as a tiller of the soil and had a most attractive exhibit of its products, lamented the fact that so many farmers are uninformed agriculture;

"The fact of the matter is," he said, "we are not intensive enough in our cultivation and we are apt to depend too much on two or three staple crops. We get discouraged ber 6, 1924. Parent's names not and disheartened and feel like given. chucking up the job and going into some other business when a lean year comes along.

"I'm speaking from experience," he continued. "We farmers ought to be the happiest, most contented people on the face of the earth, and we ought not only to live on the fat of the land and enjoy most of the conveniences and luxuries that the dwellers in town do, but we ought to make our farms yield a reasonabla financial profit also.

"I began several years ago, at first in a small way, just what you are doing, brother," interjected another of the group, "and I find, like you have, that it pays. I've taken several prizes here, and I'll do better next year, fer I aim to keep on advancing, and I'm teaching my boys and girls to love farm life-its independence and healthfulness—and I'm going to try and make progress each year."

These preliminary observations led to a general discussion of ways given. and means to improve the condition of the farmer and his family, and to increase the productivity and profit of the business. Several means and measures were suggested, but the group cried "amen!" with great heartiness, when the first speaker declared:

"What we need in Callahan County is an Agricultural Demonstration Agent."

"You said a mouthful," chimed in one of his hearers and, the latter's wife, joining the group just at that moment, quickly added:

"Not only a Farm Demonstration Agent for you men folks, but a Domestic Science Demonstration Agent for the women folks, as well."

And that was the beginning of a movement that has been canvassed in different sections of the County, until it has pretty well spread over the County, and nowhere has it met with any concerted opposition, either among the men or the women of rural Callahan County.

The tremendous betterment in the physical welfare of the County's children through the welfare work of County Nurse Miss Stella Carter, has aided in pushing along the movement not only for the physical betterment of the children, but for the better housewifery and husbandry of

anty State Bank Of Baird Says Cashier Powell

The report of the First Guaranty State Bank of Baird, made on the last day of 1924 and printed in this issue of The Star, shows that institution to be in a very healthy condition, and, according to Cashier Thomas E. Powell, it is a sure money making concern.

"The First Guaranty State Bank was never in a more healthy condition, declared Mr. Powell. "The year just past was the best in its history. Over and above all expenses we have accumulated a surplus that enabled us to declare a dividend of twenty seven per cent on our capital stock."

The Home National Bank, of which the First Guaranty State Bank is the successor, was organized in 1900. "I think," concluded Mr. Powell, "that we made the best showing last year of any bank in West Texas."

And it certainly looks that way.

VARNER AND CELMARS TO BOX ON SATURDAY, JANUARY THE 17th

Walter Varner, the pride of Callahan County, who boxed a draw with Johnny Celmars of Waco, on Saturday night, December 27th, will face the latter again in the squared circle in Baird, Saturday night of next week, January 17th.

Celmars is a plucky and resourceful boxer and has a long line of ring victories to his credit. Monday night, January 5th, at Waco, he put "Rough House" Smith to sleep in the third round, and his coming contest with Varner, who is in the pink of physical condition and confident ed by five daughters and two sons, ington, that a vast amount of water of victory, will be well worth going miles to see. The men are scheduled to box ten 3-minute rounds, and Frank E. Stanley will referee the contest.

In the preliminaries, Mexican Joe 2 minute rounds, are the headliners. Tickets for the event are on sale at Harville's Confectionery. George A. Chappell will manage the event.

W. R. McDERMETT LAID TO REST LAST SUNDAY

The remains of Mr. W. R. Mc-Dermett, who died in Fort Worth last Friday morning, arrived in Baird on the Sunshine Special Saturday night, accompanied by members of the family and Mr. Tom Connellee. On arrival the Masons took charge of the remains, which were carried to the Schwartz Undertaking Parlor, until the hour for the funeral, which was held at the Baptist Church at 2:30 Sunday afternoon, conducted by Rev. Dick O' Brien, the Pastor. Many friends from out of town were here to attend the funeral. The church was filled to its capacity and many were forced to remain outside. There were many beautiful flowers, the alter being banked with them. We noticed that beautiful white flowers predominated, and whether so intended or not, was very appropriate as emblematical of the pure life of the deceased. For more than forty the County be requested to take the years the writer knew Mr. McDermett personally, and it can be truly said of him that he was an honorable upright man, a true Christian, a just and up-right Mason. He was for many years a member of the Baptist Church, at the time of his death he was a member of the Broadway Baptist Church, Fort Worth. Those who knew him best loved him most, and he was respected by all.

After the service at the church in calling this meeting. the members of Baird Lodge No. 522 A. F. & A. M., took charge and interred the body with the solemn ceremonies of the order. The pall-Boatwright, J. Y. Gilliland, W. E. m. Gilliland.

CONCERVING THE WATER

That Annually Goes To Waste In Callahan County Means Fortune To Farmers

County Judge Victor B. Gilbert has called a meeting of the citizens of Callahan County for tomorrow (Saturday), at 2 o'clock p m., at the Court House, to discuss the question of Water Conservation.

Itisto be regretted that greater publicity was not given the proposed meeting, so that people all over the County could have had notice and attended.

Irrigation is the greatest question that our people could consider, and The Star trusts that at this meeting plans will be formulated for a monster mass meeting of the whole citizenry, and that all newspapers in matter up in their columns, and give two or three week's notice of the meeting.

All of Callaban County is not susceptible to irrigation, but most all valley farms on the streams can be irrigated profitably. Store up the storm waters that go to waste and prevent just such droughts as we are having right now, and this, The Star believes was Judge Gilbert's object

The following is Judge Gilbert's call for the meeting:

SEEKING A GHEMICAL TO KILL BOLL WEEVILS

No Way Found Yet to Poison Eggs or Worm That Eats Raw Fiber.

Washington.-Efforts of the chemical warfare service of the United States Army to find a chemical strong enough to wipe out the cotton boll weevil was related before the House Appropriations Committee by Brig. Gen. Amos Fries, chief of that serv ice, as shown by the records made public recently. The chemical warare service has tried out 250 separate chemicals on about 30,000 specimens of the weevil, and will continue with experiments chemicals. Gen. Fries told the committee that he had 17,000 weevils in cold storage, and is trying to raise cotton in hot houses in South Caroina and Georgia, so experiments can

be carried on during winter months. The work of this branch of the army is not so much to find a chemical that will bring death to the weeso much as it is to determine whether a given chemical will injure the cotton plant, and whether, if found available, it can be manufac-lured readily. While protecting the plant the service is searching for a chemical that will kill the weevil before it lays the eggs. No way has been found to put the poison in the boll to kill the eggs or the worm that eats the raw cotton fiber. The possibilities from one pair of boll weevils in a year is about 12,000,000 young, the report shows.

59 OLD MEMBERS RETURNED TO HOUSE

The House Will Be Composed of Half Experienced and Half Inexperienced Members.

Austin, Texas.-The record discloss there were fewer representatives returned to the Thirty-Ninth House from the preceding Legislature than in many years. Out of the 150 members of the Thirty-Ninth House, only COOLIDGE'S FARM 59 served in the House of the Thirty-Eighth Legislature. Of the 91 members who will be in the Thirty-Ninth House and were not in the Thirty-Eighth House 16 saw service in Legislatures prior to the Thirty-Eighth. This makes an even 75 members, or exactly half of the House membership, who have had previous legislative experience. Thus the House will be composed of half experienced and half inexperienced members.

Five members of the last House have been promoted to the next Senate, being Loyd E. Price of Daingergene Miller of Weatherford and Joe M. Moore of Greenville.

Sixteen members of the last Senate have been elected to the new Senate out of the total of thirty-one Senators. Two members of former Senates were also elected, being Pierce B. Ward of Cleburne and Julius Real of Kerrville, the latter to be the only Republican Senator. Then J. D. Parnell of Wichita Falls served in a former house. This makes a total of twenty-four Senators who have had previous legislative experience, leaving only seven members who have not served in some session of the Texas Legisla-ture. This gives the Senate an unusually high percentage of experience.

When the Senate has convened its members will draw lots for the long and short terms, this being the first session since the new apportionment of senatorial districts. Sixteen Senators will draw four-year terms and fifteen get two-years tenures.

The seven members of the Ser The seven members of the Senate who are new to Texas legislative halls in the matter of membership service are as follows. H. F. Triplett, Beaumont; W. S. Moore, Gainesville; Gus Russek, Schulenburg; Jesse R. Smith, Breckenridge; Benjamin F. Berkeley, Alpine; J. W. Reid, Canyon, and Walter C. Woodward.

DEBT SUGGESTIONS HELD UP BY HERRICK

indicated in Paris Proposals Insufficient to Form Basis for Serious Conversations.

Paris.-Although the memorandum of Finance Minister Clementel concerning the funding of the French debt to the United States is considered by the Government as entirely unbinding unofficial and a personal statement of French public opinion, it has nevertheless, in the view of political leaders, posed the question of French war debts in such a way that negotiations must continue.

The suggestion of M. Clementel, handed to American Ambassador Herrick in the form of a memrandum, it is indicated in well informed, al-though unofficial French sources, probably are insufficient to form the basis of a serious conversation. The American Ambassador is holding up these suggestions pending further personal talks with French officials. It is even thought in political circles that they may never be cabled to Washington in their present form.

It is recognized by the French press, however, that contact between the French Minister of Finance and America's representative in has set moving the question of funding war debts and it is felt that something must come out of it.

The first effort of the French, it is anticipated in political circles, will be to obtain larger percentages of representations than provided on the Spa agreement, which gave them 52 per cent. Minister Clementel has pledged himself to the Socialists to raise this question at the coming meeting of the allied finance ministers here. If he succeeds in obtaining an increase, the debt settlement will be easier,

It is understood that the French will ask the Finance Minister's conference to revise the allotment of reparations on the basis of material damages sustained in the war, countng pensions. This would affect the British particularly, since the bulk of their share of reparations is made up by pension claims. The issue thus raised is expected to provoke a sharp conflict in the coming. conference, with Great Britain resisting a revision of percentages and France standing on the principle that she can not reduce her share of the allied claims on Germany and at the same time, pay in full the debts she contracted to win the war.

Agricultural Committee to Convene After 6 Weeks' Recess.

Washington.-The President's agricultural committee, appointed to recommend measures for agricultural rellef, has convened at the Department of Agriculture after a recess of six

Chairman Robert D. Carey, cattleman and former Governor of Wyoming, has announced the expectation field, J. Roy Hardin of Kaufman, of arriving quickly at a decision on Carl C. Hardin of Stephenville, Eumeans of relieving distress among live stock men. The cattle industry and co-operative marketing also are before the commission for priority consideration.

Members of the commission said it was hoped to present to the present Congress some relief legislation and they were of the opinion that such legislation should be purely of an emergency nature and not designed for a long-time policy. Assistance for the cattlemen, it was thought, would be sought chiefly through financial and tariff channels. It is planned to establish connections with banking organizations now dealing with live stock men and to devise a program which would meet the support of the bankers. Further relief is expected to be found in the marketing end of the industry.

With Chairman Carey, the commission members are O. E. Bradfute, president of the American Farm Bureau Federation; L. J. Taber, master of the National Grange; C. S. Bar-rett, chairman of the National Board of Farm Organizations; Ralph P. Merritt, president of the Sun-Maid Raisin Growers; R. W. Thatcher, diector of the New York Experiment Station; W. C. Coffey, dean of the College of Agriculture of Minnesota; Fred H. Bixby, president of the American National Live Stock Association, and William L. Jardine

Washington .- As his first important action since becoming chairman of the Senate Foreign Relations Committee, Senator Borah of Idaho, preparing to propose shortly that President Coolidge call an international conference to consider further disarmament and economical prob-

Borah contemplates offering a resolution requesting the President to call such a conference. Just when the proposal will be made formally depends largely on how conditions develop in the immediate future. This plan has been in his mind for some time, and he is only awaiting a propitious moment.

His original proposal was for conference confined to economic matters, but in view of President Cooldge's desire for a second arms limitation conference, Borah intends to ombine the two ideas.

Before the resolution is presented, it is probable that Borah will have discussion with the White House. He and Secretary of State Hughes are not in complete agreement on several aspects of the plan. Borah, for instance, desires to invite Germany and Russia to the conference, believing that no settlement, particularly of an economic nature, can be effective unless those two big units of Europe are included. Hughes is opposed to admitting Russia, and sees little to be gained by including Germany.

There is a distinct cleavage be tween Borah and the administration regarding the advisability of the United States venturing into an economic conference. The result is apt o be a test of strength between them.

The administration believes that the Dawes plan must be allowed to work for some time in order to judge its effects. Further tampering at this time is unwise, American officials be-Borah has always felt that the exact sum of the total reparations to be demanded of Germany should have been fixed in the Dawes settlement. Furthermore, even if such conference were considred advisable at this time, the administration would object to America participating in it. There no reason for the United States joining in a European economic conference, the administration holds. Borah, on the contrary, believes that American interests and American advice should be represented. In fact, the Dawes plan was the work of the United States. done unofficially hrough two American representatives, and Borah would do this openly instead of covertly in the next confer-

ATTORNEY GENERAL STONE REPORTS ON WORK

80,000 Cases Disposed of in 1924 By Department, Says Stone.

Washington.-Eighty thousand cass to which the Government was a party were disposed of in 1924, resulting in collection of fines and penlties totaling more than \$12,000,000. Attorney General Stone announced in summing up the work of the Depart-ment of Justice for the last year.

Special a tention has been directed n the year, the Attorney General reported, to strengthening of the deartment's organization with resulting cimulation of activities in the office f United States District Attorneys and other efficiencies.

He reported that particular attention had been directed to solving two major problems, the selection and prosecution of cases involving organizations and activities of trade assolations, so as to develop the law relating to them, and the application of the anti-trust laws to restraints of trade and monopolies based on acquisition or pooling of competitive pat-

The increase in terminations was due largely to the increased number of convictions, there being 3,114 more for the fiscal year 1924 than for the prior fiscal year. The sentences imposed have shown a gratifying advance, and the tightening up heavier punishments meted out by the courts." enforcement is reflected in the

Strike Ends After 12 Years.

Bangor, Maine. - A sympathetic strike which for twelve years has prevented the Bangor & Aroostook Railroad from operating its trains over the tracks of the Maine Central Railroad has been declared at an end. When 150 engine and trainment of the Bangor & Aroostook went out on strike in 1912 the Maine Central union men refused to handle connecting line trains. This ban has been enforced until the Maine Central declared the sympathetic strike would no longer be recognized.

Dishwasher Heir to \$250,000

Miami, Fla.-A widow who has been earning her living as a dishwasher in a Philadelphia hotel has fallen heir to property in a Miami subdivision said to be worth \$250,-She is Mrs. Olivia Mae Elssler, of Philadelphia, who inherited half of a forty-acre tract here. Before his death, John Eissler gave a quit-claim deed to his sister, who executed a trust agreement whereby she was to sell the land and divide the proceeds with her brother's wife.

Indict County Prosecutor.

Clayton, Mo.-Four indictments against Prosecuting Attorney Adam Henry Jones of St. Louis County, whose term expires at midnight Wednesday night, were returned by grand jury. Two indictments assert Jones "unlawfully, willingly, knowingly and corruptly" failed to prosecute certain liquor cases. The other two indictments allege Jones "entered into a corrupt agreement" to nolle prosse charges in two felony

COOLIDGE ADDRESSES SCIENCE DELEGATES

Progress in Europe Affects in a Material Way Conditions in this Country

Washington .- Three thousand : ... bers of the American Association for the Advancement of Science and allied societies were told by President Coolidge recently that Society and Government no longer fear the scientists' search for truth.

"It has taken endless ages to create in men the courage that will accept the truth simply because the truth," the President said. Ours is a generation of pioneers in this new faith. Not many of us are endowed with the kind of mental equipment that can employ the scientific method in seeking for the truth. But we have advanced so far that we do not fear the results of that process. We ask no recantations from honesty and candor. We know that we need truth; and we turn to you men of science and of faith. eager to give you all encouragement in your quest for it."

The members of the various scientific organizations which have in session in Washington called at White House by appointment and Mr Coolidge designating himself as "one particularly interested in this governmental university of practical and aplied science" adand aplied science" dressed them from the south portico of the executive mansion.

The lack of liberality by the Government in payment of its scientific workers was deplored by the Prestdent, who asserted that "the most asual inspection of the salary lists of scientific workers in Washington will make very plain that it is to-ward science, not the scientists, that the country has been officially generous."

"You represent the interests, the forces and the endless which literally from day to day are conquering new domains and adding them to the imperial realm of hu-

"The future of civilization is well nigh in your hands. You are the won-der workers of all the ages. The marvels of discovery and progress have become commonplace, simply because their number has paralyzed the capacity of the mind of wonder-Those of us who represent social organization and political institutions look upon you with a feeling that includes much of awe and some thing of fear as we ask ourselves to what revolution you will next require, us to adapt our scheme of human relations.

"But we know that you are antmated by a profound purpose to better the estate of men. We are confident that society will somehow devise institutions capable of adaptation to the changed circumstances with which you are surrounding the business of living in our world.
