by Bill Boykin
Texas Press Association

She is the first woman to work as a lineman in any of the more than 30 telephone subsidiaries of General Telephone & Electronics Corporation. She also may be the first female to fill this job category in any telephone company in the United States and probably the world.

"We're confident that Mrs. Roswell will perform the lineman's duties in a fully competent manner," said Del L. Moore, Vice President, Operations for General Telephone of the Southwest, headquartered in San Angelo, Texas. "The work is demanding, and she isn't receiving any preferential treatment. However, she is well trained, physically fit, and very anxious to learn more about our business."

After working as an operator and a clerk for General Telephone of the Southwest for three years, Sharon recently concluded that the pole-climbing job would be an effective route toward moving up in the business.

"I decided that eventually I'd like to specialize in repairing switchboards and installing telephone systems for businesses," she said. "The lineman's job, which pays more than my clerical one, looked like it would take me a big step toward my goal."

As a member of a line crew working in the Stuttgart area, Sharon climbs poles, lifts heavy objects, and operates construction equipment in all kinds of weather. She spends a substantial portion of her time on the telephone poles—about 20 feet up—stringing lines and doing repair work.

Like others in her crew, Sharon wears the lineman's traditional badge of office—the steel-spurred "climbers" which she plunges into the wooden poles to step skyward. The climbers, also known as "hooks", are belted to her heavy work boots.

An unusual item is her "good-luck" T-shirt emblazoned with a picture of Pisces the Fish—the Zodiacal sign for persons born between February 21 and March 21. Sharon, whose birthday falls on February 26, is an astrology enthusiast.

AUSTIN, Texas—A major court decision last week left up in the air the question of how Texas is to achieve a valid reapportionment act for both houses of its legislature before next year.

State Supreme Court agreed with an August 2 Austin district court finding that a House redistricting bill passed this year is unconstitutional because it unnecessarily split up 23 counties.

The decision left unanswered how the bill should be corrected or if it should be redone before 1973. Basic questions are these: "Should House reapportionment and state Senate redistricting (left untouched by the Legislature) be the subject of an emergency special session?"

"Should the five-member constitutional Legislative Redistricting Board take on the job, since no valid reapportionment was done by the Legislature in the first regular session after the 1970 census?"

"Should the Legislature forget about reapportionment before the 1972 elections and wait until the 1970 census statistics are all complete and published?"

Gov. Preston Smith and Atty. Gen. Crawford Martin once more are on opposite sides of a controversy.

Smith says the Redistricting Board has the "duly constituted responsibility" under the constitution to redistrict, and a special legislative session on reapportionment would be unnecessarily costly.

Martin stated in a brief before the Supreme Court a special session "would seem the only correct possibility, but this, too, could become the subject of litigation."

A High Court ruling in another case challenging the Redistricting Board's authority may hold the key as to whether it can proceed, whether the Legislature must take over now or check the task until 1973.

A note of urgency is injected into the issue by the fact the Board is directed by the constitution to do whatever it is going to do by late October. Furthermore,

legislative candidates appear to face a November 7 deadline for establishing residence in the district they choose to represent.

ANTI-POLLUTION PERMIT USED

Texas Air Control Board has put into operation a far-reaching construction permit system to help control and prevent air pollution.

Since August 30, any industry that will omit air contaminants into the atmosphere must get a Board permit before starting any construction. Similar permits are necessary to modify or change existing contaminant-causing facilities.

Permits apply to specific, individual manufacturing processes, not entire industrial plants or complexes. Exceptions for minor contaminant-causing plans will be listed later. Applicants have 60 days after construction is completed to apply for operating permits.

HEALTH STUDY ON

New studies to find ways of meeting health service, staff and facility needs of Texas' rural population will be undertaken by the Research Institute for Systems Development at Texas A&M University.

The study will be conducted in the West Central Texas area, centered around Abilene which has both rural and urban characteristics typical of many regions.

Fewer than half of Texas' 492 hospitals meet federal medicare requirements for health and safety, so the project will focus on health facilities and services considered below medicare standards. Texas has more than twice as many qualified hospitals as any other state.

APPOINTMENTS

Carl E. F. Dally of Houston and District Judge Tom G. Davis of Vernon are new commissioners on Texas Court of Criminal Appeals.

Six directors and two assistants to the executive office of Texas Parks and Wildlife Department were named this month. They are:

Roy T. Huffman, director of current operations; George H. Cook, assistant for legislative affairs; George C. Adams, assistant for land acquisition; Ron D. Jones, director of planning; John D. Macklin, jr., director of personnel and administration; Richard A. McCune, director of information and education; Samuel W. Kendrick, jr., director of support services and Clayton T. Garrison, director of finance and data processing. John D. Townsend has been na-

med assistant commissioner for planning and coordination for the State Department of Public Welfare.

\$150 MILLION BOND ISSUE POSTPONED

University of Texas regents postponed until October 22 consideration of an overall plan for marketing the first block of \$150 million in bonds authorized for new college construction.

About \$30 million in bonds apparently will be sold by December. They are backed by tuition revenues. Money will go to build new institutions of UT at San Antonio, Dallas, Houston, Odessa and El Paso.

The bonds were authorized by the 62nd Legislature this year to build newly - authorized institu-

DAM AUTHORIZED

In spite of opposition by landowners, Texas Water Rights Commission voted to permit construction of a dam on Martin's Creek in Rusk County by three electric power companies.

Dallas Power and Light Company, Texas Electric Service Company and Texas Power and Light Company plan to build the dam 17 miles northeast of Henderson for a major power plant.

Landowners expressed fear the lake created by the dam would flood their pastures, destroy timber and prevent Martin's Creek from continuing to provide water for livestock. The companies pledged to try and prevent or mitigate damage.

A young Arkansas woman, Sharon Roswell, 24, has just become a full-fledged member of a line crew for General Telephone Company of the Southwest.

Woman Pioneering As Phone Lineman

STUTTART, Ark. — Another traditional all-male field is echoing to the first light footfalls of the American woman. This time it's the rugged outdoor job of telephone lineman.

The pioneering female pole-climber is a 24-year-old Arkansan, Sharon Roswell, who has just become a full-fledged member of a line crew for General Telephone Company of the Southwest.

DISABLED VETERANS MAY BE ELIGIBLE FOR FREE AUTO LICENSE PLATE

State Sen. Jack Hightower of Vernon was in the proverbial "right place at the right time" Monday, September 13 when the 1971 Miss America Phyllis George returned home from Atlantic City. Sen. Hightower was visiting with officials at North Texas State University and dropped in on a campus "welcome home" reception for the Denton beauty.

Fair Housing Certificate Must Be Certified Before Transaction is Approved

In another step to insure fair housing, Donald E. Johnson, Administrator of Veterans Affairs, has announced in Washington, D. C., that all persons submitting offers to purchase VA-owned prop-

erties after September 1, 1971 must sign a certificate subscribing to fair housing before their transactions can be approved. The applicant must agree that he will not discriminate for any

Certification of Texas veterans disabled 70% or more for qualification to receive free license plate for one auto will be done by the Veterans Administration, according to Jack Coker, VA Regional Director at Waco.

VA records show 14,150 Texas veterans are 70% or more disabled.

Eligible veterans should act now to establish their claim for this state benefit approved by the last Texas legislature, Coker emphasized. Texas motor vehicle authorities must have the request by October 1, 1971, in order for the veteran to qualify to receive his free 1972 license plate.

Forms for application have been distributed by Texas officials to VA offices, Texas Veterans Affairs Commission county service officers, Tax Assessor-Collector offices and Texas Motor Vehicle District offices.

Since this is a new state benefit Texas officials do not know which Texas residents qualify, so it is the responsibility of each veteran who has a 70% service-connected disability to make application.

Coker expressed concern that so far the Waco Regional Office has received only 1,700 applications for VA verification.

reasons of race, color, religion or national origin, in any future sale or rental of the property being acquired, Johnson explained.

Information on this program may be obtained from any VA office, veterans county service officer, or local veterans service organization representative.

Coker noted that eligible veterans should obtain their form, complete the veteran status part and send it to 1400 North Valley Mills Drive, Waco, Texas 76710. The VA will certify the degree of disability and return the form to the veteran applicant. The veteran then tenders this certified form to the Texas Motor Vehicle Division with one dollar for handling and mailing. The dollar should not be sent with the form to the VA.

Since several days of mail transmission to and from the VA and records checking by the VA will be necessary, veterans are cautioned not to wait until the last few days in September before acting.

State Capital News

By Bill Boykin
Texas Press Association

AUSTIN, Tex.— Texas became one of the first states to defy President Nixon's wage freeze order as it applies to public employees and school teachers.

Gov. Preston Smith, after three days of conflicting reports, issued a proclamation instructing agency heads to ignore the August 15 order against pay raises for teachers and state workers. Raises were authorized by the Legislature long ago and funds appropriated for the new budget beginning September 1.

U. S. Office of Emergency Pre-

paredness official first informed the Governor's office that the freeze did not apply to local and state government employees and teachers.

But 24 hours later, the President's Cost of Living Council headed by former Texas Gov. John Connally, now U. S. Treasury Secretary, reversed this position. Council held that state and local government workers were subject to the 90-day freeze, and teachers could get raises only if their contract periods began before August 15.

Texas officials had taken the stand that the law authorizing present salary levels for 95,000 state employees and 138,000 teachers expires August 31, and they had no authority but to put new wage scales ordered by the Legislature into effect after that.

"I am refusing to obey the President's order to scrap our appropriations bill, which was signed into law months ago," said Smith. "Texas is going to obey the laws of the 62nd Legislature."

In his official proclamation, the Governor accepted "full responsibility" for his order of federal defiance.

Governor further blasted the federal government for issuing "two conflicting sets of orders on every vital issue."

Smith's directive means the 6.3 per cent raise for state employees will go into effect September 1, and teachers will get their long-range increase approved by the Legislature two years ago.

At the same time, tax and college tuition raises also will go into effect. Scheduled auto insurance rate boost has been postponed until after the 90-day freeze, as has consideration of freight rate increases.

"SCANDAL" HEARINGS HELD
House General Investigating Committee held the opening round in its hearings on stock-loan scandals involving high state officials.

Frank W. Sharp, one-time head of Sharpstown State Bank and National Bankers Life Insurance Company, was the star witness. He told Committee members he and House Speaker Gus Mutscher had a "tacit understanding" that there was a link between stock purchases in NBL by the speaker and passage of banking bills fa-

vored by Sharp in 1969. Speaker Mutscher borrowed money from the Sharpstown Bank to buy the stock, as did a few other state officials including Governor Smith.

Sharp denied, however, he ever gave anything of value to a state official in exchange for a political favor.

Former Atty. Gen. Waggoner Carr, appearing before the Committee, called the federal Securities and Exchange Commission investigation of stock-loan transactions a Republican-inspired political "hatchet job."

OIL ALLOWABLE CUT
For the fifth month running, Texas Railroad Commission ordered a reduction in statewide oil allowable, fixing it at 65.1% of potential for September.

Figure is the lowest since August, 1970, when it dropped to 62.9%.

September allowable, down slightly from 66.2% for August, will permit a 3,350,493-barrel-per-day production maximum flow, 45,264 less than the present top.

Nominations by crude oil buyers for next month totalled 3,218,430 barrels daily. That is 24,032 less than August figures.

Only one major producer, Shell, asked more oil in September. Ten asked the same allowable, and three wanted less.

AG OPINIONS
Counties adopting workmen's compensation for their employees must carry appropriate insurance or lose common law defense of contributory negligence and assumed risk, Atty. Gen. Crawford Martin has held.

In a flood of other recent opinions, Martin concluded:

☆A local option election legalizing the sale of mixed alcoholic beverages may be held in any city of Precinct 7, Jefferson County within a year after May 18, 1971.

☆Regional planning commissions may be created by two or more counties and/or cities and membership extended to other subdivisions, with the governing bodies determined by agreement among members.

☆Bexar County commissioners have no authority to expend money for the purpose of making a grant to a non-profit corporation to promote industrial development in the county.

☆Brazoria County Court of Domestic Relations has authority to try eminent domain cases transferred to it by district courts.

☆Hidalgo County Housing Authority has no statutory authority to dispose of any property by transferring it without consideration to a non-profit organization.

☆Orange and Jefferson County district attorneys may commission a regional juvenile legal services officer as an assistant d. a.

☆Bill to abolish county school superintendent in Matagorda County is void, so the office continues to exist.

☆New law eliminates requirements for certification on invoices to state agencies by contractors or sellers of contracts and purchases.

☆State Comptroller cannot issue a new or duplicate warrant to pay an original unemployment compensation benefits warrant presented more than a year after issuance.

☆Bill allowing county commissioners in Denton and Comanche counties to set their travel expenses and depreciation at a different rate from that set for the county judge is unconstitutional.

☆"Net appropriations" of general revenue for University of Texas medical schools at Dallas and Galveston means grand total of appropriations less income from educational sources.

WELFARE POLICY CHANGED

State Board of Public Welfare has changed its policy to permit Old Age Assistance recipients to earn up to \$50 a month without loss of assistance payments, effective November 1.

Under current eligibility rules, only \$7.50 of any income source is exempted in calculating an OAA recipient's budgeted needs for an assistance check.

New policy will exempt the first \$20 of earned income and one-half remainder up to \$80 a month.

Governor said OAA recipients will be permitted a better standard of living and not be penalized for working. OAA average monthly grant is about \$62.28.

SHORT SNORTS

Sen. Ralph Hall of Rockwall said he will announce for lieutenant governor in September.

Comfort is...

Fresh, warm air gently circulating from floor to ceiling . . . down-to-earth dependability . . . easy-on-the-budget operating costs. Comfort is gas heating. There's no heat more comfortable.

And there's no heat cleaner than gas. Gas burns clean. It's one energy source that doesn't dirty the air.

Air-circulating gas heating systems also give you the first-half of a built-in gas air conditioning system. Adequate heat ducts can carry cool

air to your whole house too - so you can add-on gas cooling right away or later if you prefer. Together, gas heating and gas cooling are an unbeatable combination for year 'round total comfort.

If you're building a home or planning to replace an out-dated heating system, choose thrifty gas heat. Check with your heating contractor.

PIONEER NATURAL GAS COMPANY

You can't live on love forever.

Okay, you're young. You've got all the love in the world and you're doing your best to live on it. Retirement? That's for when you're old, right?

It's for when you're old if you can afford it.

The kind of retirement you're after isn't the typical rocking-away-on-the-front-porch variety. You probably picture yourself taking extended vacations, pursuing hobbies, or buying that forty acres and living off the land. Pipe dreams? Not if you prepare now.

There's an easy, painless way to make your retirement dreams a reality. Join the Payroll Savings Plan where you work. That way, an amount you specify will be set aside from each paycheck and used to buy U.S. Savings Bonds. It's an easy way to save.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

Now is the time to start saving. Money's a nice thing to have while you're living on love forever.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.

Three-Wire Plugs: What They Mean to You

Over eight decades have passed since Thomas Edison introduced the phenomenon of his electric light to an amazed world. In many ways electricity remains a mystery to man, yet it is an essential part of our contemporary society. However, at the flick of a switch electricity can be a killer. Perhaps the figure of approximately 1000 lives per year being taken by electric shock is not so staggering, considering that over 200 million people live in this country. Nevertheless, it is still a wanton and needless waste of human life.

Many means are being employed to reduce shock fatalities and one such method is the 3-wire plug. The third wire of this plug acts as what is called a ground conductor and serves as one of the protective means for the device. Such protection is accomplished through the ability of the wire to force the fuse or circuit

breaker to "blow", thereby eliminating any shock hazard. Though originally found primarily on power tools, 3-wire plugs are now used on many appliances.

When a situation arises regarding "blowing" fuses or circuit breakers, it should be emphasized that this happens for your protection. There is nothing wrong with the fuse. The fault lies elsewhere; either with the appliance which forces this reaction or because the circuit has been overloaded. In either case, the fuse is just doing its job of protecting you and warning that something is wrong. Should an instance occur wherein there is a fault in an appliance but a fuse doesn't "blow", the appliance becomes an extreme hazard as it remains "live". Therefore, if one were to contact the "live" metal enclosure of that appliance and some-

thing which is grounded (radiator, refrigerator, water pipe, etc.), shock and possible electrocution could result.

Perhaps your home is not equipped with grounding type receptacles. If this is the case, an adapter is available to accommodate the 3-wire plug. But always make sure the green grounding lead of the adapter is connected to the faceplate of the receptacle.

Another point to be remembered is never to remove the ground pin from a 3-wire plug. This would allow the plug to be used in a 2-hole receptacle, but the protective capability is rendered useless.

In offering the above information, Underwriters' Laboratories sincerely hopes you gain a better understanding of some of the many ways electricity can become your master. Through such understanding it will be possible to maintain this phenomenon in its proper, subservient role.

Shirttail Sermon

NOW IS THE TIME

In the 14th chapter of the book of Romans, Paul gives some advice to the Christians of that day that seems almost to have been written specifically to us now. He says:

"Knowing the time, that now it is high time to awake out of sleep; for now is our salvation nearer than we believed."

He goes on to say:

"... the night is far spent, the day is at hand; let us therefore cast off the works of darkness, and let us put on the armour of light."

What Paul is saying is that things are in a mess and something had better be done. Well! that's where we are today and it will take a lot of light for us to find our way out. If we are to find our way out it will be through dedicated Christians applying themselves intelligently to the problems of the whole world. God is still the creator, and maintainer of life itself. He holds THE WHOLE WORLD IN HIS HANDS.

Roy Patterson, pastor
United Methodist Church

Hefner - Reese Vows Exchanged In Colorado Church Ceremony

Miss Laura Hefner became the bride of Carl Reese in a candle-light service in the Truett Memorial Baptist Church in Wheat Ridge, Colorado, on September 18th. The Rev. Jack C. Carroll officiated.

Mrs. Hildebrand and Bud Niven provided the wedding music.

The bride wore a floor-length gown of white taffeta with sleeves of re-embroidered chantilly lace and a circular train of scalloped lace attached at the waist. The veil was shoulder length and fell from a rhinestone and pearl tiara. For something old she wore her great-grandmother's wedding ring and the necklace she wore at her wedding 75 years ago. The traditional good luck pennies of their birth dates and a new 1971 one were placed in the bride's shoes. Her bouquet was of white gladiolus and baby's breath with a cascade of satin ribbon streamers.

Miss Landa Hefner was her sis-

ter's maid of honor. Miss Shelly Scalise of Denver and Melody Miller of Vega served as bridal attendants. They wore identical crepe dresses of blue and green, and carried matching bouquets. April Louise Hefner was the flower girl and Kelly Miller of Vega was ring bearer. Candlelighters were David Durant and Tom Frick. They also served as ushers. Groomsmen were Lloyd Russell and Richard Reese, brother of the groom.

A reception followed in the church parlor with Mrs. Jim Lemons and Betty Uber serving the guests and Debbie Pearman at the register.

The couple will live in Colorado Springs. The groom recently returned from Vietnam and will be stationed at Fort Carson.

Mr. and Mrs. Willis Walker, Mrs. Louise Meacham and Mr. and Mrs. Kenneth Miller and family of Vega attended the wedding.

CLUB STUDIES HISTORIES OF WEST TEXAS TOWNS

The Nuevo Study Club met September 23, with Mrs. J. R. Nall as hostess and Mrs. Josh Smith as leader.

The program subject was "West Texas Towns." Mrs. Smith's devotional was followed by the roll call to which each member answered with the origin of the name of a Texas town. Mrs. Patterson told of a Panhandle pioneer, Hugo Reimer, jr., who lives near Stinnett. Mrs. Bain told of how White Deer was settled by families from Poland. Mrs. Blume gave a history of Tell and included personal reminiscences by Mrs. Sam Peery, a pioneer of Tell.

Two library signs, which will be posted in town, have been painted, and the weeds in town will be cut when the weather permits. Members will contact individuals who desire a Community Calendar for 1972.

Daphyne Lane received word from her mother, Mrs. Alta Smith, who is in the hospital in Van Horn, that she is feeling much better.

Mr. and Mrs. Jimmy Jordon of Dallas visited last week with his grandparents, Mr. and Mrs. Floyd Gilmore.

Mrs. Dot Lesley of Groom spent last week in Turkey with Mr. and Mrs. Dennis Denton and baby.

Mr. and Mrs. Tommy Speed and Shane of Memphis spent Sunday visiting her grandparents, Mr. and Mrs. Joe Richardson.

Rev. and Mrs. James Smith of Quitaque attended a Fellowship meeting at Crosbyton at the Assembly of God Church Tuesday night.

Power Tools: Handle With Care

The increasing popularity of power tool use has sent sales skyrocketing, but it has also created a vast array of potential hazards as more and more novice hobbyists turn to power tools as an ideal activity for passing leisure time. Carelessness and lack of knowledge are the two primary contributors to accidents with power tools.

Underwriters' Laboratories, a not-for-profit organization testing for public safety, offers the following suggestions in order that you will be better equipped to make safety a part of this hobby.

- Always read the owner's manual thoroughly and carefully prior to use of tools.
- Always ground tools unless they are double insulated. Whenever power cord is equipped with three-prong plug, use a three-hole electrical receptacle. If a two-prong receptacle is all that is available, use an adapter and attach adapter wire to a known ground.
- Always keep safety guards in place.
- Never work in a cluttered area.
- Never use tools in damp locations.
- Never allow children near work area.
- Never leave tools lying around when not in use.
- Always use the right tool for the right job.

UL technician records measurements of ability of insulation system to withstand electrical stress after tool burn-out test under severe overload conditions.

-Never force a tool to do a job.

-Never wear jewelry or loose clothing while working with power tools.

-Always wear safety glasses when required.

-Never abuse the power cord.

-Whenever possible, use a vise, not your hands, to hold item on which you are working.

-Always maintain proper footing and balance while operating a tool.

-Always look for the UL symbol on the tool.

If you will follow each and every one of these rules, you can assure yourself of a more enjoyable, and certainly safer, hobby.

Mr. and Mrs. Tiffin To Celebrate Golden Wedding Anniversary

The 50th wedding anniversary of Mr. and Mrs. Von Tiffin will be observed with a reception from 2:00 until 5:00 p.m. in their home 4½ miles north of Flomot Saturday, October 9.

Hosts and hostesses will be their sons and daughters-in-law and their daughters and sons-in-law: Mr. and Mrs. G. D. Tiffin, Mr. and Mrs. Rex Tiffin, Silverton; Mr. and Mrs. Donell Jeffries of Colorado Springs, Colorado, and Mr. and Mrs. R. C. McDonald, Lubbock.

Miss Alma McAdams and Von Tiffin were married in Beaver, Oklahoma on October 8, 1921. They were both born at Maud, Oklahoma.

Mr. and Mrs. Tiffin moved from Beaver to the Gasoline Community in 1921 right after their marriage where he began farming. In 1923 they moved to the Fairmont Community and farmed for four years before returning to the Gasoline Community. They moved to the Flomot Community in 1937.

All friends and relatives are invited to attend the open house.

Sorghum Producers To Fill Four Board Vacancies

by Jackie Johnson
Briscoe County
Agricultural Agent

Ballots are being mailed this week to each producer of grain sorghum within the 29-county area of the Texas Grain Sorghum Producers Board. The ballots are for the purpose of electing four men who will fill the vacancies on the 12-man board that are due to expiring terms of Charles Heck, Nazareth; Melvin Barton, Dimmitt; A. R. Dillard, Hereford; and C. C. (Pap) Reed of Kress.

In addition to the four incumbents, whose names appear on the ballot for re-election, are three other nominees. They are Worth Jones, Hart; Martin Gossett, jr., Dumas; and Gerald McCathern, Hereford.

The election is to be conducted by mail. Enclosed with the ballots are postpaid envelopes to return the ballots to Texas Grain Sorghum Producers Board offices at 1212 14th Street, Lubbock. All ballots must be postmarked by midnight October 15, 1971, in order to be counted. Any bona fide producer of grain sorghum within the TGSPB area is eligible to vote. Should any producer fail to receive a ballot, he may obtain one from the county agricultural agent's office.

The panel of judges will consist of one county judge, one representative of Texas Agricultural Extension Service, one representative of Texas Agricultural Extension Service, one representative

COTTON TOPPING CAN BE INVALUABLE CULTURAL TOOL

Cotton topping can be an invaluable cultural tool in High Plains farmers' box of practices, especially in this type of year where late summer rains forced cotton plants to put on extra vegetative growth, Jim Valliant, director of research, told farmers attending Field Day at the High Plains Research Foundation.

Valliant pointed out that in tests conducted by the Research Foundation, topping of cotton over a five-year period produced higher yields and returns with Paymaster 111 and Lockett 4789 than untopped cotton.

In the tests the top 12 to 15 inches of the plant was removed by a rotary cutter.

Valliant said a five-year average showed topping increased the yield of Paymaster 111 from 678 to 689 pounds of lint per acre and Lockett 4789 from 631 to 640 pounds of lint per acre.

Returns were increased \$5.13 and \$4.83 per acre with the two varieties when the immature cotton in the top portion of the plant was removed, Valliant noted.

Cotton topping allows removal of the vegetative top growth of the cotton plant that furnishes most of the immature cotton and trash that reduces the quality of most High Plains cotton.

This vegetative growth uses unnecessary amounts of plant moisture and other nutrients that could be used on cotton produced in the lower part of the plant, Valliant said. "We know that 90% of cotton produced each season comes from bolls set during the first four weeks of blooming," he said. "By removing the top portion of the plant, we are insuring that the cotton set in the lower reaches of the plant has more of a chance to mature," said Valliant.

He noted that removal of the top part of the plant allows more sunlight to reach the lower bolls to raise the temperature and aid in cotton maturity.

Directors Election To Be Held Friday

Cap Rock Soil Conservation District will hold a director's election on Friday, October 1, at 9:30 a.m. at the Briscoe Co-op Gln.

All persons who live in Briscoe County and own land in Briscoe County between the Tullia and Floydada highways are eligible to vote. The director elected will serve a five-year term representing this portion of the district.

Jack Sutton presently serves as director for this area.

Lincoln was assassinated at Ford's theatre while attending a play entitled "Our American Cousin."

of Commissioner White's office, and one representative of Texas Grain Sorghum Producers Board.

Counties involved in this election are: Armstrong, Bailey, Briscoe, Carson, Castro, Cochran, Crosby, Dallam, Dawson, Deaf Smith, Floyd, Gaines, Hale, Hansford, Hartley, Hockley, Hutchinson, Lamb, Lubbock, Lynn, Moore, Oldham, Panmer, Potter, Randall, Sherman, Swisher, Terry and Yoakum.

SNAPSHOTS CAN AID IN FIRE - THEFT RECOVERY

AUSTIN, Sept. 21—A couple of rolls of film for the family camera and a couple of hours of your time can save you dollars and heartache in the event of a fire, natural disaster or burglary in your home or apartment, the Texas Insurance Advisory Association (TIAA) advises.

"The safest way to guard your possessions and secure their replacement or assist in their return in event of a burglary is to make an inventory of all possessions including the serial numbers of all major appliances, television sets, guns, etc.," Mr. Tom Lee, general manager of TIAA said. "A secondary help is to take snapshots of each room in your home from every angle to show all possessions. These snapshots can be used as proof of loss in filing claims with insurance companies in the event of the loss or theft of your household goods."

The snapshots and inventory should then be kept in a safe place away from your home, such as a safe deposit box, so that in the event of a disaster, they are not lost or destroyed with the rest of your possessions.

Burglary has become a big business in Texas over the past few years—a business that rakes in a profit of approximately \$133,000 per week. This figure represents residential burglaries only and does not include the burglary of businesses—and this is just in Texas.

"The annual loss suffered by the victims of residential burglary and their insurance companies adds up to well over \$7 million in Texas alone," Mr. Lee pointed out.

"Much of this could be prevented with the proper preventative measures."

Leaving a note on the door telling when you'll return or where the key is hidden is all the invitation a burglar needs, and once he picks his "customer" and successfully completes his "business" there is little chance of recovery of the property. The inventory and snapshots can be of invaluable assistance in these instances.

The TIAA also urges against keeping large amounts of cash and expensive valuables such as jewelry in dresser drawers or other easy-to-spot places. Put them in a safe deposit box for safekeeping. The Association also cautions that although insurance against theft is included in all homeowners insurance policies, you should consider separate coverage for items of high value such as furs, jewelry, cameras and antiques.

Remember, the TIAA cautions, losses that do not occur do not result in insurance claims payments nor in unrecoverable expenses like inconvenience, time spent in finding replacements for stolen property, etc. Lower overall claims payments are reflected in a reduced need for premium increases. Therefore, by taking precautions against burglary and fire loss, you can assist in efforts to lower property insurance rates.

Bridge over troubled waters.

It's easy to forget that emergencies *do* happen. And when there is a crisis, you'll need a nest egg to fall back on.

The Payroll Savings Plan is one of the easiest ways to make sure you've something saved for when you need money fast. When you participate in the Payroll Savings Plan where you work, an amount you designate will be set aside from each paycheck and invested in U.S. Savings Bonds. It's an effortless way to build up a reserve.

And now there's a bonus interest rate on all U.S. Savings Bonds—four E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½%, payable as a bonus at maturity, applies to all

Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

Let's hope there are no troubled waters in your future. But remember, emergencies don't always happen to the other guys.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

INTERIM REPORT

Redistricting

by Rep. Tom Christian

BACKGROUND

Texas Constitution provides that the State shall redistrict at first regular session after publication of the decennial census. That the districts shall be of equal size and counties in each district are to be contiguous.

Baker v. Carr decision of U. S. Supreme Court specifies that districts be formed on basis of "one man—one vote."

News release from Rep. Delwin Jones of Lubbock, chairman of Redistricting Committee, stated "Our basic formula provided that counties which had enough population for a full district should have that district created within the county. Any excess population was to be used with adjoining territories to bring each district within the population requirement for the "one man—one vote" requirement of the Supreme Court."

State divided into quadrants with committee to hold hearings in each "to discuss any redistricting suggestions and proposals that you may have . . . Specifically you are urged to submit three different plans . . . all with populations varying not more than + or - 2.5% from the ideal of 74,645" according to Quadrant IV Chairman Menton Murray who traveled to the Panhandle.

With this extensive preparation, one would expect a redistricting bill which followed the Constitution and listened to the people . . . a bill which equally represents the people of all districts and would provide districts that are compact, contiguous and of common interest. Something quite the opposite was the net result.

RESULTS

☆Ch. Jones told me in effect that he was not interested in saving the Panhandle's representation. This was after his presentation of a Congressional redistricting plan which split Amarillo, placing Potter County in one district and Randall in another. (Amarillo Daily News, April 17.)

☆Ch. Jones, in a speech to the West Texas Chamber of Commerce, stated, "I am a Democrat and I intend to take care of Democrats first. If the choice is between the interests of a Demo-

THURSDAY, SEPTEMBER 30, 1971

THE VALLEY TRIBUNE

Amendment To Halt Busing Of Students Proposed

A Constitutional amendment to

halt federally-imposed busing of school children has been proposed by U. S. Representative Graham Purcell. "Unless this step is taken," the Texas Democrat stated, "we will see the irrevocable destruction of the world's most effective educational system—the neighborhood schoolhouse."

Purcell's amendment, if ratified, would prohibit the forced assignment of children to schools outside their neighborhoods. "After all," the veteran legislator said, "what we're seeking is the best education possible for every child in the United States regardless of their race. Shuffling youngsters from one school to another over the course of their fundamental education seems to be the most self-defeating program anyone ever dreamed up."

☆Ch. Jones told the Killeen Chamber he had done his "dead-level best to eliminate liberal House members. Hopefully I have made it impossible for some of these people to get re-elected." (Temple Daily Telegram, July 31.) Jones failed to mention that the so-called liberals were members of the "Dirty 30" who opposed Speaker Mutscher with a coalition of Republicans.

☆The Redistricting Bill passed left the Panhandle short TWO representatives instead of one necessary on the basis of population loss. Reps. Ralph Wayne, Phil Cates and I are lumped into one district, thereby losing two.

☆Legislative redistricting bill split not one, but 23 counties in violation of Texas Constitution and has been ruled unconstitutional by 53rd District Court in Austin.

☆Plan provided districts with almost a 9% variance instead of the recommended 2.5%.

☆Old law designating districts became invalid with signing of new law by the Governor. Now that new law is overturned, the State is virtually without districts.

☆Senate redistricting plan not passed at all. Will be done by Redistricting Board which convened August 24. Governor has instructed Board to also draw a plan for the House. Chief Justice, Texas Supreme Court, has said the House has met constitutional obligation by drawing a plan, even one that has been overturned. Therefore Board has no authority to draw new one.

☆Attorney General ruled June 4 that drawing of districts in a Special Session would be in violation of Constitution.

☆Drawing of the plan was made primarily on the basis of politics which would eliminate all opposi-

tion. Purcell's amendment, if ratified, would prohibit the forced assignment of children to schools outside their neighborhoods. "After all," the veteran legislator said, "what we're seeking is the best education possible for every child in the United States regardless of their race. Shuffling youngsters from one school to another over the course of their fundamental education seems to be the most self-defeating program anyone ever dreamed up."

☆Congressman Purcell insisted that the emphasis should be turned instead to an improvement of the educational quality of public schools. The proposed amendment would also require the government, from federal to local levels, to concentrate available resources on standard schools.

Early last month, Purcell announced his intention to prepare such a Constitutional amendment reserving the hope that "eventually some position would be taken that would restore order from the chaos which has completely ignored its victims—our school children."

"While contradictory and confusing statements have come from the White House," Purcell concluded, "the President has refused to take the action he alone can take: instructing his Secretary of Health, Education and Welfare to stop advocacy of busing schemes. I am taking the only action left."

☆Congressman Purcell offered his proposal upon the reconvening of Congress following its just completed month-long recess.

It is a beautiful afternoon, and Ken and Monica might have gone for a ride in the country. But they've come to the hospital to visit a classmate.

It isn't always a "fun" thing to visit someone in the hospital, to call on an elderly aunt, or to take a gift to a shut-in. But usually you feel better when you do.

This is a "hurry up" world we're living in. We tell ourselves that there isn't time for the little kindnesses. There isn't time for a lot of things — like, maybe, going to church.

Who are we kidding? Ourselves!

NOTICE OF MAINTENANCE TAX AND BOND ELECTION

THE STATE OF TEXAS)
 COUNTIES OF HALL,) TURKEY AND QUITAQUE CONSOLIDATED
 MOTLEY, BRISCOE) INDEPENDENT SCHOOL DISTRICT
 AND FLOYD)

TO THE RESIDENT QUALIFIED ELECTORS OF THE
 TURKEY AND QUITAQUE CONSOLIDATED INDEPENDENT
 SCHOOL DISTRICT INCLUDING THOSE WHO OWN TAXABLE
 PROPERTY IN SAID DISTRICT AND WHO HAVE DULY
 RENDERED THE SAME FOR TAXATION:

TAKE NOTICE that an election will be held in TURKEY AND
 QUITAQUE CONSOLIDATED INDEPENDENT SCHOOL DISTRICT on
 the 23rd day of October, 1971, in obedience to a resolution and order
 duly entered by the Board of Trustees of said School District, which
 is attached hereto and made a part of this Notice for all intents and
 purposes.

WITNESS MY HAND AND SEAL OF SAID DISTRICT, this the
 27th day of September, 1971.

/s/ James M. Davidson
 Secretary, Board of Trustees
 Turkey and Quitaque Consolidated
 Independent School District

(District Seal)

**RESOLUTION AND ORDER CALLING MAINTENANCE TAX
 AND BOND ELECTION**

THE STATE OF TEXAS)
 COUNTIES OF HALL,) TURKEY AND QUITAQUE CONSOLIDATED
 MOTLEY, BRISCOE) INDEPENDENT SCHOOL DISTRICT
 AND FLOYD)

WHEREAS, the Board of Trustees of the TURKEY AND QUITAQUE
 CONSOLIDATED INDEPENDENT SCHOOL DISTRICT deems it
 advisable to establish a maintenance tax and issue bonds under the provisions
 of Chapter 20 of the Texas Education Code by submitting (at an
 election called for the purpose) the propositions hereinafter set forth:
 therefore,

BE IT RESOLVED AND ORDERED BY THE BOARD OF TRUSTEES
 OF TURKEY AND QUITAQUE CONSOLIDATED INDEPENDENT
 SCHOOL DISTRICT:

SECTION 1: That said election shall be held on the 23rd day of
 October, 1971, at the polling places and with election officials as follows:

ELECTION PRECINCT	POLLING PLACE	ELECTION OFFICERS
1	City Hall, Turkey (Hall County)	Elmer Lacy, Presiding Judge Margaret Lane, Alternate Presiding Judge
2	School Lunchroom, Quitaque (Briscoe County)	Leon McCracken, Presiding Judge Bert Grundy, Alternate Presiding Judge

Each Presiding Judge shall appoint not less than two (2) nor more
 than four (4) qualified clerks to serve and assist in holding said election;
 provided that if the respective Presiding Judge herein appointed
 actually serves, the Alternate Presiding Judge of his polling place shall
 be one of the clerks.

On election day the polls (1) shall open at 7:00 A.M. in Briscoe
 County and at 8:00 A.M. in Hall County, and (2) shall close at 7:00 P.M.

LOETTA FERGUSON is hereby appointed as Clerk and Annie Lois
 Hedrick Deputy Clerk for absentee voting conducted at the School tax
 office, Turkey, Texas, where residents of Hall and Motley County, who
 are also residents of the said School District, may vote absentee.

JOSEPHINE JOHNSTON is hereby appointed as Clerk and Delene
 Tyler Deputy Clerk for absentee voting conducted at the School Tax
 Office, Quitaque, Texas, where residents of Briscoe and Floyd County,
 who are also residents of the said school district, may vote absentee.

For the period absentee voting is permitted by law, the hours desig-
 nated for absentee voting shall be from 9:00 A.M. to 5:00 P.M. on
 each day except Saturdays, Sundays and official State holidays.

SECTION 2: That at said election the following propositions shall
 be submitted:

PROPOSITION NUMBER 1

"SHALL the Board of Trustees of the TURKEY AND QUITAQUE
 CONSOLIDATED INDEPENDENT SCHOOL DISTRICT of Hall, Motley, Briscoe and Floyd
 Counties, Texas, be authorized to levy and cause to be assessed and collected
 annual ad valorem taxes for the further maintenance of public
 free schools therein at a rate of not to exceed ONE DOLLAR
 AND FIFTY CENTS (\$1.50) on the \$100 valuation of taxable
 property in said School District, as authorized by Section 20.04
 of the Texas Education Code?"

PROPOSITION NUMBER 2

"SHALL the Board of Trustees of the TURKEY AND QUITAQUE
 CONSOLIDATED INDEPENDENT SCHOOL DISTRICT of Hall, Motley, Briscoe and Floyd
 Counties, Texas, be authorized and empowered to issue the bonds of said District
 to the amount of FIVE HUNDRED THOUSAND DOLLARS (\$500,000) for school building
 purposes, to wit: the construction and equipment of school buildings in the District
 and the purchase of the necessary sites therefor, and shall there be
 pledged and levied, assessed and collected annually ad valorem
 taxes on all taxable property in the District sufficient, without
 limit as to rate or amount, to pay the principal of and interest
 on said bonds as the same become due, said bonds to be issued
 in one or more series or issues to mature serially or otherwise
 not more than FORTY (40) years from their date, and to bear
 interest at such rate or rates as in its discretion the Board of
 Trustees shall determine?"

SECTION 3: That the official ballots for said election shall be prepared
 in accordance with V.A.T.S. Election Code, so as to permit the
 electors to vote "FOR" or "AGAINST" the aforesaid propositions which
 shall be set forth in substantially the following form:

PROPOSITION NUMBER 1

"MAINTENANCE TAX"

PROPOSITION NUMBER 2

**"THE ISSUANCE OF \$500,000 BONDS AND THE LEVYING
 OF THE TAX IN PAYMENT THEREOF"**

The word "FOR" and beneath it the word "AGAINST" shall be
 made to appear on the left of the proposition. A square shall be printed
 on the left of each of the words "FOR" and "AGAINST", and each
 elector shall place an "X" in the square beside the statement indicating
 the way he wishes to vote.

SECTION 4: All resident qualified electors of the District, includ-
 ing those who own taxable property in said District and who have duly
 rendered the same for taxation, shall be permitted to vote at said elec-
 tion. At said election two separate ballot boxes shall be provided at
 each polling place. In one box only resident qualified electors who own
 taxable property and who have duly rendered the same for taxation
 shall be allowed to vote. In another box all resident qualified electors
 (who are otherwise qualified but do not own taxable property which
 has been duly rendered for taxation) shall be allowed to vote. The votes
 cast in each of said boxes shall be recorded, returned and canvassed in
 such manner as will reflect separately the votes cast by the qualified
 electors who own taxable property and who have duly rendered the
 same for taxation from the votes cast by all qualified electors (includ-
 ing those who own taxable property and who have duly rendered the
 same for taxation).

SECTION 5: A substantial copy of this resolution and order shall
 serve as proper notice of said election and said notice shall be published
 one time at least ten (10) days prior to the date set for the election
 in a newspaper of general circulation in the District.

PASSED AND APPROVED, this the 27th day of September, 1971.

sides of a container that can be
 just as dangerous as a full one.
 Proper disposal is the answer to
 prevention of damage to crops
 and perhaps injury or death to
 livestock and humans. Clymer of-
 fers some suggestions on dispos-
 ing of used containers safely.

Glass should be wrapped in
 newspapers and then broken. Plas-
 tic and metal containers should be
 punctured and crushed, and then
 buried at least 18 inches deep in
 an area isolated from crops, live-
 stock or people. The site should
 not be in an area where the chem-
 ical might leach down into under-
 ground water supplies.

Paper and other combustible
 materials can be burned, but
 make sure the fumes and smoke
 cannot damage plants or animals,
 Clymer reminds.

Sanitary landfills used by many
 cities and towns can be a good dis-
 posal spot, but a producer should
 check with the proper authorities
 before dumping the containers.

The question of using empty 55-
 gallon barrels always arises. Most
 people do not want to throw away
 containers that can be used for
 feed storage or as feed bunk. But
 the practice can be extremely dan-
 gerous, especially if the chemical
 had an arsenic base.

"You can burn them or wash
 them or anything else, but enough
 arsenic may still remain in the
 barrels to kill almost any animal,"
 Clymer warns.

Any chemical kept over the win-
 ter should be sealed in an air-
 tight and water-tight container,
 and stored away from feed sup-
 plies in a barn.

When a producer is disposing
 of left-over pesticides, he should
 be careful where he dumps the
 material, Clymer adds. A common
 practice in both aerial and ground
 spraying is to dump excess chem-
 icals in draws or small grass ar-
 eas. This can be extremely haz-
 ardous because cattle are often
 kept in these areas for short pe-
 riods of time before working or
 shipment. They graze this grass
 that can have high amounts of
 dangerous pesticides, which may
 cause sickness or death to the an-
 imal.

 chen; 1/2 Basement; 1/4 Playroom.

Would you answer an ad like that? Probably not, but
 you might have to live in such a house if you can't make
 full recovery after a serious loss. A surprising number of
 people run such a risk by being underinsured!

Naturally you hope you never have a fire or other
 catastrophe. But insurance, to be effective, must protect
 you in the event you do. Building costs have risen so
 substantially that many people don't realize they are
 no longer fully covered.

Our job is to keep all of our policyholders as com-
 pletely current as possible—it's part of our service. If
 you have any question about your present contract,
 please feel free to call. We will be happy to give you a
 professional appraisal, without any obligation.

**What if
 you lost your job
 tomorrow?**

Things may be going pretty good
 now. But you never know what to-
 morrow will bring.

Suppose it's unemployment. How
 will you live?

What will you use to tide the family
 over while you look? Excuses?

Let's hope you never have to find
 out. But just in case, why not start
 saving now, while you have a "job."
 Join the Payroll Savings Plan where
 you work and buy U.S. Savings Bonds.

It's an easy way to build a nest egg.

**And now there's a bonus interest
 rate on all U.S. Savings Bonds—for
 E Bonds, 5 1/2% when held to matu-
 rity of 5 years, 10 months (4% the
 first year). That extra 1/2%, payable
 as a bonus at maturity, applies to all
 Bonds issued since June 1, 1970...
 with a comparable improvement for
 all older Bonds.**

With any luck at all your emer-
 gency fund may become a vacation,
 a college education, or a happy
 retirement.

Bonds are safe. If lost, stolen, or destroyed,
 we replace them. When needed, they can be
 cashed at your bank. Tax may be deferred
 until redemption. And always remember,
 Bonds are a proud way to save.

Take stock in America.
 Now Bonds pay a bonus at maturity
