Annual Celebration This Weekend

17th Annual Bob Wills Day This Weekend

Turkey and area residents have got their boots on and are all ready for the big 17th Annual Bob Wills Day Celebration this weekend.

Dance

Festivities will begin with the Friday night dance April 29th at 9 p.m. to 12 midnight at the Bob Wills Center. Ten to fourteen former Texas Playboys will be featured along with twenty five to thirty other talented musicians.

CRP Weed Control Program Thursday

Farmers who own or manage land in the Conservation Reserve Program are urged to attend a meeting on weed control today, Thursday, April 28. The meeting will begin at 10:00 a.m. at the Briscoe County Show Barn.

The purpose of the meeting is to give producers the latest requirements for controlling weeds on CRP land. Terry Brandt from DuPont Agricultural Products will give the latest details on the application of "Ally" and "Glean" herbicides. Dave Baumgarner from Monsanto will discuss the use of "Roundup" and "Honcho"

Parade

Saturday, April 30th, the annual downtown parade will begin at 10:30 a.m., followed by the Barbeque which will be served at the Bob Wills Cafeteria at the Bob Wills Community Center.

Special Program

Don't miss the special entertainment scheduled for Saturday at 2:30 p.m. at the old football field east of the Bob Wills Center. This program will consist of all the former Texas Playboys who will be present for this annual

occasion. The master of ceremonies will be Dr. Charles Townsend, a Grammy Award winner and author of San Antonio Rose - The Life and Music of Bob Wills and the Texas Playboys.

Souvenirs

The all day events at the center will have booths selling souvenirs including: Play-boys Cassettes and Albums, Caps and Totebags, Ashtrays and Coins.

Arts and Crafts Show

There will be arts and crafts on display as well as special movies of Bob Wills, both motion pictures and TV specials featuring Bob Wills, upstairs in the Arts and Crafts

Building at the Bob Wills Center.

Old Fiddlers Contest

During the day another important event will be the old time Fiddlers Contest in the auditorium or dance area of the building.

Public Invited To Contests Monday

The public is invited to attend the county 4-H Speaking Contests on Monday, May 2, at 7:30 p.m. in the Silverton School Cafeteria and Home Economics Department.

Some 35 4-H youth from the Silverton and Valley 4-H clubs will give their method demonstrations, illustrated talks, and public speaking presentations on a variety of topics.

Winners in each division will advance to competition at the District 4-H Roundup on Saturday, May 7, on the Texas Tech campus in Lubbock.

The 4-H speaking event provides boys and girls with a valuable life skill in public speaking.

Participants will be awarded ribbons and plaques will be presented to the best junior and best senior contestants. There is no admission charge.

Saturday Night Dance

The Saturday night dance April 30th will begin at 7 p.m. and end with a breakfast

beginning at 11 p.m. at the Bob Wills Cafeteria. The dance will feature Jody Nix and the Texas Cowboys.

Farm Group Convenes In Dallas For Trade Talks

Farmers Union State Board convened in Dallas at Colonial Park Inn last week.

New national Farmers Union president Lee Swenson from South Dakota met with the group, telling them of changes that have already been made in Washington, and in the National Headquarters in Denver.

Swenson said he would meet with Secretary of Agriculture this week, then accompany four other state presidents to Australia to meet with several countries in an attempt to set up new trade territories for United States commodities.

The group was told that 70% of the cattle that go to market today are controlled by three corporations, and that Japan buys more of U.S. farm commodities than any other country, with sales last year increasing from 12.9% to 33.6%.

National Farmers Union Secretary Dave Carter helped the group with ideas for membership drives and conducting regular meetings. Ron Presley was hired to be the field representative for this area.

Local member attending was Virgil Blakney.

Persons attending the meeting were told that Congress must move rapidly to repeal the new 15 cent per gallon tax on farm diesel fuel. Joe Rankin, Texas F.U. president, said the new diesel tax places "another burden on family farmers, while doing nothing to address the federal budget deficit."

4-H Members Reminded To Bring Cream

All 4-H members are reminded to bring their freezers of ice cream to the booth next to the concession before or immediately following the parade Saturday in Turkey. Ice cream sales begin following the parade.

Anyone wishing to donate a container of homemade ice cream to the 4-H may call

Mrs. Butch Hughes, 469-5356, Velda Ross 455-1271, or Thelma Gafford, 423-1495.

All Valley 4-H'ers are to report to Mrs. Hughes at the Bob Wills Center to help with ice cream sales.

Water System Grant Ok'ed For Turkey

The City of Turkey received notice from the Texas Department of Commerce last week that the city has been awarded a grant in the amount of \$97,710 for water system improvements. The improvements will include replacement of the transmission line from the wells to the city limits; replacement of 18 existing fire hydrants, plus the addition of two more fire hydrants.

herbicides to control dead litter crops and their volunteer growth.

Soil Conservation Service, Texas Agricultural Extension Service and ASCS personnel will be available to answer questions and update producers on current USDA programs.

All farmers, chemical dealers, custom applicators and anyone who works with CRP land are strongly urged to attend. Lunch will be provided to those attending the meeting by DuPont and Monsanto.

This meeting is sponsored jointly by the Caprock Soil (con't on page 2)

Two Valley Teams Headed For State Judging Contests

Two judging teams representing the Valley FFA will participate at the State Judging contest for FFA this Saturday at Texas A&M.

In a field of 25 teams, Valley's Dairy Products team consisting of Amy Maupin, Gina Conner, Shadi Mullin, and Tina Clay placed 2nd, behind Lubbock Monterrey. This contest consists of tasting and identifying foreign taste in milk samples, identifying cheeses, scoring milk sediment disc, and milker units for defects. Amy Maupin and Gina Conner both received awards for being in the top ten individuals of this contest. Gina was 8th high individual and Amy was the High Individual of the contest.

The Dairy Cattle Judging Team placed fourth in a field of 72 teams at the Texas Tech Contest. Members of this team were Warren Merrell, Bengie Hughes, Chad Isbell, and Jess Little. This contest consists of placing classes of both lactating and heifer dairy cattle as well as evaluating indi-

vidual cows, using a linear evaluation methods of scoring the cow for certain characteristics. Warren Wayne Merrell and Jess Little were both recognized as high individuals in the contest. Jess was 4th high Individual, and Warren Merrell was 20th. This team will also participate in

the State Contest of Saturday.

The cotton classing team from the Valley FFA included team members, Kyle Fuston, Keith Claus, Jessie Chavira and Colby Waldrop. This contest includes identifying cotton for grade and staple length. Kyle Fuston was 10th high individual in this con-

test. Twenty-two teams participated in the contest at Texas Tech University.

The Range and Pasture Plant I.D. team members included Lori Martin, Kirk Garner, Jayson Pierce and Penny Mars. This contest consisted of identifying Range plants and characteristics of these plants. They placed 4th in a field of 20 teams at Tech.

Members of Valley's Ag Mechanics team included Shanlee Meyer, Felipe Leal and Billy Robison. This contest is a very difficult one,

containing many aspects of Ag Mechanics, including welding, tractor and small gas engine maintenance and woodworking. This year's team placed 10th in the contest.

The Livestock Judging

team members included Kelly Patrick, Suzie Farley, and Craig Setliff. This year's team placed third in Greenbelt District.

DAIRY PRODUCTS TEAM - Members of the Dairy Products Team from Valley, placing 2nd at Texas Tech, 2nd in Area 1, and 1st in Greenbelt District are: Shadi Mullin, Amy Maupin, Shane House, Gina Conner, Tina Clay, and Andrea Hinojosa.

Amarillo Daily News carried an article in Mondays newspaper about ex-GI's reminisce about Childress Air Base.

The constant buzz of bombers above the small Texas Panhandle communities served as a grim reminder of death and turmoil a half-world away during World War II.

Well, the local people of this area can recall the practice bombings in our area from the Childress Air Base. "It was August, 1943 when the Bombadier navigator training began upping training from three months to 4 1/2 months." Flying day and night over six counties, 5,700 square miles of target ranges. The range here at Turkey was located where the new oil wells have been brought in in this area recently. I was living in a farm house in the Wolf Flat area where the bombers flew the lowest over our home into

the bomb range. We of the area, had a small idea of what the British people were going through but at least the bombs were not hitting our homes. During this time especially during the night bombing when flares were being dropped for their night bombings, the sky was lit up continually all night long, everyone would get up the next morning yawning, bleary-eyed and groggy from the loss of sleep, no one complained, just hoped it would soon be over.

My boys were young then and delighted in gathering up the flareshots that fell in our field, I was out in the cotton field one day with my sons and found a bill fold. I took it to the post office and mailed it to the Air Base.

Aids or Aides

A young school boy asked his dad one night about "Aids". Obviously, the stunned father handled the matter delicately. The following evening, the youngster informed his father that the Principal had announced over the intercom system that all teachers with "aides" should come to the office.

Isn't word association amazing?

Clairemont Rattlesnake Rodeo Gets Underway May 12, 1988

On Thursday, May 12, 1988, the sound of gunfire will echo throughout the rolling hills of West Texas. The originating site will be at old Clairemont, the home of the Caprock Peace Officers Association. The occasion will be the 40th annual Peace Officers Meeting and Rattlesnake Rodeo. This year's event is to be dedicated to the memory of Purvis SoRelle, the late Kent county Sheriff who died while in office. He had served the people

of his community for more than fifteen years, as well as serving as an officer and director for the Association.

Gaining in popularity each year, the directors are expecting a record-sized crowd this year. As in the past, the highlight of the rodeo will be the Rattlesnake Rodeo and the Rattlesnake Shoot. Top prize this year will be another \$150.00 pair of boots.

Another event which certainly draws attention each year, is the riot gun trap shoot, in which riot guns are used.

Guns are furnished by and through the Association. Valuable trophies and awards await the winners of the various groups.

Registration will begin at 9:00 a.m. and includes a membership card, a decal, and a delicious barbecue dinner. A drawing held after lunch will be for valuable door prizes, which are donated by merchants of the towns and cities in the area.

Guests and visitors are welcome, and are eligible to compete in the Rattlesnake Shoot, in a special group reserved especially for them.

The Association Directors extend a sincere welcome to come and to observe and participate in the activities of the day.

Ex-Students Forming Association

Anyone interested in starting a Turkey Ex-Student Association should attend a meeting on April 30 at 6:00 in the old Turkey Elementary Library.

If you know the address of any former students and teachers, get in touch with them. This meeting will decide whether or not there is enough interest to start an association.

SOCIAL SECURITY NEWS

By Terry J. Clements

A person whose Social Security check does not arrive on the day it is expected should wait for two more mail deliveries before contacting the Social Security office.

This will take care of a good share of delayed checks. If the check still has not arrived after 2 days, the people at the local office can begin action.

The most common cause of failure to receive a check is failure to report a change of address. Many people fail to notify Social Security when they move, even though they rely on their Social Security checks as their primary source of income.

Some people think it is enough to report their change of address to the post office. The post office, however, will forward mail to the person's new address for just one year. After that they will send the check back to the U. S. Treasury.

If the person's check is returned and the new address provided, it usually takes about 4 or 5 days for a new check to be sent. If the check was not returned, a stop order will be put on it and the matter will be transferred to Washington, D.C. to see if the check has been cashed.

If it has not been cashed, a new check will be sent until the person who cashed the check is identified.

Even though a person's check is deposited directly into his or her account in a financial institution, he or she should notify Social Security of any change of address.

Maximize Grazing

Livestock producers in Texas are using planned grazing systems on about 15 million acres.

Jerry Henry, soil conservationist for the USDA Soil Conservation Service at Silverton, said that the efficiency of forage production is dependent on the health of the plants on rangeland.

"Plants capture solar energy in their leaves and use this energy to manufacture their own food," Henry said. If these leaves are continuously grazed short, the plant will use all its stored food reserves, reduce forage production, and die."

Livestock are highly selective in what plant species they graze. They graze the best first and the worst last. They also like to come back to the same plant and graze it again because of the young tender regrowth.

Henry said this is why the better plants have been killed off our rangeland, reducing forage production on much of it by up to 75 percent.

The loss of these better plants that the livestock prefer can be stopped and the process reversed if the rancher desires to maximize grazing efficiency.

To maximize grazing efficiency, the better plants, such as sideoats grama and blue grama, must be made as healthy as possible. To accomplish this, they need a chance to grow without continually being grazed. Animal numbers need to be balanced to forage produced.

A planned grazing system tailored to meet the needs of the plants, the livestock, and the rancher is the best way to maximize grazing efficiency, Henry stressed.

"You can't tell a cow what to eat, but you can limit the length of time and when she eats, using a tailor-made planned grazing system," said State Range Conservationist Rhett Johnson of the Soil Conservation Service. Planned grazing systems can be applied using a rotation between as few as two pastures."

If you are interested in maximizing grazing efficiency and improving your grassland, contact your local Soil Conservation Service personnel. They give technical assistance to landowners and operators through soil and water conservation districts and can help you design a system to meet your needs.

Spring is the best time to start a planned grazing system, so now is the time to start planning.

Do You Remember

From the Files of The Turkey Enterprise April 27, 1928

Turkey was well represented at Childress Friday and Saturday in the District Interscholastic meet and not only well-represented, but came away with honors.

Geo. Ray Colvin won first place in the half-mile race, making it in 2 minutes and 15 seconds.

Robert Clark, 2nd place in the shot put.

Conway Butler, 2nd place in Jr. boys Declamation.

George Ray and Robert will compete for state honors.

In the election Saturday, T. L. Colvin was elected mayor of the City of Turkey, by a large majority, the vote being 53 for Colvin, 13 for J. B. McCarley, and 2 for J. W. McCarley.

In the regular City election held the first Tuesday in this month, J. B. McCarley and Colvin received the same number of votes, hence the necessity of another election.

The City is now under the Commission form of government, directed by Mayor T. L. Colvin and Commissioners J. A. Lacy and J. R. Miller.

R. H. Butler is this week unloading a car of brick for his brick home to be built in the J & B Addition. The foundation for this modern home has been run and work is expected to start at once.

us are proud of the fact that we had the opportunity of being taught by such wonderful instructors as those who are members of our high school faculty: Messrs. Gilmore, Terrell and Misses Sherman and Simpson.

We Seniors appreciate their great assistance, signed: Norma Wilcoxson, Jessie Lee Davis, Theresa McCay, Jewel Cagle, Audie Johnson, Robert Clark, Troy Payne, Travis Taylor and Gladney Stubbs.

This appreciation was presented at the Monday morning Chapel exercise which was held by the entire student body.

Several songs were sung by the student body with Miss Ruth and Alvis Yarbrough leading, and Mrs. Lota Poss at the piano.

Teachers re-elected
At a recent meeting of the school board, the following teachers were re-elected: Lee Gilmore, Mrs. Mary K. Officer, Mrs. Kenneth Poss, Mrs. E. L. Christian, Miss Gaynell Gilmore, Miss Sherman and Miss Slawson.

Rev. L. W. Fulgham of Clarendon preached Sunday morning and evening for the Baptist Congregation. The Baptist people will have a special called meeting Sunday, for purpose of calling a pastor.

Plans are also to be worked out in the near future for a new church building; the lots have been purchased.

Big goings-on in Turkey this weekend with the annual Bob Wills Day... something for everybody who ever enjoyed Western Swing as played by the Texas playboys headed up by Bob Wills and the best dance band ever. What better way to spend an end of April weekend?

When it comes right down to it, these special events staged by the smaller towns and communities provide about the best entertainment available anywhere and staged by folks who are glad to see you in the community rather than the hassle of driving 150-250 miles to the big towns and cities where every weekend is old-hat for some kind of special event and people don't know you from Adam's offspring.

While shopping in a local department store, the clerk said helpfully, "If you see something that isn't there, we probably have a lot more of it in the back of the store!"

The mother was scolding her three small ones; "Oh, you three are a pair if I ever saw one!"

Inflation is when you can get a two-dollar haircut for five dollars, that used to cost you one dollar when you had hair!

Civil Service workers who jog call themselves the Bureaucratic run around!

One guy who won a big purse at the racetrack was asked if he would report it to the IRS. "No," he said, "I won't even report it to the M-R-S."

Notice where a bar in a city near here had its' leer and bicker license removed!

It's a fact that you eat less if you eat slowly, especially if you have a large family!

If men dressed like girls, women would turn around and look, too!

Banks are always ready to lend you moral support, especially if you need financial aid!

Why is it that the things you hear are never half as important as the things you overhear?

The Town Loafer says driving drunk is almost as dangerous as walking sober!

The first woman that had a mind of her own was Eve, and look what happened to her!

Parents were invented to make children happy that they have someone to ignore!

One consolation for those of us who remain at the bottom is to take a good look of those at the top!

Most big City highway signs are made only for the people who already know where to go!

One way to have a surprise dinner is to take all the labels off the cans!

One thing that surprises college graduates when he gets out into the world is how much uneducated people know!

Staying on the straight and narrow path doesn't help you too much in moving around in the best circles!

The length of 60 seconds depends largely on which side of the bathroom door you are!

That's -30- for this time. Remember, one way to save face is to keep the lower part closed!

Last week I discussed Extension Home Economics study groups, which are informal, less structured educational groups that meet as few as 4 to 6 times a year to learn about a particular topic of interest to the group -- special diets, child development, parenting, widowhood, etc.

To be a part of an ongoing group that meets regularly for programs, business, community service and socializing, join an Extension Homemaker club. There are presently two clubs in the county - the Southwestern EH Club, which meets on the fourth Thursday of each month (Sept. - May) at 2:00 p.m. in their homes; and the Progressive EH club which meets the second and fourth Monday nights at 7:00 p.m. (Sept. - May) usually in the First State Bank meeting room in Silverton. Visitors are always welcome.

The Texas Extension Homemakers Association was organized in 1926, and has some 23,000 members statewide in almost every county. There were no dues assessed for membership until this past year. For 1988, dues of \$2.00 per member were assessed to provide funds for national affiliation and to fund the scholarships provided each year to 4-H members across the state, which was one of the original objectives for the organization.

If you would like to belong to such an organization whose primary objective is to promote home and family life, call me to find out about attending a meeting. If you

want to start a club which meets at a different time and place - maybe one in Quitaque, get some of your friends together and arrange for me to come and explain the organization to you.

Club members have opportunities to attend district and state conferences and to belong to the county Extension Homemakers Council which coordinates activities of all the clubs.

My role is to serve as advisor to the club and to provide training and programs as requested. Call me at 823-2131, Ext. 12, if you are

interested. The following is the Extension Homemakers Creed:

We believe in the sanctity of the home. We believe in the home as the place where love, faith, trust and devotion must be lived each day, where obedience and reverence grow, and where God is known. We believe those within its walls should be taught to work, to play, and to have compassion for those less fortunate. We believe sharing responsibilities is necessary, and that from the fireside will come the citizens who will uphold the best ways of life.

Extension Homemaker clubs are open to all, regardless of socioeconomic level, race, color, religion, sex, handicap or national origin.
