## Patriots Roll Over Motley; The Big One Is Friday Night

The fired-up Valley High Patriots rolled over defending North Zone champion Motley County 29-6 at Matador last Friday night, a district game that left the Patriots strictly all-alone at the top of the standings to date. They are undefeated for the season, and are 1-0 in district. They have scored more points, 102, and have given up fewer, 6, than any other team in the Panhandle area. And last Friday night's win ended years of frustration for Quitaque and Turkey football fans and also ended Matador's many years of domination of the Class B football scene in these parts.

Five Patriots got into the scoring act with Brian Wheeler, Ron Eudy, Scotty Setliff and Pepper Jones each getting six points on TD's and Ernie Lucero almost matching the others with five points scored on a field goal and two extra points kicked.

The 29-6 score does not indicate how much the Patriots completely shut out Motley County for the Matadors could chalk up only three first downs in the entire game and the third one came with only seconds left in the game.

The first period was fairly even with each team managing to chalk up a first down and the quarter was scoreless.

Early in the second period the Patriots recovered the first of several Motley fumbles on the Motley 40 yard line. The Patriots moved the ball downfield to the 21 yard line where Ron Eudy hit a receiver in the end zone only to see it fall away incomplete. The Patriots worked the ball to the 11 yard line for a first and ten, then came up with a 4th down and two yards to go. Ernie Lucero then put the Patriots on the scoreboard with a field goal with 6:20 to go in the half.

Following the kickoff the Matadors moved the ball out to the 40 yard line only to have Ernie Lucero intercept a pass at midfield and he promptly set sail for the end zone but was finally hauled down on the 9. On the first play the Matadors recovered a Valley fumble on the 6 yard line, Motley County gave the ball right back on the next play on the three yard line and from there Brian Wheeler rammed the ball in to the end zone for a TD. Ernie Lucero booted the extra point to make the score 10-0 with 3:31 left to play in the first half.

The Patriots kicked off to Motley on the 20 and Christian returned it to the 38. On the first play the Matadors gave up the ball again on a fumble at their own 42. In addition to giving up the football the Matadors were guilty of a personal foul and were penalized to the 25 yard line and on the first play Ron Eudy hit Scotty Setliff with a pass for a TD from 25 yards out. The extra point try was no good and Valley led 16-0 with 3:00 left to play in the first half.

Following the kickoff, the Matadors once again fumbled the ball away on the first play. Valley worked the ball downfield and once again scored, only to have it called back and the Patriots were penalized 5 yards. This time the Matadors held the Patriots and ran the clock out.

Valley took the second half kick-

### More Work Slated on Community Center

Monte Stephen informed The Tribune this week that some more work will begin in the next few days on the Quitaque Community Center.

Most of the work has already been completed, and it should take only a few work-sessions to finish the project.

There is some carpenter work that still needs to be done on the inside of the Center, such as sanding and staining the doors, installation of two or three thresholds and the completion of the dressing table in the ladies powder room.

The outside of the building is also ready for painting, for all of the building tiles have now been replaced. A foundation has been poured for the cinder tile trash burner that will be built. A new porch is also to be constructed on the North and South side entrances.

Monte said that if everyone pitches in, the Community Center will soon be ready for full use by the public. It will be available to anyone, and it is designed so that almost any type of occasion can be held there.

It will be ideal for parties, showers, family reunions, class meetings, farm gatherings, wedding receptions and anniversaries, civic club meetings, stockholder meetings, art and craft schools, or any other type of meeting.

It will even be possible to hold two meetings there at the same time if necessary, for one room will seat a group of 35 people, and a crowd of 125 can meet in the large meeting room.

Monte said that nearly every person in this area has helped in some manner with the new Community Center, and it is hoped that the wide range of activities

**MARRIAGE IS FOR LIFE**

A man lay dying. As the doctor left the room, and the dying man knew the end of his life was near, he patted his wife's hand and whispered, "you've been sweet to me!" He used his last breath to make her happy—to say something she would remember and whisper to herself throughout the years to come.

There are unimportant days in marriage. Each member of a marriage partnership is bound by God to love the other as he loves himself. Each wants to be happy, so he must work to make his partner in marriage happy. Shall it be words? Smiles? A tender touch? An expression of appreciation? A stirring of memory? Courtesy, counsel and consideration are three important "C's" of marriage.

It is not hard to have a happy marriage. Someone said, "Forget yourself?" I say, "Remember yourself . . . enough to know what your heart needs . . . then give that longed-for tenderness to another!" Crowd every bit of happiness possible into every day. A lifetime of happiness awaits a husband and wife who give their thoughts and attention to each other, to their children and to their God.

"Wives be in subjection unto your own husbands, as unto the Lord . . . Husbands, love your wives even as Christ also loved the church, and gave himself up for it . . . even so ought husbands also to love their own wives as their own bodies" Ephesians 5:22-28

The blusher-length veil tier was worn back and both tiers were held by a matching Alencon lace head-dress. She carried a cascade bouquet of white daisy mums and stephanotis accented with baby's breath and pink streamers. **TEXAS TALK**

Although promoting the producer is customary fare for this column, seeing farmers get "good press" from one of the country's financial magazines is refreshing. In the July issue of FORTUNE, a major article compliments today's farmer as being a talented businessman. In part the article says... "a farmer must be a tolerably good chemist, mechanic, market analyst and cost accountant... must be able to judge when to sell his crops, when to hold back, and when to hedge with futures contracts, requiring not only a deep understanding of the commodities markets, but also a grasp of U. S. economic policies at home and abroad." When talking about management ability... "When it comes to managerial skill, a first-rate farmer can hold his own with businessmen in industry." In short the article states what a lot of us have realized for a long time... a successful farmer or rancher means being a true professional.

**A Land Bank loan at work**

Labor-saving devices won't turn farming into a "rocking chair" occupation. Still, there are ways that a long-term Federal Land Bank loan at reasonable cost could help you expand—and handle the increased production with less effort. In fact, if you've been working too hard, your credit probably hasn't been working hard enough. To find out how expansion capital might be used to get more efficiency, see your Land Bank Association.
