District Highway Department Host Breakfast

The District Highway Department hosted a breakfast at the Ranchhouse Cafe in Childress last Thursday morning, August 15.

The invited guests were all the city mayors, county commissioners and county judges in this highway district.

The representative from the highway department informed the group how much money the department had to spend and how it would be spent.

Those from this area who attended were Mayor Jimmy Davidson of Quitaque, Judge Kenneth Dale and Commissioner U.F. Coker of Hall County and Commissioner Will Chamberlain of Donley County.

Missing—Missing Have You Seen Them

by Arlene Hinkle

Has anyone noticed that something is missing on the southside of Main Street? Most of us tend to overlook landmarks or common objects until they are no longer there; and, then the consternation begins. What was there.....umum?

Over 75 wooden sunflowers are missing. These have stood proudly through three National Trails Days, two Fall Foliage Tours and two Caprock Country Christmases. The strange part is they became members of the missing brigade during Homecoming.

Are they momentos of the past....momentos of the place... or maybe, acts of vandalism by the current citizens? Whatever, the southside of the street is lacking and countless hours of labor were involved in the construction, painting, and placing of the flowers.

A visitor remarked that the sunflower must be the symbol of Quitaque, and asked if we just told visitors to follow the sun.

We the Women will probably not replace the missing flowers and visitors will have to follow the denuded pots. Rather strange and sad, isn't it....

Caprock Public Library News

by Arlene Hinkle

New books at Caprock Public Library include: *The Proud and the Free* by Janet Dailey. Based on fact, this book is about the Cherokee Nation and the destruction of a proud people.

Knee Deep in Paradise by Brett Butler. An autobiography by the star and Executive Producer of *Grace Under Fire*, an award winning situation comedy.

For juveniles: *Rosey Cole's Great American Quilt Club* by Shelia Greenwald. Rosey starts a club for "the kid who has everything" and might be willing to donate some of it.

Time Flies! by Florence Parry Heide. Noah is about to be invaded by a new baby sister and he is not looking forward to it. But, he is in for a big surprise when the baby brings him good luck and he decides a little sister might be "okay."

Turkey Library Museum Meeting

by Ann Coker

Next Monday, August 26th, the Committee that is trying to combine the Turkey Library with a Turkey Museum will be meeting at 2 p.m. in the Turkey Library at the Bob Wills Center.

All citizens of Turkey who are interested in this project are urged to attend. The committee needs your suggestions and your support. If you are civic minded this is a meeting you should attend.

Remember Monday at 2 p.m. at the Library in Turkey.

Rain Falls Again

Tuesday evening, late, the clouds began to spout rain once again in many areas of our region. North of Quitaque .90 was reported while in town .85 on the north side of town and .50 on the south side. Valley View reported .20. About 8 miles south of Quitaque at Fairmont 1.80 was reported. Turkey's official amount in town was .51.

Criminal Justice Class Offered At Clarendon

For the first time, an Introduction to Criminal Justice course will be offered at Clarendon College. According to Dr. Janie Noble, Dean of Instruction, this course is being offered per requests from area residents.

"There has been a great deal of interest in offering a course like this, especially since it is needed for anyone who plans to pursue a career in law enforcement, social work, or law," Noble said. "If there is enough interest in this subject, Clarendon College could add an associate's degree in criminal justice."

Introduction to Criminal Justice (CRJ 1301) will be offered this fall, Monday evenings from 6-9 p.m.

For more information about this course, or any of the fall courses offered by Clarendon College, please call 806/874-3571.

Student Records Considered Private

furnished by Motley County Independent School District Rolling Plains Shared Service Arrangement.

A student's records are private and are protected from unauthorized inspection or use. A cumulative record is maintained for each student from the time the student enters the District until the student withdraws or graduates. The record moves with the student from school to school.

By law, both parents, whether married, separated, or divorced, have access to the records of a student who is a minor or a dependent for tax purposes, as do students 18 years of age or older. A parent whose rights have been legally terminated will be denied access to the records if the school is given a copy of the court order terminating these rights.

The principal is custodian of all records for currently enrolled students at the assigned school. The superintendent is the custodian of all records for students who have withdrawn or graduated. Records may be reviewed during regular school hours. The records custodian or designee will respond to reasonable requests for explanation and interpretation of the records.

Parents of a minor or of a student who is a dependent for tax purposes, the student, if 18 or older, and school officials with legitimate educational interests are the only persons who have general access to a student's records. School officials include employees, agents, or trustees of the District, cooperative, or contractual placement facilities, as well as their attorneys and consultants who are:

1. Working with the student.
2. Considering disciplinary or academic actions, and the student's case, or a handicapped student's IEP.

3. Compiling statistical data.
4. Investigating or evaluating programs.

Certain other officials from various governmental agencies may have limited access to the records. The District forwards a student's records without prior consent on request to a school in which a student seeks or intends to enroll. Parental consent is required to release the records to anyone else. When the student reaches 18 years of age, only the student has the right to consent to the release of records.

The parent's or student's right of access to, and copies of, student records does not extend to all records. Materials that are not considered educational records, such as teachers' personal notes on a student that are shared only with a substitute teacher and records on ex-students, do not have to be made available to the parent or the students.

Students over 18 and parents of minor students may inspect

the student's records and request correction if the records are inaccurate, misleading, or otherwise in violation of the student's privacy or other rights. If the District refuses the request to

amend the records, the requester has the right to a hearing and to place in the student's record a statement commenting on the information.

Although improperly recorded grades may be challenged, parents and students are not al-

lowed to contest a student's grade in a course through this process. Parents or students may complain to the superintendent if they feel that the District is not in compliance with the law regarding student records.

Sid Shaw, Lions Club Past District Governor, presents the Earl Wiesch Fellow Award for past service to Quitaque Lion Jimmy Ross in June.

THEN & NOW!

by Eunice McFall

The following column was taken from the Stinnett Post and written by Leslie Monden. I felt that it was very relevant to our town as well as Stinnett.

The Dirty Dozen

We've had some letters to the editor during the past several months that are mostly written in a negative light, and after finding the following article on my desk earlier this week, I felt compelled to print this list, as it reminded me of the author of most of our letters to the editor concerning city, school and county affairs. Negativity is a dangerous emotion that feeds on misunderstandings and one-sided truths. It can destroy even the strongest foundations upon which our cities, schools and counties are built. Read on.....the author of these tips is unknown.

12 tips for helping a town go downhill.....

1. Live in the past and talk about how things used to be.
 2. Attend no meetings of any kind. Keep relying on rumors and the "grapevine" for the source of all your news.
 3. Badmouth city and other local leaders and don't get involved in making the town a better place to live. Be sure to criticized the way "they" are doing things.
 4. Remind others at all times of the cold winters, hot summers, and the wind. Point out that people must be rugged to enjoy life in such conditions.
 5. Complain about the police department, fire department, chamber of commerce, civic groups and local government.
 6. Buy things out of town or from mail order catalogs. Ignore the firms that are first to come forth with donations for local worthy causes. Ignore the merchants who work for the good of the town.
 7. Stay away from the schools and don't support the youth of the community.
 8. Remember that all kids are delinquents, all businessmen are crooks, and that nothing good can be said about the old hometown.
 9. Keep on saying, "This is they way it's always been, We can't do it differently."
 10. Forget the meaning of the word "volunteer" and say one person can't make a difference.
 11. Above all, always be skeptical, cynical and negative about anything that is intended for the community's progress and betterment.
 12. Forget about your town's heritage.
- Good towns are built with confidence and positive leadership. Civic pride begins at home.

Quitaque EMS Holds Monthly Meeting

by Debbie Wellman
 The local EMT's met on Wednesday, August 7th at 7:30 p.m. The group met at the Quitaque Emergency Services Building and practiced skills in various types of fractures.

The skills practice was led by Dianne Washington and Albert Castillo.

The grant proposal for new radio equipment was reviewed and the possibilities the new equipment will open to the EMS, as well as, the Fire Department. The EMT's checked out the ambulances for equipment and supplies, then adjourned the meeting.

Quitaque EMS Attend AED Workshop

by Debbie Wellman
 The area representative of Physio-Control was in Quitaque July 22nd. Ruben Rios of Albuquerque, NM was here to give a class on all the features of our new AED.

The group met at the Sportsman Cafe and practiced with the new equipment under the supervision of Mr. Rios. An AED certification class was held several weeks ago, but because there are many different types of AED's, a review with Physio-Control was a big help.

After the practice session the group had a delicious meal and discussed the many advantages of this vital new piece of equipment.

"Quality Child Care"

By Calley Payne
 The challenge of providing quality child care will be the focus of a conference for child care providers on Saturday, September 21, 1996, from 9:00 a.m. to 3:30 p.m. at the Expo Center in Perryton, Texas.

Dr. Jerry Lane will conduct the opening session on "True Colors." Dr. Lane is a Counselor with Clarendon College-Pampa Center and is an instructor for interpersonal communication, stress management, and parent education.

Four concurrent workshops and a sharing opportunity will be offered during the afternoon session. A variety of topics will be featured including developing social skills, attention deficit disorders, outdoor play, and science fun.

A registration fee will be charged and is due by Sept. 13, 1996. Participants will receive five contact hours of training. For registration forms or more information, contact your County Extension Office.

Generally, 20 percent of the contributors account for 80 percent of the funds.

Things Seen Or Heard

by Ann Coker
Visiting recently in the home of Harold and Frances Wheeler were Ben and Joan Wiley. The Wiley's live in Cuyahoga Falls, Ohio. The Wiley's spent two days visiting with their former classmates and friends.
Ben's family had had a reunion at Wichita Falls. While the Wiley's were in the area they also visited with Ben's sister, Louise, in Adrian.
Mrs. Wheeler reported that Ben looked very good and is enjoying his retirement.

Mr. and Mrs. Steve Anderson and Colin of Marshalltown, Iowa spent the weekend with Byron Young. They were on their way to Tres Ritos for a few days, and Colin wanted Byron to go back to Tres Ritos with them.

Mildred (Coker) Landry called recently to give us an update on her mother, Jessie Coker. She said that Jessie was doing as well as she can. Jessie is rather quiet and very sweet and enjoys Mildred's visits.

Delores and Hubert Price were in Dallas for several days last weekend. They went to market. I know they bought lots of beautiful and interesting items.

They wanted to visit their daughter, Sherice, in Austin but Hubert had to return home to bale his hay that was on the ground.

Last Saturday night Bob and Janice Russell drove to Amarillo to help celebrate Janice's sister and husband's anniversary, Joyce and John Reed, and also to celebrate Janice's birthday. The celebration was held at the Tascosa Country Club. They were also joined by Janice's other sister and husband, the Mullanax, from Greenbelt Lake.

Returning home last Monday afternoon after spending a week in Colorado were Estelle and Tink Lane. They had been visiting with their son and family, Keith, Jan and Jonda Lane in Greeley, Colorado.
They reported that the scenery was beautiful, it was quite cool and the fishing was great. They went to a lake at Bel-Aire, just north of Estes Park and spent several days.

One day Jan and Estelle went to Estes Park and picked up Jan's aunt, Tootsie Morse, who is house-sitting for some friends who are on vacation. The three women spent the day in the park.

Galene Proctor filled in at the Turkey Post Office last Monday for Rita Guest. Rita had a dentist appointment in Childress that day. Lorene Setliff accompanied Rita to Childress.

R.V. Johnson was taken by ambulance to the hospital one day last week. The ambulance crew consisted of Steve Farley, Travis Carnes and Gerald Carnes. I've had no report on how he's doing.

Last Thursday afternoon Lorene Setliff and I were honored on our "39th" birthday. The party was held in the home of Mary Loury. Others attending were Janice Russell, Dot Arnold, Arlie Williams, Janice Wheeler, Rita Guest and Willie Majors.

The group was served finger sandwiches, fruit, chips, vegetables, birthday cake and coffee prepared by the hostess, Mrs. Loury.

Each lady attending the celebration presented the birthday girls with a birthday card and the hostess gave the two each a beautiful scented candle.

Even though we were born on the same day and same year, we still believe that "39th" birthdays are wonderful!

I enjoyed my phone calls on my birthday. All three kids called. I also received a call from a friend, Kathryn Harder of Levelland. Kathryn and I started first grade together, were room mates in college and received our degrees the same day. Also had a call from Loyce Sherrod in McLean who had long been a special friend.

Ying Lyles had a very nice surprise on Friday night, August 9th. Her niece, Austine Clark and daughter Charlie Salazer from Jal, N.M. slipped in on her to celebrate her birthday on Saturday, August 10th. They stayed until Sunday afternoon. Oneal Davis' birthday was on Sunday, August 11th. Oneal and Ying celebrated birthdays together at the Caprock

Home on the Range

By Kevin Welch

Courtesy of Amarillo News-Globe
Visitors from Finland, Pennsylvania, Florida and California have experienced the colorful, craggy cliffs the Caprock Escarpment and the rugged canyons of a Panhandle treasure. Yet that treasure remains undiscovered by many of the area's own residents.

The Texas state park system preserves and provides access to some of the state's prime natural settings, and it's done just that at Caprock Canyons State Park and Trailway.

Nestle against the Caprock, as the High Plains tumble down red cliffs to the Rolling Plains near Quitaque, the park features events, a variety of trails and a peaceful but dramatic landscape. While the scenery could have been the setting for a John Ford/John Wayne movie, the park system has added a few modern conveniences while preserving the feeling of the wild frontier.

Camping facilities in the almost 14,000-acre park range from the luxury of 35 recreational vehicle hook-ups to unlimited primitive campsites where it's just you and nature. If neither extreme suits you, try pitching a tent at one of the 31 campsites—they all have water and some include shaded shelters and tables.

If you want to ride the range, Caprock Canyons offers 12 equestrian campsites with pens and water for your equine companion. Humans must provide their own water.

For those who prefer a little entertainment with their dose of nature, Caprock Canyons State Park offers tours and outings perfect for families. These include "Canyon Ramblings," a ride up North Prong Canyon in an open truck, and "Nose to Nose With the Buffalo," a close encounter with the park's 14 head of buffalo. The herd includes three calves born this year.

"We like to claim they're the official state herd," Geoff Hulse, manager of Caprock Canyons.

Both of these activities are available by request.

On Sept. 28, the park will host "Cowboy Campfire Evening," a night of Western music and poetry performed around a crackling fire beneath the stars.

Want to get physical? There are 19 miles of mountain bike trails at Caprock Canyons. From top to bottom, there is a difference of 1,000 feet in altitude through the park. That can make for more of a challenge than cruising around the neighborhood. However, not all trails are for weekend road warriors.

"There's a new scenic trail called the Canyon Rim Trail that's only three miles long," Hulse said.

On Oct. 26, the Caprock Bike Club will host a mountain bike race on the park's trails. The race is sanctioned by the National Off-Road Bike association and includes 14- and 28-mile courses.

Bikers, hikers and horseback riders also may want to take advantage of the Caprock Canyons Trailway, a trail extending more than 64 miles outside the park from the community of South Plains to Estelina.

"The Trailway is still being developed, but it is basically from South Plains to Turkey," Hulse said. That route goes from the smooth prairies down the Caprock through the only railroad tunnel remaining in Texas, according to Hulse. While the change in elevation can be steep, the trail actually descends gradually because it was designed as a railroad route.

Whether you want to leisurely fish on the banks of Lake Theo or traverse country that disproves the notion of the Panhandle being "the Great American Desert," Caprock Canyons State Park is an autumn or spring get-away just waiting to be sampled.

"When it gets hot, West Texans head for the mountains, and I don't blame them," Hulse said. But people around Amarillo need to know there's another place to go besides Palo Duro Canyon State Park when it gets cooler."

For information: Call the park at (806) 455-1492. Reservations can be made by calling the park's central reservation office at (512) 389-8900.

Registration For Classes At Clarendon College

Clarendon College's fall 1996 semester will begin August 26, with the beginning of Freshman Orientation. A two-day course, Freshman Orientation provides new students an opportunity to get-to-know the faculty, staff and campus. Freshman Orientation is a one-hour credit and is required for graduation.

Students will be provided miniclasses on subjects which are very important not only to their academic life, but future careers. Topics to be covered include time management, study skills, note taking, and stress management. A how-to-session on the college's Learning Resource Center will be given as well.

A first for Clarendon College, student ambassadors will be available throughout Freshman Orientation to assist in answering questions, provide insight and welcome new students. Twenty outstanding students have been chosen to serve as PAW Pals (Peers Advising and Welcoming Students).

"Our PAW Pals are a wonderful cross-section of Clarendon College," Christi Ross, Public Information and Marketing Coordinator said. "They represent both urban and rural backgrounds, various college organizations and teams, as well as different majors."

Parents of students are invited to the first-ever "Parent's Orientation." This education event will be held Sunday, August 25 in the Bairfield Activity Center from 3-4 p.m. Parents will be informed of the rules and regulations of the institution and on how-to-deal with the emotions they may be feeling during this time.

Following Traffic Laws, Safety Rules Will Prevent Tragedies

New clothes, backpacks, lunch boxes, school buses. The first day of school is exciting for students, but the new school year can bring tragedy if school bus safety rules are not followed. The Texas Department of Public Safety reminds motorists to obey traffic laws and watch for children boarding or exiting school buses. Parents and teachers should talk to children about school bus safety.

In 1995, no school bus drivers or passengers were killed while riding on school buses in Texas, but 1,370 people were injured while traveling on them. Seven people were killed in accidents directly or indirectly involving school buses, while 2,556 were injured.

The most common time for accidents is when school buses are loading or unloading students. Students should be taught to follow safety rules and to watch for traffic before crossing streets. Students also should watch for vehicles illegally passing stopped school buses on either side of the bus. According to the National School Bus Loading and Unloading Survey, most children injured or killed while getting on or off buses are under the age of 10.

A safe, reliable and efficient system for transporting children to and from school is part of the total educational program. To ensure the proper operation of school transportation systems, the DPS over-

sees and updates the state's school bus driver training program.

"Practicing good school bus safety requires a combined effort of the traffic laws, parents and teachers educating children to be safe and school bus drivers being properly trained to decrease the number of school bus related accidents," said Debbi Goertz, DPS program administrator for school bus transportation.

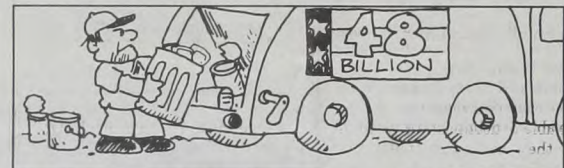

Tri State Antique Truck And Tractor Show

The Tri State Antique Truck and Tractor Association will hold its third annual show August 31 thru September 2 at the Will Rogers Range Riders Rodeo Grounds in Amarillo. See rare and unusual antique trucks, tractors, engines, implements and machinery, along with a toy show and toy swap meet.

Special events include daily parades, truck games, tractor games, and children rides. An antique tractor pull is scheduled for Saturday, August 31 at 7:30 p.m. and Sunday September 1 at 2 p.m.

A small admission fee will be charged. Children 12 and under accompanied by an adult will be admitted free with the donation of one can of food for the High Plains Food Bank.

For additional information call 806/374-3056 or 806/358-3433.

Over 48 billion metal cans are used by citizens of the U.S. every year.

The custom of a wishbone making a wish come true for the person who breaks off the larger piece, is at least 2,400 years old, and it originated with the Etruscans, the ancient people who occupied the area of the Italian peninsula between the Tiber and Arno rivers.

Bogan's Celebrate 50th Wedding Anniversary

Norman, Okla. was the site for a 50th wedding anniversary celebration for S.T. Bogan, Jr., formerly of Quitaque, and his wife Eather on July 27. Well wishers gathered at daughter Dorrie Giroux's home and family enjoyed an evening banquet at Legends Restaurant. Popular music from the 1940's set the mood and a video compilation of family photos entitled "Counting Our many Blessings" provided entertainment and laughs. The couple's three children, their spouses and all six grandchildren attended: son Doug Bogan of Houston and his wife Diane, with children Brad and Lacy; Patricia Wong of Tacoma, Wash. and her husband Walter, with children Kelly and Kevin; Dorrie Giroux of Norman, Okla., and her husband Michael, with children Raymond and Elizabeth.

Esther and S.T. Bogan on the occasion of their 50th wedding anniversary at Norman Oklahoma on July 27, 1996.

Mr. and Mrs. Bogan were married November 23, 1946 in Oklahoma City in her mother's home. The couple lived in Stillwater, Okla., Oklahoma City, Okla., Big Springs, Tex., and finally settled in Richardson, Texas in 1963, where they now live. Mr. Bogan was an accountant and a Vice President for American Petrofina in Dallas. He has enjoyed retirement since 1983. Mrs. Bogan is a homemaker.

"Sew Creative" Fair Scheduled

This year's "Sew Creative" sew fair is planned to meet the needs of both those who want to look their best for all occasions, and home seamstresses who want to brush up on basic construction, or learn new fashion techniques. The annual event will be held at the Texas A&M Center on Tuesday, Aug. 27th. Two sessions are planned.

Linda Crawford of Clovis, N.M., will keynote the evening session with a presentation including a fashion show which she calls "Dress for success on Less." The private investigator by profession has successfully conducted a similar program in her home town and has had requests for a repeat program.

The afternoon session begins with registration at 1:00 followed by Fashion Fun presented by Potter County Family and Community Education club members.

The "Sew Creative" program is co-sponsored by the Potter and Randall County Extension services. There will be a charge for the session and pre-registration is not required. For more information call 806/373-0713, or 806/655-6325.

Low Dosage Aspirin Therapy (NAPS)—More doctors are prescribing aspirin for their patients. Clinical studies have already led doctors to prescribe daily aspirin to reduce the risk of a second heart attack. Now the FDA is recommending 162 mg. of aspirin (exactly the formulation of Halfprin) during a suspected heart attack and for at least 30 days following a heart attack.

LVN Graduate

Chastity Price of Quitaque graduated on Friday, August 16, 1996 from Clarendon College Licensed Vocational Nursing school.

Chastity is a 1993 graduate of Valley High School. She is the daughter of Stan Price of Quitaque and Elois Price of Turkey. Grandparents are Jessie and Odie Reagan and Betty and Bruce Price all of Quitaque.

Chastity completed a 12-month LVN program at Clarendon College which entitles her to receive a Certificate of Completion and to take the examination administered by the State Board of Vocational Nurse Examiners. Successful examinees will be issued a license qualifying them to practice as a Licensed Vocational Nurse in the state of Texas.

Arthritis Facts

Arthritis is...Swelling in one or more joints...Early morning stiffness...Recurring pain or tenderness in any joint...Inability to move a joint normally...Obvious redness or warmth in a joint...Unexplained weight loss, fever or weakness combined with joint pain...Symptoms like these persisting for more than two weeks.

One in seven people has arthritis, affecting one out of every three families. It strikes people of all ages, from children to senior citizens. Although arthritis is an incurable disease, early diagnosis and treatment are vital and much can be done to manage pain and prevent disability. The Arthritis Foundation offers many services to help those affected by arthritis diseases.

Although there is no cure for arthritis, research has made many advances and there are now ways to control rheumatoid arthritis, lupus and gout.

4-H Activities During The Summer

Briscoe County 4-Hers have been participating in several activities this summer. Molly Brooks attended Texas 4-H Congress in Austin, Texas. Molly participated on the Environment Committee and the House of Representatives. 4-Hers were able to debate and vote on the bills they had submitted. Bills passed by the Texas 4-H Congress were presented to the Governor of Texas.

Molly also attended Spectra '96 at the Texas 4-H Center at Lake Brownwood. At this camp 4-Hers choose one area, such as Public Speaking or Recreation to learn about for the week. Molly participated in canoeing and sailing. The camp also offers several theme parties and the Gala Banquet.

Carrie Baird along with County Extension Agent, Calley Payne, attended 4-H Electric Camp at Camp Scot Able near Cloudcroft, New Mexico. This camp was conducted by SPS (Southwestern Public Service) staff who taught 4-Hers everything about electricity from safety to home wiring.

Briscoe County had six entries in the District Record Book contest. All six 4-Hers had excellent books and their success proves how hard they have worked with their 4-H projects.

Wynter Smith won 1st place, Photography; Briana Sperry, 1st place Beef; Molly Brooks, 3rd place Home Economics Achievement; Lindsey Jennings, 3rd place Clothing & Textiles; Tara Smith, Blue Ribbon Recreation and Scarlett Sperry, Blue Ribbon Recreation.

Wynter and Briana's Record Books will advance to State Competition.

Briscoe FCS Agent Attends State Convention

Briscoe County Extension Family and Consumer Science Agent, Calley Payne, participated in the annual convention of the Texas Association of Extension Home Economists (TAEHE) held in Amarillo, July 31 through August 2. This marked the 52nd meeting of the state organization.

The 1996 theme, "Blazing New Frontiers" highlighted the 3-day meeting. Members attending heard comments by Potter County Judge Arthur Ware, Panhandle District Extension Director, Dr. Martha Couch and TAEHE state president, Kathryn Roberts from Snyder.

Opening session speakers included Jon Randles, popular motivational speaker and head of Randles Evangelistic Association of

woodworking, stained glass and other exciting projects Educational programs on topics such as horticulture, photography, nutrition, finances, and other current interests are a popular highlight.

Boat rides (weather permitting) and fishing on Lake Brownwood add popularity to your stay. Lighted tennis courts, horseshoes, billiards, volleyball, shuffleboard, dominoes, and card and table games are all popular activities.

A special "Movies--Movies--Movies" theme featuring a costume contest on Thursday during lunch will provide a festive atmosphere to the event. Thursday's theme party will feature some exciting activities and entertainment.

Lubbock and Joe Frank Wheeler, manager of the Borger Chamber of Commerce and local training and motivation seminar specialist.

Dr. Margaret Hale, assistant director for family and consumer science programs with the Texas Agricultural Extension Service in College Station also addressed the full convocation. Hale was appointed as a headquarters staff administrator in July 1995, where she directs the activities of county agents serving 254 counties.

The TAEHE banquet held August 1, featured keynote speaker, Sarah Gill, a poet and humorist from Miami, who entertained the audience with examples of her work which has appeared in Country Woman, County Progress and anthologies, Texas Rib Ticklers and Best of Southwest Cowboy Poets. Officer installation and a president's council reception ended the evening's events.

A self-esteem program assessment presentation for agents who teach youth and adults was led by two officials with Texas Department of Criminal Justice Nathaniel J. Neal Female Unit at Amarillo-Dr. Alma McArthur, principal of Windham School at the unit and senior warden, Wilhelmina Adams. Dr. Joyce O'Rear a licensed psychologist and specialist in marriage and family therapy, offered the final workshop on key concepts in eating disorder education programming.

A testimonial for the Carter family. The Reunion was great for the Carter family. Thank you for giving us roots and for being such a warm and loving family. The memories of Grandma and Granpa Carter are still the highlight of conversation. The Christian examples of family members are still shining. Thank you for a wonderful and special heritage. Patricia (Jaffee) Finely, Laura (Jaffee) Greiving, daughters of Lynna Jaye Carter Davis.

Furdan 4F Cleared For Aphid Control In Cotton

By Rebel L. Royall
The use of Furdan 4F for aspid control in cotton was requested and approved for use in Briscoe, Donley, Collinsworth, and Deaf smith counties on Thursday, August 8, 1996.
Up to 8 fluid ounces per acre may be used per application. A maximum of two applications is allowed. Some restrictions also apply to the use of this product. The following is extremely important:
1. Mandatory posting of the field for 14 days. This is not a WPS requirement—it is an EPA requirement for Furdan 4F.
2. No re-entry for any reason during the first 48 hours following an application. After the first 48 hours a worker must wear protective clothing if prolonged intimate contact is expected for the remainder of the 14 day posting period. This protective clothing includes rubber gloves. (Consultants and scouts fall into this category.)
3. Application must be made with a closed delivery system. Furdan from 2 1/2 gallon containers can not be used.
4. Applicators and those who are responsible for the field must have in their possession a label and a copy of the Section 18 for Furdan 4F.
Please follow these guidelines. Furdan is a very dangerous substance, that has been earmarked by the EPA. If it is not properly used, we could lose the use of it forever in cotton. Above all, be careful with chemical. Do not ask your workers or consultant to look at the cotton during the 14 day posting period. Change water and get out of the field. Don't put your worker or yourself in a possible exposure situation. A life is worth more than what you will get out of the work being done in the 14 day period.
