VOLUME 26 NUMBER 32

Briscoe County Livestock Show Is Friday, Saturday

The Briscoe County Livestock Show begins Friday at the County Show Barn in Silverton. Exhibitors are to weigh in their animals between 3:00 and 6:00 p.m.

Judging begins at 10:00 a.m. Saturday with lamb classes. This is followed at 11:00 a.m. by dairy heifers; 11:15 a.m., steers; 11:30 a.m., beef heifers; 1:00 p.m., barrows.

A beef stew lunch will be served at the noon hour.

Judge for the show is Ken Cook of San Angelo. John Schott is show superintendent.

Joe Edd Helms is superintendent of the lamb show. Perry Brunson, superintendent, will be in charge of the swine show, and Doug Forbes is superintendent of the cattle classes.

Directors of the livestock show

Ginning Season Over With Good Yields Reported

The ginning season is over in this area with reports coming in from Turkey Farmers Co-op Gin reporting 5,100 bales ginned. They said there was a real good yield this year with many farmers making a bale to the acre and some few making even a little more than a bale. The turnouts were good. A spokesman said they got through ginning Friday, January 17. J. W. Lacy is gin manager.

North Gin reported 3,500 bales ginned and said Tuesday of this week that it would probably be their last day to gin. B. J. Robison, manager, said there was a good yield and a good turnout but low seed prices make it hard for the farmers to come out on their crop.

Turkey Senior Citizens Met Tuesday, January 14

Turkey Senior Citizens met Tuesday night, January 14, at 6:00 o'clock for their regular meeting with 25 present. A salad meal was enjoyed by all present and then table games were played.

The president, Guy Smith, announced that the treasury was low, so a collection was taken and turned over to the secretary-treasurer, Mrs. R. C. Green. There are no dues for the members, only free will collections are taken when funds are needed for the group's activities.

"The art of pleasing consists in being pleased."
William Hazlitt

Miller Seeking Re-election as District Judge

District Judge George W. Miller of Floydada has announced for re-election to the post he has held for the past ten years as a candidate in the Democratic Primary to be held May 3.

Judge Miller, a 23-year resident of this district beginning as Briscoe County Attorney, also served six years as District Attorney in the 110th Judicial District. He is a Navy veteran and attended both legal and judicial colleges, and has held both church and community leadership posts.

In announcing, Judge Miller stated that he would ask the voter to base a decision upon the better qualified person.

(Pol. Adv. Paid For by George W. Miller, Box 696, Floydada, Tx. 79235)

Janice Hill Seeking Election as Treasurer

Janice Hill has authorized the Briscoe County News and Valley Tribune to announce that she is a candidate for County Treasurer, Briscoe County, Texas, subject to the action of the Democratic Party Primary in May 1986.

In making her announcement, Mrs. Hill said, "I am a candidate for Briscoe County Treasurer, and will appreciate your vote and influence in my behalf. I will make an effort to visit with each of you before election day, and until then I will appreciate your support."

Mrs. Hill, the former Janice Hester, has served as office deputy for Briscoe County Sheriff Dick Roehr for several years.

Camera Club Elects Officers

During the January 9 meeting, the Caprock Camera Club elected officers for the new year. Walter Wayne Taylor was elected president. Kathy Frizzell was chosen as treasurer-secretary. Randy Stark is the program chairman.

The Camera Club will hold its regular meetings on the second Thursday of each month at 7:30 p.m. in the First National Bank community room in Quitaque.

They invite anyone interested in cameras or photographs to attend the meetings.

Mr. and Mrs. Ralph Carter were in Lubbock Friday. They brought their granddaughter, Melanie Carter, home with them to spend this week. This is the first time she has been here since Thanksgiving.

"An economist is a person who guesses wrong with confidence." Anonymous

Sherri Smith Announces for Hall County Tax Collector

Sherri Smith has authorized the Valley Tribune to announce that she is a candidate for the office of Hall County Tax Collector subject to the action of the Democratic Party Primary Election in May 1986.

Mrs. Smith is married to Sandy Smith and they have four children, Kerra and Eric Lynch and Jana and Lisa Smith.

"In announcing my candidacy, I ask earnestly for the support of the citizens of Hall County," Mrs. Smith said.

"During my eight years in the tax office, I have worked as Deputy Tax Assessor-Collector and presently as Tax Assessor-Collector, to which I was appointed by the Commissioner's Court in October 1985. Because of my experience I feel that I am well qualified to execute all the required duties of this office efficiently and courteously.

"My employment here has rewarded me with the opportunity to have become acquainted with most Hall Countians, and I shall look forward to visiting with you as my campaign progresses and ask for your support and vote in the May Primary," Mrs. Smith concluded.

Plains Art Association Spring Show, Sale To Start March 2

The Plains Art Association Twenty-Sixth Spring Show and Sale will be held in Harrah Fine Arts Complex on Wayland Baptist University Campus starting Sunday, March 2, from 2:00 to 4:00 p.m.

The entry date for those wishing to participate will be February 27, from 10:00 a.m. to 6:00 p.m. The entry fee is \$4.00 for PPA members, no limit; \$6.00 fee, non-members, no limit.

For information, call Ruth Draper, 293-5969, or Lisa Arnold, 293-5463.

The past Sunday, visitors in the home of Mrs. Floye McCracken were Mr. and Mrs. S. B. McCracken of Tulia, Mr. and Mrs. Barry Francis, Jared, Nathan and Andrew of Silverton.

Mrs. Ollie McMinn of Silverton, sister of Lottie Owens of Quitaque, underwent surgery on a leg that had failed to heal over a long period, at High Plains Hospital Monday morning. She had to have some skin grafting and reportedly came through the surgery fine.

"Envy is the sincerest form of flattery."
John C. Collins

Doyle Proctor Announces For County Commissioner

Doyle Proctor announced this week that he is a candidate for the office of County Commissioner Precinct 4 of Hall County, subject to the action of the 1986 Primary of the Democratic Party.

In authorizing the Valley Tribune to publish the announcement of his candidacy, Mr. Proctor made the following statement: "Given the opportunity to serve the citizens of Hall County, I will do my best to represent you fairly and honestly. I would appreciate your vote and your support in the May 1986 Democratic Primary."

Proctor and his wife, Gelene, have been long-time residents of Hall County and have been engaged in farming for the past 23 years. He has served on the Valley Independent School Board for six years and is currently active in the Turkey Volunteer Fire Department and the Hall County ASCS Community Committee.

Camera Club To Conclude Scavenger Hunt

The Caprock Camera Club has designed a scavenger hunt for shutter bugs. The results of the scavenger hunt will be shown at their February 13 meeting in the bank's community room in Quitaque.

They had a list of twenty subjects, and were to get one shot of each subject on a single roll of film. Some of the subjects were pets, shadows, a cotton stripper, a windmill, children playing. The slides will be judged by an independent person, who will choose the winners in each category and the overall winner.

The Camera Club would like to invite everyone to attend the next meeting to view the scavenger hunt slides and participate in their next activities.

Mr. and Mrs. DeWayne Adams and daughter, Joanna, of Post spent Friday night and Saturday visiting her parents, Mr. and Mrs. Truman Merrell, in Quitaque.

Visitors in the James Kimbell home Sunday were Mr. and Mrs. Bobby Brunson of Edmonson, Mr. and Mrs. Bobby Ivan Brunson, Chad, Angela and Crystle, Plainview, Mr. and Mrs. David Setliff and Craig, Mr. and Mrs. James Lynn Kimbell and Shorty, all of Turkey.

Mr. and Mrs. Shorty Woods and Mrs. Ruth Phelps visited their mother, Mrs. E. E. Woods, in Plainview Sunday.

OBITUARIES

THALIA A. SHULL

Thalia A. Shull, 44, of 200 N. Hoyne in Fritch, daughter of Mary Edith Dunham Frogge, died at 1:33 a.m. Friday at Golden Plains Community Hospital.

Services were held at 2:00 p.m. Monday at the First Southern Baptist Church in Fritch with the Rev. Ron Trusler, pastor, officiating.

Burial was in Westlawn Memorial Park Cemetery under the direction of Alexander Funeral Directors.

She was a resident of Phillips for 35 years, moving to Fritch five years ago. She was a graduate of Phillips High School. Survivors are her husband, Bill Shull of the home; two daughters, Kiska and Holly, both of the home; her parents, Mr. and Mrs. L. R. (Mary Edith)

Frogge of Fritch.

Pallbearers were Joe Ford, B. F. Ford, Bobby Dunham, Darrell Dunham, M. E. (Mickey) Dunham and Billy Dunham.

Mrs. Shull's mother is the former Mary Edith Dunham, a former Quitaque resident. She had visited in Quitaque with her mother. Mrs. Frogge's address is Box 1887, Fritch, Texas 79036, for those who want to send cards.

KEEP ATTIC VENTS OPEN THIS WINTER

During the winter, moisture produced inside the house tends to migrate to the outside. Part of this moisture passes through the roof into the attic area.

"By placing plastic over roof vents, the homeowner is shutting off ventilation so that the condensation of moisture can occur in the attic space," says Texas A&M University Agricultural Extension Service housing specialist Dr. Susan Quiring.

Once this moisture has condensed in the attic, it will settle in the insulation, reducing its effectiveness and adding to your energy bills, she cautions.

Every year, the earth travels 600 million miles through space.

NOTICE!
TO: All Customers of PEERY & DUGAN OIL CO.

As a result of low profit margins, and poor business conditions, we are forced to change our credit policies to all customers. These changes, as indicated below, are effective immediately:

1. OUR COMPANY CAN ONLY PROVIDE 30-DAY CREDIT FOR WHOLESALE FARM DELIVERIES.

We must respectfully insist that all charge accounts be paid by the 10th of the month, in full, following invoice.

There can be no exceptions to this rule.

We will be unable to grant further credit for those customers having past-due accounts.

2. ALL SERVICE STATION SALES WILL BE MADE ONLY ON A CASH BASIS, CREDIT CARDS AND WHOLESALE ACCOUNTS.

We ask for your continued friendship and understanding with regard to our new credit policy.

In the New Year we look forward to giving the same high level of service and merchandise to our valued friends and customers.

Sincerely,
 Johnny & Claudine Peery

Mrs. Baisden is Program Leader for Turkey UMW Monday

Nadine Baisden was program leader for the Turkey United Methodist Women's meeting Monday, January 20, at 4:00 p.m. in the church chapel. Fredia Fuston gave the opening prayer.

During the business session, it was voted to buy four large tables to be used in the fellowship hall. Plans were also finalized for the UMW Sunday, on which the group will have charge of the entire worship service. This will be Sunday morning, January 26, and Jill Flaughner will bring the message. This observance or one similar will be held in all churches of the Northwest Texas Conference.

"Mission at the Crossroads" was the program topic. Various parables of Jesus were used in a role-playing setting, with different members taking the parts. Questions were asked that people in our day would probably ask along with the ones the woman at the well and others asked Jesus.

Those attending were Wilma Wedge, Kathleen Green, Ila Turner, Virginia Degan, Totsey Bain, Marcella Patterson, Jill and Dennis Flaughner, Fredia Fuston and Nadine Baisden.

Mr. and Mrs. Keith Green were in Plains Sunday visiting Bettie's mother, Mrs. Robert Chambless. They attended services with her at the First Baptist Church, and heard a former Quitaque preacher, the Rev. Frank Robertson, bring the

message.

Mrs. Ethel Simmons of Childress visited her sister, Mrs. Michie Maupin, and Mr. Maupin over the weekend.

Visitors in the E. L. Hill home over the weekend were Mr. and Mrs. Rod Hill, Bobby and Chris of Amarillo and Mr. and Mrs. Jerry Weatherly, Jess and Lex of Memphis.

Trey Ziegler of Silverton visited his grandparents, Mr. and Mrs. Johnny Peery, from Thursday until Sunday. His mother, Jonetta Ziegler, came at noon on Saturday and stayed until Sunday.

The apple parer was invented in 1803 by Moses Coats.

For a "Go-Go" shake, combine a small banana, 1/4 cup smooth peanut butter, 1/2 pint vanilla ice cream and a cup of milk. Whirl in a blender until smooth. Serves two.

The eyes of the four-eyed fish of Central and South America are most unusual. These fish swim on the surface of the water. The upper half of their eyes are adapted for seeing in air, the lower half for seeing in water.

Lynda Fogerson Briscoe County Extension

Some medications the way your body uses cause dangerous reactions certain foods.

Long-term use of diuretic "water pills" can lead to potassium depletion. Patients taking digitalis heart may become more sensitive to the effects of the potassium deficiency. Corrected. Foods high in potassium are most fruits—citrus, oranges, cantaloupes, raisins, prunes, etc.—sweet potatoes and squash.

According to the Food and Drug Administration, the most hazardous food-drug interactions is that between inhibitors, drugs sometimes prescribed for depression, blood pressure, and such aged cheese, Chianti chicken livers. MAO can react with a substance tyramine in these foods to the blood pressure to levels, sometimes causing headaches and other complications.

To prevent a possible those taking MAO drugs should avoid fermented foods, including herring; sausages, salami and pepperoni; aged cheeses; beef and liver; yogurt and soy sauce; beer; active preparations; bananas; sherry, and other wines in quantities.

Oral contraceptives—is known to deplete the content of some vitamins folic acid and vitamin B12. This is not usually a problem in healthy women on good diets.

Modifying the diet to foods rich in necessary vitamins and minerals is preferred taking vitamin and mineral supplements.

This information was from an FDA consumer information.

New Year's Pa

"My days are swift weaver's shuttle." Job

As each day of 1985 passed "faster than a shuttle," it was a struggle woven into the complex for the whole year. There for some of us may have beautiful one, while for others may have been a conflict—envy, bitterness, envious creeping in to spoil the sign!

How different 1986 even though we may have committed one wrong while person has committed we would take the step chief offender, soften and say, "Will you forgive me? I want my record to show for a new year."

In Berma it was rain could be playing tug-of-war.

Briscoe County Extension Agent

Some medications can affect the way your body uses foods or cause dangerous reactions to certain foods.

Long-term use of diuretics or "water pills" can lead to serious potassium depletion. In heart patients taking digitalis, the heart may become more sensitive to the effects of the drug if the potassium deficiency is not corrected. Foods high in potassium are most fruits—tomatoes, oranges, cantaloupes, bananas, raisins, prunes, etc.—potatoes, sweet potatoes and winter squash.

According to the Food and Drug Administration one of the most hazardous food-drug interactions is that between MAO inhibitors, drugs sometimes prescribed for depression and high blood pressure, and such foods as aged cheese, Chianti wine and chicken livers. MAO inhibitors can react with a substance called tyramine in these foods and force the blood pressure to dangerous levels, sometimes causing severe headaches and other serious complications.

To prevent a possible reaction, those taking MAO inhibitor drugs should avoid aged and fermented foods, including pickled herring; sausages, such as salami and pepperoni; sharp or aged cheeses; beef and chicken livers; yogurt and sour cream; soy sauce; beer; active yeast preparations, bananas; avocados; sherry, and other wines in large quantities.

Oral contraceptives—The Pill—is known to deplete the blood's content of some vitamins, like folic acid and vitamin B-6, but this is not usually a serious problem in healthy women with good diets.

Modifying the diet to include foods rich in necessary vitamins and minerals is preferable to taking vitamin and mineral supplements.

This information was adopted from an FDA consumer publication.

New Year's Pattern

"My days are swifter than a weaver's shuttle." Job 7:6.

As each day of 1985 quickly passed "faster than a weaver's shuttle," it was a strand being woven into the complete pattern for the whole year. The pattern for some of us may have been a beautiful one, while for others it may have been a confusing pattern—with perhaps evil surmising, envy, bitterness and jealousy creeping in to spoil the design!

How different 1986 can be if even though we may have committed one wrong while the other person has committed twenty, we would take the stand of the chief offender, soften our hearts and say, "Will you forgive me? I want my record to stand clear for a new year."

In Berma it was believed rain could be caused by playing tug-of-war.

You can keep your kitchen from being hazardous to your health. Most accidents occur

at home (especially in the kitchen). Here's how to play it safe, according to the IGA Food Stores, in cooperation with the National Safety Council:

- Range and Stove Tops—Keep pot handles turned sideways so youngsters can't

reach and pull hot liquids and food items down upon them.

For safety's sake, it's a sharp idea to keep knives sharp so strong pressure is not needed.

- Microwave Ovens—Follow the manufacturer's instructions for operation and safety; never insert objects through the grill door or around the seal; never operate the oven if the door does not close firmly; do not stand against the oven or allow children to do so for long periods of time when it is cooking.

- When Cooking—Use flat-bottomed utensils that won't tip; don't use utensils that have sharp corners or raw edges exposed; handle hot pans with dry pot holders or mitts, not a dish towel; make sure all handles are secure; keep knives sharp so strong pressure is not necessary; avoid clutter and confusion while cooking and cleaning up and keep youngsters out from underfoot.

"A skeptic is not one who doubts, but one who examines." Charles-Augustin Sainte-Beuve

Douglas-Burton Engagement Announced

Mr. and Mrs. Berry Wood, jr. of Plainview announce the engagement and approaching marriage of their daughter, Miss Donna Glea Douglas, to Mr. Terry Alton Burton, son of Mr. and Mrs. Alton Burton of Muleshoe.

Miss Douglas graduated from Plainview High School, attended West Texas State University in Canyon, and is a graduate of Plainview Vocational School of Nursing. She is employed at Methodist Hospital in Lubbock. Burton graduated from Muleshoe High School, and is employed at Alton Burton Service

Center in Muleshoe.

The couple will exchange wedding vows March 15 in the chapel of the First Baptist Church in Plainview.

WITH THE SICK

Mrs. Dick Taylor went back to Amarillo on Tuesday last week for a checkup on the leg that was broken in September 1985. She is being permitted to walk with a walker now, and will go back in February to see how the leg is progressing. She can only put her foot to the floor lightly now, she reports.

Valley Teams Producing Good Results This Year

On Tuesday night, January 7, the Valley girls played Crowell there, winning 43-32. Quarterly, Valley was on top 7-4, 19-9, 29-17 and 43-32.

Statistically, Fulbright 3-3-8; Johnson 3-0-6; Brittan 5-7-17; Maupin 1-0-2; Smith 2-0-4; S. Price 1-0-2; L. Price 2-0-4.

The girls played Tulia on Tuesday, January 14, with Tulia taking that one 44-33. Tulia was on top all the way, 8-4, 20-17, 39-20 and 44-33.

Statistically, Fulbright 1-4-6; Johnson 2-0-4; Brittan 4-4-12; Maupin, 2-2-6; Smith 1-1-3; S. Price 1-0-2; L. Price 0-0-0.

The Lady Patriots hosted the Silvertown Owlettes on Friday, January 17, winning by a good margin, 49-29. Valley was on top all the way, 13-7, 46-28, 64-36, 49-29.

Statistically, Fulbright 5-2-12; Johnson 3-2-8; Brittan 3-1-7; Maupin 2-2-6; Smith 3-0-6; S. Price 1-0-2; L. Price 4-0-8.

Tuesday night, January 21, the Lady Patriots drove to Lakeview and won their game 47-35. Quarterly, it was the Lady Patriots leading 12-7, 22-16, 30-26 and 47-35.

Statistically, Fulbright 1-3-5; Johnson 2-1-5; Brittan 6-2-14;

Maupin 3-8-14; Smith 3-0-6; S. Price 0-0-0; L. Price 1-1-3; Scoggins 0-0-0.

The Patriots played Crowell there January 7, taking that one 74-61. The Patriots were top man all the way, 10-7, 32-23, 57-34 and 74-61.

Statistically, Price 2-0-4; Cox 4-2-10; Silva 2-0-4; Williams 12-5-29; Beavers 1-0-2; C. Martin 2-0-4; K. Martin 0-0-0; Barrett 4-2-10; Saul 3-1-7; Smith 2-0-4; Scoggins 0-0-0.

On Tuesday, January 14, the boys played Tulia there, losing by 61-46. The Hornets led all the way, 17-10, 33-23, 44-33 and 61-46.

Statistically, Price 0-0-0; Cox 3-1-7; Silva 0-0-0; Williams 8-2-18; Beavers 2-1-5; C. Martin 0-0-0; K. Martin 0-0-0; Barrett 0-0-0; Saul 6-1-13; Smith 1-1-3; Scoggins 0-0-0.

The Patriots hosted Silvertown on Tuesday, January 17, winning that one 96-43. The Patriots led at the end of each quarter, 18-14, 51-23, 77-31 and 96-43.

Statistically, Price 1-0-2; Cox 5-0-10; Silva 1-0-2; Williams 15-2-32; Beavers 5-2-12; C. Martin 7-5-19; K. Martin 2-0-4; Saul

2-0-4; Smith 4-0-8; Scoggins 0-1-1.

Tuesday night of this week, the Patriots drove to Lakeview and won that game 92-46, leading all the way, 31-20, 46-28, 64-36 and 92-46.

Statistically, Price 6-0-12; Cox 3-0-6; Silva 2-1-5; Williams 11-7-29; Beavers 3-1-7; C. Martin 2-1-5; K. Martin 0-0-0; Barrett 2-0-4; Saul 7-0-14; Smith 5-0-10.

Sesquicentennial Moment

A year to remember—1986—the year of the Texas Sesquicentennial.

From the beginning of 1986 to the end, articles in your hometown newspaper will remind citizens that the State of Texas this year is celebrating 150 years of independence from Mexico.

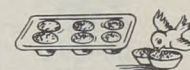

The Texas Wagon Train left Sulphur Springs on January 2, with a total of 100 wagons. The route for the month of January is taking the Wagon Train through Longview, Nacogdoches, Lufkin, Conroe and on to Giddings on January 31.

Other events and activities during this Sesquicentennial year will include the Texas Trail Rides, the renovation and restoration of the 1986 State Fair of Texas, Texas Independence Express and the Texas Air Show to be held in Waco.

Briscoe County was organized March 15, 1892. Before, it was a part of Donley County, originally a part of Jack County.

The first officers of the county were J. N. Stalbird, County Judge; Minor Crawford, Sheriff; T. L. Anderson, County and District Clerk; O. T. Reeves, Tax Assessor; R. J. Hanna, Treasurer; N. J. Waller, County Attorney; J. A. Northcutt, Commissioner, Precinct 1; J. M. Honea, Commissioner, Precinct 2; H. W. Savage, Commissioner, Precinct 3; W. L. Malone, Commissioner, Precinct 4.

T. L. Anderson was County and District Clerk for 24 years nine months and fifteen days. J. E. Daniel was the second Clerk, J. M. Oaks was the third, Frank Gerdes fourth, T. L. Anderson fifth and R. E. Douglas the sixth. He took office January 1, 1927.

Happy New Year for the Birds!

Make a special New Year's cake for your fine feathered friends.

Mix one part peanut butter, two parts birdseed and five parts cornmeal to each part of melted beef suet.

Paper-line your muffin tins and spoon the mixture into them, packing well. Cool in refrigerator. Let harden; remove from tins and freeze until needed.

Enlarging the Future

Someone has said, "Forgiveness does not change the past, but it does enlarge the future." Let's enlarge the future at the beginning of a brand new year by being willing to ask for forgiveness and being willing to forgive others.

Stove grills can be cleaned by soaking them overnight in hot water and two cups of detergent.

Informal Survey Made By Parks and Wildlife Department

Results of an informal survey by the Texas Parks & Wildlife Department to determine the best lakes for certain species of fish did not include any lakes in this region of the state. The reason was because of the number of species of fish named in the survey, smallmouth bass and walleye were not included. Surveys were included.

Regardless of their absence from the survey, smallmouth bass and walleye provide good fishing and good eating for many Panhandle-South Plains anglers. To attempt a rating of the quality of smallmouth and walleye fishing locally, Joe Kraai, TP&W fishery biologist based in Canyon, was contacted.

Kraai said the Panhandle-South Plains region of the state provides good to very good fishing for walleye and very good to excellent smallmouth bass fishing. The best lakes for both species are Greenbelt, five miles north of Clarendon, Meredith and White River.

"Meredith is the best in the state for smallmouth bass," Kraai stated. "It's the best lake by far for the number of smallmouth, not necessarily size." He added that the walleye at Lake Meredith are strong and thriving.

Lake Mackenzie, near Silverton, has experienced an astounding turn-around as a fishing lake according to the fishery biologist. "It is becoming an excellent lake for crappie," Kraai stated. "The crappie at Mackenzie are impressive in individual size and number, and there should be exceptional results this spring. He added that there had been an incredible spawn of large mouth bass" at Mackenzie.

"I'm really pleased with the striped bass growth at Buffalo Springs Lake," Kraai said. "Their numbers and size are looking very good." He noted additional stocking of stripers scheduled for this spring. Although a remnant population of walleye is few in number, no surveys indicate all of the fish are junkers.

Briscoe Unemployment Reported at Three Percent

Briscoe County unemployment for November 1985 was reported to be 3.0%, down from 6.3% in October 1985 and from 6.1% in November 1984.

These figures were released by Ronald McNeese, Area Manager, Texas Employment Commission, Plainview.

The November 1985, October 1985 and November 1984 figures elsewhere were: United States 6.7%, 6.8%, 6.9%; Texas, 6.5%, 7.6%, 5.4%; Castro County 6.3%, 6.8%, 3.7%; Floyd County 5.6%, 9.5%, 4.9%; Hale County 6.4%, 8.3%, 6.0%; Motley County, 2.5%, 3.9%, 2.3%; Swisher County, 5.2%, 10.4%, 3.9%.

The Roman numerals at the base of the pyramid on the back of a dollar bill signify 1776 when the Declaration of Independence was signed.

WTU's Energy Saving Plan...

...Your Framework for Energy Savings.

The Energy Saving Plan

Start building your framework for energy savings by participating in WTU's Energy Saving Plan. Below are just a few of the ways you can save with E.S.P. For additional information about the Energy Saving Plan, call your local WTU office.

Save Money in Bills!

You can save up to twenty-six percent in home energy bills a year with an E.S.P. Home. An average 1800 square foot home will cost approximately \$775 a year to heat and cool. The same size E.S.P. Home will only cost about \$570 a year to heat and cool. That's an annual savings of over \$200! (Energy savings may vary with the type of home, family size and individual energy usage habits.)

Get a Cash Bonus!

WTU will pay you \$110 per ton when you install an electric heat pump in your home. WTU will also pay cash bonuses for heat pump window units, energy-efficient air conditioners, heat recovery units for electric water heaters, and solar-assisted electric water heaters in new or existing single-family homes. To qualify for the bonus program, your home must meet all of the E.S.P. requirements and be served by WTU.

Increase Your Resale Value

If you decide to sell your E.S.P. Home in the future, you can expect a higher resale value because your home IS E.S.P.-qualified. That means lower energy bills to any prospective home buyer.

Determine If Your Children Qualify As "Firemen"

To determine if your children qualify as "firemen," put them through the recommended "fire drills" in this series and then give them the paper-and-pencil test below.

You can read the questions to the test while they mark the answers. Don't accept a score of less than 80. When they pass, they might get a toy fireman's badge, fire truck or other reward, symbolizing their new status and achievement.

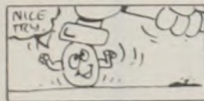

As a further project, the family can visit their local fire department. Available firemen would be glad to show their equipment to visitors. Even then, don't let this be the end. Children need "refresher courses" and much practice to make escape from fire an automatic response.

FIRE QUIZ True or False

1. If you awaken in the night and smell smoke, you should run and open the bedroom door to see where it is coming from.
2. Smoke contains poisonous gases and can kill you if you breathe much of it.
3. When phoning the fire department, say "Our house is on fire!" and hang up quickly.
4. If there is a fire in your house, you should not tell anyone but should go directly to the phone and call the fire department.
5. If there is a grease fire in the oven or skillet, you should throw water on it.
6. In a fire, stairways are usually filled with smoke and heat.
7. If your clothes catch on fire, you should run for help.
8. You should always get out of a burning building even if the fire is small.
9. If a closed door feels warm to your hand, it means that flames and smoke are on the other side and you should not open the door.
10. You should never go in buildings in which there is a fire.

ANSWERS: 1. (F) Never open the door without first placing your hand on the panel or knob to determine if they are warm. 2. (T) 3. (F) State your name and address and wait until the fire department repeats the address back to you before you hang up. 4. (F) Always get everyone out first, and then notify the fire department if you have time to do so safely. 5. (F) Water will splatter the flames. Instead, toss on baking soda or cover the skillet with a lid to smother the fire. 6. (T) 7. (F) Running is the worst thing to do. Roll up in a rug or blanket or roll on the floor. 8. (T) 9. (T) 10. (T).

A fact sheet summarizing this series on teaching children how to survive a fire may be obtained from the county Extension office.

The hardest nut in the world is Brazil's rich lathering Babassu nut, important in soap manufacture.

"Men tire themselves in pursuit of rest."
Laurence Sterne

Texas Farm Picture Faces Slow Turnaround

Texas farmers and ranchers might see their sagging financial status begin to stabilize in the year ahead.

Keys to long-run prosperity on the farm front include a flexible farm policy that can make U. S. crops more price competitive worldwide, a reduced government deficit, lower real interest rates and an aggressive trade policy.

"That's what it will take to turn around agriculture nationwide and in Texas, where the farm economy is at the lowest level since the 1930s," believes Dr. Carl Anderson, economist with the Texas Agricultural Extension Service, The Texas A&M University System.

"Texas farmers facing the hardest times financially are in the intensified agricultural areas of the South and Rolling Plains," Anderson points out. "Yields in these areas have been poor for several years and have combined with low cotton, grain and cattle prices to bring on rural depression. Land prices, especially for irrigated farmland, also have declined some."

Estimates show some 2,625 Texas farmers have been forced out of business during 1985 due to financial reasons, and a third of them have been in this 41-county region, notes the economist. An estimated 1,335 farmers and ranchers left Texas agriculture in 1983 and another 1,725 were forced out last year.

Anderson expects crop prices to remain under intense supply pressure during 1986, so farmers will likely make heavy use of government loan programs just as they did this year.

Since U. S. crop prices are still considerably higher than world prices, the Secretary of Agriculture may be given the authority to lower prices to the world level. If that happens, cash market prices for rice, wheat and cotton will drop even lower and far below the variable cost of production, Anderson points out. Thus, price insurance using commodity options may offer help for some producers.

"Current provisions of the proposed farm bill should offer some financial support to farmers in 1986," contends Anderson. "Target prices likely will be frozen at current levels, and that would ensure large deficiency payments to producers. However, the \$50,000 payment limit, if allowed, will be a possible limiting factor for many Texas producers."

"These large deficiency payments will help most producers through the current period of low market prices, and with an effective export enhancement program, the stage could be set for a return to farm prosperity in a few years," says the economist. "Efforts to reduce the federal deficit will also tend to lower interest rates and boost exports."

As far as livestock producers are concerned, Anderson foresees market prices strengthening some in 1986 as meat production, mainly beef and pork, continues to decline, particularly during the first half of 1986. Increased poultry production should lead to somewhat

lower turkey and broiler prices. Milk production is up and support prices should determine the overall price level.

On the farm credit front, agricultural lenders are working to develop an orderly transition to a sound lending program based on reduced levels of farm income, says Anderson. Farm lenders have returned to a more conservative posture. That means outstanding credit will decline.

"Credit will be available to credit worthy operations, but good records and financial statements are a must," Anderson emphasizes. "The basic factor is for debt to match earnings. Funds earned outside of agriculture and part-time farming will play an increasing role in furnishing capital for agricultural investments."

Fewer Female Veterans Applying For Benefits

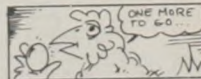

A much smaller percentage of female veterans are applying for Veterans Administration benefits than their male counterparts.

According to Billye Kesler, Veterans Service Officer for Briscoe County, women veterans are entitled to the same rights, privileges, and benefits as men veterans who served during the same period in the Armed Forces of the United States.

A woman is a veteran for all benefit purposes if she served on active duty with any of the Armed Forces of the United States and if she was discharged or released under conditions other than dishonorable. A woman's service counts toward eligibility for benefits if she served in the Army, Navy, Air Force, Marine Corps or Coast Guard. She is also a veteran if she was a member of the Women's Army Auxiliary Corps (WAAC) in 1942-43; if she was a member of the Women's Airforce Service Pilots (WASPS) in World War II; if she was a telephone operator, clerk, dietitian or reconstruction aide with the U. S. Army in Europe during World War I.

As a veteran, a woman may be entitled to a wide range of Federal and State benefits, such as:

1. Disability compensation or pension
2. Admission to a VA Hospital for medical care
3. GI home loan
4. Veterans preference in Federal employment
5. Texas State Veterans Land Program and Housing Assistance Program.

In the 1930s, the average American hen laid 121 eggs per year. Today's hen lays 217.

"There may be more beautiful times: but this one is ours." Jean-Paul Sartre

Cattle Prices Due To Improve in 1986

"Guarded optimism" might be the watchword for cattlemen as 1986 begins.

Cattle numbers should continue at a low level in 1986 and that should help bring some strength back to market prices, says a Texas Agricultural Extension Service economist. However, cattlemen must deal with a number of factors that will have a direct bearing on market prices in the year ahead, a major one being the declining demand for beef.

Dr. Ernie Davis outlines five factors that he feels will have the most effect on cattle prices in 1986:

1. Poultry supplies and prices. Expansion of the poultry industry probably has had the greatest impact on beef demand. Davis expects per capita poultry consumption (75 pounds) to surpass per capita beef consumption for the first time in 1986. In addition to the growth of the poultry industry, broiler prices relative to beef prices have changed dramatically since the 1950s. In 1950 retail beef prices were only 15 cents per pound higher than retail poultry prices. Currently, beef prices are \$1.50 to \$2.00 per pound higher than poultry prices, and this has caused a lot of consumers to switch from beef to poultry. At the same time, beef production and marketing costs have far outpaced these same costs for the poultry industry.

2. Cheap grain. In 1985 cheap grain impacted the beef market more than any other factor. Feeders were expecting fed cattle prices to improve so they kept feeding them cheap grain. This produced carcasses that were too heavy and wasty and led to price discounts of up to \$18 per hundredweight.

3. Overfinished cattle. If feeders continue to pump cheap grain into cattle in 1986 at levels that will produce overfinished carcasses, the same price discounts will continue.

4. The retail marketing margin. Retail marketing margins reached record levels in 1985 while retail beef prices remained relatively stable. These stable prices were actually a problem because they did not decline as prices to producers fell. Thus the retail marketing margin increased to \$1.09 per retail pound.

5. Beef supplies. Although cattle numbers will be down in 1986, beef supplies could increase if cattle feeders continue to feed cattle to heavier weights. Also, if the liquidation phase of the cattle cycle continues, more and more cows and heifers will be moving to market.

So what does 1986 hold as far as cattle prices are concerned? "Fed cattle prices for the fourth quarter of 1985 should average \$61 to \$63 per hundredweight. For the first quarter of 1986 fed cattle prices should average \$2.00 to \$3.00 higher. The second quarter should see fed cattle prices continuing to inch up. However, I do not expect fed cattle prices to reach the \$70 level by mid-year despite cheap grain prices," says Davis.

As far as feeder prices are concerned, the economist forecasts 600 to 700-pound feeder steers to average \$63 to \$67 per

hundredweight for the last quarter of 1985. During the first quarter of 1986 those prices should average \$67 to \$70, with the second quarter bringing about a \$1.00 increase.

Weaner calves, or 400 to 500-pound steers, should average \$75 to \$78 per hundredweight during the last quarter of this year. Prices should improve to \$77 to \$80 during the first quarter of 1986 and to \$80 to \$84 during the second quarter.

"Although cattle prices might move even higher in 1986, I don't think this will happen due to the factors I have outlined," Davis says.

Reminder to VA Pensioners

Certain recipients of Veterans Administration benefits must submit Eligibility Verification Reports (EVR) by January 1, 1986, to avoid interruption or suspension of their benefits, according to the Waco Regional Office. Completion of the form is required by law.

Approximately 32,500 veterans, surviving spouses, and children under the pension program in effect before 1979 and parents who get Dependency and Indemnity Compensation (DIC) benefits in Texas were sent an EVR on October 1 in the first phase of a change in VA's income reporting procedures. "To date, 7,500 recipients have not submitted the required verification," said Dr. Stephen L. Lemons, Director of the Waco VA Office.

The EVR replaces the old Annual Income Questionnaire which used to go to all VA pensioners at the same time. The VA is now cycling income reports throughout the year.

Beginning December 1, and running through September 1, 1986, EVRs will be mailed to the nearly 700,000 recipients of VA "improved" pensions nationwide at the rate of 70,000 a month.

In all cases, the VA encourages an early return of the form to avoid last minute processing bottlenecks.

CREDIT COUNSELING CAN HELP WITH DEBT PROBLEM

Effective year-round management of spending and credit use can keep consumers from being overloaded with debt. Yet some people find themselves in financial trouble from uncontrolled credit spending over the holidays.

If you're facing a financial crisis from credit spending, there are services which can help you work out a plan for getting out of debt, says family economics expert Dr. Marjorie Smith. As part of these services, a counselor studies your financial situation and makes suggestions for more effective money management, explains the Texas A&M University Agricultural Extension Service home economist.

For example, the Consumer Credit Counseling Service is a non-profit agency which does not charge clients for their services, notes Dr. Smith. They have offices in some Texas cities and suburbs which can be located by looking in the phone book.

Jamie Cox shoots for Tournament.

PUBLIC NOTICE

General Telephone Company of Southwest, in accordance with Rules of the Public Utility Commission of Texas, hereby gives notice that Private Pay Telephone Service has been filed with the Public Utility Commission of Texas.

Under the proposed tariff, Private Telephone Service would be offered for use with a privately-owned coin-operated telephone, at the request of the customer. The service is scheduled to become effective on March 16, 1986, or upon approval by the Public Utility Commission of Texas.

The matter has been assigned Docket No. 6309.

Persons who wish to intervene otherwise participate in the proceedings should notify the Commission as soon as possible. Request to intervene, participate, or for further information, should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757.

Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 for the deaf.

hundredweight for the last quarter of 1985. During the first quarter of 1986 those prices should average \$67 to \$70, with the second quarter bringing about a \$1.00 increase.

Weaner calves, or 400 to 500-pound steers, should average \$75 to \$78 per hundredweight during the last quarter of this year. Prices should improve to \$77 to \$80 during the first quarter of 1986 and to \$80 to \$84 during the second quarter.

"Although cattle prices might move even higher in 1986, I don't think this will happen due to the factors I have outlined," Davis says.

Reminder to VA Pensioners

Certain recipients of Veterans Administration benefits must submit Eligibility Verification Reports (EVR) by January 1, 1986, to avoid interruption or suspension of their benefits, according to the Waco Regional Office. Completion of the form is required by law.

Approximately 32,500 veterans, surviving spouses, and children under the pension program in effect before 1979 and parents who get Dependency and Indemnity Compensation (DIC) benefits in Texas were sent an EVR on October 1 in the first phase of a change in VA's income reporting procedures. "To date, 7,500 recipients have not submitted the required verification," said Dr. Stephen L. Lemons, Director of the Waco VA Office.

The EVR replaces the old Annual Income Questionnaire which used to go to all VA pensioners at the same time. The VA is now cycling income reports throughout the year.

Beginning December 1, and running through September 1, 1986, EVRs will be mailed to the nearly 700,000 recipients of VA "improved" pensions nationwide at the rate of 70,000 a month.

In all cases, the VA encourages an early return of the form to avoid last minute processing bottlenecks.

CREDIT COUNSELING CAN HELP WITH DEBT PROBLEM

Effective year-round management of spending and credit use can keep consumers from being overloaded with debt. Yet some people find themselves in financial trouble from uncontrolled credit spending over the holidays.

If you're facing a financial crisis from credit spending, there are services which can help you work out a plan for getting out of debt, says family economics expert Dr. Marjorie Smith. As part of these services, a counselor studies your financial situation and makes suggestions for more effective money management, explains the Texas A&M University Agricultural Extension Service home economist.

For example, the Consumer Credit Counseling Service is a non-profit agency which does not charge clients for their services, notes Dr. Smith. They have offices in some Texas cities and suburbs which can be located by looking in the phone book.

PUBLIC NOTICE

General Telephone Company of the Southwest, in accordance with the Rules of the Public Utility Commission of Texas, hereby gives notice that a Private Pay Telephone Service Tariff has been filed with the Public Utility Commission of Texas.

Under the proposed tariff, Private Pay Telephone Service would be offered for use with a privately-owned coin or credit-card operated telephone, at the request of the customer. The new service is scheduled to become effective on March 16, 1986, or upon approval by the Public Utility Commission of Texas.

The matter has been assigned to Docket No. 6309.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information, should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757.

Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

General Telephone

misbehavior and the punishment which may be applied in each case of infraction. The infractions as described are clear and concise and leave no doubt about what is expected in the area of student conduct.

The plan also calls for parent-teacher conferences during the school year for parents of students who have become a discipline problem. Additionally, the plan expects closer relationship between the parent and school by requiring the school district to conduct voluntary parent training workshops to provide parents with skills to assist student home study. Each parent will be asked to review the disciplinary plan sometime early next school year.

The punishment phase described in the plan for serious or continued misbehavior is very specific. The major goal, however, is not centered upon punishment but rather upon eliminating disruptions. A major function of the school will be to make efforts to provide for the continuing education of students even though they have been removed from the normal educational classroom. If serious disruptions occur the student may be placed in an alternative educational environment such as in-school suspension, reassignment of classes, or home-based instruction. In such occurrences, the student will continue to receive credits earned. More serious infractions may call for expulsion from school and forfeiture of all credits in progress.

A more detailed description of the various articles of the discipline plan will follow in future Superintendent's Corners.

The Superintendent's Corner

by Wilburn Leeper

One of the far-reaching effects of House Bill 72 requires that each school district in Texas develop, adapt, and implement a discipline management program. The program, represented by a discipline management plan, has been adopted by the Board of Trustees of the Turkey-Quitauque ISD and will be implemented next school year. The plan has been submitted to the Texas Education Agency for final approval.

Although there were several attempts during the last legislative session to smooth out the rough edges prescribed in HB 72, all efforts failed. The most accurate explanation is probably that HB 72 had been around for less than a year, and many legislators were simply unwilling to mess with it. The State Board of Education, however, has since made some corrections through its rule-making process and the provisions are much more manageable.

The discipline management plan, as adopted by the Turkey-Quitauque ISD, is a statement of school policy which pertains to school life and the general discipline within the school. Included within the plan is a detailed description of the rights and responsibilities of students, parents, teachers and administrators.

A student code of conduct has been developed and represents an essential part of the plan. The code of conduct includes rules related to student conduct and specifies the consequences of violating the rules. In the plan, the school explains what it considers to be serious or minor

and friends.

Tuesday of last week, Preston and Joyce Taylor of Canyon spent the day visiting Mr. and Mrs. Dick Taylor in Quitauque. Mrs. Eula Merrell of Clarendon joined them here and spent the day, also.

Mr. and Mrs. Dick Taylor drove to Lockney Tuesday of this week to visit her mother, Mrs. J. T. Bradley. They were met there by Mrs. Leslie Beard of San Angelo and Mrs. Reatha Moss of Anson for a visit. This is the first time Mrs. Taylor had been out of the house, except for going to the doctor for a checkup, since she broke her leg in September.

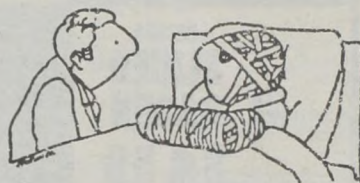

Ancient New Year's

New Year's Day was celebrated by various customs even in the earliest of the ancient nations. The Roman, Jewish, Chinese, Egyptian and Mohammedan years each began at different times.

Thousands of years ago the Egyptians decided to start their new year around the middle of June when the Nile River usually overflowed its banks. Each nation had an interesting reason for beginning the year at the time they did, but the first day of those years was filled with elaborate ceremonies.

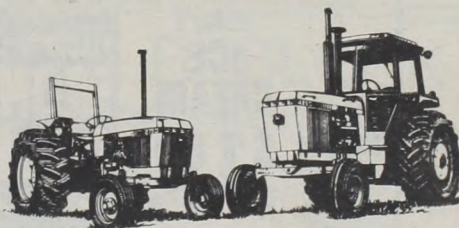

The first parking meter appeared in Oklahoma City on July 15, 1935.

Anti-Litter Program To Be Enforced On Texas Rights-of-Way

Better think twice next time you start to trash the highways. The eyes of Texas are upon you.

And it just might mean a fat fine as Texas law enforcement officers focus keen attention on litterers under a new highway department program.

The new antilitter enforcement program invites municipalities to enter into year-long contracts whereby they are reimbursed for issuing citations to persons who dump trash on state highway rights-of-way. The amounts awarded for contracts are based on populations, and will be approved on a first-come, first-served basis until the \$1 million set aside for the program is depleted.

The enforcement effort is part of the department's \$4 million antilitter "Don't Mess With Texas" campaign that was launched last fall to reduce litter along Texas highways by 20 percent. Litter cleanup cost taxpayers \$24 million in 1985.

The antilitter enforcement program will reimburse a city \$20 per citation. "We have to get tough with these litterers, and that's exactly what we're going to do through this program," said Craig Steffens, head of the department's landscape section.

"There is nothing more effective than to have a police officer stop you and give you a ticket," said Steffens. "We especially want to ticket persons who create illegal dump sites by the side of the highway."

The program is intended to provide an incentive to increase enforcement of existing litter laws. During the first six months of 1985, 237 citations for litter violations were issued statewide.

The department will provide reimbursement for the ticket, not for the conviction. The maximum penalty for littering has been raised to \$400.

"Our goal is to reduce the overall litter in the state, but we know from research and past experiences that you don't reduce it by picking it up. You reduce it through public awareness," said Steffens.

In addition to the \$1 million enforcement program, the campaign includes a \$2 million public education and media program, a \$300,000 subsidy for the statewide Keep Texas Beautiful, Inc. organization, and \$700,000 in landscaping projects for winners of the annual Governor's Community Achievement Awards for Clean Communities.

Keep Texas Beautiful, Inc. will be contacting cities and furnishing contract documents to solicit participation. City officials interested in the program may contact Keep Texas Beautiful, Inc. at (512) 478-8813 or they can call their local highway district office.

Reimbursement for litter citations will be made quarterly. The population of a city will determine the total amount of the contract.

For more information, contact Craig Steffens or Melody Hughes, 512-465-6301, Safety and Maintenance Operations.

The Turkey Enterprise

January 17, 1946—Miss Fern Robison and I. D. Mullin, jr., were married January 15 at 7:30 in the home of Mr. and Mrs. Jesse Browning with Buster Mullin of Quitaque officiating. They were attended by Mrs. Alpha Lee, sister of the bridegroom, as bridesmaid and Tommy Richmond as best man . . . Funeral services for Jordan B. Ellis, who died suddenly at his home in Brownwood at 7:15 p.m. last Thursday were held at 3:00 p.m. Sunday at the London and Burton Funeral Chapel. Rev. Frank O'Hearn officiated. Surviving are his wife, three daughters, and four sons. Mrs. M. T. Blume went to Brownwood to attend her father's funeral . . . Harold Thraasher, machinist's mate third class, USNR, is one of 1029 highpoint Navy veterans whom the Navy is returning to the States for discharge. He is aboard the USS Okanogan which left Okinawa December 22 and was scheduled to arrive in San Francisco about January 8 . . . A seven pound son was born January 15 at 2:15 a.m. to Mr. and Mrs. Josh Smith of Turkey . . . Mr. and Mrs. Cecil Stewart of Cleburne visited Mr. and Mrs. Bert Degan over the weekend . . . The last snow, part of which remains on the ground, measured eight or nine inches deep on the level, and was very wet . . .

THE JACK HOLCOMB FAMILY HAS NARROW ESCAPE. The family were all overcome with gas fumes, except Jack who

was in Dallas on business. A heater was left burning low, so the daughter, who had gone with the basketball team to Matador, would not be cold. She did not turn it out and it was turned so low that all the gas was not burning. The family had a very narrow escape, and were treated by Dr. Garner. . .

Alzheimers Disease Can Be Helped In Some Cases

Mrs. Allen Matthews brought in some articles from a Colorado Springs newspaper recently concerning a new project for persons with Alzheimers Disease. Her brother, Guy Moon, lives in Colorado Springs and has been going to a Day Care program, called The Well. It takes its name from the role the well played in biblical times—a place to be cleansed, refreshed and to socialize.

Symbolically, The Well plays the same role today, not only for those with the neurological disorder characterized by memory loss, but also for their caregivers, program organizers say. The Well operates from 9:00 a.m. to 3:00 p.m. Tuesdays and Thursdays in a building near Penrose Hospital. Cost is \$15 per day. Program director Marlene Beam, a registered psychiatric nurse, said in the two years since she helped start the program, the group has grown from four to eight people.

There are one or two other staff workers who stay the full five hours and chaplains and

entertainers come and go. One thing used is to discuss some events found in the day's newspaper.

The Well has been a boon for many who have the entire care of a loved one, as this gives them a few free hours in the week. This is great besides being a help to the persons with Alzheimers.

Mrs. Matthews said that at their Christmas party at The Well, someone gave them a check for \$3,000 for further research, which was gladly accepted.

CHECK SMOKE DETECTOR

Smoke detectors are an inexpensive and reliable way to protect your family and home from fire. But without proper maintenance, you can't rely on a smoke detector to do its job, says Texas A&M University Agricultural Extension Service housing specialist Dr. Peggy Owens.

To test the detector, hold a lit candle six inches under the unit, she says. Let the flame burn if you have an ionization detector. If you have a photo-electric unit, extinguish the candle and let visible smoke drift into the detector. Most photo-electric models have a test button that simulates smoke in the detector which can be used in place of the candle test. In either case, the unit's alarm should begin to sound within 20 seconds.

Counting Conveniences

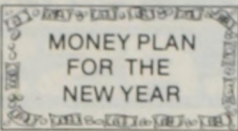

Did you go to bed last night with the snow sifting in through the cracks in your bedroom? Were your feet so cold that you had wrapped fruit jars filled with hot water to keep them warm?

Did you awake at night dreading to go down to the outhouse and feel the cold winter wind flinging stinging snow?

What a life! Most of us are so rich we don't even realize it—rich in conveniences, rich in our freedoms.

The crocodile bird feeds itself by picking parasites from the teeth and skin of the crocodile.

Now that the chaos of Christmas is behind, it's a good time to get organized for the new year. One New Year's resolution that shouldn't be hard to keep is to set up a workable family financial plan for the whole new year.

A sound family plan geared for the next 12 months helps the family to take a realistic look at current and pending obligations in comparison to the total yearly income. Also, you will be able to save for bigger expenditures such as insurance premiums.

This can't be a one-man job—

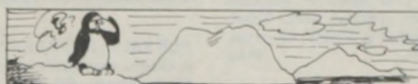

since each member shares in the "spending" each should be included in the understanding of how it's spent and how they'd like it to be spent.

Set up a certain place for bank statements, bills, etc. to be placed. Add up last year's bills and divide by 12 which will be the amount to save each month to meet those expenses.

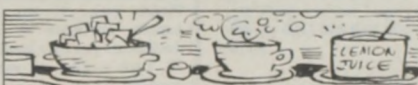

You may wish to consult your Yellow Pages for Credit Counseling.

Happy, prosperous New Year!
