## A TRIP TO MEXICO-

 ContinuationWe hired a guide here who spoke
English so we enjoyed this town of Mexico. There are 180 silver shops here. The mines were opened by an American named Spraternment number 925 somewhere on it no matter how small the object is. Our guide, Ramon, took us
to two of these shops. All of the
silver is so pretty yon biver turn lose some of your pesos

were served free cold soft drinks. Also Ramon drove our car up the hill to the hotel and he wanted to
trade us two burros for it. trade us two burros
Taxco is built on top of the
mines. There is one level spot in mines. There is one level spot in soccer games. The architecture
here is so quaint that the government has made the town a nation-
al monument. To preserve the harmony, anyone who builds a new
house must do so in the same Spanish colonial style as the other
buildings. bulldings. The town officials are

When the big wheel turns clockwise, the little wheel turns counterclockwise at a greater rate f speed. Thus man controls energy in the physical universe, determining, according to his own will, its direction and effect.

There is a spiritual universe, too. A world in which God, who gave us freedom of will, provides the
GOOD.

We realize with trembling in this nuclear age that the physical and spiritual universe are not two-but ONE. We cannot live in the one and forget the other. For the world we know will perish unless man's spiritual vision governs his use of the energy he controls.

Wise and reverent minds have always known this. That is why we have CHURCHES why we share their Life and Work with one another.

## VALLEY HIGH SCHOOL

#### Abstract

The communities of Turkey and Quitaque feel that they have taken a step forward in preparing for the future of the young people of this area. We know that in pooling our resources we can offer you more opportunities for your education and preparing you to face life inthis exciting age in which we live. Times are changing fast, we know that we must do our best to help our young people prepare themselves for our advancing culture. We pledge that we are going to work together in making this new venture work for the benefit of our young people, and doing this, we will also be doing ourselves a great service. The merchants of the two communities join in wishing much success in all phases of education and character building for our brand-new Valley High School.
