CHRISTMAS BAZAAR, LUNCHEON ARE WELL ATTENDED

The Turkey Sesquicentennial Christmas Bazaar was held Saturday, November 16. The luncheon and bazaar were a great success.

Mrs. James Fuston was the winner of the quilt and Mrs. J. W. Lacy won the doll. With the proceeds from Saturday combined with the money already raised, we are almost to the halfway mark on the cemetery fence fund. Thank you to those who contributed food, work, craft items or donations and to those who attended.

Nadine Rice and friend, Jerry Cargill, of West Texas State University spent the weekend in Quitaque in the home of Mr. and Mrs. Jarrell Rice and Walt.

Early Christmas Dinner Served In Turkey Saturday

Christmas came a little early in Turkey Saturday, November 16. The Bob Wills Cafeteria was beautifully decorated for Christmas, providing the setting for quite a successful Christmas dinner.

The success was a result of the enthusiastic support of the community. Almost everyone who was contacted to prepare a dish for the luncheon did so willingly and gladly. Even those who were unable to attend and were out of town for the day, prepared their dishes and saw that they were delivered to the cafeteria.

Approximately 150 people were served a delicious meal of smoked brisket, fried chicken, vegetables, an assortment of vegetable salads, a varied selection of fruit salads, a choice of pies, cakes and cobblers, and coffee or tea to drink. Price for the meal was \$3.50 for adults and \$2.00 for children. One diner remarked, "I don't know when I've had a meal like that for that price."

There were a number of out-of-town guests and all seemed to enjoy the delicious food and the visiting.

Profits from the luncheon are to be donated to the Cemetery Fence Fund. A special thanks goes to Mrs. Rita Guest, who was the chairperson for the Christmas dinner.

Some of the people from out of town noticed at the Christmas dinner last Saturday included Mr. and Mrs. Larry Price, parents of Mrs. Brian Wheeler, from Earth; Mrs. Mary McCoy, a friend of Mrs. Mabel Christian; Mrs. Dot Arnold of Tulia, and Karen Denton and sons, Roger and Lance, of Amarillo.

The Superintendent's Corner
 by Wilburn Leeper

The October student dance accounting period is and Valley School can report an excellent figure. Despite the fact that this year's student enrollment is less than last year, the daily average is almost the same. According to the report, the average daily attendance is over 315, compared to 311 last year. Last year membership was 334 while the most recent year is somewhat less than 300. This is possible because an outstanding 97.8 percent of Valley students were in school every day compared to 97.5 percent last year.

Every student enrolled in grades K-8 received a special T-shirt if they were in school every day during the accounting period. When tallies were complete, 181 students, or about 80 percent of 230 grade school children, awarded T-shirts. The graders completed the October accounting period with the overall percent of 99.5, followed by the second grade with 98.7 percent, third grade 98.7 percent, and 12th and 10th grades with 98.8 and 97.8 percent respectively. It is very unusual for elementary grades to receive better attendance than high school students but this year four highest grades with attendance were in the elementary school.

The directors of Green Cotton Producers, Inc. decided that the corporation served its final purpose and liquidated its assets. According to the by-laws of the corporation, the remaining money would be distributed among the school districts within the boundaries of the corporation. The action of the directors became a win to Valley School because it presented a check by Donnie Brunson in the amount of \$3,437. According to information received from Mr. Brunson, there was \$27,752 available for distribution among seven school districts. Each school share was based upon money collected by cotton gins in the school district and was distributed among the schools in the same proportion as collected were received.

The Valley School Board fully accepted its design share and determined that the money should be used to fund the School Vocational Program by contributing the money to the newly-created Ag Farm Funds furnished to the Ag Fund will be used by Agriculture Teacher Jon Davidson to provide facilities for student projects.

Valley School would like to extend its thanks to Donnie Brunson, members of the extension, and other directors of Greenbelt Cotton Producers for their contribution. It will be well.

The Robert Johnson-Smith Memorial Fund continues to grow and is supporting a number of Valley students in cultural and agricultural projects. Through this fund, students enrolled in agriculture at Valley School have a source there

The October student attendance accounting period is over and Valley School can report an excellent figure. Despite the fact that this year's student enrollment is less than last year, the daily average is almost the same. According to the report, the average daily attendance is just over 315, compared to 316 last year. Last year membership was 334 while the most recent figure this year is somewhat less at 321 students. This is possible because an outstanding 97.8 percent of Valley students was in school every day compared to 96 percent last year.

Every student enrolled in grades K-8 received a special T-shirt if they were in attendance every day during the accounting period. When final tallies were complete, 181 students, or about 80 percent of the 230 grade school children, were awarded T-shirts. The sixth graders completed the October accounting period with the best overall percent of 99.5, followed by the second grade with 99 percent, third grade 98.7 percent, and 12th and 10th grades with 98.8 and 97.8 percent respectively. It is very unusual for elementary grades to record better attendance than high school students but this year the four highest grades with good attendance were in the elementary school.

The directors of Greenbelt Cotton Producers, Inc. have decided that the corporation has served its final purpose and has liquidated its assets. According to the by-laws of the corporation, following payment of expenses, the remaining money would be distributed among the school districts within the boundaries of the corporation. The action by the directors became a windfall to Valley School because it was presented a check by director Donnie Brunson in the amount of \$3,437. According to information received from Mr. Brunson, there was \$27,752 available to be distributed among seventeen school districts. Each school's share was based upon money collected by cotton gins in each school district and was distributed among the schools in the same proportion as collections were received.

The Valley School Board gratefully accepted its designated share and determined that the money should be used to further the School Vocational Program by contributing the money to a newly-created Ag Farm Fund. Funds furnished to the Ag Farm Fund will be used by Agriculture Teacher Jon Davidson to improve facilities for student animal projects.

Valley School would like to extend its thanks to Donnie Brunson, members of the corporation, and other directors of Greenbelt Cotton Producers for the contribution. It will be used well.

The Robert Johnson-Shane Smith Memorial Fund continues to grow and is supporting a number of Valley student agricultural animal projects. Through this fund, students enrolled in agriculture at Valley School have a source through

which loans can be made to purchase animals and feed. The loans are repaid when the animals are sold.

We have just received notification of the election results for Hall County Appraisal District board of directors. Five members were elected to the board by votes cast by the nine taxing entities, of which the City of Turkey and Turkey-Quitauque ISD, are a part. Each entity was allowed votes based upon the tax levy for 1984. The school district was entitled to 755 votes of a possible 5000 votes within the county and the City of Turkey received 105 votes.

Mr. U. F. Coker, a nominee of the school district, the City of Turkey and of Hall County, received 1223 votes. Lynn Bryant of Memphis received 1000 votes, Bobby Barbee of Lakeview, 854 votes, Hulen Clifton of Estelline 843, and Jack Montgomery of Memphis received 610 votes. The remaining 1570 votes were distributed among other candidates.

HOLIDAY WILL END IN TRAGEDY FOR SOME TEXAS DRIVERS

Major V. J. Cawthon, Regional Commander of the Texas Department of Public Safety said, "With Thanksgiving approaching, many families are thinking about the traditional family reunion with turkey dinner and all the trimmings, but for many, this occasion will end in tragedy because of a traffic accident."

Statistics indicate at least 50% of these accidents will be attributable to the drunk driver. One or two beers may not make a person drunk; but consuming any amount of alcohol will increase that person's odds of having an accident. Add a little speed with these drinks and the results are tragic.

"Almost 98% of all people killed in traffic accidents were not wearing seat belts. Approximately 25% of the deaths and 80% of all injuries could have been prevented if people would just use their seat belts," Major Cawthon stated.

Major Cawthon concluded by saying, "If the motoring public would use seat belts, child restraints, reduce their speed and not drink and drive, this would go a long way toward keeping this Thanksgiving a pleasant one."

Mrs. Donn Calaway

Martin, Calaway exchange vows October 5

Miss Gwyneth Carol Martin and Mr. Donn Charles Calaway were united in marriage Saturday, October 5, in the Sardis United Methodist Church in Dallas County.

The bride's parents are Freddie and Carol Martin of Camden. The groom's parents are Charles and Mildred Calaway, also of Camden.

The bride's grandfather, James F. Stanley II of Mesa, Arizona officiated as the bride was given in marriage by her father. The double-ring ceremony was performed by the bride's father. The music was by David and Pam Platt of Camden.

The country wedding was a setting of beauty and serenity. Framed within the natural archway of this church established in 1858, the couple exchanged their wedding vows.

The bride's gown, in keeping with the simplicity of the surroundings, was of white satinique, softly flared from the fitted bodice and waist, flowing into a wide train. The hem was encircled with one row of lace. The bodice had a tucked cummerbund and the yoke of embroidered lace had a pearled neckline. The sleeves were puffed with wide tiered cuffs and covered buttons.

Her pearl-edged, two layered veil fell from a pearl trimmed flat tierra-type cap and she carried a dozen pink long-stemmed roses.

Miss Melissa Jean Martin, the bride's sister, attended as the maid of honor while Miss Diane Baker of Dallas served as bridesmaid.

M. R. Graham of Sparkman, the groom's grandfather, attended as the best man. Dwayne Breaux of Ruston, Louisiana served as groomsman.

A reception was held following the ceremony. Mrs. Kelly Osborne and Mrs. Gigi Bird served

the old-fashioned five-tiered wedding cake which was decorated with live flowers and string ribbon. Pink punch, finger sandwiches, nuts and candies were also served.

The newly-married couple drank their punch from special long-stemmed pink crystal goblets purchased for this special occasion.

Mr. and Mrs. Donn Calaway will be making their home in Little Rock, where the groom is employed by Cromwell, Truemper, Levy, Parker & Woodsmall Architect Engineers.

Mrs. Bud Bailey, Mrs. John King and Mrs. James Barefield visited Mrs. T. J. Reeves in Plainview on Wednesday of last week.

Mrs. Una Lee Barrett and

Nuevo Study Club Met In Meacham Home Thursday

The Nuevo Study Club met with Mrs. Paul Meacham Thursday, November 14, at 4:00 p.m. It was voted to begin meeting at 3:00 p.m. from now on. The club met at a later hour for a long time because several members were teachers, but that is no longer the case.

Mrs. Paul Robertson presided over the meeting. Names were drawn of all Turkey residents who are living in nursing homes, so that a gift could be given to them for Christmas. They will be brought to the next meeting.

Mrs. Willis Walker gave an interesting program on an essay written by her niece, Jeanette Miller of Vega. The title was "A Love Story—A 105-year-old Tascosa Mystery." It was a true story about the life of Frenchy McCormick, a blue-eyed black-haired Irish girl who was born in 1852. She lived at Mobeetie, Fort Elliott and Tascosa, and in later life, just before her death, at Channing. She never told anyone who she really was, and vowed "No one will ever find out who I am."

The essay went on to tell of the great love between Frenchy and her husband, a cowboy and land owner, Mr. McCormick, at the town of Old Tascosa. He died in 1912 but she lived until July 12, 1941.

The hostess served a delicious refreshment plate to Mmes. Nadine Baisden, George Setliff, R. C. Green, Bert Degan, Gordon Bain, Roy Patterson, Robertson and Walker.

The club adjourned to meet on December 12 in the Fellowship Hall of the United Methodist Church at 3:00 p.m. with Mrs. Patterson as hostess and program leader, assisted by Mrs. Robertson.

Judy were in Plainview Thursday afternoon on business.

Mr. and Mrs. Johnny Hatfield and children, Kristen and Somer, of Amarillo drove to Childress Friday night to attend the Valley-Munday football game. The Hatfields met Danny and Judy Barrett there and they returned to Quitaque with them to spend the rest of the weekend.

CAPROCK SOIL & WATER CONSERVATION DISTRICT ANNUAL REPORT - 1985

CONSERVATION TILLAGE — More Briscoe County farmers are working with minimum tillage and residue management practices such as overseeding cotton with rye, crop rotation to include high residue crops, and windstrips for wind erosion protection. They are learning every day that conservation pays.

PUMPING PLANT EVALUATION — As fast as the irrigation water is diminishing, so goes the cost of pumping the water. Efficiency becomes even more critical. The SCS is equipped to assist any individual in evaluating his irrigation system. This service is free to any individual wanting a pumping plant evaluation.

WINDBREAK TREES—Last year the Caprock SWCD sold trees to be used in windbreak planting to 65 individuals for a total 3640 trees. Also 29 Drip Irrigation Systems were installed in Briscoe County.

TERRACES—During the past year, 197,148 feet of terraces were installed in Briscoe County. Terraces hold water on the land, helping control water erosion. Increased crop production is a major benefit for farmers who install terraces.

CONSERVATION EDUCATION — Conservation understanding is something which needs to be started at an early age, so that future decision-makers, farmers and ranchers will help preserve the productivity of our earth's soils. A conservation awards banquet was held with 200 in attendance to watch children receive awards for the Caprock SWCD-sponsored Conservation Poster Contest.
