## Callahan Co. Water Supply Corp. Needs Your Help

COUNTY-The directors of the Callahan County Water Supply Corp. met Monday night at the Clyde Dairy Queen for their monthly meeting.

The one most important thing that was discussed was your participation in the program. Please, if you are interested in filtered water in your home, contact one of the directors and they will come to your home and sign you up.

What will it cost? \$200.00 will make you a member of the corporation and pay for your water meter, when the water is available. The \$200.00 is your investment in the future.

What does filtered water do for you? Remember when you were out of water? Do you haul your wash to town because your tank water is too dirty to use? When you take a bath, do you feel even grimmer after, than you were before? How much would a well cost to drill if water could be found? How much have you spent in the past few years, hauling water, washing in town, drilling dry holes

looking for water, hauling drinking water from town?

The Callahan County Water Supply Corp. cannot guarantee that we will supply you water. However, we can guarantee that you will not, unless you help now!

The Directors have set the meter cost at \$200.00 until May 19, 1979. After that date, the cost will likely be higher.

Please contact one of the directors in your area and get aboard the water wagon now! Remember you are the only one that can make this thing go.

For your convenience, here are some names and phone numbers of people to contact:

Tex Cloud 854-1533; C.W. VanDerLinden 854-1891; Mrs. Lee Brown 854-1227; Ben Dane 692-8215; Terry Touchstone 677-5800 673-7112; Bill Varner 677-8643 672-5658; Jimmy Cauthen 854-1472; Ronnie Welch 893-5724; Harold Jones 692-5957; Tommy Adams 677-6322.

## Albany CofC Banquet March 9

ALBANY — The Albany Chamber of Commerce will hold it's Annual Banquet on Friday, March 9, at 7:30 p.m. in the cafeteria of the Nancy Smith Elementary School.

A.V. Jones, Jr., local oil man, will be the speaker. Mr. Jones is currently on the Management Committee of the American Petroleum Institute and is a member of the National Petroleum Council.

A Fandangle Sampler will be the entertainment.

Tickets for the banquet are \$5.00. Reservations may be called into the Chamber office, 915/762-2525.

Johnny L. Heatly is President of the Albany Chamber; Clifton Steddum and Dwain Wade serve as Vice-presidents. John Bray Jr. is Secretary-Treasurer.

## Fertilization Very Important

COUNTY-Fertilization is often overlooked as a means of increasing profits from small grains, says Greg Gerngross, County Extension Agent. Research has shown repeatedly that small grains which have been adequately fertilized will recover more rapidly from stress; yield more grain and forage per inch of water used; and produce a crop with improved quality. Small grains utilized for forage naturally require considerably more fertilizer, especially nitrogen, is removed in the grazed leaves. Thus, topdressing with additional nitrogen is essential during the growing season in order to maintain high levels of forage production.

A decision as to whether or not to topdress with nitrogen should be based on the nutrient status of a

particular soil, the present condition of the crop, available moisture, and whether the crop will be grown for grain or grazed out. Topdressing from 30 to 60 pounds of actual nitrogen per acre should be considered if recommendations based on soil test are not available. Higher rates ranging from 40 to 80 pounds of actual nitrogen per acre should be considered if the crop is to be grazed out and adequate moisture is available. Additional nitrogen may be particularly beneficial if small grains were not fertilized at or since planting and stands have sustained heavy grazing. Thus, if moisture is available and growing conditions improve, topdressing with additional nitrogen should pay dividends in terms of increased forage and grain production.

## CJC Nursing Program Set

CISCO-Cisco Junior College is now taking applications for their Vocational Nursing Program, according to Mrs. Veneta Mitchell, nursing instructor.

The twelve-month program offers both classroom and clinical instruction. The Cisco program is affiliated with Eastland Memorial and E.L. Graham Memorial Hospital.

Cisco Jr. College has three nursing programs, located in Cisco, Abilene, and Graham. The program is accredited by the Board of Vocational Nurse Examiners and approved by the Texas Education Agency.

Satisfactory completion of the program entitles the student to a certificate

from the college qualifying the graduate to take the examination given by the State Board of Vocational Nurse Examiners. Passing the state exam will qualify the graduate as a Licensed Vocational Nurse.

All prospective students must be at least seventeen years of age, and must be a high school graduate or furnish a GED equivalency. Students must be in good physical and mental health.

Pretesting is required, and the next testing date is March 15. Questions may be directed to Gerald Bint, Dean of the Technical Vocational Education, or Mrs. Veneta Mitchell, nursing instructor, by calling 817-442-2567.
