THEN AND NOW!

by Eunice McFall

What do you do with pressure? Do you put it aside and do a good job anyway or do you put the pressure inside yourself and react finally as a pressure cooker does, you blow up as there is no way of releasing the pressure? Do you say that you work better and more efficient when you are under pressure? Well maybe you do and maybe you don't! First off you might talk to the ones working with you when you have a deadline to meet and you have not gotten organized or just plain got a late start on the job. You might feel that you handled the job without any problems. Your co-workers perhaps have a different view of the way that you handled the job.

If you had started on time and done the job in a steady rhythm you would have probably saved a lot of wear and tear on the old body not to mention the mind and even kept your co-workers from having too much stress. All because you like to work under pressure. Is it worth the stress to you and your fellow man? Do you really think you do a great job when the pressure is heavy?

"By failing to prepare, you are preparing to fail," said Benjamin Franklin. But come on, failure is never final. The only time you fail is the very last time you try to accomplish something. Failure doesn't mean that you have not accomplished anything, it just means that you are smarter today than you were when you started the project.

Failure does not mean that you are a foolish person for trying. It just says that you have enough faith in yourself to experiment. Failure is no disgrace, it just means you tried! Failure doesn't mean that you will never get there, it just says that you maybe need a little more patience and a little more experience and time to accomplish what you set out to do. Don't give up-try again-it might just work this time.

**Trial Of Local Man Under Way In Memphis**

*Courtesy Childress Index*  
Prosecution and defense attorneys completed jury selection Monday--taking nearly six hours to name 12 from a jury pool of 100 Hall County residents.

The trial of Weldon Paul Cruse, 62, is underway in the 100th Judicial District Courtroom of Memphis with Judge John Forbis presiding.

Cruse, 62, of Turkey, is charged with the August 19th shooting death of his brother-in-law, Eddie Dale Timmons, 49, of Northfield. Cruse, who is free on bond, will be represented by Jim Brown, Canyon attorney.

District Attorney David McCoy said testimony in the trial would probably start Tuesday morning, and could require as much as a week to 10 days. District Judge John T. Forbis will preside.

Reports indicate Cruse and his brother-in-law had been feuding over boundary lines, water rights and right-of-way on adjacent property.

Timmons was found dead on the morning of August 20th of a gunshot wound to the head. Hall

County Sheriff Kenny Schull said Timmons' body had been burned and placed in a trash can in an alley at Turkey. McCoy said Timmons had been shot in the head from point-blank range with a 12-gauge shotgun in a field east of Turkey.

Cruse and Timmons had inherited adjacent parcels of land from the estate of Timmons' late father, Pete Timmons, according to Motley County Sheriff Alton Marshall. Cruse is married to Eddie Dale Timmons' sister.

McCoy, at Timmons' request, had written at least two letters to Cruse about six months before the shooting in an effort to settle the feud over land rights.

On Thursday morning after the shooting, Cruse consented to have his property searched when confronted by law enforcement officers who went to his home. Officials found blood in an old ambulance parked on the Cruse property, then discovered Timmons' body in the alley.

Janice Timmons reported her husband missing late Wednesday night when he failed to return home following a trip to Turkey. She drove to the leased land and found her husband's cap, with blood on it and discovered it was penetrated by a bullet.

**Proclamation**

As the year 2000 quickly approaches, Texas must conserve and nurture our natural resources in order to meet the economic and social challenges which lie ahead. Among our most valuable resources are the skills, talents, and abilities of our senior Texans.

Older Texans want to be active partners in the labors of tomorrow and we must provide them with the opportunity to share their years of experience, hard work, and dedication. We must invest in their resourcefulness, their talents, and recognize their contributions.

Since 1965, the Senior Community Service Employment Program, through organizations such as Texas Farmers Union Green Thumb, has provided senior Texans with training and employment opportunities to showcase their strengths, their wisdom, and their productivity.

THEREFORE, I Steve Farley  
(Name)  
Mayor of Silvertown  
(Title) (City or County)

DO HEREBY PROCLAIM THE WEEK OF MARCH 14-20, 1993, AS OLDER WORKER WEEK IN Hall and Briscoe  
(City or County)

the use of the permanent school fund to guarantee state revenue bonds, but would permit the legislature to provide by law for the issuance of general obligation bonds or revenue bonds of the state for the purpose of making loans to, or purchasing bonds of, school districts for the purpose of acquisition, construction, or improvement of instructional facilities, including all furnishings. The amendment also provides that the state, pursuant to general law, may forgive the payment of principal and interest on all or part of a loan made to a school district under the amendment to partially finance an instructional facility. The cap of \$750 million on the amount of bonds that could be issued under article VII, section 5(b), as amended, would be retained. The amendment would repeal the current provision of the constitution permitting the legislature to authorize bonds in excess of \$750 million by two-thirds record vote of both houses of the legislature. While any of the general obligation bonds issued under the amendment or any of the interest on those bonds is outstanding and unpaid, there would be appropriated out of the first money coming into the state treasury in each fiscal year, not otherwise appropriated by the constitution, the amount sufficient to pay the principal and interest on the bonds that matured or became due that fiscal year.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of \$750 million in state general obligation or revenue bonds to assist school districts in partially financing facilities, authorizing the state to forgive payments of loans made to a school district for partially financing facilities, and repealing the authorization for \$750 million in state revenue bonds guaranteed by the permanent school fund."

**PUBLIC NOTICE**

BRIEF EXPLANATORY STATEMENTS  
OF PROPOSED  
**CONSTITUTIONAL AMENDMENTS**  
SPECIAL ELECTION  
MAY 1, 1993

**PROPOSITION NO. 1 ON THE BALLOT**

Section 1 of Senate Joint Resolution 7 proposes a constitutional amendment that would allow the legislature to redistribute among other school districts ad valorem taxes levied and collected by a school district. The amendment would also allow the legislature to create county education districts with the taxable property of existing school districts in one or more counties combined. County education districts may levy, collect, and distribute ad valorem taxes as authorized by general law. The legislature would be allowed to set the rate of the ad valorem tax to be imposed in a school district or county education district or it may authorize the board of trustees of each school district or county education district to set the rate, provided that the rate of county education district ad valorem taxes may not exceed \$1.00 per \$100 valuation of taxable property, unless a higher rate is approved by the voters of the district. The amendment also provides that the amount of ad valorem taxes redistributed among school districts by the legislature and effectively redistributed within a county through county education districts may not exceed 2.75 percent of the sum of the state revenue appropriated for public schools and the revenue from local ad valorem taxes levied and collected for public schools. The term "state revenue" does not include revenue from ad valorem taxes, revenue for the provision of free textbooks, or contributions to a retirement system. Finally, the amendment provides that it does not affect the distribution of the available school fund under article VII, section 5, of the Texas Constitution.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment allowing limited redistribution of ad valorem taxes for schools, authorizing the legislature or local districts to set

a minimum tax rate in county education districts, and placing a cap on the ad valorem tax levied by county education districts."

**PROPOSITION NO. 2 ON THE BALLOT**

Section 2 of Senate Joint Resolution 7 proposes a constitutional amendment that would provide that, except for state educational mandates imposed in compliance with the Texas Constitution or federal law, or unless enacted by a vote of at least two-thirds of the members elected to each house of the legislature, a school district may not be required to comply with an obligation requiring expenditure of school district funds unless the obligation is fully funded. The amendment also requires the legislature to provide by law a procedure for determining whether an obligation is fully funded. In the absence of such a procedure, and at the request of a school district's board of trustees, the comptroller of public accounts shall determine whether or not an obligation is fully funded. This amendment applies only to state educational mandates enacted after December 31, 1993.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment exempting a school district from the obligation to comply with unfunded state educational mandates."

**PROPOSITION NO. 3 ON THE BALLOT**

Senate Joint Resolution 4 proposes an amendment to article VII, section 5(b), of the constitution, which currently authorizes the legislature to provide for using the permanent school fund to guarantee bonds issued by school districts and certain education-related revenue bonds issued by the state. The amendment would repeal the provision authorizing

## News From Turkey

### Things Seen and Heard

by Ann Coker

Enjoyed a short visit with a new Turkey resident the other day, Mrs. Louis (Oletta Cunningham) Randell who has recently moved into the Hogue home.

Mrs. Randell phoned me that her niece was visiting her and wanted to subscribe to the Valley Tribune. When I arrived at the Randell home I discovered the niece was Ann Ellison who was a former Turkey High student. She is now married to Clarence Pierce and lives in McLean. Really enjoyed visiting with Ann as I hadn't seen her in years. Glad to have you as a new subscriber Ann!

Also visiting was the Randell's daughter and husband, Ronnie and Jo Anne Blythe of Amarillo.

A reunion was held last weekend in Tucumcari, New Mexico. Del Ray House and daughter, Katie Bowman of Silverton, drove to Tucumcari where they met Del Ray's sister and her daughter, Mayfair and Pam Meacham, of Albuquerque, New Mexico. It is quite a distance between Albuquerque and Turkey and neither group had been able to make the trip for quite some time. They decided on a midway point and met in Tucumcari. They rented rooms at a local motel and thoroughly enjoyed their visit.

Bonnie Hill had back surgery last Wednesday at North West Texas Hospital in Amarillo. We visited with her Wednesday afternoon and I returned on Thursday afternoon. She reported she was doing great. She was released from the hospital last Monday and she and E. L. are staying a few days with their daughter, Carol Weatherly, in Memphis.

Clema Johnson, Virginia Degan, Nadine Baisden, Foy Lane and Ella Colvin met at the Turkey Drive-In last Thursday at noon, March 4th, to celebrate Nadine Baisden's "39th" birthday. In celebrating the event they prepared a "Get Well Card" for Bonnie Hill.

After the birthday luncheon, they left the card on the cafe counter for other patrons to sign. It was then delivered to Bonnie.

Enjoying Spring Break were not only the Valley students but one pair of grandparents I know. George

(Buddy) Colvin accompanied his granddaughter, Destiny Whitley, to visit her parents, Ron and Linda Whitley in Torrance, California. While there they had a great time visiting Disneyland.

While Buddy and Destiny were in California, Veta Colvin drove to Wichita Falls to visit with three of her sisters, Helen Morgan, Patey Lassater and Merle Trevilon.

They all returned home over the week-end. Bobby Silva and Danny Ulrey visited at McMurry College in Abilene over the week-end. The pair were there for interviews in anticipation of entering McMurry College following their graduation.

Ida Farley has been hospitalized in the Hall County Hospital recently. We hope she is home by this time.

Visitors in the home of Virginia Degan last week-end were her grandchildren. Mr. and Mrs. Mark McKnight and children and Mike Prather spent last Saturday with their grandmother.

The boys' area basketball game against Channing played last week

in Canyon drew some interested spectators from the Canyon area. Some of those seen at the WT Gym were Jack and Jeanette Case and Benny and Myra Brown from Amarillo; Doug Setliff of Hereford; Harvey and Betty Williams and Robyn Lane of Canyon.

Missed seeing DeLane Brown's friendly face in the bank last Monday. Found out while helping her husband, Brent Brown on Sunday, she cut her finger. She was closing a gate and got her finger caught in it. The cut required several stitches. It was quite a painful injury.

The party is over, and this the day  
When the holiday trappings are all put away.  
We are happy the old year is over, and yet  
We recall with a certain amount of regret  
All those firm resolutions we wrote on a list  
That included temptations we ought to resist,  
And a number of projects we meant to complete;  
So our noble ambitions thus met with defeat.  
No it's time to look forward and bury the past,  
And adopt some reforms we'll adhere to at last.  
If we follow our faith and intend to succeed,  
Only one resolution is all we will need:  
Let us worship the Lord, our infallible Guide,  
While aware of the blessings He's sure to provide;  
For by knowing His love will forever be near.  
There is no better way we can start the new year.

### Patriots Advance To Regional

The Valley Patriots were in Levelland last weekend for the Region 1-LA basketball tournament. They advanced to the semi-final round where they were defeated by Lorenzo.

The Patriots played New Home on Friday afternoon in the first round of play and were winners by a final score of 50-47. Josh Scoggins had a good game with 16 points and 25 big rebounds, 22 of those being defensive rebounds. Joe David Valdez added 10 points, Bubba Powell 9, Bradley Price 8, Jason Smith 5, and Donnie Calvert 2 points.

This win moved the Patriots into the semi-final game against Lorenzo on Saturday morning.

After Lorenzo jumped out to a 25-12 first quarter lead, Valley was never able to get back in the game. Turnovers were a major factor for the Patriots as they struggled with 31-21 of them from steals by Lorenzo who used a tough defensive press.

Josh Scoggins scored 15 points and pulled down 14 rebounds for the Patriots. Bubba Powell added 13, Bradley Price 9, Donnie Calvert 6, Jason Smith 4 and Danny Ulrey 2 points.

The Patriots and Coach Browning had an excellent season, advancing to the regional playoffs for the time (since 1986). Seniors Jason Smith, Bradley Price, Clay Merrell and Danny Ulrey played their last games for Valley. The Patriots have a young and extremely talented team and great things are expected from them in the future.

### TAAS Test Will Be Given At Valley

The administration of the writing test for grades 4, 8 and exit level (10, 11 and 12) is scheduled for Thursday, March 11, 1993. The reading and mathematics tests for these same grade levels are scheduled for the week of May 3 - 7, 1993. All students are encouraged to get plenty of rest and eat a good, nutritious breakfast before testing. It is important for all students to be present on these days and do the best possible because no make-up days are permitted.

### Valley School Holds Book Fair

On March 15-19 from 9:00 a.m. to 3:00 p.m., Valley School Library will sponsor a Scholastic Book Fair, presenting a wide variety of books for students at all reading levels.

The Valley School Book Fair will display hundreds of titles, including award-winning favorites, classics, how-to books, biographies, mysteries, adventures and the latest works of popular authors. All are offered at reasonable prices, so that students can choose books that appeal to their personal interests and parents can add to home libraries or purchase gifts for their young readers.

Proceeds from the fair will in turn be used to purchase new materials for our library. The real profit lies in introducing children to the "magic" of the books and in encouraging them to be lifelong readers.

THROUGH THIS NEWSPAPER YOU HOLD THE WORLD IN YOUR HANDS

Whether you hold you newspaper upright or spread it out on the dining room table doesn't matter. The important thing is that you are reading it; and that although it may consist of the most inexpensive grade of paper obtainable, it's value other wise is priceless. You are quite literally looking at the whole world and the day's happenings all over it, fairly and honestly reported. This includes the events of your own community, which could have a direct effect on you and your future. Moreover you are aided in forming your own conclusions about all these occurrences by means of editorial comments and the opposing views of noted columnists, who show you all sides of an issue. You are also aided in your choice of a religious service to attend by a convenient House of Worship directory. All things considered, your newspaper is truly your passport to the world and everything that goes on in it.

**Whitefly Video Now Available**

The whitefly has caused enormous damage to the U. S. cotton industry in various parts of the Cotton Belt with estimates as high as \$200,000,000. The cotton industry, led by Cotton Incorporated, is funding research in the basic biology of the insect, the composition of the honeydew, predators, cultural practices, and intervention strategies.

Honeydew from the whitefly causes cotton fiber to be sticky. With a wide range of host plants, explosive reproductive potential, and potential resistance to insecticides, control is extremely difficult. The resulting damage to crop yield and quality is devastating, because textile mills cannot process sticky cotton.

Cotton Incorporated has funded a 7.5 minute video entitled, "Whitefly Mangement for Cotton" which explains the problem, outlines cultural practices and gives practical advice for cotton producers in affected areas. Contact your local extension personnel for more information on this video.

**Valley EX Encourages Student Success**

Darren Edwards was guest speaker at Valley School. Darren spoke to the senior class and emphasized making the most of their potentials. He based his presentation around three areas that lead to success. These areas are goal setting, attitude and people skills. The students were encouraged to set short range, medium range and long range goals. By setting and working toward these goals an individual will be more apt to succeed. Darren informed the students that a person's attitude can help or hinder. Businesses don't like to employ negative people because these employees hurt the image of the company and decrease production. In the area of people skills, Edwards encouraged the students to improve these skills by participating on committees, class projects, church and community projects and other group activities.

In his job, Darren stated that he "crunches" a lot of numbers but he also has to do a lot of written and oral communications. They are very important in the business world.

Darren is a 1984 graduate of Valley. He received his bachelor degree from Texas Tech University in Agriculture Economics. He completed his masters degree from Texas Tech University in Agriculture Finance and is presently employed by Farm Credit Administration in Irving Texas. F. C. A. is a regulatory agency responsible for overseeing lending institutions in the Farm Credit System, mainly Production Credit Associations and Federal Land Banks.
