In recent years, Al Stricklin had joined with four other members of Bob Wills' first group to help form "The Original Texas Playboys." They headlined numerous shows across the nation and drew considerable action for a two pickless and the street of th claim for a two-night concert at Smithsonian Museum in Wash-ington, D. C. in 1981. That spawned a State Department trip for the group to Switzerland, where scores of stodgy diplomats spent hours tapping their toes and snapping their fingers to such Wills standards as "San Antonio Rose." Al Stricklin was duly recognized for his role in wills rise to the pinnacle of the music business. After he left Wills, Al Stricklin remained in hot demand for club dates. His career blossomed anew in 1971, when he and other members of Wills old group were reunited in California with Wills, who died in 1975. Merle Haggard was responsible for getting the original alumni back together. Present admin back ogether. Fresent for the reunion were Stricklin; drummer Smokey Dacus; bassist Joe Ferguson; guitarist Eldon Chamblin, and steel guitar player Leon McAuliff. Some had not seen one another for 30 years. unopposed for re-election, and for it if you were unopposed. The representative was more positive about other accomplish-ments at the session. For example, by shifting the payday for state employees by one day, the legislature shifted \$200 million away from the current fiscal year. They also passed a law which will generate another \$230 million in interest for the state. Whaley favored legislation cre-

ating a county government self-insurance pool, which he said would save Texas counties milwould save I exas counties milions of dollars, and also favored raising the speed limit on rural highways to 65 mph.

"What they're going to do now is make legal what we're doing "lbeadler"

Another area where Whaley felt significant strides were made was legislation pertaining to increasing school discipline. "The schools tell me it has

really helped," he said.

The Democrat from Pampa

had less than favorable respon-ses for the sales tax hike and

mickel-a-gallon gasoline tax.
"I can't think of anything more permanent than a temporary tax," Whaley said, noting there was already a movement to keep the increased revenue.

Whaley said that one-third of the cost of filling your tank is now for taxes.

"In my opinion, that is very

On the issue of interstate banking, Whaley said he doesn't like the idea of allowing Texas banks to be bought by foreign interests, believing that Saudi Arabian entities might then have too great a control over the Texas economy.

Pari-mutuel betting on horse and dog races was also voted against by the representative.

"Horse racing is not going to raise any money; it's going to invite the mafia," he said, maintaining, however, that the same argument does not apply to a state lottery.

Although the pari-mutuel gambling bill was defeated in this session, Whaley said that it was likely to pass next year. Opponents to the bill defeated it with strategy, he said, by including controversial legislation within the proposal

The gambling bill included a clause giving special privileges to

concessions, etc. After a preliminary count showed that without the minority bill, the legislation would pass but with it, the bill would fail, gambling opponents rallied votes to include the minority bill, even though many were opposed to that legislation, as well.

Remember to Vote Democratic on November 4th!

DEAR VOTERS.

I am supporting the democratic candidates in the coming election because of the outstanding job that has been done, and I urge you to think of these things:

Consider what the democrats have done for this state in the past four years. They have reformed education, and every major industrial state is using Texas reforms as a model.

The democrats passed an indigent health care bill to provide basic medical services for those who can least afford it.

The democrats have made major commitments to encourage high tech training and research at our great state universities. Our future economic diversification depends on our commitment to excellence in

The democrats increased funding for highways so that Texas can continue to have the best road system in the country.

The democrats passed a far-reaching water plan that will serve Texas far into the future.

Most of the democratic candidates are not considering a state income tax, because such a tax could discourage business initiative.

I urge you to join me in supporting the Democratic Ticket on November 4!

What's So Convenient About:

PAYING

higher interest on your loans?

EARNING LESS

PAYING HIGHER

LOSING

local control over banking?

SACRIFICING

service to the big banks' benefit?

YOU WILL HEAR A LOT FROM THE SO-CALLED CONVENIENCE BANKERS ABOUT PROPOSITION FOUR BUT YOU PROBABLY WILL NOT HEAR THIS:

The big banks of Texas hope to create a bank monopoly at your expense. Proposition Four has disguised branch banking as "full service banking". Whatever they call it — Branch Banking is a bad idea for Texas, and Texas will end up footing the bill for the big Texas bank holding companies to get bigger.

You especially don't want this to happen now since the Texas Legislature just passed a law permitting the large banks of New York City to purchase some or all of the large Texas bank holding companies. Not only can this legally happen now, but is almost certain to take place in the immediate future.

For all these years, Texans have never wanted or allowed the big banks of New York City to own and control the Texas Banking Industry. We are sure that this position by the people of Texas still has never changed.
