THURSDAY, JULY 17, 1986

MRS. JACK [Debbie] WELLMAN Yard of the Month **Jack Wellmans Have** Yard Of The Month spruced up with weeds cut and vacant lots mowed. The Lions Club did a great job of cleaning up the City Park and ballfield. All of these efforts pay off and make this a community of which to be proud

to be proud. It has been pointed out that our problem in town isn't with littering but with **Litterbugs**. We

littering but with Litterbugs. We need everyone to take the responsibility for keeping our community clean and neat. Don't wait for someone else to do a job; if we see something that needs to be done, we need to take th initiative to do it. Thanks to the Wellmans for doing their part to make this community more beautiful and a more desirable place in which to live.

David Setliff

Dies In Kaufman

Word was received early Wednesday morning that David Set-liff had died at Presbyterian Hospital in Kaufman, Texas.

Services were pending at press-

Mr. Setliff was suffering from pneumonia and was in the intensive care unit at the hospital earlier in the week. It was reported that he had suffered

reported that he had subered another heart attack, but when Elgin Conner had talked to Mrs. Setliff early this week she said that his main trouble was with fluid which impaired his heart's functioning correctly.

tim

The Yard of the Month honor goes to Jack and Debbie Well-man for the month of June. The Wellmans have always maintain-ed a beautiful and well-kept lawn

with colorful flowers in bloom. There are a number of out-standing yards in Quitaque this standing yards in Quitaque this year, as well as gardens growing abundant vegetables. Take a look in town at the Joe Bedwells (he even painted the pole for the street sign), the R. J. Harmons, H. G. and Tate Boyles, the Max Hams and Jerry Maupins—all of these within one block. Many other yards in town are especial-ly attractive. James Brunson, Ebb Auston and Walter Wayne Taylor have bumper gardens Taylor have bumper gardens growing. Main Street has also been

"We The Women' See Program

A patriotic theme set the mood for a very interesting video film about the history of the Statue of Liberty and the way it came to be restored for "We the Women"

be restored for "We the Women" on Monday. The tables were decorated by Feam Taylor, and featured Unit-ed States flags topping a white star. On a larger white star the poem, "Give Me Your Tired, Your Poor" was writen poem, "Give Me Your Your Poor" was written.

A delicious meal was served and everyone enjoyed the fellow-ship. Make plans to become a part of this group. The next meeting will be a picnic at Caprock Canyons State Park on August 11. Every woman in the community is needed community is needed

Camera Club to Have Print Contest

A sesquicentennial photo con test will be sponsored by the Caprock Camera Club August 15-16, 1986. Closing entry date is

15-16, 1986. Closing entry date is August 8, 1986. Entry fee will be \$3.00 per print for non-club members and \$2.00 per print for Caprock Camera Club members. Minimum print size is 5x7 and maximum size to be accepted is 16-20.

16x20.

Entries will be displayed dur-ing the Briscoe County Birthday & Sesquicentennial Celebration

& Sesquicentennial Celebration August 16 in Silverton. Cash prizes will be awarded for each category. Judge for the contest will be Jack Robertson, owner of R Photography in Floydada. Print estenories include land

Floydada. Print categories include land-scapes, people, still life, Texas Sesquicentennial-1986. There will be two special awards presented: Peoples Choice Aw-ard and Best of Show Award which is the judge's choice. For further information or entry forms, you may contact Randy Stark in Quitaque or Kathy Frizzell in Silverton.

Special Election Called For Hall County

The Commissioners Court of Hall County has called a special election to be held August 9 for the creation of the Hall County Hospital District.

Hospital District. Absentee voting will begin Monday, July 21, and continue through August 5, during the office hours from 8:30 a.m. to 5:00 p.m. This is for the benefit of those who plan to be absent from the county and for those over the age of 65 years, for your convenience. age of 65 convenience.

Buffalo Flat

Reunion Scheduled

The Buffalo Flat Reunion will be held July 20 at the Bob Wills Cafeteria in Turkey.

Everyone is invited to con and bring lunch and enjoy th the day.

Letter To The Editor

Dear Mrs. Owens, Please find my check in the amount of \$10.50 for another one-year subscription to the Valley Tribune. I thoroughly enjoy reading the weekly paper. One of my favorites to read is the column taking excerpts from the older papers. Occasionally this information concerns my grand-parents and parents. Since I moved from Turkey in 1970, I graduated from Tech and moved to Ruidoso, New Mexico. My wife and I now have two children, girls, ages three and

children, girls, ages three and

eight. Keep up the good work and please say "hi" to my parents for me.

me. Sincerely, Rod Adamson (Ed. Note: It is so good to hear from former residents. Thanks, Rod.)

Mrs. Fuancince Sheffield of Fort Worth spent the July 4 weekend visiting her sister-in-law, Mrs. Estelle Davidson, in

duitaque. Mrs. Sheffield's son, Jerry Davidson, and his children, Ron-nie and Robin, also of Fort Worth, spent the weekend visit-ing in the Jimmy Davidson home.

State Highway Funding

The Texas economy is troubled The Texas economy is troubled and in transition. Primary causes of these changes are continuing decline in oil prices and produc-tion—and what amounts to a depression in agriculture. When oil and agriculture are in trouble, all are in trouble all are in trouble.

all are in trouble. We obviously have problems to deal with. The Texas economy has to diversify—and grow in other areas to take up the slack. One of the strongest assets of the Texas economy is our trans-portation system. It is a well kept secret that Texas is Num-ber One in transportation. *Texas has 250,000 miles of roads and streets—more than

roads and streets-more than

*Texas has more miles of railroads than any other state—

13,000 miles. *Texas has 1200 airports-

more than any other state. *Texas has 426 miles of the Gulf Intracoastal Waterway, the longest segment of any state, and

*Texas leads the nation with more than 200,000 miles of oil

and gas pipelines. According to the Texas Transportation Institute, transportation Institute, transportation accounts for 25 percent of the value of all goods and services in our gross state product. product.

product. Transportation is the key to our economic well being in Texas. Any economic develop-ment program that fails to recognize that basic fact is not

recognize that basic tact is not likely to succeed. This year—1986—as we ob-serve the Texas Sesquicenten-nial—more than 38 million tour-ists will come to the Lone Star

THE VALLEY TRIBUNE

State. These visitors will spend about \$16 billion while they are in Texas. They will provide 279,000 jobs for Texans with hotels, motels, restaurants, retail stores, and other businesses

Most of those visitors (about 85%) will arrive in Texas in automobiles and buses on Texas automobiles and buses on Texas highways. The others will arrive at airports. To put it very simply, without transportation, there would be no tourist industry. The highway construction in-dustry itself is a major generator of jobs. The current level of highway construction in Texas creates or sustains 120 000 iche

creates or sustains 120,000 jobs. That includes 60,000 jobs on and off site in construction and allied industry and another 60,000 indirect jobs created under a multiplier effect as a result of

construction contracts that will be awarded this year—and that will be a new record in dollar

Add to the number of jobs Add to the number of jobs related to highway transporta-tion in Texas 523,700 in the truck and bus industry, 194,349 in motor vehicle manufacturing, sales and service, and 94,600 in petroleum related to highway transportation. That's about 1.2 million ide

million jobs. Texas highway funding is really a good news - bad news situation.

situation. The good news is that highway construction has almost doubled in the past year. This means that for the first time in about ten years, the State Department of Highways and Public Transpor-tation is catching up on long deferred highway maintainance, rehabilitation and improvement. We can—and should—thank the U. S. Congress and the Texas

Legislature for making this possible

When Congress passed the Surface Transportation Act of 1982, the federal fuel tax was increased from 4c a gallon to 9c. The nickel increase in the federal gas tax and an amendment by Senator Lloyd Bentsen guaran-teeing that each state would get back at least 85% of what it pays into the Highway Trust Fund doubled the federal highway fund Texas has received. In the summer of 1984, the Texas Legislature met in special session to address two of the state's most basic needs—high ways and education. The state gasoline tax was increased from

ways and education. The state gasoline tax was increased from 5c to 10c a gallon, vehicle registration fees were increased, and the motor vehicle sales tax was increased from 4% to 5%. While all of these fee and tax increases were paid by highway users, not all of the revenue went to upgrade the state's highways. One-fourth of the state fuel tax goes to education, the counties

goes to education, the counties share the vehicle registration fee revenues, and only part of the vehicle sales tax goes to high-

Revenues from the fuel tax and registration fees are dedicat-ed in the state constitution. Revenue from the vehicle sales tax is not dedicated and flows to general revenue And that brings us to the bad

base rates. Utility companies are

base rates. Utility companies are not allowed to make money on fuel. WTU has had no change in its base rates since 1984. If a reduction in fuel rates, technically known as the Interim Quarterly Fixed Fuel Factors, if approved, WTU officials esti-mate the fuel cost charges to its customers will drop by 24 percent, or \$7.9 million, during the three-month period begin-ning in September. after the state's Public Utility

Regulatory Act was amended in 1983 the PUC ordered the use of the fixed fuel factors and their use was recently re-adopted in an emergency fuel rule. Previously, an automatic fuel adjustment matched fuel billings to fuel expense each month. These immediate adjustments preven-ted over-recoveries of fuel costs and made refunds unnecessary. Under WTU's proposal, all

Under WTU's proposal, all existing retail customers would receive refunds through one-time

APPLICATIONS BEING TAKEN FOR POSITION OF DPS STATE TROOPER

Maj. Cawthon, Regional Com-mander of the Texas Department of Public Safety, announced today the DPS is accepting applications for the position of State Trooper. Applications may be picked up at any DPS office. "The entrance examinations are being administered in the

be picked up at any DPS office. "The entrance examinations are being administered in the Lubbock, Amarillo and Wichita Falls offices on Tuesdays and Thursdays for this area of the state and continuing until Octo-ber 16, 1986 for the Recruit School beginning in 1987." Caw-thon said. The test will start at 8:30 a.m. and take most of the day to complete. Applicants are advised to wear comfortable running footwear and be prepar-ed to give their best mental and physical effort. Major Cawthon said, "General qualifications for DPS Troopers are: Applicants must be 20 through 35 years of age; good moral character; excellent physi-cal condition; weight not less than two pounds nor more than three and one-half pounds per inch of height; visual acuity no worse than 20/40 correctable to 20/30; and a citizen of the United States. Educational qualifica-tions are a minimum of 60 semester hours of college. Col-lege hours may be substituted by having two years of law enforce-ment experience or two years of military experience or any com-bination of the three. Qualified bination of the three. Qualified female applicants are also being accepted for the uniformed ser-vices of the DPS. The Depart-

accepted to the unionited services of the DPS. The Department has been increasingly successful in recruiting persons from minority groups and the DPS is an Equal Opportunity Employer." Upon successful completion of the entrance examinations and personal background data investigation, the recruit will enter 18 weeks of intensive police training. Starting salary for recruits is **1**,515.00 per month. The 18-week training period will cover some 850 hours of the averet data and traffic law, human and community relations, investigative techniques, marksmand

tigative techniques, marksman ship, pursuit driving and physical

After graduation, as a co ned law enforcement officer.

the monthly salary increases to \$1,671.00 and at the end of six the monthly salary increases to \$1,671.00 and at the end of six months active duty, the salary increases to \$1,784.00. State Troopers receive longevity pay for each year of service up to 25 years. Other benefits include 5.85% paid Social Security. Uni-forms, weapons, ammunition and vehicles are furnished by the State of Texas. Life insurance and hospitalization are paid for the employee. Paid vacations, state holidays and sick leave are provided to all employees. Upon graduation, the trooper will be qualified to enter the following DPS field services (1. License & Weight 2. Drivers License 3. Motor Vehicle Inspec-tion 4. Highway Patrol. Exper-ienced uniformed troopers may apply for appointment to posi-tions in Narcotics, Intelligence, Texas Rangers and Motor Ve-hicle Theft Services when open-ings occur.

Packaging Your **Home For Profit Evaluate Your Product**

By Bruce A. Percelay

By Bruce A. Percelay You may realize thousands of extra dollars on the sale of your house, condominium or co-op and do so in less time by using these tips, from the book Packaging Your Home For Profit by Bruce A. Per-celay and Peter Arnold, pub-lished by Little, Brown and Company.

The sease of the s

time rate in the rotowing questions:
1. Does the home have any obvious flaws that suggest a lack of care or potential problems?
2. What do they like the most and the least about the landscaping?
3. If they had \$1,000 to spend to improve the home's curb appeal, how would they use it?
Remember that the color and condition of the paint, the quality of your lawn, shrubs and trees, the appearance of the shutters, light fixtures and the doorway to your house or condo are all part of the exterior packaging. How enfective this packaging is can have enormous impact on how much you sell your home have enormous impact or how much you sell your home for and how quickly you sell it.

In ancient Rome, the first day of the year was given over to honoring Janus, the god of gates and doors and of beginnings and en-dings—the month of Janu-ary is named for him.

THE VALLEY TRIBUNE .

Prehistoric Indian Village Being Excavated Near Turkey thesis from Texas A&M Univer-

Since mid-April of this year Brett Cruse and Meg Galdeano have been conducting archaeo-logical excavations at a prehis-toric Indian site about five miles southeast of Turkey. The site is the subject of Brett's masters

sity. The site appears to have been occupied some 800 to 1000 years ago by a semi-sedentary group of Indians. Due to lack of funds, no radiocarbon data has been secur

ed for the site, thus no exact date is known; however, the types of artifacts and pottery recovered from the site suggests a date of about 1000 years ago. The Indians at the site were living mainly by hunting and gathering wild plants but may also have been practicing some gardening. Most of the stone artifacts are small arrow points used in hunting. Also, there is a fairly large amount of animal bone, mainly deer and small animals with a small amount of buffalo. Several implements for grinding seeds and possibly corn have also been recovered from the site.

have also been recovered from the site. The pottery from the site is interesting because it was not being made locally but rather was produced in the region of central and southern New Mex-ico and then probably traded into this area. Thin sections of the pottery examined under a micro-scope have shown that the clays and tempering agents in the pottery are from the area around the Pecos and Rio Grande rivers in New Mexico. The most important feature at

The most important feature at the site is the remains of a pithouse structure. A pithouse is a structure constructed very similar to a half dugout. The house was dug down about a foot below ground surface and the below ground surface and the upper portion and roof was probably covered with brush and dirt. The house had a clay plastered entry way which slop-ed down into the structure. There appears to have been four or five support posts inside the structure which helped to sup-port the roof. The house is small by our standards, measuring 14 x 11 feet. Inside the structure is a small hearth or fireplace used for 11 feet. Inside the structure is a small hearth or fireplace used for cooking and warming. Also in-side the structure, dug into the floor, was a burial. The burial was placed in a round pit about 2 feet beneath the floor and then sealed with a clay plaster. The burial was that of an adult male and included 3 mussel shells, 2 of which had small holes drilled through them and were probably pendants. Also included was a deer bone, awl and 2 awl blanks. There is simply no way to say

blanks. There is simply no way to say that the group that occupied this site were the ancestors of the later Apaches, Comanches, or any other Indian group. It is not known whether this group and other similar groups developed into the later Plains Villagers or the even later Apache and the even later Apache and Comanche groups, or whether they simply moved out of the area

Although the excavations have revealed what appears to be part of a second structure, no further excavations are planned due to lack of time and funds to continue. It is hoped, however, that sometime in the future more work can be done so that a better understanding will be possible of the individuals that inhabited the area a thousand years ago.

Dust from the eruption of the Krakotoa volcano in 1883 turned the moon green as seen in Sweden in 1884.

When President Theodore Roosevelt took cross-country walks, he made it a point to always walk in a straight line—even if that meant swimming a creek in winter or scaling a steep cliff.

"You must treat a work of art like a great man: stand before it and wait patiently till it begins to speak." -Arthur Schopenhauer

Valley FFA Members Receive Lone Star Degrees

The Lone Star Farmer Degree is the highest honor that can be achieved by a Texas FFA member. In order to earn this honor, a member must keep a Supervised Occupational Experience Program and make at least \$500.00 income from a project program. The Valley FFA members who will receive this degree are Robert Patrick, Joe Morrison, Kirk Saul, Jeff Fuston, Wesley Farley and Gary Brannon.

JEFF FUSTON

non. The degrees for the Area I Lone Star Farmers will be given Thursday morning during the State FFA Convention, being held in Amarillo from Tuesday through Friday of this week with President Aaron Alejandro of the Area I Association and the Boys Ranch Chapter presiding.

FFA Members Participate In Conference

The Area I FFA Leadership Conference was held at Clarendon June 23-25. Five members of the Valley Future Farmers of America attended, including the THE VALLEY TRIBUNE

ROBERT PATRICK

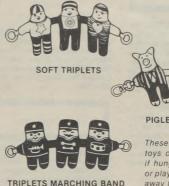

WESLEY FARLEY

Chapter president, Kirk Saul; Vice-President Kirk Martin; Secretary, Jeff Fuston; Treasurer Scott Saul, and Reporter Gary

Scott Sail, and Reporter Gary Brannon. During the conference, the officers attended the classes involving Public Speaking, Public Relations, Chapter Improvement, and FFA Information. Everyone reports enjoying a good time and learning some valuable leadership qualities.

"The youth gets together materials for a bridge to the moon, and at length the middle-aged man decides to make a woodshed with them." Henry David Thoreau

CPSC Issues Complaint Seeking Recall of

Johnson & Johnson Crib Toys

The U.S. Consumer Product Safety Commission today announced that its staff has issued a Complaint against Johnson & Johnson Baby Products Co., Inc. seeking a recall of over 1.6 million crib toys because of alleged strangulation hazards to infants. The Commission authorized issuance of the Complaint by a 3-1 vote with Acting Chairman Graham and Commissioners Scanlon and Armstrong voting for the Complaint and Commissioner Dawson voting against it. Commissioner Statler recused himself from participating in this matter.

The Complaint alleges two young children have strangled on the toys. A 10 month old boy died in Temple Hills, Maryland, in October, 1984, when he became entangled in the strings tying a Soft Triplet toy across his crib. A seven month old girl died in Coronado, California in December, 1985, when she was caught by the neck on top of a Triplet stretched across her crib.

The Soft Triplet, Piglet Crib Gym, and Triplets Marching Band toys can be hung across cribs and playpens and used as crib gyms. Consumers use their own strings or cords to tie the Soft Triplets and Marching Band toys. Once children can raise their heads over the strings or over the toy, they can get caught and strangle.

Over 1.6 million Soft Triplets were sold by mail order from

PIGLET CRIB GYM These Johnson & Johnson toys can strangle children if hung in or across a crib or playpen. Take these toys away from your child.

PAGE ELEVEN

1979 to March of 1986 through magazines such as Parents, American Baby, and Baby Talk. About 62,000 Piglets and 3,000 Marching Band toys were sold through retail outlets nationwide, the Piglets from 1982 to 1984 and the Marching Band from 1985 to March of 1986.

The toys consist of three soft doll-like figures held together with elastic and with plastic rings at each end and are advertised for use from birth to 24 months.

The staff believes these toys are dangerous and should be removed from cribs and playpens immediately. While Johnson & Johnson is conducting a warning campaign against hanging the toys in cribs or playpens, the staff believes the toys should be recalled and removed from children's environments completely to prevent deaths and injuries.

The staff urges persons who are aware of strangulations or other incidents involving these toys to call the CPSC Toll-Free Hotline number 800-638-CPSC as soon as possible. A teletypewriter number for the hearing impaired is 800-638-8270. Further information can also be obtained by calling the above numbers.

To defrost ground beef quickly, sprinkle with the salt you planned to use for seasoning. It speeds the thawing process.

Convention visitors Nancy Tollett and Julie Davis join TEA's Jay Eudy at Boys Ranch.

Bill Wambsganss, the Cleveland Indian second baseman, made the only unassisted triple play in World Series history.

SOS, the traditional call for help from a ship in distress, does not actually stand for anything. It was chosen because it could easily be sent as a wireless message.
