SID BOGAN RETURNS FROM VISIT

On Friday, April 25, S. T. Bogan, jr., and his youngest daughter, Dorris, of Richardson arrived at his father's home. They came to attend Bob Willis Day in Turkey. S. T., jr. enjoys the music very much.

Sid returned home with his son and granddaughter Sunday. It was partly cloudy when they left Quitaque and by the time they reached Vernon, it was raining and hailing, and from there to Wichita Falls it rained. After that they report a good drive to Richardson.

Friday, May 2, S. T., jr. and Dorrie took Sid to Castor, Louisiana. S. T.'s wife could not go because of expecting company from Tulsa, Oklahoma. The Bogans met another son and brother, Barney, and his wife of Nacogdoches, and Dr. Douglas W. Bogan, DDS from Houston. Sid says, "Willie and Alma Bogan farmed us out to different kinsmen for the night after she had served us a wonderful supper. I wish you could have seen the many, many good things to eat at that Louisiana table."

Saturday morning they drove to the Old Sharon Baptist Church where Sid was converted and joined the church, and where his parents are buried. They enjoyed a Memorial Day Service with "dinner on the ground." Only he says it had to be served inside due to rain. (Wonder why Sid didn't bring some of that rain back with him.)

He visited Barney and family until Sunday afternoon. Barney took him to Tyler and S. T., jr. met him there and took him back to Richardson. He stayed there until the next Thursday, May 15, and took a bus from Dallas to Childress. P. John Monk, a good neighbor, Sid says, met him there.

Sid reports a very good time on the trip. He was visiting all three of his children, most of his grandchildren, and part of his five great-grandchildren. The children, who grew up in Quitaque, send regards to their friends here and in the area. They are planning to attend the Homecoming to be held here in August. He says it is wonderful to be home again, though.

TEXAS TALK

DAVID BRUNSON

Crop Camels have heads but no humps. The term "Crop Camel" is used as a reference to any crop that gets along on little water but in this area is generally reserved for sorghum. Primary reason for the development of sorghum as a feed grain was because it provided essentially the same nutritive value as corn but had unique growing properties. Properties such as becoming practically dormant during a drought and then resuming growth as soon as water is available. Most common of the grain sorghum types are the kafirs and milos or a hybrid developed from the two varieties. According to authorities such as J. H. Martin, sorghum originated in east Africa with the kafir variety coming to the United States from South Africa in 1876. Milo followed in the early 1880's. Hybrid developments and farm improvements have moved average yield from under 20 bushels per acre in 1950 to a current average of close to 65 bushels.

CARD OF THANKS

It's so easy to say to others, "to take courage and to pray." We really learn how hard it is when illness comes our way. The one consoling thought we've had is that God really cares, and friends like you, who have thought of us, has made mother's illness easier to bear.

Words cannot express our gratitude to you who have been so kind. Thank you for the many cards, visits, phone calls, flowers and food, and most of all, we thank you for your prayers. May God bless each of you as He has us.

J. T. and Tootsie Mullin and family

CARD OF THANKS

I want to thank everyone who thought of me during my two months stay in the hospital and since I have been at home. May God richly bless each of you is my prayer.
Mrs. Vera Case

SELECTED TO PARTICIPATE IN CONSERVATION CORPS

Thirty teenagers have been selected to participate in the 1975 Youth Conservation Corps Program at Lake Meredith Recreation Area this summer. The teenagers, 15 girls and 15 boys, will live in dormitories at the old Colorado Interstate Gas Company camp. The program will run from June 8 to August 2, and participants will be paid \$367.92 for their work. The camp is operated under a cooperative agreement between the Sanford Independent School District and the National Park Service. School Superintendent Chester Cunningham and Park Superintendent Bill Dyer are the project managers.

The teenagers have been selected from among varied family backgrounds and will represent a cross section of the Texas population. Among those selected is Joe Roger (Joey) Barefield, Quitaque. Much of the camp's staff will return from last year's camp. YCC's first year at Lake Meredith. Teddy Bedwell will again be camp director. Bedwell is a teacher at Spring Creek School and has worked with the National Park Service for eight summers. He is a native of Quitaque.

The Youth Conservation Corps was established by Congress in 1973 to employ young men and women to work on conservation projects in National Parks, the National Forest System, and other public land and water areas.

The teenagers, who are all between the ages of 15 and 18, are given meaningful jobs to carry out. "We don't just use these kids to clean up the recreation area (although they will do a little of that, too)," says Bill Dyer, superintendent of Lake Meredith Recreation Area and Alibates National Monument.

"They really worked hard last year, and we expect they will do the same this year," he said. "Altogether they accomplished 30 projects valued at \$28,000 including trail construction, picnic area and campground maintenance, sign making, and lakeshore cleanup."

All enrollees had a chance to try their skill at carpentry, painting, landscaping, installing markers and buoys on the lake, pouring sidewalks, and painting such things as chemical toilets, picnic tables, guard rails, and curb stops. They will also construct and help install picnic tables and fire places for the Rosita area, using materials supplied by the Track and Trail Riders Club.

Mr. and Mrs. P. John Monk returned home Tuesday evening from a visit in the Dallas area.

They visited their daughter, Mr. and Mrs. L. G. Johnson and family. They also attended a baseball game between the Rangers and the Red Sox, with the Rangers being defeated. They report it rained all the time they were gone.

Word was received here by Mr. and Mrs. Buddy Morris of the death of Lee Gregg, 78, in Lov-

ington, New Mexico Tuesday at 2:00 a.m. No further details are known at this time.

Mr. and Mrs. Ronnie Richmond and girls of Anson spent Saturday and Saturday night with her parents, Mr. and Mrs. J. A. Mayfield in Quitaque. They spent Sunday with his parents, Mr. and Mrs. E. D. Richmond, in Turkey.
