RESTRICTIONS ON SWINE
MOVEMENT IN TEXAS
Dr. H. Q. Sibley, acting executive director of the Texas Animal
Health Commission has ordered a restriction on swine movements in Texas in order to bring the present hog cholera situation under control. This restriction is imposed to implement a quarantine order signed by Mr. Joe B. Fining, chairman of the Texas Animal Health Commission on March

22, 1971.
This has been effective since March 29, 1971, and the movement of all feeder and breeder swine within Texas will be allowed only by permit issued after inspection of the herd from which they ori

laughter or directly to slaughter-ng establishments.

Texas regulatory officials have enlisted the cooperation of occredited practicing veterinarians and

The modern banking facilities of today are a far cry from the institutions which operated from 1836 to 1864. During these early days banks issued bank notes for devositors. Liftle or no regulations existed and some of these early banks were unable to redeem in coin these deposits. This situation ended when the legislation of the National Bank Act of 1863, when the U. S. Government established its own currency, guaranteed with a pledge of IJ. S. Bonds.

In the last analysis the contest in Jerusalem was a contest between the hatred of men and the love of God. Men took that love and sought to break it forever upon the Cross; but the Resurrection is the proof that the love of God is stronger than all the hatred of men.

Unless we could be certain of these great truths life would be intolerable.
