## Funding Approved For Caprock Canyons State Park

The Texas Parks & Wildlife Commission formally adopted plans and authorized the funding for Caprock Canyons State Park at its meeting on October 25 in Austin. The final plans were essentially the same as those presented at the Open Meeting at the Quitaque Community Center last month.

The cost of development for the Park is expected to be in excess of \$4,000,000 and it was reported that engineering work will begin in the very near future.

When the plans were being presented to the Parks & Wildlife Commission by the Director of Parks, Paul Schlimper, he pointed out to the Commission that the local people had shown much interest and had been very

cooperative, and this was a major factor in their recommendation that a paved road be included into the scenic South Prong area during Phase I of construction.

The Commission recognized the group from Quitaque which was present in support of the plans, and after a brief discussion the plans and funding were adopted unanimously.

Those representing Quitaque at the Texas Parks & Wildlife meeting were State Representative Foster Whaley, General Counsel Jim Dodds from Senator Ray Farabee's office, Graddy Tunnell from Plainview, and O. R. Stark, Jr., Monte Stephens and Warren Lee Merrell from Quitaque.

## Valley Hit By Turbulent Weather Early Monday Night

The Valley, along with most of the Panhandle of Texas, was hit by turbulent weather, including storm warnings, hail, rain and high winds Monday evening. The Valley, fortunately, escaped with only rain and wind, with only a small amount of hail reported in Quitaque.

Both Quitaque and Turkey re-

ported rains of 3/4 inch to upward of 1 1/2 inches. The moisture was welcomed by everyone besides those ready to harvest peanuts. It was the first moisture of any consequence to have fallen over the Valley in several weeks.

Forecasts are for possibly more rain, with a chance of freezing weather Tuesday night.

## Turkey Senior Citizens To Sponsor Sale To Fight Arthritis

Mrs. Jan Turner has announced a rummage sale will be held with the assistance of the Senior Citizen ladies November 16-17 to raise funds for the West Texas Chapter of the Arthritis Foundation.

Mrs. Turner stated that arthritis, the nation's No. 1 crippling disease, claims victims in all age groups with most first afflicted with the disease between the ages of 20 and 45.

Arthritis also attacks infants and children. There are at least 250,000 children in the U. S. who have juvenile rheumatoid arthritis.

Mrs. Turner said she feels this event deserves the attention and support of every concerned citizen and asks that anyone interested in volunteering to help or who will donate something for the sale in order to make this event successful, please to call her at Phone 423-1174.

Remember the date will be on Friday and Saturday, November 16-17, in the Senior Citizens Room at the Bob Wills Center.

Mr. and Mrs. R. C. Green visited in Plainview Sunday in the home of her sister, Mr. and Mrs. Gordon Montague.

## Children's Pictures To Be Taken By Winston B. Lucas

It is an undisputed fact that the responsibilities of tomorrow's world in our nation and community will rest upon the shoulders of the children of today. Since this is true, the publishers of this newspaper would like to give you a good look at these future "World Builders."

The only way we can do this is by publishing pictures of them in a feature series. To assure the latest and best reproduction pictures they must all be uniform size and quality.

An expert children's photographer with all the necessary equipment for this specialized work will be here Saturday, November 10.

Pictures will be taken at the Valley Tribune Office in Turkey from 9:00 a.m. to 12:00 noon and at Quitaque from 1:00 until 4:00 p.m.

### NO CHARGE TO PARENTS

There is no charge to the parents. There are absolutely no strings to this invitation. It is a bonafide offer in every sense of the word. Parents do not have to be subscribers, nor even readers of this newspaper to take advantage of this feature. Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain a limited number by arrangement with the studio representative when they select the pose they want printed in the paper. It is entirely up to them.

### THE MORE PICTURES THE BETTER

This paper simply wants pictures of all the youngsters and the more the better. So the mothers and fathers of the communities in which this paper circulates should remember the date, Saturday, November 10, and bring their children in to the photographer.

You will be mighty glad afterwards, if you did and very, very sorry if you do not permit your children to participate in this event. The kiddies will have fun and both mother and dad and the youngsters will be very proud to see their pictures in print later.

Mrs. Rex (Elaine) Harmon will call for appointments in Quitaque, and Mrs. Frank (Cindy) Lane will take appointments in Turkey.

## Valley Gets Past Motley, 34-6; Goes To Happy Friday Night

Valley High's Patriots got by their third district foe here Friday night when they rushed by Motley County 34-6. Valley now has two games left in its quest for a second zone championship. The Patriots go to Happy Friday night and will wind it up the next week when they go to Claude.

Valley kicked to the Matadors to get things going last Friday night. Motley set up for business on their own 28 yard line. The Killer Bees took over, allowing the Matadors only five yards in three tries, then forcing them to punt to the Patriots. After a short kick, Valley owned the ball on the Motley 37 yard line.

On the very first play from scrimmage, James McNary headed off to the right, turned it up field and was not headed until he was in the end zone. The try for PAT was missed, and with just a little over a minute gone in the game, Valley was ahead 6-0.

Johnny Cotton kicked off to Motley County at the 10 yard line and Motley carried it out to the 20. Once again the Bees stopped the Matadors and forced a punt. Another short kick gave the Patriots the ball on the Motley 40 yard line. Although the Patriots had good field position, they did not take advantage of it and the ball went over on downs on the 34 yard line.

Motley gave up the ball on a fumble which was picked up by Troy Scoggins. Once again Valley had good field position but could not even pick up a first down. The quarter ended with Valley ahead 6-0.

At the start of the second period the Patriots took the ball on the Matador 41 yard line. Williams picked up 21 yards, and Carpenter carried 19 yards to the two. Williams carried in for the touchdown. The try for extra point was no good, and Valley led 12-0 with 10:29 still to play in the second quarter.

Valley got another touchdown in the second quarter with McNary going 27 yards. Mike Dowd kicked the extra point, and at half-time the Patriots were ahead 19-0.

The Patriots scored their fourth touchdown on a 20-yard pass from Rod Carpenter to Dee Dowd, with time running out while the pass was in the air. Terry Brittain carried in for the extra points, making the score 27-0.

The last touchdown came on a pass from Carpenter to Bruce Setliff for 20 yards. Mike Dowd kicked the extra point.

Late in the fourth period the Matadors got their lone touchdown when they blocked a Patriot kick from the end zone and recovered it for a touchdown. Their try for extra point was stopped.

Statistically speaking, the game was as one-sided as the score indicated. According to the Tribune's unofficial figures, the Patriots picked up 13 first downs to only two for the Matadors. The Patriots rushed for 276 yards to only 21 for the Matadors.

Cemetery by Seigler Funeral Home of Matador.

Mrs. Franks was a native of Arkansas. She moved to Flomot from Cottle County in 1942. She was a Baptist.

Survivors include a son, Coy Franks of Flomot; a brother, Sam Pinkerton of Amarillo; a sister, Mrs. Eldis Bridwell of Littlefield and three grandchildren.

## Thanksgiving Dinner Planned Monday For "We The Women"

A bountiful meal of turkey, dressing and all the trimmings will be served to "We the Women" Monday at noon at the Quitaque Community Center. This will be a good occasion to bring a friend and join the Quitaque ladies in giving thanks for country, community and friends.

The annual Bazaar is right around the corner on November 17 and there has been a lot of activity at the Community Center on quilting the "Heirloom Quilt" to be sold at the Bazaar.

Johnnie Morrison has put the quilt together and several ladies have embroidered the names on the quilt. Many of the women of the community who are well known for their talent in quilting have given their time in doing

the needlework on this quilt. Mrs. W. E. Morrison, Johnnie Morrison, Mrs. Willie Woods, Lillian White, Judy Morrison, Vera Woods, Chloe Hamilton, Anna Mae Smith, Margie Boyles, Mrs. Claude Loudermilk from Silverton, Lois Bedwell and Pat Lane from Plainview have been some of the ladies who have worked this week. The quilt will truly be a work of art and will be passed on to future generations for years to come.

The spirit of working together on such projects as the quilt, the Bazaar, community beautification and improvement draws a community closer together and gives one pride in the community. "A joy that is shared is a joy made double."

## Absentee Voting Closes Friday

Absentee voting in the Texas Constitutional Amendment Election will continue through Friday, November 2, in the County Clerk's office in the Hall County Courthouse.

Lakeview voters will go to the Lakeview School. Turkey and Estelline voters will mark ballots in the respective City Halls in those communities.

Voters will decide the fate of three proposed constitutional amendments. The first concerns the appointment of notaries public for the state, the second would provide for legislative review of the process of rulemaking by agencies in the executive department, and the third would authorize the legislature to provide for the guarantee of loans for purchase of farm and ranch real estate for qualified borrowers by the sale of general obligation bonds of the State of Texas.

## Weatherization Program Beginning Again In Turkey

The Tribune received a change of address from Beverly (Rogers) Howard last week. She and her husband have recently moved into a new home in Amarillo. She told the Tribune that her grandmother, Viola Boyles, has been in the hospital in New Boston, Texas, and very ill, but was reported to be improving. Mrs. Boyles' address is 32 Heath Courts, New Boston, Texas 75570. She will appreciate cards and letters from her friends.

The weatherization program is beginning again in Turkey. In this program, funds have been made available to weatherize homes for the low-income, elderly and disadvantaged. The amount of money being authorized for each home is not to exceed \$400.00. This amount must be used for materials to make the home warmer in the winter and cooler in the summer, as may be required. People who think they will be eligible should contact the City Hall in Turkey.

A Bit Of The Bible

Christian is given in verses 10-17. Paul tells Timothy that if there is any other thing contrary to sound doctrine according to the glorious Gospel of God it would be under the law. Thanks be unto God we are no longer under the law but in the Grace of Almighty God.

Verse II tells us that this Gospel that we know was committed unto Paul's trust as it is ours. This is something that you and I as Christians should dwell on. This Gospel, this Bible, has been given for us to use, to promote the Kingdom of God. We are to take it and Go Into All The World, Preaching this Gospel to Every Creature.

## Break-In Discovered at Tax Office

The Hall County Tax Assessor-Collector's office was entered sometime Tuesday, October 16, or early Wednesday, October 17, and the knob of a safe was broken off, but nothing was found missing.

Memphis Policeman Charles Black, who investigated the break-in, said the would-be burglar entered through a south window which he forced open with a metal bar while standing on a ledge.

The opening lever of the safe was pried off, but the safe door was still locked when Jo Carmen, Tax Assessor-Collector, opened the office at 8:30 a.m. Wednesday.

The safe was opened and the contents were found to be undisturbed.

"We checked everything and found no license plates or decals or anything else missing. All our machines are still here," Mrs. Carmen said.

SBA Centers will be set up in the near future on a weekly basis at locations and times that will be announced at a later date. Evening meetings are being

## Grains Eligible For Reserve; No 1980 Feed Grain Set-Aside, Diversion

It has been announced that all 1978 grain crops currently under loan to the Commodity Credit Corporation (CCC) and all 1979 grain crops eligible for CCC loans may be placed in the farmer-owned reserve program. The only grain not affected is barley, which currently has a market price above the department's "call" level, thus making it ineligible for the reserve.

It was also announced there will be no set-aside or diversion for 1980 feed grain crops.

Producers are reminded about the importance of good farming practices as they plan for 1980 and are cautioned not to bring fragile lands into production. Farmers who plant these lands in 1980 will not have this added to their farms' normal crop acreage in subsequent years.

The program decisions were based on projected supply and demand factors for 1979 and 1980. A tighter supply is seen for the future. The actions announced will help meet domestic and export requirements and reduce the risk of rapid food price inflation.

Under actions announced, all producers of barley, corn and sorghum will be eligible for target price protection, loans and for participation in the farmer-owned reserve in 1980. Oat producers will be eligible for loans and the reserve program in 1980.

Producers are assured of at least the same 1980 feed grain and soybean loan rates as in 1979. This means loan levels of at least \$2.00 for corn, \$1.90 for sorghum, \$1.63 for barley and \$1.03 for oats, \$1.70 for rye and \$4.50 for soybeans.

The public will be asked to comment on possible changes in the operation of the farmer-owned reserve program in the next few weeks. No changes in the reserve management rules are being made at this time.

Preliminary feed grain target price ranges will be announced by March 15. Current estimates based on the formula in the Food and Agriculture Act of 1977 indicate these prices would be \$2.08 per bushel for corn, \$2.46 for sorghum and \$2.35 for barley.

In order to qualify for full target price protection, farmers cannot plant more corn, sorghum or barley in 1980 than was considered planted and set aside from these crops this year. Farmers who exceed this acreage will be subject to an allocation factor that can reduce any target price payment by up to 20 percent.

National program acreages (NPA) of 82.1 million acres for corn, 13.9 million for sorghum and 7.9 million for barley were also announced. The NPA is the number of acres for each crop needed to be planted to meet projected domestic and export requirements as well as provide for an adequate carryover.

Crops eligible to move immediately into the farmer-owned reserve are 1978 and 1979-crop wheat, corn, sorghum, oats and rice under CCC loan. Barley will be eligible for entry when it is no longer in a call status.

## Teleservice Offered By Social Security

The Social Security Administration has available several services which aid in cutting energy costs and offer convenience to its beneficiaries.

Teleservice is an important aspect of Social Security's services. Many claims can be processed from start to finish by a phone contact with a social security representative. Once the claim is taken the forms and proofs necessary for completion of the file can be mailed to the office. A person can file for retirement, disability, survivors, or Medicare payments at his convenience from the comfort of his own home.

In addition to claims processing by telephone, answers to general inquiries; information regarding benefit amounts; answers to questions about both Social Security and Supplemental Security Income checks, and inquiries about Medicare coverage and Medicare claims can usually be resolved by a simple phone call to the local social security office. Most people can quickly and easily conduct their social security business by telephone without leaving the comfort and convenience of their home and without the expenses for gasoline to travel to and from a social security office.

Another important service available to social security beneficiaries is a direct deposit of their social security checks to their bank accounts. Once a beneficiary notifies his bank to request direct deposit of his checks, the check goes automatically to his bank account. The savings and conveniences of this arrangement are numerous. No time or gasoline need be spent in transporting the check to the bank for deposit. If a check is deposited directly, the chances of its being lost or stolen are minimal. In areas of high risk where mail theft occurs at residences, there is no delay because of the necessity of requesting a replacement social security check—the check is already in the bank account because it was automatically deposited on a timely basis. Inquire at your bank about direct deposit arrangements.

Any questions regarding any social security matter should be addressed to your local social security office. The Amarillo Social Security Office is located at 3119 S. E. 27th. The Teleservice Number is 376-2231.

Try Teleservice; you will like it!

burs, stems and other—going into the module exceeds 10 to 12 percent, excessive heating could occur, damaging the seed and even the lint.

Similar damage can occur to "wet" cotton that is stored in ricks or trailers for two to three days before ginning.

The last good cotton seed crop we had was 1977. Some good seed was produced in 1978, but with 4.6 million acres of cotton planted on the South Plains this year, the seed supply has been nearly depleted.

Cotton farmers will depend heavily on 1979 seed for their 1980 planting. Producers and delinters both will have to be careful how they handle this seed.

Particular attention should be given to monitoring the temperature of cotton stored in modules. Temperature readings should be obtained and recorded daily until it is apparent that tempera-

**THE SENSIBLE DIET PLAN**

The calories in our diet should come from three main nutrients—carbohydrate, fat and protein. A sensible diet will not omit any of these essential nutrients.

The Sensible Diet Plan allows the required nutrients each day without exceeding the body's caloric needs. It makes meal planning easier since calorie counting is not required. You are able to substitute a variety of foods into the diet.

The key to the success of this diet plan is to know and observe the serving sizes. This requires accurate measurement. A ½ cup serving is exactly that—no More. A diet scale may be necessary to determine a three ounce serving of meat.

- This Sensible Diet Plan is:
- 4 ½ cup servings of fruit and/or vegetables
  - 4 slices bread or 4 ½ cup servings of cereal or pasta
  - 2 cups skim milk
  - 2 2½ to 3 ounce servings lean meat, fish or poultry
  - 3 teaspoons fat (do not exclude—it has a high satiety value and helps keep you from feeling hungry)

Of course, this does not include pies, cakes, fried foods, banana splits, and all the goodies we think are "essential." But it will provide a well-balanced diet with adequate variety. It will also be the kind of meal pattern you could live with for a long period of time.

Weight loss is a slow process. Weight was gained over a long time and must be lost the same way—no more than one to two pounds per week.

As with all diets, you should have your doctor's approval. You may have a physical problem which requires additional dietary restrictions.

Remember, in dieting, cut down—not out—a necessary food group.

The American farmer builds two things better than anyone else in the world. He builds the next generation, passing along a special kind of wisdom... respect for the soil, honesty, independence, and faith in the future. And he builds his land, leaving it better than he found it. That kind of building usually requires borrowed long-term capital. That's where we have helped for 60 years.
