at the Quitaque Community Cen-ter on December 16 to tour the open houses in Quitaque's Parade of Homes. The bus ride to the homes was a fun-filled affair,

for there was singing, visiting and lots of laughter.

The first home visited was the L. B. Monk's south of town. One of the unusual decorations in the Monk home was a train built by L. B. and Elizabeth partially cir-cling the tree and filled with

gifts for the family members.

The second stop was at the Grady Tyler's, where the home was filled with strains of organ music from the antique pump organ played by Cindy Griffin. Each room of the house was gaily decorated and there was a festive air as the group left for the Charles Barrett home.

Mrs. Ralph Carter spent last week in Canyon with her grand-sons, Scott, Layne and Todd Hed-rick.

Reagan Brown Speaks At Quitaque Lions Banquet

Commissioner of Agriculture Reagan Brown presented an in-spirational speech at the Quita-que Lions Club Annual Christmas Banquet last week, and the Lions, ladies and guests were entertained and enlightened as he spoke of the gifts that symbolize the true spirit of Christmas. His message was warmly received, and a standing ovation was given him at its conclusion.

Mr. Brown is one of the top

eight elected officials in Texas. He has made more than 5000 community building speeches during his career, and has spoken in Quitaque several times in years past. As Commissioner of Agriculture he heads one of the State's most vital agencies, and he has received many distin-

The earliest source regarding the exact date of the birth of Jesus:

The Christian era was calculated by the monk Dionysius Exiguus in the

Turkey Automotive 6th century after Christ. He placed Jesus' birth on Dec. 25 in the year 753 of Rome, and decided 754 should be the first year of the Christian era. How-ever, Biblical scholars find his calculations in error and place the birth of Jesus at 4 B.C. or earlier.

In AD 274 the emperor Aurelian chose December 25 because it is just after the winter solstice, or the shortest day of the year, and light once more starts to strengthen and gradually flood more of the world for longer periods each day.

Besides, that date already was a great holiday for the pagan Romans, and Christian leaders thought it proper to move in and take over an accepted occasion.

What's more, no one knew the actual birth date of Jesus, since neither Scripture nor any contem-porary legend gave any precise information on it.

At some point before AD 336 the church at Rome accepted December 25 as the day for com-memorating His birth, and so it has been ever since, although because of a difference in calendars, the Eastern church celebration and that of Western churches rarely co-

Here's Handy Party Mix

Here's a good party mix you can make for your New Year gathering. Prepare it in ad-vance, store in airtight jar and serve when you are ready.

1/2 lb salted Spanish peanuts 1/2 lb mixed salted nuts 3 3/4 cups slim pretzels 3 cup bite-size shredded wheat

squares $5\ 1/2\ \text{cups}$ crisp donut-shaped oat cereal 4 cups bite-size rice cereal

squares 1/2 lb butter, melted

1 Tbsp Worcestershire sauce 1 1/2 tsp garlic salt 1 1/2 tsp seasoned salt

Combine peanuts, nuts, pretzels, and cereals in a large roaster. Add melted butter, Worstershire sauce, garlic salt, and seasoned salt; mix together thoroughly. Bake in a slow oven (250° F.) for 2 hours, stirring every 15 minutes. Store in sealed airtight jars. Recipe makes about 4 quarts.

Feasting Long Important To New Year Observance

In many areas of the south, the New Year meal is incomplete unless black eyed peas are part of the menu. Supposedly, it assures good fortune to family and friends.

Much earlier in this country, American Indians traditionally several acorns and salmon on the first day of the new season.

Don't Let Christmas Blues Spoil Your Holiday Season

There's nothing unusual about having the blues at Christmas. There's always pressure on everyone to be happy at Christmas and yet almost eyeryone can get holiday problems, and almost no one

blems, and almost no one thinks anyone else does. Most people who become depressed at this time of year aren't suffering from real depression but from temporary sadness. Doctors say that our sadness. Doctors say that our holiday expectations become unrealistic. It's an expectation unique to the season. Disappointed expectation and social pressures may help explain why people with problems feel them more around Christmas.

Let Children Enjoy Santa No fantasy is more beloved by children and remembered by adults than that of Santa by adults than that of Santa Claus. The years three, four and five are the Santa Claus years when children are true believers and relish all the details of the Santa fantasy.

Santa should always be presented as a character that a

presented as a character that a child can love and trust, one who symbolizes generosity and kindness. Most young children accept the story of Santa Claus without question, though some five year olds may begin to suspect that it isn't really true. More often than not they will keep their suspicions to themselves because they love the fantasy and love being a the fantasy and love being a part of it.

We Make Our Holiday Through What We Do

In some ways, we make too much of the commercial aspects of Christmas. But, rather than shout the old refrain that "Christmas is too commercial," we should remember that each of us is free to observe Christmas as

choose.

Gift giving belongs; it is part of the spirit of Christmas! Let emphasis be on giving and sharing. We make it even more meaningful by giving to the less fortunate, with no thought of receiving something in return.

And, remember, the best gift of all—an act of kindness— costs nothing at all.

Joy & Tears In Mistletoe Myth

From Scandinavian mythology comes a sad tale of a god's envy of the be-loved son of the goddess of love. Although seeking the promises of earth, air, fire and water to protect her son, he was slain by the jealous god from a dart of mistletoe, a parasitic plant which attaches itself to trees and does not grow from any of the four elements. The tears of sorrow from the god's mother be-came the white berries of the plant and she decreed that mistletoe would never again be used as a weapon, but as a symbol of love, and that she would place a kiss on anyone who passed under it!

The legend of kissing under the mistletoe during the Christmas season came from an ancient custom which deemed that the girl who received no kisses un-der the mistletoe by the end of the year would not marry in the new year!

BOXING DAY

The day after Christmas is still celebrated as Boxing Day in both England, where it originated, and Australia.

The holiday goes back to early England, when landlords and employers would set aside gifts that they didn't want, to give to the needy and to tradespeople.

Today in England and Australia, Boxing Day is observed as a holiday from work, giving weary parents a chance to rest from the rigors of shopping and pre-paring Christmas feasts, and giving youngsters a chance to play with their

The survey follows and is a part of the regular Census of Agriculture conducted this year. Survey report forms will have questions about irrigation water sources, quantity used, and distribution methods. In addition, information will be obtained on crop acreage irrigated, vields, pump energy requirements, and expenses.
The 1979 Farm and Ranch Ir-

rigation Survey, considered by census officials as the most de-tailed data collection effort in this field, is designed to produce comprehensive statistics on irrigation for the nation that are unavailable from other sources.

Survey forms will be mailed to about 10% of U. S. irrigators. Although response to the fourpage form is mandatory, census officials stress the law also requires that individual reports be kept confidential. Only statistical totals will be published. If book figures are not available, officials said that best estimates will be accepted. The forms

days of receipt in postage paid envelopes provided by the Census Bureau. The results are expected to be published in early 1981, as part of Volumn 5 Special Re-ports, 1978 Census of Agricul-

ingly important role in American agriculture. The total of irrigated acres increased from 37 million to 41.2 million during 1964-74. The arid acres of the West were the greatest water users, with 23.5 million acres under irrigation in 1974. The re gion was followed by the South, 10.8 million acres; the North Central States, 6.8 million (near-ly double its 3.6 million in 1964); and the Northeast, also 200,000 acres. The 1979 survey is expected to show another sharp nation

The 1974 Census of Agricul ture showed that only 12% of the U. S. farms were irrigated, yet they accounted for 27% of the value of all agricultural products sold and 37% of the val ue of all crops sold. In addition, 63% of orchard land and 52% of the acres of all vegetable harvested for sale are irrigated.

Bureau officials point out that:

—Irrigation is one of the principle methods of growing more food on less land. Demographers expect the world population to double to eight billion persons in 30 years, while land available for growing crops remains almost static. Information on irrigated crop production will help to estimate food supplies available in

-Irrigation accounts for 81% of all water consumed in the United States.

"The Nutcracker" Now A Holiday Tradition

One of the most charming traditions during the holiday season is the presentation of the famous sentation of the famous ballet, The Nutcracker. Written by the Russian composer Peter Ilyich Tchaikovsky, this ballet about a little girl and her nutcracker has won the hearts of millions of children and adults since it was first performed during the Christmas season of 1892 in St. Petersburg, Russia.

Based on a story by E.T.A. Hoffman, the ballet opens with a party at the home of a little girl, Clara. Among the gifts under the tree is a nutcracker, shaped like a soldier. Clara is de-lighted with the unusual gift but unfortunately, her brother breaks it and that night Clara dreams about the nutcracker.

In her dream, the nutcracker comes to life and leads the toy soldiers against the Mouse King and his army. Clara kills the Mouse King with her slipper to prevent his vic-

tory and lo, and behold, the nutcracker becomes a handsome prince!

Together they journey to his kingdom, where the Sugar Plum Fairy and her court of toys and sweet-meats entertain the young prince and Clara.

The two young people watch snowflakes dance, flutes dance, and the beautiful "Waltz of the Flowers," among other delightful dances.

The fantasy of the story and the beautiful music of Tchaikovsky combine to make The Nutcracker a vis-ual and musical delight for both young and old.

In cities across the nation, Christmas performances of the now-classic ballet are becoming a tradition. Its fairy-tale quality, its gorgeous spectacle and beloved score make *The Nutcracker* ideal holiday entertainment for the young and the young at

The Department of Public Sa-fety today estimated that 123 vehicle mishaps during the forthcoming Christmas and New Year holiday periods.

DPS Director Wilson Speir estimated that 67 persons would be killed during the Christmas holiday weekend and that another 56 persons would be killed during the New Year holiday weekend. oth counts are 102 hours long. He added that the Christmas

count starts at 6:00 p.m. December 21 and continues until mid-night December 25, while the New Year count starts at 6:00 p.m. December 28 and continues

until midnight January 1.

Speir said that statewide traffic deaths are presently running about six percent ahead of the record pace of a year ago. Last year there were 3,980 persons killed statewide in motor vehicle

crashes.

At the end of preliminary holiday counts last year, 57 deaths were reported during the Christmas period and 39 during the New Year holidays.

Speir said all available DPS troopers would be on duty. State Troopers and local officers will be working together to keep traf-fic moving safely. "I have asked our officers to place special em-phasis on removing drunks and reckless drivers from the streets and highways," he added. "We will continue to work with

the news media to keep motorists posted on unusual traffic conditions and to advise them where and why serious holiday wrecks are occurring," Speir said.

New Rabies Control Program Discussed

Dr. John D. Galbreaith, region al veterinarian for the Texas De-partment of Health, was in Memphis this week to explain to County Judge Lester Campbell some of the features of a new act passed by the recent Texas legislature relating to the control and eradication of rabies.

Dr. Galbreaith stated that the Commissioners of each county are required to designate one officer to serve the county as its local health authority to carry out the provisions of the act. The officer so designated may be the county health officer, muni-cipal health officer, animal control officer, peace officer, or any entity that the commissioners court considers appropriate (except as restricted by a rule of the state board.)

The local health authority will have the authority to quarantine at least ten days any animal that the authority has reason to be-lieve is rabid, or has attacked an individual. The law also states that any person having know-ledge of an animal bite or scratch or other attack on an individual that the person could reasonably foresee as capable of transmitting rables shall report the incident or animal to a local health authority of the county or city. Galbreaith explained that there is no penalty for not mak-ing such a report, but that the law does state the person "shall make the report."

Most of the rabies in this area finds its source in the wild animal life, particularly among skunks, the doctor said. Many farm families keep pets, both cats and dogs, and these animals are more subject to becoming rabid.

Therefore, he emphasized, all pets are to be required to be vaccinated for rabies after January 1, 1980 (effective date of the new law). The law states that the owner of each dog or cat shall have the dog or cat vaccinated against rabies by the time the dog or cat is four months old, and at regular intervals after that.

More than 1,000 cases of rabies, with three deaths, were re-ported in Texas so far this year.
