RUN OVER BY TRUCK

Hobson Sikes of Admiral, met with a serious accident Wednesday. He came in with Lon Hobbs with a load of wheat on a truck; when opposite the Home National Bank he got off the truck, while running, and fell under the hind wheel which passed over his right leg, near the body. His cries attracted attention and people rushed to him from every direction and carried him up stairs. Dr. Griggs was nearby and went to his assistance. No bones were broken, but the doctor said he could not determine the extent of his injuries just now.

The young man was carried home in an auto Wednesday evening. Fears were expressed by those who saw the accident that he was more seriously hurt than some believed.

Hobson Sikes was recently discharged from the army, and is a son of S. W. Sikes.

We hope his injuries are not serious.

MARRIED

Mr. A. C. Patton, of Fort Worth, and Miss Aetna Terry, daughter of Mr. and Mrs. M. M. Terry, of Baird were married at the Presbyterian Manse, Wednesday, October 15th, 1919, Rev. James D. Heater, performing the marriage ceremony.

Mr. and Mrs. Patton left Thursday for Fort Worth, where they will make their home. Mr. Patton is employed by the T. and P. Ry. as brakeman, running between Baird and Fort Worth.

R. L. ALEXANDER

COAST TO COAST U. S. FOR LEAGUE

MILLIONS ACCLAIM WILSON AS HE SPEEDS ACROSS THE LAND.

FEW ASK FOR CHANGES

Majority Feel That President's Guidance Should Be Held—He Regards Pact As Sure to Come Soon.

(By Mt. Clemens News Bureau)

Aboard President Wilson's Special Train—From the Capital at Washington to the far Pacific coast the President of the United States has journeyed on the most unusual expedition ever undertaken by a chief executive of the nation.

To discuss national questions, many presidents have toured the land; but Mr. Wilson is laying before America a question which affects the whole world—the question of whether or not we are to join in the League of Nations; whether we are to forget our former isolation and share with the other peoples of the earth the responsibilities of maintaining civilization and preventing, as he says we can do, future warfare.

Between the capital and the coast the president made fifteen speeches and half a dozen brief talks. All of 100,000 fellow citizens listened to him. Several millions had the chance to see him, and apparently everyone wanted to see him, from those who thronged the streets of the cities and towns where he stopped, to those who came to the railside or stood at little flag stations in remote places, knowing their only reward could be a fleeting glimpse and a wave of the hand.

He has met and talked to all types of citizens—to men big in the business, financial and professional worlds, to farmers and mechanical workers, to Indians and cowboys and foreign-born herdsmen and rangers, to soldiers and to mothers who lost soldier-sons in the late war.

What do they all tell him? unambiguously they say they want peace definitely settled, they want no more wars, they want the League of Nations, and most of the American people, it may be fairly said, tell the President they want the League just as it is, without the reservations or amendments which certain senators have insisted upon. The majority of citizens say to those who interview them on this tour:

"Woodrow Wilson guided us rightly before and during the war with Germany. We entered that war, everyone agrees, to end all wars. He says the league can do that. We want to do that, so let us keep on trusting him and get the league into operation as soon as possible. Forget politics."

Most Americans encountered on the tour have forgotten politics. Republican Governors and Mayors have introduced the President to his audience; the Major part of the local committees which have met him have been Republicans. They have all said: "We are nothing but Americans, Mr. President."

Mr. Wilson's arguments for the league, briefly summarized, are those: There can be no peace, either now or in the future, without it. There can only be a regrouping of nations and a new "Balance of Power," which is certain to lead to war. There can be no war in the future, with the league in existence, because no single nation would defy the united rest of mankind, and if it did, it could be brought to terms by an economic boycott, and without the use of arms.

There can be no reduction in the cost of living until the league is established, for nations will not go ahead with peace time production until they know that peace is definitely assured and that production of war material is no longer necessary.

There can be wonderful prosperity, with the league in existence, for relations of labor and capital all over the world will be made closer and more friendly, and the worker will receive a fairer share of what he produces.

These declaration of the president, logically and eloquently put, have left his hearers thinking and thinking deeply. And then Mr. Wilson has pointed out, the people themselves, as differentiated from senators and politicians, seem to want just what the president wants, which is America for leadership.

Quite as unusual as the purpose of the cross country tour is the manner in which it is being carried out and the completeness of the arrangements on the nine car train which is bearing the party.

At the rear is the private car Mayflower, occupied by the President and

13 MILLION WHITE PEOPLE NOT SAVED

THIS IS ONE OF THE PRESSING STATE MISSION PROBLEMS IN THE SOUTHLAND.

THE SITUATION IS OUTLINED

Baptist 75 Million Campaign Has Apportioned \$11,000,000 To Be Employed During the Next Five Years in Meeting Need.

Within the eighteen states comprising the territory of the Southern Baptist convention are 13,000,000 white people who are not only not identified with any church, but who do not claim to be christians, according to information gathered by the Baptist 75 Million Campaign. To try and reach these people with the gospel is one of the aims of the campaign and to meet the problem the state mission organization in the various states will set themselves. To help these organizations in meeting that problem the sum of \$11,000,000 has been apportioned from the total of \$75,000,000 that is sought for all purposes, and during the next five years the state mission forces will seek to reach these millions of people right here at home with the gospel and enlist them in some phase of christian work.

According to this same source of information, it is learned that there are 3,391 towns and villages in the South with a population of 200 or more in which there are no Baptist church organizations or no Baptist houses of worship. Inasmuch as these towns influence more or less the surrounding territory an effort will be made to reach them and the territory surrounding them during the five-year program of the Baptists, it is announced.

There are seventy-four county seats in the South without a single Baptist church or meeting house, it has been ascertained by the campaign headquarters. By reason of the large number of public officials residing there, and the large number of people who go there from every section of the county to attend the sessions of the various courts, pay their taxes and the like it is regarded that the county-seat towns are of especial importance

and it is hoped that before the next five years have passed there will be an active Baptist church in every county-seat in the South.

Engaged in the work of state missions at present are 1524 missionaries, and while this may seem like a reasonable number, when the vast territory to be served is considered it has been found that fully 1,000 extra men and women are needed at once, for in addition to reaching the people who are not christians there are many weak, struggling churches which need assistance and whose members need development. In the several states of the Southern Baptist convention, for instance, there are 9,600 churches with a membership of many thousand which give but very little to any interest of the denomination and which are doing but very small things for the uplift of their communities.

In addition to these very weak churches, many of which have no pastor, there are in the various states a total of 19,688 churches which have preaching services only once a month, 3,000 churches which have services only once a month, and only about 2,200 full time churches. Part of the \$11,000,000 apportioned for state missions will go to the strengthening of the weak churches and the bringing of them to full-time pastorates where possible.

Leaders in the campaign have sought to care for every interest of the denomination in the \$75,000,000 that is asked in cash and five-year pledges during Victory Week, November 30-December 7, when the final drive will be made, but they recognize that the future development of the church depends in a great measure upon the development of the churches at home which is the peculiar task of state missions.
