FIRE PREVENTION AND CLEAN-UP **WEEK OCTOBER 8-15**

Reliable statistics show that the larger portion of the annual fire loss Parent Teacher's in Texas is due to preventable causes and that the exercise of reasonable precaution would save the lives of many persons, as well as reduce to a large extent the yearly property loss in this State, which in recent times has exceeded 20 million dollars.

It has long been the custom in America to observe one week in the year as Sire Prevention Week, the purpose of which is to bring to pub- sident presiding. lie attention the fact that the fire loss is everybody's loss and everybody's responsibility, and to impress the need for eliminating every condition that might cause or promote the spread of fire.

A Proclamation

THEREFORE, I. H. Schwartz, Mayor of the city of Baird, to the end that needless destruction of life and property may be reduced, do hereby proclaim October 9th to 15th, A. D. 1932 as FIRE PREVENTION WEEK in year Home Economics Girls. this city, and I call upon our citizens to clear their buildings and premises chairman of Room Mothers. of any and all conditions from which fires might occur.

FOODS TASTE BETTER ... When They're Cooked Electrically

It is common knowledge that foods cooked in their own juices are far more tasty and more healthful than when flavors and vital food elements are boiled away as in old-fashioned cooking methods. Obviously, then, wouldn't it be wise to investigate a modern method of cookery that offers full-flavored, healthful meals-and that makes possible substantial savings every month in the year!

Then call in at our Merchandise Showroom and ask one of our trained representatives to cell you the vital story of modern Electric Cookery. He will show you how an Electric Range will save money for you

... how it will produce finer, more attractive and more healthful meals . . . how it will give you new leisure every day . . . how it will end hours of hard kitchen slavery. He will explain these important Electric Cookery advantages-and produce actual figures that will show you what one of these modern Electrical Servants will mean to you!

Now's the Time to Buy

Call us for an individual investigation of the cost of cooking by bome. You may be surprised to know that there are many cases where electric cookery aroundly decreases the otal of electric and Prices never were lower . . . the need for economy, health and leisure never greater. You deserve the immense benefits of modern Electric Cookery without delay-so why not make your investigation now . . . TODAY?

We have General Electric Hotpoint ranges to fit every need and every pocketbook. And the terms can be arranged to at the most modest budget. Take advantage of this SPECIAL OFFER. . . . It has been made in order to give you the invaluable aid of a modern Electric Range!

With Baird Baptist

We are into the "Go To Church Campaign" Beginning next Sunday every person in Baird to attend church services some where during the month of October. All of the churches are going in for this very thing. We are urging every one to be in Sunday School or Preaching, or both some where every Sunday, if possible and if not every Sunday, then just as many times as it is possible for them

We offer these special attractions Sunday and we will make good if you come. Special music, good old gospel preaching and a real hearty welcome. Come try us out.

Yours truly,

JOE R. MAYES.

for COLICKY BABIES

. . . THROUGH CASTORIA'S GENTLE REGULATION

The best way to prevent colic, doctors say, is to avoid gas in stomach and bowels by keeping the entire intestinal tract open, free from waste. But remember this: a tiny baby's tender little organs cannot stand harsh treatment. They must be gently urged. This is just the time Castoria can belp most. Castoria. you know, is made specially for babies and children. It is a pure vegetable preparation, perfectly harmless. It contains no harsh drugs, no narcoties. For years it has helped mothers through trying times with colicky babies and children suffering with digestive upsets, eachs and fever. Keep genuine Castoria on hand, with the name:

Natural Gas Service, because of the fact that rates were not increased when prices generally were on the upgrade, is STILL the least expensive item in the cost of running a household.

During the past summer, when gas was used principally for cooking and water heating, the cost to many homes has been little more than the price of a postage stamp for a daily letter. Even in cold weather when larger quantities are required to guard the health and comfort of the entire family the gas bill represents only a small fraction of the winter household expenses.

In fact, the average gas bill in this section the whole year 'round is only about 15 cents a day for house heating, cooking and hot water supply. . . A dependable year 'round service that benefits the entire family and costs less than the gasoline expense of one small automobile . . . less than any other necessity that contributes to the health, comfort, convenience and happiness of your home.

As a fuel . . . as a service, there is no substitute for natural gas. Take advantage of its inexpensiveness for your complete comfort this winter.
