## SANTIAGO SHAKEN BY EARTHQUAKE

### Chinese Drive Japanese Back in Fierce Battle Today

#### U. S. HOUSTON ARRIVES AT BATTLE SCENE

SHANGHAI, Feb. 3.—The Chinese held off the Japanese attack and drove them back today in a fierce battle at the Hongkew border of the international settlement.

A similar battle went on in the nearby native quarter and Chinese forts at Woosung, 20 miles from the city, were heavily bombarded by Japanese warships.

Despite withering machine gun, artillery and rifle fire and aerial bombing the Chinese, without leaving their own trenches, drove the Japanese back with their nine field pieces a quarter mile from the rifle range on the Hongkew border of the settlement.

The Japanese admitted they had again failed to dislodge the Chinese from the north station on the Chapei border of the settlement. Japanese casualties were announced officially at four killed and 22 seriously wounded.

Admiral Montgomery M. Taylor arrived today on the cruiser Houston, vanguard of the United States naval reinforcements from Manila. The firing at the forts ceased after his arrival, indicating perhaps the influence of the American arrival.

Headquarters of the nineteenth Chinese army officially announced the Woosung had sunk a Japanese destroyer and forced others to withdraw, seriously crippled. Japanese naval authorities promptly denied the claim.

#### JAP LEGATION IS STONED.

ATHENS, Greece, Feb. 3.—Communists stoned and partly damaged the Japanese legation today, shouting "down with Japanese imperialism."

#### CHINA ACCEPTS PEACE PLAN.

NANKING, China, Feb. 3.—Official acceptance of the American and British proposals for peace in China was announced by the foreign office today.

The announcement said China was ready to arrange for negotiations with Japan to withdraw their troops and establish a neutral zone around Shanghai to be paroled by foreign forces.

#### JAPAN REJECTS FIFTH PROVISION.

TOKIO, Feb. 3.—Japan today rejected the fifth provision in the joint American and British notes designed to restore peace in China.

The provision called for settlement of all outstanding controversies in the spirit of the Kellogg pact outlawing war. Such a settlement would have meant loss of Japanese gains in Manchuria.

#### "FAVORABLE" REPLY.

WASHINGTON, Feb. 3.—The state department announced today receipt of a "favorable" reply from the Chinese government to the British-American proposals for peace in the far east.

Officials would not reveal details of the reply which was communicated from Nanking, but it was understood the Chinese answer was full acceptance of the five-point peace program.

Japan's response has not yet been received.

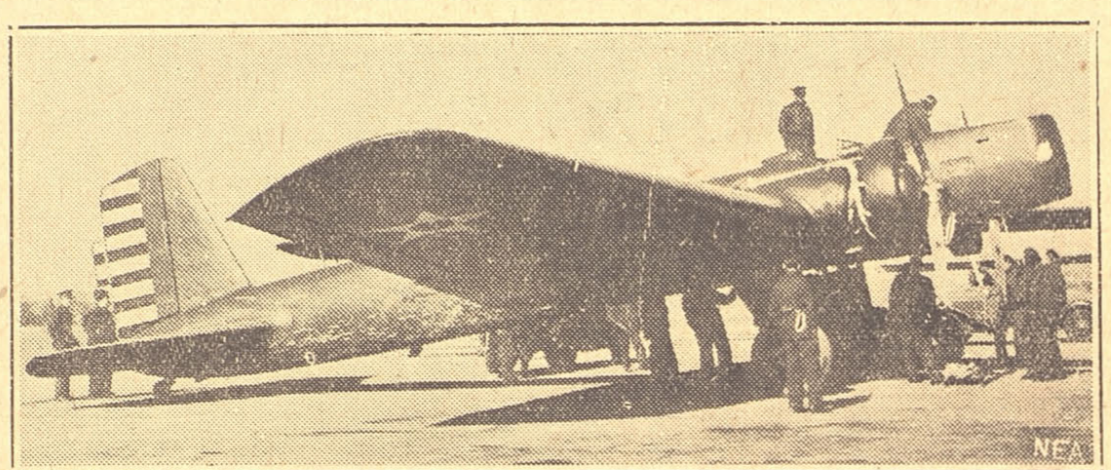

#### KITTEN GAME AT DALLAS IS POSTPONED

The Shoe company, of Dallas, whose team the Kittens, basket ball squad of Randolph college was to meet at Dallas Saturday evening has postponed the contest pending reorganization of their sextet.

Coach H. R. Garrett of the Kittens announced today. The Fort Worth outfit has a new coach and is adding a couple of new all-Americans and promised to be ready for the Kittens in the game scheduled to be played here February 13. The Kittens will go to Dallas for a return engagement later.

Coach Garrett said that he is attempting to schedule a game with a Fort Worth team on the Cisco court for Saturday evening of this week.

#### Ton of Bombs Carried on This Plane at 190 Miles an Hour!

Capable of carrying a ton of bombs and a crew of four, at 190 miles an hour, the newly built Boeing bomber is shown above as it arrived at Bolling Field, Washington. Major Willis Hale (at left) flew the deadly craft from Dayton, Ohio, to the capital, where government aeronautical experts gave it a thorough test before its acceptance for the U. S. Army.

#### ESTIMATE PUTS 946,885 MEN AND WOMEN ON U. S. PAYROLL

WASHINGTON, Feb. 3.—Uncle Sam's payroll has upon it the names of 946,885 men and women. They receive an average annual wage of \$1,575, for a total payroll of approximately \$1,494,000,000, according to estimates of the Bureau of the Budget.

This army of employees exceeds the population of the State of Oregon. It means that one in every 125 men, women and children in the United States collects a salary from the federal government.

The payroll is so large and the number of employees so great that there is no bureau in all of the governmental machinery that can say accurately just what it amounts to. The United Press, however, has gathered data from such widely varied sources as the Budget Bureau, the Civil Service Commission and the Library of Congress, which reveal in fairly accurate figures the magnitude of the government as a labor employer.

On June 30, 1931, the end of the last fiscal year, there were 29,172 more employees of federal departments, bureaus and offices than on June 30, 1929, when the boom was at its peak.

Despite reductions in the size of the army, navy and marine corps.

#### UNCLE SAM'S HIRED HELP.

The following table shows the number of employees in the different branches of the United States government service. Unless otherwise noted, figures are of June 30, 1931, the end of the last fiscal year.

Post Office Dept.	371,483
War Department (civil employees)	53,356
Treasury Dept.	51,744
Navy Department (civil employees)	48,782
Veterans' Administration	28,645
Agriculture Dept.	28,175
Commerce Dept.	23,680
Interior Dept.	19,777
Other Departments, Bureau, &c.	36,096
Judicial Service	16,028
Legislative Service	3,759
U. S. Army	136,500
U. S. Navy	189,709
U. S. Marine Corps	116,928
U. S. Coast Guard	11,900
Panama Canal	10,323
Total	946,885

\*Approximated for present.  
\*\*As of Dec. 31, 1932.  
\*\*\*During present session of Congress.

#### 63 Army Planes Seek Lost Ship

RIVERSIDE, Calif., Feb. 3.—Sixty-three army planes from March field took off today to join in the search for a missing Century Pacific airplane and its eight passengers, all believed dead.

Forty-five pursuit planes, 15 bombers and three transport ships were included in the fleet which will make its base at Bakerfield.

The plane was reported missing last Saturday in the mountainous area between Los Angeles and Bakerfield.

#### SWEEP FOR DOLLARS

ALBANY, Ore., Feb. 3.—A broom here sweeps silver dollars. A bank employe dropped a sack containing \$1,300 in half dollars on a principal street. With the assistance of a broom donated by a storekeeper, all the pieces except four were recovered.

#### TAX PAYMENT LARGER THAN WAS EXPECTED

Collection of taxes both at the county and city collection offices have exceeded expectations this year, according to reports from these sources today. The record is an encouraging symptom at this time and indicates that the public not only has more money than it is generally credited with in these parlous economic times, but is at least normally concerned for its obligations to governmental functions.

City Sec'y J. B. Cate reported today that collection of current city taxes are about 50 per cent of the total assessment. The city this year is due to collect approximately \$108,000 in property tax. Of that amount it has collected approximately \$49,500. The period of payment of these taxes without penalty and interest expires on February 10 and between now and that time the city collectors anticipate a busy season as taxpayers hasten to avoid the additional charges automatically imposed as the period for payment without penalty expires.

Collections of delinquent taxes have been fair, also, with about \$30,000 in such collections reported.

Total Collections

Total current and delinquent city tax collections since the beginning of the current fiscal year on May 1, 1931, until today were \$77,915.05, Mrs. W. B. Statham, assistant city secretary announced.

No city poll tax will be collected this year, the city commission having abolished that in the ordinance setting the tax rate some months ago.

County Tax Collector T. L. Cooper announced that payment of county and state poll taxes will exceed 6,000 this year. No accurate figure could be announced and cannot be made public for several days as the office digests itself out of the rush of the last few days and finds time to tabulate its records.

More than 5,000 automobile license plates were issued.

Collection of county ad valorem taxes were much better than was expected. Mr. Cooper said. The opportunity allowed to pay all delinquent county taxes without penalty and interest up to February 1 was a stimulus that brought in much additional payment.

#### Legion Offers Musical Comedy

Under the auspices of the American Legion a musical comedy "Sweetheart Town" in three acts will be offered to the public of Cisco February 15 and 16 at the high school auditorium. The play a Frederick B. Ingram production is acclaimed a real treat in entertainment.

Posters, wind-shield stickers, etc. cetera, are being brought into play by the Legion to advertise the offering far and wide.

#### City Officials on Inspection Tour

EDMONTON, Alberta, Canada Feb. 3.—An airplane load of bombs, ammunition and supplies was rushed northward today to aid the greatest manhunt in the history of the Royal Canadian mounted police.

Albert Johnson, mad trapper of Rat River who has slain one officer and defied three expeditions sent to capture him in the desolate country north of Alkavik, is the object of the quest.

Two of the north country's most expert pilots have been called upon to fly the war equipment 1,700 miles north where the maniac is believed trapped in a fortress of his own making.

Poses are already en route to the Rat River battle scene. They fought bitter winds and a temperature that averaged 50 below zero.

The lowered production schedule will mean a drop in total east Texas production of approximately 21,250 barrels daily, it was estimated. Oil will be purchased on the same basis, it was announced.

#### Mellon Offered Post at London

WASHINGTON, Feb. 3.—President Hoover today tendered the ambassadorship, to Great Britain to Secretary of the Treasury Andrew W. Mellon.

Mellon has not decided whether he will accept.

#### Magnolia Lowers East Texas Schedule

DALLAS, Feb. 3.—The Magnolia Petroleum company today announced that effective tomorrow, it would operate its east Texas wells on the production basis of 75 barrels per well daily.

The lowered production schedule will mean a drop in total east Texas production of approximately 21,250 barrels daily, it was estimated. Oil will be purchased on the same basis, it was announced.

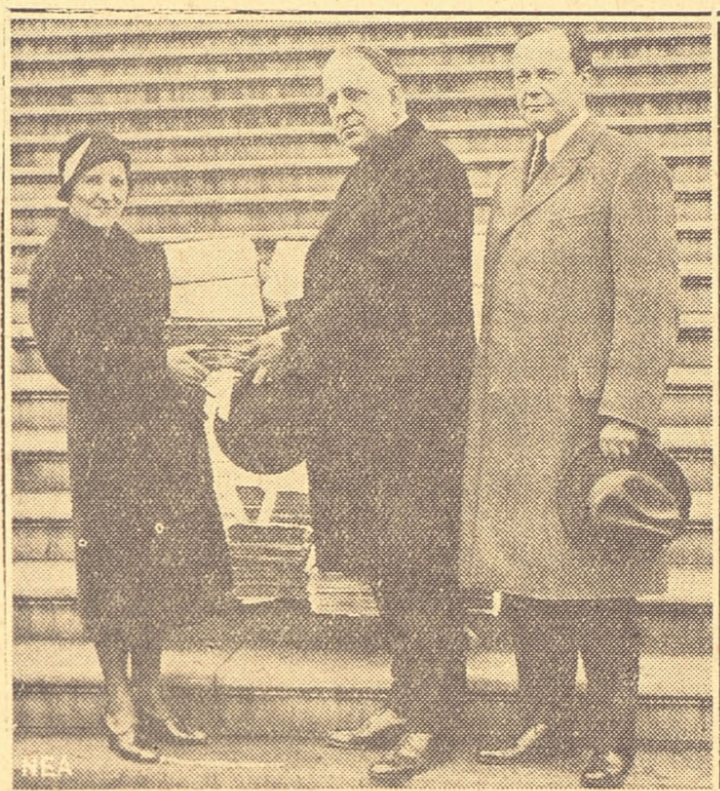

#### EX-GRID STAR TO WED

EUGENE, Ore., Feb. 3.—Johnny W. Kitzmiller, former University of Oregon gridiron star and now a professional football player for the New York Giants, will soon wed Miss Augusta Gerlinger, Dallas, Ore. It was announced at the girl's society house.

#### CHERRY TREES AT AIRPORT.

PORTLAND, Ore., Feb. 3.—Japanese cherry trees are being planted around the 3 1/2-mile circumference of Portland's municipal airport at Swan Island.

#### 5,000,000 Names on This "Wet" Petition

It must have been a weighty package that Miss Lenora McAninch, of West Virginia, treasurer of the Modification League, handed to Senator David Walsh (center) of Massachusetts and Senator Robert J. Bulkley (right) of Ohio on the capital steps in Washington. For she was presenting a petition signed by more than 5,000,000 voters protesting the Volstead Act.

#### SUMMARY OF FINANCE ACT IS COMPILED

AUSTIN, Feb. 3.—A summary of the provisions of the act creating the government's \$2,000,000,000 Reconstruction Finance Corporation has been compiled by Cone Johnson, Tyler, member of the Texas "contact committee" named by Governor Ross Sterling for liaison between Texas and the corporation. Johnson's summary follows:

1. Capital stock of the corporation is \$500,000,000 subscribed by the government. Payment is to be made by the United States Treasury. This constitutes the corporation a government bank.
2. Corporation is to be managed by a seven-member board of directors; secretary of the treasury; governor of the federal reserve board; farm loan commission, and four members appointed by the president—four republicans and three democrats. The board of directors may

#### PLANES TAKES SUPPLIES FOR BIG MAN HUNT

EDMONTON, Alberta, Canada Feb. 3.—An airplane load of bombs, ammunition and supplies was rushed northward today to aid the greatest manhunt in the history of the Royal Canadian mounted police.

Albert Johnson, mad trapper of Rat River who has slain one officer and defied three expeditions sent to capture him in the desolate country north of Alkavik, is the object of the quest.

Two of the north country's most expert pilots have been called upon to fly the war equipment 1,700 miles north where the maniac is believed trapped in a fortress of his own making.

Poses are already en route to the Rat River battle scene. They fought bitter winds and a temperature that averaged 50 below zero.

The lowered production schedule will mean a drop in total east Texas production of approximately 21,250 barrels daily, it was estimated. Oil will be purchased on the same basis, it was announced.

#### SING SPRING SONG.

MARION, Va., Feb. 3.—Frogs and toads are singing in all parts of Southwest Virginia since the unprecedented warm weather set in. Bees and insects also are on the wing.

#### POSTMEN AID JOBLESS.

DETROIT, Feb. 3.—Detroit mailmen held a party in the post office building for charity. More than 1,600 tickets were sold, the proceeds to go toward unemployment relief.

#### LOBOES DROP ROUGH MIX-UP TO BULLDOGS

After holding the invaders to a count of 14 to 12 in the first half the Loboes went into the general consistency of smithereens in the final period and let the lanky lads from old town run up a healthy lead. Stephens, Ranger center, was high point man for the game with 12 units of addition.

Ray, only Cisco regular left from the defunct squad, got hot with the long range artillery and scored several direct hits from afar to keep in the calcium.

The bright spot for the Cisco boys was the first period which promised a good deal if the short period of training that the local lads have undergone is taken into consideration. The critical fan is gently reminded that the youngsters had practiced only twice prior to their mix-up with the canine element and is reminded that a few weeks of rounding to condition will likely place them in a position to be miserable for the position. The lack of the necessary stamina was responsible for the big Ranger score and stamina is something that comes of practice.

Starting lineup for the Cisco boys was Harrison and Bitt, at forwards; Rutledge, at center, and Ray and Burnam at guards. Noble, H. McMahon and Barker substituted.

#### Taylor Ordered to Call on Jap Admiral

WASHINGTON, Feb. 3.—Admiral William V. Pratt, chief of naval operations, today instructed the Admiral M. M. Taylor, commanding the Asiatic fleet at Shanghai to call upon Japanese Admiral Nomura and express confidence in his ability and "your own to find some happy solution" to the tense situation in the far east.

#### CURRICULUM WIDENED

WINGSTON, R. I., Feb. 3.—The curriculum at Rhode Island State College will be broadened considerably commencing with the next school year. Among the courses to be added will be one of Pre-medical training.

#### DEATH TOLL SLIGHT; 300 ARE INJURED

SANTIAGO, Cuba, Feb. 3.—A series of earth shocks terrorized this tropical community early today and caused damage to many of the buildings in the city.

Residents were frightened and ran to the streets and thereby, officials believe, prevented a heavy death toll.

Governor Barcelo announced that only 12 persons were known to have been killed. About 300 persons were injured.

Santiago was quiet in sleep when the first shock rocked the city at 1:30 a. m. The half dressed population rushed to the streets uttering prayers for safety. They milled in the streets clogging all traffic, watching buildings crumble. At every half hour until dawn the shocks continued in lessening degree causing new consternation.

Darkness added to the disorder as the power plants were damaged. Dawn, however, brought decreased fears and officials started checking on the damage.

The first survey showed 75 per cent of the buildings had been damaged. Santiago is the second largest city on the island and has a population of about 110,000.

#### Cleburne Allowed To Intervene

WASHINGTON, Feb. 3.—The Cleburne chamber of commerce today was permitted by the Interstate Commerce commission to intervene in applications of the Burlington-Rock Island railroad to abandon its operations between Hillsboro and Cleburne.

The application is opposed by Cleburne on the contention there is sufficient tonnage in and out of that city to justify continuing operations.

#### Aged Man Kills Wife and Self

SOUR LAKE, Tex., Feb. 3.—A 70-year-old man shot and killed his 60-year-old wife as she lay asleep in bed with his small grandson and then killed himself here early today.

Mrs. Jack Carlisle, daughter of the two, awakened by the shots, ran into the room and found T. A. Clark dying on the floor, a .45 calibre pistol in his hand, and his wife dead on the bed.

Clark did not harm the child. An inquest verdict of murder and suicide was returned.

#### STERLING ADDS 16 MEMBERS TO COMMITTEE

AUSTIN, Feb. 3.—Gov. Ross Sterling's "contract committee" for liaison between the state and the federal reconstruction finance corporation was increased today by 15 new members.

Livestock men who had been alarmed that they were not represented on the committee now will have on the committee J. F. Allison of San Angelo; C. C. Belcher, of Del Rio; H. L. Kokernot, of San Antonio, and Richard King, of Corpus Christi.

Others added to the committee today were:

Joe Frost, San Antonio; Ellison Harding, Fort Worth; R. L. Thornton, Dallas; N. B. Edens, Corsicana; Nathan Adams, Dallas; T. B. Doty Beaumont, and Gus F. Taylor, Tyler.

#### WEATHER

West Texas—Generally fair, cooler. Temperatures from 16 to panhandle tonight. Thursday Colder southeast portion. East Texas—Cloudy. Local colder except east coast. Thursday party cloudy, cooler.

### DAILY BIBLE THOUGHT

GOD'S WORD STANDS:—The grass withereth, the flower fadeth; but the word of our God shall stand forever.—Isaiah 40: 8.

### WATCH YOUR HEALTH.

The epidemic of mild influenza now sweeping the country has put a serious complication upon public activities. In the local schools as many as 40 per cent of the students were out at one time and a similar condition is affecting schools and churches in other sections of the state. The ailment in itself is not serious, perhaps, but it can easily lead to serious consequences. Human vitality broken down by the weakening malady offers ineffective defense against pneumonia and other serious forms of pulmonary disease. An influenza symptom should be the signal for the utmost caution in health rules observance.

The warning issued yesterday by Dr. W. P. Lee, health officer, ought to be taken earnestly to mind by the public. Sudden and unnecessary exposure, avoidable association with those afflicted with the trouble and neglect of proper bodily functions are things to be strictly guarded against.

### MEN OR MACHINES?

One man can make a machine, and one man can operate a machine, that will do the work of a score of men. But, in times like these, it might be well to think about laying off the machine-maker and the machine-operator in order that twenty men may find jobs.

Kansas City recently gave the matter some thought. That mid-western metropolis needed new water mains. It had a million dollars with which to lay them. The job could have been finished in a few months with a few machines and a few men; but Kansas City elected to spread the work over a longer period and to give employment, not to machines, but to men.

Results were eminently satisfactory. Men who could not find employment elsewhere always were able to go to work laying pipe, wiping joints or digging ditches. Wages were not magnificent, but they were enough to pay the rent, buy food and fuel, clothe the family and provide a little amusement. And Kansas City became famous for the conspicuous absence of its breadlines.

Texas' highway building program, despite hard times, continues at an unprecedented rate. Public works and private construction are maintained at fairly satisfactory level. But machines are doing much more than men could do. Man-power may be machine-power, but the small use may be more than offsets upon the community. Machinery into the tills of the local community do. Moreover, it may be muscles and sinews will build, destroys the machine.

County and city officials, and private labor and machines well might weigh the respective merits of man-employment and machine-employment in the light of present conditions. And, when the decision wavers between one machine and twenty men, they should think seriously before the decision is awarded a thing that has no responsibilities and knows not the pangs of hunger and the sting of cold.

### THE SILVER QUESTION.

Bi-metalism, now being widely advocated after a long period in which it dropped from sight, is certainly not a principle to be adopted blindly. But it does seem worthy of intelligent analysis.

Writing in The Mining Journal, J. D. Fisher, an engineer of Colorado, advocates a silver and gold ratio of 20 to 1, and says that "no other single corrective step could be taken which could be as universally beneficial." If it were established, he believes, "international obligations could be paid, credits could be restored, and unemployment problems would solve themselves."

It is generally agreed that the depressed price of silver has been a vital factor in prolonging and intensifying, on an international scale, the general industrial depression. The purchasing power of whole peoples has been reduced to half or less of its former level—trade between nations is languishing and dying. If the rehabilitation of silver will help bring order out of chaos, the subject should have the most thorough consideration to determine its practicability.

Metal mining means so much to many of our states that legitimate and practical encouragement of it affects the very stability of our nation.

### OTHER OPINIONS

#### WHAT HAPPENS?

What happens when a firm stops advertising? That is rather a peculiar question, but we are able to answer it by citing an incident in our own city. Some two years or more ago, a large grocery concern opened an attractive modern and up-to-the-minute grocery store here. They carried a nice stock of everything that could be wanted in a grocery line. When they first opened they advertised extensively through this newspaper by handbills and here and by other local means. They contributed to local charities and they built up their business and held the

confidence of the people. A year ago they discontinued all kinds of advertising, newspaper included. Their manager was requested to refrain from making contributions of any kind, ever from his own pocket, much less the stores treasury. And the moral of this story is that their business decreased, their patronage fell off, and today this store has packed its stock, taken down its fixtures and departed. Their lack of business may not be altogether because of their decision to dispense with advertising, but we firmly believe that to a large extent it was. Advertising will build a business, but it takes continued advertising for it to remain permanent. — Honey Grove Signal.

### Shanghai Gestures!

### TEXAS TOPICS

By RAYMOND BROOKS

AUSTIN, Feb. 2 — Just before Judge Davis at Franklin announced his decision declaring void the Texas cotton acreage law, and thus started the case on its way to supreme court for a final expression a group of scientists and cotton specialists gathered at Austin to check up on progress and to plan the future course of work toward exterminating cotton root rot.

Much of the testimony in the cotton law hearing related to root rot. It was testified that the root does not much affect certain alluvial lands; that the root rot is present often in new soil that it some years causes great damage, and in others little on the same land; that usually the greatest amount of root rot occurs in the years of the biggest crops.

Dr. A. B. Connor, director of the A. & M. extension service, said that

if his specialists could ascertain why it was that the infected soil washed down from the hills into the riverbottoms failed to carry with it the root rot, or the factor that blotted out the plant infection in the alluvial soil, they would have found the missing key to the problem.

There has been a real battle of actual fighting in the martial law zone of East Texas; though little has been said about it. There were shot-fired into human bodies whose effects were beneficent rather than destructive. The forces of medical destruction of disease, won out. The shots were shots of serum, from hypodermic needles. A serious outbreak of diphtheria occurred in the oil field area. Other diseases took on epidemic form. Polluted water was one of the causes.

Dr. Henry Beck, state senator and lieutenant colonel in the national guard, chief medical officer for the military zone, took command. He was helped by the underground wa-

ter survey, but the state health department, and by local health and administrative agencies, and the other branches of the military service. The epidemic has been broken and thousands of children have been inoculated safely against diphtheria.

For statistics on the East Texas warfare between forces of disease and the state's forces of medical skill, Miss Dora Dieterich of the state health department has compiled these figures:

Three thousand, four hundred and fifty-seven children were inoculated against diphtheria in Texas in July, August and September. About that time, the immunization work was greatly expanded particularly in the East Texas area.

**PARKER'S HAIR BALSAM**  
Removes Dandruff—Stops Hair Falling  
Imparts Color and Beauty  
to Gray and Faded Hair  
Sole and Sole at Drugstores,  
Fluorine Chem. Works, Paterson, N. Y.

On October, 2833 children were immunized; in November, 2825 and in December, 2638, for a total of 8296 in three months.

In Henderson county, East Texas over 2000 children were immunized against diphtheria in two months.

The fact that former Gov. Miriam A. Ferguson will be a candidate for governor again this year apparently is one that has been accepted by the friends and acquaintances of the Ferguson family for weeks. In view of this campaign, Mr. Ferguson has said he does not choose to go to Washington as a congressman-at-large.

A Texas political campaign would not seem the same, if neither of the Ferguson former governors were in it.

At Austin, Messrs. Lock and Key are intimately connected with the law enforcement agencies; one is a deputy sheriff, the other constable.

The law that granted a moratorium on tax penalties has expired. Whatever benefits it conferred have been accomplished. Those who failed to pay their delinquent taxes across the bargain counter where all penalties were waived can no longer make us of this liberal law.

Apparently, a good deal of money was brought into state and county treasuries by the law. A good many homes and farms are out from under the oppressive cloud of back taxes.

The law was in effect during perhaps the hardest time of the past two decades — and we hope of the next two — for property owners to raise tax money.

If it worked well under that circumstance, the legislature may be disposed to revive its beneficent effects at some future time, though it is hardly safe to let penalties and interest accumulate on taxes now and in future coming due, just on the hope of another day of grace like that provided by the law now dead.

### STANDARDIZED SCALE

PHILADELPHIA, Feb. 2 — A standardized wage rate of \$1 an hour for all skilled workers in the building trades is proposed by the Philadelphia Builders' Exchange and Employers' association.

## Did You Ever Stop to Think?

By EDSON R. WAITE  
Shawnee, Oklahoma.

Many a good business has been destroyed by the fear of its owners to spend money for newspaper advertising.

It takes cooperation to build a business. Both employer and employees must work with an united effort and unity of purpose to build and increase the business that gives them a living.

While visiting at the Oklahoma City Chamber of Commerce I was told that continuous, truthful advertising will prove to the world that Oklahoma is a blending of the best qualities with which Nature can endow a state and will add untold wealth to it. They know what they are talking about. Newspaper advertising always is the greatest aid in selling quality.

Common justice has it that the little man is as much entitled to walk the earth as his big neighbor and, as long as the principles of his country are observed, he will in spite of anybody. Unfortunately, some people seem to think that the big fellows have no rights at all and that the little fellow has all the rights. They are all wrong. This is a country where all have equal rights — the big and little fellows alike.

The public expects the advertising columns of their home newspaper to be an encyclopedia of the business concerns of the city.

I often wonder why so many cities dilly-dally with their future. Perhaps it is because many of the die-hard type, the fellows who are short-sighted are always thinking that things in the home town are retrogressive instead of progressive. When they talk about the home city they act ashamed of it instead of being proud, and thereby hold progress back. Modern cities long

ago discovered the fact that the making of a better, busier city is up to its citizens, and in those cities there is no place for those who cannot talk, think and act in a boosting way.

Newspaper advertisers who have realized the fall of demand for merchandise and have increased instead of decreased their advertising have reaped the reward of their far-sightedness.

### CUTS PAROLE WORK

LANCASTER, O., Feb. 3. — Because of the depression, the crime wave of youths in Ohio has taken a decided drop, in the opinion of E. S. Brown, parole officer of E. S. Brown, parole officer in 26 eastern Ohio counties for the Boys' Industrial School here. The enrollment of the school has dropped from 1,200 to 972. Brown points out that parents are remaining at home because they are unemployed.

THREE KINDS OF LOVE by KAY CLEAVER STRAHAN

CHAPTER XLVIII

Rosalie occasionally inserted an explanatory phrase. Ann interrupted once or twice; Cecily asked several questions; but, on the whole, the three women sat quietly and listened while Grand kept right at it, standing on the hearth rug and talking on and on and on. Ann even after he had imprinted a kiss on Ann's brow, and another on the top of Cecily's head.

that they feared, eye almost dreading another winter in this great cold, draughty place, with the hardships and insufficiency of fuel. He feared for Rosalie's health. Rosalie feared for his health—a recurrence of last winter's serious, all but fatal illness.

"What do you think, Ann?" "Nothing, I'm stunned. I'm flat."

"I'm not going to say much of anything," Cecily dared to get off the sofa though she did not pinch herself. "I'm going to be sort of mysterious—a leaf from Rosalie's book. I'm feeling too silly for sinner Mary will leave it. Oh, fun! But I'll tell him to come on Saturday."

Ann looked timidly across the room to the exact spot on the hearth rug where Grand had stood his hands clasped over the fourth button on his vest, his round white beard moving gently with his words.

### TAMMANY WATCHES HUNT FOR BIGGER GAME BY SEABURY

By ROBERT MUSEL  
United Press Staff Correspondent  
NEW YORK, Feb. 3.—The gargantuan struggle between Tammany Hall, the world's most powerful and efficient political machine, and the Hofstadter Legislative Committee, investigating supposed graft and corruption in New York City government, has entered a new phase with the investigators forsaking the "small fry" to hunt bigger game.

The change in attack of Samuel Seabury, the fiery little counsel of the committee, has made it plain that the hunted is no less a personage than James J. Walker, New York's famous "playboy" mayor. Walker's personal bookkeeper, Russell T. Sherwood, who shared a safe deposit box with Walker, is still among the missing despite efforts to force him to testify. State Senator John T. Hastings, close personal friend of Walker, is engaged in a bitter legal struggle to avoid questioning. Any Walker is keeping his own counsel as Seabury accuses him of secreting Sherwood.

**Seabury's Revelations**  
To date, Seabury has uncovered manifold evidence of the prosperity that descends upon the gentlemen who through Tammany influence become municipal office holders. He has shown that political influence is of no little assistance in obtaining favorable decisions from city boards, that some of Tammany's political clubs were little short of gambling resorts, and that speak-easies paid police liberally for protection.

Seabury's work has been to the accompaniment of snarls and snippings from the Tammany Tiger. Every move has been bitterly fought. The hostility has extended even to the committee room itself, where the Tammany-Democratic minority members have heckled the counsel and have at times acted as defense attorneys for witnesses.

Bookkeeper Sherwood left the jurisdiction of the inquiry shortly before he was shown to have handled \$1,000,000 in 20 bank and brokerage accounts since Walker became mayor. He was found in Mexico City and subpoenaed, but refused to honor the order and vanished. Subsequently he was fined \$50,000 for contempt but even confiscation of his possessions failed to bring him back.

**Amazing Bank Accounts.**  
Amazing bank accounts held by a dozen or so Tammany officeholders have occupied the investigators for months. Explanations for the suddenly accumulated wealth ranged from Sheriff Thomas Farley's "wonderful box" to Deputy Chief Inspector of Police Thomas J. Kelly's "It's a surprise to me."

The "Bankers" were:  
Former Sheriff Charles W. Culklin, who deposited \$1,929,759 in seven years while a firm with which he

was associated and which allegedly used political influence in its business netted \$5,550,000.  
Peter J. Curran, under-sheriff, \$662,311 in six years on a salary of \$7,500.

James A. McQuade, former register of Kings county, \$547,254 in six years on a salary ranging from \$9,000 to \$12,000.  
Thomas M. Farley, sheriff, \$360,660 in six years on a salary of \$15,000.

James J. McCormick, first deputy city clerk, \$299,499 in seven years on a salary of \$8,500.  
William L. Kavanagh, deputy water commissioner, \$250,699 in 11 years on a salary ranging from \$3,500 to \$8,500.

**Assets Increase**  
John Theofei, Democratic leader of Queens, whose net assets increased from \$28,600 to \$201,300 from 1923 to 1930 on a salary of \$8,000.  
Michael J. Cruise, city clerk, \$142,800 in six years on a salary of \$12,000.

Harry C. Perry, chief clerk of the city court, \$135,061 in less than six years on a salary of \$12,000.  
Dennis Wright, former policeman, \$92,240 in 10 years on a policeman's salary.

Thomas J. Kelly, deputy chief inspector of police, \$35,596 above his salary and income from securities in six years. Salary \$6,300.  
Joseph T. Quinn, former sheriff of Queens, got \$32,500 as a "gift" from the late John M. Phillips, sewer pipe king.

Thomas W. Mullarkey, retired police inspector, \$27,865 in 19 months. Jacob Rosenberg, deputy sheriff, \$22,000, or twice his salary over a period of five years.  
Joseph Flaherty, deputy sheriff, \$20,000 in less than a year on a salary of \$2,700.

**Nine Times Salary.**  
George C. Cruise, attache of the corporation counsel's office and brother of Michael, \$20,000 in three years on a salary of \$2,980.

Other "leads" followed by the inquisitors were manifold. Briefly summarized, Seabury delved into: The personal appropriation of interest on public funds by Sheriff Farley and former Sheriff Culklin. Culklin diverted \$27,000 to his own use and Farley \$15,000. Both said it was an old custom to use interest funds, but Seabury said it was "larceny." Seabury filed charges against Farley with Governor Roosevelt and the Governor directed Farley to reply.

The usual practice before the Board of Standards and Appeals which rules on zoning, building specifications, etc. William F. Doyle, former veterinarian was shown to have made \$125,000 a year by his remarkable success before the board although he had little legal knowledge. He declined to tell with whom he split his fees, was cited for contempt, sentenced to 30 days in jail but received a stay. Finally he said he had not divided with any public official and was held to have purged himself. Seabury termed this statement a "lie."

**"Dummy" Attorneys**  
The law firm of George W. Olvany, former leader of Tammany Hall, was shown to have used "dummy" attorneys for its practice before the board. This firm banked \$5,200,000 in seven years.  
The pier lease situation. The North German Lloyd Line and the United American Line paid huge fees for pier leases presumably for "influence." The North German Lloyd paid \$50,000 to William H. Higgins, president of the National Democratic club, and David Majer,

ex-convict friend of Mayor James J. Walker. The United American Line paid \$190,000 for its lease.  
Payroll padding in the Queens unemployment relief. Seabury charged more than 100 dummy names were on the list, an allegation denied by Commission of Accounts James Higgins who investigated for the city.

The Tompkins Bus Company franchise on State Island. Seabury charged that Borough President John A. Lynch of Richmond sold an insolvent Staten Island newspaper to the bus company operator for \$15,000 shortly before the franchise was granted.

**Speakeasy Graft**  
The speakeasy graft problem. Witnesses revealed that police in many instances accepted protection money from speakeasies. Patrolman Wright of the heavy bank accounts said unranked cops got "only the crumbs off the table." It was estimated that each speakeasy paid from \$10 to \$50 a week for protection, which would run into millions annually on the basis of popular calculations of the number of speakeasies in the city.

The Hofstadter Committee was voted on March 23, but it was not until June that Seabury selected his legal staff and sought evidence. The investigation was the result of Seabury's inquiry into the Magistrate's court.

This investigation resulted in the removal of Magistrates Jean H. Norris and Jesse Silberman, and the resignations of Magistrates Francis X. McQuade, Henry M. R. Goodman and George W. Simpson. Five members of the police force were imprisoned for terms ranging from two to eight years, charges were filed against 40 others and the vice squad was abolished.

### CALENDAR

#### Thursday

The First Industrial Arts club will meet Thursday afternoon at 3 o'clock with Mrs. H. H. Davis, 1111 West Thirteenth street, with Mrs. Rex Moore co-hostess. Mrs. Lee Owen will entertain the Thursday Forty Two club Thursday afternoon at 3 o'clock at her home on West Fifth street.

Mrs. Wm. Reagan has returned from a visit in Oklahoma.

Mrs. W. T. Graham is leaving today for her home in Dallas after a visit with Mrs. J. A. Lash.

Ben Burleson of Coleman visited friends in Cisco yesterday.

Mr. and Mrs. Ed Aycock and son, Frank, and Mrs. M. E. Aycock were visitors in Brownwood Sunday.

W. E. Richardson of Port Arthur spent last night with relatives here.

Miss Lurline Poe is reported to be ill with influenza.

Mrs. George Drewey is expected in Cisco tomorrow from Dallas for a visit with relatives here.

Miss Ester Malone of San Antonio is in Cisco to attend the funeral of her grandfather, J. A. Mashburn.

Mrs. W. A. Philpott, Sr., has returned to her home in Dallas after a visit with relatives here.

Mr. and Mrs. A. D. Purvis and family left the first of the week for Fort Worth.

Mrs. Rufus Petty and daughter of Seguin are visiting relatives in Cisco.

Miss Roma Lee McGehee has returned from a weeks stay in Corsicana.

C. A. Bennie is reported to be seriously ill at his home on West Fifteenth street.

Everett Page of Carthage is visiting friends in the city.

Mrs. Jack O'Brien was a visitor in Abilene yesterday.

Mrs. B. Bedell is expected home tomorrow from market.

Mr. and Mrs. W. J. Leach and Mrs. Frank Logan are visiting in Dallas.

Mrs. E. D. Scott and daughter of Ring Star were visitors here yesterday.

Mrs. P. E. Glenn, Mrs. W. Mayhew, Mrs. Clyde Wilkins and Miss Nona Mayhew were visitors in Ranger yesterday.

Ocie Leveridge is reported to be ill at his home on West Eighth street.

Ted Huestis has returned from an extended stay in Clearendon.

Gregg Simpson is spending today in Fort Worth on business.

Mrs. Cleve Johnson has returned to her home in Trent after a several days visit here.

Mrs. Eugene Johnston and Miss Pierce McDonald were visitors in Eastland yesterday.

Wayne Malone of east Texas is in Cisco to attend the funeral of J. A. Mashburn.

BAPTIST Y. W. A. ORGANIZES.  
The W. Y. A. of the First Baptist church met Monday evening at the

home of Miss Mattie Lea Kunkel for the purpose of organizing. The following officers were elected: Miss Mattie Lea Kunkel, president; Miss Yennie Ray vice president; Miss Jennie Lea Matthews, secretary and treasurer; Miss Frances Coldwell program chairman, and Miss Mattie Lee McIntosh, devotional chairman. Mrs. Allen Crowover is to be co-counsel. The devotional was led by Miss Laura Jo A-bury. During the social hour, refreshment of sandwiches, potato chips, and hot tea were served.

Present were Misses Iris Renfro, Jennie Lea Matthews, Yennie Ray, Louise Karkalis, Mattie Lea McIntosh, Fern Warren, Frances Coldwell, DeAlva Graves, Blanch Matthews, Mrs. Allen Crowover and the hostess.

### Finance Act---

#### CONTINUED FROM PAGE ONE

increase the working capital of the corporation by issuing notes or debentures up to \$1,500,000, making the combined working capital two billion dollars.

3. The act appropriates fifty million of the \$500,000,000 capital stock for "loans or advances to farmers who are unable to obtain loans for crop production during the year 1932," preference being given farmers who suffered from crop failures in 1931. These loans are to be made on such terms and conditions as the secretary of agriculture may prescribe.

**Sufficient Security.**  
A "first lien on all crops growing or to be planted and grown" shall be sufficient security in the discretion of the secretary of agriculture.

4. The life or succession of the corporation is 10 years unless sooner dissolved by congress.

5. Loans or advances may be made to aid in financing agriculture, commerce and industry, including facilitating exportation of agricultural and other products. Loans to be made on such terms and conditions, not inconsistent with the act, as the board may determine, to any "bank, savings bank, trust company, building and loan associa-

tion, insurance company, mortgage loan company, credit union, federal land bank, joint stock land bank, federal intermediate credit bank or livestock credit corporation organized under the laws of any state or of the United States.

Loans or advances may be made directly on promissory notes or by way of discount or re-discount of obligations tendered for loans or otherwise in such form and amount and such rate of interest as the board may prescribe. Loans or advances shall not be made upon foreign securities or foreign acceptance.

**Loan Limit.**  
6. All loans or advances to be made within one year from the passage of the act but the president may extend the time for making loans to two years. Loans are not to exceed a period of three years, but the board of directors may extend the time for payment up to five years from the date of the loan. Loans will not be made for the purpose of initiating, setting on foot or financing any new enterprise except, of course, farm loans.

7. The corporation may also, on approval of the Interstate Commerce Commission, make loans to aid in the temporary financing of railroads and railways engaged in interstate commerce and railroads and railways in process of construction, when, in the opinion of the board of directors such railroads or railways are not able to obtain funds on reasonable terms through banking channels or from the general public.

8. All notes or debentures issued by the corporation under the authority of the act are fully and unconditionally guaranteed by the government of the United States; such guaranty shall be expressed in the face of the obligation.

**IS ILL**  
O. J. Russell, manager of the Cisco Ice company, unit of the West Texas Utilities company organization here, has been confined to his home with an attack of influenza. Other members of the family are also afflicted. L. E. Fleming, employe at the Cisco Ice company, is also ill.

### Cisco Man's Car Smashed by Derrick

Having his car smashed under a crumpled oil field derrick hardly two minutes after he had left the vehicle is an experience reported to his family here by Don Sivalls, who lately left Cisco for East Texas where he is associated with the firm of Black, Sivalls and Bryson. Mr. Sivalls and others were in a building adjacent to the derrick location when a shout of warning sent them scurrying from the building. The structure escaped damage, but the car in which Mr. Sivalls had driven to the site only a few moments before was reduced to the features of a pancake under the toppling mass of timber.

The incident occurred at Kilgore

MILLIONS OF POUNDS USED BY OUR GOVERNMENT

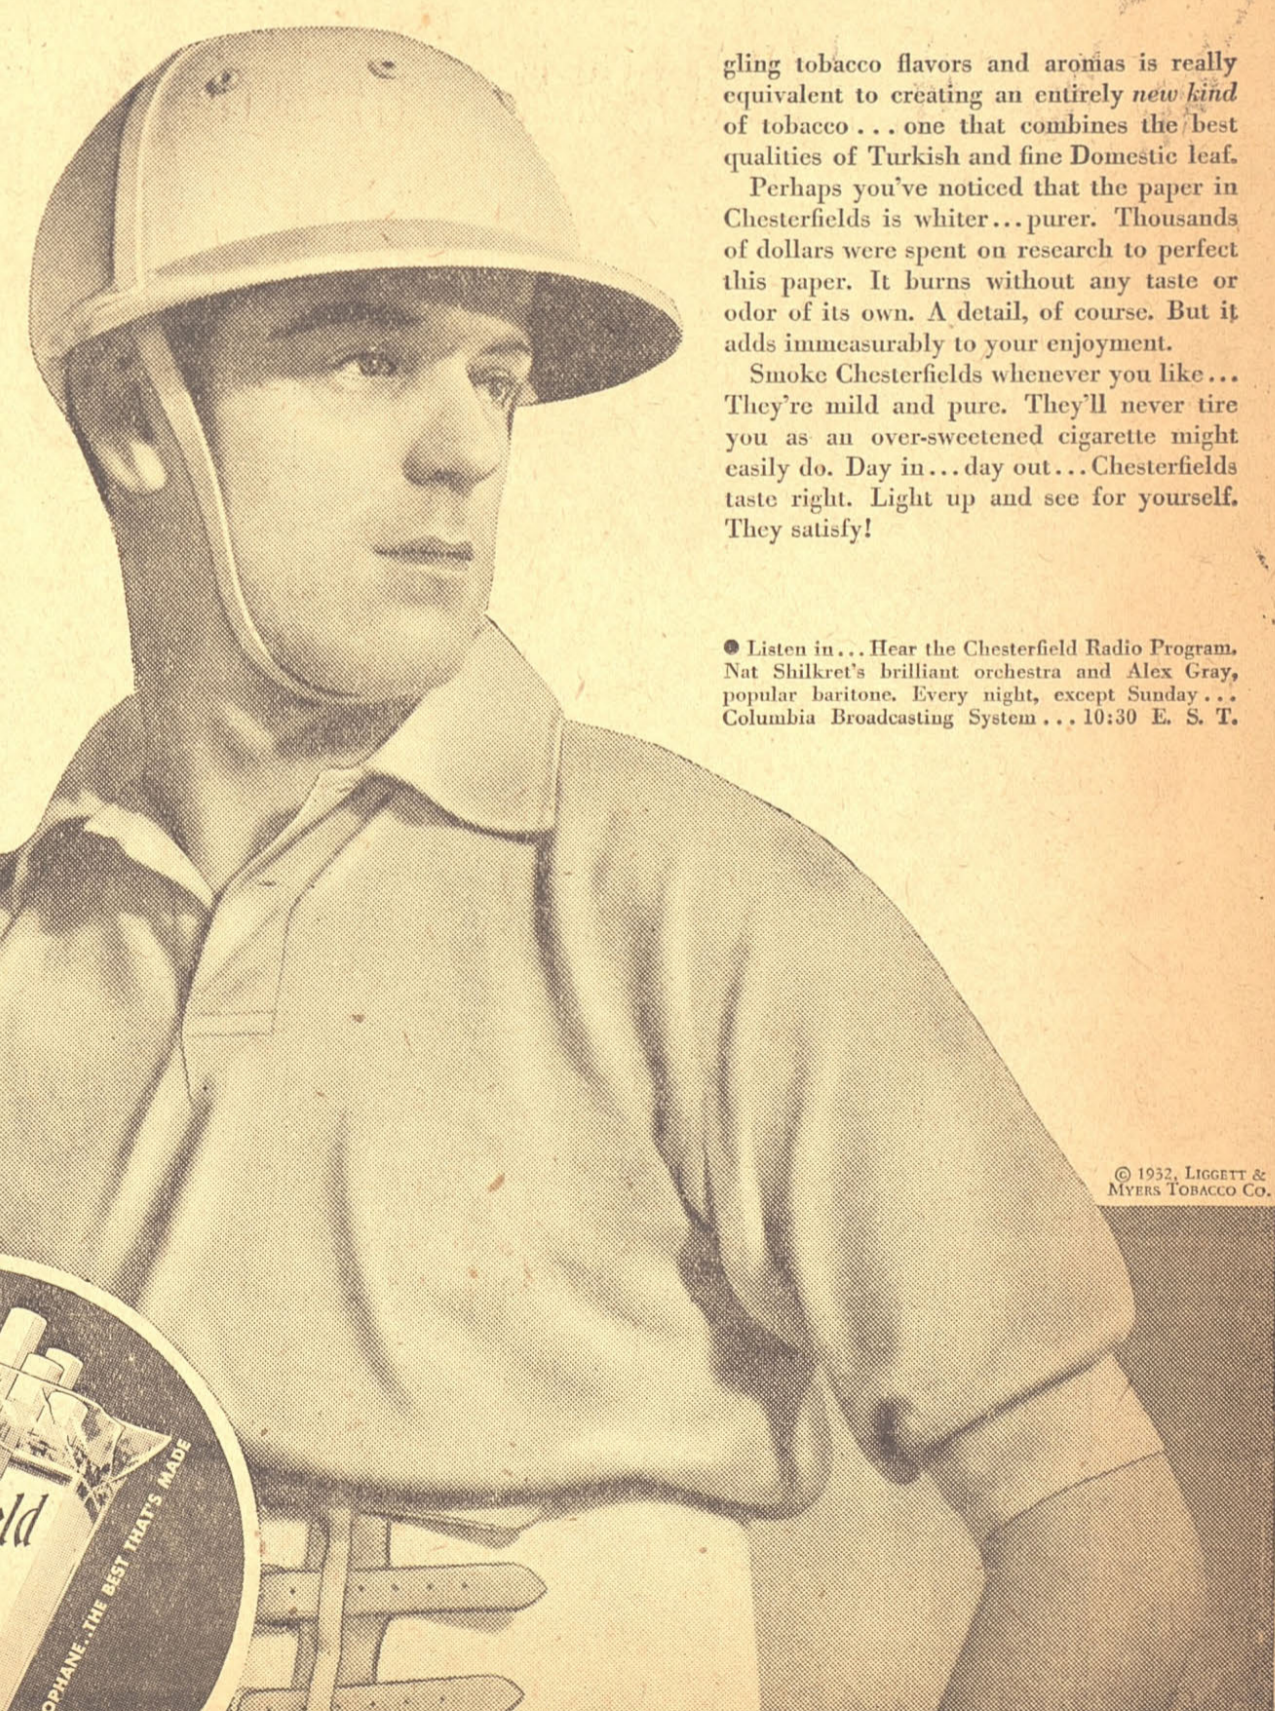

# "Choosey" People like the way they TASTE..

IT'S just what you'd expect. People who enjoy the good things of life... are constantly looking for something better to eat and drink... and smoke. Something that's out of the ordinary.

In cigarettes this better taste can come only from finer ingredients. Chesterfields are more satisfying to the cultivated palate... because there's never any attempt to skimp on Turkish leaf.

These more expensive... more richly flavored Turkish tobaccos are added with a generous hand... and "choosey" people... everywhere... like the result.

In fact Chesterfield's new way of min-

gling tobacco flavors and aromas is really equivalent to creating an entirely new kind of tobacco... one that combines the best qualities of Turkish and fine Domestic leaf.

Perhaps you've noticed that the paper in Chesterfields is whiter... purer. Thousands of dollars were spent on research to perfect this paper. It burns without any taste or odor of its own. A detail, of course. But it adds immeasurably to your enjoyment.

Smoke Chesterfields whenever you like... They're mild and pure. They'll never tire you as an over-sweetened cigarette might easily do. Day in... day out... Chesterfields taste right. Light up and see for yourself. They satisfy!

● Listen in... Hear the Chesterfield Radio Program. Nat Shilkret's brilliant orchestra and Alex Gray, popular baritone. Every night, except Sunday... Columbia Broadcasting System... 10:30 E. S. T.

THEY'RE Milder THEY'RE Pure • THEY TASTE BETTER • They Satisfy
