MURDER TRIAL WITNESS KIDNAPED

Kansas Convicts Mutiny, Flee With Warden and 2 Guards

WOMAN AND 2 GIRLS TAKEN FOR SHIELDS

LANSING, Kan., May 30 — Ten convicts mutinied at Kansas State penitentiary today, kidnaped the warden and two guards and escaped on a wild rampage of terrorism west of here. A check of prison records revealed that two of the ten escaped on foot.

They intimidated Memorial Day pilgrims to a cemetery, stole their automobiles, then split up, one group kidnaping a woman and two girls.

The woman and two girls were used as shields in the flight. The second group similarly employed the warden and guards whom they forced to ride on the running board of their car as protection against the gunfire of pursuers.

The convicts rebelled while watching a Memorial Day baseball game between two American Legion teams arranged for the convicts' entertainment.

Authorities were at loss to explain where the mutineers obtained their weapons but it was assumed outsiders had smuggled them inside the walls.

The break apparently was timed as "a farewell party" for the warden who was scheduled to have retired from office tonight.

At the prison Warden Kirk Prather and Guards L. A. Lawes, John Sherman and W. D. Powell had been forced into a guard tower and made to slide down a rope to the street outside.

One of the ringleaders released Powell, merely stating, "We don't want you."

The convicts stole a car and sped away. A few minutes later they invaded a cemetery where four persons were decorating a grave. The desperadoes robbed them of their sedan and fled with it.

Louisiana Sugar Production Gains

NEW ORLEANS, May 30 — Substantial gains in Louisiana sugar production during 1932 over any other year in the last decade was reported here by Lionel L. James, statistician for the state department of agriculture.

James' report showed that the equivalent of 222,760 short tons of sugar were grown in Louisiana last year, 66,142 more than the previous year and 74,569 more than the annual average during the last ten years.

From every ton of cane grown an average of 154.4 pounds of sugar was produced, the report showed. This represented 14.7 pounds more than in 1931 and 13.4 more than the yearly average for the ten-year period.

An increase in acreage from 148,119 in 1931 to 186,293 last year also was reported. This was compared with annual average since 1922 of 148,268.

More than 2,000,000 gallons of molasses more than the annual average were produced from sugar cane last year, according to the department's figures, which showed the 1932 production as being 16,445,315 and gave the annual average at 14,373,427.

THREE GUESSES

Kidnaping Victim Joins Family

WEST CHOSEN DAILY TEXAN SPORTS EDITOR

(Special to the Daily News) AUSTIN, May 30 — Dick West, Cisco has been appointed head sports editor for the Daily Texan for the year 1933-34 according to the report of Joe Hornaday, recently elected editor of the publication. Announcements of those who will serve on the staff in special capacities were made late Saturday.

West has been prominent in journalistic circles since his entrance into the center of the University in 1931. He has served on the sports staff for two years and in the fall of 1932 was made special reporter to cover the construction of the University's \$4,000,000 building campaign. In addition, he was selected athletic director of the 1933 Cactus by Joe Riley, editor of that publication. West has recently been initiated into Sigma Delta Chi, national professional professional journalistic fraternity. His journalism grades since his entrance into the University show three A's and one B.

Incidentally, Bill Smith, also of Cisco, will be the 1933 football captain when West is sports editor. This is the second year in succession a parallel as this has occurred. Fred Shaffner retiring sports editor, is from Sealy, Texas, and this is the home of the 1932 football captain, Ernie Koy.

Motorists Warned To Observe Signs

Warning that unless motorists improve their observance of the traffic signs on Cisco streets a campaign of arrests and corporation court charges would be undertaken was issued this morning by Chief of Police Daniels. Violation of these signs has assumed proportions which threaten to have serious consequences, the chief said. He urged that motorists using Cisco streets observe the signs for their own interest, if not for the interest of the public. Police also reported an epidemic of chicken-stealing that is becoming extensive. Loss of 50 Rhode Island Red fowls was reported by Edgar Johnson Sunday evening. Other instances have been numerous.

WORLD GADGET MAKERS WILL SHOW WARES

DENVER, Colo., May 30 — The world's greatest gadgets will be exhibited here June 13-17. Denver has been selected as the convention city for the 14th annual meeting of the National Inventors' congress, which is expected to bring out about 1,000 of America's leading inventors.

Everything from a self-starting toothpick to a dirigible will be on display. O. J. Foster of Boise, Idaho, will show off an automatic grocery store. All the customer has to do is sit on a comfortable seat and select the groceries as they go galloping past on rotary shelves.

A zipper-controlled flying suit for women will be the contribution of Edith Foltz of Portland, Ore., the National Aeronautical association. The garment is a combination flying suit and street jacket that can be transformed by one motion of the hand.

Breakfast in San Francisco and dinner in New York will be explained by Charles R. Miner considered one of the greatest authorities on dirigibles in America. Miner has a plan that would enable dirigibles to attain a speed of 600 miles an hour.

Max Lowenthal, former associate of Thomas A. Edison, and inventor of the electric iron, will appear as a speaker. Herman Finke of St. Louis, who is noted for his development of gasoline engines and accessories for automobiles, also is scheduled for an address.

Begins Audit of Municipal Books

T. C. King, Dallas certified public accountant, has begun the audit of the Cisco municipal books for the last fiscal year. Mr. King secured the contract for the audit on a low bid of two submitted. While employed with Ernst and Ernst he made an audit of Cisco accounts covering a ten-year period a few years ago. The present audit will be finished in about ten days, he estimates.

FUNERAL FOR MRS. POWELL WEDNESDAY

Funeral services for Mrs. O. L. Powell, 20, who died here at 10:30 last night, will be held tomorrow afternoon from the Nazarene church, with the Rev. Luther Pryor officiating. Burial will be in Oakwood. Mrs. Powell is survived by her husband and her father, J. L. Farrell.

PET TURTLE RETURNED

RANDOLPH, Mass., May 30 — A pet turtle, which William Cullen released eight years ago after carving his initials on its shell, recently was found in a small stream here and returned to him.

FACULTY FOR 1933-34 TERM MADE PUBLIC

Members of the faculty of the Cisco public schools for the 1933-34 term were made public today from the offices of the Cisco school board. The board elected the teachers several weeks ago.

The names of the teachers are as follows, grouped by schools: High School:

- H. Brandon, principal.
- Miss Ella Andres.
- Miss Juanita Chambers.
- Miss Marion Chabblis.
- Miss Elizabeth Dial.
- Dexter Shelley.
- W. C. Hodges.
- Mrs. Lucretia Ryby.
- Miss Lucile Robinson.
- E. H. Varnell.
- Miss Travis Watson.
- Grammar School:
- O. L. Stamey, principal.
- Mrs. Edward Lee.
- Mrs. James Moore.
- Miss Esther Bradshaw.
- Miss Fannie Stevens.
- Elementary Schools:
- Howard Goss, principal.
- Mrs. H. B. Allen.
- Miss Byrd Bacon.
- Mrs. George Boyd.
- Mrs. Graham Connally.
- Mrs. R. E. Grantham.
- Mrs. Irene Hallmark.
- Mrs. T. C. Williams.
- Mrs. C. W. McAfee.
- Miss Lucile Spruill.
- Miss Attie Stevens.
- Miss Ruby Swift.
- T. C. Williams, principal.
- Miss Mamie Estes.
- Miss Lucy Kittrell.

Rachel Smith Haines was elected principal of the Smithville colored school.

"Due to the financial stress under which the schools are laboring," said Dr. F. E. Clark, president of the board, "it is necessary for teachers in the system to carry additional burdens. For that reason and also because the needs of the next term are not as yet fully apparent, none of the teachers who this year taught as 'extras' were considered for reelection. There is, of course, no question of the ability of these 'extra' teachers involved. Their work was highly satisfactory.

"On the whole I believe that the Cisco schools last year experienced one of the most successful terms in many years. We are looking forward confidently to an even better session in 1933-34."

HOUSE ASKS PRIMARY VOTE UPON REPEAL

AUSTIN, May 30 — The house today called upon the state democratic executive committee to secure from Texas voters an expression in the state primary election on whether they want state prohibition repeal submitted. The resolution making the request passed 82 to 31. It was drafted by Rep. Weaver Moore, Houston, whose resolution to repeal at this session failed to get the necessary 100 votes.

Construction of Rock Fence Started

Construction of the rock wall along the eastern boundary of the Cisco Country club has been started by the state highway department. The fence, on the right-of-way of Highway 23, will guard against the possibility of cars running off the Country club property into the deep cut made to join the highway to the bridge over Cisco dam. The fence will be about 600 feet in length and will join the archway recently erected over the entrance to the Country club grounds.

PRESIDENT TAKES PART IN MEMORIAL DAY OBSERVANCE

WASHINGTON, May 30 — President Roosevelt today joined with the nation in paying annual tribute to its heroic dead. Putting aside business of state, Mr. Roosevelt visited the shrine of the Unknown Soldier at Arlington National cemetery and attended a Memorial Day service in honor of the men lost aboard the U. S. S. Akron several weeks ago.

The president made no address. That honor fell to Sec'y of the Navy Swanson and Sec'y of War Dern. Mrs. Roosevelt accompanied the chief executive on his visit to Arlington, the final resting place of thousands of men who served their country in time of peril.

At the conclusion of the services the president was to return immediately to the White House to resume his work for peace — economic peace among the nations of the earth. Sec'y Dern, in his address, declared the "real test of reverence for our noble dead lies in the manner in which we emulate the ideals for which they died."

"We have now intelligent, fearless leadership," he said. "Hope is ever coming fear. Shall we, in America on this day, dedicate ourselves to the task of accomplishing the purposes of that leadership?"

"CHAP" THINKS CISCO FOOTBALL CHANCES GOOD

W. B. Chapman, coach of Lubbock high school, former mentor of the Cisco Lobos, joined Mrs. Chapman here Saturday for a visit with Mr. and Mrs. Phillip Pettit, Mrs. Chapman's parents.

About three inches of rain in the past few days has given the Lubbock section of the country quite an improved aspect, economically speaking, said "Chap." Farmers are planting crops which were delayed long past the usual seeding time by a drought that prevailed for months.

Business men report a tangible improvement in trade volume, he said. Prospects for a football team next year, the outlook in which the former Cisco coach is naturally the most interested, are less promising, he said. But the condition is almost universal among Texas high schools this year, particularly due to the eight-semester rule which now is in effect, and "Chap" is not warring over the situation as he would be were his school an exception to a prevailing better state of affairs.

Cisco is an exception to the present rule, he pointed out. So far as he generally knows the Big Dam Lobos and Temple are the only Class A teams in the state with the greater proportion of last year's foundation squadmen returning for the 1933 team.

Amarillo, Lubbock, Abilene, Breckenridge and practically all schools of their class, lose all or the great majority of their lettermen. The Cisco prospects for winning the oil belt district are favorable, he said.

Receives Letter From Rev. James

R. W. Turner has received a letter from the Rev. E. S. James, writer Saturday from the 24th story of a New York hotel which overlooks the beautiful Hudson river. The Baptist pastor and his party were to leave last Monday for Niagara Falls and Chicago. After viewing the Century of Progress exposition for a few days they will leave for home to arrive about Saturday.

VICTIM FOUND ASSAULTED ON LONELY ROAD

HILLSBORO, May 30 — Martin Kitchen, star witness for the state in the trial of Raymond Hamilton, Dallas hoodlum accused by indictment with the murder of John Bucher, Hillsboro merchant, was found on a lonely road near here today.

He had been assaulted by two men who warned him "he would never appear in court" after he was through with you.

Kitchen was kidnaped late last night. Two boys walking along the country road discovered him. A handkerchief had been stuffed into Kitchen's throat. His arms and feet were bound with barbed wire.

The witness was nearly strangled and his arms and feet were cut and bruised by the barbed wire. Kitchen said the ruffians accosted him as he was walking in the business district of Hillsboro. The men threw him into the back seat of an automobile, drove hurriedly to a point eight miles west of town where they stopped the car, dragged the witness from the back seat and began beating him.

After beating him, Kitchen said the men rolled him on the ground and wrapped barbed wire tightly around him.

"Now, we'll get the other fellow," they said. Court attaches agreed with Kitchen that the attackers meant Bedell Jordan, another state witness, and who, like Kitchen, was employed by the dead merchant at the time of the shooting a year ago.

Both men testified at the first trial of Hamilton, held two months ago, that Hamilton resembled the man who visited the store the afternoon before the shooting.

BOXING BILL ENACTED BY LEGISLATURE

AUSTIN, May 30 — The house of the Texas legislature today concurred in senate amendments to the bill legalizing prize-fighting. The vote was 72 to 52. The bill now goes to the governor for his approval or veto. The senate amendments to the bill put a 15-round limit on championship fights and reduce the gate receipts given the state to three per cent.

In addition to boxing the bill, also places wrestling under the same supervision and the same tax.

Program for W. O. W. Drills Announced

The public is invited to attend a demonstration in floor work of the juvenile department of the Cisco camp of the Woodmen of the World here this evening. The demonstration is scheduled to start at 8 o'clock in the Woodman hall. President J. C. Kirschner will preside at the demonstration. The program has been announced as follows: Reading by Doris Jean Starling; song, "All Around the Bright Camp-fire," by drill team; violin solo by Rosa Lee Kirschner; song by girls from West Ward school; reading, "I'm a Junior," by drill team piano, solo by Dorothy Kirschner; song, "Eyes of Texas," by all boys; reading by Helen Louise Lawson; song by grammar school girls; saxophone solo by J. C. Kirschner; Junior Woodmen song; junior yell; whistling solo by Robert R. Turner; song, "W. O. W. Protection," by all juniors; trio by Rosa Lee Kirschner, Moore Tanner, and Evelyn Allen; explanation of juvenile ritual and program by Mrs. S. T. Donohoe, national juvenile director; retiring of Juniors singing "Goodnight Sovereigns."

NEW RECORDS BEING SET IN SPEED CLASSIC

SPEEDWAY, Indianapolis, May 30 — Cars driven by Malcolm Fox, of New Jersey, and Lester Spangler, Los Angeles, hurtled over the southwest retaining wall during the 500-mile race here today.

Both were seriously injured. Spangler was in the seventh position when the crash occurred.

At the 350-mile mark Meyer was riding in front closely trailed by Shaw and Stapp. Meyer's average was 107.391 miles per hour, another new record for that distance.

DRIVER KILLED

INDIANAPOLIS, May 30 — Mark Billman, Indianapolis, was fatally injured when he and his riding mechanic went over the wall on the southeast turn today while competing in the 500-mile race at the Indianapolis Speedway. Billman died a short while after the accident.

NATION'S OIL PRODUCTION SHOWS DROP

TULSA, Okla., May 30 — Daily crude oil production in the United States declined last week, the Oil and Gas Journal estimated today. The decline led to the general belief that crude prices will be raised soon from the 25 cents a barrel level which has prevailed. East Texas production was down only 30,225 barrels daily to 990,115 barrels. Total Texas production was 1,565,269 barrels daily, compared with 1,589,271 barrels for the previous week. West Texas production was estimated at 160,495 barrels daily; north central Texas, 67,853 barrels daily.

SCALING MACHINE PERFECT

SAWYER, Wis., May 30 — Ernest A. Bosman, Sawyer shoe merchant, has perfected a machine that scales fish in one operation and cleans them in another. The scaler was made from an old fan motor studded with nails. The fish is cleaned by moving down a trough equipped with a verticle blade with distending arms.

WEATHER
West Texas — Partly cloudy tonight and Wednesday.
East Texas — Generally fair tonight and Wednesday.

CISCO'S BEST RESOURCE.

Two Cisco young men are taking places of leadership in extra-curriculum activities at the University of Texas. They are Dick West and Bill Smith. Dick has been named head sports editor of the Daily Texan. Bill will captain the 1933 football team of the university. There are six thousand students at the great southwestern institution. These six thousand young men and women are drawn from the best of the youth of the southwest. They represent the highest resources of the citizenship of the future. They will supply much of the leadership of the next generation. Cisco has reason to be proud of its talent. It has reason to be proud of its young men and women. The proportion of youth with ideals and the strength of character to observe ideals is altogether too small. But Cisco has its share of that proportion. Not only in schools and colleges but at home. We are well endowed. The endowment is a challenge to us older folk. It is a challenge to our ability to make Cisco an attractive, profitable place for these youngsters, to give them the opportunity to realize upon their investment in ideals and training at home. Unless that is done the best resource that Cisco has will in the future expend its energy in communities that provide this opportunity. We cannot blame them. We shall need to blame our own indolence and lack of vision.

RFC APPLICATIONS DECLINE.

A decline in the number of applications for Reconstruction Finance loans is interpreted as indicating improvement in business. Applications in April were less than half the number in March and little more than a fourth what they were in April a year ago. The statistics should not be taken too literally, and as indicating that had the RFC been organized only this year the number of requests for loans would be comparable to the current figure. It may be taken to mean that the RFC is accomplishing its purpose in pumping needed credit into the anaemic business structure of the nation, and, subsequently, that American business is quite capable of absorbing the nourishment to a point where it is able to take care of itself. Much of the credit for this improvement must be given the Roosevelt inflationary psychology. The buoyancy of rising prices is the present major factor in pulling the nation's economic machine out of the bog and freshening the stream of spontaneous credit. Many millions of dollars has been added to the cumulative values of the farm products of the country in the past few weeks and those millions, representing the difference between profit and loss, have given a hopeful prospect to the future. The ability to inspire hope is the ability to inspire success.

AN OVERPRODUCTION OF MINISTERS.

There is said to be an overproduction of wheat; an overproduction of corn; an overproduction of petroleum; an overproduction of school teachers. Now jobless pastors are in the picture. Northern Baptists are in annual convention at the capital of the nation. Many reports were made. Large numbers of preachers were reported as unattached to pastorates even before the depression; far more men were being trained as ministers than the churches could absorb, and the theological schools or seminaries are continuing to turn out their grist, creating a situation termed "serious indeed" by those who drafted the report on education.

A delegate from Rhode Island spoke in defense of jobless old ministers. He said that while the churches were attacking "the selfish, shortsighted, and un-Christian princi-

BEHIND THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER NEA Service Writer

WASHINGTON.—A big boost for agriculture and a hard sock for the oil industry and all users of automobiles is bound up in the proposal to compel the blending of alcohol with gasoline as a method of farm relief.

There has been no end of a whoop-te-doo over this plan, which appears to have captivated large sections of the grain belt through its promise of a market for millions of bushels of corn and other crops.

For a while the movement, represented by bills in Congress, seemed sure to be buried by a flood of propaganda from oil industry lobbies. But now the Department of Agriculture, following a request from the Senate to investigate, has come forth with such a rosy picture of the probable and possible happy results that the campaign has regained momentum.

and 22,400,000 bushels of barley. A 10 per cent blend would use up 550,000,000 bushels of corn and 112,000,000 bushels of barley.

With corn at 50 cents a bushel and gasoline at 13 cents a gallon, a 2 per cent alcohol blend would increase the gasoline price by half a cent a gallon and a 10 per cent blend would raise the cost 2 3-5 cents.

The normal annual sale of gasoline is about 17,000,000,000 gallons, so that the foregoing official figures would mean an increase of \$442,000,000 in the national gasoline bill.

The American Automobile Association and the American Petroleum Industries Committee estimate the increase at \$600,000,000, the latter claiming that gasoline would cost 4 cents more a gallon once the price of corn reached 50 cents.

Taking up the much-disputed technical aspect of the blend plan, the department finds that most gasoline engines can handle a 10 per cent blend without much change in mileage, with anti-knock properties increased.

Although the report doesn't endorse the plan, it does admit, in less ecstatic language, the contention that building of alcohol plants to produce perhaps as much as 1,500,000,000 gallons a year would stimulate employment, railroad revenues, coal mine operations and collateral lines.

The American Automobile Association, after road tests, says a 10 per cent blend would be less efficient by 6.5 per cent (thus contradicting claims of an increased efficiency) and, while admitting its anti-knock properties, says the best gasolines already feature that advantage.

OUT OUR WAY

A HIGH PURPOSE.

REG. U. S. PAT. OFF. © 1933 BY NEA SERVICE, INC. J. WILLIAMS

ples of an industrial order that saps the life blood from the worker and throws him on the scrapheap, they were conveniently forgetting thousands of older ministers who were without employment." A terrific indictment to say the least.

BIG SALARY CUTS.

Executives of corporations who borrow for their companies from the Reconstruction Finance corporation must take reductions in their salaries or prove they are worth the money they are paid. Jesse Jones, Texas financier who is chairman of the RFC, has laid down the rule. Southern Pacific railroad was the first corporation to be specifically dealt with. A scale of reductions ranging from 60 per cent to 10 per cent was laid down for the road. Hale Holden, of New York, is chairman of its board. Rumor says that his salary would be slashed from \$150,000 annually to \$60,000. Salaries of \$100,000 would be reduced to \$50,000. What is a man worth who successfully manages a corporation running into the billions of dollars? What standard can be fixed for ability and brains?

Texas Topics By RAYMOND BROOKS

AUSTIN, May 30 — Lobbies, if carried far enough, are self-nullifying. Witness the premier fizzle of the big oil lobby at this session of the Texas legislature.

With all its effort, and in a conflict of enough groups to neutralize its influence, it failed to get the one bill its leads wanted, the new commission — and it bowed at the last to the biggest new tax ever levied at one time on one industry.

Further, the oil lobby trembled so at the spectre of the pipeline divorce bill that apparently, at least, it seemed to accept the 200 per cent increase in its tax, almost cheerfully agreeing to pay a million dollars a month to the state. This million dollars is apart from the \$1,600,000 or more per month paid by users of gasoline.

It is the Daniel bill, and will be the Daniel law—the main and practically sole revenue measure of this legislature. Rep. Daniel, young second-termer, fought the bill through pretty much alone, and scored a finished product of permanent importance in state policy.

It will not do to underrate these young lawmakers. . . as for instance Daniel, Burns, Sullivan, Calvert, Kyle of Hays, Aiken, Camp, Davidson Head, Latham, Stanfield, Tennyson.

Rep. Walker of Vernon has pending a proposed constitutional amendment that should be certain of submission to the Aug. 26 election, as a safety valve to deal with destitution and unemployment relief in the next two years. It is to permit a special session to propose a constitutional amendment, if necessary rather than wait two years until a regular session.

No amendment unless clearly deserving to go before the people can muster necessary votes; and there is no use leaving the legislature's hands tied at a time when conditions cannot be foreseen.

Rep. Jones of Atascosa received perhaps the outstanding ovation of the legislative session in his address recently on the theme "the condition of mercy is not strained. . ." He paid his compliments to those who would rest content upon the hollow formula of legalistic phrase while Texas children grew thin from the gnawing pangs of hunger.

Kenedy county may get a highway, despite the determined opposition of three ranch owners who control most of the county, and a complainant county court that says "me too" to the ranchers. . . There are people in the county willing to

pay the ranch owners for a strip of land for a highway that primarily will improve the ranch property itself. The highway will bring the Brownsville Lower Rio Grande section more than 50 miles nearer the rest of Texas.

The legislature perhaps has a clear view of selfish interest as contrasted with public interest, and a pathetic picture of the domination of a local governmental agency by the whims of a few wealthy landowners.

Did You Ever Stop to Think?

By EDSON R. WAITE Shawnee, Oklahoma.

Charles Spencer, publisher of the Independence (Kansas) Reporter, says:

That coincident with the advent of the depression came the radio advertising innovation, and as that innovation gathered momentum in patronage the depression steadily grew to greater proportions.

With clouds of depression clearing comes the passing of the popularity of radio advertising.

Effective advertising is not the appeal which forces its subject to listen, even to the point of disgust. Humanity has learned to take its advertising appeal through the eye, and from the pages of the newspaper when such appeal will in no manner molest a desire to be otherwise engaged.

Business will return to, and remain in its proper state when business men learn to quit wavering from the straight narrow and proven path of advertising appeal and get back into, and stay in, the pages of the press in a normal manner.

15,000 MAGPIE EGGS

BOISE, Idaho, May 30 — Industrial, indeed, are magpie hens, judging from the number of eggs turned in by those seeking bounties. In just one week boys turned in 15,000 eggs to the fish and game department. A bounty of a cent an egg is paid because magpies are in the habit of eating the eggs of other and more valuable birds.

Through the Editor's Spectacles

By GEORGE

The fronts of the X-Ray Barber shop and the Savoy cafe are getting new coats of white paint. Ray Godfrey who runs the X-Ray and Nick Nicklas and Sam Draganes who have the Savoy are putting new faces on their business.

K. H. Pittard is planning campaigns of reprisal. Henry Drumwright is the foremost object of his revenge. Henry thrust a stick between Pittard's legs and spilled his dignity all over the sidewalk the other day. This is about the most disgraceful thing you can do to a prosperous man.

The second object of revenge is this humble scrivener. Remarks appearing in this column aient Pittard have inspired it. I have been invited to go fishing. I shall not. If you ever saw a coon fight a dog in the water you'll know why.

Summer has come at last. The Lake Cisco swimming pool is open. Forest Wright has returned to his element. He swam once around the deep pool this morning. His standard routine calls for three rounds. That is all right. Forest's falling is a love of company. He has a habit of ringing doorbells at 5 a. m. to arouse a sleepy confederate to tour the pool with him. I suggest a swamp-ellum club.

Police are becoming exercised over the tendency of drivers to ignore "stop" signs on Cisco streets. Chief Daniels declares he is going gunning for "high collars." The term is susceptible to interpretation. The chief explains he means folks, high or low, rich or poor, collar or no collar, who think their personalities place them above the law. He thinks a few corporation court scenes may remedy the fault.

Chicken thieves are active. Fifty Rhode Island fowls were stolen from Edgar Johnson Sunday evening. Other instances are clogging the police blotter.

FIRST BABY GEESSE KYAMATH FALLS, Ore., May 30 —First baby Canadian geese have appeared in the federal game reserve on the Klamath River. Thousands of waterfowl raise their young there each year and the place is a great attraction for visitors during the nesting season.

HAS NO OCCUPANTS TULIA, May 30 — For the first time in four years recently the Swisher county jail here was without an occupant — a "break" for subsequent inmates. For during the absence of tenants, the authorities painted, disinfected and generally cleaned the interior.

SNOWFALL RECORD MEDFORD, Ore., May 30 — A fall of 70 feet, 5 inches of snow at Crater Lake since last fall has set a new record there, exceeding the previous high by more than five feet.

HEADWAY MADE IN PREDATORY ANIMAL WAR

SAN ANTONIO, May 30 — April figures of the Texas Predatory Animal Control association indicate the state's war against coyotes, wolves, bobcats and mountain lions is making headway.

An army of 77 men captured 154 bobcats, 986 coyotes, 51 red wolves and three mountain lions for a grand total of 1,194 animals during the month.

Webb county in southern Texas gave up the largest number of animals with 81 bobcats and 498 coyotes and one mountain lion. La Salle county was next with 23 bobcats and 58 coyotes.

Individual trapping honors went to A. C. Parker, who caught one bobcat and 87 coyotes. Bert Johnson was second with 13 bobcats and 74 coyotes to his credit. H. B. Baker's catch was one bobcat and 68 coyotes.

In the red wolf area W. S. Hall led with a catch of two bobcats and 11 wolves. W. H. Batey in Guadalupe county trapped 10 wolves with Earl Henning, Refugio county, capturing seven.

The outstanding feat of the month occurred April 28 when J. R. Childers caught an outlaw wolf in Jasper county after trailing it four years. The animal had been caught three times before but always had managed to regain his liberty.

Ray Brotherton, Val Verde county, J. E. Hearn, Webb county, and Bill Smith, working in Jeff Davis and Reeves counties, captured one mountain lion each. Hearn and Smith also catching a sizeable number of bobcats and coyotes.

R. H. Black of Ward county led the West Texas contingent with a total catch of 60 predatory animals — one bobcat and 59 coyotes. E. M. Wallace, in Winkler county, took 45 coyotes, and Ross Graves, Loving county, captured 40.

The association has received many letters from farmers commending its trappers for their effective work in ridding the country of these menaces to poultry and livestock.

Announcements

NOTICE There will be a stated meeting of Cisco Chapter No. 190 Thursday evening June 1st at 8 p. m. at this meeting officers will be elected for the ensuing year.

NOTICE There will be a called meeting of Cisco Lodge No. 556 Friday evening June 2 at 8 p. m. for work in Entered Apprentice degree. Visiting Brethren welcome.

The Rotary club meets every Thursday at Laguna Hotel Private Dining Room at 12:15. Visiting Rotarians always welcome.

Lions club meets every Wednesday at Laguna Hotel Coffee Shop at 12:15. J. A. BEARMAN, president, W. H. LA ROQUE, secretary.

DARLING FOOL by MABEL McELLIOTT

BEGIN HERE TODAY MONNIE O'DARE loves DAN CARDIGAN, wealthy and handsome, who is out west with a party of friends including SANDRA LAWRENCE, Sandra, pretending to be Monnie's friend, wants Dan for herself. His parents want him to marry Sandra and look down on Monnie because the O'Dares are poor. MONNIE ANSTICE, long a friend of the family, inherits \$50,000 and asks Monnie to go to Europe with her. The girl hesitates, hoping for news from Dan. At last a letter comes but it is a disappointment. Dan's love seems to have cooled. Monnie, pleased, accepts Miss Cory's invitation. The day they leave Belvedere Dan returns.

BEHIND THE WAR SCENES IN THE FAR EAST

EDITORS NOTE: This is the seventh installment of Frederick Whiteing's diary written with the Japanese army in Jehol Province, China. Whiteing, United Press staff correspondent, has recorded daily impressions and reactions. The difference in dates is due to the delay in mail transmission from the Orient.

By FREDERICK WHITEING United Press Staff Correspondent WITH THE JAPANESE ARMY, BRIGADE HEADQUARTERS, KUPEIKOU, March 13. — I passed last night in a small, filthy Chinese house, which evidently had been abandoned in a great hurry, for the remains of a meal were scattered about.

Tonight I am staying in another small home, in which two elderly men are remaining. They are able to provide some hot water, and have small kerosene lamps, something unusual. I have been getting some food from Major-General Kawahara's headquarters. Sleeping is as usual on the stone stove-bed, common to all Chinese houses in this region.

During the day I made a tour of the defense positions. Japanese officers describe them as extremely strong. The Japanese already have buried a great number of Chinese dead, something like 500, officers state. They estimate that the Chinese must have had well over 1,000 wounded. The Japanese report their own losses at Gupeikou as four officers and 18 privates killed, and 72 wounded.

Japanese officers express great admiration at the bravery of the Chinese soldiers in defending Kupeikou. They relate especially the gallant defense made by five youths in a machine-gun nest within the city wall.

The Japanese also are loud in praise of the genius of the ancient Chinese in building the Great Wall and the town wall in the exact po-

sitions on the hills that they occupy, as being strategically just right. The town is built around a mountain pass on the banks of an upper branch of the Lan river, which flows into the Gulf of Pechili. The Great Wall, running east and west, along mountain crests, comes down to the bank on either side of the river, which flows northeast and southwest at this point. Part of the town is built on the northwest bank of the river, south of the Great Wall, but the major part is on the southeast bank, south of the Great Wall and running up through the pass. Thus part of the main section of the town, with its flank on the river, lies between the Great Wall and the main or northern sector of the town wall, which at right angles crosses and defends the pass itself, and part is within the town wall to the south of the northern or main sector of the town wall.

The town wall is an adjunct of the Great Wall proper, and its northern half-circle is of great strength, crowning precipitous rocky heights, with a massive gateway at the pass itself. The Japanese, coming from the northeast, had first to capture the Great Wall proper. This took them two days. When the Chinese in this eastern part of the Great Wall retreated, those in the western section.

Conditions of climate, scenic beauty and accessibility make the site tentatively chosen ideal.

ANSWERS

to today's THREE GUESSES

THE portrait is of ANDREW CARNEGIE. Nathaniel G. Herreshoff designed and built many of the AMERICA CUP DEFENDERS, racing yachts. THE SAVANNAH was the first steamship to cross the Atlantic.

ASK WAGE RAISE SALEM, Ore., May 30 — Oregon laborers are demanding a share in the prosperity of Oregon hop growers. Local labor leaders are asking that minimum wage paid be raised from 20 to 30 cents an hour, and that it be increased as price of hops increases, up to 50 cents an hour. Pay for pickers on a sliding scale ranging from \$1 to \$2 per hundred pounds is also asked.

"LUBRICATED" GAS IS NEW GULF PRODUCT

HOUSTON, May 30 — Lubricated gasoline, a distinct innovation in motor fuels, was announced today by the Gulf Refining company through O. H. Carlisle, district sales manager. The new product is the result of extensive experimentation in the Gulf Refining company laboratories, and is the answer to the problems presented lubrication engineers by the increased demand of the motoring public for high speed motors.

The new products is being marketed under the slogan "That Good Gulf Gas — Now Lubricated" at no extra cost. Mr. Carlisle pointed out salient features of the new fuel, according to Mr. Carlisle, are: correct lubrication of the valve seats and top of the valve stem, which tends to prevent drying and pitting of valves; plus lubrication to the upper parts of the cylinder walls, thereby reducing wear on cylinders and pistons as well as piston rings.

Through use of lubricated gasoline it is now possible to design motors with smaller clearance between piston and cylinder wall and also to use tighter-fitting oil rings. In some cases two oil rings are used, all of which reduce crank case motor oil consumption.

Ease of starting with lubricated gasoline is believed assured by the fact that when combustion chambers are flooded with lubricated gasoline in choking the motor valves are less apt to stick, while use of "That Good Gulf Gasoline — Now Lubricated" assures longer life for certain parts of the motor such as valves, guides and piston assembly.

With reference to the lubrication of gasoline, Mr. Carlisle quotes C. B. Veal Research Manager, Society of Automotive Engineers, as follows:

"We are now facing a rather new type of automobile engine . . . the tendency for the past few years has been to increase the speed of our engines."

"At first we encountered excessive oil consumption above certain critical speeds, but blow-by and other features of ring and piston functioning have so improved as to prevent excessive oil consumption even at the high speeds now common. Personal experience and reports from other leads me to believe that some of these engines may come close to experiencing a deficiency in oil supply at moderate speeds."

"If the oil supply actually failed, I agree that lubricated would not solve the problem, but if some of these new engines are coming close to the danger point in the meagerness of the oil supply at moderate speeds it seems reasonable that a lubricated fuel would offer a sufficient panacea to bring about satisfactory car operation."

In Germany and England lubricated gasoline has been used widely for as long as two years with notable success. Mr. Carlisle pointed out also, the lubrication of outboard motors is taken care of through mixing lubricating oil with the gasoline. Many large truck and bus operators have been using lubricated gasoline for some time, even though it was necessary for them to purchase a proper oil to mix with their gasoline. Most car manufacturers recommend mixing lubricating oil with gasoline during at least the first 2,000 miles of driving the new car.

"I would like to state," Mr. Carlisle said, "that in using 'That Good Gulf Gasoline—Now Lubricated' automobile owners may be assured of correct special upper-cylinder lubrication under normal driving conditions and at the ordinary driving speeds. No extra charge is made for our new products."

— THIS CURIOUS WORLD —

KING HENRY VIII HAD SIX WIVES!

TWO OF THEM WERE EXECUTED!
TWO, HE DIVORCED, ONE DIED, AND THE SIXTH OUTLIVED HIM!

The LOBSTER CHEWS ITS FOOD BEFORE PUTTING IT INTO ITS MOUTH!

A SET OF EXTERNAL FOOD CHOPPERS CUT UP THE FOOD BEFORE IT IS PASSED INTO THE MOUTH PROPERLY!

NEAR KOLHAPUR, INDIA, A SNAKE CAUSED 100 DEATHS!

IT CRAWLED FROM A FLOATING LOG ONTO A BOAT, WHICH WAS UPSET BY THE PANIC, AND 100 PERSONS WERE DROWNED, AUG. 14, 1932.

5-17 HENRY VIII married Catherine of Aragon soon after his accession to the throne of England, but his affections soon waned, and Anne Boleyn became his wife, in 1533. After three years she was executed for infidelity to the king, and 10 days later Henry married Jane Seymour, who died one year later. Anne of Cleves was chosen as his fourth wife, but soon was divorced. Catherine Howard, his fifth wife, was beheaded for infidelity, and Catherine Parr, his sixth wife, outlived him.

About Cisco Today

Society Editor, Miss Marjorie Noell—Phone 80.

CALENDAR
Wednesday

Mrs. M. L. McCannan will entertain the Humble bridge Wednesday afternoon at her home in Humbletown.

The Cisco Chapter O. E. S. will have an installation of officers on Wednesday evening at 8 o'clock at the Masonic hall. The public is invited to attend.

Miss Lola Terry of Fort Worth is the guest of Mrs. A. M. Worley.

Rosh Hayes of San Antonio is visiting his parents, Mr. and Mrs. C. H. Hayes.

Mrs. G. G. Hazel and daughter of Sudan, who have been visiting Mrs. W. D. Hazel, are leaving tomorrow for a visit in Eastland.

C. B. Reece of McCamey, formerly of Cisco is visiting friend here.

Mrs. Hub Yarbrough and daughter, Yvonne, have returned to their home in Asperment after a visit with Mrs. P. P. Shepard.

Gooper Keyes athletic coach at Cross Plains was in Cisco this morning. He was en route to his home in Sedwick.

Ford Hubbard is expected to return this week from New York City, where he was called two weeks ago on account of the illness of his mother, Mrs. F. M. Hubbard. Mrs. Hubbard as reported recovering satisfactorily from a critical illness.

L. H. McCrea was a business visitor in Baird and Albany yesterday.

Mrs. Hoyt Agnew and son, Maurice, of Ranger are spending today in Cisco. Maurice underwent an operation for the removal of his tonsils this morning.

Paul Cole of Odessa is visiting friends in Cisco.

Mr. and Mrs. Sam Key visited their daughter, Mrs. J. T. Golden in Graham Sunday.

Thomas and Theron Graves were visitors in Brownwood this morning.

Mr. and Mrs. Vard Osburn of Moran were visitors in the city yesterday.

Misses Blanch Mathews and Matie Lee Kunkel were visitors in Eastland Sunday.

James K. Ross of Fort Worth transacted business in Cisco today.

Mrs. John Ducker of Ranger visited relatives here Sunday.

H. L. Kunkel has returned from a trip to Temple.

Mr. and Mrs. Levi Wilson and son Claude, are leaving this afternoon for their home in Farmersville. Mr. and Mrs. Wilson, who have been visiting here for the past two days,

UNDER THE DOME AT AUSTIN

By GORDON K. SHEARER
United Press Staff Correspondent
AUSTIN, May 30 — Rep. T. H. McGregor, Austin, points out that the wild flower bill recently presented in the house of representatives resulted in those who would directly benefit opposing the bill, while those it would inhibit were its chief supporters.

SHEARER
Houston delegation sponsored the bill. Opposition came mostly from rural members.

"I cannot understand," said McGregor, "why the country folks are opposing the bill which protects their property."

"A city-dweller goes into the country and destroys flowers and shrubs on a farmer's land and thinks nothing of it. What would he think if the farmer came to town and took his roses?"

The wild flower bill is sponsored by a half-dozen women's organizations, including the Texas Federation of Women's clubs, the Texas Federation of Garden clubs, the Outdoor Nature club and various patriotic and civic organizations. In original form it provided a fine for picking wild flowers or cutting shrubbery without permission on the enclosed land of another person or on state park property. An amendment struck out the inhibition against flower-picking on the property of another person.

It got by its first appearance in the house with the fines reduced and the inhibition limited to unauthorized flower-picking in state parks and reservations.

Disappearance of wild flowers native shrubs under the onslaughts of choppers and pluckers led to the offering of the bill. Most members treated it as a joke and assumed it was intended to prevent the spread of a great evil to the people's morals.

"Don't let our children grow up to be a race of flower-pickers," was the general tone of ridicule heaped on the measure.

One member declared he would not deprive children of today of the great pleasure he derived as a boy in stopping on the way to school to pick flowers for the teacher.

Amendments were offered to exclude the "Wild Irish Rose" to include "wild oats" and to protect various weeds and Johnson grass.

One section of the bill that will have a very practical effect in preventing the disappearance of native shrubbery remains in the bill. It prohibits the display for sale of holly, yucca, smilax, dogwood, red bed, greybeard, jessamine, bluebonnets, Indian blankets, cactus, galardias, gentians, gay feathers, evergreen or decorative trees, shrubs, vines, flowers, ferns or moss that have been picked, cut or dug in violation of the act.

Penetrating the mass of surface maneuvers in connection with the retention of reprimanded Jed C. Adams of Dallas as the Texas member of the National Democratic Executive committee, the moves seem to have been:

State Democratic Chairman Maury Hughes seems to have peevish Adams some months ago by announcing that Texas patronage would have to get the OK of the state democratic committee.

When Adams decided to resign and accept a federal appointment, news he was quitting got to James E. Ferguson at Austin quicker than it got to Hughes in Dallas.

By the time news reached Hughes, who greatly desired to become national committeeman, Ferguson had pledged most of the state committee to vote for C. C. McDonald of Wichita Falls and the East Texas oil field.

Hughes, caught napping at the start out-generalized Ferguson and got the ear of Party Chief Jim Farley. Result—Adams' resignation was refused. Vice President Garner seems to have been an innocent bystander.

The whole thing leaves a stalemate with Ferguson and Hughes who was an enthusiastic Ferguson supporter, at loggerheads.

Incidentally word filters into Austin that endorsement of the two Texas senators is not going to have much weight in the future in regard to federal appointments in Texas. Neither has been a consistent supporter of the president's policies. Farley apparently thinks a little discipline would do their party loyal good.

Foxy Farley has also announced that the republicans are not going to be ousted en masse to join the army of the unemployed.

Farley may not have been thinking solely of Republicans: when all the places they vacate are filled, the administration whip has lost its cracker. By stretching out the appointments over an indefinite period he keeps the whip-hand.

torium was attractively decorated for the occasion, and delightful refreshments of punch and cake were served at the close of the meeting. Mrs. Fred Roberts, who served as vice-president during the past year, had charge of arrangements.

SALMON WEINERS
MARSHFIELD, Ore., May 30 — Salmon weiners are the latest here. A local packing company has compounded those delicacies out of fish and cereals and they bid fair to prove popular.

GOERING PLANS DEFENSE FOR AIR ATTACKS

BERLIN, May 30 — Captain Herman Goering has completed the organization of his Reich's ministry of aviation by adding a department for protection against aerial attacks.

The department is headed by two experts, ex-General Grimme and ex-Major Waldschmidt. General Grimme was commander of all German anti-aircraft forces during the World War while Major Waldschmidt was department head at General Headquarters for the protection of the hinterland and Western Germany against aerial attacks.

The new department's first task will be the organization and unification of the various local bodies, which have been formed for protection against aerial attacks by the various municipalities. Simultaneously it is preparing for country-wide propaganda aiming at educating and training the population as to the most effective means against attacks from the air.

Education and training in this respect is vital for Germany in the opinion of experts. In a future war, they point out, every part of the country may be affected by aerial attacks. Germany borders on eight countries each of which has an air force. Four of these countries, Denmark, Holland, Switzerland, and Lithuania, have however, but small air forces. Yet the other four neighbors possess big air fleets and according to German figures France, Belgium, Czechoslovakia, and Poland between them have approximately 6,500 war planes of which approximately 1,700 can be used for bombing purposes.

Death of Huerta Remains Mystery

EL PASO, May 30 — The mysterious death here of Victoriano Huerta, deposed President of Mexico, during the World War probably prevented invasion of the United States by German supported Mexican rebels, residents here have learned from a book by a famous German spy.

A short while after Huerta had conspired with Capt. Franz Rintelen author of the book "The Dark Invader," in New York City he died here. Under terms outlined in the book, Germany was to supply funds and ammunition for Huerta's revolution to reclaim the Mexican presidency in return for Mexico's support in an American invasion.

Many tales about the death of Huerta met death. One is that he was poisoned. Rintelen relates he was warned in New York, "You are being watched. Look out. Don't wait for Huerta. He has been poisoned."

Another version is that a mysterious man slashed him to death. Huerta's attorney, Tom Lea, insists the deposed President died a natural death.

20th Bobcat Taken By Local Hunters

The twentieth bob-cat to be caught this spring and last winter by Cisco hunters was stretched out at the rear of the city hall this morning. The cat, a female, was taken by a party of four men who ran the animal with hounds for an hour and a half last night.

The party was made up of Odie Kean, C. S. Van Cleave, John Potter and F. N. Taylor.

Fish Fanciers Stage Exhibition

FORT WORTH, May 30 — Fish fanciers not to be outdone by golfers, tennis players and riflemen, staged a fish exhibition in the Women's club here at the invitation of the Fort Worth Garden club.

Bob Ahey, amateur in good standing with the A. A. U. of F. F., won the tropical fish sweepstakes with a blue Betta. The veil-tail Oranda of Paul Schneider, professional, won the golf fish sweepstakes one fin up and five to go.

W. W. Coates, Jr., pro, led the field, or pond with the best display of tropical fish. Joe W. Anderson, amateur, took high honors with the best balanced aquarium.

Leonard Brothers won the award for the largest display of golf fish with a score of 1,869 out of a possible 1,870. It was a tournament record.

Mrs. Alexander Deussen, Ponder, won first place with her water lilies.

"TALLEST" MONUMENT

DUXBURY, Mass., May 30 — This town boasts the "tallest" monument in the world — the historic Miles Standish monument. When skeptical tourists challenge this claim and insist that Washington monument and many others are taller the Duxbury citizen points to the crest and exclaims: "It's Miles in the air!"

ON WEDNESDAY afternoon the Humble Company will completely empty Humble Gasoline tanks at all Humble Service Stations. This is a necessary step in the further development of Humble service: An important announcement in evening papers Wednesday and morning papers Thursday will tell you why.

HUMBLE
OIL AND REFINING
COMPANY

Plans to Employ Vets Not Complete

A bulletin from Read Johnson, manager of the regional office of the veterans' administration of Dallas, gives the following information concerning the enrollment of ex-service men in the reforestation conservation corps:

"I am in receipt of information from the administrator of veterans' affairs concerning tentative plans which are being worked out with reference to the enrollment of ex-service men in the reforestation conservation corps under authority of the executive order of the president, dated May 11, 1933.

"The administrator states that unemployed veterans of the World War contacting this office personally or by letter regarding enrollment in the reforestation conservation corps should be advised that definite plans for enrollment have not been completed at this time. Selection of veterans for this enrollment will be based upon state and local quotas, therefore veterans should remain at home and await official announcement of the completed plans. Some time will be required to provide proper facilities and nothing can be gained by veterans going to Washington. Enrollment in this corps can be expedited by making application through the regional office of the veterans' administration when the tentative plans have been worked out. I have been advised to establish a tentative register for those veterans desiring, at the proper time, to make final application. As soon as definite information has been received as to the completion of the plans, they will be announced through the medium of the press."

"Young America" Formed at Ft. Worth

FORT WORTH, May 30 — Young America, an organization of youths unmarked by blue, black or brown shirts, has been created here with President Roosevelt's "Looking Forward" as its text-book.

Young America has a three-point program according to Henderson Van Zandt, 18, freshman in T. C. U. and student of economics:

1. To bring youth to a clearer realization of conditions existing in the state and nation, and the perils that lie ahead if those conditions are not altered.
2. To right injustices and wrongs.
3. To create for youth a foundation of practical as well as theoretical knowledge by which to judge the differences of the social political and economical order.

"Old, white-headed leadership has failed us. We must find new leaders who are progressive in their policies. We have in this nation resources which would make everyone happy if we could apply them in such a way as to have fair distribution," young Van Zandt pointed out.

He hopes the movement will spread throughout the state and nation.

O'Brien Wins Mat Go By Double Kayo

RANGER, May 30 — Jack O'Brien Milwaukee brewer, took the decision over Ug Moore, better known to mat fans as Young Sampson, here last night when the two knocked themselves out in attempted flying tackles at the same time Moore fell unconscious on his back and O'Brien crawled over and went through the motion of holding him before he too passed out of the picture. Each had previously won a fall Moore with a Rocking chair split and O'Brien with an alligator clutch.

Woody Windham, Anson battler, outpointed Frankie Costello, Mexican featherweight champ, in the semi final. Bill Angus, Ranger grappler, won over Bulldog Collins with an airplane spin and a body pin. The spin was so effective that Angus was able to pin Collins again 11 seconds after the intermission.

OLD ORDERS CASHED

NEWBERG, Ore., May 30 — Two money orders, 17 and 18 years old were cashed by the local post office. B. S. Cook found them among his possessions.

Deported

Fate has been unkind to Hedwig Wengerek, but she'll be back in Germany with her playmates soon. Deserted in California by a bogus clergyman who adopted her from a Hamburg orphanage a year ago and brought her to this country, the 7-year-old girl has been deported. She is shown here aboard ship as she left New York.

Less Suffering After She Took Cardui

"Periodically I have a dull ache in the lower part of my back," writes Mrs. Ruth Hill, of Charleston, W. Va. "I get real dizzy, my head swims, and I have a weak, 'gone' feeling that keeps me from doing my work well. I have found that taking Cardui prevents this. I have been greatly benefited from its use."

When womanly aches and pains are due to a weak, run-down condition, take CARDUI.

Sold at the drug stores here.

Attorney Plans Race for Congress

COLORADO, May 30 — George Mahon, serving a second term as district attorney, will become a candidate for congress from the newly-created 19th district in the next election, it has become known.

He said he would announce his candidacy "at the proper time."

He will be opposed by Judge Clark M. Mullican of Lubbock, already announced, and Sen. Nat Patton of Crockett.

SEED HELPS FAIR
LUXEMBURG, Wis., May 30 — Alfalfa seed grown inside the race track at the fairgrounds here aids in maintaining the fair. The seed is of unusually fine quality and the demand always exceeds the supply.
