Blew the Combination of Both Depot And American Express Co. At Cross Plains Tuesday Night but Got No Cash

LOBOES TO PLAY STEPHENVILLE AT RANGER PARK

The Cisco-Stephenville game for the Class A-B championship of the section will be played in Ranger on Thanksgiving day. This was the decision reached at a conference held in De Leon between representatives of Cisco and Stephenville last night.

CROSS PLAINS, Nov. 19.—Burglars gained entrance to the Missouri, Kansas & Texas depot here sometime late Tuesday night and blew the combination on both the American Express and the M. K. & T. railroad company's safes.

Entrance was effected to the office from the waiting room, through the ticket window. No noise was heard by the night watchman on duty in the uptown district.

KIDS PLAYING SOLVE MISSING MONEY MYSTERY

MEADE, Kans., Nov. 19.—Two children, Elden Seecher, five, and his brother, Philip, three, have solved a missing money mystery here which has puzzled Meade county for two years.

A year ago the Jensen home was rented to S. F. Seecher. A few days ago a load of feed was stored in the barn and it is believed a hay hook dislodged the missing pocketbook.

MOVIE PRODUCER DEAD IN LOS ANGELES TODAY

LOS ANGELES, Nov. 19.—Thos. H. Ince, pioneer movie producer, dropped dead at his palatial home on Beverly Hills, a suburb, today.

LADERA MAY HAZEL

After an illness of some time Ladera May, the little daughter of Mr. and Mrs. W. D. Hazel, died at the family home, 1000 West Sixth street Tuesday afternoon, aged five months and twenty-five days.

COMMANDER OF BRITISH FORCES BOMBED IN EGYPT

LONDON, Nov. 19.—Sir Lee Stack, commander of the British forces in Egypt, was wounded seriously when bomb throwers attempted to assassinate him today.

SWEETWATER SECRETARY HURT, CROSSING CRASH

SWEETWATER, Nov. 19.—Henry Bartlett, 40, for fourteen years city secretary, was perhaps fatally injured today when his car was struck by a train at the Texas & Pacific crossing.

TERRIBLE TURK AND LOCAL MAN IN WARM SETTO

Cali Pasha, a Turk, and Jimmy Patterson, of Cisco, staged a wrestling bout at Rising Star last night that was termed a real thriller by those who witnessed it.

Patterson stated to the Daily News this morning that he hoped to prevail on the Turkish gentleman to agree to a return bout in Cisco at an early date, when he hopes to tame the ill man in artistic style.

STEPHENS CO. SEEKS A NEW COURT HOUSE

BRECKENRIDGE, Nov. 19.—A petition is again being circulated asking the commissioners court to call an election for the purpose of issuing \$250,000 court house and jail bonds to erect a new court house and jail for Stephens county.

According to legal opinions it is really not necessary to issue bonds to build a new court house and jail, as Stephens county has sufficient funds to erect these buildings without bonding the county.

ALSABROOK AND WILSON GUESTS OF LIONS TODAY

Lion Williamson was chairman at the Lion luncheon today. Lobes Alsabrook and Wilson of Cisco high school were present as honor guests and made short talks.

MRS. SPOONMORE'S MOTHER DIES AT EDEN LAST MONDAY

Mrs. H. Allen, mother of Mrs. S. S. Spoonmore, of Breckenridge, but formerly of Cisco, died at her home in Eden Monday night. It has just been learned here.

“YE OLD FASHION COUNTRY DANCE” RANGER, NOV. 21

“You and your lady are expected to be present at the Country club, Friday, November 21, 1924, at 9 o'clock, p. m. ‘Ye Old Fashion Country Dance,’ for members only. Requiring overalls for the men and gingham dresses for the ladies.

BEST PICTURES SEEN IN CISCO AND SEEN FIRST

No city is complete without places of wholesome amusement. At this day there are no places so popular as the moving picture houses, and the town that can boast of well regulated movie theatres, where the best pictures can be seen, has considerable to be thankful for.

Cisco has two shows that are not excelled in this section of the state. The latest are seen, and they are seen in Cisco first. Speaking to Manager Fanning of the Broadway recently on this subject, he said: “Naturally there is more profit in the inferior pictures, as the latest cost more, and we rarely raise the price of admission, but regardless of the cost of the latest productions, the Broadway shows them.”

Twenty-one little tots will drop out of school at the end of this week with broken hearts because their first year of school is ruined. They are the kindergarten pupils whose room was destroyed by fire when the First Baptist church was burned.

PRELATE OF ALL THE IRISH DEAD BELFAST TODAY

BELFAST, Nov. 19.—Cardinal Michael Logue, Catholic prelate of all Ireland for the past thirty years, died today at the palace of the cardinalate at Armagh. He was eighty-four years of age.

Most of the ex-service men received their discharges in 1919 and of course their five-year limit is soon to expire. Liberal provision has been made by the government to care for those disabled in its service or incapacitated in any way as a result of war service, and the Red Cross, through its local chapter in the Cotton Exchange building, is anxious that those eligible for compensation get what they deserve.

NOT AN ISOLATED CASE MUSKOGEE, Okla., Nov. 19.—

Federal Judge Robert L. Williams here has declared war on wealthy violators of the Volstead act. “Why don't you officers go out and round up some of these high collar guys and bring them in here and let me work on them,” commented Judge Williams in opening the fall term of court here, which has the heaviest calendar of liquor cases in history.

MAN MURDERS TWO HUSBANDS OF SAME WOMAN

EDWARDSVILLE, Nov. 19.—Emil Fricker, 50, a wealthy farmer charged with the murder of two of the husbands of pretty Minnie Schlect, was given the life penalty today for the murder of Robert Kehrl, her first husband, four years ago. He also faces trial for the murder of John Nungesser, her second spouse, last September.

HEARING BY R. R. COMMISSION JUNK MAY ROAD

BROWNWOOD, Nov. 19.—In a letter to the Brownwood chamber of commerce from Clarence E. Gilmore, chairman of the state railroad commission, it is stated, a meeting will be held in Brownwood on December 15th at ten o'clock for the purpose of hearing causes and discussions upon the discontinuance of the Brownwood North and South railway line operating between Brownwood and May. A petition asking that orders be given for the discontinuance of the road was presented the Interstate Commerce commission a few months ago.

FOUR AIRPLANES BURNED MUSKOGEE, Nov. 19.—

The air dome at Hat Box field and four government planes were destroyed by fire today, entailing a loss of one hundred thousand dollars. Incendiarism is suspected.

KINDERGARTEN THREATENED BY HOUSE SHORTAGE

The use of the side room of the old Presbyterian church was given the class, but the room was entirely too small for the class. In addition the sanitary conditions of the room were inadequate from the standpoint of light and ventilation. It was thought best to discontinue the class rather than attempt to carry on under conditions that were bad for the children.

Last year the kindergarten was taught at West Ward building. But the crowded condition of the school did not leave a single room available for the little people. The law requires that kindergartens be taught where the demand justifies it, and provided that a petition with twenty signatures be filed before August 1, requires the school district to provide free kindergarten facilities.

This should call attention to the housing situation of Cisco's public schools. By the discontinuance of this kindergarten twenty-one people will be held back a year by lack of room.

EX-SERVICE MEN URGED TO FILE BEFORE 1925

DALLAS, Nov. 19.—With less than two months before the year 1925 arrives, the Red Cross is again issuing an admonition to disabled ex-service men who are eligible and entitled to compensation from the government, to file their claim before the time expires.

In case of disability, no compensation shall be payable unless the claim is filed within five years after discharge or resignation from the service. If the veteran died in the service his family or dependents must file their claim within five years of the time the death was officially announced.

WICHITA, Kans., Nov. 19.—

Bill Freeman's latest “canned heat” jag cost \$14 and he still has a stiff fine to pay the city. Bill who introduced the latest in prohibition liquors to the city, left home the other night for a downtown hotel where he changed his name temporarily to “W. J. Jones.” A few hours later when police and an irritated clerk broke into the room, they found Bill snoring, surrounded by empty heat cans. Bill had scarcely been locked up when Mrs. Freeman appeared at police headquarters.

Tranquility of International Labor Convention Threatened by Old Fight Of United Mine Workers and B. of L. E.

EL PASO, Nov. 19.—With the swiftness and suddenness of a cyclone descending out of a clear sky, dark clouds of war loomed obviously today over the international labor convention here, when it was seen all the placid leaders discovered they had not removed all obstacles, and the atmosphere became charged with the static of battle overnight.

The resolution which threatens to precipitate the conflict, charges that the Brotherhood of Locomotive Engineers are operating coal properties in Virginia and Kentucky on a non-union basis; paying less than union rates and evicting the miners and families in the same manner of capitalist-owned mines in the past, and are posting guards about the mines to further jeopardize union organizers.

SCRANTON HAS A HOME ECONOMIC CLUB AND P-T. A.

SCRANTON, Nov. 19.—Scranton boasts of the only Parent-Teachers association with a man for president. A parent-teachers association was organized at this place Friday evening, and the following officers were elected: President, J. H. Shrader; first vice-president, Mrs. Lawson Gattis; second vice-president, Rev. M. F. Richardson; third vice-president, B. Brummett; recording secretary, Mrs. Etta Harlow; corresponding secretary, Mrs. Wilma Brummett; secretary, Homer Lane.

An unusual feature was the interest manifested by the men in the P-T. A. on this occasion, which is most gratifying. In most communities the women are the only ones that take interest in these affairs. The next meeting will be held tonight, when much of the details will be worked out.

A home demonstration club was also organized on this occasion, which will be under the direction of Miss Canafox, who will be assisted by Noah and Mrs. M. F. Richardson.

EPIDEMIC OF HICCOUGHING Baffles M. D.'S

MILWAUKEE, Nov. 19.—The hicoughing epidemic that is sweeping the middle west visited Milwaukee today, when over sixty cases were reported. Physicians are baffled, and are at sea as to the cause of the malady, or the treatment to prescribe. Several deaths have occurred in other communities. The hicoughing attacks the victim and continues for several days, finally tearing down the nervous system.

ON CANNED JAG WITH \$2,200 IN LIBERTY BONDS

WICHITA, Kans., Nov. 19.—Bill Freeman's latest “canned heat” jag cost \$14 and he still has a stiff fine to pay the city. Bill who introduced the latest in prohibition liquors to the city, left home the other night for a downtown hotel where he changed his name temporarily to “W. J. Jones.” A few hours later when police and an irritated clerk broke into the room, they found Bill snoring, surrounded by empty heat cans. Bill had scarcely been locked up when Mrs. Freeman appeared at police headquarters.

“You got my husband, she asked. “Yep,” replied the sergeant. “Well, he's got \$2,200 worth of my liberty bonds,” she said. A search of the recumbent Bill proved the wife was right. Bill apparently had not found it necessary to draw upon the man financing his canned heat purchases.

DEMONSTRATIONS BY ANTI FACISTI ALARMING ITALY

ROME, Nov. 19.—Anti-Facisti demonstrations again flared up over Italy today. Three Facisti leaders were ambushed in different cities by Communists. Two were shot and one was clubbed.

Previous to the institution of these clubs the Scranton school gave a very enjoyable playlet. Miss Ruth Ramsey and Mrs. L. D. Hiller came out from Eastland and assisted in the organization of both the home economics club and the P-T. A.

COLONEL PENICK ENDORSED

At a general gathering of his fellow townsmen Monday night, Col. R. L. Penick, of Stamford, was unanimously endorsed for a place on the state highway commission, and this recommendation will be filed with Mrs. Miriam Ferguson as soon as she has taken up the gubernatorial reins at Austin.

That the Cisco-Stamford-West Texas country should have a competent, far-seeing representative on this important commission is patent to all, and the needs of this great, rapidly growing territory would be well taken care of should Colonel Penick meet with official favor at the hands of the incoming governor.

The first suggestion that a West Texan be chosen as one of the three commissioners seems to have come from R. Q. Lee, of Cisco, who made a trip to Austin sometime ago and presented the name of Hon. Ben Russell, of Baird, one of the most capable men in the state.

In the meantime, however, West Texas forces appear to have centered on Colonel Penick, whose fitness is conceded by all.

COLLEGE MEN BADLY SLANDERED

College men have been grossly slandered. Considerable publicity has been given to a statement that there were as many college men in the country's prisons as in its colleges. If that were true, it would indicate the downright failure of higher education from a moral standpoint, if in no other way. But it is not true, as any inquirer might easily have discovered.

It was a New York judge who made the statement. Now the warden of Sing Sing, largest state prison in the United States, reports that there are only five college graduates incarcerated there. The number of college instructors and students in New York state is probably not less than 100,000. It is not likely that other prisons would show a very different situation.

If college graduates are more honest than the average, it is probably because they are better equipped to make an honest living, and better able to understand that honesty is the best policy, and have better standards to live up to.

TRANSCONTINENTAL AIR EXCURSIONS

Since the Shenandoah has proved the possibility of air trips across the continent and back, it is announced that trans-continental excursions may soon be arranged for air tourists.

Admiral Moffett, chief of the navy air service, who traveled in the Shenandoah as a passenger, is enthusiastic about the prospect. "To all who desire to avoid the dirt and dust of motor car and passenger train and the other discomforts of land travel," he says, "the airship will satisfy their wants. Speed and safety and, as an additional attraction, a wonderful view of the American continent from the skies, will be available by this method of travel."

There is only one fly in the flying ointment, so to speak. That is the fact that round trip tickets for such a tour are expected to cost from \$1,000 to \$5,000. The price will have to come down a bit before sky travel will be really popular.

CHILD PRODIGIES CAN LEARN

Twenty-five years ago, a baby in Sioux City gained the reputation of being the brightest baby in America. Viola Olerich, at the age of 3, was operating a typewriter skillfully and at 4 was winning spelling contests against college graduates. She was taught mostly by her father, a college professor, and made remarkable progress. After her college course—as happens so often with prodigies—little was heard from her.

Now Viola is heard from again. Her present publicity is due not to her scholastic attainments or worldly achievements, but to the fact that she has a daughter, two years old—the age at which the mother started her remarkable educational career—and she is not forcing the child's mind and bringing her up as a prodigy. Which shows that Viola really learned something from her own educational experience.

THE FEDERAL RESERVE SYSTEM

The Federal Reserve System on November 16 celebrated its 10th birthday. In anticipation of this anniversary, the "3-C Book," a publication of the Philadelphia Federal Reserve Bank, has compiled a symposium of the opinions of administration officials, bankers and business men as to the value of the system. The symposium is led by a statement from President Coolidge, submitted as a letter to the editor from the White House.

"The unfair criticism of the system during the last few years," the president declares, "causes me to welcome the opportunity to say a word in appreciation of its service to the country. The Federal Reserve banks have operated during the first ten years of their existence under abnormal conditions. They did not have the opportunity to adjust themselves to the normal economic life of the country before the severest tests came. The system is an infant, measured in time, compared with the long-established central banking systems of the world. But it has proved itself a bulwark of strength in times of emergency. Its function has been to bring the country through this trying period without financial collapse and with minimum of strain. This task it has performed. Perhaps some deflation was too abrupt. That error will not be repeated. Our banking system emerged from perhaps the greatest crisis of modern times without impairment of its essential strength and solidarity. Its service to business and to the public in preventing a financial collapse is inestimable."

"That the business of the country has been able after the disorganizing influences of war to adjust itself so readily to the new conditions and prepare a sound basis for orderly development is due in no small measure to the stabilizing influence of the Federal Reserve System."

While the credit and currency systems of many countries have remained since the war in a state of chaos and instability which is deadly to economic development, our own country has already made the necessary readjustments and reached a degree of strength and stability that insures healthful business expansion.

"There are those who, oblivious to the magnitude of the trust imposed upon the Federal Reserve System, would subject it to political attack for partisan purposes. I cannot emphasize too strongly the dangers of any attempt to influence the system's activities for partisan expediency. It is an entirely non-political organization, and in order to render the greatest service should be as free from partisanship as the Supreme Court of the United States. Your efforts to disseminate information as to its real service and true function constitute public service. An informed public will be the greatest defense of the system."

OMER DECKER IS ROUNDING INTO HEALTH

"Little Omer Decker is now a healthy child, thanks to the good people of Cisco who have contributed the proper food to restore this little fellow back to health," said Dr. J. W. Gregory, who has been looking after this little waif since the attention of the public was called to the condition of the Decker twins by the Cisco Daily News some time ago. "It will be remembered that Gomer, the other of the twins, died a few weeks ago, but the saving of one life must be gratifying to every person who has contributed to their welfare."

"Omer now weighs 11 pounds," said Dr. Gregory, "and is quite a different looking baby from the poor little emaciated waif that we began nourishing a few months ago. He

COMPLETIONS IN THE MORAN SHALLOW FIELD

MORAN, Nov. 19.—Development continues to go forward in the Moran field, and while the entire district may be likened unto a pepper box, so well punctured is the surface of the earth, the work still goes on, and the production still holds up. They are bringing in new wells every week. Here are just a few that have been reported, which is but a fraction, as many of these small producers are put on the pump and few ever hear of it:

Gilliam & Logan have completed a new well on their Hendricks lease, section 4, L. A. land north of Sedwick, estimated at 25 to 40 barrels. Elliot & Chandler and Mrs. Bryan brought in their Pisch No. 2, section 7, L. A. land, estimated at 15 barrels per day, high grade oil. John Dennis et al. have a new completion on their W. A. Carter lease, section 70, L. A. land, at 640 feet. This well came in a gasser but the oil soon came in and is now estimated at 15 barrels per day. G. L. Powell has just completed a nice gas well at 500 feet on section 39, L. A. land, C. B. Snyder fee. This well is located near the Snyder ranch headquarters and the gas will be used for his residence and for drilling purposes. John Sherrin on the J. W. Littlefield lease, section 7, L. A. land has a new five barrel producer at 570 feet. Mr. Foster, manager of the Dallas Bradford Oil company, has just completed a ten to twenty barrel well on the John Hromas fee, section 66, L. A. land at 615. There is quite a bit of activity in this section owing to new development the past few days. Col. J. T. Hogan is offsetting the Foster discovery on the north, the Lion Tamers on the east and Johnson and Williams on the west.

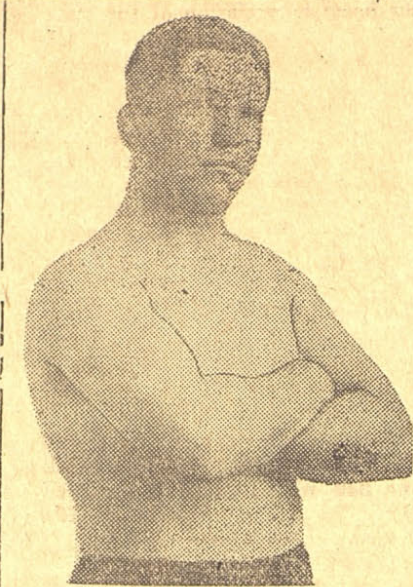

NEW PIPE LINE IN TANNEHILL IS BEING LAID

ALBANY, Nov. 19.—The Texas company is now in the field making the preliminary arrangements for extending the pipe line to the Tannehill district, which is said will be nine miles in length, taking in a district that is most promising in production. The Texas company has shown its faith in that district by its decision to run a

pipe line to take care of the production.

Mr. Tannehill, who recently came out from Los Angeles, stated that there are nine producing wells on their holdings—the ninth having recently been brought in, but no test has been made. A. M. Yoot et al. have just drilled in a new well on the Moberley lease. The sand was picked up at the 900-foot level, and is looking good. A. P. Hoffman and H. M. Fagan have leased 80 acres in section 59, E. T. R. R. lands, and are now putting up a rig. This will be watched with interest, as it is about a mile and one-half from production. G. M. Applegate was due to spud in a well the first of this week on the E. A. Jeter lease, southwest corner of block 11, T. & P. lands. This is across the railroad south of the Moberley. It is this production that the new pipe line will take care of in conveying Shackelford county crude to the refineries.

FAVORS "NECKING PARTIES" OKLAHOMA CITY, Nov. 19.—Mayor Ed Aughty, Oklahoma City's new mayor, doesn't look askance at "necking parties." "I say, let 'em neck," announced the mayor at the first meeting of the new city commission. "Within reason, of course. But the poor working girl who hasn't any home to put in has a right to do it on the public highway. Anyhow it's nobody's business."

Ray Zimmer, of California who meets Jimmie Patterson at the city hall Tuesday night in a wrestling match. Their weight is about the same, 180 pounds, and the match will continue until one or the other secures two falls. The contest will be staged under the direction of Cisco Elks.

VERY IMPORTANT! YOUR SCHOOLS! It will be necessary to collect about \$4,000 tax in the next ten days to enable us to meet the next teachers' pay roll. That is all.—S. J. Vaughan, Business Secretary. adv.

HIGH SCHOOL FLAPPER IS A MATTER OF DRESS

KANSAS CITY, Kans., Nov. 19. Believing that the high school flapper problem is largely a matter of dress, authorities of the Catholic high school here, have adopted a uniform of blue French serge with white linen collars and cuffs for the 150 girl students. The girls wore their new uniforms for the first time today and declared themselves pleased with them inasmuch

as sheer silk stockings were not put under the ban.

RELIC OF TERRITORY DAYS

GUTHRIE, Okla., Nov. 19.—J. H. Harris, a farmer, on the Cimarron river near here, has found a complete counterfeit outfit buried in the sand about ten feet from his barn. Authorities believe the outfit was hidden there by "coiners" in the Indian territory days of the state.

VANDALS DEFACE MEMORIAL

Thanksgiving—Thursday Next!

This Store will be closed on Thanksgiving Day as usual.

It is fitting that a day should be set aside each year to give thanks to the Omnipotent for the blessings received.

It is a time-honored custom, observed on the last Thursday in November since 1863 when President Lincoln so declared by proclamation.

It was first observed in America when in 1621 the Plymouth Pilgrims devoted the day to an acknowledgment of their first harvest.

Katy Average Train Load Increased 87%

The Katy has made outstanding progress since 1913 in transportation savings due to improved locomotives and other facilities, increasing its average train load 87%. Increase in the average tractive power of locomotives on American railroads since 1913 has been 23.07%. The Katy increase has been 46%.

Saving In Transportation Cost More Than \$1,000,000 a Day

INCREASED operating efficiency since 1914 is saving more than a million dollars a day in rail transportation cost. Based upon the average train load of 1914, American railroads would require 80% more trains than they are now operating to move 1924 traffic. On the basis of 1924 wages and other train costs, these additional trains alone would increase railroad expense \$200,000,000 a year. Corresponding savings have been made in every factor by which railroad efficiency is measured, increasing the annual savings proportionately.

Increase in operating efficiency has been particularly striking since September, 1920, when the "Transportation Act" became completely effective. In 1923 and 1924, American railroads established new records—not only for volume of traffic handled with freedom from car shortage and congestion—but for maintenance of train schedules, fuel efficiency, average train load and in many other respects. The savings resulting have made possible reductions in railroad rates. Corresponding reductions in railroad wages have not been made.

Constantly improving its service and capacity to serve the Southwest, the Katy—the pioneer line in its distinctive territory and the only line serving all the more important centers in Oklahoma and Texas from both Kansas City and Saint Louis—is more than keeping pace in the development of its operating efficiency. It is now moving 45% more freight traffic than it was ten years ago, with only 23% increase in train miles. Improved track and road-bed, more powerful locomotives, and other new facilities, involving large increases in the Katy's investment, make these results possible and secure to the Public the benefits of savings in transportation cost. The Katy solicits the support of its patrons in maintaining conditions that will encourage continued development of its efficiency.

SANTA WOULD BE OUT OF LUCK IN THIS HOUSEHOLD

JOHANNESBURG, Nov. 19.—The existence of a native who has seventy-nine wives by whom he has had 134 sons and 50 daughters, is revealed in the new report of the third census, the most formidable blue book ever published in the union.

The native lives in the Zoutpansberg district, where, according to the blue book, he had a rival with 110 wives.

This man has fifty-one sons and forty-two daughters by fifty-five of his wives, no wife having more than three children.

WE ARE STILL FROM MISSOURI

POPULAR BLUFF, Mo., Nov. 19.—This is an honest city! Honest! The city council this week approved a warrant refunding \$1 to Robert Logan for a recent overpaid fine. Logan worked a day on the rock pile before his friends came to his rescue, and had a credit of one dollar due him as a result.

Lorraine—Work started grading Bankhead highway through Nolan county preparatory to paving.

What Can Pimply Faced Boys and Girls Expect

Nobody knows better than the boy or girl who has been slighted time and again by their supposed "best friend," how humiliating it is to have to stand for such "cutting" things when they know they can expect nothing more as long as they don't look attractive on account of a pimply, blotchy or rough skin.

But such heartaches don't have to be put up with. Any boy or girl who is troubled with these skin blemishes can get rid of them if they will just use Black and White Ointment and the Soap. The fact that they sell at the tremendous rate of more than two million packages a year shows how popular they are. They are economically priced, in liberal packages. Any dealer can supply you with both the Ointment and the Soap. The 50c size Ointment contains three times as much as the 25c size.

RESIDENTS FLED INTO FREEZING OUT OF DOORS

HARRISBURG, Pa., Nov. 19.—Two persons were burned to death and another will probably die from injuries by fire which swept two houses today, while others fled from the burning buildings in their night clothes into the freezing out of doors. B. N. Keller died trying to save his infant son, who also perished.

Dallas—Eleven streets being paved; five newly paved streets opened to traffic.

GRANTED INJUNCTION

BRECKENRIDGE, Nov. 19.—An injunction was granted in Judge Schenck's court to prevent Rick Neal from being in the Marie hotel. The plaintiff, Mrs. C. M. Million, alleges in her petition that she was the owner and proprietress of the Marie hotel in which Neal is alleged to have no interest and that he had taken charge of the place and refused to allow her to enter the hotel.

JUVENILE OFFENDERS ARE PAROLED TO "BIG BROTHER"

KANSAS CITY, Kas., Nov. 19.—The youngest probate court judge in Kansas, Frank H. Thompson, 23 years old, inaugurated a new plan today of handling juvenile offenders. Judge Thompson took office November 4, for a short term of two months, caused by the death of Judge John T. Sims. Under the "boy-judge's" plan, youthful offenders will be paroled to young men and women friends who will be instructed to handle their cases on a "big brother" and "big sister" basis.

GAME WARDEN USES AIR PLANE TO GET HUNTERS

LIBERTY, Mo.—Missouri game wardens have taken to the air in an effort to stop duck hunting from motor boats in violation of the state law. For days a mysterious airplane has hovered over the mud flats along the Missouri river near here. Today it was disclosed that the plane was being used by game wardens who had devised this method of catching the cheating hunters in the act. A number of arrests are expected as a result of the airplane's acquired evidence.

EXTEND THE SLOGAN TO EVERY COMMUNITY

New York, Nov. 19.—A drive for the signatures of 400,000 drivers of motor vehicles in New York to a safe driving pledge has been started by Barron Collier, multi-millionaire special deputy police commissioner in charge of the bureau of public safety.

The pledge which drivers are being asked to sign reads:

"I hereby promise that I will obey all traffic regulations, watch

out for children and pedestrians, and drive safely at all times to the end that the appalling sacrifice of life, caused by carelessness, may be stopped and the streets of New York City made safe."

After signing the pledge the driver is given a certificate to paste on his windshield, carrying the official seal of the police department.
